PETER WILLIAM FUNNELL, Esq.	JOHN TOLHURST, Esq.	WILLIAM URQUHART, Esq.
FREDERICK INGOLDBY, Esq., F.R.C.S., Eng.	GEORGE PHILLIPS, Esq.	
ALFRED EWIN, Esq.	GEORGE BROWN, Esq.	
FREDERICK COX, Esq.	THEOPHILUS WILLIAM WILLIAMS, Esq.	
ANDREW MIDDLEMASS, Esq.	ROBERT GRANT WEBSTER, Esq.	

1. The Minutes of the Meetings of the Board, held on the 18th and 23rd December last, were approved, and were signed by the Chairman, and by two other Members of the Board present at such Meetings respectively.

2. Read a Letter, as follows—

Firsleigh, Isleworth on Thames,
6th January, 1886.

DEAR SIR JAMES,—My health having failed, I resign my position as Member of the Metropolitan Board of Works, for the Parish of St. James, Westminster.

I thank you, Sir James, and all my colleagues, for that genial feeling shown to me during the nine years I have been associated with the Metropolitan Board of Works.

With every sincere wish for the continued prosperity of the Board,

Believe me, &c.,
(Signed) THOMAS HENRY ELAM.

Sir James M^cGarel-Hogg, Bart., K.C.B., M.P.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the resignation of Mr. Elam be notified to the Vestry of St. James', Westminster.

3. This being the day for receiving Tenders for the supply of 2,000 tons of Manganate of Soda, 1,000 tons of Sulphuric Acid, and 100 tons of Caustic Soda, for deodorizing purposes,

The Clerk laid before the Board the several Tenders which he had received pursuant to the Advertisement issued in accordance with the Board's Resolution of 11th December last (No. 4).

It was *moved*, seconded, and *resolved*—That the said Tenders be now opened.

Tenders from the undermentioned persons were then opened—

Tenders for Manganate of Soda.

Mr. H. B. Condy, Battersea.

Messrs. Middleton, Kirkpatrick, and Barr (per J. A. Guthrie), No. 4, Cullum-street.

„ Sadler and Co. (Limited), No. 85, Gracechurch-street.

„ Tennant, Sons, and Co., No. 9, Mincing-lane.

„ C. Christopherson and Co., London Agents for Messrs. James Muspratt, of No. 31, Dale-street, Liverpool. (Also offering to sell to the Board 20 tons of Soda which they have accumulated.)

„ W. V. Robinson and Co., No. 6, Market-buildings, Mincing-lane.

Tenders for Sulphuric Acid.

Messrs. F. W. Berk and Co., No. 1, Fenchurch-avenue.

Mr. Pearce, Chemical Works, Bow-common.

Messrs. Sadler and Co., Limited, No. 85, Gracechurch-street.

„ Tennant and Sons, No. 9, Mincing-lane.

„ C. Christopherson, No. 17, Great Tower-street.

„ J. Gibbs and Co., No. 16, Mark-lane.

„ Knight, Hill, and Co., No. 18, Billiter-street.

„ W. V. Robinson and Co., No. 6, Market-buildings, Mincing-lane.

„ J. Puddy and Co., Nos. 10 and 11, Mincing-lane.

Tenders for Caustic Soda.

Messrs. C. Christopherson and Co., No. 17, Great Tower-street.

„ Knight, Hill, and Co., No. 18, Billiter-street.

„ Tennant, Sons, and Co., No. 9, Mincing-lane.

Mr. H. B. Condy, Battersea.

„ G. P. Nightingale, No. 2, Fowkes-buildings, Great Tower-street.

Messrs. J. Laurie and Co., No. 63, Old Broad-street.

It was *moved* by Mr. Selway, seconded by Mr. Phillips, and *resolved*—That the said Tenders be referred to the Works and General Purposes Committee, for consideration, with authority to accept those which may appear most advantageous for the Board; that the Committee do report to the Board the course taken, and that the Engineer, the Accountant, and the Chemist do report to the Committee upon the several Tenders.

4. Mr. Brown handed in a Letter, as follows—

Board of Works for the Fulham District.

Broadway House, Hammersmith, W.,

8th day of January, 1886.

SIR,—This Board is desirous of carrying out an Improvement by widening a portion of Greyhound-road, Fulham, as shown on the accompanying Plan.

Greyhound-road is an important thoroughfare, forming a link of communication between the main highways known as Fulham Palace-road and North-end-road, with a great and increasing daily traffic.

The rear walls of the gardens attached to the houses in St. Andrew's-road, shown upon the Plan and coloured pink thereon, are proposed to be set back for a length of about 250 feet to a line shown by red colour upon the accompanying Plan, and for the purpose of improving the road the Board have decided to purchase the land described for the sum of £300, subject to the sanction of the Metropolitan Board of Works being obtained; and I have now to ask the Metropolitan Board for their consent to the proposed Improvement, for a contribution of one-half the cost of the same, and that they will grant this Board a Loan for the remainder.

There will not be any re-coupmnt, the whole of the land purchased being thrown into the road-way.

I am, &c.,
(Signed) THOMAS EDW. JONES,
Clerk to the Board.

The Clerk of the
Metropolitan Board of Works,
Spring-gardens, S.W.

The Plan referred to was laid before the Board.

It was *moved* by Mr. Brown, seconded, and *resolved*—That so much of the Letter as relates to a contribution to the cost of the Improvement be referred to the Works and General Purposes Committee, for consideration and report, and that the application for a Loan of a moiety of the cost of the work be referred to the Finance Committee, for consideration and report.

5. Mr. Selway, in the absence of Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 4th January, 1886.

Your Committee beg to report that they have considered the Letter, referred by the Board on the 23rd December last (No. 28), from the United Telephone Company, Limited, asking the Board to re-consider the applications of the Company for permission to erect a pole on the Board's premises in Spring-gardens, for the purpose of carrying the Company's Telephone wires, and to erect two wooden poles on the West side of the temporary Bridge at Hammersmith. Your Committee, after carefully considering the applications, are still of opinion that it is unadvisable to grant the requests, and they recommend—

That the Company be informed that the Board are unable to depart from their previous decisions to that effect.

All which your Committee beg to submit.

(Signed) J. M^cGAREL-HOGG,
W. R. SELWAY,
JOHN RUNTZ,
P. W. FUNNELL.

The Report having been read and received,

It was *moved* by Mr. Selway, seconded, and *resolved*—That the United Telephone Company, Limited, be informed in reply to their renewed applications for permission to erect a pole on the Board's premises in Spring-gardens, for the purpose of carrying the Company's Telephone wires, and for permission to erect two wooden poles on the West side of the Hammersmith temporary Bridge, that the Board, having again considered the subject, are unable to depart from their previous decisions, declining to accede to the requests.

6. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 22nd December, 1885.

Your Committee have to report that they have, pursuant to the Resolution of the Board of the 22nd November, 1878 (No. 48), considered the following applications for

8 *January*, 1886.

the re-naming and re-numbering of various streets and places in the Metropolis, viz.—

DATE.	APPLICATION.
18th August, 1885.	Mr. J. Craggs, complaining of two roads in the "N" postal district being named so much alike as George's-road and St. George's-road.
12th and 27th January and 13th May, 1885.	Vestry of St. Pancras, for re-naming certain streets in the Parish.
2nd June, 1885.	Westminster District Board, for re-numbering the houses in certain streets in the District.
24th October, 1885.	Lewisham District Board, that Penge-lane, leading from Sydenham-road to Beckenham and Penge, may be re-named "Newlands-park, S.E."
27th October, 1885.	Messrs. Vallance and Co., requesting that George-yard, Lombard-street, may be re-named "Lombard-avenue."
9th November, 1885.	Vestry of Kensington, that the houses in Harrington-gardens may be re-numbered.
2nd December, 1885.	Wandsworth District Board, requesting that the portion of Granfield-street, nearest High-street, Battersea, may be re-named "St. John-street," and forwarding a Memorial from owners and occupiers of houses to that effect.

Your Committee have received Reports from your Superintending Architect on the above-mentioned applications; they have also inspected Plans, prepared under his direction, showing the alterations which it is desirable to make in the naming and numbering of the several thoroughfares, and they recommend—

- That St. George's-road, Tufnell-park, be re-named "St. George's-avenue, N."
- That Albany-place, Redhill-street, be re-named "Redhill-place, N.W."
- That Augusta-street, Harmood-street, be re-named "Harmood-place, N.W."
- That Cumberland-street, Goodge-street, be re-named "Little Goodge-street, W."
- That Cumberland-street West, Albany-street, be re-named "Cumberland-street, N.W."
- That Greenland-grove, Cromer-street, be re-named "Lucas-place, W.C."
- That Hawley-road West, Chalk-farm-road, be re-named "Hawley-street, N.W."
- That Henry-street, Hampstead-road, be re-named "Seaton-street, N.W."
- That Modbury-terrace, Malden-road, be re-named "Modbury-street, N.W."
- That Pleasant-row, Highgate-road, be re-named "Carrol-place, N.W."
- That Prince of Wales-avenue, Malden-road, be re-named "Wellesley-place, N.W."
- That Princess-terrace, St. Mark's-square, be re-named "Princess-road, N.W."
- That Sion-terrace, Brighton-street, be re-named "North-terrace, W.C.," in continuation.
- That Torriano-yard, (Ward No. 1), St. Pancras, be re-named "Welch's-yard, N.W."
- That Whitefield-street, Malden-road, be re-named "Shipton-place, N.W."
- That St. Margaret's-terrace, Spencer-terrace and Rochester-place, Westminster, be incorporated with Cobourg-row, and the houses re-numbered.
- That the houses in Bessborough-place, Westminster, be re-numbered.
- That the houses in Blue Anchor-court, Westminster, be re-numbered.
- That the houses in Carey-place, Westminster, be re-numbered.
- That the houses and premises in Ennismore-mews, Westminster, be re-numbered.
- That the houses in St. Ann's-lane, Westminster, be re-numbered.
- That the houses in Vincent-place, Westminster, be re-numbered.
- That the house at the corner of Hide-street, Westminster, at present numbered 52, Vincent-street, be re-numbered 101A, Vincent-street.
- That the portion of Penge-lane, Penge, which is within the jurisdiction of the Board be re-named "Newlands-park, S.E."
- That George-yard, Lombard-street, City, be re-named "Lombard-avenue, E.C."
- That the houses in Harrington-gardens, Kensington, be re-numbered.

That the Wandsworth District Board be informed, in reply to their Letter, requesting that the portion of Granfield-street, nearest High-street, Battersea, may be re-named "St. John-street," that the Board are unable to vary their Order of the 1st May, 1885, naming the whole thoroughfare "Granfield-street, S.W."

All which your Committee beg to submit.

(Signed) A. EWIN,
JOHN RUNTZ,
W. R. SELWAY,
W^m. SHEPHERD.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That St. George's-road, Tufnell-park, in the Parish of St. Mary, Islington, in the County of Middlesex, be re-named "St. George's-avenue, N.," and that notice of this Order be given to the Vestry of Islington, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That Albany-place, Redhill-street, in the Parish of St. Pancras, in the County of Middlesex, be re-named "Redhill-place, N.W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That Princess-terrace, St. Mark’s-square, in the Parish of St. Pancras, in the County of Middlesex, be re-named “Princess-road, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That Sion-terrace, Brighton-street, in the Parish of St. Pancras, in the County of Middlesex, be re-named “North-terrace, W.C.,” in continuation of the existing terrace of that name, and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, Torriano-yard (Ward No. 1), in the Parish of St. Pancras, in the County of Middlesex, be re-named “Welch’s-yard, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That Whitefield-street, Malden-road, in the Parish of St. Pancras, in the County of Middlesex, be re-named “Shipton-place, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of St. Margaret’s-terrace, Spencer-terrace, Rochester-place, and Cobourg-row, in the respective Parishes of St. Margaret and St. John, Westminster, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,603, in lieu of

the existing numbers, as shown on the said Plan ; the odd numbers, commencing with 1 and ending with 75, being assigned to the houses on the Eastern side, and the even numbers, commencing with 2 and ending with 76, to those on the Western side ; that such numbers do commence at the Northern end ; that the names St. Margaret's-terrace, Spencer-terrace, and Rochester-place, and the existing numbers, be abolished ; that the whole line of thoroughfare be called " Cobourg-row, S.W.," and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Bessborough-place, in the Parish of St. John, Westminster, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,604, in lieu of the existing numbers as shown on the said Plan ; the odd numbers, commencing with 1 and ending with 67, being assigned to the houses on the North-Eastern side, and the even numbers, commencing with 2 and ending with 80, to those on the South-Western side ; that such numbers do commence at the end nearest Bessborough-street ; that the names Bonaparte-cottages, Gun-terrace, and any other name or names now in use in Bessborough-place, and the existing numbers, be abolished ; that the whole line of thoroughfare be called " Bessborough-place, S.W.," and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Blue Anchor-court, Great Peter-street, in the Parish of St. John, Westminster, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 6, as shown by red figures on the Plan now produced, marked 3,605, in lieu of the existing numbers, as shown on the said Plan ; that such numbers do commence at the Eastern end ; that the existing irregular numbers be abolished ; that the whole be called " Blue Anchor-court, S.W.," and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Carey-place, in the Parish of St. John, Westminster, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 9, as shown by red figures on the Plan now produced, marked 3,606, in lieu of the existing numbers, as shown on the said Plan ; that the name Bedford-court, and the existing irregular numbers, be abolished ; that the whole be called " Carey-place, S.W.," and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Ennismore-mews, in the Parish of St. Margaret, Westminster, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,607, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 31, being assigned to the houses on the Western side, and the even numbers, commencing with 2 and ending with 32, to those on the Eastern side; that such numbers do commence at the Southern end; that the existing numbers be abolished; that the whole line of thoroughfare be called “Ennismore-mews, S.W.,” and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of St. Ann’s-lane, in the Parish of St. John, Westminster, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,608, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 7, being assigned to the houses on the Western side, and the even numbers commencing with 2 and ending with 14, to those on the Eastern side; that such numbers do commence at the Southern end; that the existing numbers be abolished; that the whole line of thoroughfare be called “St. Ann’s-lane, S.W.,” and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Vincent-place, in the Parish of St. John, Westminster, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 16, as shown by red figures on the Plan now produced, marked 3,609, in lieu of the existing numbers, as shown on the said Plan; that the existing irregular numbers be abolished; that the whole be called “Vincent-place, S.W.,” and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the house at the corner of Hide-street, at present numbered 52, Vincent-street, in the Parish of St. John,

Westminster, in the County of Middlesex, be re-numbered 101A, Vincent-street, and that notice of this Order be given to the Board of Works for the Westminster District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That Penge-lane, in the Hamlet of Penge, in the County of Surrey, be re-named “Newlands-park, S.E.,” and that notice of this Order be given to the Board of Works for the Lewisham District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

It was **moved** by Mr. Ewin, and seconded—That George-yard, Lombard-street, City, be re-named “Lombard-avenue, E.C.”

An **amendment** thereon was **moved** by Mr. Middlemas, and seconded by Mr. Ingoldby—That the subject be referred back to the Committee, for further consideration and report.

The **amendment** having been put to the vote, there were for it 21, against it 4, and it was declared by the Chairman to be carried; and, having been put as an **original motion**, it was also carried; and it was **resolved** accordingly.

The Report of the Building Act Committee of the 22nd day of December, 1885, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Harrington-gardens, in the Parish of St. Mary Abbots, Kensington, in the County of Middlesex, be marked with the numbers, as shown by red figures, on the Plan now produced, marked 3,610, in lieu of the existing numbers, as shown on the Plan; the odd numbers, commencing with 1 and ending with 75, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 50, to those on the Northern side; that such numbers do commence at the Eastern end; that the existing numbers be abolished; that the whole line of thoroughfare be called “Harrington-gardens, S.W.,” and that notice of this Order be given to the Vestry of Kensington, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the Wandsworth District Board be informed, in reply to their Letter requesting that the portion of Granfield-street, nearest High-street, Battersea, may be re-named “St. John-street,” that this Board adhere to their Order of the 1st May last, naming the whole thoroughfare “Granfield-street, S.W.”

7. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 5th January, 1886.

Your Committee beg to submit, herewith a Report which they have received from your Superintending Architect, specifying certain works which it is necessary should be carried out under a Magistrate's Order at the premises therein mentioned, the same being a Dangerous Structure, and they recommend—

That the Contractors, Messrs. Brass and Son, be instructed to execute the works ordered

by the Magistrate to be done at the following premises, the same being a Dangerous Structure, viz.—

Party fence wall between No. 41, Bond-street, Lambeth, and stable yard adjoining.

Your Committee have further considered the communication from the Vestry of St. Luke, relative to the recent fall of a party-wall of a house in Peerless-street, City-road, and to the dangerous condition of others adjoining, and asking whether it is the opinion of the Board that such old property should be patched up for occupation, referred by the Board on the 4th ultimo (No. 32), and referred back on the 23rd ultimo (No. 7.) Your Committee are informed that proceedings have been taken under the Dangerous Structure Clauses of the Building Act, in respect of fourteen of the houses in the street, and that all danger has been removed. The re-building will be carried out under the supervision of the District Surveyor, and your Committee recommend—

That the Vestry be informed, in reply to their communication, that any re-building or re-instatement of the premises will be done under the supervision of the District Surveyor.

Your Committee have had under consideration the Letter from Mr. R. J. Withers, relative to the erection of a temporary wooden Church in Gleneldon-road, Streatham, alleged to be constructed without iron framing, referred by the Board on the 27th November last (No. 60). The building referred was sanctioned by the Board in June, 1885, for a period of two years, and has been in use since the 9th September last. Your Superintending Architect reports that it appears to have been erected in accordance with the Drawings approved by the Board, but that the construction of the roof has been irregular, the wooden ties having been omitted, and wooden collars substituted. Your Committee recommend—

That Mr. Withers be informed in reply to his Letter that, in the opinion of the Board, the mode of construction is adequate, and that the Board deem it inexpedient to take any action in the matter.

Your Committee have proceeded upon the Resolution of the Board of the 27th November last (No. 44), referring to them for consideration and report the question of the arrangements to be made for filling the vacancy caused by the decease of Mr. R. Parkinson, late District Surveyor for the Districts of the Western Division of the City of London and the detached portion of Clerkenwell near Muswell-hill. The District of the Western Division of the City includes the Wards of Aldersgate Within and Without, St. Bartholomew the Great and Less, Farringdon Without and Cheap, the Inner Temple, and that part of the Middle Temple within the City, Serjeant's-inn, Fleet-street, Serjeant's-inn, Chancery-lane, Clifford's-inn, Barnard's-inn, Thavies-inn, and those parts of Furnival's-inn and Staple-inn, which are within the City. The average gross Fees received during the last three years in the District amount to £369 per annum. The outlying portion of Clerkenwell, in the neighbourhood of Muswell-hill, is only 64 acres in extent, and is distant upwards of a mile and a quarter from the Northern boundary of the Metropolis. The total Fees received from that District since 1855 have amounted to only £46. The Board, at their meeting on the 27th November last, appointed Mr. A. Bovill, District Surveyor for the Northern Division of St. Pancras, to act as temporary substitute in respect of the detached portion of Clerkenwell, and your Committee are not at present prepared to recommend any alteration in that arrangement. As regards the District of the Western Division of the City, your Committee have received applications from Mr. J. D. Mathews, Mr. G. Aitchison, and Mr. J. A. J. Woodward, asking to be transferred to the vacant District. Your Committee, however, are of opinion that the usual course should be adopted, and they recommend—

That Advertisements be issued inviting Candidates for the appointment of District Surveyor for the Western Division of the City of London, the election for such appointment to be made by the Board at their meeting on the 22nd instant.

Your Committee have to report that they have had before them a Plan submitted on the 18th November last, by Mr. T. N. Ward, for the erection of one-storey shops upon

the forecourts of Nos. 46 to 72, Upper Richmond-road, Putney. Applications for consent to the erection of shops in the locality were refused by the Board on the 6th March, 17th April, and 2nd October last. The amended Plan submitted shows the proposed shops set back 6 feet from the inside of the pathway at the Western end, and 10 feet at the Eastern end. The ground coloured Blue on the Plan is to be given up to the public, and the Wandsworth District Board do not object to the proposal. Your Committee recommend—

That the Plan accompanying the Letter, from Mr. T. N. Ward, dated 18th November, 1885, be approved, on condition that the erections be commenced within Six months, and be completed within Eighteen months from the 8th instant, that, previously to the commencement of building operations, the spaces, coloured blue upon the Plan, be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. H. Vulliamy on behalf of Mr. T. H. Willoughby, for the consent of the Board to the erection of an Estate office on the West side of High-road, Streatham, at the corner of the approach road to the Railway Station at Streatham, to the line shown upon the Plan accompanying the application, referred by the Board on the 18th ultimo (No. 56). The applicant proposes to erect an Estate office, one storey in height, to a line abutting upon the public way in Streatham-high-road. Your Committee have had before them a key Plan prepared by the applicant showing all the houses in Gleneagle-road, from which it appears that it would be practicable to form a road-way from Streatham Railway Station to Gleneagle-road. Your Committee recommend—

That the application be granted, upon condition that the erection of the building referred to be commenced within Six months, and be completed within Eighteen months from the 8th instant, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have also considered the application of Messrs. Lee Brothers and Pain, on behalf of Messrs. Thorne Brothers, for the consent of the Board to the re-erection of the "Seven Stars" Public-house, on the South side of Goldhawk-road, Hammersmith, to the line shown upon the amended Plan accompanying the application, referred by the Board on the 23rd ultimo (No. 38). On the 24th April and 24th July last, the Board declined to sanction Plans for the re-erection of the Public-house. The applicants submit a further amended Plan, showing the flank wall of the new Public-house set back at the Southern end 8 feet from the public way in Paddenswick-road, and giving up to the public way in that road a piece of ground tinted Blue on the Plan, measuring 12 feet 6 inches at the widest part. The Fulham District Board approve of the amended Plan, and your Committee recommend—

That the application be granted, upon condition that the erection of the building therein referred to be commenced within Six months, and be completed within Eighteen months from the 8th instant; that, previously to the commencement of building operations, the spaces coloured Blue upon the Plan be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. T. J. Bailey, on behalf of the School Board for London, for the consent of this Board to the erection of a School and outbuildings, on the East side of William-street, Hammersmith, to the line shown upon the amended Plan accompanying the application, referred by the Board on the 23rd ultimo (No. 40). The Board on the 20th November last refused their consent to the erection of buildings in William-street, because of the objectionable position of one of the proposed outbuildings. The applicant submits an amended Plan showing the proposed School building in the same position as before, but the outbuilding adjoining No. 1, William-street is now placed so as not to project beyond the frontage line of that house.

The Fulham District Board do not object to the present proposal, and your Committee recommend—

That the application be granted, upon condition that the erection of the buildings therein referred to be commenced within Six months, and be completed within Eighteen months from the 8th instant, and that the erections be made entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. T. G. Langridge, on behalf of Messrs. Kettle and Messenger, for the consent of the Board to the erection of a projecting shop front upon a portion of the forecourt of No. 30, Great Portland-street, St. Marylebone, to the line shown on the Plan accompanying the application, referred by the Board on the 23rd ultimo (No. 42). The applicant submits a Plan showing a shop front which has already been brought out in front of the recently re-erected house, No. 30, Great Portland-street to a line projecting 1 foot 8 inches beyond the frontage line of the adjoining houses in that thoroughfare. The applicant states that the shop front takes the place of one which existed in front of the old building. Your Committee recommend—

That the application be not granted.

Your Committee have considered the application of Mr. A. W. Church, on behalf of the London General Omnibus Company, Limited, for approval by the Board of an amended Plan for the formation and name of a mews to lead out of the West side of Bradmore-lane, Hammersmith, referred by the Board on the 23rd ultimo (No. 47). The Board, in February, 1880, declined to approve of the formation of a paved road, 20 feet wide, upon the land, the intention of the applicant at that time being to erect Workmen's dwellings six storeys in height above the road level fronting upon the proposed road. The Omnibus Company now desire to form a road-way similar in shape, but for vehicular traffic, 20 feet in width, and to erect stabling fronting upon it about 15 feet in height. Your Committee recommend—

That the application be not granted.

All which your Committee beg to submit.

(Signed) A. EWIN,
W. R. SELWAY,
SAM^L. PRICE,
JOHN RUNTZ,
W^M. SHEPHERD.

The Report having been read and received,

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owners of the party fence wall between No. 41, Bond-street, Lambeth, and a stable-yard adjoining, had failed to comply with the Orders made by George Chance, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Lambeth Police-court, on the 26th day of September last, for the removal of the dangerous portions of such wall, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's be instructed, and they are hereby authorised to take down the part of the party fence wall between No. 41, Bond-street, Lambeth, and a stable yard adjoining which is overhanging and dangerous.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That so much of the Report as relates to the communication from the Vestry of St. Luke, as to the fall of a party-wall of a house in Peerless-street, City-road, and to the dangerous condition of

others adjoining, and asking whether it is the opinion of the Board that such old property should be patched up for occupation be approved; and that the Vestry be informed that any re-building or re-instatement of the premises will be carried out under the supervision of the District Surveyor.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That Mr. R. J. Withers be informed in reply to his Letter relative to the erection of a temporary Church in Gleneldon-road, Streatham, alleged to be constructed without iron framing, that, in the opinion of the Board, the mode of construction is adequate, and that they deem it inexpedient to take any action in the matter.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That so much of the Report as relates to the arrangement to be made for filling the vacancy caused by the decease of Mr. R. Parkinson, late District Surveyor for the Districts of the Western Division of the City of London and the detached portion of Clerkenwell near Muswell-hill be approved; that Advertisements be issued inviting Candidates for the appointment of District Surveyor for the Western Division of the City of London, and that the election for such appointment be made by the Board at their Meeting on the 22nd instant.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the Plan accompanying the Letter from Mr. T. N. Ward, dated 18th November, 1885, for the erection of one-storey shops upon the forecourts of Nos. 46 to 72, Upper Richmond-road, Putney, be approved, on condition that the erections be commenced within Six months, and be completed within Eighteen months from this date; that previously to the commencement of building operations, the spaces coloured Blue upon the Plan, be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application of Mr. H. Vulliamy, on behalf of Mr. T. H. Willoughby, for the consent of the Board to the erection of an Estate office on the West side of High-road, Streatham, at the corner of the approach-road to the Railway Station at Streatham, to the line shown upon the Plan accompanying the application, be granted upon condition that the erection of the building referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application of Messrs. Lee Brothers and Pain, on behalf of Messrs. Thorne Brothers, for the consent of the Board to the re-erection of the "Seven Stars" Public-house, on the South side of Goldhawk-road, Hammersmith, to the line shown upon the further amended Plan accompanying the application, be granted, upon condition that the erection of the building therein referred to be commenced within Six months, and be completed within Eighteen months from this date; that, previously to the commencement of building operations, the spaces coloured Blue upon the Plan be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application of Mr. T. J. Bailey, on behalf of the School Board for London, for the consent of this Board to the erection of a School and outbuildings, on the East side of William-street, Hammersmith, to the line shown upon the amended Plan accompanying the application, be granted, upon condition that the erection of the buildings therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application of Mr. T. G. Langridge, on behalf of Messrs. Kettle and Messenger, for the consent of the Board to the erection of a projecting shop front upon a portion of the forecourt of No. 30, Great Portland-street, St. Marylebone, to the line shown on the Plan accompanying the application, be not granted.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application of Mr. A. W. Church, on behalf of the London General Omnibus Company, Limited, for approval by the Board of an amended Plan for the formation and name of a mews to lead out of the West side of Bradmore-lane, Hammersmith, be not granted.

8. The Board proceeded upon the following Resolution of the 19th November, 1865, (No. 6)—“That the Board do, in the month of January in each year, consider the “subject of the salaries and classification of the subordinate Officers of the Board, with “a view of ascertaining whether any, and what, alteration should be made in the “position and salary of any of the Officers.”

It was **moved** by Mr. Selway, seconded, and **resolved**—That the subject be referred to the Works and General Purposes Committee, for consideration and report.

9. It was **moved** by Mr. Selway, seconded, and **resolved**—That it be referred to the Finance Committee to prepare a Report of the proceedings of the Board for the year 1885, as required by the 200th Section of the Metropolis Local Management Act, 1855, and the 16th Section of the Loans Act, 1871, and that such Report be submitted to the Board for approval.

It was **moved** by Mr. Selway, seconded, and **resolved**—That the Statement and Account of the amount of Contracts entered into, and of moneys received and expended by the Board during the year 1885, be also prepared.

10. Read a Report, as follows—

Spring-gardens,
8th January, 1886.

I beg to report that it is now necessary, in exercise of the power given to the Board under the Wandsworth Commons Act, 1871, to appoint one of their Members as a representative on the Board of Conservators of Wandsworth-common.

The Board on the 12th January, 1883, appointed Mr. George Pitney Meaden one of the Incorporation of Conservators for carrying the said Act into execution.

I beg to submit herewith a form of appointment, and to ask the Board to pass a Resolution appointing one of the Members of the Board; to seal the appointment, in duplicate, and to notify the same to the Clerk of the Conservators, as required by the Act.

(Signed) J. E. WAKEFIELD,
Clerk of the Board.

The Metropolitan Board of Works considered the Wandsworth Common Act, 1871, and the provision as to the appointment of a Conservator to be named by the Board.

Resolved, unanimously, on the motion of Mr. Selway, seconded by Mr. Richardson—That, pursuant to the same Act, this Board doth nominate and appoint George Pitney Meaden, Gentleman, of No. 408, Clapham-road, Clapham, a Member of this Board, one of the Incorporation of Conservators, for carrying the said Act into execution.

The Clerk laid before the Board a copy of the foregoing Minute, in duplicate.

It was **moved** by Mr. Selway, seconded by Mr. Richardson, and **resolved**—That the Common Seal of the Board be affixed to the said copy of Minute, in duplicate; and the Seal was affixed accordingly.

11. The Engineer presented a Report, as follows—

Engineer's Department, Spring-gardens,
1st January, 1886

MONTHLY REPORT ON THE PROGRESS OF THE SEVERAL SPECIAL CONTRACT WORKS.

Holloway and Northern High Level Sewers Relief Lines.—Mr. W. Rigby, Contractor. —A length of about 10,000 feet of brick Sewers, varying in diameter from 7 feet to 5 feet 6 inches,

has been constructed at an estimated cost, with other works in connection therewith, of £34,100, of which about £3,400 represent the progress made in the past month. The Clerks of Works employed are Messrs. T. Panter, J. Fixter, G. Larkin, T. Wighton, J. Driffield, J. Boyden, W. Grimwood, and W. Jennings, at a weekly cost of £25 4s.

Queen's-road, Dalston, &c., Sewer.—Messrs. Nowell and Robson, Contractors.—A length of about 5,340 feet of brick Sewer, varying in size from 5 feet by 4 feet to 4 feet by 2 feet 8 inches—egg-shape, is complete. at an estimated cost, with other works in connection therewith, of £11,700, of which about £1,100 are due to the progress made in the past month. The Clerks of Works employed are Messrs. J. Carter, J. Lake, and J. Pope, at a weekly cost of £9 9s.

Piccadilly to New Oxford-street Improvement.—Excepting at two points where the buildings have not yet been pulled down, this new line of street is now complete.

Ranelagh and King's Scholars' Pond Sewers Relief Line.—Messrs. McCrea and McFarland, Contractors.—With the exception of some concreting at the lower end of the new Ranelagh outlet into the River, and which work can only be executed at the lowest tides, the whole of the works comprised in this Contract are complete. The total length of new Sewers constructed, including the special work for carrying the relief Sewer over the District Railway at Sloane-square, is 16,740 feet, and the approximate value of the works executed is £78,400.

Clapham to Putney Relief Sewers.—Mr. John Waddell, Contractor.—The main line of Sewer from the "Bedford Arms" Public-house, Clapham, to Roehampton-lane, Putney, and five out of the six branch Sewers have been completed, with the exception of the shafts, connections, and minor works, and the aqueduct crossing the Wandle valley, which, with the branch Sewer at Putney boundary, are in progress. The approximate value of the work done is about £130,000. The Clerks of Works employed are Messrs. C. Bedloe, R. Lynn, J. Judd, and J. Ward, at a weekly cost of £12 12s.

Putney (new) Bridge.—Mr. John Waddell, Contractor.—The four piers and the two abutments have been constructed up to the formation level of the road-way. The five granite arches have been constructed, and the spandrel ashlar and brickwork have been built up to the formation level of the bridge road-way, and the cornice is being fixed. The construction of the road-way approaches at the Fulham and Putney extremities of the Bridge is well advanced, together with the parapet and retaining walls. The total estimated value of the permanent work executed is about £207,000 (which amount includes the value of materials delivered and accepted), of which about £5,000 are due to the progress made in the past month. The Clerks of Works employed are Messrs. A. Boag and J. Gooding, at a weekly cost of £6 6s.

Hammersmith Bridge.—Messrs. Dixon, Appleby and Thorne, Contractors.—The temporary Bridge has been completed and opened for traffic since April last. The whole of the road-way metalling and the planking of the carriage and footways of the old Bridge have been removed, together with about three-fourths of the cross girders. The masonry of the Northern and Southern pier towers has been demolished to the levels of the keystones of the tower arches. The coffer dam for the underpinning of the Surrey pier has been completed. The excavations for the Northern and Southern abutments of the new structure have also been completed, and the concrete is being filled into them. The anchor abutment castings, steel anchor forgings, and abutment saddles have been fixed. The wrought-iron towers, the new cross girders, the steel pins for the new chains, and the new cast-iron cutwater columns have been manufactured. The total estimated value of permanent work executed (which includes ironwork accepted and delivered) is about £34,000, of which about £1,500 are due to the past month's progress. The Clerk of Works employed is Mr. T. M. Carey, at a weekly cost of £3 3s.

Battersea Bridge.—Messrs. John Mowlem and Co., the Contractors for the execution of the works comprised in the construction of the new temporary Foot-bridge and the removal of the old structure, have completed the temporary Bridge. The old Bridge is undergoing demolition, and the large timber trusses which spanned the navigable openings have been removed. The piling is being drawn. The total value of permanent work executed is about £7,000, of which about £300 represent the progress made in the past month. The Clerk of Works employed is Mr. P. Sharpe, at a weekly cost of £3 3s.

(Signed) J. W. BAZALGETTE,
Engineer.

It was **moved** by Mr. Selway, seconded, and **resolved**—That the Report be received, and that it be printed and circulated among the Members of the Board, and be referred to the Works and General Purposes Committee, for consideration.

12. Read a Report by the Engineer, dated 8th January, 1886, stating that the following quantities of Stores were required for use at the undermentioned Pumping Stations—

<i>Crossness Station.</i>					ESTIMATE.
200 Gallons of Olive Oil	...	...	...	...	£30 0 0
18 cwt. of Russian Tallow	...	...	...	...	33 15 0
<i>Western Station.</i>					
80 Tons of Welsh Coal	...	...	...	...	72 6 8
80 Tons of Tanfield Moor Coal	...	...	...	...	56 6 8
Total	...	...	...	...	<u>192 8 4</u>

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Report be approved and that the Stores be obtained accordingly, the cost thereof being charged to the General Working Account of the Board.

13. Read a Report by the Engineer, dated 8th January, 1886, recommending the supply and spreading, under the General Contract, of ashes for the repair of the coping of the River banks at the Barking Outfall, at an estimated cost of £20.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Report be approved and that the ashes be supplied and spread accordingly, the cost thereof being charged to the General Working Account of the Board.

14. Read a Report by the Engineer, dated 8th January, 1886, stating that Mr. W. W. Crane, Constructive Draughtsman, was still absent from his duties in consequence of illness, submitting a Medical Certificate, and recommending that a further leave of absence for a fortnight should be allowed him.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Report be approved, and that a fortnight's further leave of absence be allowed to Mr. Crane.

15. Read a Report by the Engineer, dated 8th January, 1886, submitting a Letter from the Vestry of Clerkenwell, applying for permission to cast Snow (taken from their roads) into the River from the Victoria Embankment, recommending that the application should be granted upon the same conditions as those upon which the Board had already granted like permission to certain other local authorities—viz., that the Vestry do properly protect the parapet wall and foot-way of the Embankment from injury, that they do make good any damage that may be done, and further, that they do obtain the sanction of the Thames Conservators to the casting of the Snow into the River; and suggesting that, in the event of any further similar applications being made during the winter, the Board should authorise him to sanction them, upon the same conditions, and that he should report to the Board at their first Meeting thereafter; further stating that he had received a Letter from the Station Master at the Charing-cross Railway Terminus, asking for permission to shoot the Snow from the Station-yard into the River, and recommending that the application should be complied with, subject to the foregoing conditions.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Report be approved; that the said applications be granted on the conditions recommended in the Report, and that the Engineer be authorised to sanction any similar applications which may be made, and that he do report the same to the Board.

16. The Solicitor reported that the undermentioned documents, relating to the Board's Various Powers Bill, 1886, had been duly deposited as required by the Standing Orders of Parliament—

Estimate of expense.

Declaration and Estimate of revenue.

List of Owners, Lessees, and Occupiers, showing those who have assented, dissented, or are neutral in respect of the Bill.

17. The Solicitor presented a list of the Provisional Orders which he had obtained since the last Meeting of the Board, and reported that he had forwarded the copies of the Orders to the Engineer of the Board for his use in preparing his Annual Report on Parliamentary Schemes for next Session—

Chelsea Electric Lighting.
West London Electric Lighting.
London, Highgate, and Finchley Tramways.
South Metropolitan Tramways.

18. The Solicitor presented an Official list of the Private Bills which had been deposited for next Session.

19. The Solicitor reported that the arrangements as to the undermentioned Loans had been completed, and that the Cheques had been duly handed over in exchange for the proper securities—

					AMOUNT OF LOAN.		
Greenwich District Board ...	...	...	...	...	£2,000	0	0
Bermondsey Vestry ...	...	...	...	...	5,000	0	0
Paddington Guardians ...	...	...	...	...	2,900	0	0
Kensington Vestry ...	...	...	...	...	8,800	0	0
Holborn Union Guardians ...	...	...	...	...	19,000	0	0
Do. do. ...	...	...	...	...	13,000	0	0
Bethnal-green Guardians ...	...	...	...	...	11,500	0	0
Kensington Baths, &c., Commissioners of ...	...	...	...	...	3,000	0	0

20. The Solicitor reported that the arrangement with respect to the Loan of £20,000 to the Vestry of Hampstead, for the Hampstead Improvements, had been completed; that the Cheque had been handed over in exchange for the proper security, and that the Vestry had thereupon paid to the Board the contribution of that amount to the cost of the said Improvements.

21. The Solicitor presented the following documents for sealing—

Agreement with Mr. G. Pelli for letting the Refreshment-room and Pavilion in Southwark-park for three years from 25th December, 1885.

Conveyance by Mr. E. Stock, and others, of a Leasehold interest in No. 291, Great College-street, Kentish-town, and a Memorial for the registration of the same (Kentish-town-road extension Improvement.)

Assignment by R. A. Newbon, and others, (Trustees of the Will of Mr. W. Bottomley, deceased) of Nos. 60 and 62, Brook-street, Limehouse, and a Memorial for the registration of the same (Brook-street Scheme.)

Appointment of Mr. Vulliamy as Valuer in the matter of a claim by Messrs. Murray and Hope (Marquis Camden's Trustees) in respect of Nos. 70 and 72, Kentish-town-road, No. 291 and 293, Great College-street, and a timber yard at the rear, and parts of the forecourts of Nos. 64, 66 and 68, Kentish-town-road (Kentish-town-road extension Improvement).

Conveyance to Mr. A. J. Hollington of land for commercial purposes, in Middlesex-street and Boar's-head-yard, Whitechapel (Goulston-street Scheme).

Deed-poll for vesting in the Board the Leasehold interest in premises, No. 17, Denmark-street, and No. 13, Denmark-place, St. Giles, claimed by Mr. T. Green, and a Memorial for the registration of the same (Charing-cross to Tottenham-court-road Improvement).

It was moved by Mr. Selway, seconded, and resolved—That the Common Seal of the Board be affixed to the said documents respectively; and the Seal was affixed accordingly.

22. The Solicitor reported that the Contract with Messrs. J. Mowlem and Co. for the

execution of works to the Albert Suspension Bridge (ordered by the Board on the 23rd ultimo to be sealed when ready) had been sealed at the meeting of the Works and General Purposes Committee on the 4th instant.

23. Read a Report, as follows—

Solicitor's Department,
January 8th, 1886.

HUMPHREYS' HALL.

I have to report that Summonses were heard at the Westminster Police-court yesterday, charging the defendant, Mr. Humphreys, with keeping open the Humphreys' hall, Knight-bridge, on December, 3rd, 14th and 23rd, 1885, and without the Certificate of the Board, pursuant to the 12th section of the Metropolis Management and Building Acts Amendment Act, 1878.

I attended personally with my assistant, Mr. Burton, to instruct Mr. Besley, as Counsel on behalf of the Board, and Mr. Grain appeared as Counsel for the Defendant. It was admitted that, except as to the portion of the building formerly the Sun Music-hall, which was licensed before 1878, the Defendant had acted unlawfully in opening the Hall without the Certificate of the Board, but the Defendant, who, as the Board is aware, has on former occasions resisted the law treated the matter rather lightly and said that most of the Board's requirements had been complied with and that several of the other works had been commenced subsequently to the Summons and would be completed without delay, and the Defendant's Counsel suggested that the Magistrate should adjourn the Summons to view the premises, and if he found the works in progress should inflict a nominal fine only. Mr. Besley, on the other hand, urged that the maximum penalty of £50 a day should be imposed, and in support of this view Mr. Hebb and Henry Currey were called as witnesses, and they pointed out that the building was at the present time highly dangerous, and that such danger was increased by the non-compliance with the requirements of the Board.

The Magistrate, Mr. Partridge, heard the case with great patience, and at the conclusion stated that he could not for a moment listen to the suggestion of the Defendant's Counsel; he added that the Defendant had wilfully violated the law, and that this was not the first time he had attempted to escape from the securities provided by Parliament to meet cases of this character; he, therefore, had no hesitation in inflicting the maximum penalty for keeping the place open on December 3rd and 14th, and he further imposed a fine of £25 for the third day December 23rd, and ordered the Defendant to pay £25 for the Board's costs of the Summons.

I propose to write at once to Mr. Humphreys to enquire whether he intends forthwith to close the Hall, and to add that if this is done the Board would be willing to entertain any application he may make with respect to the works to be executed before a Certificate is issued.

(Signed) REGINALD WARD,
Solicitor.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Report be received, and that the Solicitor do communicate with Mr. Humphreys in accordance therewith.

24. The Clerk presented a copy Report of the Water Examiner, appointed by the Board of Trade, of the examination made by him of the Water supplied by the several Metropolitan Water Companies during the month of November last.

25. The Clerk presented a Letter from Mr. G. Hopwood, Secretary of the Metropolitan District Railway Company, dated 24th December, 1885, thanking the Board for the arrangement they had made by which, in case of emergency, the Company's Engineer could immediately communicate with some one in charge of the flaps of the Ranelagh and King's Scholars' Pond Sewers Relief Sewer at Sloane-square.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be received.

26. The Clerk presented a Letter from Mr. T. E. Jones, Clerk to the Fulham District Board, dated 2nd January, 1886, stating that, from and after the 25th March next, the District Board would be dissolved, and that the Vestries of Fulham and Hammersmith would be incorporated, and have all such powers, and be subject to such provisions as if they had been named in Part II. of Schedule "A" of the Metropolis Local Management Act.

District Board, dated 1st January, 1886, thanking this Board for increasing the amount of their promised contribution towards the cost of widening Battersea-park-road and Candahar-road, Battersea, and asking for payment of the amount.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect and the Accountant do report to the Committee thereon.

31. The Clerk presented a Letter from Mr. T. E. Gibb, M.P., Clerk to the Vestry of St. Pancras, dated 30th December, 1885, transmitting a copy of a Report from the Parliamentary, &c., Committee of the Vestry, approved by the Vestry, urging the Board to re-consider the question of the removal of the Gates by St. Pancras Church, and in Gower-street, Torrington-place and Sidmouth-street, and expressing the opinion that each of them was of more than local, and that they were all of Metropolitan importance, and should be removed without further delay, and at the cost of the ratepayers of the Metropolis generally.

It was *moved* by Mr. Selway, and seconded—That the Vestry be informed that the Board adhere to their previous decision on the subject.

An amendment thereon was *moved* by Mr. Furniss, and seconded by Mr. J. Jones—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

The amendment having been put to the vote, there were for it 16, against it 15, and it was declared by the Chairman to be carried, and having been put as an *original motion*, it was also carried; and it was *resolved* accordingly.

32. The Clerk presented a Letter from Mr. E. L. Pemberton, Home Office, dated 28th December, 1885, requesting to be supplied with a Return, to be laid before Parliament, of all buildings erected in the Metropolis (exclusive of the City) in pursuance of the Artizans and Labourers' Dwellings Improvement Acts.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, with authority to furnish the Return applied for.

33. The Clerk presented a Letter from Mr. T. E. Gibb, M.P., Clerk to the Vestry of St. Pancras, dated 29th December, 1885, expressing the regret of the Vestry at the decision of the Board with regard to the proposed extension of Hampstead-heath and the preservation of Parliament-fields, and asking them to re-consider the question.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

34. The Clerk presented a Letter from Mr. T. E. Gibb, M.P., Clerk to the Vestry of St. Pancras, dated 30th December, 1885, asking the Board to re-consider the question of granting a contribution towards the cost of the Improvement in Kentish-town-road, carried out by the Vestry.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

35. The Clerk presented a Letter from Mr. R. Taylor, dated 2nd January, 1886, explaining his Plan for the removal of sewage sludge from Crossness and Barking by means of an air and water-tight canvas bag, and offering to make the bags described by him.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be received.

36. The Clerk presented a Letter from Mr. W. H. Samson, dated 31st December, 1885, relative to his patent improved system of treating sewage sludge, &c., and stating that he was willing to grant Licenses to the Board to carry out the system or any part thereof.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee.

37. The Clerk presented a Letter from Mr. E. Crowne, Clerk to the Tottenham Local Board of Health, dated 31st December, 1885, asking to be informed of this Board's views relative to the Lee River Purification Bill, and what course they intended to adopt respecting it.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the reference already made to them on the subject to which it relates.

38. The Clerk presented a Letter from Messrs. Goldring and Mitchell, dated 1st January, 1886, transmitting on behalf of their clients, the Whitehall Court, Limited, a copy of the Horse Guards' Avenue Bill, and of the deposited Plans and Book of Reference, and stating that their clients would be glad to consider any suggestions the Board might have to make with reference to the Bill, and to arrange an appointment between the Board's Architect and Mr. Driver to discuss the matter generally.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

39. The Clerk presented a Letter from Mr. H. G. Hills, Clerk to the Wandsworth District Board, dated 28th December, 1885, stating, with reference to the proposed embankment of the towing-path at Putney, that the District Board could not adopt the suggestion of this Board's Engineer that a low parapet should be erected along the River front, returning along the sides of the slips left for the accommodation of the boathouses, movable tide boards being provided to put across the slips; expressing a hope that this Board would sanction the embankment as proposed by the District Board, and would regard it as a compliance with any Notice which might be served under the provisions of the Thames Floods Prevention Act; asking permission to alter the boundary wall between Windsor-street and the towpath by Putney Bridge, and stating that the District Board hoped to carry out an Improvement, by arrangement with the owners of property near the "Duke's Head" Public-house, in Windsor street, as shown on the Plan accompanying the Letter.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Bridges Committee, for consideration and report.

40. The Clerk presented a Letter from Mr. E. B. Walker, dated 4th January, 1886, offering to submit conditionally the details of his scheme for converting settled sludge into dry cake or mould at the Main Drainage Outfall works.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration.

41. The Clerk presented a Letter from Mr. J. Lidiard, dated 4th January, 1886, stating that the District Surveyor had issued a Summons against the builder for the removal of a temporary building erected in Oldridge-road, Clapham, for an Athletic Club, and asking permission to attend the Building Act Committee and explain the matter.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report; that the Superintending Architect do report to the Committee thereon; that Mr. Lidiard be invited to attend the Committee when the subject shall be considered; and that the Committee be authorised to invite the other parties interested, if necessary.

42. The Clerk presented a Letter, as follows—

Guardians of the Parish of St. John, Hampstead.

Workhouse, Hampstead, N.W.,

4th January, 1886.

DEAR SIR,—I am desired by the Guardians of the Poor to apply to the Metropolitan Board of Works, to advance a Loan of £1,500 upon the security of the Poor Rates of this Parish, the

re-payment of the principal to be spread over as long a period, not exceeding 30 years as the Board can accede to, the principal to be re-paid by equal annual instalments, and the interest quarterly as in the case of prior Loans advanced to the Guardians by the Board.

The sanction of the Local Government Board to the proposed Loan is contained in the following Orders of which copies are herewith enclosed, viz.—

- 1.—An Order dated 28th April, 1882, empowering the Guardians to purchase certain land and premises therein described for a sum not exceeding £600.
- 2.—An Order dated 24th December, 1885, authorising the expenditure by the Guardians of the further sum of £900 in the erection of an additional building and the making of certain alterations at the Workhouse, and in fitting up the said building in pursuance of Orders, dated 13th July, 1883, and 13th February, 1885.

I may state that the amounts authorised to be raised by the said Orders of 13th July, 1883, and 13th February, 1885, have been advanced by the Metropolitan Board of Works by the following separate Loans, viz., £3,000, £7,000, £2,000, and £3,000, and copies of such Orders are in possession of the Board.

Yours, &c.,
(Signed) THOS. BRIDGER,
Clerk.

J. E. Wakefield, Esq.,
Clerk of the
Metropolitan Board of Works.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect and the Accountant do report to the Committee thereon.

43. The Clerk presented a Letter, as follows—

Central London School District.

Offices, 10, Basinghall-street, City, E.C.

5th January, 1886.

SIR,—I am directed by the Managers to acknowledge the receipt of your Letter of the 22nd ultimo, ⁴³³⁰_{B. 18. 12} stating that your Board would be willing to advance £7,700 required by them, at the rate of interest of £3 10s. per cent. per annum, and to inform you that they accept the terms therein mentioned.

I am, &c.,
(Signed) GEO. E. EAST,
Clerk.

To the Clerk of the
Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect and the Accountant do report to the Committee thereon.

44. The Clerk presented a Letter from Messrs. Tamplin, Taylor and Joseph, dated 5th January, 1886, enclosing a Memorial signed by owners, lessees and occupiers of houses on the road from Clapham to Merton, praying the Board not to give their consent to the formation of a Tramway along that road as proposed in the South Metropolitan Tramways Scheme, for which application had been made to the Board of Trade for a Provisional Order; and asking this Board to receive a Deputation in support of the Memorial.

It was *moved* by Mr. Selway, seconded, and *resolved*—That the said Letter and Memorial be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which they relate, and that Messrs. Tamplin and Co. be informed that the facts appear to be so fully stated in the Memorial, that it is probably unnecessary for the proposed Deputation to attend the Board.

45. The Clerk presented a Report by the Chief Gas Examiner, appointed by the Board of

Trade, of the results of the daily testings of the Gas supplied by the several Metropolitan Gas Companies, during the months of October, November, and December last.

It was moved by Mr. Selway, seconded, and resolved—That the Report be printed, and that it be circulated among the Members of the Board.

46. The Chemist laid before the Board his Returns of the Testings made at the Gas-testing Stations during the weeks ended on the 29th ultimo, and the 5th instant, as follows—

Company.	District.	Illuminating power. (In Standard Sperm Candles.)			Sulphur. (Grains in 100 cubic feet of Gas.)			Ammonia. (Grains in 100 cubic feet of Gas.)			Sulphuretted Hydrogen.

The pressure of the Gas supplied by the Gas Light and Coke Company, as tested in Holland-road, Notting-hill, on December 31st, 1885, at 8.20 p.m., was 1.9 inch.

The pressure of the Gas supplied by the Commercial Gas Company, as tested in St. Leonard-street, Bow, on January 1st, 1886, at 9.0 p.m., was 2.8 inches.

47. CAMBERWELL.—Read a Report by the Superintending Architect, dated 5th January, 1886, on the application of Messrs. J. and F. Drake, on behalf of Mr. J. A. Rolls, M.P.,

for the consent of the Board to the erection of four houses in Coburg-road, Old Kent-road, to the line shown upon the Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

- 48. CAMBERWELL.**—Read a Report by the Superintending Architect, dated 4th January, 1886, on a Letter from Mr. A. R. Stenning, District Surveyor, relative to the erection of a two-storey bay-window in front of a house adjoining No. 4, Clifton-terrace, Jardin-street, without the consent of this Board.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the said Letter be referred to the Building Act Committee, for consideration and report.

- 49. CHELSEA.**—Read a Report by the Superintending Architect, dated 6th January, 1886, on the application of Mr. H. Shaw, on behalf of Mr. H. S. Vandeleur, for the consent of the Board to the erection of an enclosed portico upon a portion of the forecourt of No. 46, Cadogan-square, to the line shown upon the Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

- 50. FULHAM.**—Read a Report by the Superintending Architect, dated 5th January, 1886, on the application of Mr. J. Owen, on behalf of Messrs. Parry and Jones, for the permission of the Board to retain a projecting porch and barge-boards recently erected at the Welsh Chapel in Southerton-road, Hammersmith, as shown on the Plan accompanying the application.

It was **moved** by Mr. Ewin, and seconded—That the application be granted, on the usual conditions.

An **amendment** thereon was **moved** by Mr. Lindsay, and seconded by Mr. Edwards—That the application be referred to the Building Act Committee, for consideration and report.

The **amendment** having been put to the vote, it was declared by the Chairman to be carried; and having been put as an **original motion**, it was also carried; and it was **resolved** accordingly.

- 51. HAMPSTEAD.**—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Mr. F. M. Elgood, for approval by the Board of a Plan for the construction of a wooden portico in front of No. 4, Fitzjohn's-avenue.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be not granted.

- 52. ISLINGTON.**—Read a Report by the Superintending Architect, dated 21st December, 1885, on the application of Mr. J. E. Sears, on behalf of Mr. H. J. Kimbell, for the consent of the Board to the erection of a one-storey shop upon a portion of the forecourt of No. 381, Hornsey-road, to the line shown upon the amended Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

- 53. ISLINGTON.**—Read a Report by the Superintending Architect, dated 15th December, 1885, on the application of Mr. E. Niblett, on behalf of Mr. S. Griffin, for the consent of the Board to the erection of two additional storeys over the shop at No. 162, Holloway-road, to the line shown upon the Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be granted, subject to the condition that the erection of the additions therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any, in any manner, altered or raised without the consent of this Board.

- 54. LEWISHAM.**—Read a Report by the Superintending Architect, dated 5th January, 1886, on the application of Mr. G. W. Cooper, on behalf of Mr. F. Cooper, for approval by the Board of a Plan for the construction of brick and wood porches to four houses in Trewsbury-road, Sydenham.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

- 55. CAMBERWELL.**—Read a Report by the Superintending Architect, dated 17th December, 1885, on the application of Mr. T. W. Adams, on behalf of Mr. C. R. Camp, for approval by the Board of a Plan for the construction of a temporary wood and iron building at the rear of No. 28, Marlborough-road, Old Kent-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 56. HACKNEY.**—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Mr. W. H. Grist, on behalf of the Minister and Deacons of the Rectory-road Congregational Church, for the permission of the Board to retain, for a further period, the temporary wood and iron Church erected at the corner of Rectory-road and Evering-road, Stoke Newington.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 57. LIMEHOUSE.**—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Mr. J. C. Humphreys, on behalf of the Rev. F. C. Beckley, for approval by the Board of a Plan for the construction of a temporary wood and iron Mission-room at the rear of St. Patrick's Church in Greenbank, Wapping.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 58. PLUMSTEAD.**—Read a Report by the Superintending Architect, dated 5th January, 1886, on the application of Mr. R. A. Dash, on behalf of Mr. C. E. Norris, for the permission of the Board to retain a wooden loft addition recently erected to the stables adjoining Holmesdale House, at Eltham-green, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 59. POPLAR.**—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Messrs. Hemming and Co., for the permission of the Board to retain, for a further period, the temporary wood and iron building erected upon land adjoining the North London Railway, in Morville-street, Bow.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 60. POPLAR.**—Read a Report by the Superintending Architect, dated 5th January, 1886, on the application of Mr. J. N. Douglas, on behalf of the Corporation of the Trinity-house, for approval by the Board of a Plan for the construction of an iron building at Buoy Wharf, Blackwall.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

- 61. FULHAM.**—Read a Report by the Superintending Architect, dated 7th January, 1886, on a Notice from Mr. A. C. Bean, on behalf of Mr. G. W. Thornton, of his intention to form new roads, and to widen other roads, out of Dawes-lane, as shown upon the Plan accompanying such Notice.

It was *moved* by Mr. Ewin, and seconded—That the application be referred to the

Building Act Committee, for consideration and report; and that the parties interested be invited to attend the Committee, when the subject shall be considered.

An amendment thereon was moved by Mr. Shepherd, and seconded—That Mr. Bean be informed that the Notice is of no effect, and that his attention be called to the provisions of the Metropolis Management Acts bearing upon the subject.

The amendment having been put to the vote, it was declared by the Chairman to be carried; and having been put as an original motion, it was also carried; and it was resolved accordingly.

62. ST. PANCRAS.—Read a Report by the Superintending Architect, dated 5th January, 1886, on the application of Mr. J. Keast, for approval by the Board of a Plan for the construction of an open shed upon land adjoining No. 125, Highgate-road.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

63. WANDSWORTH.—Read a Report by the Superintending Architect, dated 23rd December, 1885, on the application of Mr. J. W. Brooker, on behalf of Mr. G. W. Moore, Jun., for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed New Music-hall to be erected at the rear of the “Royal Standard” Public-house, in York-road, Battersea, as shown upon the Drawings accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

64. ST. MARYLEBONE (NORTH).—Read a Report by the Superintending Architect, dated 6th January, 1886, on the application of Mr. A. Ashbridge, District Surveyor, for the adpointment by the Board of a Fee for a special service performed by him in certifying that a chimney-breast in the party-wall of No. 322, Edgware-road, might be cut away.

It was moved by Mr. Ewin, seconded, and resolved—That the District Surveyor be authorised to demand and receive a Fee of Ten shillings in respect of the special service referred to.

65. POPLAR.—Read a communication from Mr. John Clarkson, District Surveyor under the Metropolitan Building Act, 1855, for the District of Poplar, dated 1st January, 1886, notifying that the re-building of the flank wall of the house No. 73, Upper North-street, was about to be carried out under his professional superintendence, and requesting the Board to appoint some other Surveyor as the District Surveyor to superintend such works. Whereupon it was moved by Mr. Ewin, seconded, and resolved, and ordered, as follows—~~Whereas~~ Mr. John Clarkson, District Surveyor for the District of Poplar, did on the 1st day of January, 1886, give notice to this Board that he, the said John Clarkson, was engaged to act professionally in respect of the re-building of the flank wall of the house No. 73, Upper North-street, and the said John Clarkson has been since the said date, and now is, engaged to act professionally as aforesaid. Now, therefore, it is ordered by this Board—That Mr. Chester Foulsham, District Surveyor for the District of St. Leonard, Bromley, be appointed by this Board, and the said Chester Foulsham is hereby appointed to survey the said premises, for the purposes of the Metropolitan Building Act, 1855, and to act as District Surveyor in respect thereof.

66. POPLAR.—Read a communication from Mr. John Clarkson, District Surveyor under the Metropolitan Building Act, 1855, for the District of Poplar, dated 1st January, 1886, notifying that certain workshops and a chimney-shaft for Messrs. Stephens, Smith and Co., at Cuba-street, Millwall, were about to be erected under his professional superintendence, and requesting the Board to appoint some other Surveyor as the District Surveyor to superintend such works. Whereupon it was moved by Mr. Ewin, seconded and resolved, and ordered, as follows—~~Whereas~~ Mr. John Clarkson, District Surveyor for

the District of Poplar, did on the 1st day of January, 1886, give notice to this Board that he, the said John Clarkson, was engaged to act professionally in respect of the erection of workshops and a chimney-shaft for Messrs. Stevens, Smith and Co., at Cuba-street, Millwall, and the said John Clarkson has been since the said date, and now is, engaged to act professionally as aforesaid. Now, therefore, it is ~~ordered~~ by this Board—That Mr. Edmund Woodthorpe, District Surveyor for the District of St. Anne, Limehouse, St. John, Wapping, the Precinct of St. Katherine, and the Hamlet of Ratcliff, be appointed by this Board, and the said Edmund Woodthorpe, is hereby appointed to survey the said premises, for the purposes of the Metropolitan Building Act, 1855, and to act as District Surveyor in respect thereof.

- 67. PLUMSTEAD.**—Read a Report by the Superintending Architect, dated 6th January, 1886, on a Memorial from certain Freeholders and Owners of land in Upper Paget-road, relative to the erection of a Chapel and School buildings on the North side of Herbert-road, at the corner of Upper Paget-road, alleged to be in advance of the general line of buildings in the last mentioned road.

It was ~~moved~~ by Mr. Ewin, seconded by Lieut.-Colonel Hughes, M.P., and ~~resolved~~—That the said Memorial be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee when the subject shall be considered.

- 68. ST. PANCRAS.**—Read a Report by the Superintending Architect, dated 6th January, 1886, on a Letter from Mr. A. Bovill, District Surveyor, relative to the formation, by Mr. S. Hensby, of a Mews leading out of the North-East side of Colva-street, Highgate-new-town, without the approval of the Board.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the said Letter be referred to the Building Act Committee, for consideration and report, and that the Solicitor do advise the Committee thereon.

- 69. ST. PANCRAS.**—Read a Report by the Superintending Architect, dated 6th January, 1886, on the application of Mr. T. J. Bailey, on behalf of the School Board for London, for approval by this Board of a Plan for the construction of an open play-shed at the Board School in York-road, Camden-town.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the application be granted, on condition that the whole of the works be executed to the satisfaction of the District Surveyor.

- 70. STRAND.**—Read a Report by the Superintending Architect, dated 6th January, 1886, on the application of Mr. T. J. Bailey, on behalf of the School Board for London, for approval by this Board of a Plan for the construction of a temporary wood and iron building at the rear of the School Board Offices on the Victoria Embankment.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the application be granted, for a period of Two years from this date, upon condition that the Owners do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building, and that the whole of the work be executed to the satisfaction of the District Surveyor.

- 71. WHITECHAPEL.**—Read a Report by the Superintending Architect, dated 6th January, 1886, on the application of Mr. R. Fairman, on behalf of Messrs. Truman, Hanbury, Buxton and Co., for approval by the Board of a Plan for the construction of a chimney-shaft at the Company's Brewery in Black Eagle-street, Spitalfields.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

72. Mr. Shepherd stated that at a serious fire which had occurred at Vauxhall early yesterday morning, much delay had arisen in communicating with the Fire Engine Stations, and he moved—That it be referred to the Fire Brigade Committee to report to the Board how far the Fire-alarm communications have been interrupted by the breaking down of the overhead wires during the snow storm.

The motion having been seconded, it was put to the vote, and declared by the Chairman to be carried; and it was resolved accordingly.

73. It was moved by Mr. Middlemass, seconded by Mr. Lindsay, and resolved—That it be referred to the Works and General Purposes Committee to enquire as to the facts relating to the recent accidents to overhead Telegraph and Telephone wires, and the danger to the public therefrom, and as to the necessity for any proceedings or future legislation on the subject, and to report to the Board thereon, and that the Committee do endeavour to obtain from the Surveyors to the several Vestries and District Boards information as to the damage which has resulted from the breakage of the wires within their Districts.

74. The following Notices were given for the next Meeting of the Board, viz.—

By Mr. Hill (No. 1,480).—To introduce a Deputation of Firewood workers with reference to the provisions in the Board's Various Powers Bill affecting the stacking of Firewood in the Metropolis.

By Mr. Andrews (No. 1,481).—To introduce a Deputation of Firewood dealers with reference to the provisions in the Board's Various Powers Bill, affecting the stacking of Firewood in the Metropolis.

By Mr. Selway (No. 1,482).—To introduce a Deputation of ratepayers in opposition to the South-Eastern Railway Company's Bill for extending the time for completing the Railway through Southwark, Newington, &c.

Adjourned until Friday next, the 15th instant,
at this Office, at Twelve o'clock at noon.

No. 2.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday**, the **15th** day of **January**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^cGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

CHARLES HARRIS, Esq.	GEORGE BROWN, Esq.	JOHN REDDISH, Esq.
HENRY HARBEN, Esq.	JOHN ABBOTT, Esq.	BENJAMIN WEIR, Esq.
GEORGE JAMES, Esq.	JOHN EDWIN BRADFELD, Esq.	LIEUT.-COL. EDWIN HUGHES, M.P.
THOMAS GEORGE FARDELL, Esq.	FREDERICK COX, Esq.	SAMUEL PRICE, Esq.
ROBERT JONES, Esq.	CHARLES MOSSOP, Esq.	JAMES EBENEZER SAUNDERS, Esq., DEPUTY.
PETER WILLIAM FUNNELL, Esq.	WILLIAM ROBBINS SELWAY, Esq.	WILLIAM JAMES WETEN-HALL, Esq.
JOHN LENANTON, Esq.	JOHN JONES, Esq.	EDWARD RIDER COOK, Esq., M.P.
JOHN TOLHURST, Esq.	WILLIAM BOUTCHER, Esq.	GEORGE EDWARDS, Esq.
WILLIAM BURNHAM GARRETT, Esq.	GEORGE PHILLIPS, Esq.	THOMAS MORRISON FAIRCLOUGH, Esq.
GEORGE HILL, Esq.	WILLIAM ROBSON, Esq.	EDWARD DRESSER ROGERS, Esq.
THEOPHILUS WILLIAM WILIAMS, Esq.	ROBERT FURNISS, Esq.	HON. ALANDE TATTON, EGER-TON, M.P.
ALFRED EWIN, Esq.	ALFRED POCKOCK, Esq.	
WILLIAM ANDREWS, Esq.	FREDERICK INGOLDBY, Esq., F.R.C.S., Eng.	
JOHN ROBERT JOLLY, Esq.	JOHN RUNTZ, Esq.	
ANDREW MIDDLEMASS, Esq.	CAPTAIN WENBORN.	
	WILLIAM SHEPHERD, Esq.	

1. The Minutes of the Meeting of the Board, held on the 8th instant, were approved, and were signed by the Chairman, and by two other Members of the Board present at such Meeting.
2. A Deputation of retail dealers in Firewood, introduced by Mr. Hill, and consisting of the following persons, viz.—Mr. R. Fairbairn, Mr. G. Williams, Mr. W. Denny, Mr. W. Salter, Mr. H. Jones, and Mr. J. Chittenden, accompanied by Mr. W. J. Evelyn, M.P., attended the Board, and presented a Memorial, which was read, as follows—

In the matter of an intended Bill in Parliament, Session 1886, for the safe keeping of Firewood within the limits of the Metropolis.

To the Metropolitan Board of Works.

The Humble Memorial of the Association of dealers or retailers of Firewood,

SHEWETH,

1—Your Memorialists are an Association formed for the protection of the interests of persons engaged in the Metropolis in the business or occupation of dealers in Firewood, whether wholesale or retail.

2.—It has come to the knowledge of your Memorialists that it is the intention of your Honourable body to present a Bill in Parliament in the ensuing Session, dealing with the keeping and storage of Firewood in the Metropolis.

3.—Your Memorialists are humbly of opinion that the provisions of the said intended Bill are unnecessary, and will prove most injurious to the interests of persons carrying on the business or occupation in which your Memorialists are engaged, and indeed to every other department of the Firewood trade.

4.—The said provisions will, in the opinion of your Memorialists, prove injurious to their trade, because—

(a) The Firewood trade is a large one, and gives employment to thousands of hands—men, women, and children. It is estimated that more than £250,000 is earned annually in London in the manipulation of Firewood. These persons largely consist of women, children, people of infirm health, persons of weak intellect, and others who are incapable of earning a living otherwise, and would not be able to change their place of abode, and must find the material for their business near at hand. It is therefore imperative that the trade should be carried on within the Metropolis, and near the store-yards, as the business is chiefly confined to the Metropolis. The persons engaged in the trade can only buy wood in very small quantities. Firewood merchants at the present time are established in various parts of the Metropolis; in nearly every instance their premises are along the rivers and canals, consequently well situated in case of fire, and their premises mostly held for long terms of years, and large sums have been spent by them in making their premises suitable for the purposes of their business. If by reason of the provisions of the said intended Bill, with reference to the situation of premises for the storage of Firewood, and the nature of the goods with which such Firewood is to be placed, such merchants, or any of them, are prevented from carrying on the said business upon their present premises, great loss, if not absolute ruin, will be the result, and many persons and families will be deprived of a substantial part of their livelihood.

(b) For some six or seven months during the year it is impossible to bring the timber used in the manufacture of Firewood to England, owing to the frozen state of the Baltic. It is therefore absolutely necessary for yard-keepers engaged in the business of storing Firewood to lay in during the open time of the year as large stocks of Firewood as possible, in order to meet the demand for Firewood during the time that fresh supplies cannot be shipped, or supplies must fail. During the open time, several cargoes frequently arrive for one merchant within a day or two of one another, and it being impossible to regulate the arrivals, the resources of merchants are frequently tried to the utmost to find room for their stock. If such cargoes are not speedily discharged, heavy penalties are incurred by the consignees. Immense quantities of wood are dealt with yearly in the trade, the average import being about 60,000 fathoms per annum, or about 300 to 350 complete cargoes, containing about 13,000,000 cubic feet. If by reason of the provision of the said intended Bill with regard to the accumulation and storage of Firewood, and the cubic space to be occupied thereby, and the limitations imposed thereon, the merchants and yard-keepers are prevented from accumulating and storing Firewood as they have done heretofore, their business will be so restricted as to render it practically impossible to use their present premises for the storage of Firewood, which means absolute ruin to most of the merchants, and the loss of occupation to thousands of small dealers and their families. The consequence of this will be that the persons who make the Firewood will not be able to continue their business, and a different class of workmen will have to be employed; the merchants will be obliged to raise the price of Firewood, and this will give an opportunity to the foreign makers to intervene—an opportunity they have long been seeking for. Foreign makers have even made some attempts to get a footing in the Firewood market, but their attempts have hitherto been unsuccessful, because, owing to the present conditions of the trade, the English makers have been able to hold their own against them.

5.—The said provisions are unnecessary because—

(a.) An accident through unsafe stacking is of most rare occurrence. It is not within the recollection of your Memorialists that more than one accident has occurred from this cause, but your Memorialists can explain special reasons for this one accident, which was, moreover, not an accident at all peculiar to the Firewood trade.

(b.) Fires are of rare occurrence in the Firewood trade. There are about 60 yards engaged for the Firewood business in the Metropolis, and 6 fires only have occurred in

Firewood yards during the last 50 years, and in one instance only did the fire extend to any surrounding property. The value of property destroyed by fires in Firewood yards has been infinitesimal, as compared with most other trades, not more than £15,000 to £20,000 worth of property was destroyed in the whole 6 fires mentioned, and no loss of life, or even serious injury to any person, and your Memorialists are humbly of opinion that these results will not bear any comparison with the enormous destruction of property and loss of life through fires in any other trade that can be mentioned.

6.—If, therefore, the said intended Bill has the result which your Memorialists fear it will, the business of your Memorialists will be most seriously affected, and they therefore humbly beg that your Honourable body may re-consider the advisability of proceeding with it, and may come to the opinion that it will be better to abandon it.

(Signed) RICHARD FAIRBAIRN.

34, Credon-road, S.E.

And 3 others.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Hill, seconded by Mr. Ewin, and *resolved*—That the Memorial be referred to the Works and General Purposes Committee, for consideration and report.

A Deputation from workmen employed in the Firewood yards of the Metropolis, introduced by Mr. Hill, and consisting of the following persons, viz.—Mr. G. English, Mr. W. Taylor, Mr. J. Bryan, Mr. R. G. Wickham, Mr. W. Hearn, and Mr. W. Jones, attended the Board, and presented a Memorial, which was read, as follows—

In the matter of an intended Bill in Parliament, Session 1886, for the safe keeping of Firewood within the limits of the Metropolis.

To the Metropolitan Board of Works.

The Humble Memorial of the Firewood Cutters' Amalgamated Protection Society.

SHEWETH,

1.—Your Memorialists are an Association formed for the protection of the interests of persons engaged as cutters of Firewood.

2.—It has come to the knowledge of your Memorialists that it is the intention of your Honourable body to present a Bill in Parliament in the ensuing Session, dealing with the keeping and storage of Firewood.

3.—Your Memorialists are unaware of any necessity for the introduction of such Bill. So far as they have seen, the arrangements for the storage and keeping of Firewood are well adapted to the purpose, and are not attended with any special risk or danger.

4.—Your Memorialists are for the most part not in a position to move their homes. They are, with hard work, at present able to earn their livelihood in consequence of the admirable arrangements, the convenient position, and the well-ascertained communications between themselves and the wood-yards and the dealers. They are firmly convinced that any interference with or change in the arrangements of the wood-yards will cause many of them to be closed and some removed, and in any case this will seriously injure, if not completely ruin, the occupation of your Memorialists.

Your Memorialists, therefore, humbly pray that your Honourable Board will re-consider this question, and will decide not to proceed further with a measure which, they are convinced will inflict irreparable injury on them.

And your Memorialists will ever pray, &c.

(Signed)

GEO. ENGLISH,

5, Palmerston-street, Battersea,
And 223 others.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Hill, seconded by Mr. Selway, and *resolved*—That the Memorial be referred to the Works and General Purposes Committee, for consideration, in connection with the foregoing reference.

A Deputation of Firewood dealers, introduced by Mr. Andrews, and consisting of the following persons, viz.—Mr. F. F. Bayley, Mr. G. W. Davies, Mr. J. F. Newland,

Mr. J. J. Shepherd, Mr. G. E. Highland, Mr. A. Bridgman, Mr. J. Davies, Mr. R. H. Dahl, Mr. W. Hope, Mr. T. Treadwell, Mr. W. Groom, Mr. F. Bicknell, Mr. W. H. Sydall, M. C. Daffy and Son, and Hill and Rewods, accompanied by Mr. A. A. Bauman, M.P., attended the Board, and presented a Memorial, as follows—

In the matter of an intended Bill in Parliament, Session, 1886, for the safe keeping of Firewood within the limits of the Metropolis.

To the Metropolitan Board of Works.

The Humble Memorial of the Association of Firewood Merchants of the Metropolis,

SH EWETH,

1.—Your Memorialists are an Association formed for the encouragement and protection of persons engaged in the Metropolis and elsewhere in the manufacture and sale of Firewood.

2.—It has come to the knowledge of your Memorialists that it is the intention of your Honourable body to present a Bill in Parliament in the ensuing Session, dealing with the keeping and storage of Firewood in the Metropolis.

3.—Your Memorialists are humbly of opinion that the provisions of the said intended Bill are unnecessary, and will, if passed, undoubtedly, prove most disastrous to the interests of the interest of the trade or business, and of the persons engaged therein, more especially of the yard-keepers, for the following amongst other reasons.

4.—The said provisions will prove disastrous to the trade, because—

(a) The Firewood trade is a large one, and gives employment to thousands of hands, consisting of men, women and children. It is estimated that £250,000 is earned annually in London in the manipulation of Firewood, principally by the very poorest class and those physically incapable of doing more arduous work. And it is imperative that the trade should be carried on within the Metropolis, as the business is chiefly confined to it, and also that a very large proportion of the Firewood cutting is done by persons and families at their own homes, and to whom store yards in the Metropolis are an absolute necessity, as they have not the means to buy in other than very small quantities. Firewood merchants at the present time are established in various parts of the Metropolis; in nearly every instance their premises are along the river or canals, consequently well situated in case of fire, and their premises are mostly held for long terms of years, and large sums of money have been spent by them in making their premises suitable for the purposes of their business. If, by reason of the provisions of the said intended Bill with regard to the situation of premises for the storage of Firewood and the nature of the goods with which such Firewood is to be placed, such merchants, or any of them, are prevented from carrying on the said business upon their present premises, great loss, if not absolute ruin, will be the result, not to speak of the many persons and families who would be deprived of employment.

(b) For some six or seven months during the year it is impossible to bring the timber used in the manufacture of Firewood in England, owing to the frozen state of the Baltic. It is, therefore, absolutely necessary for yard keepers engaged in the business of storing Firewood to lay in during the open time of the year as large stocks of Firewood as possible, in order to meet the demand for Firewood during the time that fresh supplies cannot be shipped, or supplies must fail. During the open time several cargoes frequently arrive for one merchant within a day or two of one another, and, it being impossible to regulate the arrivals, the resources of merchants are frequently tried to the utmost to find room for their stock. If such cargoes are not speedily discharged, heavy penalties are incurred by the consignees. Immense quantities of wood are dealt with yearly in the trade, the average import being about 60,000 fathoms per annum, or about 300 to 350 complete cargoes, containing about 13,000,000 cubic feet. If by reason of the provisions of the said intended Bill with regard to the accumulation and storage of Firewood, and the cubic space to be occupied thereby, and the limitations imposed thereon, the merchants and yard-keepers are prevented from accumulating and storing Firewood as they have done heretofore, their business will be so restricted as to render it practically impossible to use their present premises for storage of Firewood, which means absolute ruin to most of the merchants, and the loss of occupation to thousands of small dealers.

5.—The said provisions are unnecessary because—

(a) An accident through unsafe stacking is of most rare occurrence. It is not within the recollection of your Memorialists that more than one accident has occurred

from this cause, but your Memorialists can explain special reasons for this one accident, which was, moreover, not an accident at all peculiar to the Firewood trade.

- (b) Fires are of rare occurrence in the Firewood trade. There are about 60 yards engaged for the Firewood business in the Metropolis, and 6 fires only have occurred in Firewood yards during the last 50 years, and in one instance only did the fire extend to any surrounding property. The value of property destroyed by fires in Firewood yards has been infinitesimal as compared with most other trades, not more than £15,000 to £20,000 worth of property was destroyed in the whole six fires mentioned, and no loss of life, or even serious injury to any person, and your Memorialists are humbly of opinion that these results will not bear any comparison with the enormous destruction of property and loss of life through fires in any other trade that can be mentioned.

Under these circumstances, your Memorialists humbly beg that your Honourable Board will re-consider the provisions of the safe keeping of Firewood Bill, trusting that will result in its abandonment by the Board.

And your Memorialists will ever pray, &c.

To the Metropolitan Board of Works, London.

(Signed) D. SNELL,

And 70 others.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Andrews, seconded by Mr. Ewin, and *resolved*—That the Memorial be referred to the Works and General Purposes Committee, for consideration, in connection with the foregoing references.

It was *moved* by Mr. Williams, and seconded by Mr. Andrews—That the representatives of the Memorialists be invited to attend the Committee, if necessary, when the Memorials are considered.

The *motion* having been put to the vote, there were for it 23, against it 1, and it was declared by the Chairman to be carried; and it was *resolved* accordingly.

3. A Deputation of ratepayers in Southwark, Newington, &c., introduced by Mr. Selway, and consisting of the following persons, viz.—Mr. R. D. Hilton, Mr. W. W. Flood, Mr. D. Davis, Mr. W. Rideal, Dr. T. H. Waterworth, Mr. M. J. Thomas, Mr. C. Hart, Mr. J. Rideal, Mr. R. A. Gibson, and Mr. H. Wagner, attended the Board, and presented a Memorial, which was read, as follows—

To the Honourable the Metropolitan Board of Works.

The Memorial of Freeholders, Leaseholders, Occupiers, and Ratepayers on the route of the proposed extension of the South-Eastern Railway in the Parishes of St. Saviour's, St. George-the-Martyr, St. Mary, Newington, and St. Mary Magdalene, Bermondsey, and indorsed at a large public meeting held in the Hall of the Bricklayers' Institute, Southwark-bridge-road, S.E., on January 6th, 1886.

HUMBLY SHEWETH,

That on the 30th of November, 1881, the Company deposited Plans and Reference-book of new lines at the Sessions House, Newington-causeway, and at the respective Vestries.

That in 1882 the Company received from Parliament an Act empowering them to construct the new line in the above-named Parishes, receiving from the Legislature certain powers and concessions for that purpose.

That before the expiration of the time laid down in the Act for completing the purchase of the various interests and properties the Company applied to Parliament for two years extension of time which the Legislature considered too much, and, therefore, only granted one year.

That people on the scheduled route who were, by the Company, officially notified that their properties would be required, are, in their respective callings, very much injured, as the uncertainty caused by those notices has had a detrimental effect upon business of every kind.

That the Company has acquired property in business neighbourhoods, and has not improved or turned it to account, thereby, in a general way, causing a serious loss to the Rates, an annoyance to the inhabitants, and a depreciation of other properties and interests.

That suspense and uncertainty detrimental to every section of the people residing on the area affected by the proposed Railway are caused through the wavering and procrastination of the Company.

That according to statements made before the Select Committee by the Chairman, Secretary and Chief Engineer of the Company, the proposed new Railway is absolutely necessary for the public safety, and should, therefore, be constructed without further delay.

That the Company are now promoting another Bill through Parliament for a further extension of time which if granted will, in the above-mentioned districts, be the cause of much public and private injury.

Your Memorialists therefore respectfully request your Honourable Board to oppose in Parliament the application of the South-Eastern Railway Company for an additional extension of time to carry out the agreement they made with the public as set forth in the Act which they received from the legislature in 1882.

And your Memorialists will ever pray.

(Signed) O'HARA AND HOOR,
Whitecross-street,
And 194 others.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Selway, seconded by Mr. Pocock, and *resolved*—That the Memorial be referred to the Parliamentary Committee, for consideration and report.

4. Mr. Fardell, the Chairman of the Finance Committee, brought up a Report, as follows—

REPORT OF THE FINANCE COMMITTEE.

Spring-gardens, 12th January, 1886.

Your Committee have to report that they have examined the Pass Books of the Treasurer and Banker of the Board, together with the Statements prepared by your Accountant, and have ascertained the Cash Account, on the 31st December last, and the 9th instant, to be as follows—

CONSOLIDATED CASH ACCOUNT—

Your Committee have also to report that they have examined the Certificates of the various principal Officers for the payment of the sums mentioned in the accompanying Statement, and have found the same correct; and they recommend—

That the sums specified therein, amounting in the whole to £12,220 15s. 7d., be paid.

Your Committee have had before them Statements of certain sums payable to District Surveyors in respect of services in connection with Dangerous Structures, and for expenses of Shoring and Hoarding; and they recommend—

That the necessary Orders be made with respect to the same.

Pursuant to the Order of the Board of the 6th July, 1883 (No. 8), your Committee have had before them a Statement of the Salaries which will become payable to the Board's Officers on the 25th instant, amounting to the sum of £2,975 16s. 8d., which Statement has been approved by your Committee; and they beg to submit the same, and to recommend—

That the Board do pass an Order authorising the Treasurer to pay the several amounts on or after the 25th instant.

On the 23rd October last (No. 15), the Board agreed to advance the sum of £25,000 to the Guardians of the Poor of the St. Saviour's Union, £20,000 being re-paid in 30 years, and £5,000 within 15 years. The £20,000 has been advanced, but the Guardians have neglected to take up the balance (£5,000) and have intimated to your Solicitor that they wish the re-payment spread over a longer period than that fixed by the Board. As 15 years is the period usually allowed for re-payment of Loans for fittings and fixtures, for which the £5,000 are required, the Guardians have been informed to

that effect, but have given no intimation of their wish to proceed with the matter, and your Committee accordingly recommend—

That the Resolution of the Board of the 23rd October last (No. 15), agreeing to advance the Guardians the sum of £25,000, be as to £5,000 not further acted upon.

Your Committee have also to report that your Accountant has submitted to them a list of the Vestries, District Boards, &c., who have not paid the second moiety of the Precepts issued by the Board for the Metropolitan Consolidated Rate for the year 1885, which became due on the 1st ultimo. As it is desirable that the amounts due should be forthwith paid, your Committee recommend—

That a communication be addressed to the Vestries, and other Boards who are in default, to the effect that, on the expiration of three weeks from the 15th instant, it will become the duty of the Board to make Rates upon the several Parishes and Districts, &c., for all sums which may then remain due under the Precepts.

There is also due from several of the Vestries and other Boards, the contributions payable in respect of property occupied by her Majesty's Government, and your Committee recommend—

That application be made for payment of the same.

Your Committee have further to report that the Precepts which were issued by the Board on the 20th February last (No. 14), and directed to the Societies of Lincoln's-inn and the Inner Temple, are still unpaid, and they recommend—

That Mr. Joseph Smith be appointed to levy in those places the amounts required to be raised, and that the Common Seal of the Board be affixed to the necessary Instruments of appointment.

On the 27th November last (No. 5), the Board drew a Cheque for £3,300 on the Fire Brigade Working Account, in favour of Messrs. Hawthorn and Co., for two Steam-tugs, the funds in hand on the Fire Brigade Capital Account not being sufficient for that purpose. Your Accountant has reported to your Committee that the total payments sanctioned by the Board and charged to Capital Account during the year 1885 amounted to £32,543 7s. 3d., the expending power being £35,000, and that he had consequently, on closing the year's Accounts on the 31st December, transferred from the Fire Brigade Capital to the Working Account the sum of £2,400 in diminution of the amount so advanced, leaving the balance, £900, to be reimbursed to the Working Account, under power to be obtained for that purpose in the Money Bill of 1886, and your Committee recommend—

That such transfer be approved.

Your Committee have had prepared a list of the Loans sanctioned by the Board, and of contributions granted in aid of Local Improvements, made up to the 31st December last, in continuation of the lists up to the 31st December, 1882, ordered to be printed by the Board, and your Committee beg to submit the same, and to recommend—

That the lists be printed, and be circulated amongst the Members of the Board.

On the 23rd December last the Board drew a Cheque on the General Capital Account in favour of the London and Westminster Bank, *re* Metropolitan District Railway Company, for the sum of £8,273 2s. 1d., for the purpose of being deposited at the Bank, should the Company not take up, by the 31st ultimo, the two Cheques also drawn on that day for the same amount. As the two Cheques were taken up, the other is not now required, and your Committee accordingly recommend—

That it be cancelled.

All which your Committee beg to submit.

(Signed) T. G. FARDELL,
JOHN TOLHURST,
CHARLES MOSSOP,
GEORGE JAMES,
P. W. FUNNELL.

STATEMENT SUBMITTED WITH THE FOREGOING REPORT.

* Paid since the Meeting of the Committee.

† £5 9s. 8d. is also unpaid for 1884.

† The first moiety in these two parts is still unpaid, namely, Inner Temple, £171 7s. 9d., and Lincoln's Inn, £145 10s. 3d.

(Signed) ARTHUR GUNN,
Accountant.

The Statement of the Officers' Salaries, submitted with the Report, was laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the sums specified in the Statement submitted by the Committee, amounting in the whole to £12,220 15s. 7d., be paid.

Cheques were thereupon signed by two Members of the Board present at the Meeting.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the Fees specified in the Four summaries of Accounts now presented to the Board, marked A to D inclusive, and signed by their Clerk, be paid to the respective District Surveyors mentioned in the following Abstract, for services performed by them in connection with Dangerous Structures in the Metropolis, not being within the City of London, such services being the surveying, by direction of the Board, under the second part of the Metropolitan Building Act, 1855, and pursuant to the Metropolitan Building Act, 1869, of Structures reported to be in a dangerous state, and certifying opinions thereon; and also for special services performed by them in cases in which special services have been required.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the Statement now submitted, showing the Salaries payable to the Officers of the Board on the 25th instant, amounting to the sum of £2,975 16s. 8d., be approved, and that the Treasurer of the Board, the London and Westminster Bank (Limited), be authorised to pay the several sums specified in such Statement, to the persons entitled to receive the same.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the Resolution of the Board of the 23rd October last (No. 15), agreeing to advance to the Guardians of the Poor of the St. Saviour's Union a sum of £25,000, be as to £5,000 not further acted upon.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the Vestries, District Boards, and other bodies who have made default in payment of the second moiety of the sums named in the Precepts issued by this Board for the Metropolitan Consolidated Rate for the year 1885, which became due on the 1st ultimo, be informed that, on the expiration of Three weeks from this date, it will become the duty of the Board to make Rates upon the several Parishes or Districts, for levying all sums which may then remain due under such Precepts.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the several Vestries and District Boards who have not paid to the Board the amount due in respect of the contribution in lieu of Rates on Government property be applied to for payment of the same.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the necessary steps be forthwith taken for the preparation of Rates on Lincoln's-inn and the Inner Temple, for the Consolidated Rate for the year 1885.

The Clerk reported that the sum of £291 0s. 7d., mentioned in the Precept, dated 20th February, 1885, in respect of the Metropolitan Consolidated Rate, and addressed to the Honourable Society of Lincoln's-inn, was still unpaid.

And it being made to appear to the Board that the Honourable Society of Lincoln's-inn had neglected and failed to obey the Precept of the Board, issued on the 20th February, 1885, in respect of the Metropolitan Consolidated Rate, and duly served upon the said Society,

It was **moved** by Mr. Fardell, seconded, and **resolved**—That Joseph Smith be appointed to levy in Lincoln's-inn the money required by this Board, amounting to £291 0s. 7d., as follows, that is to say—

Whereas, at a Meeting of the Metropolitan Board of Works, held on the 20th day of February, 1885, at the Office of the Board, Spring-gardens, under and by virtue of the Metropolis Management Act, 1855, and the Acts for amending, extending, and varying the same, and the Metropolitan Board of Works (Loans) Act, 1869, the said Board did issue their Precept under their Common Seal, to the Treasurer and Masters of the Bench of the Honourable Society of Lincoln's-inn, being one of the places mentioned in

Schedule C to the said Act of 1855, and did thereby require them to pay to the London and Westminster Bank, No. 1, St. James's-square, in the City of Westminster, Treasurer and Banker of the said Metropolitan Board, in respect of the Metropolitan Consolidated Rate, the sum of £291 0. 7d., in manner following—that is to say: the sum of £145 10s. 3d., part thereof, on or before the 1st day of June, 1885, and the sum of £145 10s. 4d., residue thereof, on or before the 1st day of December, 1885, the said sum of £291 0s. 7d., being the amount by law chargeable upon the said Lincoln's-inn for payment of principal and interest of, and Sinking Fund for, securities granted before the passing of the Metropolitan Board of Works (Loans) Act, 1869, and also for all other purposes of the Board to which the said Society is liable, as set forth in the said Precept; and which said sum of £291 0s. 7d. the said Metropolitan Board did, on the 20th day of February, 1885, ascertain and assess upon the said Lincoln's-inn as a portion of the said Metropolitan Consolidated Rate, in pursuance of the provisions of the said Acts in that behalf. **And whereas** the said Precept was duly served upon the said Society, and the said Society have neglected and failed to pay the said sum of £291 0s. 7d. within the times and in the manner mentioned, and as required by the said Precept, and the said sum, and every part thereof, is still unpaid. **And whereas** it has been resolved at a Meeting of the said Board, held at their Office in Spring-gardens, in the County of Middlesex, this day, that you, Joseph Smith, should be appointed to levy in the said Lincoln's-inn the said sum required by the said Metropolitan Board to be paid by the said Society in respect of the said Precept. Now, the said Metropolitan Board do, by this Instrument, under their Common Seal, appoint you, the said Joseph Smith, in conformity with the said Resolution, to levy, forthwith, in the said Lincoln's-inn, in accordance with the said Assessment and Precept, and in conformity with the said Acts, the said sum of £291 0s. 7d., mentioned in the said Precept, and required by this Board for the purposes aforesaid, and to levy in addition to the said sum of £291 0s. 7d. all the expenses of, and incidental to, the preparing, making, collecting, and levying any Rate which may be made by you for the purpose of raising the said sum.

The Clerk laid before the Board the said Instrument of Appointment of the said Joseph Smith.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the said Instrument of Appointment be approved and adopted; that the Common Seal of the Board be affixed thereto, and that the same, when sealed, be delivered to the said Joseph Smith as his appointment to levy the said sum mentioned in the Precept amounting to £291 0s. 7d., together with all the expenses of, and incidental to, the preparing, making, collecting, and levying any Rate which may be made by him for the purpose of raising the said sum; and the Seal of the Board was affixed to such Instrument of Appointment accordingly.

The Clerk reported that the sum of £342 15s. 7d., mentioned in the Precept, dated 20th February, 1885, in respect of the Metropolitan Consolidated Rate, and addressed to the Honourable Society of the Inner Temple, was still unpaid.

And it being made to appear to the Board that the Honourable Society of the Inner Temple had neglected and failed to obey the Precept of the Board, issued on the 20th February, 1885, in respect of the Metropolitan Consolidated Rate, and duly served upon the said Society,

It was **moved** by Mr. Fardell, seconded, and **resolved**—That Joseph Smith be appointed to levy in the Inner Temple the money required by this Board, amounting to £342 15s. 7d. as follows, that is to say—

Whereas, at a Meeting of the Metropolitan Board of Works, held on the 20th day of February, 1885, at the Office of the Board, Spring-gardens, under and by virtue of the Metropolis Management Act, 1855, and the Acts for amending, extending, and varying the same, and the Metropolitan Board of Works (Loans) Act, 1869, the said Board did issue their Precept under their Common Seal to the Treasurer and Masters of the Bench

of the Honourable Society of the Inner Temple, being one of the places mentioned in Schedule C to the said Act of 1855, and did thereby require them to pay to the London and Westminster Bank, No. 1, St. James's-square, in the City of Westminster, Treasurer and Banker of the said Metropolitan Board, in respect of the Metropolitan Consolidated Rate, the sum of £342 15s. 7d., in manner following—that is to say—the sum of £171 7s. 9d., part thereof, on or before the 1st day of June, 1885, and the sum of £171 7s. 10d., residue thereof, on or before the 1st day of December, 1885, the said sum of £342 15s. 7d. being the amount by law chargeable upon the said Inner Temple for payment of principal and interest of, and Sinking Fund for, securities granted before the passing of the Metropolitan Board of Works (Loans) Act, 1869, and also for all other purposes of the Board to which the said Society is liable, as set forth in the said Precept: and which sum of £342 15s. 7d. the said Metropolitan Board did, on the 20th day of February, 1885, ascertain and assess upon the said Inner Temple, as a portion of the said Metropolitan Consolidated Rate, in pursuance of the provisions of the said Acts in that behalf. And whereas the said Precept was duly served upon the said Society, and the said Society have neglected and failed to pay the said sum of £342 15s. 7d. within the times and in the manner mentioned, and as required by the said Precept, and the said sum, and every part thereof, is still unpaid. And whereas it has been resolved at a Meeting of the said Board, held at their Office in Spring-gardens, in the said County of Middlesex, this day, that you, Joseph Smith, should be appointed to levy in the said Inner Temple, the said sum required by the said Metropolitan Board to be paid by the said Society in respect of the said Precept. Now, the said Metropolitan Board do, by this instrument, under their Common Seal, appoint you, the said Joseph Smith, in conformity with the said Resolution, to levy, forthwith, in the said Inner Temple, in accordance with the said Assessment and Precept, and in conformity with the said Acts, the said sum of £342 15s. 7d., mentioned in the said Precept, and required by this Board for the purposes aforesaid, and to levy, in addition to the said sum of £342 15s. 7d. all the expenses of, and incidental to, the preparing, making, collecting, and levying any Rate which may be made by you for the purpose of raising the said sum.

The Clerk laid before the Board the said Instrument of Appointment of the said Joseph Smith.

It was moved by Mr. Fardell, seconded, and resolved—That the said Instrument of Appointment be approved and adopted; that the Common Seal of the Board be affixed thereto, and that the same, when sealed, be delivered to the said Joseph Smith, as his appointment to levy the said sum mentioned in the said Precept, amounting to £342 15s. 7d. together with all the expenses of, and incidental to the preparing, making, collecting, and levying any Rate which may be made by him, for the purpose of raising the said sum; and the Seal of the Board was affixed to such Instrument of Appointment accordingly.

It was moved by Mr. Fardell, seconded, and resolved—That the said Joseph Smith do enter into a joint and several Bond, with one surety in the sum of £200, conditioned for faithfully levying the said amounts in Lincoln's-inn and the Inner Temple, and duly paying the same to the Treasurer and Banker of this Board.

It was moved by Mr. Fardell, seconded, and resolved—That the transfer of the sum of £2,400 from the Fire Brigade Capital Account to the Fire Brigade Working Account, in diminution of the amount advanced from the latter Account, under the Board's Resolution of the 27th November last, in respect of the cost of Steam-tugs, be approved.

It was moved by Mr. Fardell, seconded, and resolved—That the lists, now submitted, of the Loans sanctioned by the Board, and of the contributions granted in aid of Local Improvements, made up to the 31st December last, be printed and that they be circulated amongst the Members of the Board.

It was moved by Mr. Fardell, seconded, and resolved—That the Cheque for the sum of £8,273 2s. 1d., drawn on the 23rd December last on the General Capital Account, in favour of the London and Westminster Bank, *re* Metropolitan District Railway Company, be cancelled.

The said Cheque was thereupon cancelled accordingly.

5. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 11th January, 1886.

On the 29th June, 1883 (No. 9), it was referred to your Committee to consider the question of establishing additional Fire-alarm circuits referred to in the Report of the Fire Brigade Committee presented on that day. The subject was disposed of by the Board on the 27th November last, on a Report by the Fire Brigade Committee, and it is therefore unnecessary for your Committee to proceed further on the reference, which they recommend the Board to discharge.

Your Committee have considered the Letter, referred to them on the 13th November last (No. 39), from the Hackney District Board, referring to previous correspondence relative to the construction of the new Bridge over the River Lee, at Temple-mills; stating that the whole of the works had been completed at a cost of £4,257 5s. 2d., and that the District Board were of opinion that it was a Metropolitan Improvement; and asking the Board to re-consider their decision to contribute £1,500, and to increase that amount to a moiety (£2,128 12s. 6d.) of the cost of the work. On the 8th August, 1884, your Committee presented a Report to the Board upon an application which had been made by the District Board, for the payment of the promised contribution of £1,500 in respect of the cost of the construction of the said Bridge and of other works. Your Committee recommended that the District Board should be required to strengthen the Bridge in the manner advised by your Engineer, so that it might be made efficient for the expected traffic over it. The Board adopted the recommendation, and the District Board have executed the strengthening works required. Your Committee have ascertained from your Engineer that the whole of the works of the Bridge have been satisfactorily completed at a cost, the District Board state, of £4,257 5s. 2d., and they ask the Board to increase their promised contribution of £1,500 to £2,128 12s. 7d., being a moiety of the actual cost. This seems to your Committee reasonable, under the circumstances, and they recommend—

That the Board do grant an additional contribution of £628, subject to the Accountant's Certificate as to the actual cost of the works.

Your Committee have further to report that, under the authority given to them by the Board on Friday last, they have accepted the following Tenders, having received Reports from the Officers as ordered by the Board—

For caustic soda—Messrs. Knight, Hill and Co., at £6 5s. per ton.

For manganate of soda—Messrs. C. Tennant, Sons and Co., at £11 per ton.

For sulphuric acid—Messrs. Sadler and Co., Limited, at £1 15s. per ton.

Your Committee have also to state, for the information of the Board, that they have accepted an offer by Messrs. Christopherson to sell to the Board, at £11 per ton, about 20 tons of manganate of soda which they have on hand.

Your Committee have considered the Letter, referred to them on Friday last (No. 4), from the Vestry of St. Pancras, asking the Board to re-consider the question of granting a contribution towards the cost of an Improvement carried out by the Vestry in Kentish-town-road. On the 27th November last, on the recommendation of your Committee, the Board decided to inform the Vestry that the work having been executed before the application was made, the Board were precluded by their General Order with regard to Local Improvements, from entertaining the request. On further consideration your Committee are unable to advise the Board to depart from that decision, and they recommend—

That the Vestry be so informed.

All which your Committee beg to submit.

(Signed)

J. MCGAREL-HOGG,
FRANCIS H. FOWLER,
W. R. SELWAY,
W^M. SHEPHERD,
JOHN RUNTZ,
A. EWIN.

The Report having been read and received,

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the reference made to the Committee by the Board on the 29th June, 1883 (No. 9), of the question as to the establishing of additional Fire-alarm circuits, be discharged.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That, subject to a Certificate by the Accountant to the Finance Committee, an additional sum of £628 be contributed by the Board, towards the cost of the construction, by the Hackney District Board, of the new Bridge over the River Lee, at Temple Mills.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That so much of the Report as relates to the Tenders for the supply of Caustic Soda, Manganate of Soda and Sulphuric Acid, be approved.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Vestry of St. Pancras be informed, in reply to their Letter asking the Board to re-consider the question of granting a contribution towards the cost of an Improvement in Kentish-town-road, carried out by the Vestry, that the Board are unable to depart from their previous decision on the subject.

6. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 5th January, 1886.

Your Committee have to report that they have, pursuant to the Resolution of the Board of the 22nd November, 1878 (No. 48), considered the following applications for the re-naming and re-numbering of various streets and places in the Metropolis, viz.—

DATE.	APPLICATION.
22nd April, 1884.	Postmaster-General for re-numbering the houses in various streets in the Metropolis.

DATE.	APPLICATION.
2nd May, 1881.	Greenwich District Board, for re-numbering certain streets in the District.
30th December, 1884.	Vestry of St. Pancras, for re-numbering certain streets in the Parish.
11th December, 1885.	Mr. G. L. Wingate, that the Board will not insist upon the premises numbered as 66A, Great Russell-street being numbered as 22, Bury-street.

Your Committee have received Reports from your Superintending Architect on the above-mentioned applications; they have also inspected Plans, prepared under his direction, showing the alterations which it is desirable to make in the naming and numbering of the several thoroughfares, and they recommend—

That the houses on the Eastern side of Clifton-road or hill, New-cross-road, Deptford, be re-numbered with even numbers, and that the whole line of thoroughfare be named “Clifton-hill, S.E.”

That the subsidiary name in Woodpecker-lane or road, Deptford, be abolished, that the houses be re-numbered, where necessary, and that the whole line of thoroughfare be named “Woodpecker-road, S.E.”

That the houses in Abinger-road, Deptford, and so much of Wotton-road as is in line therewith, be re-numbered, and that the whole line of thoroughfare, from Evelyn-street to the Railway, be named “Abinger-road, S.E.”

That the houses and premises in Crawley-mews, Seymour-street, St. Pancras, be re-numbered.

That the houses in Diara-place, Euston-road, St. Pancras, be re-numbered.

That certain houses at the Western end of Euston-street, St. Pancras, be re-numbered.

That the houses and premises in Grafton-mews, Tottenham-court-road, be re-numbered.

That the houses in Hampden-street, Clarendon-square, St. Pancras, be re-numbered.

That Mr. Wingate and the St. Giles District Board be informed that, under the circumstances stated in Mr. Wingate's Letter of the 11th December, 1885, the Board will not insist upon the premises numbered and described as 66A, Great Russell-street being numbered and described as 22, Bury-street.

All which your Committee beg to submit.

(Signed) A. EWIN,
W. R. SELWAY,
WM. SHEPHERD,
JOHN RUNTZ.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises on the Eastern side of the line of thoroughfare known by the name of Clifton-road or Clifton-hill, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with even numbers, commencing with 2 and ending with 80, as shown by red figures on the Plan now produced, marked 3,611, in lieu of the existing numbers, as shown on the said Plan; that such numbers do commence at the Southern end; that the name Clifton-road, and any other name or names now in use in Clifton-road or Clifton-hill, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Clifton-hill, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Woodpecker-lane or Woodpecker-road, in the Parish of St. Paul, Deptford, in the Counties of Surrey and Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,612, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 131, being assigned to the houses on the Western side, and the even numbers commencing with 2 and ending with 142, to those on the Eastern side; that such numbers do commence at the Southern end; that the names Woodpecker-lane, Clifton-terrace, and any other name or names now in use in Woodpecker-lane or Woodpecker-road, and the existing numbers be abolished; that the whole line of thoroughfare be called “Woodpecker-road, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Abinger-road and so much of Wotton-road as is in line therewith, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,613, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 77, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 84, to those on the Northern side; that such numbers do commence at the Eastern end; that the names Wotton-road (as above defined), Abinger-terrace and Vincent-terrace, and the existing numbers, be abolished; that the whole line of thoroughfare from Evelyn-street to the Railway be called “Abinger-road, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Crawley-mews, Seymour-street, in the Parish of St. Pancras, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 16, as shown by red figures on the Plan now produced, marked 3,614, in lieu of the existing numbers, as shown on the said Plan; that the existing irregular numbers be abolished; that the whole be called “Crawley-mews, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Diana-place, Euston-road, in the Parish of St. Pancras, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with

13, as shown by red figures on the Plan now produced, marked 3,615, in lieu of the existing numbers, as shown on the said Plan; that the existing irregular numbers, be abolished; that the whole be called "Diana-place, N.W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, certain houses and premises on the Northern side of the line of thoroughfare known by the name of Euston-street, in the Parish of St. Pancras, in the County of Middlesex, be marked with even numbers, commencing with 84 and ending with 102, as shown by red figures on the Plan now produced, marked 3,616, in lieu of the existing numbers, as shown on the said Plan; that certain of the existing numbers be abolished; and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Grafton-mews, Tottenham-court-road, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,617, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 23, being assigned to the houses on the Western side, and the even numbers commencing with 2 and ending with 22, to those on the Eastern side; that such numbers do commence at the Southern end; that the existing numbers be abolished; that the whole line of thoroughfare be called "Grafton-mews, W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 5th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Hampden-street, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,618, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 39, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 52, to those on the Southern side; that such numbers do commence at the Western end; that the existing numbers be abolished; that the whole line of thoroughfare be called "Hampden-street, W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

It was **moved** by Mr. Ewin, seconded by Mr. Phillips, and **resolved**—That Mr. Wingate and the St. Giles District Board be informed that, under the circumstances stated in Mr. Wingate's Letter of the 11th December last, the Board will not insist

upon the premises numbered and described as 66A, Great Russell-street being numbered and described as 22, Bury-street.

7. Mr. Pocock, the Chairman of the Special Purposes and Sanitary Committee, brought up a Report, as follows—

REPORT OF THE SPECIAL PURPOSES AND SANITARY COMMITTEE.

Spring-gardens, 12th January, 1886.

Your Committee have to report that, under their instructions, the Board were represented at the Annual Special Sessions held in the several Licensing Divisions of the Metropolis during the months of October, November and December last for the purpose of licensing Slaughterhouses, and that the necessary information was submitted to the Justices as to the sanitary condition of the premises, and as to the conduct of the businesses. 775 Slaughterhouses were licensed at those Sessions in the whole of the Metropolis, and there were 17 premises which had been previously licensed as Slaughterhouses, but for which the Licenses were not renewed. No new Licenses were granted. The number of private Slaughterhouses in the Metropolis at the date when the Slaughterhouses Act, 1874, came into operation was 1,429, and as the number now licensed is only 775, the reduction which has taken place since Slaughterhouses were placed under the Board's jurisdiction amounts to about 45 per cent.

Your Committee have further to report that proceedings have been taken against Frederick Noakes, of No. 186, New-road, Battersea, for disposing of Fireworks which had been seized by one of the Board's Inspectors, and that he was fined 50s. and 2s. costs.

Your Committee have further to report that they have had under consideration an application from Mrs. S. V. James, for registration for the keeping of Infants at No. 31, Boscobel-gardens, Alpha-road, St. Marylebone. Mrs. James has previously been granted registration for other premises, and having regard to the accommodation provided at those she now occupies, your Committee see no objection to her being granted registration for the keeping of two Infants. Your Committee accordingly recommend—

That the application of Mrs. S. V. James, for registration under the Infant Life Protection Act, for the keeping of Infants at No. 31, Boscobel-gardens, Alpha-road, St. Marylebone, be granted, and that the Board do make a Bye-law, fixing two as the number of Infants allowed to be kept.

Your Committee have further to report that proceedings have been taken against the following persons for keeping Infants upon unregistered premises—

Charlotte Jackson, of No. 14, Pear-tree-street, Waterloo-road, who was fined 20s. and 2s. costs.

Hannah Dagworthy, of No. 10, Campden-street, Kensington, who was fined 5s. and 2s. costs.

Your Committee have further to report that they have had under consideration an application from Mr. Alfred Pinnock for the renewal of his License for the keeping of Petroleum at No. 2, Landseer-road, Islington. The arrangements for storage continue satisfactory, and your Committee recommend—

That a License be granted to Mr. Alfred Pinnock, for a period of 12 months from the 15th instant, to keep 100 gallons of Petroleum at No. 2, Landseer-road, Islington, in accordance with the terms of the draft License submitted.

Your Committee also submit a list of 99 applications for Licenses to keep Petroleum in small quantities, and they recommend—

That in 85 cases Licenses be granted to keep quantities not exceeding 10 gallons at the places named, and in accordance with the conditions of License No. 91; that in 4 cases Licenses be granted to keep Petroleum in stores situated and constructed in accordance with

License No. 90; and that in 10 cases special Licenses be granted to keep Petroleum in the manner described in such Licenses.

All which your Committee beg to submit.

(Signed) ALFRED POCOCK,
F. M. WENBORN,
JOHN RUNTZ,
GEORGE PHILLIPS,
FRED. INGOLDBY.

The list of applications for Licenses to store Petroleum, submitted by the Committee, was laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Pocock, seconded, and *resolved*—That Mrs. S. V. James be registered under the Infant Life Protection Act, for the keeping of Infants at No. 31, Boscobel-gardens, Alpha-road, St. Marylebone, and that the Board do hereby make a Bye-law, fixing two as the number of Infants allowed to be kept at such premises.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That a License be granted to Mr. Alfred Pinnock, for a period of Twelve months from this date, to keep 100 gallons of Petroleum at No. 2, Landseer-road, Islington, in accordance with the terms of the draft License now submitted.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That Licenses be granted to the Ninety-nine persons mentioned in the list now submitted, to keep Petroleum in the places and in the quantities stated in such Licenses, for a period of Twelve months from this date, subject to the conditions mentioned in the several Licenses.

The Licenses referred to in the foregoing Resolutions were laid before the Board.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said Licenses; and the Seal was affixed accordingly.

8. Mr. Pocock, the Chairman of the Contagious Diseases (Animals) Act, 1878, Executive Committee, brought up a Report, as follows—

REPORT OF THE CONTAGIOUS DISEASES (ANIMALS) ACT, 1878, EXECUTIVE COMMITTEE.

Spring-gardens, 12th January, 1886.

Your Committee have to report that at the Special Sessions recently held for considering applications for the renewal of Cowhouse Licenses in the several Licensing Divisions into which the Metropolis is divided, representatives attended on behalf of the Board, in accordance with the instructions of your Committee, to urge any necessary objections, and for various reasons the Licenses to 42 Cowhouses were not renewed. There were five new Licenses issued in respect of premises which had been certified by the Board as being in accordance with their Regulations under the Dairies, Cowsheds and Milkshops Order of July, 1879, so that the reduction made in the number of Cowhouses during the Sessions was 37. The number of licensed Cowshed premises now in the Metropolis is 812.

In view of the prevalence of Glanders and Farcy among horses in the Metropolis, your Committee have had under consideration the desirability of taking further measures for the detection of outbreaks, and for the prevention of the spread of those diseases. It has for some time been the practice, on the North side of the Thames, for Mr. Shaw, one of the Board's Veterinary Inspectors to make a daily inspection of the premises of the licensed Horse Slaughterers, and that daily inspection has been found of such value in the detection of cases of disease and of infringements of the Act, that your Committee have considered it advisable to extend the system to the remaining licensed premises in the Metropolis. In order to enable the inspection to be made daily on the South side of the Thames in the same way as is now done on the North side, your Committee have considered it desirable to make some alterations in the existing area of

the Districts assigned to three of the Board's Veterinary Inspectors, and to arrange a new District to include the three Horse Slaughterers' premises which are on the South side. To this newly formed District they have appointed Mr. C. J. Humphrey, a duly qualified Veterinary Surgeon, who has undertaken to make the necessary daily inspections, and to carry out the other duties of a Veterinary Inspector under the Act necessary in the District.

Your Committee have to report that proceedings have been taken against the following persons—

Mrs. Susannah Weston, No. 32, Octavius-street, Deptford, who was fined 5s. and 2s. costs, for keeping cows on unlicensed premises.

Mr. Timothy Brosnan, Norman Farm, Fulham, who was fined 40s. and 28s. costs, for neglect to give notice of an outbreak of Glanders.

Your Committee have to report that they have examined the claims of 11 owners in respect of 25 animals slaughtered in consequence of having been affected with Pleuropneumonia, and that they have awarded sums, amounting to £387 as compensation for such animals. The sum of £153 9s. 4d. has been received for the carcasses, hides, &c., of the animals, leaving the net cost to the Board of £233 10s. 8d.

Your Committee have also to report that they have examined the claims of two owners in respect of 117 swine slaughtered in consequence of having been affected with Swine (Typhoid) Fever, and of 58 unaffected Swine which had been in contact with them, and that they have awarded sums, amounting to £146 5s. as compensation for such animals. A Statement of the amounts awarded has been forwarded to the Finance Committee for payment.

All which your Committee beg to submit.

(Signed) ALFRED POCOCK,
F. M. WENBORN,
JOHN RUNTZ,
GEORGE PHILLIPS,
FRED. INGOLDBY.

The Report having been read,

It was ~~moved~~ by Mr. Pocock, seconded, and ~~resolved~~—That the Report be received.

9. Mr. Bradfield, the Chairman of the Parks, Commons, and Open Spaces Committee, brought up a Report, as follows—

REPORT OF THE PARKS, COMMONS, AND OPEN SPACES COMMITTEE.

Spring-gardens, 13th January, 1886.

Your Committee have to report that new flagstones are required at seven of the entrance-gates to the Chelsea Embankment gardens, and that slight repairs are needed to the boundary fence of the Gardens. The cost of the works is estimated at £12, and your Committee recommend—

That they be executed.

Your Committee having placed keepers to take charge of Highbury-fields on behalf of the Board, and it is necessary that some shelter should be provided for persons so employed. Your Committee recommend—

That a watch-box of a similar description to those in use on other Open Spaces under the control of the Board, be obtained and placed on Highbury-fields, at an estimated cost of £35.

As the Board are aware, the Act which placed Streatham-common under their control provides that a small portion of the Common shall be reserved exclusively for the matches of "local cricket clubs" who shall obtain from the Board the necessary permission prior to the 1st of February in each year. Your Committee have had before them applications for the ground from the Streatham Albion, Streatham United, Streatham Postmen's,

Streatham School, and Immanuel College Cricket Clubs; and having satisfied themselves that all these Clubs come under the definition of "local cricket clubs," they beg to recommend—

That permission be given to those Clubs to use the ground during the season of 1886.

Your Committee beg to submit a Plan herewith, showing in red colour, two paths which are required on Goose-green, for the convenience of the public. The Vestry of Camberwell are prepared to maintain the paths if they are made by the Board, and your Committee therefore recommend—

That the paths be formed with hard core and gravel, at an estimated cost of £55.

Under the authority conferred on them by the Board, on the 13th June, 1873 (No. 13) your Committee have authorised the purchase of ropes, screws, and similar articles for use in Finsbury-park; wall nails for the Victoria Embankment-gardens, and drain-pipes and tenter-hooks, for use on Hampstead-heath. They have also directed the repair of the roof of the pay-office in Finsbury-park, and the jets of the fountain in Leicester-square, and that some taps and bass brooms, be obtained for use in Southwark-park, and some planks and boarding for Blackheath. Your Committee have likewise authorised a new stove-pipe to be supplied and fitted in the watch-box on Shepherd's-bush-common, and that an additional opening be made in the fencing at that place, together with some repairs to the lodges on the Tooting Commons, and the purchase made of some new furniture for the watch-box on Stoke Newington-common, and burnt ballast for Highbury-fields.

All which your Committee beg to submit.

(Signed)

J. E. BRADFELD,
W^M. SHEPHERD,
JOHN RUNTZ,
GEO. EDWARDS.

The Plan submitted with the Report was laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That new flagstones be provided at seven of the entrance-gates to the Chelsea Embankment-gardens, and that the fencing adjoining be repaired, where necessary, at a total estimated cost of £12.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That a watch-box, of a similar description to those in use on other Open Spaces under the control of the Board, be obtained for use on Highbury-fields, at an estimated cost of £35.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That permission be given to the Streatham Albion, the Streatham United, the Streatham Postmen's, the Streatham School, and the Immanuel College Cricket Clubs, they being "local cricket clubs" of Streatham, as defined by the Act, to use the reserved Cricket-ground on Streatham-common during the season of 1886, and that the cost of maintaining the ground be apportioned at the close of the season between the said clubs.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the two paths on Goose-green, shown by red colour on the Plan now submitted, be formed with hard core and gravel, at an estimated cost of £55.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the several other proceedings of the Committee, as mentioned in their Report, be approved.

10. Mr. Shepherd, the Chairman of the Bridges Committee, brought up a Report, as follows—

REPORT OF THE BRIDGES COMMITTEE.

Spring-gardens, 13th January, 1886.

Your Committee beg to report that they have considered the Letter from the Wandsworth District Board, referred to them on the 11th December last (No. 3), suggesting that the approaches to the new Putney Bridge, particularly the approaches on

15 January, 1886.

the West side leading towards Lower Richmond-road, should be widened to 50 feet. Your Committee recommend—

That the District Board be informed, in reply, that at present the Board do not consider it desirable to make any alteration in the width of the approaches to the Bridge.

All which your Committee beg to submit.

(Signed)

W^M. SHEPHERD,
W. R. SELWAY,
JOHN RUNTZ,
GEO. EDWARDS,
F. H. FOWLER.

The Report having been read and received,

It was moved by Mr. Shepherd, seconded, and resolved—That the Wandsworth District Board be informed, in reply to their Letter suggesting that the approaches to new Putney Bridge, particularly the approach on the West side leading towards Lower Richmond-road, should be widened to 50 feet, that at present the Board do not consider it desirable to make any alteration in the width of the approaches.

11. Mr. Selway, the Chairman of the Parliamentary Committee, brought up a Report, as follows—

REPORT OF THE PARLIAMENTARY COMMITTEE.

Spring-gardens, 13th January, 1886.

Your Committee have had under consideration the Bills deposited for introduction into Parliament by the East London Water Company, the Lambeth Water Company, and the Southwark and Vauxhall Water Company. The East London and the Southwark and Vauxhall Companies propose to carry out certain works, the greater part of which will, however, be outside the Metropolitan area. All three Companies apply for power to raise additional capital by the issue of debenture stock, the East London Company proposing to raise £300,000, the Lambeth Company £150,000, and the Southwark and Vauxhall Company £250,000. Last year, when the Southwark and Vauxhall Company was before Parliament with a Bill which contained a Clause authorising the raising of additional capital, which Bill was eventually withdrawn, the Board appeared before the Select Committee of the House of Lords, and asked that the Company might be placed under certain conditions. One of the conditions proposed was that no new capital should be raised except by way of auction or public tender, and to this should be added that premiums obtained should not bear interest, but should be expended on works, or in the purchase of ordinary share capital; another was that the power now possessed by the Companies of paying back dividends should be limited to three years; and another, that the profit obtained by the issue of new debenture stock should go to the holder only to the extent of the interest borne by his debenture, and that the residue should be applied to the purchase of stock. Your Committee are of opinion that the same points, with any others, which, upon further examination of the Bills, may appear to call for special notice, should be urged upon the attention of Parliament this year; and with this view your Committee recommend—

That Petitions be presented against the three Bills

Your Committee will have to consider what steps shall be taken to support the Petitions against the three Water Bills above referred to, and the mention of this suggests the preliminary question, whether the Board has clear statutory authority to incur whatever expenditure may be necessary for the purpose. The Auditor of the Board's Accounts takes, as is well known, the view that the Board's powers in this respect are somewhat more restricted than the Board itself has generally considered them to be, and the fact that a question has been raised by the Auditor, upon the Accounts of last year, makes it needful for the Board to give special attention to this point. The proper course seems to be to

ask the Secretary of State for the Home Department to consider the Board's position, and to give his advice and assistance. Water, Gas and other Companies are nearly every year applying to Parliament for powers which affect in various ways the interests of the people of London as ratepayers, or as Water and Gas Consumers; and past experience shows that if those interests are to be properly protected, some authority must examine the Bills affecting them which are submitted to Parliament, and where necessary must petition and appear in opposition to such Bills, employing Counsel, producing evidence to show in what respects they might be prejudicial to the public. The Board has never shrunk from the performance of this task, but after it has been fulfilled the Board finds itself subjected to a close and minute scrutiny of its strict technical right to incur the expenditure which the fulfilment of the duty has involved, the scrutiny occasionally resulting in a decision by the Auditor, that he is not satisfied that such right exists. It is difficult for the Board to adequately discharge its duty to the public under such conditions, and yet the public interests would undoubtedly suffer, if a technical flaw in the Board's title to spend money in opposing a particular Bill were to restrain the Board from taking the course which the public interests require. The records of the Board, and even the proceedings in Parliament, afford abundant proof that the Board is expected by the Government, the Legislature, and the public, to appear and protect the public interests as affected by Bills promoted by Water, Gas, and other Companies, and the fact that the Board is hampered by questions raised as to its statutory power for this purpose is not realised. The Board has occasionally, when there has appeared special reason to doubt its strict technical right to spend money in opposing a Bill or appearing upon an inquiry, stated the case to the Home Secretary or the Treasury, and has always received a ready promise of assistance. This has resulted in the insertion in the Board's Money Act of the year of a clause legalising the past or prospective expenditure for the particular purpose mentioned. Thus, in the Money Act of 1880, the Board was specifically empowered to pay the expenses incurred by it in connection with the proceedings of the Select Committee on London Water Supply of that year. In the Money Act of 1881, it was empowered to pay the expenses of opposing the East London Water Bill of that year, and also the expenses of any inquiry that might be made with respect to Markets. This latter power was renewed in the Money Act of 1882. It appears to your Committee that if the Board's position is explained to the Secretary of State, and if the necessity is pointed out to him of the public interests being protected in connection with the three Water Bills about to be brought before Parliament, he will be ready, as he has been before, to support the Board in its endeavours to protect the interests of the public. It may probably be thought by the Home Secretary and the Treasury, that the most convenient method of giving the assistance required will be to consent to a Clause in the Money Bill of this year, empowering the Board to pay the expenses incurred in connection with the Bills referred to; and in that case it would be well so to frame the Clause as to make it clear that it is both the right and the duty of the Board to incur such expenditure as may be necessary in opposing both the present Water Bills, and any future Bills affecting the interests of the Metropolis, where such opposition may be deemed expedient. Your Committee recommend—

That a communication, based upon this Report, be addressed to the Secretary of State for the Home Department.

Your Committee have considered the Notice given to the Board by the Clerk of the Hackney District Board, of the intention of that body to apply to Parliament for an Act to authorise the construction of a Sewer and other works for preventing the discharge into the River Lee of effluent water or sewage by the Tottenham Local Board of Health, the Notice, and the Bill which accompanied it, having been referred by the Board on the 23rd December last (No. 32). The object of the Bill is to obtain the sanction of Parliament to an arrangement suggested to the Board by the Hackney District Board in October last, according to which a junction was to be formed between the main

Tottenham Sewer and the Board's Hackney-marsh Sewer at Spring-hill, Upper Clapton, so that the Sewage of Tottenham might pass into the Metropolitan system. The Works and General Purposes Committee reported upon this proposal on the 20th November last, and stated that it was not within the Board's statutory power to allow the Sewage of Tottenham to pass into the Metropolitan Sewers, and that there were many grave reasons why it was inexpedient to propose to the Legislature such a temporary and imperfect remedy for the evils complained of by the inhabitants of Hackney. The reasons then referred to retain all their force; and, as the Board considered it inexpedient to propose such an arrangement to Parliament, it seems equally expedient that the Board should resist the proposal when made by the Hackney District Board. Your Committee accordingly recommend—

That a Petition be presented against the Lee River Purification Bill, deposited by the Hackney District Board.

The attention of your Committee has been directed to a Bill, in which the Trustees of the Charterhouse apply for power to appropriate a further portion of their property for general building purposes. The Charterhouse is, as the Board is aware, an extra-parochial place, and as such is exempt from the general local rates. The Board some years ago promoted unsuccessfully in Parliament a Bill, by which it was proposed to take away the exemption enjoyed by extra-parochial places in London. The Clerk of the Holborn District Board, whose District adjoins the Charterhouse, wishes to know whether the Board can take action upon the present Bill with a view to securing that the Charterhouse property to be let for building shall be liable to the local rates. Your Solicitor, however, is of opinion that the Board has no power to oppose the Bill on this ground, and your Committee, therefore, feel unable to recommend the Board to petition against the Bill.

All which your Committee beg to submit.

(Signed)

W. R. SELWAY,
FRANCIS H. FOWLER,
JOHN RUNTZ,
GEO. EDWARDS.

The Report having been read and received,

It was *moved* by Mr. Selway, and seconded by Mr. Fowler—That Petitions be presented against the Southwark and Vauxhall Water Company's Bill, the Lambeth Water Company's Bill, and the East London Water Company's Bill.

After discussion the *motion* was put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Selway, seconded by Mr. Fowler, and *resolved*—That a communication be addressed to the Secretary of State for the Home Department, pointing out the desirability of the interests of the London Water consumers being represented when the Bills mentioned in the foregoing Resolution are considered, and asking whether, as the Board is the only representative authority to which the consumers and the ratepayers can look for the protection of their interests, he will assist the Board in obtaining a legislative declaration that it is the duty of the Board to incur such expenditure as may be necessary in opposing those and future Bills affecting the interests of the Metropolis, where such opposition may be deemed expedient.

It was *moved* by Mr. Selway, and seconded by Mr. Fowler—That a Petition be presented against the Lee River Purification Bill deposited by the Hackney District Board.

The *motion* having been put to the vote, it was declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Selway, and seconded—That so much of the Report of the Committee as relates to the Charterhouse Bill be approved.

The Clerk laid before the Board a Letter from Mr. Hopwood, Clerk to the Holborn District Board, dated 12th January, 1886, relative to the said Bill, and asking this Board to take such steps as they might think proper to secure the land being retained as an open space or recreation ground for the public, and transmitting a copy of the Report of the Medical Officer of Health of the District on the subject.

An amendment was then *moved* by Mr. Phillips, and seconded by Mr. Robson—That the subject be referred back to the Committee, for further consideration and report, and that the Letter from the Holborn District Board be also referred to the Committee for consideration in connection therewith.

The amendment having been put to the vote, it was declared by the Chairman to be carried; and having been put as an *original motion*, it was also carried; and it was *resolved* accordingly.

12. Read a Report by the Engineer, dated 15th January, 1886, on the undermentioned Sewerage works proposed to be executed by the following Vestries and District Board—

LOCALITY OF WORK.	WORK APPLIED FOR.			REMARKS.	
	Length in feet.	Size.	Material.		
ISLINGTON.					
Liverpool-road and Barnsbury-park	270 300 500	3' 9" + 2' 6" 15-inch 12 "	1 brick pipe "	} Recommended as applied for.	
FULHAM.					
Shorrolds, Lynn, Thorpe, Fincham, and Milton Roads, Thornton Estate, Walham-green	2,893	12-inch	pipe		
ST. GEORGE-THE-MARTYR, SOUTHWARK.					
Surrey-buildings	396	12-inch	pipe	Recommended as applied for.	

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the said Vestries and District Board be permitted to construct and execute the several works in the manner therein recommended.

13. Read a Report by the Engineer, dated 14th January, 1886, on a Letter from Messrs. Nowell and Robson, asking that they might be allowed an additional four months for completing the works comprised in their Contract with the Board for the construction of the Queen's-road, &c., Dalston Sewer; stating that, according to the terms of the Contract the works should be completed within twelve months from the date of his (the Engineer's) order to commence the same, i.e., by the 2nd of March next; that the Contractors had, however, encountered serious difficulties in the prosecution of the works, owing to the extremely bad ground passed through, and the large quantities of water met with in considerable sections of it, and recommending, having regard to all the circumstances, that he (the Engineer) should be authorised to extend the time for the completion of the works to the 2nd of July next.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the Engineer be authorised accordingly.

14. Read a Report by the Engineer, dated 14th January, 1886, on a Letter from Mr. H. E. Jones, Engineer and General Manager to the Commercial Gas Company, relative to the projection above the shore level of the "Frying-pan" Sewer outlet, fronting the Company's New Crane Wharf, at Wapping; stating that since the receipt of the Letter the outlet referred to had been examined, and that Mr. Jones had been seen with reference

to it; that it appeared that for the purposes of the Company's business, they desired to extend their barge beds, and that in connection with that it would also be necessary to extend the 3 feet iron pipes forming the outlet about 50 feet further on the foreshore; that he (the Engineer) saw no objection to the outlet being so extended, but that the works should be done by, and at the cost of the Company, and under the direction, and to the satisfaction of the proper Officers of the Board, and that the detailed Plans of the works should also be first submitted for the Board's approval, and recommending that Mr. Jones should be so informed.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and acted upon.

15. Read a Report by the Engineer, dated 14th January, 1886, on a Memorandum furnished by the Surveyor of the Vestry of Saint George-in-the-East, relative to the occasional flooding of the basements of the houses, Nos. 29 to 34, Old Gravel-lane; stating that the drains of the houses were connected with an old main Sewer under the charge of the Board, called the Pennington-street Sewer, which ran along Old Gravel-lane, and was much overcharged during heavy rains; that it appeared that relief might be afforded to the houses referred to by the construction of a 12-inch pipe Sewer to take their drainage into the Low Level Branch Sewer which ran along the same line of street under the Pennington-street Sewer; that the work was, however, a local one which should be carried out by the Vestry, and recommending that the Surveyor should be so informed.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and acted upon.

16. Read a Report by the Engineer, dated 14th January, 1886, on Letters from Mr. M. Collins, No. 28, Old Broad-street, Bloomsbury, applying for compensation for alleged loss of business sustained by him from the execution of the Board's works in connection with the Piccadilly to Oxford-street Improvement; stating that in carrying out the works care had been taken to put Mr. Collins and his neighbours to as little inconvenience as possible, consistent with the proper execution of the works; that the Board had invariably declined to admit their liability for that description of claim, and recommending that the present one should be similarly dealt with.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that Mr. Collins be informed accordingly.

17. Read a Report by the Engineer, dated 15th January, 1886, stating that the following quantities of Coal were required for use at the Crossness Pumping Station—

	ESTIMATE.			
30 Tons of Wallsend Coal	...	...	...	£27 15 0
100 Tons of New Pelton Gas Coal	...	...	...	79 11 8
300 Tons of Welsh Coal	...	...	...	276 5 0
1,000 Tons of Tanfield Moor Coal	...	...	...	704 3 4
Total	...	...	...	<u>£1,087 15 0</u>

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the Coal be obtained accordingly, the cost thereof being charged to the General Working Account of the Board.

18. Read a Report by the Engineer, dated 15th January, 1886, recommending the execution, under the General Contract, of the following works at the Crossness Pumping Station—

	ESTIMATE.			
Repairs to the Blacksmith's shop and the School-room	...	...	...	£50 0 0
Cleaning and painting the ironwork in the Workshops	...	...	...	30 0 0
Repairs as required to Reservoir	...	...	...	200 0 0
Total	...	...	...	<u>£280 0 0</u>

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the works be executed accordingly, the cost thereof being charged to the General Working Account of the Board.

19. Read a Report by the Engineer, dated 15th January, 1886, stating that it being necessary to shore up and temporarily secure some arches at the Barking Reservoir, he (the Engineer) had put the work in hand, as a matter of emergency, and that the estimated cost of the works was £150, and asking the Board to sanction the same.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the course taken by the Engineer be approved, and that the cost of the works be charged to the General Working Account of the Board.

20. Read a Report by the Engineer, dated 15th January, 1886, stating that, on the 1st November, 1878 (No. 25), he had reported to the Board that a settlement had taken place in the North-West wall of the Barking Reservoir, and had recommended that it should be temporarily shored up until the then contemplated enlargement of the Reservoir had been effected, which would permanently secure and prevent any further subsidence in the old portion of the Reservoir; that the temporary shoring had been carried out, pursuant to the direction of the Board, but that the permanent work then proposed had been from time to time postponed, and that there had, consequently, been some further settlement recently, that he had given directions for some additional shoring to be put in, but that it was desirable that the enlargement of the Reservoir should be commenced as speedily as possible to prevent the more serious subsidence of that portion of the structure.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be received.

21. Read a Report by the Engineer, dated 15th January, 1886, recommending that the new line of street from Piccadilly-circus to New Oxford-street should be now formally transferred to the charge of the several Local Authorities through whose respective areas of jurisdiction it passed, and that the Clerk should communicate with those authorities, namely, the Vestries of Saint James, Westminster, Saint Anne, Soho (Strand District Board), and Saint Giles-in-the-Fields, and Saint George's, Bloomsbury (Saint Giles District Board), accordingly.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Report be referred to the Works and General Purposes Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

22. The Solicitor reported that the time for presenting Memorials against the Board's (Various Powers) Bill, 1886, on Standing Orders had expired, and that no Memorial had been lodged.
23. The Solicitor submitted a list of Memorials which had been presented against Bills in the first hundred on the list of Petitions for Private Bills, and which complained of non-compliance with Standing Orders.
24. The Solicitor presented the following documents for sealing—

Duplicate of the Conveyance to the Board by Mr. A. P. Oldershaw, of leasehold interest in premises, No. 302, Upper-street, Islington (Upper-street, Islington, Improvement).

Agreement, in triplicate, between Mr. G. S. Benham, Mr. R. E. Gillingwater and the Board, for apportionment of rent in respect of Nos. 167 and 168, Upper-street, and premises at the rear (Upper-street, Islington, Improvement).

Conveyance to the Board by Mrs. M. Mason, and others (Trustees of the Will of Mr. T. Mason), of Nos. 53, 55, 57 and 59, Green-street, Bethnal-green, and a Memorial for the registration of the same (Green-street, Bethnal-green, Improvement).

15 January, 1886.

It was moved by Mr. Fowler, seconded, and resolved—That the Common Seal of the Board be affixed to the said documents respectively; and the Seal was affixed accordingly.

25. The Solicitor read a Report, as follows—

Solicitor's Department,
15th January, 1886.

THE BOARD *v.* HUMPHREYS.

The Board is aware that Mr. Humphreys was convicted in penalties amounting to £125, and ordered to pay £25 for costs in respect of keeping open Humphreys' Hall, Knightsbridge, without the Certificate of the Board.

Correspondence has since taken place between myself and Mr. Humphreys and his advisers, in which I stated that if Mr. Humphreys would close the Hall the Board would be prepared to consider any application for a Certificate; and by order of the Theatres Sub-Committee last Tuesday, I addressed the following Letter to Messrs. Van Sandau, Cumming and Co., Mr. Humphreys' Solicitors—

12th January, 1886.

HUMPHREYS' HALL.

DEAR SIRs,—I have had an opportunity of submitting your Letter of yesterday's date to the Sub-Committee of the Board upon Theatres, and I am directed to express their regret that your client still continues to keep open Humphreys' Hall, Knightsbridge, without the Certificate of the Board, and contrary to the provisions of the Metropolis Management and Building Acts Amendment Act, 1878.

I am instructed to inform you that the Board insist upon the Hall being closed until the proper Certificate has been obtained, and I am directed to report to the Board on Friday next, at noon, whether your client has complied with this requirement, and if not, the Board will consider that it is at liberty, without further notice, to take all such steps as may appear necessary to enforce the provisions of the Act of Parliament.

I will ask you to communicate at once with your client, and I hope to hear before 12 o'clock on Friday next that the Hall is closed.

I remain, dear Sirs,

Yours faithfully,

(Signed) REGINALD WARD,
Solicitor.

Messrs Van Sandau, Cumming and Co.

And to that Letter I have received the following reply—

13, King-street, Cheapside, London, E.C.,
January 13, 1886.

HUMPHREYS' HALL.

DEAR SIR,—We beg to acknowledge receipt of your Letter of yesterday's date, and, as desired, we have communicated the contents to our Client.

We have also communicated the Board's requirements to Mr. Humphreys' tenants, viz., the Japanese Native Village and Trading Company, Limited, and Messrs. Spiers and Pond, Limited, and wait their reply.

We are,

Yours faithfully,

(Signed) VAN SANDAU AND CO.

The Solicitor,
Metropolitan Board of Works,
Spring-gardens, S.W.

I have also received a communication from the Clerk to the Westminster Police-court, stating that Mr. Humphreys has paid the amount of the penalties and costs.

I believe Mr. Vulliamy will inform the Board that the Hall has not been closed.

I have a Letter from Messrs. Spiers and Pond, stating that in consequence of the proceedings in the Police-court they have closed their Restaurant.

Other communications have also reached me to-day.

(Signed) REGINALD WARD,
Solicitor.

The Clerk presented a Letter from Messrs. Spiers and Pond, Limited, dated 14th January, 1886, stating that, as the Restaurant in their occupation at Humphrey's

Hall, was by reason of its entrance doors, one of the elements of objection which the Board entertained to the Hall, they had voluntarily closed the same.

It was *moved* by Mr. Fowler, seconded by Mr. Ewin, and *resolved*—That the said Report and Letter be referred to the Building Act Committee, for consideration with authority to act upon any Resolution at which they may arrive with regard thereto.

26. The Clerk laid before the Board copies of the Orders of the Board of the 8th instant (No. 6), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

St. George's-road, Tufnell-park	...	...	...	Islington.
Albany-place, Redhill-street	...	...	...	St. Pancras.
Augusta-street, Harmood-street	...	...	...	do.
Cumberland-street, Goodge-street	...	...	...	do.
Cumberland-street, West, Albany-street	...	...	...	do.
Greenland-grove, Cromer-street	...	...	...	do.
Hawley-road, West, Chalk-farm-road	...	...	...	do.
Henry-street, Hampstead-road	...	...	...	do.
Modbury-terrace, Malden-road	...	...	...	do.
Pleasant-row, Highgate-road	...	...	...	do.
Prince of Wales-avenue, Malden-road	...	...	...	do.
Princess-terrace, St. Mark's-square	...	...	...	do.
Sion-terrace, Brighton-street	...	...	...	do.
Torriano-yard (Ward No. 1)	...	...	...	do.
Whitefield-street, Malden-road	...	...	...	do.
St. Margaret's-terrace, &c.	...	...	...	Westmins
Bessborough-place, &c.	...	...	...	do.

Carey-place, &c.	...	...	...	do.
Ennismore-mews	...	...	...	do.
St. Ann's-lane	...	...	...	do.
Vincent-place	...	...	...	do.
No. 52, Vincent-street	...	...	...	do.
Penge-lane, Penge	...	...	...	Lewisham.
Harrington-gardens	...	...	...	Kensington.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

27. The Clerk presented a Letter from Mr. J. Harrison, Clerk to the Vestry of Brompton, dated 9th January, 1886, transmitting Plans of an Improvement the Vestry proposed to effect in Mill-street, at an estimated cost of £2,575, exclusive of paving or other works, and asking the Board to contribute a moiety of the cost of the Improvement.

It was *moved* by Mr. Fowler, seconded by Mr. Shepherd, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

28. The Clerk presented a Letter from Mr. S. H. Louttit, Secretary of the Lambeth Water Works Company, dated 8th January, 1886, submitting remarks on the subject of Fire plugs throughout the part of the Company's District within the area of the Board's jurisdiction, stating that as the fixing and maintenance of Hydrants and Plugs for fire purposes were matters appertaining entirely to the Board, the Company considered that the Board should assume their legal responsibility, and enquiring what the wishes of the Board were with regard to the plugs.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report, and that the Solicitor do report to the Committee thereon.

29. The Clerk presented a Letter from Mr. F. R. Conder, dated 9th January, 1886, as to his process of dealing with Sewage.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

30. The Clerk presented a Letter from Messrs. F. Vigers and Co., dated 11th January, 1886, with reference to their proposal to lay out certain land between the Strand and the Victoria Embankment, suggesting, in reply to the Board's Letter, that the Board might seek the necessary power in one of their Bills in the Session of 1887, to deal with a small part of the garden on the Embankment for the formation of a road-way, and asking that they might attend one of the Committees of the Board, or see one of the Board's Officers, in order that explanations might be given.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report, and that the Committee be authorised to see Messrs. Vigers and Co., if necessary.

31. The Clerk presented a Letter, as follows—

Guardians' Offices,
Strand Union.
6, Bow-street, London, W.C.,
January 13th, 1886.

DEAR SIR,—The Local Government Board has issued an Order authorising the Guardians to borrow the sum of £1,150 for the purpose of buying and erecting a boundary fence around a piece of land at Edmonton. The Guardians desire me to ask the Metropolitan Board of Works to advance the said sum of £1,150, on the security of the Rates, to be re-paid by 10 equal annual instalments of the principal, with the interest on the balance remaining unpaid each year.

The Guardians will be glad to receive the money at your convenience.

I am, &c.,
(Signed) CHARLES F. WORRELL,
Clerk to the Guardians.

J. E. Wakefield, Esq.,
Clerk of the Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

32. The Clerk presented a Letter from Mr. G. Lushington, Home Office, dated 9th January, 1886, transmitting a copy of the Lee River Purification Bill, and requesting to have the Board's observations thereon.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to send a reply thereto.

33. The Annual Report by the Chief Officer of the Fire Brigade, for the year 1885, dated 1st January, 1886, together with the Tables referred to in the Report, was laid before the Board.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be received; that it be printed and circulated among the Members of the Board, and that copies thereof be sent to the various Local Boards in the Metropolis.

34. The Clerk presented a Letter from Mr. W. Taylor, dated 13th January, 1886, protesting, on behalf of the Firewood cutters of Deptford, against the provisions of the Board's Bill as to the safe keeping of Firewood, and asking them to withdraw [the same.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

35. The Clerk presented a Letter, as follows—

7, Westminster-chambers, Victoria-street,

Westminster, S.W.,

14th January, 1886.

METROPOLITAN ASYLUM DISTRICT.—LOAN OF £10,785.

DEAR SIR,—We are instructed by the Managers of the Metropolitan Asylum District to apply to the Metropolitan Board of Works for the Loan of the further sum of £10,785.

We send you on the other side a statement of the amounts making up the aggregate sum applied for, together with the dates of the Orders of the Local Government Board under which the respective amounts are authorised to be raised, and we enclose prints of the Orders referred to.

Will you be good enough to submit this application to your Board at their Meeting to-morrow, and on hearing from you the terms on which the Loan will be entertained, we will proceed to obtain the consent of the Local Government Board to the mode proposed for re-payment.

We are, &c.,

(Signed) CHAS. ROGERS, SONS AND RUSSELL.

J. E. Wakefield, Esq.,

Clerk, Metropolitan Board of Works,
Spring-gardens, SW.

METROPOLITAN ASYLUM DISTRICT.

Application to the Metropolitan Board of Works for Loans amounting to £10,785.

Schedule of Orders.

The pressure of the Gas supplied by the Gas Light and Coke Company, as tested at Middleton-road, Dalston, on 9th January, 1886, at 6 p.m., was 3.0 inches.

37. Read a Report by the Superintending Architect, dated 14th January, 1886, on the application of Mr. Thomas Henry Watson, District Surveyor for the District of St. George, Hanover-square (North), for the consent of the Board to the appointment by him of Mr. Frederick Wallen, District Surveyor, as his Deputy, from the 15th instant to the 1st of February next.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, and that this Board do consent to the appointment by Mr. Thomas Henry Watson, of Mr. Frederick Wallen, District Surveyor, as his Deputy, and for the performance of the duties of District Surveyor in the District of St. George, Hanover-square (North), from the 15th instant to the 1st of February next.

38. GREENWICH.—Read a Report by the Superintending Architect, dated 21st December, 1885, on the application of Mr. L. Denchfield, for the consent of the Board to the erection of an addition to No. 21, Lower Woolwich-road, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

39. HACKNEY.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Messrs. Walker and Runtz, on behalf of Mr. T. Arno, for the consent of the Board to the erection of shops at the corner of Trumans-place and Salcombe-road, Stoke Newington, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee, when the application shall be considered.

40. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Messrs. R. and E. Evans, for approval by the Board of a Plan for the construction of a wood and glass verandah at the rear of No. 43, Fitzjohn's-avenue.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

41. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 21st December, 1885, on the application of Mr. A. C. Cumings, on behalf of Mr. C. E. Marshall, for the consent of the Board to the erection of a studio on the West side of No. 2, Harley-road, to the line shown upon the amended Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the studio therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

42. LAMBETH.—Read a Report by the Superintending Architect, dated 11th January, 1886, on a Letter from Mr. E. Taylor, stating that it was his intention to proceed with the erection of houses at Acre-lane, Brixton, in accordance with his building agreement, notwithstanding the Resolution of the Board of the 16th October last (No. 40).

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report, and that the Solicitor do advise the Committee thereon.

43. PLUMSTEAD.—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Mr. J. O. Cook, on behalf of Messrs. Fidge and Sons, for the consent of the Board to the erection of a one-storey building at the rear of No. 118, High-street, abutting on Cage-lane, to the line shown upon the amended Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the building therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

44. POPLAR.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Mr. A. Ashbridge, on behalf of Mr. J. Harris, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 129, East India Dock-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

45. ST. MARYLEBONE.—Read a Report by the Superintending Architect, dated 13th January, 1886, on the application of Mr. J. Norton, on behalf of Mr. Boyce, for the consent of the Board to the erection of bay-windows, with balconies, on the second, third and fourth floors of No. 48, Wigmore-street, a canopy over the doorway in Welbeck-street, a bay over the shop front in Wigmore-street, and a circular oriel window over the shop doorway at the angle of Wigmore and Welbeck Streets, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erections therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

46. ST. PANCRAS.—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Messrs. Fulton and Co., for the consent of the Board to the erection of a hoarding on the parapet of a one-storey building in front of No. 252, Euston-road, as shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

47. WANDSWORTH.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Messrs. Adamson and Sons, on behalf of Mr. G. Newnes, for approval by the Board of a Plan for the construction of a wooden porch at the entrance of the premises known as "Wildcroft," at Putney-heath.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

48. WANDSWORTH.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Mr. W. A. Large, on behalf of Mr. E. C. Hoile, for approval by the Board of an amended Plan for the construction of a wooden pent roof to the entrance to a house in Eglistone-road, Putney.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

49. BETHNAL-GREEN.—Read a Report by the Superintending Architect, dated 12th January, 1886, on a Letter from Mr. E. Street, District Surveyor, asking for a legal opinion as to the exemption from the provisions of the Building Act of buildings in Victoria-park-square, used by the Tower Hamlets Volunteer Engineers.

It was moved by Mr. Ewin, seconded, and resolved—That the said Letter be referred to the Building Act Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto, and that the Solicitor do advise the Committee thereon.

50. GREENWICH.—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of the Rev. C. H. Simpkinson, for the permission of the Board to retain, for a further period, the temporary wood and iron Mission-hall, erected in connection with Holy Trinity Church, at Blackheath-hill.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

51. HOLBORN.—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of Mr. G. M. Silley, on behalf of Mr. J. Mansell, for the permission of the Board to retain two bridges, an enclosure to a lift, and an enclosed corridor, erected at Nos. 35 and 36, Red Lion-square, as shown on the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

52. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 21st December, 1885, on the application of Messrs. Baker and Sons, for approval by the Board of an amended Plan for the formation and names of roads to lead out of Fortune-green-lane.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee, when the subject shall be considered.

53. WANDSWORTH.—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of Mr. H. J. Kirk, for approval by the Board of a Plan for the formation of a new road to lead out of the East side of Bedford-hill-road, Balham, and of the name "Harberson-road, S.W.," for the same.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, on condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the said road.

54. WANDSWORTH.—Read a Report by the Superintending Architect, dated 13th January, 1886, on the application of Mr. H. E. Milner, on behalf of Dr. D. H. Watney, for

approval by the Board of an amended Plan for the formation and names of new roads on the Down Estate, High-street, Wandsworth.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report, and that the Engineer do report to the Committee thereon.

- 55. LAMBETH.**—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of Messrs. H. and R. Bennett, for approval by the Board of a Plan for the construction of an open iron shed on vacant land at the rear of Park-villas, Norwood-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 56. CHELSEA** (detached).—Read a Report by the Superintending Architect, dated 12th January, 1886, on a Letter from Mr. E. Marsland, District Surveyor, asking the Board to afford him legal assistance in relation to proceedings taken by him with reference to the erection of houses by the Artizans' Labourers' and General Dwellings Company, in Harrow-road, with insufficient spaces at the rear thereof.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

- 57. FULHAM.**—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of Mr. E. F. Roberts, on behalf of Mr. Potter, for approval by the Board of the erection of an addition at the rear of No. 1, Maclise-road, Hammersmith, with an open space at the rear of such addition, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted.

- 58. STRAND.**—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Mr. W. Emden, on behalf of Messrs. Webb and Wilmot, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed new Theatre on the site of the "Occidental" Tavern, in Savoy-buildings (formerly Fountain-court), Strand, and the site of No. 106, Strand, as shown upon the amended Drawings accompanying the application.

It was *moved* by Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 59. FULHAM.**—Read a Report by the Superintending Architect, dated 14th January, 1886, submitting, for the Seal of the Board, a License in respect of a temporary iron Church erected in Margravine-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said License; and the Seal was affixed accordingly.

- 60. HAMPSTEAD (WEST).**—Read a Report by the Superintending Architect, dated 15th January, 1886, on a Letter from Mr. T. Blashill, District Surveyor, asking the Board to afford him legal assistance in relation to proceedings taken by him with reference to the irregular erection of a timber-staging by Messrs. Allen and Sons, in Hemstall-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

- 61. BERMONDSEY.**—Read a Report by the Superintending Architect, dated 14th January, 1886, stating that Mr. T. Williams, District Surveyor for the District of Bermondsey and St. John, St. Olave and St. Thomas, Southwark, proposed to remove his District Office from No. 4, Bermondsey-square to No. 15, Railway Approach, London Bridge.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the matter be referred to the Building Act Committee, for consideration and report.

62. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 12th January, 1886, on a Letter from Mr. T. Dakers, relative to the alleged defective construction of flues against the South party-wall of No. 5, Gordon-villas, Ravenshaw-road.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the said Letter be referred to the Building Act Committee, for consideration and report.

63. POPLAR.—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of Messrs. J. and T. F. Clarkson, on behalf of Messrs. Stephens, Smith and Co., for approval by the Board of a Plan for the construction of a chimney-shaft in Cuba-street, Millwall.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

64. The following Notice of ~~motion~~ was given for the next Meeting of the Board, viz.—

By Mr. Fowler (No. 1,483)—As to a reference to the Works, &c., Committee, on the subject of a renewal of the Coal Duties.

Adjourned until Friday next, the 22nd instant,
at this Office, at Twelve o'clock at noon.

No. 3.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday**, the **22nd** day of **January**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^cGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

F.R.C.S., Eng.		GEORGE BROWN, ESQ.

1. On the Minutes of the Meeting of the Board, held on the 15th instant, being presented for signature, Mr. Williams called attention to the insertion of the words "if necessary" in the entry of the motion made by him with respect to the attendance at the Works and General Purposes Committee, of representatives of Memorialists from Firewood dealers and others, and stated that he had not used the words referred to.

The Clerk was instructed to strike out the words, and the Minutes having been altered accordingly, they were approved, and were signed by the Chairman, and by two other Members of the Board present at the Meeting.

2. Read a Letter, as follows—

Parish of St. James, Westminster.

Vestry Hall, Piccadilly, W.,
21st January, 1886.

SIR,—Adverting to your Letter of the 8th instant, intimating the resignation of Mr. T. H. Elam as the representative Member of this Parish upon the Metropolitan Board of Works, I

beg to hand you annexed copy of a Resolution passed at a Meeting of the Vestry this day, unanimously electing Mr. John Bonthron to fill the vacancy. The private address of Mr. Bonthron is Pitlochry, Putney-hill.

I am, &c.,
(Signed) HARRY WILKINS,
Vestry Clerk.

The Clerk,
Metropolitan Board of Works,
Spring-gardens, S.W.

St. James, Westminster,
21st January, 1886.

At a Vestry,

Present—The Rev. J. E. Kempe, Rector, Chairman of the Vestry, in the Chair.

It was moved by Mr. Winnett, seconded by Mr. Graves, and *unanimously* RESOLVED—

“That Mr. John Bonthron, of 106, Regent-street, be elected a Member of the
“Metropolitan Board of Works, as the representative of this Parish in the
“room of Mr. Thomas Henry Elam, resigned.”

(Extracted from the Minutes).

(Signed) HARRY WILKINS,
Vestry Clerk.

3. This being the day appointed for the election of a District Surveyor for the District of the Western Division of the City of London, the Clerk laid before the Board the applications and testimonials which he had received from candidates.

The names of the candidates were then read, as follows—

Mr. T. Batterbury, No. 29, John-street, Bedford-row.	Mr. G. Inskipp, No. 5, Bedford-row.
„ H. H. Bridgman, No. 42, Poultry.	„ G. Jackson, No. 31, Charing-cross.
„ H. Cheston, No. 1, Great Winchester- street.	„ G. A. Lean, Helena Chambers, Ealing.
„ S. F. Clarkson, No. 28, Great Ormond- street.	„ H. Lovegrove, No. 26, Budge-row, Cannon-street.
„ P. Cowper, No. 7, Westminster- chambers, Victoria-street.	„ H. McLachlan, No. 45, Fenchurch- street.
„ J. S. Edmeston, No. 42, Old Broad- street.	„ T. E. Mundy, No. 12, Buckingham- street, Adelphi.
G. Edwards, No. 68, Brompton-road.	„ R. C. Murray, No. 1, Racquet-court, Fleet-street.
„ J. M. Ferguson, No. 7, Princes- street, Cavendish-square.	„ W. H. Nash, No. 5, Adelaide-place, London-bridge.
„ R. F. C. Francis, No. 142, Palmerston- buildings, Old Broad-street.	„ H. A. Pelly, No. 23, Old Broad-street.
„ W. Grellier, No. 17, Abchurch-lane.	„ M. L. Saunders, No. 9, Finsbury- circus.
„ J. Hamilton, No. 202, Bishopsgate- street.	„ W. Smallpeice, No. 122, High Holborn.
„ G. Hamilton-Gordon, No. 72, Fins- bury-pavement.	„ L. Solomon, No. 55, New Broad- street.
„ W. J. Hardcastle, Beechenden, Hamp- stead.	„ W. L. Spiers, No. 9, Gray's-inn- square.
„ A. Harland, No. 22, Surrey-street, Strand.	„ W. H. Stevens, No. 21, Ashchurch- grove, Shepherd's-bush.
„ E. Haslehurst, No. 7A, Lawrence Pountney-hill	„ H. W. Stock, No. 9, Denman-street, London-bridge.

It was *moved* by Mr. Ewin, and seconded—That the number of candidates be reduced by one vote to six, that the names be then put to the vote *seriatim*, and that the candidate having the least number of votes be struck off at each voting.

An *amendment* thereon was *moved* by Mr. Williams, and seconded by Mr. Mossop—That the votes with respect to the last three candidates be taken by ballot.

The **amendment** having been put to the vote, there were for it 9, against it 23, and it was declared by the Chairman to be lost.

The **original motion** was then put to the vote, and declared by the Chairman to be carried; and it was **resolved** accordingly.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the appointment of District Surveyor do continue during the pleasure of the Board, and be subject to the condition that he shall make no claim for compensation in case a diminution of income shall at any time hereafter arise from any reduction or alteration of Fees by the Board, or from any change of system which may be adopted, either as to the office, its duties or emoluments, or from any division, reduction, or re-adjustment of Districts.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the appointment of District Surveyor be subject to the condition that he shall furnish the Board with information of those cases in his District in which the Orders of the Board, or the requirements of the Local Management Amendment Act, 1862, with regard to the width or entrances of streets, or to any building, structure, or erection, or projection therein beyond the general line of buildings, are not complied with; and of those cases in which the limitations contained in the Building Act as to cubical contents of buildings are exceeded; that he shall faithfully discharge any duties which may devolve upon him under the Metropolis Management (Thames River Prevention of Floods) Amendment Act, 1879, and shall also personally discharge the duties of his office as District Surveyor.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the District Surveyor, to be appointed this day, be required to keep his District Office open daily from 10 a.m. until 4 p.m.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the District Surveyor, to be appointed this day, be prohibited from carrying on the business of an Architect or Surveyor for works within the boundary of his own District.

The names of the candidates were then severally put to the vote, for the purpose of reducing the number to six, in accordance with the Resolution passed this day, when the result was as follows—

VOTES.				VOTES.			
Mr. T. Batterbury	...	...	21	Mr. G. Inskipp	...	...	4
„ H. H. Bridgman	...	...	11	„ G. Jackson	...	...	5
„ H. Cheston	...	...	13	„ G. A. Lean	...	...	9
„ S. F. Clarkson	...	...	28	„ H. Lovegrove	...	...	12
„ P. Cowper	...	...	24	„ H. M ^c Lachlan	...	...	33
„ J. S. Edmeston	...	...	19	„ T. E. Mundy	...	...	21
„ G. Edwards	...	...	7	„ R. C. Murray	...	...	7
„ J. M. Ferguson	...	...	5	„ W. H. Nash	...	...	13
„ R. F. C. Francis	...	...	14	„ H. A. Pelly	...	...	10
„ W. Grellier	...	...	12	„ M. L. Saunders	...	...	34
„ J. Hamilton	...	...	2	„ W. Smallpeice	...	...	12
„ G. Hamilton-Gordon	...	...	7	„ L. Solomon	...	...	none
„ W. J. Hardeastle	...	...	29	„ W. L. Spiers	...	...	24
„ A. Harland	...	...	1	„ W. H. Stevens	...	...	13
„ E. Hazlehurst	...	...	2	„ H. W. Stock	...	...	32

The number of votes for Mr. Cowper and Mr. Spiers being equal, their names were again put to the vote, with the following result—

							VOTES.
Mr. Cowper	...	...	...	...	...	...	12
Mr. Spiers	...	...	...	...	...	...	29

It was **moved** by Mr. Cox, and seconded by Mr. Williams—That the candidates be requested to withdraw.

The Chairman ruled that the **motion** was not in order, and could not therefore be put.

The Board then proceeded with the election by a show of hands, taken successively for each of the six candidates having the largest number of votes, as above, the name of the candidate having the smallest number of votes being struck off at each voting, as follows—

						1st Show of Hands.	2nd Show of Hands.
Mr. Clarkson	...	...	...	...	...	23	19
„ Harcastle	...	...	...	...	...	24	21
„ M'Lachlan	...	...	...	...	...	30	31
„ Saunders	...	...	...	...	...	20	20
„ Spiers	...	...	...	...	...	19	—
„ Stock	...	...	...	...	...	23	19

The number of votes for Mr. Clarkson and Mr. Stock being equal, their names were again put to the vote, with the following result—

							VOTES.
Mr. Clarkson	...	...	...	...	...	...	21
„ Stock	...	...	...	...	...	...	16

The Board then proceeded with the election, as follows—

					3rd Show of Hands.	4th Show of Hands.	5th Show of Hands.
Mr. Clarkson	...	...	...	...	26	19	14
„ Harcastle	...	...	...	...	22	15	—
„ M'Lachlan	...	...	...	...	31	31	32
„ Saunders	...	...	...	...	18	—	—

It was thereupon resolved—That Mr. Hugh M'Lachlan be the District Surveyor, under the Metropolitan Building Act, 1855, for the District of the Western Division of the City of London.

Mr. M'Lachlan was then called, and the Resolutions passed this day, prescribing the conditions of the appointment, having been communicated to him, he stated that he accepted the appointment on the conditions expressed in such Resolutions.

4. Mr. Pocock handed in a Letter from Mr. A. Millar, Clerk to the Vestry of St. George-the-Martyr, Southwark, dated 20th January, 1886, with a copy of a Memorial addressed to the Vestry, as follows—

January 18th, 1886.

To the Vestry of St. George-the-Martyr.

GENTLEMEN,—We beg to draw your prompt attention to the hoarding erected by the Metropolitan Board of Works outside the premises in Blackman-street, numbered 107 to 110. It has now been erected upwards of two months, and beyond removing the lead, iron, &c., nothing has been done.

The trade and foot traffic are greatly impeded, nearly all the foot passengers crossing over the road at this spot, and our trade already much injured by the delay in completing and opening up the new street, and will be quite destroyed unless this hoarding is at once set back.

We therefore ask you at once to help us in this matter.

We are, &c.,

(Signed) MATTHEW JOHN THOMAS, 101, Blackman-street
T. J. PLACE, 105, Blackman-street, Boro',
C. T. PLUM, 99, Blackman-street, Boro',
E. BRADY, 104, Blackman-street, Boro',
GEORGE HOLLANDS, 98, Blackman-street, S.E.
W. W. MORRIS (for D. H. L.), 96, Blackman-street, S.E
ARTHUR BUSSY, 106, Blackman-street,
JOHN F. GOULDING, 93, Blackman-street.

It was moved by Mr. Pocock, seconded, and resolved—That the Memorial be referred to the Works and General Purposes Committee, for consideration.

5. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 18th January, 1886.

						£13,791	15	1

Your Committee have had under consideration the question of the name to be given to the new street from Piccadilly-circus to New Oxford-street, and also the new street from Charing-cross to Tottenham-court-road. Various names have been suggested, but your Committee think that "Piccadilly-road" would be most appropriate for the thoroughfare connecting Piccadilly with Oxford-street, and they recommend the Board to name the street accordingly. Your Committee have not yet decided on their recommendation with regard to the new street from Charing-cross to Tottenham-court-road.

Your Committee have considered the Letter, referred to them on the 27th November last (No. 40) from Mr. H. R. Williams, Hon. Secretary of the Committee charged with the arrangements for a National Memorial to the late Lord Shaftesbury, asking the Board to grant a suitable site in one of the public thoroughfares under their jurisdiction for a bronze statue of his Lordship. Your Committee have carefully considered the matter, and after conference with your Engineer and your Superintending Architect, they are of opinion that a very appropriate site would be the Circus which has been lately formed in the lines of intersection of the new streets West of Dudley-street, as shown on the Plan submitted herewith. Your Committee recommend—

That, subject to the design of the statue and pedestal being approved by the Board, the site named be offered to the Statue Committee.

Your Committee have had before them a Letter from the Secretary of the General Post Office relative to forming a road for mail-carts and other vehicles over the site of the Falcon-brook Sewer on the East side of certain land at St. John's-hill, Battersea, upon which it is proposed to build a branch post and sorting office. The Board, on the recommendation of your Committee, granted a License, dated 11th December, 1877, to Mr. Noel Whiting to fill in and enclose by a wooden fence a portion of the

old Falcon-brook Sewer at St. John's-hill, the line of fence being shown by a Blue line separating the parts of the site coloured Red and Yellow upon the Plan attached to the License, and to use during the pleasure of the Board the part coloured Red between the points marked "A" and "B" on the Plan. It appears that the Post Office authorities are in treaty to acquire the plot of land which belonged to Mr. Whiting, and that they propose to erect a post and sorting office on the portion coloured Red on the Plan accompanying their Letter, which portion of land is bounded by the site of the Sewer coloured Yellow on the Plan; and as it will be necessary to have a road-way for mail-carts on the Eastern side of the new building, i.e. over the site of the Sewer, the authorities ask if the Board would have any objection to the construction of such a road, and whether they would grant the Postmaster General a License accordingly, Your Committee having conferred with your Engineer see no objection to the Board transferring to the Post Office authorities the rights conferred on Mr. Whiting, or to the authorities making a road on part of the site of the Sewer as proposed, provided that no injury be done to the pipe Sewer laid for the local drainage at the time the Brook was filled in, and that they undertake to restore such Sewer if damaged, to the satisfaction of your Engineer, your Solicitor preparing the requisite Agreement to the foregoing effect. Your Committee beg to recommend accordingly.

Your Committee have considered the Letters, referred by the Board on the 4th December last (No. 35) and 15th instant (No. 30) from Messrs. F. Vigers and Co. with reference to a proposal to lay out certain land between the Strand and the Victoria Embankment, suggesting that the Board might seek the necessary power in one of their Bills in the Session of 1887, to deal with a small part of the garden on the Embankment for the formation of a road-way, and asking that they may attend one of the Committees of the Board, or see one of the Board's Officers, in order that explanations may be given. No proposal to appropriate any portion of the Embankment Gardens to such a purpose would, your Committee think, meet with the approval of the Board, and they recommend—

That Messrs. Vigers and Co. be informed that the Board having given careful consideration to the matter, are unable to assent to the Ornamental Garden being dealt with in the manner suggested, and that it appears unnecessary therefore to trouble the applicants to attend.

All which your Committee beg to submit.

(Signed) J. McGAREL-HOGG,
FRANCIS H. FOWLER,
W. R. SELWAY,
J. E. BRADFIELD,
GEO. HILL,
P. W. FUNNELL.
JOHN RUNTZ,
WM. SHEPHERD,
GEO. EDWARDS.

The Plan submitted with the Report was laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Fowler, and seconded—That the new line of thoroughfare between Piccadilly-circus and New Oxford-street, be named "Piccadilly-road."

An amendment thereon was *moved* by Mr. Selway, and seconded by Mr. Lenanton—That the thoroughfare be named "Piccadilly East."

The amendment having been put to the vote, there were for it 4, against it 32, and it was declared by the Chairman to be lost.

A further amendment was then *moved* by Mr. Webster, and seconded by Mr. Selway—That the subject be referred back to the Committee, for further consideration and report.

The amendment having been put to the vote, there were for it 27, against it 17, and

22 January, 1886.

it was declared by the Chairman to be carried; and having been put as an **original motion**, it was also carried; and it was **resolved** accordingly.

It was **moved** by Mr. Fowler, seconded by Mr. Robson, and **resolved**—That so much of the Report as relates to the Letter from Mr. H. R. Williams, Hon. Secretary to the Committee charged with the arrangements for a national Memorial of the late Lord Shaftesbury, asking the Board to grant a suitable site in one of the public thoroughfares under their control for a bronze statue of his Lordship, be approved; and that, subject to the design of the statue and pedestal being approved by the Board, a site be offered to the Memorial Committee at the Circus West of Dudley-street, which has been lately formed by the Board at the junction of the new thoroughfare from Piccadilly-circus to New Oxford-street with the proposed new street from Charing-cross to Tottenham-court-road.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the application of the Postmaster-General for a License from the Board to form a road for mail carts and other vehicles over the site of the Falcon-brook Sewer, at the East side of certain land at St. John's-hill, Battersea, be granted on the following conditions—namely, that no injury be done to the pipe Sewer which was laid down for the local drainage at the time the Falcon-brook was filled in, and that the Post-office authorities do undertake to restore the Sewer if damaged, to the satisfaction of the Engineer of the Board, and that it be referred to the Solicitor to prepare an Agreement accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That Messrs. F. Vigers and Co. be informed, in reply to their Letter, asking that they may be allowed to attend one of the Committees of the Board, with a view to the Board obtaining Parliamentary power for the formation of a road-way through the garden of the Victoria Embankment, in connection with a proposal to lay out certain land between the Strand and the Embankment; that the Board, having given careful consideration to the matter, are unable to assent to the Garden being dealt with in the manner suggested, and that it appears unnecessary, therefore, to trouble the applicants to attend the Committee.

6. Mr. Pocock, the Chairman of the Special Purposes and Sanitary Committee, brought up a Report, as follows—

REPORT OF THE SPECIAL PURPOSES AND SANITARY COMMITTEE.

Spring-gardens, 12th January, 1886.

Your Committee have to report that, in pursuance of the authority given by the Resolution of the Board of the 13th July, 1877, directing them “to consider and report on all matters which relate to the ventilation of sewers, and to act in all matters of administrative detail, relating to that subject, which involve no alteration of principle laid down by the Board,” they have from time to time given the subject of the reference the full consideration which its importance calls for, and they now submit the result of their investigations for the information of the Board.

In addition to the general reference quoted above, the Board have from time to time referred the following documents connected with the subject for the information or consideration of the Committee, viz.—

Letter from Mr. R. Parker, Surveyor to the Poplar District Board, stating that he has a Plan for ventilating sewers which he is desirous of submitting to the Metropolitan Board of Works, and applying to one of their sewers with a view to proving its efficacy (referred back on the 17th May, 1878, No. 1).

Letters from the Vestry of Hampstead, complaining of the influx of sewer gases into the Hampstead sewers from the sewers of the adjoining Parishes which are at a lower level; and requesting the Board to urge upon the Vestries of such Parishes the necessity for providing additional means for ventilating their sewers (referred on the 26th January, 1883, No. 9, and the 28th September, 1883, No. 75).

Letter from the Board of Works for the Greenwich District, directing the attention of the Board to the nuisance caused by the method of ventilating Metropolitan main sewers in the District by means of openings through gratings in the leading thoroughfares (referred on the 28th September, 1883, No. 9).

Letter from the Highway, &c., Committee of the Vestry of St. Pancras, relating to complaints of offensive gases emitted through the ventilating gratings over the main sewers in the Parish (referred on the 5th October, 1883, No. 16).

Memorial of the Vestry of Tooting-graveney against the system of ventilating sewers by means of gratings in the road, and asking the Board to obtain Parliamentary powers to carry out some more efficient mode of ventilating sewers, either by shafts placed by houses and carried above the chimneys, or by any other Plan which may prove efficient (referred on the 9th October, 1883, No. 9), and the following Letters in support of the above-mentioned Memorial, viz.—

Letter from the Vestry of St. James, Westminster (referred 2nd November, 1883, No. 7).

Letter from the Vestry of St. George, Hanover-square (referred 2nd November, 1883, No. 6).

Letter from the Vestry of Islington (referred 23rd November, 1883, No. 36).

Presentment of the Leet Jury of the King's Manor of Southwark directing the attention of the Board to the objectionable method of ventilating sewers by man-holes and openings into foot-ways in the main thoroughfares (referred on the 7th November, 1884, No. 42).

Letter from the Vestry of St. Martin-in-the-Fields, requesting the Board to take steps more efficiently to ventilate the main sewers (referred on the 21st November, 1884, No. 34).

Letter from the Wandsworth District Board, stating that they concur with the suggestion that the Metropolitan Board of Works should apply to owners of manufactories for permission to connect pipes from the sewers with the shafts of factories for the purpose of ventilating such sewers (referred on the 17th April, 1885, No. 51).

Letter from the St. Olave's District Board to the same effect as the preceding (referred on the 8th May, 1885, No. 11).

Letter from the Limehouse District Board on the subject of the nuisance arising from the ventilators of the main sewers in the District, suggesting as a temporary remedy that the ventilators should be closed during summer, and urging that permanent measures should be adopted to prevent the discharge of noxious effluvia from the main sewers (referred on the 12th June, 1885, No. 47).

Letter from the Vestry of Rotherhithe, stating that they consider it advisable, in all cases where it can be carried out, that ventilating shafts or pipes with an exhaust cowl on the summit thereof should be carried up from the sewers above the neighbouring houses or buildings (referred on the 26th June, 1885, No. 32).

Letter from Mr. J. Nibbod, explaining his method for abolishing foul gases from sewer ventilators or outlets (referred on the 3rd July, 1885, No. 49).

Letter from the Kensington Vestry, requesting the Board to deal with the question of sewer ventilation as early as possible, and to favour the Vestry with their views on the subject (referred on the 10th July, 1885).

Letter from the Vestry of the Hamlet of Mile-end Old-town, calling attention to complaints of smells from sewer ventilators, and to the satisfactory result of the use of Mr. Knight's Patent "Deodorising Apparatus" (referred on the 17th July, 1885, No. 7).

The Works and General Purposes Committee of the Board also made the following references to your Committee on the 5th December, 1882 (No. 29)—

Letter from the Vestry of Paddington, stating that they were of opinion that the Board should obtain from Parliament compulsory powers for enabling ventilating shafts to be fixed to sewers in such cases as might appear to be necessary (referred to that Committee on the 4th May, 1882, No. 52), and Reports by the Engineer and Solicitor of the Board on the Letter.

And further Report by the Engineer of the Board on the ventilation of sewers.

The means for as far as possible preventing the formation of offensive gases in sewers, and for disposing of such gases when formed by ventilating the sewers, have received the earnest attention of the Metropolitan drainage authorities for the past forty years. The subject has also necessarily been under the constant investigation of Sanitary Engineers and other persons interested in the sanitary condition of towns; and a mere enumeration of the schemes suggested and experiments tried would occupy considerable space. The various schemes have been more or less fully described, and the results of the experiments recorded in a series of Reports to the Board, the principal of which were as follows—

Report by the Engineer of the Board, dated 6th January, 1866, on the subject of the ventilation of sewers generally (No. 226)

Report by the Engineer of the Board, dated 31st May, 1866, giving the result of experiments with respect to the ventilation of sewers made in the Metropolis during 1865-6 (No. 242).

Report by the Engineer of the Board, and Dr. W. A. Miller, F.R.S., on experiments made for deodorising and disinfecting sewer gases by means of charcoal placed in the ventilating shafts (No. 260).

Report by the Engineer of the Board, dated 31st March, 1869, on recent experiments in connection with the subject of the ventilation of sewers (No. 383).

Report by the Ventilation of Sewers Committee, of 12th July, 1872, as to offering a premium for the best practicable Plan for ventilating sewers, and on the subject generally (No. 567).

Report dated 18th July, 1876, prepared by direction of the Ventilation of Sewers Committee, detailing the various schemes which had been examined by the Board and their Officers, and the conclusions arrived at thereon (No. 717).

These Reports give the history of the subject in detail up to within a year of the date at which it was referred to your Committee; and it is now therefore only necessary for them to recapitulate so much of the contents of such Reports as is requisite to make this Report intelligible.

Prior to the year 1850 the sewers of London were almost wholly ventilated by means of the gully gratings in the gutters at the edge of the foot pavements. These gratings were at times a medium of great offence to foot passengers and to residents in the houses adjacent, and it became necessary to trap the gullies under the gratings. In the year 1849 Mr. Henry Austin, the Consulting Engineer of the Metropolitan Commissioners of Sewers, recommended that the trapping of the street gullies should only be proceeded with as other means of ventilation were provided, otherwise the sewers would be rendered dangerous; and Sir Joseph (then Mr.) Bazalgette was directed by the Commissioners to make a series of experiments as to ventilating sewers by means of shafts leading from the crown of the sewers to gratings in the centre of the road. These experiments showed that a reduction of nuisance followed from ventilating through such shafts and trapping the side gullies, and consequently that method of ventilating the sewers of the Metropolis was gradually adopted.

Considerable improvement resulted from the alteration, and the system of ventilating sewers by such road shafts and surface gratings has now become almost universal. The change, however, did not reduce the quantity or materially affect the nature of the gases rising from the sewers into the streets. In their diluted form the sewer gases were far less perceptible to pedestrians and residents than formerly, and were less liable to be injurious to health; but as they were still at times a nuisance, it appeared desirable either to dispose of the gases in some other way, or to render them innocuous before their discharge into the streets.

Of the numerous schemes for effecting these objects which have been suggested since 1850, by far the greater number have been found on careful examination to be either wholly impracticable, or quite unsuitable to a large system of sewerage. Most of these schemes have been described in detail in the Reports to the Board before referred to; but such of them as are of most importance will be referred to in the course of this Report.

For the purpose of their investigation into this subject your Committee have ascertained what measures have been taken in the principal cities and towns in the United Kingdom for dealing with sewer gases, and the results of some valuable experience have also been obtained from the Commissioners of Sewers of the City of London, and from the several Vestries and District Boards of the Metropolis. The latter information is in the form of replies to a series of questions addressed to the Vestries and District Boards by direction of your Committee, and it is printed as an appendix to this Report.

Sewer gases are evolved in the decomposition of substances passing through or deposited in the sewers; and this decomposition takes place to a more considerable extent when the contents of a sewer are in a stagnant or nearly stagnant condition, and a much less quantity of gas is evolved when the temperature is low and the sewage is diluted and flowing through a sewer freely. It is, therefore, of the first importance that sewers should be constructed with as good falls as practicable, and have a copious flow of water through them.

The discharge into sewers of specially offensive trade refuse or filth also gives rise to offensive gases in sewers. Although to cause such a discharge is an offence against the Metropolis Local Management Act, it is done to a considerable extent, and the difficulty of detecting the practice is great. The Board have, however, succeeded in obtaining convictions for the commission of this offence, and your Committee consider that every care should be taken to discover cases of this nature, whether the discharge be into main or local sewers.

Another source of special nuisance arises from the discharge from manufactories and other places of steam or hot water into sewers. The Board have succeeded in some cases in mitigating the nuisance produced in this way, by inducing manufacturers to take means to condense the steam, and to cool the water before discharging it into the sewers; and your Committee consider that such means should be taken whenever the existing arrangements prove a cause of nuisance.

One of the most general causes of deposit in sewers arises from road sweepings being washed into the sewers through the gully gratings and the ventilating gratings. It is, by the 205th Section of the Metropolis Management Act, made an offence to sweep soil, rubbish, and filth into sewers, and the Board have frequently succeeded in enforcing the penalty; but your Committee are of opinion that the most certain way to prevent solid matter from the streets entering the sewers is to provide large catch-pits under the gully gratings, and trays under the surface ventilators. By these means, if the catch-pits and trays are frequently emptied, the solid matter will be arrested before it reaches the sewer. The expense of providing such catchpits and trays, wherever they do not already exist, would be speedily repaid by the saving in labour, as the periodical removal of the deposit from the catchpits and trays would be less troublesome, and

would require less labour, than the removal of such deposit from the interior of the sewers. In any circumstances it is important that effective measures should be adopted for the frequent removal of any deposit which may take place in sewers.

The want of sufficient water carriage or flow is, your Committee believe, one of the principal causes of nuisance arising from sewers. However offensive sewage may be when stagnant, it gives off little offensive effluvia when it is largely diluted with water and when it flows through sewers at a fair velocity. The extent to which it is diluted with water mainly determines the degree of offensiveness of the sewage itself, and swiftness of flow removes it before material decomposition has set in.

Your Committee are consequently of opinion that the first and most important matter in connection with the management of sewers is the provision of water for flushing the sewers in dry seasons. If offensive gases are mainly generated in sewers when the sewage is comparatively strong and stagnant from want of water to dilute and carry it away, then the remedy is to be found in some method of artificially supplying water for the purpose.

This opinion has been urged for many years by Sir J. Bazalgette, the Board's Engineer, who, in a Report dated 6th January, 1866, recommended—

That the most efficacious and most universally applicable mode of preventing the escape of noxious gases is so to construct the sewers that a continuous flow shall be kept up in them, and to provide them with a sufficiently copious supply of water, that the decomposing matter within them shall be diluted and instantaneously removed, and not allowed to settle and ferment in the sewers. Much improvement has already been effected in the ventilation of the London sewers by the abolition of the tide-locked and stagnant sewers, and much more may yet be accomplished by the introduction of a more copious supply of water, a desideratum also otherwise so greatly needed for the necessities and comfort of the inhabitants of the Metropolis.

The importance of artificially flushing sewers is generally advocated by all authorities on sewer construction, but the whole of the sewers of London North of the Thames, and a part of the Southern sewers, can at present be only artificially flushed with water which has to be purchased from the Water Companies; and efficient water flushing can in such circumstances only be carried out at great cost. The Board's Engineer endeavoured to ascertain from the London Water Companies, in the year 1866, at what rate water could be supplied for this purpose; and he reported that while three out of the five companies which supply the North side of the Thames would deliver a limited quantity of water at prices varying from 6d. to 9d. per 1,000 gallons, the remaining two companies had not then the means to furnish a supply for the purpose. The Engineer pointed out at the time that even if the necessary quantity of water could have been obtained, the cost would have been too great to admit of its being purchased upon such terms for flushing sewers alone.

In connection with the cost of water supplied by Water Companies for flushing sewers, your Committee may refer to the fact that, in several towns where the water-works are not Corporate property, the water is usually stated to have cost from 4d. to 6d. per 1,000 gallons, although in one case the cost is returned at 9d., and in another at 1s. per 1,000 gallons. Sixpence per 1,000 gallons is paid by the Holborn District Board of Works, but 1s. per 1,000 gallons is the price usually charged by the London Water Companies for water required for watering the streets, and probably that is the price ordinarily paid in London for water required for flushing purposes.

Nevertheless it is mainly to water supplied by the several Water Companies that the Vestries and District Boards have to look for sewer-flushing purposes, and it is probably on account of the excessive cost of water that flushing is not carried out to a greater extent.

On reference to the Appendix it will be seen that the practice of the Vestries and District Boards as to flushing varies considerably. In some Districts the sewers are described as being "constantly," "regularly," or "periodically" flushed; in others

the sewers are described as being flushed a certain number of times in the course of the year, varying from twice to eight times. In most of the remaining replies on this subject the frequency of the operation is not indicated.

Various methods of flushing are adopted. The smaller sewers appear to be usually flushed with water drawn from the stand-pipes on the Water Companies' mains, and discharged into the sewers either through hose or by the means of water vans. In some cases, however, the water is not sent at once into the sewers, but is accumulated in the shafts and side-entrances, and is then suddenly discharged. By the latter method a fair head of water can be obtained, and the sewers can be effectually scoured for some distance from the point of discharge. A still larger head of water can, however, be obtained by the use of storage tanks, from which the water can be suddenly discharged either by hand or automatically. In several districts of the Metropolis such tanks are used with success; and their use is gradually being extended in various town sewerage systems elsewhere. In the Parish of Newington the sewers are described as being flushed by means of storm waters which have been stored in old sewers at a higher level; and the Wandsworth District Board state that one of the low level sewers is flushed by means of water diverted from a natural watercourse. Your Committee consider that all natural means for flushing sewers should be judiciously utilised, and they direct attention to a Report made by the Board's Engineer on the 31st May, 1866, in which it is stated that the sewers on the South side of the River Thames "are so favourably situated for getting supplied from the Thames and from the upper portions of the Effra and Falcon-brook that the pumping necessitated at the outfalls forms almost the only limit to the means of flushing the greater portion of those sewers."

The escape of sewer-gases is at times very perceptible at the upper end of branch sewers. It is therefore necessary that provision should be made for flushing from the commencement, or "dead ends" of local sewers, as in the absence of such flushing those sewers are in dry seasons specially liable to be sources of nuisance.

In their reply to the Board's question on the subject of flushing, the Holborn District Board say—

The sewers in the Holborn District are flushed at regular intervals . . . A liberal supply of water, however, is found to be not only the best deodoriser, but the cheapest way of effectually flushing both sewers and pipe drains. In the summer months the paved surfaces of the whole of the courts and alleys in the District are periodically washed with water taken from the Company's mains . . . In this way not only are the surfaces of the courts and alleys kept clean, but the sewers below are well flushed out also.

Your Committee direct special attention to this statement, because they believe that if a similar course be taken in other Districts, not only will the general sanitary condition of such Districts be greatly improved, and the health and comfort of the inhabitants benefited, but that a large part of the nuisance now caused by sewer gas will be prevented. If during periods of exceptional drought surface cleansing could be generally carried out, not only would the branch sewers be cleared of much offensive deposit, but sufficient water would probably enter the larger sewers to dilute and remove the sewage matter without offence.

Provision is made for the escape of gases from the sewers, by ventilation, as if such provision were not made, sewer gas would be forced through the traps into houses at every sudden discharge into the sewers, and the health of every household would be imperilled.

The conditions governing the ventilation of sewers can only be briefly indicated in this Report, but it is desirable to refer to them, as the subject can only be properly considered in relation to such conditions. Temperature is a most powerful factor in this as in all ventilation. When the temperature of the air of the sewer is lower than that of the external atmosphere, and no other influence is at work, the colder atmosphere of the sewer, being heavier than the external air, remains in the sewer; but when the outer air becomes

colder and consequently heavier than the air in the sewer, it presses down through some of the openings to the sewer, and drives out the warmer and lighter air through other openings. This is noticeably the case on cool evenings in hot dry seasons, at which time the nuisance from sewer ventilators is probably at the worst. It is therefore necessary to provide in sewer as in all other ventilation, inlets for the cold air as well as outlets for the warmer air.

During the autumn and winter months the average temperature of the air of sewers is warmer than the external temperature by about 7 degrees; in spring the temperature is about equal; and in summer the external day temperature averages over 3 degrees warmer than that of sewers. At night the temperature of sewers at all times in the year is usually higher than the temperature of the external air. It will, therefore, be seen that throughout the greater part of the year the natural law by which the heavier colder air forces out by its greater weight the warmer air of the sewers, is in operation, and, if proper facilities are given, that law will ventilate the sewers.

The temperature of the air of sewers is, however, affected locally by hot water and other liquids which are very frequently poured into them. Every such discharge at once raises the temperature of the air in its vicinity, and the sudden expansion which follows causes air to escape from the nearest opening. In like manner, every increase in the quantity of sewage by the discharge from a drain into the sewer expels air from the sewers, and assists ventilation. In fact every rise or fall in the level of the sewage either expels or draws air into the sewer; and as the level of the sewage is constantly varying, this operates powerfully for ventilation.

The force and direction of the wind, varying barometric pressure, and various minor causes also affect sewer ventilation, but the only force, other than these, that need be mentioned here, is the strong tendency that flowing water or sewage has to drag along the air above it in the sewer. This influence is complicated, at any rate in sewers of considerable fall, by the counter-tendency of the air of the sewer to flow back up the sewer to its higher levels. This latter tendency is, in the Metropolis, particularly shown in the case of Hampstead, from which serious complaints have been received as to the nuisance from this back flow of sewer-gas from lower level sewers in other Districts.

Any system of sewer ventilation can only be successful to the extent that it is in accordance with natural law. Such a system should be as constant as possible in its operation, it should effect the greatest possible change in the air of sewers with the least amount of nuisance to the public, and it should do this automatically and economically. That no system of ventilating sewers has been found which is entirely successful, is probably due to the fact that the complexity of the conditions render a perfect system very difficult of attainment. Of the numerous schemes that have been proposed, by far the greater part deal with one section of the subject only, and do not take into account many of the practical considerations affecting sewers.

As an instance of this may be mentioned the proposal frequently made that the principle adopted in the ventilation of mines should be applied to sewers. That system as applied in mines has proved very successful indeed, but a practical knowledge of the conditions would show that the system is not applicable to sewers. Fresh air is drawn into a mine through one downcast shaft, and travels through the various galleries and cuttings to an upcast shaft, through which it passes from the mine. The force which moves the air is either a fire in the upcast shaft or a fan. Such a method cannot be applied to a system of sewers, because, instead of the air entering at one point, and being distributed equally throughout the system, it would be drawn into the sewers only through the drain openings nearest to the fan or exhaust shaft, and the remainder of the sewers would receive no benefit.

The only methods of ventilating sewers that experience has shown to be practicable, are—

- (a) By surface ventilation, that is to say, by shafts leading from the crown

of the sewer to the centre of the road, and covered at the road-level by open gratings ;

(b) By large separate shafts, factory chimney-shafts, and smaller shafts, in all of which fire or other heat is the motive-power ;

(c) By pipes or shafts without heat.

The objection to surface ventilators is rather on account of the gases escaping from them being more directly in evidence, than to their being more dangerous to health than in other methods of ventilation. Although the improvement effected by removing the point at which the sewer gases escape, from the side of footpaths to the centre of roads, was very great, both in reducing offence and in minimising danger to health, there can be no doubt that at times the system is, as at present carried out, a serious cause of nuisance.

The efficacy of surface ventilation depends upon the number, size, and construction of the ventilating shafts, the size of the openings for air in the gratings, and the relation of both shafts and openings to the size and character of the sewer to be ventilated. Your Committee find that the construction and size of the surface ventilators varies widely in the several districts of the Metropolis, and also in the various towns in the Kingdom. For instance, this method of ventilation is adopted either solely or in combination with other means in all parts of London, but the distance from each other at which the ventilating shafts are placed, varies in different parts of the Metropolis, from 17 yards to as much as 600 yards. The average distance apart in London is 120 yards. In other towns the distance apart of the ventilators varies from 30 yards to 200 yards, the usual distances being from 50 to 100 yards. In answer to the question addressed by the Board to the Vestries and District Boards of the Metropolis—"Do you consider that it would be advantageous to increase the number of surface ventilators?" 29 districts say "Yes." Of these, six districts approve of the ventilators being placed at from 20 to 50 yards apart; twelve districts recommend them to be placed from 60 to 80 yards apart; seven districts consider that they should be between 80 and 100 yards apart; three districts say the distance should be from 100 to 150 yards; and one district thinks the ventilators should not be more than 200 yards apart.

Two districts do not approve of surface ventilation, two are doubtful, and one district has no experience on the subject.

One measure of the effectiveness of any ventilating appliance is the size of the opening through which the escaping air or gas must pass. Every ventilating shaft should be as straight as possible, and large enough at its smallest part to pass the necessary quantity of gas or air. Sewer ventilating shafts connected with surface-ventilators usually answer these requirements, but the gratings do not. For instance, an 18-inch circular shaft has an opening for ventilation of 254·47 superficial inches, but the openings in the gratings above such shafts do not often exceed 48 inches—less than one-fifth of the capacity of the shaft. The openings in the surface gratings are, however, usually smaller than 48 inches. It will be seen in the appended return that in 17 districts of the Metropolis they vary from 27 to 40 inches; in nine districts from 40 to 50 inches; in six districts from 50 to 60 inches; in one district from 60 to 70 inches; and in only two districts does the ventilating capacity of the gratings reach from 70 to 80 inches. The surface gratings to the recently constructed sewers have ordinarily been placed at a distance of from 50 to 60 yards apart, and such gratings have air openings equal in area to 60 square inches, and your Committee consider that the number and size of many of the ventilators on other sewers in the Metropolis should be increased.

It has already been pointed out that some amount of road grit passes through the ventilating gratings and forms a deposit in the sewer at the foot of each ventilating shaft, and that this deposit causes nuisance by arresting the flow of the sewage, which

often forms a stagnant and offensive accumulation near to the ventilator. This may be obviated by placing under each grating a deep tray or catch-pit, care being taken that an air-passage, at least equal in size to the area of the openings in the grating, is left outside the tray; and the shaft should be enlarged at this part for the purpose. This tray should be emptied periodically, and the openings in the gratings should at the same time be cleared of mud.

The second method of ventilating sewers with which it is necessary for your Committee to deal, is that in which heat in some form is used to extract the air from sewers through shafts. The shafts may be the chimney-shafts at factories; large special shafts, with a fire burning in their base; or smaller special shafts; but the principle is the same with each, viz., the expansion by heat of the air in the shaft, which, in becoming lighter in consequence of such expansion, is rapidly driven upward through the shaft by the colder and heavier air from the sewer with which the shaft is connected. As already pointed out, this method is successfully adopted in the ventilation of mines, and the principle of it is quite sound, as it embodies the natural law which governs the movement of air. The principle is in operation in every house, as an ordinary chimney, when the fire is alight, draws from the room and discharges into the external atmosphere a very large quantity of air. A heated ventilating shaft attached to a sewer is of course equally effective in drawing air from the sewer and discharging it into the external atmosphere; and there may be cases where it would be desirable to ventilate a particular part of a sewer in this way. Such would be the case with a sewer where surface ventilation proved objectionable, and where the sewer could be connected with the chimney-shafts of factories. In such a case there would be no expenditure for fuel, and the expense of connecting the sewer with the chimney-shaft would be repaid by the amount of ventilation afforded. This has been done in a few cases, both in London and elsewhere, with benefit to the sewers within 50 or 60 yards of the shaft. Your Committee, however, do not consider that the system can be much extended. In the first place, very great difficulty has been experienced with owners of factories, who object to allow their chimney-shafts and furnaces to be made use of for such a purpose, and only in one or two cases has the necessary consent been given. The fact that separate shafts with fires in them solely for the purpose of ventilating sewers would, if generally adopted, entail an enormous expenditure, both in first cost and in maintenance, renders the adoption of that system undesirable, even if it could be made effectual.

The Board have constructed three special shafts in the Greenwich District, over the Southern Low Level Sewer, in which shafts coke fires are maintained, for the purpose of drawing the gases from the sewer and destroying the offensive effluvium. But the system of passing the gases through the fire which is adopted in these shafts has not been found to answer so well as the method of allowing the bulk of the gases from the sewer to pass into the shaft over the fire, very much in the same way as the air of a room passes into a chimney. The mechanical obstruction to the passage of air offered by the furnace bars and by the fire itself is so considerable, that, unless a large and fiercely burning fire is maintained in the shafts, the quantity of air which passes from the sewer is small. The estimated proportions of the air passing into the chimney in the case of an ordinary open fire are, to one volume of air which passes through the fire, nine volumes pass into the chimney over the fire. From this data it would follow that for any given quantity of coke consumed, a much greater amount of ventilation would be attained by making the air pass from the sewer to the shaft around and over as well as through the fire. Having regard to first cost, cost of maintenance, and to the limited amount of work they do, special shafts and furnaces have not proved successful in the ventilation of sewers, and the Board have, on the recommendation of Sir Joseph Bazalgette, decided not to increase the number. With this view your Committee entirely coincide. They consider that this system cannot be applied to the ventilation of sewers generally, and that it can only be locally used with advantage in exceptional cases.

The objections above stated apply with equal or greater force to the ventilation of sewers by means of a large number of small shafts, such as the ordinary lamp-posts, in which it is suggested heat should be used as a means of drawing out and then destroying the offensive air in the sewers. A number of suggestions of this character were made many years ago, and are described in the Engineer's Report of the 6th June, 1866. These suggestions were not of a practical nature, and were not seriously considered, and a more recent plan submitted to the Board, called "The Patent Hygienic Sewer Furnace System," comes within the same category. This system provides for the extraction of the air in sewers by means of gas furnaces, but as it is only claimed that from 800 to 1,000 feet of air will be drawn from a sewer per hour by the consumption of from 7 to 10 feet of gas, the cost of the maintenance of such a system would be enormous. The Board have already decided that such a system is not practically applicable in either the main or local sewers, and with this view your Committee agree.

The third method of ventilating sewers which your Committee have to deal with is ventilation by means of pipes or shafts carried from the crown of the sewer to the side of the road, and thence up houses or buildings. This method is gradually coming into greater use, more or less in combination with surface ventilators, and it is therefore necessary that its advantages and disadvantages should be carefully considered.

The plan usually adopted is to connect a stoneware pipe with the upper part or crown of the sewer to be ventilated, and to carry this pipe to the foot of an adjacent building, where it is connected with a metal pipe which is carried up to and above the roof. This pipe sometimes acts as an inlet for fresh air into the sewer, but ordinarily it acts as an outlet by which the gases in the sewer escape into the external atmosphere. About twenty years ago the Board put up a number of such pipes for assisting in the ventilation of the main sewers in the neighbourhood of Greenwich and Deptford. These pipes were of 4, 5 and 6 inches diameter, and were described in a Report made to the Board by the Engineer on the 31st May, 1866, as having, if of sufficient area, the same effect on the sewer as ordinary surface ventilators. The method was not, however, adopted to any extent with the Board's sewers, mainly owing to the great difficulty that was experienced in obtaining the consent of householders to the pipes being carried up their houses, as it was generally thought that there was danger of the sewer gases entering the houses by open windows or by chimneys.

Pipe ventilation has, however, been extensively adopted in many towns, and to some extent in the Metropolis by the Vestries and District Boards. Some of the Vestries, in complaining of the present system, suggest pipe ventilation as the remedy. The Vestry of Tooting-graveney, in their Memorial to the Board on the subject, say that "several persons have had shafts from the sewers carried up the sides of their houses, at their own expense, which have answered in their immediate neighbourhood; but to be successful the scheme should be general;" and they suggest that, as no power exists to compel owners to consent to such pipes, the Board should obtain Parliamentary powers to carry out that or any other plan of ventilating sewers which may prove efficient. This view has been supported by the Vestries of St. George, Hanover-square; St. James, Westminster; and St. Mary, Islington.

The Commissioners of Sewers of the City of London, in the appended return, state that 137 pipe ventilators have been constructed in the City, but the ventilators are described as not having helped materially in reducing the nuisance from surface ventilators. In 22 out of 37 other Districts in the Metropolis, pipe ventilators have been to some extent used; and the total number of such ventilators provided by the Local Authorities in London appears to be 582, of which Lewisham has 149, the City 137, and Wandsworth 100. The result appears to have been satisfactory in the majority of the districts. In 12 districts the pipe ventilators are described as having abated nuisance, especially when used in connection with surface ventilators. In five districts the pipe ventilators, it is stated, have not abated nuisance. Fulham states

that the pipes have not materially abated nuisance, "as in certain atmospheric states they are inoperative." St. Saviour, Southwark, states that the ventilating pipes had to be abolished, as they were a nuisance to the inhabitants; and St. George, Hanover-square, states that owners would not consent to pipe ventilators being attached to their houses, and those erected had to be removed in consequence of repeated complaints. In Bethnal-green and in the Strand District it was not found practicable to obtain the consent of owners to the fixing of the pipes. Hampstead and St. James state that they are unable to decide whether the pipe ventilators have materially reduced the nuisance or not. Mile-end Old-town states that the pipe ventilators do not reduce nuisance "beyond the particular surface ventilator to which they are attached." Lewisham has the largest number of pipe ventilators of any district of the Metropolis, but the experience of that district is not conclusive, as the information as to their use which has been furnished is "where the surface ventilators have been closed the complaints have of course ceased."

Elsewhere than in London the system has been more extensively tried, the city of Coventry having erected 1,500 pipe ventilators, while other towns have also used them in considerable numbers. Out of 32 towns of which inquiry was made, 20 had tried this method of ventilating their sewers, but in 11 cases only to a small extent. The results were stated to have been satisfactory in 14 cases, and unsatisfactory in three cases. In the three remaining cases the result was not ascertained.

The advantage of pipe ventilation over surface ventilation consists in the discharge of the sewer gases at a point more remote from general observation than the centre of the public road-way. Whether or not the gases discharged through the pipes are more likely to be injurious to the inhabitants of the houses to which the pipes are attached depends entirely upon the position of the mouths of the ventilating pipes relatively to the openings of such houses. If the pipes can be carried to points distant from windows and chimneys then the danger would probably be not greater in one case than in the other, but if the pipes discharged at a few feet only from the openings of houses, then the danger would be greater from pipe ventilation than from surface ventilation.

The effectiveness of pipe ventilators in carrying off the gases from sewers depends on the capacity, construction, and number of the pipes. In most of the Metropolitan districts in which this system has been tried, the capacity of the pipe ventilators is small. In five districts the average capacity of the pipe ventilators is returned as 10 square inches, in six districts as 20 square inches, and in seven districts as 30 square inches. In the remaining districts there are 6 ventilators of 30 inches, 4 of 66 inches, 1 of 96 inches, and 1 of 144 inches. In the three districts in which pipe ventilators are most largely used, the City of London, with 137 ventilators, states that the average capacity of each is 20 square inches; Lewisham, with 144 ventilators, returns the minimum capacity as 28.27 square inches; and Wandsworth, with 100 ventilators, states that the capacity varies from 12 to 20 inches. It is probable, therefore, that the average capacity of pipe ventilators in the Metropolis is about 20 inches, which is insufficient.

Your Committee believe that pipe ventilators can be used with advantage in aid of the present system. Pipes should be carried up to the ridges of the roofs of adjacent buildings, where the owners' consent can be obtained, and they should discharge six or eight feet above the ridges, and as far from chimneys and windows as possible. These pipes should be of as large an area as possible, and angles should be avoided, as the pipes will do far more work where easy bends are substituted for angles. Such pipes would ordinarily make efficient up-cast shafts, the nearest surface ventilators becoming inlets for air or down-cast shafts.

Your Committee also are of opinion that a shaft should be carried up from the commencement or dead end of every sewer whenever a surface ventilator in the necessary position would be a source of nuisance. It is, of course, most important that fresh air

should flow freely through every part of sewers, and unless vents are provided at dead ends, which are the highest points of sewers, foul gases will accumulate, which may on sudden pressure be forced through the traps of the nearest houses.

In connection with pipe ventilation the use of cowls may be considered. It is claimed for cowls, "exhaust ventilators," and other special contrivances intended to be placed at the top of ventilating pipes, that the wind so acts upon such appliances as to exhaust the air from the pipes to which they are attached. If it is admitted that an up-current is established in the ventilating pipes when wind is impinging upon the cowls, it remains the fact that at the very time when assistance to ventilation is most needed, viz., when there is no motion in the external air, such appliances are quite useless. Various appliances have been fixed to ventilating pipes by the Board, by the Local Boards, and by various Town Authorities, and the almost invariable experience has been that they are useless. Some simple contrivance for preventing down-draught, and which does not obstruct the egress or ingress of air, may, however, be attached to the head of ventilating pipes with advantage.

It is necessary for your Committee to refer to the ventilation which is afforded to sewers where the house drains which discharge into such sewers are not shut off by means of intercepting traps. When that is the case, and the house drains are provided with means of ventilation (either through the rain-water pipes, through special ventilating pipes, or through other openings), the sewers are much benefited. Sewers have in the past been to a great extent ventilated in this way, and it is probably owing to such means of ventilation being gradually cut off by the construction of intercepting traps, that the necessity for providing other means of ventilating sewers has increased.

The desire of householders to shut the gases of sewers out of their house drains is becoming general; and the question has arisen whether, when that is effected by placing an intercepting trap in the house drain, equivalent ventilation for the sewer should not be provided by the householder. The Vestry of St. Pancras suggest, in the return which is appended, "that every house drain should be "carried direct from the sewer to the open air beyond the point at which the branch "connection furthest from the sewer is made with such main house drain," and that provision for the protection of the house from sewer gases should be made by trapping the side inlets into the main house drain. The Vestry of Kensington practically suggest the same thing, adding that whenever an intercepting trap is placed on the main house drain, the householder should carry a pipe up his house from the sewer side of such trap in order to contribute towards sewer ventilation.

The objections that can be raised against either of these methods of ventilating sewers through the drains of private houses are very much the same as those discussed under the head of "pipe ventilators," and it is therefore unnecessary to repeat them here. Your Committee believe that the general feeling against this method of ventilation will prevent its becoming general, unless it be made compulsory. As an instance of the disinclination of owners to allow their property to be made use of for ventilating sewers may be mentioned the experience of the City of London. In the autumn of last year the City Commissioners of Sewers resolved "that in all "instances where new houses are being erected, the Commissioners of Sewers place "themselves in communication with the building or other owner, and treat with him "or them for the construction of a proper ventilating shaft in the chimney-breasts, or "party or other walls, for the purpose of ventilating the sewers, carrying the ventilating "shafts well above all adjoining roofs;" but although this resolution was made over twelve months ago, your Committee understand that the Commissioners have not been successful in obtaining the necessary consent in one instance. Other drainage authorities have somewhat similar experience; and your Committee have come to the conclusion that any attempt at compulsion in this matter would be strenuously resisted.

At the same time it is desirable that your Committee should recommend the voluntary adoption of the system in those cases where it can be adopted with safety. It is essential that sewer gases should not be allowed to enter dwellings through the drain connections, or to discharge near to windows. But where the ventilating openings of house drains are at a considerable distance from the windows of houses, your Committee consider that such drains need have no intercepting trap. Every additional opening in a sewer gives an additional opportunity for fresh air to enter it, and if the sewer is well constructed and well flushed, and has a large number of openings, the air that escapes from it will be comparatively innocuous.

It cannot, however, be made too clear that house drains should be well ventilated, and that when that is not the case, an intercepting trap to shut off the gases from the sewer is desirable. Ventilation can best be provided, in the case of the drains of town houses, by carrying up every soil-pipe above the roof, leaving the top of such pipe quite open, and by carrying up another pipe from the point at which the drain leaves the premises on its way to the sewer. The last-named pipe may be a rain-water pipe, if the top of it is at some distance from windows, and its object is to keep a current of fresh air passing right through the drain—which it will effect, provided no trap is placed between the soil-pipes and the ventilating pipes. In suburban, &c., houses, where sufficient space is available, the drains can be ventilated at the ground level by means of receivers, or gully-holes, covered with a grating under which all soil, bath, sink, &c., pipes can discharge. From the upper floors, such pipes can discharge into an open hopper, from which a 3-inch or 4-inch pipe can communicate with the drain below. When properly constructed and regularly flushed, drains arranged in this simple method are never offensive, and, it need hardly be added, no gases can enter houses through them.

Your Committee, however, consider that it is of the utmost importance that house drains should be regularly flushed, especially in hot and dry weather, as otherwise they are liable to become offensive. If the flushing of house drains could be carried out generally at specified periods, so that such flushing would be simultaneously going on throughout a district, the condition of the sewers generally in such district would be greatly improved. Probably no better method of cleansing and purifying the sewers could be devised, and if the householders of a district were to regularly flush their drains at a specified time, every branch sewer of that district would also be well flushed and cleansed. The advantage of such a practice would extend to the local and main sewers, and not only would it relieve the district of the cost of flushing, but it would do the work more thoroughly than it could be done by the public authorities. Your Committee suggest that the Vestries and District Boards should recommend the householders in their several districts to flush their house drains regularly, and at the times to be specified by the Vestry or District Board.

The question of deodorising sewer gases before they escape through ventilating shafts or surface gratings has received much attention from drainage authorities and others interested in the subject. If, without materially interfering with the ventilation of the sewers, the gases could be readily, economically, and effectually deodorised before reaching the external air, one of the greatest difficulties in connection with the subject would be solved. This object has been attempted in various ways, either by means of fire, by the agency of chemical substances, or, more generally, by means of charcoal.

Wood charcoal, when it is fresh and dry, has the peculiar property of absorbing the offensive properties of sewer gases, and many authorities, including the Board, have been at great trouble and expense in the endeavour to utilise this quality in charcoal in overcoming the nuisance from sewer ventilators. It will be unnecessary for your Committee to describe the experiments with charcoal made by the Board and by other bodies, as whenever that substance has been used under the conditions that must always govern its use in sewer ventilators, it has totally failed. While it has remained dry,

charcoal has for a few days absorbed the effluvia from the small quantity of gas that has succeeded in passing through it, or rather through the interstices between the small pieces into which the charcoal has to be broken. But directly the moisture in suspension in the sewer has saturated the charcoal, it ceases to a great extent to act upon the effluvia. The only means of preventing this would be by constantly changing and re-burning the charcoal: and that might possibly be done, at great trouble and expense, if there was no other objection to the use of charcoal. But the opinion of the authorities who have most experience of its use is that placing a charcoal tray in a sewer ventilator is almost equivalent to closing that ventilator altogether. In six of the appended returns from the Vestries and District Boards charcoal is described as having been used with advantage, but that is probably due to the fact that little or no effluvia has, since its use, been noticed from the ventilating shafts in which it was placed. Out of 19 Vestries, &c., who have used it, 13 say it is useless on account of losing its virtue through wet, and through obstructing ventilation.

The system was, however, more thoroughly tried at Croydon than perhaps at any other place. The ventilating shafts of the Croydon sewers were fitted with a spiral tray, in which broken charcoal was packed, and the gases before reaching the external air had to pass between the layers of charcoal; the object of this arrangement being to bring the gases into contact with the charcoal with the minimum of mechanical obstruction to its escape. After thoroughly trying it for 10 years, during which time the charcoal was regularly replaced every 3 weeks, the Croydon Sanitary Authority abandoned the system because the charcoal could not be kept dry, and because it obstructed the ventilation of the sewers.

Deodorisation of the escaping gases by means of the heat obtained by burning coal gas in small furnaces attached to the ventilating shafts or pipes of sewers has been proposed, but the first cost and cost of maintenance would, apart from other considerations, be so enormous as to render the system impracticable.

There remains to be considered the question whether a remedy for the nuisance from sewer gases cannot to some extent be found in arresting putrefactive action within the sewers by means of some chemical agent, and the Board's recent experience in dealing with the sewage in this manner indicates that such a remedy may be successful. During the colder months the conditions are unfavourable to putrefactive action in the sewers, and no special treatment of the sewage may be at such times necessary; but during hot and dry weather decomposition is rapid, and your Committee are of opinion that it is then desirable to improve the condition of the sewage, and as far as possible prevent the formation of offensive gases.

The remarkable effect produced by the action of permanganic acid in destroying the foul odours emitted from decaying matters and in arresting their further putrefaction, suggests the means of attaining the desired object. The result of past experience has been to demonstrate most clearly that the quantity of re-agent required to destroy existing foul odours, and stay the production of others, is exceedingly small, viz.: from one to two grains of the crude manganate of soda, supplemented with about one-third that quantity of sulphuric acid, to each gallon of sewage. The ready manner in which this mixture has been applied by the Board, with such successful results, to the whole of the Metropolitan sewage during the past summer is evidence of its adaptability for the prevention of the serious nuisance arising during the hot weather from sewer gases. To obtain the maximum effect with the minimum of expenditure, it is advisable that the points of application should be multiplied to the greatest extent found practicable. With this object Local Boards should undertake the treatment of the sewage in the sewers in their respective districts, and householders, in addition to the flushing recommended in this report, should be urged to employ some method of deodorisation, in order that, as far as practicable, the formation of sewer gas may be effectually prevented. Your Committee are not prepared to recommend any particular

form of apparatus for effecting the above purpose. There are several kinds now before the public, which are well adapted to fulfil the desired object.

In submitting this proposal, the outcome of practical work carried out under the Board's direction, your Committee desire to point out the great benefit which would arise from a complete system of sewage deodorisation within the Metropolis. Instead of the sewage, as at present, arriving at the outfalls in a more or less putrescent condition, it would, although objectionable in appearance, be free, or nearly free, from odour, and in a condition far more amenable to subsequent treatment, and the resulting effluent would be superior to any that would otherwise be attainable.

Refuse liquids from manufacturing works should also undergo some treatment before admission into the sewers. The large quantity of foul matters (other than true sewage) daily sent into the sewers, alone constitutes a large proportion of the filth which the sewers convey. Your Committee are of opinion that if the existing statutory provisions with regard to these extra sources of contamination were amended, and power given to the Board to exclude the waste water, &c., from factories, the owners of which fail to comply with the Board's demands, an improvement would be effected in the present system.

Before summarising their conclusions, and the recommendations which arise out of such conclusions, your Committee think it necessary to record their opinion that the existing system of ventilating the sewers of the Metropolis, chiefly by means of surface ventilators in the centre of road-ways, has not proved satisfactory. The appended returns show that there is a wide divergence in the work of the several local sanitary authorities, both as to the provision of ventilators and as to the arrangements for cleansing. No sewer can be well ventilated unless the ventilators are both large and frequent, and yet it will be seen that in some districts the ventilators are some hundreds of yards apart, and in others that the area of the air openings in the ventilating gratings is much too small. It is only by the removal of such anomalies, and by the application of something like uniformity throughout the whole of the Metropolitan system of sewers, that really satisfactory results can be obtained. Your Committee trust that if the following conclusions and recommendations are adopted by the Vestries and District Boards the nuisance at present complained of will no longer exist.

Your Committee do not think that, at present, it is desirable that the powers given by the 83rd Section of the Metropolis Local Management Amendment Act, 1862, which authorises the Board to make Bye-laws for the guidance, direction, and control of the Vestries and District Boards in relation to the construction, maintenance, ventilation, and cleansing of sewers in their respective districts, should be brought into operation. Up to this time the local sewers of each district have been cleansed and ventilated in the manner considered best by the Vestry, and as there has been no generally accepted authority on the subject, great diversity in practice has almost necessarily arisen. Your Committee have now endeavoured to collect the results of the work and experience of the principal drainage authorities in the country, and to deduce from those results a series of general conclusions, which they trust will be acted upon voluntarily by the Local Drainage Authorities of the Metropolis, and it is only in the event of the Local Authorities abstaining from such voluntary action that your Committee consider it will be desirable for the Board to exercise their power to make Bye-laws.

The conclusions and recommendations of your Committee on the subject of the cleansing and ventilation of sewers are as follows—

1.—That any old and defective, disused, or partially disused sewers which may remain in any part of the Metropolis should be disconnected from the present sewerage system, cleansed, and filled up; and [that, where necessary, pipe or other proper sewers should be substituted.

2.—That stringent measures be taken by the Board and by the Vestries and District Boards, (a), for preventing road-sweepings passing into sewers, (b), for

preventing the discharge into sewers from manufactories and other places of improper substances, such as chemical refuse or trade filth, or of hot water or steam, so as to be the cause of nuisance.

3.—That the most important requirement for keeping sewers in satisfactory condition is a supply of water sufficient in quantity to carry the sewage in suspension through the sewers.

4.—That whenever the supply of water in sewers is insufficient for cleansing the sewers, effectual provision for cleansing such sewers should be adopted by flushing or other means.

5.—That one of the most effectual methods of flushing would be by means of water simultaneously discharged into house drains, as such a simultaneous discharge would flush branch sewers, then local sewers, and finally main sewers; that such a method of flushing can be effectually carried out by householders flushing their house drains periodically and simultaneously at stated times; that a great number of householders would probably be willing to co-operate with the authorities in improving the condition of the sewers in their district in this way; and that it is desirable that the several Vestries and District Boards should intimate upon what days and at what hours householders should flush their drains.

6.—That provision near the heads of branch sewers, for flushing such sewers from their commencement, is to be desired.

7.—That the practice of flushing the courts, alleys, small streets, &c., in poor districts, in summer, is to be highly recommended as a desirable method of flushing sewers and improving the sanitary condition of the districts.

8.—That next to effectual cleansing, one of the most important safe-guards against nuisance and danger to health from sewers is the dilution of the gases therein by a constant and plentiful supply of fresh air to the sewers by means of effective ventilation.

9.—That the ventilation of sewers in the Metropolis, by means of ventilating shafts leading to gratings in the centre of road-ways, has been the cause of complaint, owing to the imperfect manner in which the system has been carried out, the ventilators being deficient both in size and number.

10.—That the surface ventilators to the recently-constructed sewers have ordinarily been placed at a distance of from 50 to 60 yards apart, with air openings in the gratings equal to 60 square inches; and that the number and size of many of the ventilators on other sewers in the Metropolis should be increased.

11.—That the amount of ventilation afforded by large special ventilating shafts is in no way commensurate with their cost, and that the adoption of such shafts, with or without fire heat, or the connection of sewers with factory shafts, can only be adopted in very exceptional circumstances. Where shafts with fires are used, the sewer gases should be allowed to pass into such shafts over as well as through the fires, otherwise the amount of ventilation afforded will be very much limited.

12.—That pipe ventilators of large section, and constructed with bends and without angles, can be used with great advantage in addition to, and not in substitution for, surface ventilators, wherever the consent of owners and occupiers can be obtained to such ventilators being affixed.

13.—That your Committee are of opinion that the ventilation of the sewers of the Metropolis may be improved by altering the construction of many of the surface ventilators as previously recommended, and by carrying up large pipe ventilators at convenient points wherever practicable.

14.—That the use of charcoal or of other appliances for deodorising gases in sewer ventilators is undesirable, as such appliances do much harm by obstructing ventilation, are costly and troublesome, and are quite unsuitable for general use over a large sewerage system.

15.—That during the cold and wet seasons the arrangements suggested in this Report for providing ventilation will be sufficient, as putrefaction proceeds so slowly at low temperatures, and when the sewage is diluted with large volumes of fresh water, that the foul matters pass from the sewers before material quantities of offensive gases are generated.

16.—That during dry and hot weather the foregoing recommendations respecting the flushing and cleansing be carried out as far as practicable, especially in sewers having only a small flow of water.

17.—That in addition to these precautions, a system of deodorisation during the summer be arranged for the main sewers, on the plan adopted by the Board during the past summer; that Local Boards be requested to adopt a similar system with local sewers, and to use all their influence to induce householders to employ in their house-drains suitable deodorising agents during periods of high temperature and drought.

18.—That manufacturers and others discharging refuse into the sewers be compelled to so treat their waste water (by such process as they may deem fit, but to the Board's satisfaction) that it shall have no greater *deoxidising* power than average household sewage.

19.—That your Committee are not prepared to recommend the Board to exercise the powers given by 83rd Section of the Metropolis Management Amendment Act for making bye-laws for the guidance, direction, and control of the Vestries and District Boards, and other persons in relation to the maintenance, cleansing, ventilation, &c., of sewers, until it is shown that the suggestions made herein have not been voluntarily adopted.

20.—That a copy of this Report and appendix be forwarded to each Vestry and District Board.

All which your Committee beg to submit.

(Signed)

ALFRED POCKOCK,
JOHN RUNTZ,
GEORGE PHILLIPS,
FRED^K INGOLDBY,
F. M. WENBORN.

The Report having been received,

It was *moved* by Mr. Pocock, and seconded—That the Report be approved, and that a copy thereof be sent to each Vestry and District Board.

An *amendment* thereon was *moved* by Mr. Fowler, and seconded by Mr. Cook, M.P.,—That the consideration of the Report be deferred for six weeks, and that in the meantime a copy thereof be sent to each Vestry and District Board.

The *motion* having been, by leave of the Board, withdrawn,

The *amendment* was put as an *original motion*, and was declared by the Chairman to be carried; and it was *resolved* accordingly.

7. Mr. Hill, the Chairman of the Fire Brigade Committee, brought up a Report, as follows—

REPORT OF THE FIRE BRIGADE COMMITTEE.

Spring-gardens, 19th January, 1886.

On the 8th instant, the Board's attention was called by one of its Members to the delay which had occurred in the attendance of the Brigade at a fire at Vauxhall on the

previous day, which was the day immediately following that on which there was a heavy fall of snow. It was thereupon referred to your Committee to report how far the Fire-alarm communications had been interrupted by the breaking down of the overhead wires during the snowstorm. The Chief Officer has reported that on the 6th instant the day of the snowstorm, 34 of the direct lines of communication by telegraph or telephone, and 26 Fire-alarm circuits broke down, and that during the five days next following, four of the direct lines and six circuits failed, making a total of 38 direct lines and 32 circuits out of order. Since then 23 direct lines and 28 Fire-alarm circuits have been put in order by the Post Office authorities, and the remainder are being attended to. Your Committee, in accordance with the reference, report the facts [for the Board's information.

The Chief Officer has reported that the Steam Fire-engine No. 60, which was made for the Board by Messrs. Shand, Mason and Co., in the year 1866, and which has consequently been in use for nearly 20 years, is worn out, and that it is not advisable to spend any more money in repairing it. Messrs. Shand, Mason and Co., offer to take the old engine back, and to supply a new one for £335, and your Committee recommend—

That their offer be accepted.

Three Fourth-class Firemen, whose names are Charles T. Brown, Sydney Gallehawk, and John Jones, have been reported for misconduct sufficiently serious to render it undesirable that they should remain in the Brigade. Your Committee accordingly recommend—

That these three men be dismissed.

Your Committee have also to report that First-class Fireman George Hotston, and Fourth-class Firemen James Brent and Francis Tennant have withdrawn from the service, and that their names have accordingly been removed from the list of Firemen.

Your Committee have, further, to submit the following recommendations—

That Second-class Fireman George Coles be promoted to the First Class; Third-class Fireman James Thomas to the Second Class; and Fourth-class Fireman William G. Jacobs to the Third Class.

That Henry Moore, Edgar Millard, Arthur Ryan, and Thomas Rowbottom be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

Your Committee have also to report, for the Board's information, that they have accepted the Tender of Mr. G. Bray to supply a new Van for carrying Fire-escapes and long Ladders for the sum of £65.

All which your Committee beg to submit.

(Signed)

GEO. HILL,
W. R. SELWAY,
AND. MIDDLEMASS,
GEO. EDWARDS,
GEORGE PHILLIPS,
W. J. WETENHALL,
ROBT. JONES.

The Report having been read and received,

It was moved by Mr. Hill, seconded and resolved—That, inasmuch of the Steam Fire-engine, No. 60, is unfit for further use, the offer of Messrs. Shand, Mason and Co. to take back the old Engine and to supply a new one for £335, be accepted.

It was moved by Mr. Hill, seconded, and resolved—That Fourth-class Firemen Charles T. Brown, Sydney Gallehawk, and John Jones, be dismissed for misconduct.

It was moved by Mr. Hill, seconded, and resolved—That the following promotions be made, viz.—Second-class Fireman George Coles to the First Class; Third-class Fireman

James Thomas to the Second Class; and Fourth-class Fireman William G. Jacobs to the Third Class.

It was moved by Mr. Hill, seconded, and resolved—That Henry Moore, Edgar Millard, Arthur Ryan, and Thomas Rowbottom be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

8. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 19th January, 1886.

Your Committee have to report that the works required to be done to the Canterbury Music-hall in Westminster-bridge-road, by the Award of the Arbitrator, the substance of which was reported to the Board on the 19th October, 1883 (No. 13) have been completed, and your Committee recommend—

That the Justices of Surrey be informed accordingly.

Your Committee have also to report their proceedings under the Resolution of the Board of the 30th October last (No. 12) authorising them to confer with the Owners of the Helvetia Music-hall (late Hibernian Stores), Nos. 6 and 7, Old Compton-street, St. Anne's, Soho, upon the Eight Requisitions contained in the Board's draft Notice with respect to the structural defects of the building. The Solicitors to the Owners asked in the first instance for an extension of the time allowed for sending in their objections to the Requisitions, and subsequently stated that their clients had decided to drop their License rather than carry out the required alterations. No steps appear to have been taken, however, for obtaining the formal cancelment of the License, nor have any detailed observations been submitted upon the Board's Requisitions. Under these circumstances your Committee, having received a Report from your Solicitor on the subject, consider it desirable to proceed in the usual course for obtaining the removal of the structural defects of the building, and they are therefore of opinion that a sealed Notice, containing the following Requisitions, being the same as those contained in the draft Notice, should be served upon the Owners of the Hall.

1.—That a brick wall 9 inches thick without openings, be built on the West side of the entrance vestibule on the ground floor, to divide such vestibule from the private bar of the Public-house adjoining to the Westward, and that the window between the private bar and the staircase to the upper rooms of the Public-house be stopped up with brickwork the full thickness of the wall in which such window is situated.

2.—That the floor of the entrance vestibule and the staircase-hall adjoining be constructed of fire-resisting materials to be approved by the Board.

3.—That the wooden staircase between the ground floor and the first floor of the Public-house be removed, and be re-placed by a stone staircase not less than 4 feet wide; that such staircase do have solid "square" (as distinguished from "spandril") steps of York or other approved stone, with 11-inch treads and 6-inch risers, not less than 4 feet wide in the clear; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be not less than 4 feet wide and 6 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board.

4.—That the floor of the Hall and of the passage-way at the rear be constructed of fire-resisting materials to be approved by the Board.

5.—That the door-way at the South-West angle of the passage-way at the rear of the Hall be stopped up with brickwork the full thickness of the wall in which such door-way is situated.

6.—That the floors of so much of the rooms on the second floor of the Public-house as extend over the Hall and the passage-way adjoining, be formed of fire-resisting materials to be approved by the Board.

7.—That the skylights at the rear of the buildings be protected by stout galvanised iron wire guards fixed on the outside.

8.—That all door-ways used by the public be increased in width to 4 feet 6 inches, and that the doors be made to open outwards.

Your Committee also recommend—

That a Notice, embodying the above requirements, and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor ; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same ; and that, upon the receipt of such consent, the Notice be sealed, and be served by the Solicitor upon the Owners of the Hall.

Your Committee have further to report that the works required to be done to the Metropolitan Music-hall in Edgware-road, by the Award of the Arbitrator, the purport of which was reported to the Board on the 9th January, 1885 (No. 11), have been completed, and your Committee recommend—

That the Justices of Middlesex be informed accordingly.

The works required by the Board to be done to the Seabright Palace of Varieties (otherwise the Belmont Music-hall) in Hill-street, Gloucester-street, Hackney-road, as specified in their Minutes of the 8th May last (No. 16) have also been completed, and your Committee therefore recommend—

That the Justices of Middlesex be informed accordingly.

Your Committee have also to report the completion of the works required by the Board to be done to the Wellington Hall in Wellington-street, Islington, as specified in their Minutes of the same date as the preceding case, and your Committee recommend—

That the Justices of Middlesex be informed accordingly.

Your Committee have had under consideration the question of the steps it is desirable to take with respect to the Portland Hall, formerly the Portland Bazaar, in Langham-place, Regent-street. The Hall is about 121 feet long by 51 feet wide, and is approached by a vestibule about 8 feet wide and 50 feet long. The Hall has a wooden gallery around three of its sides, the only access to which is by a wooden staircase with an open well hole. The ground floor of the Hall will accommodate about 700 persons, and the gallery about 300. It came to the knowledge of your Committee on the 14th July last that it was proposed to establish an Indian Village Exhibition and entertainment in the building, and your Committee thereupon pointed out to the promoters the necessity of obtaining the Board's Certificate, under the Act of 1878. In the same month an application was made by Mr. H. E. Coe, for such Certificate in respect of the bazaar and a proposed addition thereto on the North side, but the Drawings received from him were incomplete and unsatisfactory. The applicant was therefore requested to submit amended Drawings, and immediately after the recess, the application for the Certificate was renewed by Mr. C. J. Phipps, on behalf of the promoters. The accompanying Drawings were, however, still unsatisfactory in several particulars, and your Committee were consequently unable to comply with the applicant's request that they would intimate their conditional approval of the same for the information of the Licensing Magistrates. But the absence of the Board's Certificate, your Committee regret to report, did not prevent the issue of the Magistrates' License, which was granted on the 8th October last. In consequence of a change of ownership, Mr. Phipps soon afterwards deposited new Drawings of certain proposed alterations and additions to the building. For the third

time the Drawings were found to be such as your Committee could not recommend for approval, and immediately after this decision was arrived at, the application for the Board's Certificate was withdrawn. Extensive alterations have, however, been carried out at the premises, which have recently been opened as a place of public resort under the name of "India in London." The entertainment provided is of a somewhat similar character to that at the Japanese Native Village, in Humphreys' Hall, being illustrative of Indian arts and manufactures, and including dramatic and musical performances. These performances are given upon a stage at the Eastern end of the Hall, which has scenery, foot-lights and gas battens, and is separated from the auditorium by a proscenium wall. The gallery is occupied, as is also a portion of the ground floor, by small wooden shops in which native artificers carry on their trades. Your Committee are of opinion that it is the duty of the Board to enforce in this case the provisions of the Act of 1878, making it unlawful for any place of public resort to be kept open within the Metropolis until the Board shall have granted their Certificate to the effect that such place was, on its completion, in accordance with their Regulations. Your Committee, therefore, recommend—

That the Solicitor be instructed to take proceedings against the person or persons who are keeping open the Portland Hall, formerly the Portland Bazaar, Langham-place, St. Marylebone, as a place of public entertainment, without having previously obtained the Certificate of the Board, pursuant to the Metropolis Management and Building Acts Amendment Act, 1878, for the recovery of the penalties prescribed by the Twelfth Section of such Act.

Your Committee beg to submit herewith two Reports which they have received from your Superintending Architect, specifying certain works which it is necessary should be carried out under Magistrates' Orders at the premises therein mentioned, the same being Dangerous Structures, and they recommend—

That the Contractors, Messrs. Brass and Son, be instructed to execute the works ordered by the Magistrates to be done at the following premises, the same being Dangerous Structures, viz.—

Party-wall between Nos. 287 and 289, New-cross-road, Deptford.
No. 6, Myrdle-street, Mile-end Old-town.

Your Committee have had under consideration the question of the power of the Board to regulate, by new Bye-laws, the use of concrete in buildings. Your Committee reported, on the 2nd October last, the decision of the Magistrate, dismissing a Summons which had been obtained by the District Surveyor in respect of Artizans' Dwellings in Zoar-street, Southwark; and the Board then authorised their Solicitor to give the District Surveyor the necessary legal assistance upon the appeal. Upon further consideration your Solicitor has thought it inexpedient to proceed with the appeal, and your Committee have had before them the general question of the power of the Board to deal with concrete buildings. The Board have jurisdiction in the matter under the existing Bye-laws, which were sanctioned in 1879, so far as the foundations of houses and buildings are concerned, but your Solicitor is of opinion that the Board have at present no authority to make Bye-laws as to concrete buildings generally. Your Committee have, therefore, prepared, in conference with the Officers, new Bye-laws relating to concrete walls, together with clauses as to the duties and remuneration of the District Surveyors in connection therewith. Printed copies of the proposed Bye-laws have been forwarded to the Members of the Board, and your Committee now submit them for approval, and recommend—

That they be approved by the Board, and be sent to the Home Secretary for confirmation; also, that such Bye-laws, together with notice of the Board's intention to apply for confirmation of the same, be advertised, and that copies of such Bye-laws and notice be delivered at the office of the Royal Institute of British Architects and of the Institution of Surveyors, as required by the 16th Section of the Act.

Your Committee have considered the application of Mr. J. O. Parker, for the consent of the Board to the re-erection of buildings on the North side of Abbey-street, between Neckinger-street and Parker's-row, Bermondsey, to the line shown upon the Plan

accompanying the application, referred by the Board on the 11th December, 1885 (No. 62). The Board, on the 11th January, 1886, and again on the 14th November, 1884, refused to sanction the erection of buildings in Abbey-street, between Druid-street and Parker's-row. The applicant states that he is entitled to the immediate or early reversion of the whole of the premises in this part of Abbey-street, except the "Star" Music-hall and the "Star and Garter" Public-house. The amended Plan is approved by the Vestry on certain conditions, and your Committee think that it may be sanctioned by the Board. Your Committee recommend—

That the application be granted, upon condition that the re-erection of the buildings therein referred to be commenced within Six months, and be completed within Eighteen months from the 22nd instant, that the frontage of the proposed building at the corner of Parker's-row, be set back to the Western side of the canted angle of the "Prince of Teck" Beer-shop; that the land coloured Pink on the Plan be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have had under consideration the Letter from Mr. T. Williams, District Surveyor for Bermondsey, relative to an iron pent roof recently erected in front of No. 188, Southwark-park-road, Bermondsey, without the consent of the Board, referred by the Board on the 30th October last (No. 46). Your Committee instructed your Solicitor to obtain a Summons at once against the builder of the pent-roof, if erected within the last Six months. It appears, however, upon enquiry, that the structure was built more than four years since; and your Committee, thinking it useless to proceed further, recommend—

That no action be taken by the Board in the matter, and that Mr. Williams be so informed.

Your Committee have considered the Letters from the District Surveyor for West St. Pancras, and an owner of adjoining property, relative to the erection of a one-storey addition at the rear of No. 79, Queen's-crescent, at the corner of St. John's-gardens, Haverstock-hill, referred by the Board on the 23rd ultimo (No. 43). The flank addition referred to in the Letters is being erected beyond the general frontage line in St. John's-gardens. Your Committee agree in the opinion expressed by your Solicitor, that the attention of the Vestry should be called to the subject; and they recommend—

That the attention of the Vestry of St. Pancras be called to the matter, in order that, if necessary, they may have the line of frontage decided by the Superintending Architect, and take proceedings under the 75th Section of the Act 25 and 26 Vic., c. 102, and that the parties interested be informed of the course taken.

Your Committee have considered the Letter from the Vestry of Mile-end Old-town, stating that their Sanitary Committee had inspected five houses in Greenfield-street, and found that new buildings had been constructed which reduced the space at the rear thereof to 105 superficial feet, and suggesting that if the law was insufficient to prevent the building on inadequate sites, and thus not to provide proper ventilation, a Bill should be introduced into Parliament to deal with such cases, referred by the Board on the 23rd ultimo (No. 30). Your Committee have had before them Reports by your Solicitor and your Superintending Architect, from which it appears that, the buildings having been erected upon old foundations, the space given is in accordance with the Building Act. Your Committee have instructed your Superintending Architect to make a note of the case, with a view to legislation at some future time, and they recommend—

That the substance of the Solicitor's and Superintending Architect's Reports on the subject be communicated to the Vestry of Mile-end Old-town in reply to their Letter, and that the Vestry be informed that a Memorandum of the case has been made with a view to future legislation.

Your Committee have also considered the Letter from the Plumstead District Board, calling attention to the erection of a barrier across Brewery-road, Plumstead, and asking the Board to take such proceedings as they may deem advisable, referred by the Board on the 23rd October last (No. 14). The Board on the 13th November last instructed their Solicitor to serve a Penal Notice upon the builder, and to apply for

a Summons, if necessary. Your Solicitor has received a Letter from the District Board, stating that the person who erected the fence has left the neighbourhood. Your Committee concur in the opinion expressed by your Solicitor, that no further proceedings should be taken under the circumstances, and they recommend accordingly.

Your Committee have considered the Letter from Mr. S. M. Bellenger, relative to the formation of a mews at the rear of houses on the North side of Uxbridge-road, Hammersmith, contrary to the Resolution of the Board of the 22nd May last, referred by the Board on the 16th October last (No. 53). The Board, on the 30th October last, instructed their Solicitor to serve a Penal Notice upon the builder, and to apply for a Summons, if necessary. It appears from enquiries made that the builder is simply making an addition to a carriage-factory belonging to a Mr. Atlee, and your Solicitor is of opinion that it is not desirable to continue the proceedings. Your Committee, concurring in that view, recommend—

That no further action be taken in the matter, and that Mr. Bellenger be so informed.

Your Committee have considered the Letter from Mr. H. Jarvis, District Surveyor for Camberwell, stating that the erection of houses in a new street leading out of Acorn-place, Peckham, was being proceeded with, although the Plan for the formation of the street had not been sanctioned by the Board, referred by the Board on the 19th December, 1884 (No. 69). The Board on the 9th January, 1885, instructed their Solicitor to take the necessary proceedings, and he obtained a conviction against the builder, who gave notice of appeal, but has not proceeded with the special case. Your Solicitor is of opinion that it is not advisable to proceed for continuing penalties, having regard to the decision of the Judges in the recent case of “the Board *v.* Nathan.” Your Committee, concur in that opinion, and they have given directions that a note of the case shall be made with a view to legislation at some future time. They recommend—

That no further action be taken in the matter, and that Mr. Jarvis be so informed.

Your Committee have considered the application of Mr. R. Cruwys, for approval by the Board of an amended Plan for the formation and names of roads to lead out of Milkwood-road, Herne-hill, Lambeth, referred by the Board on the 16th October last (No. 47). The Board, on the 30th October last, granted the application, on condition that the Solicitor was satisfied as to the ownership of the land. Your Solicitor has reported that possession of a portion of the land required for the formation of one of the outlets of the roads cannot be obtained for a period of five years. Under these circumstances your Committee recommend—

That the application be not granted.

Your Committee have considered the Letter from Mr. A. Bovill, District Surveyor for North St. Pancras, relative to the formation, by Mr. S. Hensby, of a mews leading out of the North-East side of Colva-street, Highgate-new-town, without the approval of the Board, referred by the Board on the 8th instant (No. 68). It appears from your Solicitor's Report that the site in question was, in 1880, occupied by old stables which Mr. Hensby stated it was necessary to pull down and re-build. Your Committee agree in the opinion expressed by your Solicitor that it is a case in which proceedings are unnecessary, and they recommend—

That no action be taken in the matter, and that Mr. Bovill be so informed.

The Board, on Friday last (No. 42), referred to your Committee a Letter from Mr. E. Taylor, stating that it was his intention to proceed with the erection of a house in Acre-lane, Brixton, in accordance with his building Agreement. The Board have not sanctioned the erection of the building referred to, and your Committee concur in the opinion expressed by your Solicitor, that the attention of the Lambeth Vestry should be drawn to the matter, in order that they may be able to take proceedings if they think it advisable; and your Committee recommend—

That the attention of the Vestry of Lambeth be called to the matter, in order that, if necessary, they may have the line of frontage decided by the Superintending Architect, and take proceedings under the 75th Section of the Act 25 and 26 Vict., c. 102.

Your Committee have considered the Letter from Mr. J. Lidiard, stating that the District Surveyor had issued a Summons against the builder for the removal of a temporary building erected in Oldridge-road, Clapham, for an Athletic Club, and asking permission to attend the Building Act Committee and explain the matter, referred by the Board on the 8th instant (No. 41). The Board, in May last, granted their sanction to the erection and the retention of the building for a period of two years, and a License was accepted upon the usual conditions. The building differs very materially from the Drawings which were approved by the Board, particularly in reference to the construction of the roof; and the District Surveyor accordingly instituted proceedings against the builder. Your Committee, having received Mr. Lidiard, and heard his explanation, see no reason to interfere, and they recommend—

That no action be taken by the Board in the matter, and that Mr. Lidiard be so informed.

Your Committee have had under consideration the Memorial from certain Freeholders and Owners of land in Upper Paget-road, Plumstead, relative to the erection of a Chapel and School buildings on the North side of Herbert-road, at the corner of Upper Paget-road, alleged to be in advance of the general line of buildings in the last-mentioned road, referred by the Board on the 8th instant (No. 67). The buildings referred to by the Memorialists have not yet been commenced, but preparations are being made for their erection. Portions of the buildings will be in advance of the frontage line in Upper Paget-road, but there will be no infringement of the line in Herbert-road. Your Committee having received explanations from the parties interested, and having examined Plans of the proposed buildings, recommend—

That no action be taken in the matter, and that the Memorialists and the Plumstead District Board be so informed.

Your Committee have to report that they have had under consideration the application of Messrs. Baker and Sons, for approval by the Board of an amended Plan for the formation of roads to lead out of Fortune-green-lane, Hampstead, referred by the Board on Friday last (No. 52). The Board, on the 30th October last, declined to approve of the formation of roads upon the Estate. The present Plan shows additional outlets, and the Vestry of Hampstead approve of the proposal. Your Committee recommend—

That the application be granted, upon condition that no barriers be at any time erected, or other obstructions caused to the free use by the public of the roads, and that the names "Agamemnon-road, N.W.," "Ajax-road, N.W.," "Ulysses-road, N.W.," and "Achilles-road, N.W.," be approved for the same, and upon the further condition that the applicants do satisfy the Solicitor of the Board as to their ownership of the land required for access to Hillfield-road and Child's-hill.

Your Committee have considered the application of Messrs. Walker and Runtz, on behalf of Mr. T. Arno, for the consent of the Board to the erection of shops at the corner of Truman's-place and Salcombe-road, Stoke Newington, to the line shown upon the Plan accompanying the application, referred by the Board on Friday last (No. 39). The proposed shops will be brought out to the line of forecourts in Salcombe-road and Pellerin-road. The thoroughfares are 40 feet in width, and your Committee having received explanations from the applicants, are of opinion that the Plan may be sanctioned by the Board. The Hackney District Board opposed the application, but failed to attend before your Committee, and explain their objections. Your Committee recommend—

That the application be granted, upon condition that the shops therein referred to be erected in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. H. W. Perrers, on behalf of

Mr. C. Watkins, for approval by the Board of a Plan for the formation and name of a road to lead out of the South side of Lower Richmond-road, Putney, referred by the Board on the 18th December last (No. 68). The Wandsworth District Board object to the application, on account of the narrowness of Biggs-row. Your Committee are informed by the applicant that the freeholders have not yet sanctioned any Plan for plotting the ground, and, under those circumstances, your Committee recommend—

That the application be not granted.

Your Committee have also considered the application of Messrs. J. and F. Drake, on behalf of Mr. J. A. Rolls, M.P., for the consent of the Board to the erection of four houses in Coburg-road, Old Kent-road, to the line shown upon the Plan accompanying the application, referred by the Board on the 8th instant (No. 47). The houses will be erected so as to leave forecourts 10 feet deep, and bay-windows will be constructed in front, projecting 2 feet 6 inches beyond the main wall. The Vestry of Camberwell approve of the application, and your Committee recommend—

That the application, be granted, upon condition that the erection of the houses therein referred to be commenced within Six months, and be completed within Eighteen months, from the 22nd instant, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. H. Shaw, on behalf of Mr. H. S. Vandeleur, for the consent of the Board to the erection of an enclosed portico upon a portion of the forecourt of No. 46, Cadogan-square, Chelsea, to the line shown upon the Plan accompanying the application, referred by the Board on the 8th instant (No. 49). The portico is proposed to be enclosed in a similar manner to the portico at No. 42, Cadogan-square, and will project 8 feet in advance of the houses in this part of the Square. Your Committee recommend—

That the application be granted, upon condition that the erection of the portico therein referred to be commenced within Six months, and be completed within Eighteen months, from the 22nd instant, and that in other respects the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. J. Owen, on behalf of Messrs. Parry and Jones, for the permission of the Board to retain a projecting porch and barge-boards recently erected at the Welsh Chapel in Southerton-road, Hammer-smith, as shown on the Plan accompanying the application, referred by the Board on the 8th instant (No. 50). The barge-boards are 12 inches in width, and project 6 inches from the face of the wall. Most of the houses in the road have bay-windows projecting to about the extent of the proposed porch. Your Committee see no objection to the barge-boards remaining, and they recommend—

That the application be granted, upon condition that the erections be in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered without the consent of this Board.

Your Committee have also considered the application of Mr. J. E. Sears, on behalf of Mr. H. J. Kimbell, for the consent of the Board to the erection of a one-storey shop upon a portion of the forecourt of No. 381, Hornsey-road, Islington, to the line shown upon the amended Plan accompanying the application, referred by the Board on the 8th instant (No. 52). The Board, on the 7th August last, refused their consent to the erection of two one-storey shops upon portions of the forecourts of Nos. 379 and 381, Hornsey-road. The amended Plan submitted by the applicant shows a one-storey shop in front of No. 381, brought out to a line set back 4 feet from the public way, and it is also proposed to surrender a small piece of ground to the public way. Your Committee consider the proposal objectionable, and they recommend—

That the application be not granted.

The Board, on the 8th instant (No. 55), referred to your Committee the application of Mr. T. W. Adams, on behalf of Mr. C. R. Camp, for approval by the Board of a

Plan for the construction of a temporary wood and iron building at the rear of No. 28, Marlborough-road, Old Kent-road. It is proposed to erect the building at the rear of the premises, within 8 feet of the house and 2 feet 6 inches of the adjoining property. Your Committee consider it undesirable for the Board to sanction the erection of a building of this nature in such close proximity to dwellings, and they recommend—

That the application be not granted.

Your Committee have considered the application of Mr. W. H. Grist, on behalf of the Minister and Deacons of the Rectory-road Congregational Church, for the permission of the Board to retain, for a further period, the temporary wood and iron Church erected at the corner of Rectory-road and Evering-road, Stoke Newington, referred by the Board on the 8th instant (No. 56). The building was first approved by the Board in the year 1881, and an extension of the Board's approval was granted for two years from November, 1883. Application is now made for a further extension of two years. The District Surveyor states that the building is in a good and substantial condition. Your Committee recommend—

That the application be granted for a period of two years from the 22nd instant, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

Your Committee have considered the application of Mr. J. C. Humphreys, on behalf of the Rev. F. C. Beckley, for approval by the Board of a Plan for the construction of a temporary wood and iron Mission-room at the rear of St. Patrick's Church in Greenbank, Wapping, referred by the Board on the 8th instant (No. 57). The building will be 40 feet by 20 feet, and 8 feet high to the eaves, and will be erected on ground belonging to and adjoining St. Patrick's Church. The construction is that usually adopted in erections of this description, and your Committee recommend—

That the application be granted for a period of two years from the 22nd instant, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building, and that the whole of the work be executed to the satisfaction of the District Surveyor.

The Board on the 8th instant (No. 59), referred to your Committee the application of Messrs. Hemming and Co., for the permission of the Board to retain, for a further period, the temporary wood and iron building erected upon land adjoining the North London Railway, in Morville-street, Bow. The Board on the 2nd November, 1883, granted their approval of the building for a period of two years. The applicant now desires a renewal of the License. The District Surveyor states that the building is in a good and substantial condition. Your Committee recommend—

That the application be granted for a period of two years from the 22nd instant, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

Your Committee have considered the application of Mr. L. Denchfield, for the consent of the Board to the erection of an addition to No. 21, Lower Woolwich-road, to the line shown upon the Plan accompanying the application, referred by the Board on Friday last (No. 38). The shops, although 5 feet in advance of the adjoining buildings to the Westward, will be in a line with the shops East and West, at the corner of Aldburgh-street and Horn-lane. The Greenwich District Board offer no objection. Your Committee recommend—

That the application be granted, upon condition that the erection of the addition therein referred to be commenced within Six months, and be completed within Eighteen months from the 22nd instant, and also upon condition that the erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of the Rev. C. H. Simpkinson, for the permission of the Board to retain, for a further period, the temporary wood and iron Mission-hall, erected in connection with Holy Trinity Church, at Blackheath-hill, referred by the Board on Friday last (No. 50). The Board on the 30th November,

1883, granted their approval of the building for a period of two years. The District Surveyor reports that the structure is in a sound condition. Your Committee recommend—

That the application be granted, for a period of two years from the 22nd instant, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

Your Committee have also considered the application of Mr. T. Williams, District Surveyor for the District of Bermondsey and St. John, St. Olave and St. Thomas, Southwark, for the Board's sanction to the removal of his District Office from No. 4, Bermondsey-square to No. 15, Railway Approach, London Bridge, referred by the Board on Friday last (No. 61). The District Surveyor's present office is about to be removed by the Board for the purposes of the Star-corner Improvement, and he states that he can find no suitable office except at Railway Approach, which is situated at the North-West boundary of his District. Your Committee recommend—

That the application be granted.

All which your Committee beg to submit.

(Signed)

A. EWIN,
W. R. SELWAY,
FRANCIS H. FOWLER,
JOHN RUNTZ,
WM. SHEPHERD.

The draft Bye-laws, submitted with the Report, were laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Justices of Surrey be informed that the works required by the Board to be done to the Canterbury Music-hall, Westminster-bridge-road, have been completed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That, inasmuch as the Owners of the Helvetia Music-hall (late Hibernian Stores), Nos. 6 and 7, Old Compton-street, Soho, have not submitted any detailed observations upon the Board's Requisitions with respect to the structural defects of the building, a sealed Notice, containing the following Requisitions, being the same as those contained in the draft Notice, be served upon them—

1.—That a brick wall, 9 inches thick without openings, be built on the West side of the entrance vestibule on the ground floor, to divide such vestibule from the private bar of the Public-house adjoining to the Westward, and that the window between the private bar and the staircase to the upper rooms of the Public-house be stopped up with brickwork the full thickness of the wall in which such window is situate.

2.—That the floor of the entrance vestibule and the staircase-hall adjoining be constructed of fire-resisting materials to be approved by the Board.

3.—That the wooden staircase between the ground floor and the first floor of the Public-house be removed, and be re-placed by a stone staircase not less than 4 feet wide; that such staircase do have solid "square" (as distinguished from "spandrel") steps of York or other approved stone, with 11-inch treads and 6-inch risers, not less than 4 feet wide in the clear; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be not less than 4 feet wide and 6 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches 9 inches thick, in two half-

brick rims, or constructed of other fire-resisting materials to be approved by the Board.

4.—That the floor of the Hall and of the passage-way at the rear be constructed of fire-resisting materials to be approved by the Board.

5.—That the door-way at the South-West angle of the passage-way at the rear of the Hall be stopped up with brickwork the full thickness of the wall in which such door-way is situated.

6.—That the floors of so much of the rooms on the second floor of the Public-house as extend over the Hall and the passage-way adjoining, be formed of fire-resisting materials to be approved by the Board.

7.—That the skylights at the rear of the buildings be protected by stout galvanised iron wire guards fixed on the outside.

8.—That all door-ways used by the public be increased in width to 4 feet 6 inches, and that the doors be made to open outwards.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Notice, embodying the above requirements, and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same; and that, upon the receipt of such consent, the Notice be sealed, and be served by the Solicitor upon the Owners of the Hall.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Justices of Middlesex be informed that the works required by the Board to be done to the Metropolitan Music-hall, Edgware-road, have been completed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Justices of Middlesex be informed that the works required by the Board to be done to the Seabright Palace of Varieties (otherwise the Belmont Music-hall), Hill-street, Gloucester-street, Hackney-road, have been completed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Justices of Middlesex be informed that the works required by the Board to be done to the Wellington Hall, Wellington-street, Islington, have been completed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Solicitor be instructed to take proceedings against the person or persons who are keeping open the Portland Hall, formerly the Portland Bazaar, Langham-place, St. Marylebone, as a place of public entertainment, without having previously obtained the Certificate of the Board, pursuant to the Metropolis Management and Building Acts Amendment Act, 1878, for the recovery of the penalties prescribed by the Twelfth Section of such Act.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owners of the party-wall between Nos. 287 and 289, New-cross-road, Deptford, had failed to comply with the Orders made by Robert Henry Bullock Marsham, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Greenwich Police-court, on the 15th day of October last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolve, and it is hereby *resolved* and *ordered*, on the motion of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed, and they are hereby authorised to take down the defective portion of the party-wall between Nos. 287 and 289, New-cross-road, Deptford.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, and it being made to appear,

to the Board that the Owner of the Structure, No. 6, Myrdle-street, Mile-end Old-town, had failed to comply with the Order made by Franklin Lushington, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Thames Police-court, on the 18th day of December last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed, and they are authorised, to take down so much of the front wall and the chimney-stack of the Structure, No. 6, Myrdle-street, Mile-end Old-town, as is bulged, defective, and out of the perpendicular.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That, subject to confirmation of the same by the Secretary of State for the Home Department, the following Bye-laws be made under the provisions of the Metropolis Management and Building Acts Amendment Act, 1878—

METROPOLIS MANAGEMENT AND BUILDING ACTS AMENDMENT ACT, 1878, SEC. 16.

ADDENDA TO BYE-LAWS.

2A.—*Description and Quality of the substance of Walls.*

Whenever concrete is used in the construction of walls, the concrete shall be composed of Portland cement and of clean Thames or Pit ballast, or gravel, or broken brick or stone, or furnace clinkers, with clean sand in the following proportions, viz., one part of Portland cement, two parts of clean sand, and three parts of the coarse material, which is to be broken up sufficiently small to pass through a two-inch ring.

The proportions of the materials to be strictly observed, and to be ascertained by careful admeasurement; and the mixing either by machine or hand to be most carefully done with clean water, and, if mixed by hand, the material to be turned over dry before the water is added.

The walls to be carried up regularly and in parallel frames of equal height, and the surface of the concrete filled in, the frame to be left rough and uneven to form a key for the next frame of concrete.

The thicknesses of concrete walls to be equal at the least to the thicknesses for walls to be constructed of brick-work prescribed by the 12th Section in the First Schedule of the Metropolitan Building Act, 1855.

Such portions of concrete party-walls and chimney-stacks as are carried above the roofs of buildings to be rendered externally with Portland cement.

3A.—*Duties of District Surveyors.*

It shall be the duty of each District Surveyor on receiving notice of the commencement of any house, building, or other erection, or of any alteration or addition, or on his becoming aware that any house, building, or other erection, or any alteration or addition is being proceeded with, to see that the provisions of the foregoing Bye-laws are duly observed (except in cases where the Board may have dispensed with the observance thereof), and to see that the terms and conditions upon which any dispensation may have been granted are complied with.

4A.—*Fees to be paid to District Surveyors.*

There shall be paid to the District Surveyor, in respect of his supervision of every building constructed wholly or in part with concrete walls, a fee one-half more in amount than the fee to which he would be entitled under the Building Act for new buildings or additions. No additional fee is, however, to be charged in respect of any alteration to a concrete building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That application be made to the Secretary of State for the Home Department, to confirm the foregoing Bye-laws, as required by the Act; that the said Bye-laws and notice of the Board's intention to apply for confirmation of the same, be advertised, and that copies of the Bye-laws and notice be delivered at the Offices of the Royal Institute of British Architects and the Institution of Surveyors, as required by the 16th Section of the Act of 1878.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. O. Parker, for the consent of the Board to the re-erection of buildings on the North side of Abbey-street, between Neckinger-street and Parker's-row, Bermondsey, to the line shown upon the amended Plan accompanying the application, be granted, upon condition that the re-erection of the buildings therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the frontage of the proposed building at the corner of Parker's-row be set back to the Western side of the canted angle of the "Prince of Teck" Beer-shop; that the land coloured Pink on the Plan be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no action be taken by the Board with reference to the Letter from Mr. T. Williams, District Surveyor, as to an iron pent roof recently erected in front of No. 188, Southwark-park-road, Bermondsey, without the consent of the Board, and that Mr. Williams be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the Letters from the District Surveyor for West St. Pancras, and an Owner of adjoining property, as to the erection of a one-storey addition at the rear of No. 79, Queen's-crescent, at the corner of St. John's-gardens, Haverstock-hill, be approved, and that the attention of the Vestry of St. Pancras be called to the matter, in order that, if necessary, they may have the line of frontage decided by the Superintending Architect, and take proceedings under the 75th Section of the Act 25 and 26 Vic., c. 102, and that the parties interested be informed of the course taken.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the Letter from the Vestry of Mile-end Old-town, with respect to five houses erected in Greenfield-street, with a reduced space at the rear thereof be approved; that the substance of the Solicitor's and the Superintending Architect's Reports on the subject be communicated to the Vestry, and that they be informed that a memorandum of the case has been made with a view to future legislation.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no further action be taken with reference to the Letter from the Plumstead District Board, as to the erection of a barrier across Brewery-road, Plumstead.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no further action be taken with reference to the Letter from Mr. S. M. Bellinger, as to the formation of a mews at the rear of houses on the North side of Uxbridge-road, Hammersmith, contrary to the Resolution of the Board of the 22nd May last, and that Mr. Bellinger be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no further action be taken with reference to the Letter from Mr. H. Jarvis, District Surveyor, as to the erection of houses in a new street leading out of Acorn-place, Peckham, notwithstanding that the Plan for the formation of the street had not been sanctioned, and that Mr. Jarvis be so informed in reply to his Letter.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. R. Cruwys, for approval by the Board of an amended Plan for the formation and names of roads to lead out of Milkwood-road, Herne-hill, Lambeth, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no action be taken with reference to the Letter from Mr. A. Bovill, District Surveyor, as to the formation,

by Mr. S. Hensby, of a mews leading out of the North-East side of Colva-street, Highgate New-town, without the approval of the Board, and that Mr. Bovill be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the Letter from Mr. E. Taylor, stating that it is his intention to proceed with the erection of a house at Acre-lane, Brixton, in accordance with his building Agreement, be approved, and that the attention of the Vestry of Lambeth be called to the case, in order that, if necessary, they may have the line of frontage decided by the Superintending Architect, and take proceedings under the 75th Section of the Act 25 and 26 Vict., c. 102.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no action be taken with reference to the Letter from Mr. J. Lidiard, stating that the District Surveyor had taken out a Summons against the builder for the removal of a temporary building erected in Oldridge-road, Clapham, for an Athletic Club, and that Mr. Lidiard be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no action be taken with reference to the Memorial from Freeholders and Owners of land in Upper Paget-road, Plumstead, relative to the erection of a Chapel and School buildings on the North side of Herbert-road, at the corner of Upper Paget-road, alleged to be in advance of the general line of buildings in the last-mentioned road, and that the Memorialists and the Plumstead District Board be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Baker and Sons, for approval by the Board of an amended Plan for the formation of roads to lead out of Fortune-green-lane, Hampstead, be granted, upon condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the said roads, and that the names “Agamemnon-road, N.W.,” “Ajax-road, N.W.,” “Ulysses-road, N.W.,” and “Achilles-road, N.W.,” be approved for the same, and also upon condition that the applicants do satisfy the Solicitor of the Board as to their ownership of the land required for access to Hillfield-road and Child's-hill.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Walker and Runtz, on behalf of Mr. T. Arno, for the consent of the Board to the erection of shops at the corner of Truman's-place and Salcombe-road, Stoke Newington, to the line shown upon the Plan accompanying the application, be granted, upon condition that the erection of the shops therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that they be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. H. W. Perrers, on behalf of Mr. C. Watkins, for approval by the Board of a Plan for the formation and name of a road to lead out of the South side of Lower Richmond-road, Putney, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. J. and F. Drake, on behalf of Mr. J. A. Rolls, M.P., for the consent of the Board to the erection of four houses in Coburg-road, Old Kent-road, to the line shown upon the Plan accompanying the application, be granted, upon condition that the erection of the houses therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. H. Shaw, on behalf of Mr. H. S. Vandeleur, for the consent of the Board to the erection of an enclosed portico upon a portion of the forecourt of No. 46, Cadogan-square, Chelsea, to the line shown upon the Plan accompanying the application, be granted,

upon condition that the erection of the portico therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that in other respects the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. Owen, on behalf of Messrs. Parry and Jones, for the permission of the Board to retain a projecting porch and barge-boards recently erected at the Welsh Chapel in Southerton-road, Hammersmith, as shown on the Plan accompanying the application, be granted, upon condition that the erections be in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. E. Sears, on behalf of Mr. H. J. Kimbell, for the consent of the Board to the erection of a one-storey shop upon a portion of the forecourt of No. 381, Hornsey-road, Islington, to the line shown upon the amended Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, and seconded by Mr. Shepherd—That the application of Mr. T. W. Adams, on behalf of Mr. C. R. Camp, for approval by the Board of a Plan for the construction of a temporary wood and iron building at the rear of No. 28, Marlborough-road, Old Kent-road, be not granted.

An amendment thereon was *moved* by Mr. Dresser Rogers, and seconded by Mr. Middlemass—That the subject be referred back to the Committee, for further consideration and report, and that the applicant be requested to attend the Committee.

The amendment having been put to the vote, there were for it 4, against it 15, and it was declared by the Chairman to be lost.

The original motion was then put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. W. H. Grist, on behalf of the Minister and Deacons of the Rectory-road Congregational Church, for the permission of the Board to retain, for a further period, the temporary wood and iron Church erected at the corner of Rectory-road and Evering-road, Stoke Newington, be granted for a period of Two years from this date, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. C. Humphreys, on behalf of the Rev. F. C. Beckley, for approval by the Board of a Plan for the construction of a temporary wood and iron Mission-room at the rear of St. Patrick's Church in Green-bank, Wapping, be granted for a period of Two years from this date upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building, and that the whole of the work be executed to the satisfaction of the District Surveyor.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Hemming and Co., for the permission of the Board to retain, for a further period, the temporary wood and iron building erected upon land adjoining the North London Railway, in Morville-street, Bow, be granted for a period of Two years, from this date upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. L. Denchfield, for the consent of the Board to the erection of a two-storey addition to No. 21, Lower Woolwich-road, to the line shown upon the Plan accompanying the application, be granted, upon condition that the erection of the additions therein referred to, be commenced within Six months, and be completed within Eighteen

months from this date, and also upon condition that the erections be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of the Rev. C. H. Simpkinson, for the permission of the Board to retain, for a further period, the temporary wood and iron Mission-hall, erected in connection with Holy Trinity Church, at Blackheath-hill, be granted, for a period of Two years, from this date, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. T. Williams, District Surveyor for the District of Bermondsey and St. John, St. Olave and St. Thomas, Southwark, for approval by the Board of the removal of his District Office from No. 4, Bermondsey-square, to No. 15, Railway Approach, London Bridge, be complied with.

9. Mr. Selway, the Chairman of the Parliamentary Committee, brought up a Report, as follows—

REPORT OF THE PARLIAMENTARY COMMITTEE.

Spring-gardens, 20th January, 1886.

Your Committee have to report that the Solicitors of the Surrey Commercial Docks Company, have asked whether the Board will consent to the exemption of the Company's docks from the operation of the Board's Bill to regulate the stacking of Firewood. It appears to your Committee that the precautions taken by the docks Companies against fire on their premises are probably as effective for the purpose as any arrangement which might be required by Regulations to be made by the Board; and if this be so, your Committee see no objection to the Surrey Commercial Docks Company being exempted from the operation of the Bill about to be introduced into Parliament by the Board. Your Committee therefore recommend—

That such exemption be agreed to.

Your Committee have not yet had before them your Engineer's Report on the Bills and Plans, for new works in the Metropolis, which have been deposited with a view to obtaining the sanction of Parliament thereto in the present session. Your Solicitor has however looked into some of the Bills, and has called attention to several of them against which it appears to him that it will be necessary for the Board to petition with a view either to opposition being offered on the Preamble, or to Clauses being inserted for the protection of the Board's interests. Your Committee accordingly recommend—

That Petitions be presented against the following Bills—

London, Brighton and South Coast Railway Bill.

Horse Guards-avenue Bill.

South Kensington and Knightsbridge and Marble Arch and Knightsbridge Subways Bill.

South-Eastern Railway Bill.

The Metropolitan Markets Bill, is introduced by the Corporation of London, and has reference to the Markets under the jurisdiction of that body. It does not appear to contain any provisions which the Board need oppose, and your Committee recommend—

That no action be taken upon it.

All which your Committee beg to submit.

(Signed)

W. R. SELWAY,
FRANCIS. H. FOWLER,
GEO. EDWARDS,
JOHN TOLHURST,
GEO. PHILLIPS,
ROBT. JONES,
JOHN RUNTZ.

The Report having been read and received,

It was *moved* by Mr. Selway, seconded, and *resolved*—That the Surrey Commercial Docks be exempted from the operation of the Board's Bill to regulate the stacking of Firewood.

It was *moved* by Mr. Selway, seconded, and *resolved*—That a Petition be presented against the London, Brighton and South Coast Railway Bill.

It was *moved* by Mr. Selway, seconded, and *resolved*—That a Petition be presented against the Horse Guard's-avenue Bill.

It was *moved* by Mr. Selway, seconded, and *resolved*—That a Petition be presented against the South Kensington and Knightsbridge and Marble Arch and Knightsbridge Subways Bill.

It was *moved* by Mr. Selway, seconded by Mr. Shepherd, and *resolved*—That a Petition be presented against the South-Eastern Railway Bill.

It was *moved* by Mr. Selway, seconded, and *resolved*—That no action be taken by the Board with reference to the Metropolitan Markets Bill.

10. It was *moved* by Mr. Selway, seconded by Mr. Harben, and *resolved*—That the *motion* by Mr. Fowler, notice of which appears in the paper of business, be now considered.

It was then *moved* by Mr. Fowler, and seconded by Mr. Selway—That the question of an extension of the term of the London Coal Duties be referred to the Works and General Purposes Committee for consideration and report, and that the Committee be authorised to confer with Her Majesty's Government and with the City Corporation on the subject; that the Committee do also report whether, 'in view of the considerable increase of the Metropolitan Consolidated Rate which would follow on the cessation of the Coal Dues, it is expedient for the Board to undertake any further large Improvements until either the term of the Coal Dues shall have been extended, or some additional source of revenue other than increased direct taxation of householders shall have been place at the Board's disposal.

The *motion* having been put to the vote, it was declared by the Chairman to be carried; and it was *resolved* accordingly.

11. Read a Report by the Engineer, dated 22nd January, 1886, on the undermentioned Sewerage work proposed to be executed by the Hackney District Board—

LOCALITY OF WORK.	WORK APPLIED FOR.			REMARK.
	Length in feet.	Size.	Material.	
Mundford and Dudlington } Roads, Clapton ... }	627	12-inch	Pipe	Recommended as applied for.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the Hackney District Board be permitted to construct and execute the work in the manner therein recommended.

12. Read a Report by the Engineer, dated 22nd January, 1886, on an application by the Westminster District Board, for permission to stop up the undermentioned thoroughfares for the period and purpose therein mentioned, viz.—

Date of Application	Name of Street to be stopped up.	Object.	Time applied for.	Time recommended.	Streets through which traffic will be diverted.
1886. 19th Jan.	Millbank - street and Chapter-street	Paving	6 weeks	6 weeks	The routes shown upon the Plans accompanying the application.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the sanction of the Board be given, and the same is hereby given, to the closing of the thoroughfares in question by the Westminster District Board, for the purpose of executing paving work therein, for the period recommended by the Engineer, such sanction to date from the commencement of the work.

13. The Engineer laid before the Board his Report, dated 18th January, 1886, on the several Metropolitan Railway and other Schemes proposed to be submitted to Parliament in the Session of 1886.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Report be received; that it be printed and circulated among the Members of the Board; and that it be referred to the Works and General Purposes Committee and the Parliamentary Committee, for consideration, in connection with the several Bills to which it relates.

14. The Engineer presented a Report and Return, as follows—

Engineer's Department, Spring-gardens,
22nd January, 1886.

SPECIAL CLERKS OF WORKS.

In compliance with the Resolution of the Board of the 22nd May, 1874 (No. 22). I submit herewith a Return showing the names of the several Special Clerks of Works in the employ of the Board, the wages paid to them and the works upon which they are at present engaged.

(Signed) J. W. BAZALGETTE,
Engineer.

Boag, A.	3 3 0	Putney New Bridge.
Gooding, J.	3 3 0	
Sharpe, P.	3 3 0	Battersea (Temporary) Bridge, and removing Old Bridge.
Hewett, E., Sen.	2 2 0	General district works and the slopping and cleansing roads, &c., of the various Bridges under the control of the Board.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report and Return be received, and that they be printed and circulated among the Members of the Board.

15. It was moved by Mr. Shepherd, seconded by Mr. Harben, and resolved—That the Report by the Engineer, when prepared, on the Letter from the Vestry of Bermondsey, relative to proposed alterations to the Tidal culvert supplying certain Tanneries and other premises, at Neckinger, with water, be referred to the Works and General Purposes Committee, for consideration and report.
16. Read a Report by the Engineer, dated 22nd January, 1886, stating that the following quantities of Coal were required for use at the Abbey-mills Pumping Station—

				ESTIMATE.
1,000 Tons of Welsh Coal	...	...	...	£816 13 4
1,000 Tons of Tanfield Moor Coal	...	...	...	654 3 4
Total	...	...	...	<u>£1,470 16 8</u>

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the Coal be obtained accordingly, the cost thereof being charged to the General Working Account of the Board.

17. Read a Report by the Engineer, dated 22nd January, 1886, on a Letter from Mr. W. Jacomb, Engineer to the London and South-Western Railway Company, submitting for approval drawings of Bridges to be widened to carry the widened portions of the Railway over Upper Marsh, Park-place, and Mill-street, Lambeth; stating that the designs complied with the terms of the Acts (South-Western Railway Various Powers Act, 1883, and South-Western Railway Act, 1884), except that the span of Mill-street Bridge was made 37 feet in lieu of 30 feet, as provided by Section 16 of the Act of 1884; recommending that the Plans should be approved, and stating that should the Board desire to submit the Plans to the Vestry of Lambeth previously to approving the same, it would be necessary that the decision of the Vestry should be given not later than the 29th instant.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be received, and that the said Plans be approved.

18. Read a Report by the Engineer, dated 21st January, 1886, on a Letter from Mrs. C. Desgratoulet, applying for compensation for alleged loss of rent, and for expenses incurred in repairs to flooring, &c., consequent on the occasional flooding of the basements of her houses Nos. 162, 164, 166, 168 and 170, Tachbrook-street, Pimlico; stating that the floodings were chiefly due to the large quantities of water flowing, on occasions of heavy rain, into the main Sewer (the King's Scholars' Pond), into which the houses drained, the most recent flooding having occurred on the 26th November last; that since that date the new Sewer, which had been constructed by the Board for the purpose of relieving the King's Scholars' Pond to a great extent of the flood waters, and discharging them through a new outlet into the River, had been completed and was in operation; and recommending that Mrs. Desgratoulet should be informed of the remedial works, and that the Board could not admit any liability for her claim.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved and acted upon.

19. Read a Report by the Engineer, dated 22nd January, 1886, stating that Mr. J. S. Olver, a Surveyor on the temporary staff of his Department, had been absent from his duties since Christmas last in consequence of illness, that he had received one week's pay during that time, that he had been employed for the Board eight years, and recommending that he should be allowed a fortnight's further pay.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the recommendation of the Engineer be acted upon.

20. It was moved by Mr. Fowler, seconded, and resolved—That, pending the decision of the Board with respect to the future charge and maintenance of the new thoroughfare from Piccadilly-circus to New Oxford-street, the Engineer be authorised to give such

directions as may be necessary for the convenience and protection of the traffic passing through the same.

21. The Solicitor reported that the Board's Various Powers Bill, 1886, had been considered by the Examiner on Wednesday last, when the necessary proofs of compliance with the Standing Orders had been given, and that the Orders had been complied with.

22. The Solicitor reported that notices had been given in the House of Commons for the introduction of the undermentioned Bills—

Mr. Tatton Egerton,—Metropolitan Board of Works (Fire Brigade expenses)—Bill to amend the Law relating to the expenses of the Metropolitan Fire Brigade.

Sir James M^cGarel-Hogg,—Metropolitan Board of Works (Water supply, &c.),—Bill to confer further powers upon the Metropolitan Board of Works, with respect to the supply of Water.

Sir James M^cGarel-Hogg,—Metropolitan Board of Works (Keeping of Firewood)—Bill for the safe keeping of Firewood within the limits of the Metropolis.

Mr. Rider Cook,—Metropolitan Board of Works (Theatres, &c.),—Bill to confer further powers on the Metropolitan Board of Works for inspecting Theatres and Music-halls, and granting Certificates.

Mr. Dixon-Hartland,—Theatres, &c. (Metropolis),—Bill for the better regulation of Theatres and Music-halls in the Metropolis.

Mr. Dodds,—Waterworks Undertakings,—Bill to amend the Law relating to Rating and Waterworks Undertakings belonging to local authorities.

Mr. Dodds,—Public Health Acts (Private Improvement)—Bill to amend the Public Health Acts in relation to Private Improvement Expenses.

Mr. Burdett-Coutts,—Hampstead-heath (Enlargement),—Bill to enable and facilitate the enlargement of Hampstead-heath for purposes of public health and recreation.

Mr. Sellar,—Private Bill legislation,—Bill to amend the system of Private Bill legislation in the United Kingdom.

Sir Herbert Maxwell,—Explosives Substances Act (1883) Amendment,—Bill to amend the Explosives Substances Act, 1883.

Mr. Walter James,—Commons and Inclosure Acts Amendment,—Bill to amend the Commons and Inclosure Acts.

Mr. Dixon-Hartland,—Sanitation of Houses,—Bill for better Sanitation of Houses in the Metropolis.

23. The Solicitor reported that Sir Henry Tyler, M.P., had given notice that he would ask the following questions—

To ask the Secretary of State for the Home Department whether his attention has been drawn to the failures of Telegraph and Telephone wires, used overhead, in the recent snowstorm, and to the accidents which have been occasioned thereby.

Whether he will cause a return of these failures and these accidents to be prepared and presented to the House.

And whether he proposes to take any steps to prevent this constantly increasing danger to all persons using the streets of the Metropolis (Monday, 25th January).

It was *moved* by Mr. Shepherd, seconded by Mr. Robson, and *resolved*—That the Report of the Fire Brigade Committee, presented this day, on the subject of the interruption of the Fire-alarm circuits and the electric communication between Fire Brigade

stations, during the recent Snowstorm, be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the same subject.

24. The Solicitor reported that the following notice had been placed on the paper of the House of Commons by Mr. Charles Russell, M.P.—

Mr. Charles Russell—Rivers Pollution—To call attention to the operation of “The Rivers Pollution Prevention Act, 1876,” and the defects therein, with reference especially to the dangerous condition of the River Lee, and to move for the appointment of a Select Committee of this House to inquire into and report thereon with the view of amending the Law and devising a remedy (Tuesday, 9th February).

25. The Solicitor submitted a list of Memorials which had been presented against Bills in the second hundred on the list of Petitions for Private Bills, and which complained of non-compliance with Standing Orders.

26. The Solicitor presented the following documents for Sealing—

Lease to Messrs. Sage and Oxley of part of Plots, Nos. 8 and 9 in Gray’s-inn-road (Gray’s-inn-road Improvement).

Agreement, in duplicate, between the Trustees of the Will of Mr. T. Mason, deceased, and Mr. A. Flint, and the Board, for apportionment of rent in respect of Nos. 53, 55, 57 and 59, Green-street, Bethnal-green (Green-street, Bethnal-green Improvement).

Conveyance to the Board by Mr. S. J. Blackwell and Messrs. Crosse and Blackwell, of leasehold interests in part of No. 65, Crown-street, Soho, and a Memorial for the registration of the same (Charing-cross to Tottenham-court-road Improvement).

Conveyance by the Board to the East End Dwellings Company, Limited, of land in George-street and Thrawl-street, Spitalfields (known as Plot B), for the erection thereon of Artizans’ Dwellings (Flower and Dean-street area).

Lease to Mr. T. Pink, of Plot “B,” in Fox-court and Feather-court, Gray’s-inn-road (set apart by the Streets Act, 1877, and the Amendment Act of 1882, for the erection of Artizans’ Dwellings) (Gray’s-inn-road Improvement).

It was ~~moved~~ by Mr. Fowler, seconded, and ~~resolved~~—That the Common Seal of the Board be affixed to the said documents respectively; and the Seal was affixed accordingly.

27. The Clerk laid before the Board copies of the Orders of the Board of the 15th instant (No. 6), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

Clifton-road, &c., St. Paul, Deptford	...	...	...	Greenwich.
Woodpecker-lane, &c. do.	...	...	...	do.
Abinger-road, &c. do.	...	...	...	do.

It was ~~moved~~ by Mr. Fowler, seconded, and ~~resolved~~—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

28. The Clerk presented a Letter from Sir J. B. Monckton, Town Clerk of the City of London, dated 12th January, 1886, transmitting, by direction of the Corporation, a Medal commemorative of the opening of the new Council Chamber of the Guildhall.

It was ~~moved~~ by Mr. Fowler, seconded, and ~~resolved~~—That the Corporation be thanked for the Medal, and that it be placed in the Board’s Library.

29. The Clerk presented a Letter, as follows—

Wandsworth and Clapham Union.

Union Offices, St. John's-hill,
New Wandsworth, S.W.

15th January, 1886.

LOANS OF £13,776 AND £6,290.

SIR,—Referring to my Letter of the 17th November last, and to your reply, dated the 19th November last. I beg now to inform you that the Guardians have received the formal Order of the Local Government Board authorising the raising of the sums in question, a copy of which is now enclosed.

I also send you a certified copy of the several Resolutions passed by the Guardians agreeing to take up the Loans together with original Letter from the Local Government Board upon the subject.

With reference to the concluding portion of your Letter, dated the 19th November, stating that Plans and specifications are required. I have written to Mr. Aldwinkle, the Architect, asking him to forward to you direct the necessary particulars.

As this money is urgently required, in fact the current account has already been severely taxed to meet the payments to Contractors. I should be very glad if the necessary documents could be prepared, and approved, so that they may be finally signed at the Meeting of the Guardians to be held on the 28th instant.

It will be observed that in the copy of Resolution forwarded, reference is made to a sum of £3,500, I would explain that the borrowing of this sum has been deferred for the present.

I am, &c.,
(Signed) E. H. TAYLOR.
Clerk.

J. Wakefield, Esq.,
Metropolitan Board of Works, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor and the Accountant do report to the Committee thereon.

30. The Clerk presented a Letter from Mr. T. W. Ratcliff, Clerk to the Limehouse District Board, dated 13th January, 1886, stating that the attention of the District Board had been directed to the lately improved state of the main sewers running through their District, as regarded the escape of noxious gases from the ventilating gratings, expressing their great satisfaction at the beneficial result of the process adopted by this Board, and urging a continuance of the same.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee.

31. The Clerk presented a Memorial and Letter as follows—

Memorial of a Committee, as agents and representatives of the residents, owners and ratepayers of Clapham, asking the Board to oppose all Schemes for Tramways on Clapham-common and from thence to Balham and Tooting.

Letter from Mr. S. E. Lambert, President of the Tooting and District Ratepayers' Association, dated 16th January 1886, expressing approval of the establishment of Tramways from Clapham to Merton, and also a hope that the Board would give their consent to the Scheme.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Memorial and Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references, already made to them on the subjects to which they relate.

32. The Clerk presented a Letter from Mr. C. B. Harness, Managing Director of the Medical Battery Company, Limited, dated 16th January 1886, asking permission to use, for a few hours, an open space of ground belonging to the Board facing Crown-street

and Lichfield-street, near West-street, for the purpose of experimenting with their Hand Fire Extinguisher.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

- 33.** The Clerk presented a Letter from Messrs. Hicklin, Washington and Pasmore, dated 18th January, 1886, asking to be informed when the Board propose to receive Deputations against new Tramways, as they were instructed on behalf of several Deputations desirous of putting their views before the Board.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Messrs. Hicklin and Co. be informed that, if they will send in a written statement of the objections to the Tramways referred to, it shall be carefully considered, but that the Board do not think it necessary that the Deputations should attend.

- 34.** The Clerk presented a Letter from Mr. G. L. P. Eyre, dated 19th January, 1886, asking the Board to receive a Deputation of occupiers of property in the neighbourhood of Theobald's-road, to present a Memorial against the proposed new Tramways in that road.

It was *moved* by Mr. Fowler, and seconded by Mr. Edwards—That the said Deputation be received by the Board on Friday next, at Twelve o'clock at noon.

An *amendment* thereon was *moved* by Mr. Selway, and seconded by Mr. Webster—That Mr. Eyre be informed that if he will furnish the Board with a written statement of the points which the Deputation desire to bring under the Board's notice, the Board will consider the same, and decide as to the necessity for the attendance of the Deputation.

The *amendment* having been put to the vote, there were for it 6, against it 12, and it was declared by the Chairman to be lost.

The *original motion* was then put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

- 35.** The Clerk presented a Letter from Mr. J. G. Terry, dated 20th January, 1886, objecting to a Tramway being laid in Hemingford-road, Islington.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which it relates.

- 36.** The Clerk presented a Letter from Mr. G. Lushington, Home Office, dated 19th January, 1886, transmitting an instrument, under the hand of the Home Secretary, signifying his consent to the Board taking compulsorily certain land and premises in the Isle of Dogs, Poplar, in the occupation of the Merchant Shipping Company, for purposes connected with the Sewerage of the Metropolis.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration.

- 37.** The Clerk presented a Letter from Mr. G. Lushington, Home Office, dated 19th January, 1886, transmitting a printed copy of the Hampstead-heath Enlargement Bill, 1866, and requesting to be favoured with the Board's observations thereon, and to be informed whether the views of the various bodies alluded to in Section 4 had been ascertained.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter and Bill be referred to the Works and General Purposes Committee, for consideration and report.

- 38.** The Clerk presented a Letter from Mr. E. H. Molyneux, dated 18th January, 1886, relative to the proposed sale of Clissold-park, close to High-street, Stoke Newington, as a building Estate, and the desirability of securing the same as an open space for the

benefit of the public, and enquiring whether, in the event of the Board not being disposed to take up the matter as a whole, they would be prepared to contribute any, and what, amount towards the acquisition of the property for the purpose named.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

39. The Clerk presented a Letter, as follows—

Parish of St. George-in-the-East,
Guardians' Offices, Princes-street,
Old Gravel-lane, E.,
18th January, 1886.

To the Chairman and Members of the Metropolitan Board of Works.

GENTLEMEN,—I am directed by the Guardians of this Parish to apply to you for the Loan of Thirteen thousand eight hundred and fifty eight pounds, the sum of Eleven thousand pounds to be re-paid in 30 years, and the sum of Two thousand eight hundred and fifty-eight pounds to be re-paid in 10 years.

The Order of the Local Government Board authorising the Guardians borrowing the above-mentioned amount is enclosed.

I am, &c.,
(Signed) J. R. BROWNE.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

40. The Clerk presented a Memorial from Cyclists, residing in the neighbourhood of Finsbury-park, praying that Cyclists might be permitted to ride through certain portions of the Park.

It was *moved* by Mr. Runtz, seconded, and *resolved*—That the Memorialists be informed that the Board cannot accede to their application.

41. The Clerk presented a Letter from Mr. R. Fairbairn, dated 19th January, 1886, transmitting a copy of Resolutions passed at a meeting of working men of Rotherhithe, and a further Letter, dated 20th January, 1886, forwarding a Resolution passed at a meeting of Firewood dealers and cutters at Deptford, against the proposed Bill of the Board for regulating the stacking of Firewood.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letters be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject of the Bill to which they relate.

42. The Clerk presented a Letter, as follows—

School Board for London,
Victoria Embankment, W.C.,
22nd January, 1886.

LOAN £100,000.

SIR,—I am directed by the School Board for London to apply to the Metropolitan Board of Works and to ask that, having reference to Section 58 of the Elementary Education Act, 1870, they will advance to the School Board for London, a further sum of £100,000; the re-payment to be spread over 50 years.

I beg leave to forward an extract of the Minutes of the Board at which the Resolution to borrow the money was passed.

I also enclose a list of the Schools, together with the original consents of the Education Department, for the provision of which the money is required.

The Board propose to take up the money at the end of February.

I am, &c.,
(Signed) G. H. CROAD,
Clerk of the Board.

J. E. Wakefield, Esq.,
Clerk, Metropolitan Board of Works,
Spring-gardens, S.W.

The several documents referred to in the Letter were laid before the Board.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the Letter be referred to the Finance Committee, for consideration and report, and that the Solicitor, and the Accountant do report to the Committee thereon.

43. The Chemist laid before the Board his Return of the Testings made at the Gas testing Stations during the week ended on the 19th instant, as follows—

Company.	District.	Illuminating Power. (In Standard Sperm Candle.)			Sulphur. (Grains in 100 cubic feet of Gas)			Ammonia. (Grains in 100 cubic feet of Gas.)			Sulphuric Hydrogen.

The pressure of the Gas supplied by the Gas Light and Coke Company, as tested in Marylebone-road, N.W., on 13th January, 1886, at 9.15 p.m., was 2.3 inches.

44. CAMBERWELL.—Read a Report by the Superintending Architect, dated 18th January, 1886, on the application of Mr. G. S. Harrison, on behalf of Mr. T. Slowman, for the permission of the Board to retain a two-storey bay-window, recently erected in front of No. 5, Jardin-street, to the line shown upon the Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

45. CHELSEA.—Read a Report by the Superintending Architect, dated 18th January, 1886, on the application of Mr. C. W. Stephens, on behalf of Colonel Micklem, for the consent of the Board to the erection of a four-storey bay-window, a balcony, and a porch, at No. 36, Hans-place, to the line shown upon the Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be granted, subject to the condition that the several erections therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of the Board.

46. CLERKENWELL.—Read a Report by the Superintending Architect, dated 18th January, 1886, on the application of Messrs. Masters and Sons, on behalf of Mr. H. Phillips, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 24, Collier-street, Pentonville, to the line shown upon the Plan accompanying the application.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

47. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 4th January,

1886, on the application of Mr. G. Sherrin, on behalf of Mr. J. B. Carrington, for the consent of the Board to the erection of a conservatory at premises at the corner of Nutley-terrace and Netherhall-terrace, Fitzjohn's-avenue, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

48. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Mr. J. Mackland, on behalf of Messrs. Tompson Brothers, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 32, High-road, Kilburn, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the shop therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

49. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 4th January, 1886, on the application of Mr. J. W. Chapman, for the consent of the Board to the erection of one-storey shops on the forecourt of Nos. 260 and 262, High-road, Kilburn, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

50. ISLINGTON.—Read a Report by the Superintending Architect, dated 18th January, 1886, on the application of Messrs. Gardiner, Son and Theobald, on behalf of Messrs. Meux and Company, Limited, for the consent of the Board to the re-erection of the "Thatched House," Public-house, in Essex-road, to the line shown upon the amended Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

51. LEWISHAM.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Mr. F. G. Barstow, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 17, Devonshire-road, and of an addition at the rear, abutting upon David's-road, Forest-hill, to the lines shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

52. PLUMSTEAD.—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Mr. J. O. Cook, on behalf of Mr. G. Jacobs, for the consent of the Board to the re-erection of a one-storey detached shop on the forecourt of No. 8, Inverary-place, Slade-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the shop therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

53. ST. GEORGE-THE-MARTYR, SOUTHWARK.—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. F. Edwards, on behalf of the Lion Brewery Company, Limited, for the consent of the Board to the re-erection of the "Fishmongers' Arms" Public-house, in St. George's-road, to the line shown upon the further amended Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 54. ST. GEORGE-THE-MARTYR, SOUTHWARK.**—Read a Report by the Superintending Architect, dated 11th January, 1886, on the application of Messrs. J. Sprunt and Son, for the consent of the Board to the erection of two one-storey shops on the forecourts of Nos. 254 and 256, Old Kent-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the shops therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and also upon condition that, previously to the commencement of building operations, the space coloured Blue upon the Plan, be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 55. ST. JAMES', WESTMINSTER.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. R. H. Kerr, on behalf of Messrs. Stannard and Sons, for approval by the Board of the construction of a foot-bridge for connecting the two warehouses in Portland-mews, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the foot-bridge therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and also upon condition that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 56. ST. OLAVE, SOUTHWARK.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. H. Lafone, for the consent of the Board to the erection of a warehouse on the North-West side of Thomas-street, Horsleydown, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 57. WESTMINSTER.**—Read a Report by the Superintending Architect, dated 12th January, 1886, on the application of Mr. G. L. Cornish, on behalf of Mr. C. Richardson, for the consent of the Board to the erection of a conservatory in the garden adjoining No. 86, Vincent-square, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the conservatory therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 58. LEWISHAM.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. C. Prior, for approval by the Board of a Plan for the construction of a conservatory at the rear of premises known as "Hillside," at Dartmouth-park, Forest-hill.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 59. HACKNEY.**—Read a Report by the Superintending Architect, dated 18th January, 1886, on a Notice from Mr. C. Cheston, of his intention to form a deviation in the roads shown upon the amended Plan accompanying such Notice, to lead out of Southwold-road, Upper Clapton, the formation of which was originally approved by the Board on the 30th July, 1880 (No. 84).

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the amended Plan be approved, on condition that no barriers be at any time erected, or other obstructions caused to the free use by the public of the said roads.

60. LAMBETH.—Read a Report by the Superintending Architect, dated 13th January, 1886, on the application of Messrs. Williams and Rowe, for approval by the Board of a Plan for the formation of a road to lead out of Mayflower-road, Clapham-road, and of the name “Hemberton-road, S.W.” (in continuation) for the same.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the said road.

61. WANDSWORTH.—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Messrs. C. Kynoch and Co., for approval by the Board of a Plan for the formation and name of a road to lead out of the North side of High-street, Clapham.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee, when the subject shall be considered.

62. CHELSEA.—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of Messrs. Wilkins and Kent, for approval by the Board of a Plan for the construction of an open timber stage at the rear of No. 28, Ives-street.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

63. GREENWICH.—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of Messrs. Stock, Page and Stock, on behalf of Mr. Roberts, for approval by the Board of a Plan for the construction of open sheds in Sharratt-street, Canterbury-road, Hatcham.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

64. GREENWICH.—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of Mr. T. Dinwiddy, on behalf of the Governors of the Roan School for boys, for approval by the Board of a Plan for the construction of an open iron shed at East-hill.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

65. ST. GEORGE-THE-MARTYR, SOUTHWARK.—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of Mr. E. Yates, for approval by the Board of the erection of houses on the West side of Gaywood-street, with open spaces at the rear thereof, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

66. POPLAR.—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. J. Wells, for approval by the Board of the erection of a temporary Theatre of Varieties, in Bow-common-lane, Bromley-by-Bow, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

67. ST. GILES-IN-THE-FIELDS.—Read a Report by the Superintending Architect, dated 18th January, 1886, on the application of Mr. W. Simmons, on behalf of Mr. W. Robinson, for approval by the Board of a Plan for the construction of Offices at the rear of No. 63, Lincoln’s-inn-fields, with walls of Portland cement concrete.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, and that a License, with such conditions as to the quality and composition of the concrete, and other matters, as are contained in the form of License approved by the Board on the 28th November, 1879 (No. 6), be granted to the applicant.

- 68. LAMBETH (Lower Norwood).**—Read a Report by the Superintending Architect, dated 20th January, 1886, on a Letter from Mr. P. Hunter, District Surveyor, asking the Board, under the circumstances mentioned in his Letter, that his District might be re-named “West Norwood.”

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

- 69. CITY OF LONDON.**—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of Mr. H. Blake, on behalf of the Commissioners of Sewers of the City of London, for the appointment by the Board of Fees to Mr. Hyman Henry Collins, District Surveyor for the District of the Eastern Division of the City of London, in respect of services performed by him in surveying Dangerous Structures within that District.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That Fees amounting to Two pounds five shillings, as specified in the Accounts numbered 1 and 2, now presented to this Board, be paid to Mr. Hyman Henry Collins, the District Surveyor mentioned in such Accounts, in respect of services performed by him in surveying Dangerous Structures within the City of London.

- 70. BERMONDSEY.**—Read a Report by the Superintending Architect, dated 20th January, 1886, on the further amended application of Mr. L. R. Ford, for the permission of the Board to retain, for a period of Three months, the temporary wood and iron building recently erected at the rear of No. 29, Layard-road, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 71. FULHAM.**—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of Mr. A. Moseley, for approval by the Board of a Plan for the construction of a chimney-shaft at the Steam Laundry Works in Margravine-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

- 72. FULHAM.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. J. Edmeston, on behalf of the National Agricultural Hall Company, Limited, for approval by the Board of a proposed alteration in the position of the staircase, of the large Hall of the National Agricultural Hall, adjoining the Addison-road Railway Station, Hammersmith.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 73. HACKNEY.**—Read a Report by the Superintending Architect, dated 20th January, 1886, on the application of the Rev. R. S. Hassard, for the permission of the Board to retain, for a further period, the temporary wood and iron room, erected on land adjoining Holy Trinity Church, in Mayfield-road, Dalston.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 74. KENSINGTON.**—Read a Report by the Superintending Architect, dated 20th January, 1886, on the joint application of Mr. T. Verity and Mr. S. Chadwick, on behalf of Mr. J. C. Humphreys, for approval by the Board of certain modifications in the drawings for the re-construction of Humphreys' Hall, at Albert-gate, Knightsbridge, and the adaptation

of portions of the Sun Music-hall, adjoining, in connection therewith, as shown upon the Drawings accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

75. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 21st January, 1886, submitting, for the Seal of the Board, a License in respect of a temporary Mission-room erected at the corner of Sherriff-road, West-end-lane.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said License ; and the Seal was affixed accordingly.

76. The Superintending Architect presented a Report, dated 22nd January, 1886, on certain Railway and other Bills affecting the Metropolis, proposed to be submitted to Parliament in the Session of 1886.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Report be referred to the Works and General Purposes and Parliamentary Committees, for consideration, in connection with the references already made to them with regard to the Bills mentioned therein, and that the said Report be printed and circulated among the Members of the Board.

Adjourned until Friday next, the 29th instant,
at this Office, at Twelve o'clock at noon.

No. 4.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday, the 29th day of January, 1886**, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^cGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

1. The Minutes of the Meeting of the Board, held on the 22nd instant, were approved, and were signed by the Chairman, and by two other Members of the Board present at such Meeting.
2. A Deputation from residents in the neighbourhood of Bedford-row, introduced by Mr. Hill, and consisting of the following gentlemen, viz.—Mr. G. L. P. Eyre, Mr. E. Lloyd, Mr. W. E. Slaughter, Messrs. F. Jacob and Co., Mr. G. Stevens, Mr. J. G. Grellier, Mr. W. F. Waight, Mr. W. Wilkins, Mr. F. Covington, and Messrs. Walker, Martineau and Co., attended the Board, and presented a Memorial, which was read, as follows—

PETITION AGAINST PROPOSED NEW TRAMWAYS.

To the Honourable the Metropolitan Board of Works.

The humble Petition of the undersigned Owners, Lessees, and Occupiers of houses or shops and residents within the District of the Holborn Board of Works

SHEWETH AS FOLLOWS—

1.—Your Petitioners learn that application is about to be made to Parliament for powers to lay down and work certain lines of Tramway along Theobald's-road and Gray's-inn-road, within the District of the Holborn Board of Works.

2.—Your Petitioners are severally Owners, Lessees, or Occupiers or otherwise interested in houses and shops fronting or adjoining the road along which it is sought to lay down and work the said lines of Tramway, or are ratepayers or residents within the said District, and their addresses are placed opposite their respective signatures.

3.—Your Petitioners humbly object to the construction and working of the said proposed lines of Tramway, and allege that if the lines were allowed they would very much interfere with the access to their houses, shops and premises, and would cause obstruction and danger not only to themselves but to others using the said road.

4.—Your Petitioners further allege that if the said Tramways are laid down and worked your Petitioners will be much injured in their various businesses, and the working of the lines will be a source of great inconvenience to them.

5.—Your Petitioners also humbly submit that during the construction of the Tramways, and upon all occasions when it becomes necessary to repair the ways (which is of frequent occurrence), the ordinary traffic of the road is greatly hindered and at times altogether stopped. Such stoppages would cause serious losses to those of your Petitioners who use horses, vans, carts, and other vehicles for the purposes of their trade, and especially when such vans and carts have to be loaded and unloaded, which generally happens several times during the day.

6.—Your Petitioners further allege that there is at present ample carriage accommodation for the road and neighbourhood, there being a continuous supply of omnibuses at cheap fares along Holborn from early morning till late at night.

7.—Your Petitioners further allege that the traffic along Theobald's-road is at present very large, and to allow a Tramway to be laid there, which would monopolise the best part of the road, namely, the centre, would, in the opinion of your Petitioners, be such an addition to the traffic as to cause almost continuous blockages in that thoroughfare.

8.—Your Petitioners further allege that wherever Tramways are allowed they cause increased expense to the District generally by reason of their driving all the slow traffic to the sides of the road, thereby causing the sides to require more repair than they otherwise would do, the expense of which would have to be borne by the District.

9.—Your Petitioners also humbly submit that any advantage that could result to your Petitioners or to the public at large through the working of the said proposed lines of Tramway would be insufficient to justify the injury as well as additional expenses and inconvenience which would be caused to your Petitioners.

10.—Your Petitioners further submit that the Tramways proposed to be laid down and worked, are not introduced for the benefit of the public at large or your Petitioners, but simply for the purposes of private gain.

Your Petitioners therefore humbly pray that your Honourable Board will withhold its consent to the said Tramways being laid down in that part of the said road which is in the District of the Holborn Board of Works.

And your Petitioners will ever pray, &c.,

(Signed) G. L. P. EYRE,

1, John-street, Bedford-row,

Solicitor,

And 188 others.

The Deputation addressed the Board in support of the Memorial.

Mr. Hill handed in further Memorials, as follows—

PETITION IN OPPOSITION TO TRAMWAYS.

To the Honourable the Metropolitan Board of Works.

The humble Petition of the undersigned Owners, Lessees, Occupiers of houses or shops, and Residents within the District of the St. Giles' Board of Works,

SHewETH AS FOLLOWS,—

1.—Your Petitioners learn that application is about to be made to Parliament for powers to lay down and work lines of Tramway along Vernon-place, Bloomsbury-square, and Hart-street, in the Parish of St. George, Bloomsbury, within the District of the St. Giles' Board of Works.

2.—Your Petitioners are severally Owners and Occupiers, or otherwise interested in houses and shops fronting on the line of route where the proposed Tramways are intended

to be laid, or are ratepayers or residents within the District, and their addresses are placed opposite their signatures hereto.

3.—Your Petitioners humbly submit that they object to the construction and working of the proposed Tramways, and allege that if the lines were allowed to be laid they would very much interfere with the access to their premises as at present enjoyed, and would cause danger not only to themselves but to others using the road.

4.—Your Petitioners further allege that if the said Tramways are laid down and worked, your Petitioners will be much injured in their various businesses, and the working of the lines will be a source of great inconvenience to them.

5.—Your Petitioners also humbly submit that during the construction of the Tramways and upon all occasions when it becomes necessary to repair the ways (which is of frequent occurrence), the ordinary traffic of the road is greatly hindered, and, at times, altogether stopped. Such stoppages would cause serious losses to those of your Petitioners who use horses, vans, carts, and other vehicles for the purposes of their trade, and especially when such vans and carts have to be loaded and unloaded, which generally happens several times during the day.

6.—Your Petitioners further allege that there is at present ample carriage accommodation for the road and neighbourhood, there being a continuous supply of omnibuses, at cheap fares, along Holborn, from early morning till late at night.

7.—Your Petitioners further allege that the traffic along Vernon-place, Bloomsbury-square, and Hart-street, is at present very large, and to allow a Tramway to be laid there, which would monopolise the best part of the roads, namely, the centre, would, in the opinion of your Petitioners, be such an addition to the traffic as to cause almost continuous blockages in those thoroughfares.

8.—Your Petitioners further allege that wherever Tramways are allowed, they cause increased expense to the District generally, by reason of their driving all the slow traffic to the sides of the road, thereby causing the sides to require more repair than they otherwise would do, the expense of which would have to be borne by the District.

9.—Your Petitioners also humbly submit that any advantage that could result to your Petitioners, or to the public at large, through the working of the said proposed lines of Tramway, would be insufficient to justify the injury, as well as additional expenses and inconvenience which would be caused to your Petitioners.

10.—Your Petitioners further submit that the Tramways proposed to be laid down and worked are not introduced for the benefit of the public at large, or your Petitioners, but simply for the purposes of private gain.

Your Petitioners therefore humbly pray that your Honourable Board will withhold its consent to the said Tramways being laid in that part which is in the Parish of St. George, Bloomsbury.

And your Petitioners will ever pray, &c.

(Signed) F. WALTERS,
3, Vernon-place,
And 193 others.

PETITION AGAINST PROPOSED TRAMWAYS.

To the Honourable the Metropolitan Board of Works.

The humble Petition of the undersigned Owners, Lessees, Occupiers of houses and shops, Frontagers, Ratepayers and Residents in the Parish of St. Pancras,

SHEWETH AS FOLLOWS—

1. Your Petitioners are informed that application is again about to be made to Parliament by the London Street Tramways Company for powers to lay down and work lines of Tramway along that part of Gray's-inn-road which is in the Parish of St. Pancras.

2. Your Petitioners, as above stated, are severally owners, lessees, occupiers of houses and shops, fronting and adjoining the road where the proposed lines of Tramway are intended to be laid, or are Ratepayers or residents within the said Parish, and their respective addresses are placed opposite their signatures hereto

3.—Your Petitioners humbly submit that they object to the construction and working of the proposed Tramways, and allege that if the same are allowed they will very much interfere with the present access to their premises and will cause danger not only to themselves but to all others using the road.

4.—Your Petitioners also humbly submit that during the construction of Tramway lines and upon all occasions when it becomes necessary for repairs to be made (which your Petitioners are informed is of frequent occurrence), the ordinary traffic of the roadway is greatly hindered, and at times entirely stopped, and that such stoppages would cause serious loss to your Petitioners, especially to those who use horses, vans, carts and other vehicles for the purposes of their business, as such vans and carts have often to be loaded and unloaded several times in the course of a day.

5.—Your Petitioners further allege that there is at present ample carriage accommodation for the road and neighbourhood, there being a continuous supply of omnibuses, at cheap fares, from early morning till late at night, and there are several Railway Stations within short distances, whence travellers so desiring can get to all parts.

6.—Your Petitioners also allege that the traffic along the Gray's-inn-road is already very large, in consequence of the number of Railway wagons, coal carts, and other heavy vehicles continually passing through the road; and to allow lines of Tramway to be laid there, which would monopolise the best part of the road, namely, the centre thereof, would, in the opinion of your Petitioners, be such an addition to the traffic as to cause serious danger to life and almost continuous blockages throughout the thoroughfare, as for a portion of the way, just before reaching Henry-street, and beyond, the lines will be laid within 9 feet 6 inches of the kerb.

7.—Your Petitioners further allege that, wherever lines of Tramway are allowed, they cause additional expense to the Parish generally, and consequently increase the rates which the Ratepayers have to pay, as it is well known that, in consequence of the slow, heavy traffic being forced to use generally the sides of the road, those parts require more repairs than they otherwise would do, the expense of which has to be borne by the Parish.

8.—Your Petitioners also humbly submit that wherever Tramways are allowed they greatly depreciate the value of private property. And they desire to point out that the advantage (if any) that might result from the working of the proposed lines will be insufficient to justify the injury as well as the additional expense and inconvenience which such introduction will cause to your Petitioners.

9.—Your Petitioners humbly submit that the lines of Tramway now proposed are not brought forward for the benefit of the public, but mainly for the purpose of private gain.

Your Petitioners, therefore, humbly pray that your Honourable Board will withhold its consent to the proposed lines of Tramway being laid along that part of the Gray's-inn-road which is within the Parish of St. Pancras.

And your Petitioners will ever pray, &c.

(Signed)

WILLIAM DAVIDSON,

83, Gray's-inn-road,

And 164 others.

It was ~~moved~~ by Mr. Hill, seconded by Mr. Phillips, and ~~resolved~~—That the Memorials be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which they relate.

3. This being the day appointed for receiving Designs and Specifications for the construction of a Vessel capable of conveying from the Sewage Outfalls in the Thames out to sea 1,000 tons of Sewage Sludge daily,

The Clerk laid before the Board the several Tenders which he had received pursuant to the Advertisement issued in accordance with the Board's Resolution of 27th November last (No. 6).

It was ~~moved~~, seconded, and ~~resolved~~—That the said Tenders be now opened.

Tenders from the undermentioned persons were then opened—

Messrs. W. Simons and Co., London Works, Renfrew, with three Plans.

„ S. and H. Morton and Co., Victoria Docks, Leith, with four Plans.

„ H. S. Edwards and Sons, Northumberland Shipyard, Howdon-on-Tyne, with nine Plans, and a small Photograph.

The Thames Ironworks and Ship Building Company, Limited, W. Hayward, Manager, Orchard-yard, Blackwall, with one Plan.

Messrs. J. and J. C. Spence, Printing-court-buildings, Newcastle-on-Tyne, with three Plans.

Mr. S. Williams, No. 130, Belvedere-road, Lambeth, with one Plan.

Sir W. G. Armstrong, Mitchell and Co., Limited, H. F. Swan, Director, Walker Shipyard, Newcastle-on-Tyne, with six Plans.

Messrs. R. and H. Green, Blackwall-yard, with four Plans.

„ Wood, Skinner, and Co., Bill Quay, Newcastle-on-Tyne, with five Plans.

Barrow Shipbuilding Company, Limited, W. John, General Manager, Barrow-in-Furness, Lancashire, with three Plans.

Messrs. Fleming and Ferguson, Phoenix Works, Paisley, with one Plan.

„ Menzies and Blagburn, No. 150, Leadenhall-street, with four Plans.

Mr. J. Mutch, Clyde-yard, Old Ford Lock, with one Plan.

„ J. Mackie, Turk's-head-yard, with one Plan.

Messrs. E. Withy and Co., West Hartlepool, with one Plan.

„ Hanna, Donald, and Wilson, Abbey Works, Paisley, with one Plan.

Dundee Dredging Company, Limited, No. 69, Ship-street, Brighton, with one Plan.

Messrs. Napier, Shanks, and Bell, Yoker, near Glasgow, with eleven Plans.

Mr. J. A. Yates, No. 274, Dalston-lane, with three Plans.

The Clerk also laid before the Board the undermentioned Letters—

Letter from Messrs. Napier, Shanks, and Bell, dated 27th January, 1886, to the effect that they had omitted to state in their Tender that the steamer would be delivered in six months after acceptance and approval of Plans for the same.

Letter from Messrs. J. and J. C. Spence, dated 28th January, 1886, forwarding a sketch showing how the tanks in the sludge steamer for which they had supplied designs were to be filled.

Letter, Messrs. J. Gavin and Co., dated 28th January, 1886, stating that Messrs. Morton and Co's. agent would attend upon the Board's Officers at any time, should they desire explanations of the Drawings sent in by Messrs. Morton and Co.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the said Designs and Specifications be referred to the Works and General Purposes Committee, for consideration and report, and also to the Engineer and Sir F. Bramwell, to report to the Committee thereon.

The Clerk presented a Letter from Messrs. Oswald and Co., dated 28th January, 1886, stating that by an oversight they had thought that the Designs for the Sludge vessel were not to be sent in until Monday next, the 1st February, and asking whether if they sent in their Designs on that day they would be in time.

It was **moved** by Mr. Fowler, and seconded by Mr. Selway—That Messrs. Oswald and Co. be informed that if they will send in their Designs by Monday next the Board will receive the same.

An **amendment** thereon was **moved** by Mr. J. Jones, and seconded by Mr. Phillips—That the Design referred to be not received.

The **amendment** having been put to the vote, it was lost.

The **original motion** was then put to the vote, when there were for it 26, against it 9; and it was declared by the Chairman to be carried; and it was **resolved** accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the said Designs, if sent in, do stand referred to the Committee, for consideration, with the Designs already received.

29 January, 1886.

4. Mr. Harben handed in a Letter, as follows—

Vestry of the Parish of St. John, Hampstead.

Vestry Hall,
Hampstead, N.W.,
28th January, 1886.

TRAMWAY SCHEMES.

DEAR SIR,—I am desired by the Vestry of this Parish to forward the accompanying copies of Resolutions passed at a Meeting held this evening upon the subject of the under-mentioned Tramway Bills affecting this Parish, viz.—

The Cricklewood, Kilburn, and Harrow-road Tramways Bill ;

The London Street Tramways (Extension) Bill ;

and to state that the proposed Memorial to the Metropolitan Board of Works, asking them to oppose such Bills, will be forwarded as speedily as possible.

Yours, &c.,
(Signed) THOS. BRIDGER,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk of the
Metropolitan Board of Works.

Vestry of St. John, Hampstead.

Copy Resolutions passed at a Meeting of the Vestry, held 28th January, 1886.

1.—That this Vestry refuses its consent to the Cricklewood, Kilburn and Harrow-road Tramways Bill.

2.—That the Solicitor of the Vestry be instructed to take all necessary steps to carry out the foregoing Resolution.

3.—That a Memorial be presented to the Metropolitan Board of Works, asking them to oppose the Cricklewood, Kilburn and Harrow-road Tramways Bill.

4.—That the Vestry do oppose the Chalk-farm lines of the London Street Tramways Extensions Bill, so far as they affect the Adelaide-road, in this Parish, and that the necessary Petition be presented to Parliament for that purpose ; also that a Memorial be presented to the Metropolitan Board of Works, asking them to oppose the introduction of a Tramway in the Adelaide-road.

5.—That the Vestry do not oppose the South End-green line of the London Street Tramways Extensions Bill, except for the purpose of obtaining protective Clauses for the Parish, and that the necessary Petition by the Vestry be prepared and presented to Parliament, in order to obtain a *locus standi*.

It was *moved* by Mr. Harben, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject of the Bills to which it relates.

5. Mr. Harris handed in a Letter, as follows—

St. Saviour's District Board of Works.

Board-room, Emerson-street, Bankside, Southwark, S.E.,
28th January, 1886.

STACKING OF FIREWOOD.

DEAR SIR,—This Board has considered your circular Letter, dated the 15th instant, announcing the intention of your Board to introduce into Parliament, this Session, a Bill to regulate the stacking of Firewood in the Metropolis, and has unanimously passed the following Resolution with regard thereto :—

“That this Board is of opinion there is not sufficient justification for interfering with
“ the Firewood trade of the Metropolis, and that, in the interest of the workpeople
“ employed in the trade, it is unwise to do so.”

I am, &c.,
(Signed) W. H. ATKINS,
Clerk.

J. E. Wakefield, Esq.,
Clerk, Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Harris, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references, already made to them on the subject to which it relates.

6. Mr. Williams handed in a Letter, as follows—

The Board of Works for the Lewisham District.

Catford, S.E.,

21st January, 1886.

SIR,—My Board has had under its consideration the necessity for the provision of additional means of communication with the Fire Stations in the Hamlet of Penge, in their District, and they are of opinion that fire-alarm circuits should be established in addition to any existing means of communication, by wire from the Escapes or Police Stations, and my Board would suggest the following sites as suitable for such Fire Alarms—one near the Vestry-hall ; one in Maple-road, near Woodbine-grove ; one at the top of Beckenham-road, near Penge Railway Station, and one in South Penge-park.

My Board trust that you will take into consideration the above subject at your early convenience.

I am, &c.,
(Signed) H. S. WINNETT,
Clerk to the Board.

J. E. Wakefield, Esq.

It was *moved* by Mr. Williams, seconded, and *resolved*—That the Letter be referred to the Fire Brigade Committee, for consideration and report.

7. Mr. Meaden handed in a Letter from Mr. H. G. Hills, Clerk to the Wandsworth District Board, dated 28th January, 1886, requesting to be supplied with a copy of the Engineer's Report on Railway and other schemes of the present Session.

It was *moved* by Mr. Meaden, seconded, and *resolved*—That the request be complied with.

8. Mr. Ingoldby handed in a Letter, as follows—

Parish of St. Luke, Middlesex.

Vestry Clerk's Office,

Vestry-hall, City-road, E.C.

28th January, 1886.

SIR,—Adverting to the Letter, dated 2nd December ultimo, from the Engineer to the Board, and to your Letter, dated 24th December ultimo, respectively, with reference to the Parliamentary Schemes for the current Session affecting the Parish, I beg to state that the Vestry of St. Luke, Middlesex, have had under consideration the proposals of the North Metropolitan Tramway Company to double a portion of their single line of Tramway in the Goswell-road, together with the Report of their Surveyor thereupon. From a print of this Report, and a copy of the tracing referred to therein which I herewith enclose, and which have been approved by the Vestry, the Metropolitan Board of Works will gather the views of the Vestry in regard to the Company's proposals, and to the further widening of the road-way in the Goswell-road on the Clerkenwell side ; which widening the Vestry think should be effected before sanction be given to the proposed alteration of the existing lines.

I am, &c.,
(Signed) G. W. PRESTON,
Vestry Clerk.

The Clerk,
Metropolitan Board of Works,
Spring-gardens, Whitehall, S.W.

The Tracing and Report referred to in the foregoing Letter were laid before the Board.

It was *moved* by Mr. Ingoldby, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

9. Mr. Hewitt handed in a Letter, as follows—

The Board of Works for the St. Giles District.

197, High Holborn, W.C.,
Clerk's Department,
January 28th, 1886.

SIR,—The attention of this Board has, from time to time, been drawn to the very severe fires which frequently occur within the Metropolis, and to the entire absence of any inquiry into the causes thereof, and, having regard especially to the serious loss of life which often occurs, I am directed to urge upon the consideration of the Metropolitan Board of Works the desirability of taking steps to obtain an official inquiry into the cause of all fires in the Metropolis which the Metropolitan Fire Brigade is called upon to deal with.

The Clerk,
Metropolitan Board of Works,
Spring-gardens, S.W.

I am, &c.,
(Signed) HENRY C. JONES.

It was ~~moved~~ by Mr. Hewitt, seconded, and ~~resolved~~—That the Letter be referred to the Fire Brigade Committee, for consideration and report.

10. Mr. Harben, in the absence of Mr. Fardell, the Chairman of the Finance Committee, brought up a Report, as follows—

REPORT OF THE FINANCE COMMITTEE.

Spring-gardens, 26th January, 1886.

Your Committee have to report that they have examined the Pass Books of the Treasurer and Banker of the Board, together with the Statements prepared by your Accountant, and have ascertained the Cash Account to be as follows—

CONSOLIDATED CASH ACCOUNT—

Balance on 9th January, 1886 £349,662 4 7

Your Committee have also to report that they have examined the Certificates of the various principal Officers for the payment of the sums mentioned in the accompanying Statement, and have found the same correct ; and they recommend—

That the sums specified therein, amounting in the whole to £90,802 18s. 9d. be paid.

Your Committee have had before them Statements of certain sums payable to District Surveyors in respect of services in connection with Dangerous Structures, and for expenses of Shoring and Hoarding ; and they recommend—

That the necessary Orders be made with respect to the same.

Your Committee have considered the Letter from the Vestry of Lambeth, requesting payment of the Board's promised contributions towards the Improvements effected by the Vestry at South Lambeth-road, China-walk, and Stangate, referred by the Board on the 18th ultimo (No. 41). The Board on the 8th May 1874 (No. 11), the 24th March, 1882 (No. 8), and the 15th December, 1882 (No. 6) respectively, agreed to contribute one-half of the net cost, not exceeding the respective sums of £275, £1,500, and £400, of carrying out the Improvements referred to, on the usual Certificates of their Officers of the completion and cost of the works. Your Superintending Architect has reported the satisfactory completion of the several works, and your Accountant has certified that the respective sums of £524 7s., £2,300, and £565 have been expended by the Vestry in carrying out the same, and your Committee therefore recommend—

That a Cheque be drawn for £262, in favour of the Vestry of Lambeth, being one-half of the cost, as agreed to be contributed by the Board, towards the Improvement effected at South Lambeth-road.

That a Cheque be drawn for the sum of £1,150, in favour of the Vestry of Lambeth, being the amount of the Board's promised contribution towards the Improvement at China-walk.

That a Cheque be drawn for the sum of £282, in favour of the Vestry of Lambeth, being one-half of the cost, as agreed to be contributed by the Board, towards the Improvement at Stangate.

Your Committee have considered the application from the Wandsworth District Board, for payment of this Board's promised contributions towards the cost of widening Battersea-park-road and Candahar-road, referred by the Board on the 8th instant (No. 30). The Board on the 25th May, 1883 (No. 6), and 11th December, 1885 (No. 5), agreed to contribute the respective sums of £880 and £311 towards effecting the Improvement upon the usual Certificates of their Officers. The requisite Certificates by your Superintending Architect, of the completion of the work, and by your Accountant, that the sum of £2,382 9s. 7d. has been expended by the District Board in effecting the same, having been presented to your Committee, they recommend—

That a Cheque be drawn for the sum of £1,191, in favour of the Wandsworth District Board, being the amount of this Board's promised contribution towards the cost of widening Battersea-park-road and Candahar-road, Battersea.

Pursuant to the Resolution of the Board of the 23rd October, 1885 (No. 38), your Committee have considered the Letter from the Fulham District Board, asking for permission to borrow and also for the advance of the sum of £5,081, to defray the cost of certain Improvement, paving, and other works. Your Engineer reports that of the amount applied for, £800 is required as a moiety of the contribution to be paid by the

District Board towards the cost of constructing the Gliddon-road Bridge (which was sanctioned by this Board on the 15th February, 1884), £514 19s. 7d. for works for the prevention of floods at Fulham and Hammersmith, £1,172 18s. 4d. for paving 12,609 superficial feet of new 3-inch York stone footways, and for laying 1,300 feet run of granite kerb, and 4,613 feet run of granite channel, and the construction of five gullies, and £159 18s. 3d. for the erection of a urinal at Broadway, Hammersmith, the cost of which works is stated to be reasonable. Your Superintending Architect has reported that seven Improvements have been effected by the District Board, at a cost for the land (after crediting this Board's contributions) of £1,831 10s., and for the works of £488 13s. 10d., which he considers fair and reasonable, and making, with £32 for contingencies, a total of £5,000. Mr. Brown, the representative of the District Board, has attended your Committee, when the matter has been under consideration, and has given information as to the necessity for the several works; and, having regard thereto and to the Officers' Reports, your Committee recommend—

That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Fulham District Board, for permission to borrow, and also for the advance of £5,001 to defray the cost of certain Improvements, paving and other works, be granted to the extent of £5,000, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly, as to £1,830, on the 31st January, the 30th April, the 31st July, and the 31st December, in each year; and as to the balance of the Loan, on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 31st January; as to £1,830 for land for Improvement works, in 55 years, from 1st January, 1886, and on each 1st January as to £1,310 for the contribution towards the cost of the Gliddon-road Bridge, and expenses for the prevention of floods, in 30 years; and as to £1,860 for paving and other works, in 10 years; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

Your Committee have considered the application of the Plumstead District Board, for permission to borrow, and also for the advance of a sum of £1,800, referred by the Board on the 18th ultimo (No. 39). The District Board propose to raise to this Board's standard level of 18 feet above Ordnance datum, and to repair the bank of the river Thames, at Charlton, at an estimated cost of £1,978 7s. 2d. which your Engineer considers to be fair and reasonable. Your Committee see no objection to the Board granting the application, the Plans of the works having been approved by the Board on the 5th June last (No. 12), and they accordingly recommend—

That, subject to the Board hereafter giving their written consent under their Seal, to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the application of the Plumstead District Board, for an advance of a sum of £1,800, to defray the cost of raising and repairing the River banks at Charlton, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly, on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January within 4 years; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

Your Committee have considered the Letter from the Charlton Burial Board, requesting an advance of a sum of £4,150, referred by the Board on the 13th November last (No. 44). Of the amount proposed to be borrowed by the Burial Board, £1,000, is required for laying out new ground at their Cemetery, and £3,150 for paying off the balance of £4,500 borrowed at £5 per cent. to purchase three acres of Freehold land for the purpose of enlarging the Cemetery. The requisite consents of the Vestry and Treasury have been obtained, and your Superintending Architect has reported that the estimated cost of the buildings to be erected and of the laying out of the ground, and the contingent expenses, amounting to £1,000, is reasonable. The advance of £4,500 to be re-paid in thirty years was made by the Public Works Loan Commissioners on 18th February, 1876, and your Committee consider that the balance (£3,150) of the

amount, now proposed to be borrowed, should be paid within that period, and they accordingly recommend—

That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Charlton Burial Board, for a Loan of a sum of £1,000, for works in laying out new ground, and £3,150 for paying off an old debt, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January as to £3,150, within 20 years from 18th February, 1886; and as to £1,000, within 30 years; that the sum of £5 5s. be charged for Surveyor's Fees; that it be referred to the Solicitor to complete the Loan; and that the amount be advanced out of the Consolidated Loans Fund.

Your Committee have considered the application of the Fulham District Board, for permission to borrow, and also for the advance of a sum of £6,710, to defray the cost of wood-paving works, referred by the Board on the 8th instant (No. 29). The District Board propose to have laid down 5,111 superficial yards of wood-paving in the Hammersmith-road, between Rowan-road and Brook-green, on Portland cement concrete foundations, 6 inches in thickness, and 8,444 yards to be laid from the Parish boundary, by Brook-green, to the centre of the Addison-road Railway Bridge, at an estimated cost, including 10 per cent. for contingencies, of £2,530 and £4,180 respectively. Your Engineer has examined the estimate for the work (£6,710), and reports it to be fair and reasonable. Mr. Brown, the representative of the District Board, has attended your Committee, and stated the urgent necessity for the work being carried out forthwith, and your Committee therefore recommend—

That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Fulham District Board, for permission to borrow and also for the advance of a sum of £6,710, for defraying the cost of laying wood-paving in the Hammersmith-road, be granted to the extent of £6,700, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July and the 1st October, in each year, and the principal being re-paid by equal annual instalments on each 1st January, within Six years, that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

The Board are aware that, under their Various Powers Act, 1885, the sum of £60,000 was to be paid for the purchase of Highbury-fields, and that the Vestry of St. Mary, Islington, are required from time to time to contribute towards such expenses as may be incurred by the Board in relation to the purchase and acquisition of the Fields, to the extent of one-half of such expenses. The Board have recently paid the £60,000, and a moiety of that amount, therefore, becomes payable by the Vestry. Your Committee accordingly recommend—

That a formal request be addressed to the Vestry of Islington, that the sum of £30,000 may be paid to the Board on account of the purchase of Highbury-fields.

On the 18th December last (No. 6), the Board made an Order directing that the whole management of the property which has been leased by the Board should be referred to your Committee. An application has been received from one of the Board's tenants, for permission to make certain structural alterations to the "Admiral Keppel" Public-house, in High-street, Shoreditch, and as it appears doubtful whether the reference was intended to include applications of that nature, which have always hitherto been dealt with by the Works, &c. Committee, your Committee consider it desirable that the subjects proposed to be covered by the reference should be more specifically defined, and they therefore recommend—

That the subject be referred to the Works and General Purposes Committee, for consideration and report.

Your Committee beg to report, for the information of the Board, that the final instalment of the Loan of £1,750,000, raised by the Board in Metropolitan Consolidated Stock in 1885, was received on the 10th December last.

In accordance with the Resolution of the Board of the 17th April, 1885 (No. 6), your Committee beg to submit a Return showing that the amount of Loans granted by this Board to other public bodies up to the 31st December, 1885, is £8,790,753.

Your Committee beg also to submit a Return of Gas-meters received to be tested, with the fees charged for the same, for the quarter ended the 26th December last.

Your Committee recommend—

That the undermentioned Cheques, which have been drawn longer than three months, be cancelled—

(Signed) G. MILLS, HENRY AIREY, R. DETHRIDGE,

Inspectors of Gas Meters.

(Signed) A. GUNN, Accountant.

(Signed) W. J. DIBDIN, Superintendent.

The Report having been read and received,

It was moved by Mr. Harben, seconded, and resolved—That the sums specified in the Statement submitted by the Committee, amounting in the whole to £90,802 18s. 9d., paid.

Cheques were thereupon signed by two Members of the Board present at the Meeting.

It was moved by Mr. Harben, seconded, and resolved—That the Fees specified in the Three summaries of Accounts now presented to the Board, marked A to C inclusive, and signed by their Clerk, be paid to the respective District Surveyors mentioned in the following Abstract, for services performed by them in connection with Dangerous Structures in the Metropolis, not being within the City of London, such services being the surveying, by direction of the Board, under the second part of the Metropolitan Building Act, 1855, and pursuant to the Metropolitan Building Act, 1869, of Structures reported to be in a dangerous state, and certifying opinions thereon; and also for special services performed by them in cases in which special services have been required.

It was moved by Mr. Harben, seconded, and resolved—That a Cheque be now drawn for the sum of £262, in favour of the Vestry of Lambeth, being one-half of the cost as agreed to be contributed by the Board towards the Improvement effected at South Lambeth-road.

It was moved by Mr. Harben, seconded, and resolved—That a Cheque be now drawn for the sum of £1,150, in favour of the Vestry of Lambeth, being the amount of the Board's promised contribution towards the Improvement at China-walk.

It was moved by Mr. Harben, seconded, and resolved—That a Cheque be now drawn for the sum of £282, in favour of the Vestry of Lambeth, being one-half of the cost, as agreed to be contributed by the Board, towards the Improvement at Stangate.

A Cheque for the sum of £1,694 was thereupon drawn on the General Capital Account.

It was moved by Mr. Harben, seconded, and resolved—That a Cheque be now drawn for the sum of £1,191, in favour of the Wandsworth District Board, being the amount of this Board's promised contribution towards the cost of widening Battersea-park-road and Candahar-road, Battersea.

A Cheque was thereupon drawn on the General Capital Account accordingly.

It was moved by Mr. Harben, seconded, and resolved—That subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Fulham District Board, for permission to borrow, and also for the advance of a sum of £5,081, to defray the cost of certain Improvements, paving, and other works, be granted to the extent of £5,000, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3s. 10s. per centum, per annum payable quarterly, as to £1,830 on the 31st January, the 30th April, the 31st July, and the 31st December, in each year, and as to the balance of the Loan on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 31st January, as to £1,830 for land for Improvement works, within a period of Fifty-five years, from 1st January, 1886, and on each 1st January as to £1,310 for the contribution towards cost of the Gliddon-road Bridge and expenses for the prevention of Floods within a period of Thirty years; and as to £1,860, for paving and other works, within a period of Ten years; that it be referred to the Solicitor to take the necessary measures, for completing the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

It was moved by Mr. Harben, seconded, and resolved—That, subject to the Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the application of the Plumstead District Board, for an advance of a sum of £1,800, to defray the cost of raising and repairing the River banks at Charlton, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January within a period of Four years; that it be referred to the Solicitor to take the necessary measures for completing the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

It was moved by Mr. Harben, seconded, and resolved—That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Charlton Burial Board, for a Loan of £1,000 for works in laying out new ground, and £3,150 for paying off an old debt, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January as to £3,150, within a period of Twenty years from the 18th February, 1886, and as to £1,000, within a period of Thirty years; that the sum of £5 5s. be charged for Surveyors' Fees; that it be referred to the Solicitor to take the necessary measures for completing the Loan; and that the amount be advanced out of the Consolidated Loans Fund.

It was moved by Mr. Harben, seconded, and resolved—That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Fulham District Board, for permission to borrow, and also for the advance of a sum of £6,710, for defraying the cost of laying wood-paving in the Hammersmith-road, be granted to the extent of £6,700, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July and the 1st October, in each year, and the principal being re-paid by equal annual instalments on each 1st January, within a period of Six years; that it be referred to the Solicitor to take the necessary measures for completing the Loan; and that the amount be advanced out of the Consolidated Loans Fund.

It was moved by Mr. Harben, seconded, and resolved—That a formal request be

29 January, 1886.

the Vestry of Islington, requiring that the sum of £30,000 may be paid to account of the purchase of Highbury-fields.

by Mr. Harben, seconded, and ~~resolved~~—That the question whether the said Order of 18th December, 1885 (No. 6), referring to the Finance Committee “the whole management of the property which has been leased by the “Board,” was intended to include the reference to them of applications for structural alterations to buildings leased by the Board, be referred to the Works and General Purposes Committee, for consideration and report.

It was moved by Mr. Harben, seconded, and ~~resolved~~—That the undermentioned Cheques, which have been drawn longer than Three months, be now cancelled—

Streets (Act of 1883) Account.

No. 525.	1885.	October 26th.—	Mr. J. Martin	...	...	£10	0	0
„ 526.	„	„ „	Mr. J. S. Marsh	...	...	30	0	0

The said Cheques were thereupon cancelled accordingly.

11. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 25th January, 1886.

				227	14	8
				£8,765	19	-

Your Committee submit for the information of the Board a marked Catalogue and Account of sale of building materials of houses in Moor-street, Crown-street, and New Compton-street, on 12th November, 1885, by Messrs Horne, Son and Eversfield—

Gross proceeds of sale	£144	6	-
Commission, £7 10s. per cent.	10	16	6
Amount received by Board, 15th January, 1886	£133	9	6

Your Committee have further to report that they have considered the Letter from Mr. W. S. Page, referred to them on the 26th June last (No. 46), forwarding a statement of his scheme for the disposal of Sewage without fouling the River Thames. The proposal provides for one or more specially constructed Pontoon Steam Vessels for the purpose of taking either the sludge or the Sewage itself direct to sea. It is stated that this can be done "at once," but your Engineer and your Chemist report that there is nothing to show the system by which vessels and works of the necessary magnitude can be constructed within the time specified. Your Committee recommend—

That a Letter be addressed to Mr. Page, thanking him for his communication.

Your Committee have also had before them a Letter from Mr. W. R. W. Smith, with suggestions as to dealing with the Sewage of the Metropolis, and asking that a Deputation of the Board would visit Glasgow. Mr. Smith forwards a copy of a Report of a Deputation of the Town Council and Board of Police of Glasgow, upon the methods of disposing of Sewage, and a Report on the Clyde Navigation, and he suggests that the Board should visit Glasgow, and witness the barging of sludge to sea. He also urges the desirability of utilising the solid material for making up waste land and otherwise disposing of it for manurial purposes. Your Committee have given due consideration to Mr. Smith's communication, but as the Board have it in contemplation to make an experiment of conveying to sea the sludge at their own Outfalls, it does not appear necessary to avail themselves of the suggestion contained in the Letter. Your Committee recommend—

That Mr. Smith be thanked for his Letter.

Your Committee have also considered the Letter, referred to them on the 4th December last (No. 33) from Mr. F. Fuller, proposing conditions on which he would be willing to explain to the Board the details of his plan for utilising the Sewage of the Metropolis for agricultural purposes. Mr. Fuller contends that the residuum of the London Sewage is a valuable manure, and that a considerable profit can be made by the proper treatment of it. He also forwards a print of newspaper correspondence on the subject. Your Committee think that the Board cannot do more than thank Mr. Fuller for his communication, and they beg to recommend accordingly.

Your Committee have also had under consideration the Letter from Mr. E. Monson, referred by the Board on the 11th December last (No. 40), enclosing a print of his schemes for the disposal of the Sewage North of the Thames. The pamphlet forwarded by Mr. Monson contains separate proposals for utilisation and precipitation of the Sewage; the first-named being by a division of the Metropolis into three separate Sewage Districts, the latter by treating the Sewage with lime at the present works. Mr. Monson proposes that the sludge should be utilised in the manufacture of bricks. Your Committee recommend—

That Mr. Monson be thanked for his communication.

Your Committee have further to report that they have considered the Letter from Mr. W. H. Sansom, referred to them on the 8th instant (No. 36), calling attention to his patent improved system of treating Sewage, sludge, &c., and stating that he is willing to grant Licenses to the Board to carry out his system or any part thereof. Mr. Sansom furnishes no information or details of the method to which he refers, and his Letter is without address. Your Committee are not, therefore, prepared to recommend any action with regard to it.

Your Committee have also considered the Letter, referred to them on the 8th instant (No. 40), from Mr. E. B. Walker, offering to submit conditionally the details of his scheme for converting settled sludge into dry cake or mould at the Outfall works. Mr. Walker asks a bonus if the Board adopt his mode of treating the sludge, of which, however, he does not forward any description. Your Committee recommend—

That he be thanked for his Letter.

Your Committee have had before them an application by Mr. H. Bond, for permission

to hang a ladder on the side wall of his house, No. 1, Albert Mansion, Victoria-street, abutting upon the site of the King's Scholars' Pond Sewer, and to have the use of a key to the door-way entrance to the site; also that the Board will let to him a part of the site for the erection thereon of a portable iron workshop. Having conferred with your Engineer, your Committee are of opinion that it is unadvisable to grant the application, and they recommend accordingly.

Your Committee submit, for the information of the Board, a list of claims settled in respect of properties taken under the Metropolitan Street Improvements Acts, 1877 and 1883, the Metropolitan Board of Works (Bridges, &c.) Acts, 1883 and 1884 and the Metropolitan Board of Works (Various Powers) Act, 1884, from the 1st October to the 31st December, 1885, inclusive.

All which your Committee beg to submit.

(Signed)

J. MCGAREL-HOGG,
F. H. FOWLER,
W. R. SELWAY,
J. E. BRADFIELD,
GEORGE PHILLIPS,
A. EWIN,
W. J. WETENHALL,

The marked Catalogue and Account of sale of building materials of houses in Moor-street, Crown-street, and New Compton-street, submitted with the Report, were laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Fowler, seconded, and *resolved*—That so much of the Report as relates to the Letter from Mr. W. S. Page, forwarding a statement of his Scheme for the disposal of Sewage without fouling the River Thames, be approved, and that a Letter be addressed to Mr. Page, thanking him for his communication.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the undermentioned gentlemen be thanked for their communications on the subject of dealing with the Sewage of the Metropolis—

Mr. W. R. W. Smith,
 „ F. Fuller,
 „ E. Monson,
 „ E. B. Walker.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the application of Mr. H. Bond, for permission to hang a ladder on the side wall of his house, No. 1, Albert-mansion, Victoria-street, abutting upon the site of the King's Scholars' Pond Sewer, and to have the use of a key to the door-way entrance to the site; and that the Board would let to him a part of the site for the erection thereon of a portable iron workshop, be not granted.

12. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 19th January, 1886.

Your Committee have to report that they have, pursuant to the Resolution of the Board of the 22nd November, 1878 (No. 48), considered the following applications for the re-naming and re-numbering of various streets and places in the Metropolis, viz.—

DATE.	APPLICATION.
22nd April, 1884.	Postmaster-General, for re-numbering the houses in various streets in the Metropolis.
2nd May, 1884.	Greenwich District Board, for re-numbering the houses in various streets in their District.
12th January, 1885.	Vestry of St. Pancras, for re-numbering the houses in various streets in their Parish.
12th March, 1885.	St. Saviour's District Board, for re-numbering the houses in Collingwood-street, Blackfriars-road.
22nd November, 1885.	Lady Muir Mackenzie, that the houses in West Eaton place may be numbered in continuation of those in Eaton-place, and the name "West Eaton-place" abolished.
27th October, 1885.	Mr. E. N. Edmunds, that either Wellington-street or Wellington-road, Stoke Newington-road, may be re-named.

Your Committee have received Reports from your Superintending Architect on the above-mentioned applications; they have also inspected Plans, prepared under his direction, showing the alterations which it is desirable to make in the naming and numbering of the several thoroughfares, and they recommend—

That the subsidiary names in Woodland-hill, Upper Norwood, be abolished, and the houses re-numbered.

That George-street and Friendly-street, Deptford, be incorporated under the name "Friendly-street, S.E.," and the houses re-numbered.

That Nelson-street and Nile-street, Deptford, be incorporated under the name "Nile-street, S.E.," and the houses re-numbered.

That the houses in Seymour-street, St. John's-road, Deptford, be re-numbered.

That the houses in College-lane, Highgate-road, St. Pancras, be re-numbered.

That the houses and premises in Fortess-mews, Fortess-road, St. Pancras, be re-numbered.

That the houses in Leeke-street, King's-cross-road, St. Pancras, be re-numbered.

That Little King-street North and South, Camden-town, be incorporated under the name "Little King-street, N.W.," and the houses re-numbered.

That the houses in Middlesex-street, Somers-town, be re-numbered.

That the houses in Collingwood-street, Blackfriars-road, be re-numbered.

That Lady Muir Mackenzie be informed, in reply to her request that the houses in West Eaton-place may be numbered in continuation of those in Eaton-place, and the name West Eaton-place abolished, that the Board deem it inexpedient to incorporate the two streets.

That Wellington-street, Stoke Newington-road, be re-named "Arcola-street, E.," and the houses re-numbered.

All which your Committee beg to submit.

(Signed) A. EWIN,
W. R. SELWAY,
W. SHEPHERD,
W^m. DEBENHAM,
F. H. FOWLER.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Woodland-hill, in the Parish of Lambeth, in the County of Surrey, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,619, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 35, being assigned to the houses on the Northern side, and the even numbers commencing with 2 and ending with 48, to those on the Southern side; that such numbers do commence at the Western end; that the names Chatham-terrace, Hillside-terrace, Cyprus-villas, Portland-terrace, and any other name or names now in use in Woodland-hill, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Woodland-hill, S.E.," and that notice of this Order be given to the Vestry of Lambeth, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of George-street and Friendly-street, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,620, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 125, being assigned to the houses on the North-Western side, and the even numbers, commencing with 2 and ending with 116, to those on the South-Eastern side; that such numbers do commence at the end nearest Lewisham High-road; that the names George-street, Clarendon-cottages, Hope-cottages, Willow-place, Friendly-place, and any other name or names now in use in George-street and Friendly-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Friendly-street, S.E.," and that notice of this Order be given to the Board of Works

for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Nile-street and Nelson-street, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,621, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 63, being assigned to the houses on the North-Eastern side, and the even numbers commencing with 2 and ending with 68, to those on the South-Western side; that such numbers do commence at the end nearest Tanners-hill; that the name Nelson-street, and any other name or names now in use in Nile-street and Nelson-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Nile-street, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Seymour-street, St. John’s-road, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,622, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 53, being assigned to the houses on the South-Eastern side, and the even numbers, commencing with 2 and ending with 64, to those on the North-Western side; that such numbers do commence at the end nearest Mill-lane; that the name St. John’s-terrace, and any other name or names now in use in Seymour-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Seymour-street, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of College-lane, in the Parish of St. Pancras, in the County of Middlesex, be marked with consecutive numbers commencing with 1 and ending with 23, as shown by red figures on the Plan now produced, marked 3,623, in lieu of the existing numbers, as shown on the said Plan; that such numbers do commence at the Southern end; that the names Meadow-cottages, Pleasant-cottages, Cambridge-cottages, and any other name or names now in use in College-lane, and the existing numbers, be abolished; that the whole line of thoroughfare be called “College-lane, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Fortess-mews, Fortess-road, in the Parish of St. Pancras, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 36, as shown by red figures on the Plan now produced, marked 3,624, in lieu of the existing numbers, as shown on the said Plan; and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Leeke-street, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,625, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 17, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 10, to those on the Northern side; that such numbers do commence at the Eastern end; that the existing numbers, be abolished; that the whole line of thoroughfare be called "Leeke-street, W.C.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in Little King-street South and Little King-street North, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,626, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 51, being assigned to the houses on the Western side, and the even numbers, commencing with 2 and ending with 60, to those on the Eastern side; that such numbers do commence at the Southern end; that the names Little King-street South, and Little King-street North, and any other name or names now in use in Little King-street South and Little King-street North, and the existing numbers, be abolished; that the whole be called "Little King-street, N.W." and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Middlesex-street, in the

Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,627, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 39, being assigned to the houses on the Eastern side, and the even numbers, commencing with 2 and ending with 24, to those on the Western side; that such numbers do commence at the Northern end; that the existing numbers be abolished; that the whole line of thoroughfare be called "Middlesex-street, N.W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Collingwood-street, in the Parish of Christchurch, in the County of Surrey, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,628, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 45, being assigned to the houses on the Western side, and the even numbers, commencing with 2 and ending with 80, to those on the Eastern side; that such numbers do commence at the Southern end; that the existing numbers be abolished; that the whole line of thoroughfare be called "Collingwood-street, S.E.," and that notice of this Order be given to the Board of Works for the St. Saviour's District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

It was **moved** by Mr. Ewin, seconded by Mr. Phillips, and **resolved**—That Lady Muir Mackenzie be informed, in reply to her request that the houses in West Eaton-place may be numbered in continuation of those in Eaton-place, and the name "West Eaton-place" abolished, that the Board deem it inexpedient to incorporate the two streets.

The Report of the Building Act Committee of the 19th day of January, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Phillips—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Wellington-street, in the Parish of Hackney, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,629, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 73, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 50, to those on the Southern side; that such numbers do commence at the Western end; that the name Wellington-street, and any other name or names now in use in Wellington-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Arcola-street, E.," and that notice of this Order be given to the Board of Works for the Hackney District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

13. Mr. Pocock, the Chairman of the Special Purposes and Sanitary Committee, brought up a Report, as follows—

REPORT OF THE SPECIAL PURPOSES AND SANITARY COMMITTEE.

Spring-gardens, 26th January, 1886.

Your Committee have to report that they have had under consideration an application from Mrs. Eleanor Hozier for registration for the keeping of Six Infants at No. 69, Charlwood-street West, Pimlico. The premises are used as a Home for children and

Infants, and having regard to all the circumstances of the case, your Committee do not think that registration should be granted for more than Four Infants. They accordingly recommend—

That the application of Mrs. Eleanor Hozier for registration for the keeping of Infants at No. 69, Charlwood-street West, Pimlico, be granted ; and that the Board do make a Bye-law fixing Four as the number of Infants allowed to be kept at such premises.

Your Committee have further to report that they have had under consideration Two applications for renewal of registration. The conditions under which the Infants in the charge of the applicants are kept continue in each case satisfactory. Your Committee accordingly recommend—

That the applications of the following persons for renewal of registration, under the Infant Life Protection Act, for the keeping of Infants at the premises named, be granted, and that the Board do make a Bye-law in each case fixing the number of Infants allowed to be kept as follows—

Mrs. E. A. Baxter, No. 53, Marmont-road, High-street, Peckham ; 3 Infants.

Mrs. Elizabeth Neat, No. 38, Sainsbury-road, Gipsy-hill, Upper Norwood ; 2 Infants.

Your Committee have further to report that they have had under consideration an application from Messrs. Samuel Ward and Co. for the renewal of their License for the keeping of Petroleum at No. 32, Great Guildford-street, Southwark. The conditions of storage continue satisfactory, and your Committee recommend—

That a License be granted to Messrs. Samuel Ward and Co., for a period of twelve months from the 29th instant, to keep 1,000 gallons of Petroleum, at No. 32, Great Guildford-street, Southwark, in accordance with the terms of the draft License submitted.

Your Committee have further to report that they have had under consideration an application from Mr. H. W. Langbeck, for a License to keep Petroleum at No. 12, Abbott-street, Dalston. The Petroleum is required for use in chemical experiments, and your Committee recommend—

That a License be granted to Mr. Hugo Waldemar Langbeck, for a period of 6 months from the 29th instant, to keep 25 gallons of Petroleum at No. 12, Abbott-street, Dalston, in accordance with the terms of the draft License submitted.

Your Committee also submit a list of 56 applications for Licenses to keep Petroleum in small quantities, and recommend—

That in 47 cases Licenses be granted to keep quantities not exceeding 10 gallons at the places named, and in accordance with the conditions of License No. 91 ; that in 2 cases Licenses be granted to keep Petroleum in stores situated and constructed in accordance with License No. 90 ; and that in 7 cases special Licenses be granted to keep Petroleum in the manner described in such Licenses.

All which your Committee beg to submit.

(Signed) ALFRED POCOCK,
BENJ^N. WEIR,
GEORGE PHILLIPS,
W. J. WETENHALL,
F. M. WENBORN.

The list of applications for Licenses to store Petroleum, submitted by the Committee, was laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Pocock, seconded, and *resolved*—That Mrs. Eleanor Hozier be registered, under the Infant Life Protection Act, for the keeping of Infants at No. 69, Charlwood-street West, Pimlico, and that the Board do hereby make a Bye-law, fixing 4 as the number of Infants allowed to be kept at such premises.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That the registration of the following persons and premises, under the Infant Life Protection Act, be renewed, and

that the Board do make Bye-laws in each case fixing the number of Infants allowed to be kept on such premises, as follows—

Mrs. E. A. Baxter, No. 53, Marmont-road, High-street, Peckham ; 3 Infants.

Mrs. Elizabeth Neat, No. 38, Sainsbury-road, Gipsy-hill, Upper Norwood ;
2 Infants.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That a License be granted to Messrs. Samuel Ward and Co., for a period of twelve months from this date, to keep 1,000 gallons of Petroleum at No. 32, Great Guildford-street, Southwark, in accordance with the terms of the draft License now submitted.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That a License be granted to Mr. Hugo Waldemar Langbeck, for a period of Six months from this date, to keep 25 gallons of Petroleum at No. 12, Abbott-street, Dalston, in accordance with the terms of the draft License now submitted.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That Licenses be granted to the Fifty-six persons mentioned in the list now submitted, to keep Petroleum in the places and in the quantities stated in such Licenses, for a period of Twelve months from this date, subject to the conditions mentioned in the several Licenses.

The Licenses referred to in the foregoing Resolutions were laid before the Board.

It was *moved* by Mr. Pocock, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said Licenses ; and the Seal was affixed accordingly.

14. Mr. Bradfield, the Chairman of the Parks, Commons, and Open Spaces Committee, brought up a Report, as follows—

REPORT OF THE PARKS, COMMONS, AND OPEN SPACES COMMITTEE.

Spring-gardens, 27th January, 1886.

On the 30th January, 1885, the Board decided for the public convenience to make an exchange of land with the Conservators of the River Lee at South-mill-Field, Hackney. Your Committee have now to submit a Plan showing in Red and Green colour respectively the portions of land proposed to be exchanged, the Green colour denoting that to be given up by the Lee Conservancy, and they recommend—

That the Solicitor be instructed to at once give effect to the Resolution of the Board of the above-mentioned date.

Your Committee, in pursuance of the Resolution of the Board of the 23rd December, 1885, (No. 25), have prepared draft Bye-laws, for the regulation of Highbury-fields. The Bye-laws are similar to those now in force on the Board's other Open Spaces, and have been framed with special regard to the Clause in the Act of 1885, which prohibits the playing of music, or the holding of public meetings on Highbury-fields. Your Committee beg to submit the draft Bye-laws herewith, and they recommend—

That they be approved, and that all necessary steps be taken for obtaining their confirmation in accordance with the requirements of the Act.

Your Committee have, in pursuance of the Resolution of the Board of the 23rd December last, (No. 25), considered what steps are necessary to be taken for improving Highbury-fields. They are not at present prepared to report on the whole subject, but, in the meantime, in order not to miss the planting season, they have prepared a Plan showing what trees should, in their opinion, be placed on the Fields, and they beg to recommend—

That an expenditure of £108 be sanctioned for the work, and that it be referred back to them to invite Tenders and to carry out the work by Contract.

The attention of your Committee has been called to the condition of a path on Clapham-common, near Nightingale-lane, which is shown by Yellow colour on a Plan which they submit herewith. Your Committee beg to recommend—

That the path referred to be re-gravelled at an estimated cost of £30.

In pursuance of the Resolution of the Board of the 23rd December last, (No. 25), your Committee have considered what Officers are required to take charge of Highbury-fields; and, having now had experience on the subject, they have decided that two men will be sufficient. They have therefore selected as Senior keeper and Assistant two men who are, in their opinion, suitable for the positions, and they beg to recommend as follows—

That Thomas Wren, who has been for the past eight years in the service of the Board, be appointed Senior Keeper at the wages of 30s. per week, and that George Lewis, formerly a sergeant in the 2nd battalion of the Yorkshire Regiment, be appointed Assistant Keeper at the wages of 25s. per week, both men receiving the usual allowance of clothing, which consists of a tunic, helmet or cap, three pairs of trousers, three pairs of gloves, an overcoat, one pair of leggings, and two pairs of boots annually, and a cape and belt when required.

The removal of Wren from the Upper-common at Streatham, to take charge of Highbury-fields, will cause a vacancy at the former place, and, to fill it, your Committee recommend—

That Alexander Ferguson, late a corporal in the 2nd Life Guards, be appointed at the wages of 25s. per week, with the usual allowance of uniform, as mentioned in the case of Wren and Lewis.

The attention of your Committee has been called to the state of health of Henry Smith, who has been for the past 15 years Senior Heath Keeper at Blackheath. Smith, who is 70 years of age, has been laid up for some weeks past with bronchitis, and, although the medical officer who has examined him is of opinion that, with care, he may be able to perform his duties as a Common Keeper for a few more years, your Committee do not consider that, having regard to his present state, he is competent to continue in charge of Blackheath, which, as the Board are aware, is the largest Open Space under their control, being 267 acres in extent. Your Committee, however, do not consider that the Board would desire to dispense with Smith's services so long as he is able to perform a suitable amount of duty; and they therefore recommend—

That he be transferred to Brook-green.

The removal of Smith from Blackheath will cause a vacancy as Senior Keeper at that place; and, as the Assistant Keeper is a man too old to take the post with advantage to the Board, your Committee beg to recommend—

That Francis Hughes, who has been 7 years in the Board's service as Common Keeper at the Mill-fields, Hackney, and who is an experienced and vigorous man, be appointed to the post at the wages fixed by the Board, viz., 30s. per week, with the usual allowance of uniform.

In order to carry out the foregoing recommendation as regards Smith, your Committee have further to recommend—

That Charles Bone, the Keeper at present in charge of Brook-green, be transferred to take charge of Mill-fields, Hackney, at the same rate of wages as he is now receiving, viz., 25s. per week, and with the usual allowance of uniform.

Your Committee have had before them applications from the various persons who hold Licenses for the drying of clothes or the letting of animals, &c., on hire, on the Open Spaces under the control of the Board, asking for a renewal of the same for another year. Your Committee recommend—

That Licenses for one year from the 4th February, 1886, on the same conditions as last year, be sealed and be issued to the several applicants.

It having been reported to your Committee that several of the Scotch firs on Hampstead-heath, near the Spaniards, are dead, and dangerous to the public, they have instructed the proper Officer to remove such of the trees as he is satisfied are dead and in a dangerous condition. Your Committee, knowing the interest taken in the trees referred to by residents at Hampstead, artists and others, as forming one of the most picturesque features of the Heath, think it right to report what they have done, and at the same time to state that they have given instructions that as little as possible be done to alter or otherwise interfere with the natural aspect and state of the Heath, or

the timber or other trees, &c., thereon, in accordance with the provisions of the Hampstead-heath Act.

Under the authority conferred on them by the Board on the 13th June, 1873, (No. 13), your Committee have authorised the purchase of a number of tools and like articles, for use in Finsbury and Southwark Parks, and also at Hampstead-heath, the Chelsea Embankment Gardens, and Blackheath; and they have directed that the roofs of the pay office in Finsbury-park and the lodge at Wormwood-scrubs be repaired, and that two gullies be fixed at Stoke Newington-common and the surface of South-mill-field, where damaged by the bursting of a water pipe, reinstated.

All which your Committee beg to submit.

(Signed) J. E. BRADFIELD,
WM. SHEPHERD,
GEO. EDWARDS,
GEO. HILL,
G. P. MEADEN.

The Plans and Bye-laws submitted with the Report were laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Plan of the ground proposed to be exchanged between the Board and the Conservators of the River Lee, at South-mill-field, Hackney, in pursuance of the Resolution of the Board of the 30th January, 1885 (No. 8), be approved; and that the Solicitor be instructed to forthwith give effect to such Resolution.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the following Bye-law, for the regulation and management of Highbury-fields, be approved—

7. The acts and things specified in the following Clauses, numbered 1 to 23 respectively, of this Bye-law are hereby prohibited, and are declared to be offences pursuant to the Statutes above-mentioned, and throughout these Clauses and the Bye-laws the word “Board” shall mean the Metropolitan Board of Works, and the words “the Fields” shall mean Highbury-fields.

1.—Removing or injuring any of the fountains, statues, monuments, busts, railings, fences, seats, barriers, gates, lamp-posts, notice-boards, watch-boxes, buildings, or other matters or things on the Fields, or defacing or disfiguring the same by posting any bill, placard, or notice, or by writing, stamping, cutting, printing, drawing, or marking in any manner.

2.—Cutting, digging up, felling, burning, plucking, breaking, climbing up or upon, or doing damage or injury to the timber or to any of the trees, shrubs, brushwood, fencing, posts, poles, plants, flowers, grass, gorse, furze, fern, or turf on the Fields, or going within any temporary inclosure formed for the purpose of reviving the turf.

3.—Committing any encroachment on, or making any inclosure of, any part of the Fields.

4.—Erecting or placing on the Fields (unless with the consent of the Board in writing, under the hand of their Clerk) any post, rail, fence, photographic apparatus, pole, tent, booth, stand, or any building, erection, or obstruction of any kind whatsoever.

5.—Using any portion of the Fields for shaking or beating any carpet, mat, or other thing, or as a drying or bleaching ground, by placing clothes or other things on any of the trees or bushes, or on the turf, grass, or ground, or in any way so as to overhang the Fields, or by putting up any pole or line or other support for clothes or other articles, or for shaking, beating, or brushing carpets, mats, or other things.

6.—Committing any nuisance on the Fields, or against any of the trees, shrubs, walls, railings, or fences thereof.

It was *moved* by Mr. Bradfield, and seconded—That Clause No. 7 of Bye-law No. 1 be approved, as follows—

7.—Depositing or leaving on the Fields, or in any pond thereon, any road-sand, timber, bricks, stone, refuse, rubbish, paper, manure, snow, dead animals, or other matters or things, or removing ice from such pond, or fishing with net or rod therein, or in other way interfering with the fish or waterfowl; or bathing or washing any dog or other animal.

The motion having been put to the vote, it was declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Clauses Nos. 8, 9 and 10, of Bye-law No. 1, be approved, as follows—

8.—Going, or attempting to go, on any such pond when it is frozen, for the purpose of walking, sliding, skating, or otherwise, after notice by the Board's Officers or the Police (such notice to be placed on a board, to be affixed in a prominent place) that the ice is dangerous.

9.—Taking, digging, cutting, damaging, or removing any grass, [gravel, sand, sods, bog-earth, clay, turf, or other] substance of or from the Fields, without right or without the consent of the Board, under the hand of their Clerk.

10.—Burning or doing any act which might cause any timber, wood, brush-wood, gorse, furze, fern, earth, paper, rubbish, or other substance to be burned on the Fields, or sorting rags or matter of like nature, or mending any chair or other article, or causing a litter on the Fields.

It was *moved* by Mr. Bradfield, and seconded—That Clause No. 11, of Bye-law No. 1, be approved, as follows—

11.—Plying for hire with, or letting out, any horse, pony, mule, ass, goat, or other animal on the Fields, or using as a standing-place for any horse, pony, mule, ass, goat, or other animal, or for any carriage, or goat-chaise, any portion of the Fields.

The motion having been put to the vote, it was declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the following further Clauses and Bye-laws be approved.

12.—Turning out to graze or feed, or allowing or suffering to stray, be, or remain on the Fields without right, or without the consent of the Board in writing, any cattle, sheep, swine, horse, ass, mule, goose, duck, fowl, or other animal.

13.—Unlawfully constructing or laying any sewer, drain-pipe, or waterway, or other matter of like nature, on, into, or under any part of the Fields.

14.—Making or forming any new road or path over or across the Fields, without the consent of the Board in writing, under the hand of their Clerk.

15.—Bird-catching, bird-trapping, or laying or placing any net or trap for the taking of birds, taking birds' eggs or nests, or shooting, or chasing, or attempting to shoot or chase any bird, game, or animal, or throwing any stone or stick, or other missile, with intent to injure or catch any bird, game, or animal on the Fields.

16.—Firing any gun or pistol, loitering with any firearm, discharging any fireworks, or throwing any stone or stick or other missile, or playing any musical instrument, or doing anything which may endanger the public or be deemed a

nuisance, obstruction, or annoyance to the public; or gambling, playing at any game of chance, betting, or playing with cards or dice on the Fields.

17.—Brawling, fighting, quarrelling, cursing, swearing, or using indecent or improper language, or holding or taking part in any running, wrestling, or walking match, sleeping on any of the seats, or sleeping, sitting, or resting thereon, or on the Fields, in an indecent posture, or being disorderly upon the Fields or wilfully or designedly doing any act which outrages public decency, or which comes within the meaning of the 4th Section of the Vagrant Act, 5 George IV., cap. 83, whether the offence shall have been or be committed with intent to insult any female or not.

18.—Bathing or washing, or washing clothes, in any pond or water, or in any trough, or other thing, on the Fields.

19.—Drawing, driving, standing, or placing any gun or gun-carriage, limber, or waggon, cart, carriage, van, velocipede, bicycle, tricycle, truck, wheelbarrow, or vehicle on or across the ground or turf, on or over any footpath, or in any shrubbery on the Fields.

20.—Riding any horse, ass, mule, or other animal on, over, or across the turf or any footpath, or on any part of the Fields.

21.—Playing, or making preparation to play, at cricket, football, golf, or any other game, on the Fields, or exercising as volunteers, except with the consent of the Board, under the hand of their Clerk.

22.—Interfering with, obstructing, or annoying any person or persons who are playing, or have made preparation for playing, at cricket, football, golf, or other lawful game, on the Fields, with the consent of the Board, under the hand of their Clerk.

23.—Delivering, uttering or reading any public speech, lecture, prayer, scripture, sermon, or address of any kind or description whatever, or singing any sacred or secular song, or entering into any public discussion maintaining the right to deliver, utter or read any public speech, lecture, prayer, scripture, sermon, or discourse.

2. The Board's officers are authorised to arrest without warrant any person found committing an offence against the following Acts—

The Vagrant Act, 5 Geo. IV., cap. 83.

The Malicious Injury to Property Act, 24 and 25 Vic., cap. 97.

The Larceny Act, 24 and 25 Vic., cap. 96, other than the offence excepted in the 103rd Section of that Act.

3. The Board's officers are authorised to remove or apprehend, without warrant, any gambler, card-sharper, gipsy, fortune-teller, squatter, vagrant, seller of any infamous book or print, or any person guilty of shooting, brawling, fighting, boxing, or quarrelling, or using indecent or improper language, or any idle or disorderly person, or any person erecting any booth or place of any kind on the Fields, so that he may be dealt with according to law.

4. Any person committing any of the offences mentioned in these Bye-laws shall be subject to a penalty not exceeding forty shillings, and for every continuing offence to a penalty not exceeding twenty shillings for each day on which such offence shall continue, after written notice of the offence shall have been given.

5. If any person assaults or resists, or aids or incites any person to assault or resist, any officer of the Board, or other person, in the execution of his duty, or the lawful exercise of any authority under these Acts, or any Bye-law thereunder, he shall, for every such offence, be liable, on conviction, to a penalty not exceeding forty shillings.

6. All persons found disturbing the public peace, and also all persons committing any offence against the Act of Parliament, passed in the Session of Parliament held in the 2nd and 3rd years of the reign of Her present Majesty, Chapter 47, intituled "An Act for further improving the Police in and near the Metropolis," are liable to immediate apprehension, without warrant, so that they may be dealt with according to law.

7. Nothing in these Bye-laws shall take away, abridge, or limit any remedy now existing by way of indictment, or shall interfere with the powers of the Metropolitan Police, or any authority legally existing, for preventing or punishing offences, or with the powers of the Board as having the control over the Fields.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Clerk be authorised to take all necessary steps, as required by the Metropolitan Board of Works Act, 1877, and the Metropolitan Board of Works (Various Powers) Act, 1885, with a view to obtaining the sanction of the Home Secretary to the foregoing Bye-laws.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That trees be planted on Highbury-fields, as shown on the Plan now submitted, at an estimated cost of £108, and that it be referred back to the Committee to invite tenders and carry out the work by Contract.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That a path on Clapham-common, near Nightingale-lane, as shown on the Plan now submitted, be re-gravelled, at an estimated cost of £30.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Thomas Wren, who is now stationed at the Upper Common at Streatham, be appointed, during the pleasure of the Board, Senior Keeper at Highbury-fields, at the wages fixed by the Board, viz., 30s. per week, with the annual allowance of uniform, as stated in the Report.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That George Lewis be appointed, during the pleasure of the Board, Assistant Keeper at Highbury-fields, at the wages fixed by the Board, viz., 25s. per week, with the annual allowance of uniform as stated in the Report.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Alexander Ferguson be appointed, during the pleasure of the Board, Keeper of the Upper Common at Streatham, in place of Wren, at the wages fixed by the Board, viz., 25s. per week, with the annual allowance of uniform, as stated in the Report.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That in consequence of failing health, Henry Smith, who has been for the past 15 years Senior Heath-keeper at Blackheath, be transferred to Brook-green, at the same rate of wages as he is now receiving, viz., 30s. per week, with the annual allowance of uniform.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Francis Hughes, be appointed, during the pleasure of the Board, Senior Heath-keeper at Blackheath, at the wages fixed by the Board, viz., 30s. per week, with the annual allowance of uniform.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Charles Bone, be transferred to take charge of the Mill-fields, Hackney, during the pleasure of the Board, in place of Hughes, at the same rate of wages as he is now receiving, viz. 25s. per week, with the annual allowance of uniform.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Licenses be granted for a period of One year, from the 4th February next, to the several persons mentioned in the list submitted by the Committee, to dry clothes on Blackheath, subject to revocation of the Licenses at any time, at the pleasure of the Board.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Licenses be granted for a period of One year, from the 4th February next, to the several persons mentioned in the list submitted by the Committee, to dry clothes on Hampstead-heath, subject to revocation of the Licenses at any time, at the pleasure of the Board.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Licenses for One year from the 4th February next, but revocable at any time during the pleasure of the Board, be granted to the persons mentioned in the list submitted by the Committee, to let animals and vehicles on hire, on week days only, on Blackheath.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Licenses for One year from the 4th February next, but revocable at any time during the pleasure of the Board, be granted to the persons mentioned in the list submitted by the Committee, to let animals and vehicles on hire, on week days only, on Clapham-common.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Licenses for One year from the 4th February next, but revocable at any time during the pleasure of the Board, be granted to the persons mentioned in the list submitted by the Committee, to let animals and vehicles on hire, on week days only, on Hampstead-heath.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That Licenses for One year from the 4th February next, but revocable at any time during the pleasure of the Board, be granted to the persons mentioned in the list submitted by the Committee, to let animals and vehicles on hire, on week days only, on Peckham-rye-common.

The Clerk laid before the Board the several Licenses prepared in accordance with the foregoing Resolutions.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said several Licenses ; and the Seal was affixed accordingly.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the several other proceedings of the Committee, as mentioned in their Report, be approved.

15. Mr. Shepherd, the Chairman of the Bridges Committee, brought up a Report, as follows—

REPORT OF THE BRIDGES COMMITTEE.

Spring-gardens, 27th January, 1886.

Your Committee, under the general reference by the Board of the 4th November last (No. 13), have had before them Contract Drawings prepared by your Engineer for the work of constructing the new Bridge, with approaches, over the Thames at Battersea. Your Committee having carefully examined the Drawings, beg to submit the same with this Report, and to recommend—

That the Drawings be approved and lithographed, and that copies and prints thereof and of the specification be prepared for the purpose of obtaining Tenders for the execution of the works.

Your Committee further recommend—

That an Advertisement be issued inviting Tenders for the execution of the works, the Tenders to be opened at the meeting of the Board on the 26th March next.

Your Committee have further to report that they have considered as to whether the cost of the works ordered by the Board on the 18th December last (No. 3), for strengthening the Albert Bridge, should be charged to Capital or Working Account. Your Engineer has stated to your Committee that the necessity for strengthening the Bridge was urged before the Arbitrator as a reason for reducing the cost of purchase by the Board, and that this fact did, no doubt, reduce the amount awarded by him. Under these circumstances your Committee are of opinion that the cost of the works about to be carried out by the Board should be considered as part of the purchase of a sound Bridge, and should be charged to Capital Account. They beg to recommend accordingly.

Your Committee have considered the Letter, referred to them on the 8th instant (No. 39), from the Wandsworth District Board, on the subject of a proposed embankment of the towing path at Putney. The Letter is a continuation of correspondence which passed between the Thames Floods Committee and the District Board, and which commenced by a suggestion on the part of the District Board that the towing path

should be embanked and a public road formed as shown on a Plan accompanying their Letter. The Plan in question showed an embankment wall on the River side of the tow path, carried out far enough to widen the path to 45 feet, to be converted into a carriage-way of 33 feet and a foot-way next the River of 12 feet, slipways being left at intervals to allow boats to be lowered into the River from the various boat-houses. In submitting this proposal the enquiry was at the same time made by the District Board, whether, if their Plan were carried out all the requirements of this Board under the provisions of the Thames Floods Prevention Act would be deemed to be complied with. In answer, the Thames Floods Committee, after conference with your Engineer and your Solicitor, directed the Clerk to write to the District Board, and ask if they would be prepared to raise the embankment from the level proposed by them—viz., 16'32 feet above Ordnance datum—to the Board's standard of 18 feet, a difference of 1 foot 8 inches, and to pay any compensations which might become payable. The reply of the District Board is dated 26th May, 1885, and is submitted herewith for the information of the Board. In it the District Board explain, with regard to the additional height of the River wall, that they had been in communication with the owners of all the boat-houses and other adjacent property abutting on the tow-path, and have ascertained that they were willing to agree to the formation of the embankment to the height proposed—viz., 16'32 feet above Ordnance datum—and to give an undertaking not to claim compensation either on account of the construction of the River wall, or in respect of any flooding which might occur after the wall was raised to that height. If, however, the embankment were raised above 16'32, it would, the Letter states, altogether prevent the use of the boat-houses for their present purposes, and heavy claims for compensation would result. The District Board further point out that the height of 18 feet is only reached by very unusual floods, and that an embankment of the proposed height would keep out all ordinary spring tides. Should, however, the unusual height of 18 feet above Ordnance datum be reached, they state that no real damage would be caused to the boat-houses by their being temporarily flooded, and no dwelling house would be affected, as the ground at the rear of the boat-houses is of the required height, and the low lying piece of land at the Western end of the proposed embankment would be raised to the same level. In reply to an enquiry in this Board's Letter as to the authority of the District Board to carry out the proposed improvement the District Board state that they have been in communication with the Thames Conservancy, who are willing to co-operate, and to contribute £800 towards the expense. The Letter proceeds to make application to this Board, under Section 72 of the Metropolis Local Management Act, 1862, for consent to the work, and for a contribution to its cost. The total estimate is £3,500, of which the Thames Conservancy, as above stated, will contribute £800, and this Board are asked to contribute one-half of the balance, viz., £1,350. The District Board further state that, while, under the circumstances above mentioned, they feel that they cannot amend their proposition by raising the level of the proposed embankment to 18 feet above Ordnance datum, they will undertake to pay any compensation to which owners or occupiers of property abutting on the proposed embankment may establish a legal claim, and to indemnify this Board against liability in respect thereof. Further correspondence ensued upon the Letter, with which it is not necessary to trouble the Board, and certain suggestions were made to the District Board to which the Letter which forms the subject of the present reference is the reply. The proposal of the District Board, as it now stands, is to make the tow-path as before, 14'30 on the river edge and 16'32 above Ordnance datum on the land side, but immediately behind, or on the land side of the tow-path, to form a bank up to 18 feet, the Board's standard level. That arrangement your Engineer states will protect the back land, and as the proprietors of the boat-houses, which occupy a large proportion of the frontage, object to any other arrangement, and probably would claim compensation if it were insisted upon, and as the widening of the tow-path, which is a very desirable improvement, might otherwise be jeopardised, he suggests that the proposal of the District Board should be acceded to. Should the ground at any future time

be occupied in a different manner, this Board would still be empowered to order any other flood-works which might be rendered necessary by such alteration. Although the tide will very rarely rise above the bank of the tow-path, the level of which is 16'32, it will not unfrequently, probably 50 times a year, rise over its river edge, the limit of which is to be 14'30, and so partially flood the tow-path, and your Engineer points out that the width of tow-path opposite some of the boathouses measures only 27 feet on the Plan, but is shown on large scale sections to be 33 feet at such places exclusive of footpath, and that the larger dimensions should be adhered to. It will also be necessary that the proposed bank should be continued up the Beverley-brook wherever the land is below the level of 18 feet above Ordnance datum. In addition to the above the District Board request the sanction of this Board to the widening of the approach to the tow path at the Windsor-street end, and to be allowed to set back the fence wall to the enclosure so far as it is the property of this Board. Your Committee have very carefully considered the matter, and, concurring in the opinion of your Engineer that the proposals of the District Board should be acceded to, they beg to submit the following recommendation—

That, subject to any future works under the Thames Floods Prevention Act which altered circumstances may render it necessary for the Board to order, the approval of the Board be given to the proposals of the District Board.

Your Committee further recommend—

That the Letter from the District Board in which application is made under Section 72 of the Metropolis Local Management Act, 1862, for a contribution towards the cost of the Improvement be referred to the Works and General Purposes Committee, for consideration and report.

All which your Committee beg to submit.

(Signed)

WM. SHEPHERD,
W. R. SELWAY,
GEO. EDWARDS,
G. P. MEADEN,
F. H. FOWLER.

The Contract Drawings and Letter submitted with the Report were laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Shepherd, seconded by Mr. Selway, and *resolved*—That the Contract Drawings for the construction of the new Bridge over the Thames at Battersea be approved and lithographed, and that copies and prints thereof, and of the Specification, be prepared for the purpose of obtaining Tenders for the execution of the works.

It was *moved* by Mr. Shepherd, seconded by Mr. Selway, and *resolved*—That an Advertisement be issued inviting Tenders for the execution of the above-mentioned works, the Tenders to be opened at the Meeting of the Board on the 26th March next.

It was *moved* by Mr. Shepherd, seconded, and *resolved*—That the cost of the works to the Albert Bridge, which were ordered by the Board on the 18th December last to be executed, be charged to Capital Account.

It was *moved* by Mr. Shepherd, seconded by Mr. Meaden, and *resolved*—That so much of the Report as relates to the Letter from the Wandsworth District Board, with reference to an embankment of the towing-path above Putney Bridge, be approved; and that, subject to any future works under the Thames Floods Prevention Act, which altered circumstances may render it necessary for this Board to order, the sanction of this Board be given to the proposal of the District Board, and to the alteration in the boundary wall between Windsor-street and the tow-path; and that the Letter from the District Board now submitted, in which application is made under Section 72 of the Metropolis Local Management Act, 1862, for a contribution towards the cost of

the Improvement, be referred to the Works and General Purposes Committee, for consideration and report.

16. Mr. Selway, the Chairman of the Parliamentary Committee, brought up a Report, as follows—

REPORT OF THE PARLIAMENTARY COMMITTEE.

Spring-gardens, 27th January, 1886.

Your Committee have to report, in continuation of the Report made at the last meeting of the Board, that they have considered various other Bills deposited for introduction into Parliament, together with the Engineer's and the Architect's Reports thereon, referred by the Board at the last meeting; and they now recommend—

That Petitions be presented against the following Bills—

Metropolitan Street Improvements Act, 1877, Amendment Bill.
Greenwich and Millwall Subway Bill.
Bexley-heath Railway Bill.
East and West India Docks Bill.

There are other Bills, with respect to which your Committee are of opinion that it is either not necessary, or not expedient, that the Board should present Petitions; though with regard to one of them, the Bill of the Kensington Vestry, by which power is asked to acquire land on which to dispose of the Parish refuse, your Committee are not satisfied that the power sought to be exercised would not injuriously affect some of the interests of the inhabitants of that part of London in which the land is situated. Your Committee recommend—

That Petitions be not presented against the following Bills—

Kensington Vestry Bill.
Parliament-hill and Hampstead-heath Extension Bill.
Wimbledon and West Metropolitan Junction Railway Bill.
Highgate and Kilburn Open Spaces Bill.

All which your Committee beg to submit.

(Signed) W. R. SELWAY,
GEORGE PHILLIPS,
GEO. EDWARDS,
F. H. FOWLER.

The Report having been read and received,

It was *moved* by Mr. Selway, seconded by Mr. Fowler, and *resolved*—That a Petition be presented against the Metropolitan Street Improvements Act, 1877, Amendment Bill.

It was *moved* by Mr. Selway, and seconded by Mr. Fowler—That a Petition be presented against the Greenwich and Millwall Subway Bill.

An amendment thereon was *moved* by Mr. Richardson, and seconded by Mr. Lenanton—That the question be referred to the Works and General Purposes Committee, for consideration and report.

The amendment having been put to the vote, there were for it, 4; against it, 25; and it was lost.

The original motion was then put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Selway, seconded, and *resolved*—That a Petition be presented against the Bexley-heath Railway Bill.

It was *moved* by Mr. Selway, and seconded—That a Petition be presented against the East and West India Docks Bill.

The motion having been put to the vote, there were for it, 24; against it, 1; and it was declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Selway, and seconded by Mr. Fowler—That no Petition be presented against the Kensington Vestry Bill.

The motion having been put to the vote, it was declared by the Chairman to be carried; and it was resolved accordingly.

It was moved by Mr. Selway, seconded, and resolved—That no Petition be presented against the Parliament-hill and Hampstead-heath Extension Bill.

It was moved by Mr. Selway, seconded, and resolved—That no Petition be presented against the Wimbledon and West Metropolitan Junction Railway Bill.

It was moved by Mr. Selway, seconded, and resolved—That no Petition be presented against the Highgate and Kilburn Open Spaces Bill.

17. Read a Report by the Engineer, dated 29th January, 1886, on a Letter from the Vestry of Paddington, asking the Board to provide, fix, and maintain, at their own expense, flaps on the outlets of the Chilworth-street and Cleveland-square local Sewers into the Main Ranelagh Sewer at Gloucester-terrace, for the purpose of preventing floodings, and also to construct side-entrances to the Ranelagh Sewer near those flaps, so as to afford ready means of access to the latter; stating that the local Sewers to the East and West of Gloucester-terrace, more particularly those in Chilworth-street, Cleveland-terrace and square, and Bishop's-road, got overcharged with water from the Ranelagh Sewer each time that a heavy fall of rain occurred; that the Vestry, through their Surveyor, suggested that the Ranelagh Main Sewer should be lowered about seven feet, for a length of about 600 feet, but that the work would be a very tedious and expensive one, probably costing not less than £6,000; that the cheapest means of preventing the flooding would be to fix self-acting flaps in the Ranelagh Sewer, at a cost of about £250, and, with a view to give better access to the Main Sewer for the purpose of keeping it and the flaps clean and in good working order, to construct two long side entrances, at a further cost of about £240, and recommending that the Board should sanction the execution of those works, and that they should be forthwith carried out by the General Contractors.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved and acted upon, and that the works be executed accordingly, the cost thereof being charged to the General Account of the Board.

18. Read a Report by the Engineer, dated 29th January, 1886, recommending the execution of the following work, under the general Contract—

ESTIMATE.

Constructing a self-acting gauge in the Southern Outfall Sewer,	
on the premises of the Deptford Pumping Station ...	£35 0 0

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the work be executed accordingly, the cost thereof being charged to the General Working Account of the Board.

19. The Solicitor reported that the Board's (Fire Brigade Expenses) Bill had been introduced into the House of Commons on Friday last by Mr. Tatton Egerton, Sir James McGarel-Hogg, and Mr. Rider Cook, and read a first time, and that the second reading had been appointed for the 17th February next, and he presented a copy of the Bill.
20. The Solicitor reported that the Board's (Water Supply, &c.) Bill had been introduced into the House of Commons on Friday last by Sir James McGarel-Hogg, Mr. Bryce, Sir George Russell, and Col. Hughes, and read a first time, and that the second reading had been appointed for the 24th February next, and he presented a copy of the Bill.
21. The Solicitor reported that the Board's (Theatres, &c.) Bill had been introduced into the House of Commons on Friday last by Mr. Rider Cook and Sir James McGarel-Hogg, and read a first time, and that the second reading had been appointed for the 17th March next, and he presented a copy of the Bill.
22. The Solicitor reported that the Board's (Keeping of Firewood) Bill had been

introduced into the House of Commons on Friday last by Sir James McGarel-Hogg and Mr. Morgan Howard, and read a first time, and that the second reading had been appointed for the 9th June next, and he presented a copy of the Bill.

- 23.** The Solicitor reported that Mr. Plunket had given notice for the introduction of the Hyde-park-corner (New Streets) Bill to provide for the maintenance of the new streets at Hyde-park-corner.
- 24.** The Solicitor reported that the Theatres, &c. (Metropolis) Bill, which provided for the better regulation of Theatres and Music-halls in the Metropolis had been introduced by Mr. Dixon Hartland and Mr. McFarlane on Friday last, and read a first time, and that the second reading had been appointed for the 3rd February next, and he presented a copy of the Bill.
- 25.** The Solicitor reported that the Sanitation of Houses Bill, which provided for the better sanitation of houses in the Metropolis, had been introduced by Mr. Dixon Hartland and Sir Edmund Lechmere on Friday last, and read a first time., and that the second reading had been appointed for the 19th May next.
- 26.** The Solicitor reported that the Employers' Liability Act (1880) Amendment Bill, which was to amend the Employers' Liability Act, 1880, had been introduced by Mr. Arthur O'Connor, Dr. Commins, Mr. Sexton and Mr. Jesse Collings on Friday last, and read a first time, and that the second reading had been appointed for the 17th February next,
- 27.** The Solicitor reported that the Employers' Liability Act (1880) Amendment (No. 2) Bill, which was another Bill for amending the Employers' Liability Act of 1880, had been introduced by Mr. Burt, Mr. Broadhurst, Mr. Joicey, Mr. Haldane and Mr. Lockwood, on Friday last, and read a first time, and that the second reading had been appointed for the 10th March next, and he presented a copy of the Bill.
- 28.** The Solicitor reported that the Land Purchase Facilities Bill, for amending the law relating to the compensation of owners of land acquired for undertakings of public utility, had been introduced by Mr. McLaren, Mr. Joseph Bolton, Mr. Houldsworth and Mr. Jesse Collings, and read a first time on Friday last, and that the second reading had been appointed for the 7th July next.
- 29.** The Solicitor presented the following documents for sealing—

Contract with Sir C. Tennant, Bart, M.P., W. Tennant, J. D. Taylor, E. P. Tennant, and W. A. Tennant (trading as "C. Tennant, Sons and Co.) for the supply of Manganate of Soda.

Contract with F. J. Knight and H. D. Hill (trading together as Knigh Hill and Co.), for the supply and delivery of Caustic Soda "Bottoms."

It was moved by Mr. Fowler, seconded, and resolved—That the Common Seal of the Board be affixed to the said documents respectively; and the Seal was affixed accordingly.

- 30.** The Clerk laid before the Board copies of the Orders of the Board of the 15th instant (No. 6), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

Crawley-mews	...	...	...	...	...	St. Pancras.
Diana-place	...	...	...	...	...	Ditto
Euston-street	...	...	...	...	...	Ditto
Grafton-mews	...	...	...	...	...	Ditto
Hampden-street	...	...	...	...	...	Ditto

It was moved by Mr. Fowler, seconded, and resolved—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

- 31.** The Clerk presented a Letter from Mr. H. Wilkins, Clerk to the Vestry of St. James, Westminster, dated 22nd January, 1886, referring to the proposal in the Board's Various Powers Bill to form an approach from the Victoria Embankment to Charing-cross Foot-bridge, and expressing a hope that the Board would extend the improvement to the formation of an approach to the Foot-bridge on a level with the Strand.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

- 32.** The Clerk presented a Letter, as follows—

No. 282.
B. 22.1.

45, Fenchurch-street, London, E.C.,
January 23rd, 1886.

SIR,—I beg to acknowledge the receipt of your Letter of yesterday's date, bearing the above number.

I have much pleasure in expressing my readiness to accept the conditions imposed, and will endeavour to discharge the duties required of me faithfully and efficiently,

I am, &c.,
(Signed) HUGH McLACHLAN.

The Clerk,
Metropolitan Board of Works.

- 33.** The Clerk presented a Letter from Mr. T. E. Gibb, M.P., Clerk to the Vestry of St. Pancras, dated 23rd January, 1886, referring to the reduction of the Board's promised contribution towards the Woodsome-road Improvement from £500 to £395, and asking how the figures £780 9s. 2d., stated by the Board's Officers to be the net cost, were arrived at; also asking that, in consideration of the circumstances mentioned in the Letter, the Board would make the full contribution of £500 originally promised.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

- 34.** The Clerk presented a Letter from Mr. T. E. Gibb, M.P., Clerk to the Vestry of St. Pancras, dated 23rd January, 1886, applying for payment of a moiety of the sum of £937, being the amount paid to the School Board for London in respect of land purchased for the Princess-terrace (Road) Improvement.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect and the Accountant do report to the Committee thereon.

- 35.** The Clerk presented a copy Report of the Water Examiner, appointed by the Board of Trade, of the examination made by him of the Water supplied by the several Metropolitan Water Companies during the month of December, 1885.

- 36.** The Clerk presented a Letter from Mr. T. W. Marchant, Clerk to the Vestry of St. Paul, Deptford, dated 25th January, 1886, as to complaints respecting the condition of Canterbury-road, Hatcham, and urging the Board to take such steps as they might think proper to enforce the performance by the Vestry of Camberwell of the duty placed upon them of putting the said road into a proper state of repair.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to send a reply thereto.

- 37.** The Clerk presented a Letter from the Editor of *The Sanitary Record*, dated 26th January, 1886, stating that he would be glad to receive, for notice in that paper, a copy of the Report of the Special Purposes, &c., Committee as to the cleansing and ventilation of Sewers, presented to the Board on Friday last.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That a copy of the Report be supplied.

38. The Clerk presented a Letter from Mr. W. A. Ellis, dated 26th January, 1886, transmitting copy of a Resolution passed at a meeting of inhabitants of the neighbourhood of Brompton-road, requesting the Board to refuse their sanction to the proposed Subway along the Brompton-road.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Parliamentary Committee, for consideration in connection with the references already made to them on the subject to which it relates.

39. The Clerk presented a Letter from Mr. F. T. Bayley, Hon. Secretary of the Firewood Merchants Association, dated 26th January, 1886, transmitting copies of Resolutions passed at a meeting of Firewood Merchants in opposition to the Metropolis safe keeping of Firewood Bill, 1886.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

40. The Clerk presented two Letters from Mr. C. E. Parker Rhodes, [dated 23rd and 27th January, 1886, asking the Board to receive a Deputation from Oilmen and retailers of Firewood, in opposition to the Metropolis safe keeping of Firewood Bill, 1886.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to receive the Deputation.

41. The Clerk presented a Letter from Mr. T. Toon, dated 27th January, 1886, suggesting the name "King Theodore's-road," or, "King Theodore-street," for the line of thoroughfare from Piccadilly to New Oxford-street, for the reason that Theodore, who was King of the Island of Corsica, came to England and lived in exile in Soho, where he died, and was buried in the Parish Church of St. Anne, adjacent to the new street.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which it relates.

42. The Clerk presented a Letter from Mr. A. Hicks, Organising Secretary of the Marylebone and St. Pancras Branch of the Social Democratic Federation, dated 26th January, 1886, asking the Board, on account of the distress which prevailed in that District, to start relief works, and suggesting that the land at the junction of Great College-street and Kentish-town-road should be utilised for the erection of Artizans' Dwellings, and that the Hampstead Improvement should be commenced.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee for consideration, with authority to send a reply thereto.

43. The Clerk presented Letters, as follows—

Letter from Messrs. Sutton and Ommaney, dated 25th January, 1886, applying for the consent of the Board to such part of the North London Tramways Extensions as was proposed to be constructed within the Metropolis.

Letter from Messrs. Sutton and Ommaney, dated 25th January, 1886, on behalf of the Southwark and Deptford Tramways Company, applying for the consent of the Board to such of the Tramways proposed by the Company's Bill as would be within the Metropolis.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letters be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subjects to which they relate.

44. The Clerk presented a Letter from Mr. J. W. Cook, Clerk to the Vestry of Christ Church, Spitalfields, dated 27th January, 1886, asking the Board to receive a Deputation

from the frontagers in Commercial-street and Leman-street, and the ratepayers of Spitalfields, in opposition to the application of the North Metropolitan Tramways Company (Bill No. 1), for power to make a Tramway along Commercial-street and Leman-street.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Mr. Cook be informed that, if he will send in a written statement of the objections to the Tramway referred to, it shall be carefully considered, but that the Board do not think it necessary that the Deputation should attend.

45. The Clerk presented a Letter from Messrs. A. Hubbard and R. J. Beale, dated January, 1886, submitting a Drawing of a vessel for transporting large quantities of Sewage Sludge out to sea, and explaining that the scheme was not in competition with the designs advertised for by the Board, but was an entirely independent suggestion.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

46. The Clerk presented a Letter, as follows—

Board of Works.

5, Tavistock-street, Strand,
28th January, 1886.

HAMPSTEAD-HEATH ENLARGEMENT.

DEAR SIR,—The Board, yesterday, further considered this question, and desired me to intimate to your Board that it will look with favour on the acquisition of the lands provided the rate of £500 per acre is the maximum price paid, and provided, also, that the Metropolitan Board of Works only contributes a moiety of aggregate amount paid for the lands.

Yours, &c.,
(Signed) THOS. M. JENKINS, Clerk.

J. E. Wakefield, Esq.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be received.

47. The Clerk presented a Letter, as follows—

Mile-end-old-town, Middlesex.

Guardians' Offices, Bancroft-road,
Mile-end, London, E.
28th January, 1886.

DEAR SIR,—I am directed by the Guardians of the Poor of the Hamlet of Mile-end Old-town to inform you that they have resolved to provide new Casual Wards at their Workhouse in Bancroft-road, at a cost not exceeding £5,000, which expenditure has been approved by the Local Government Board.

I am further directed to enquire whether the Metropolitan Board of Works will advance the said sum of £5,000 on loan to the Guardians, repayable within a period of 20 years, and if so, at what rate of interest per centum per annum.

I enclose a copy of the Order of the Local Government Board authorising the Guardians to borrow the said sum of Five thousand pounds.

The favour of an early reply will be appreciated.

I am, &c.,
(Signed) W. THACKER,
Clerk to the Guardians.

J. E. Wakefield, Esq.,
Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

48. The Clerk presented a Letter from Mr. Rogers Field, C.E., dated 28th January, 1886, asking for a copy of the Report of the Special Purposes Committee on the ventilation and cleansing of Sewers.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the application be complied with.

49. The Clerk presented a Letter from Mr. C. J. Phipps, dated 29th January, 1886, commenting upon the Report of the Building Act Committee with respect to the Portland Hall (India in London); applying for the Board's Certificate for the building, and asking that the legal proceedings directed by the Board to be taken might be temporarily suspended, and that he might be heard upon the consideration of his application for a Certificate.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

50. The Clerk presented a Letter from Mr. H. Fewson, dated 28th January, 1886, submitting his invention for the treatment of noxious Gases, separately, or combined as in sewer gas.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Special Purposes and Sanitary Committee, for consideration and report.

51. The Clerk presented a Letter from Mr. J. O'Shaughnessy, Hon. Secretary of the South West Ham Radical Association, dated 29th January, 1886, forwarding a Resolution protesting against the decision of the Board not to open the Main Drainage embankment as a public promenade.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be received.

52. The Clerk presented a Letter from Mr. J. Casey, dated 29th January, 1886, stating that he had sent in designs for a Sludge Vessel, and that should the Board ultimately decide to adopt the scheme for the removal of the Sewage sludge, he would be prepared to submit an amended Tender for the work.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

53. The Chemist laid before the Board his Return of the Testings made at the Gas-testing Stations during the week ended on the 26th instant, as follows—

Company.	District.	Illuminating Power. (In Standard Sperm Candles.)			Sulphur. (Grains in 100 cubic feet of Gas.)			Ammonia. (Grains in 100 cubic feet of Gas.)			Sulphuretted Hydrogen.

The pressure of the Gas supplied by the Gas Light and Coke Company, as tested in Sun-street, E.C., on 21st January, 1886, at 9.30 p.m., was 2.3 inches.

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested in Cottage-lane, Clapham, on January 20th, 1886, at 7.30 p.m., was 2.10 inches.

54. It was *moved* by Mr. Fowler, pursuant to notice, seconded by Mr. Selway, and *resolved*—That Mr. Bonthron be appointed on the Building Act Committee.

55. CAMBERWELL.—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. H. Vulliamy, on behalf of Mr. Willoughby, for the consent of the Board to the erection of ten one-storey shops on the forecourts of houses in Bushey-hill-terrace, Peckham-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

56. CLERKENWELL.—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. M. Davis, for the consent of the Board to the re-erection of Nos. 1 and 2, North-street, Pentonville, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

57. FULHAM.—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. T. J. Bailey, on behalf of the School Board for London, for the consent of this Board to the erection of three open play-sheds at the Schools in Westville-road, Hammersmith, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection therein referred to, be commenced within Six months, and be [completed within Eighteen months from this date, that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board, and that the whole of the work be executed to the satisfaction of the District Surveyor.

58. GREENWICH.—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. C. J. C. Pawley, for the consent of the Board to the erection of four one-storey shops upon land adjacent to the South-Eastern Railway Station in Greenwich-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

59. GREENWICH.—Read a Report by the Superintending Architect, dated 26th January, 1886, on the application of Mr. G. T. Wood, for approval by the Board of a Plan for the construction of wooden hoods and steps to two houses in Mycenæ-road, Westcombe-park.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

60. PLUMSTEAD.—Read a Report by the Superintending Architect, dated 18th January, 1886, on the application of Mr. J. Pharaoh, for the consent of the Board to the erection of eight cottages on the East side of Troughton-road, Charlton, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the cottages therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

61. ST. PANCRAS.—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. E. V. Grose, on behalf of Mr. H. Ward, for the consent of the Board to the erection of a Factory at the corner of Miller-street, Arlington-road, to the line shown upon the amended Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee when the subject shall be considered.

- 62. WESTMINSTER.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. G. Baines, on behalf of Messrs. J. W. Hobbs and Co., for approval by the Board of an amended Plan for the erection of residential flats on the West side of Carlisle-street, in the position and to the line shown thereon, also for approval of the open spaces at the rear of such buildings, as shown upon the said Plan.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 63. WOOLWICH.**—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. T. Davey, for the consent of the Board to the erection of a three-storey house in Queen-street, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the house therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of the Board.

- 64. SHOREDITCH.**—Read a Report by the Superintending Architect, dated 27th January, 1886, on the application of Messrs. Woodthorpe and Hammond, on behalf of the Estate Trustees of St. Giles Without, Cripplegate, and St. Luke, Middlesex, for approval by the Board of a Plan for the construction of a chimney shaft at the Baths and Laundry of the Artizans' Dwellings in Chatham-gardens, Nile-street.

It was *moved* by Mr. Shepherd, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 65. ST. PANCRAS.**—Read a Report by the Superintending Architect, dated 26th January, 1886, on the application of Mr. W. Turner, on behalf of Messrs. Batho and Wheeler, for approval by the Board of a Plan for the construction of a chimney-shaft at the rear of No. 68, Mansfield-road, Kentish-town.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

- 66. GREENWICH.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. J. J. Downes, for approval by the Board of an amended Plan for the erection of buildings on the West side of Combe Farm-lane, Blackheath, in the position and to the line shown thereon.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 67. WANDSWORTH.**—Read a Report by the Superintending Architect, dated 27th January, 1886, on the application of Mr. T. S. Archer, on behalf of Dr. T. Watney, for approval by the Board of a Plan for the formation and name of a street at "Water-side," leading out of Jew's-row, York-road, and abutting upon the River Thames.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report, and that the Engineer do report to the Committee thereon.

- 68. CHELSEA.**—Read a Report by the Superintending Architect, dated 26th January, 1886, on the application of Mr. J. J. Stevenson, for approval by the Board of a Plan for the erection of two stables, with living rooms over the same, in Clabon-mews, Cadogan-

square, with open spaces at the rear thereof, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

62. LAMBETH.—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. M. H. Davies, on behalf of Messrs. J. and R. Bennett, for approval by the Board of an amended Plan for the construction of an open iron shed at the rear of Park-villas, Norwood-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

70. HACKNEY.—Read a Report by the Superintending Architect, dated 26th January, 1886, on a Letter from Mr. A. Payne, District Surveyor, stating that a building used as a Blacksmith's forge, and situated on land belonging to the Regent's Canal Company, was claimed by the Secretary of such Company to be exempt, under the 54th Section of the Company's Act, from the operation of the Building Act, 1855, and asking for the advice of the Board on the subject.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto; and that the Solicitor do advise the Committee thereon.

71. STRAND.—Read a Report by the Superintending Architect, dated 27th January, 1886, submitting, for the Seal of the Board, a License in respect of a temporary iron building erected at the rear of the Offices of the London School Board, Victoria Embankment.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said License; and the Seal was affixed accordingly.

72. METROPOLIS.—Read a Report by the Superintending Architect, dated 26th January, 1886, relative to the expiration of the several Licenses granted by the Board, for the erection and use of the following wood and iron buildings, viz.—a School-room at the rear of No. 93 (late No. 60), Coningham-road, Shepherd's-bush, a Mission-room at the rear of premises in Evelyn-street, Deptford, a Chapel in Verney-road, Rotherhithe, and a studio in Berkeley-grove, Regent's-park, and stating that applications had not been received for the renewal of such Licenses.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the subject be referred to the Building Act Committee, for consideration and report, and that the Solicitor do advise the Committee thereon.

73. ISLINGTON.—Read a Report by the Superintending Architect, dated 26th January, 1886, on the application of Messrs. Leoni and Co., for the permission of the Board to retain for a further period, the temporary wood and iron building erected at the rear of No. 54, St. Paul-street, New North-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

74. LAMBETH.—Read a Report by the Superintending Architect, dated 28th January, 1886, on a Letter from Mr. H. F. Swynfin, Secretary of the St. James's Temperance Mission and Lecture Hall Company, enquiring when the Company might hope to receive the Certificate of the Board in respect of the St. James's Temperance Mission-hall, in Royal-road, Kennington.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Letter be referred to the Building Act Committee, for consideration, with authority to send a reply thereto.

75. LEWISHAM.—Read a Report by the Superintending Architect, dated 27th January, 1886, on the application of Messrs. Braby and Co., on behalf of Mr. A. C. Moore, for

approval by the Board of a Plan for the construction of a wood and iron shed at the rear of No. 220, Anerley-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

76. PLUMSTEAD.—Read a Report by the Superintending Architect, dated 27th January, 1886, on the application of Mr. R. A. Dash, on behalf of Mr. C. E. Norris, for approval by the Board of an amended Plan for the construction of a loft addition to stabling adjoining Holmesdale-house, at Eltham-green.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

77. SOUTHWARK (CHRISTCHURCH)—Read a communication from Mr. Edwin Richard Hewitt, District Surveyor under the Metropolitan Building Act, 1855, for the District of St. Saviour, St. George-the-Martyr (part) and Christchurch, Southwark, and the Northern Division of Lambeth, dated 26th January, 1886, stating that certain works were about to be carried out at Nos. 8 and 9 Charles-street, and asking the Board to appoint some other Surveyor as the District Surveyor to superintend such works. Whereupon it was *moved* by Mr. Ewin, seconded, and *resolved*, and *ordered*, as follows—~~Whereas~~, Mr. Edwin Richard Hewitt, District Surveyor for the District of St. Saviour, St. George-the-Martyr part, and Christchurch, Southwark, and the Northern Division of Lambeth, did on the 26th day of January, 1886, give notice to this Board that he, the said Edwin Richard Hewitt, was engaged to act professionally in respect of certain works at Nos. 8 and 9, Charles-street, and the said Edwin Richard Hewitt has been since the said date, and now is, engaged to act professionally as aforesaid. Now, therefore, it is *ordered* by this Board—That Mr. John Alexander James Woodward, District Surveyor for the District of Central Lambeth, and part of Battersea, be appointed by the Board, and the said John Alexander James Woodward is hereby appointed to survey the said premises, for the purposes of the Metropolitan Building Act, 1855, and to act as District Surveyor in respect thereof.

Adjourned until Friday, the 5th February next,
at this Office, at Twelve o'clock at noon.

No. 5.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday, the 5th day of February, 1886**, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^cGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

CHARLES HARRIS, Esq.	FREDERICK COX, Esq.	GEORGE EDWARDS, Esq.
WILLIAM URQUHART, Esq.	WILLIAM DEBENHAM, Esq.	WILLIAM ANDREWS, Esq.
THOMAS GEORGE FARDELL, Esq.	HON. ALANDE TATTON EGER- TON, M.P.	WILLIAM BOUTCHER, Esq.

		ROBERT JONES, Esq.
		JOHN JONES, Esq.

1. The Minutes of the Meeting of the Board, held on the 29th January last, were approved, and were signed by the Chairman, and by two other Members of the Board, present at such Meeting.
2. Mr. Phillips handed in Memorials, as follows—

In Parliament.—Session 1886.

NORTH METROPOLITAN AND THE LONDON STREET TRAMWAYS.

To the Metropolitan Board of Works.

We, the undersigned Members of the Holborn District Board of Works, are of opinion that an extension of the Tramways from the Holborn Town Hall, along Theobald's-road, towards Bloomsbury, as far as Devonshire-street, or thereabouts, and from King's-cross to Holborn, would be of great public utility and convenience, would materially improve the trade of the District, and be otherwise advantageous to the ratepayers and inhabitants.

That your Petitioners therefore pray that the consent of your Honourable Board may be given, subject to such Clauses as your Honourable Board may deem necessary. '

(Signed) S. JACOBS,
And 25 others.

In Parliament.—Session 1886.

NORTH METROPOLITAN TRAMWAYS.

To the Metropolitan Board of Works.

Petition of the undersigned persons, being respectively Owners, Lessees or Occupiers of property fronting on the Theobald's-road, through which it is proposed to construct a Tramway, under the powers of the above-mentioned Bill, from the Holborn Town-hall to Devonshire-street, or thereabouts.

SHEWETH AS FOLLOWS—

1.—That your Petitioners are respectively Owners, Lessees and Occupiers of property along the Theobald's-road, and pay large sums in the shape of rent, rates and taxes of such premises.

2.—That the Bill now pending is calculated to greatly facilitate the traffic in the said streets, and thereby to improve the value of property in the route.

3.—That there exists a great necessity for some means of public conveyance between the districts inhabited by your Petitioners and the North and East of London, and that the Tramway proposed by the said Bill is eminently calculated to fulfil this end.

4.—That the road along which the said Tramway is proposed to be laid is a wide and level road of easy gradient, and well adapted for the construction and working of Tramways.

Your Petitioners therefore pray that the consent of your Honourable Board may be given to the Bill, subject to such Clauses as your Honourable Board may think necessary.

(Signed) T. S. BENNETT,
37A, Theobald's-road,
And 52 others.

It was moved by Mr. Phillips, seconded by Mr. Wetenhall, and resolved—That the Memorials be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject of the Bill to which they relate.

3. Mr. Harben handed in a Memorial, as follows—

To the Metropolitan Board of Works.

The Memorial of the Vestry of Saint John, Hampstead, in the County of Middlesex.

SHEWETH—

That a Bill has been introduced into Parliament, and is now pending, intituled, "A Bill for incorporating the Cricklewood, Kilburn and Harrow-road Tramways Company," empowering them to construct Tramways, and for other purposes.

That Tramways Numbers 1 and 2, referred to in such Bill, commence from "The Crown," at Cricklewood, entering the Parish of Hampstead, at the boundary of the Parish in Edgware-road, passing along the Edgware-road and High-road, Kilburn to Cambridge-road, where it leaves the Parish of Hampstead.

That, irrespective of the general objections to the formation of Tramways in roads belonging to your Memorialists, the construction of such Tramway is most strongly objected to by the residents and occupiers of houses on the line proposed to be taken by the Tramway, and influential Deputations, adverse to the Bill, and another not so influential in favour of it, have attended your Memorialists to urge their respective wishes in regard to the Tramway.

That your Memorialists are of opinion that the objections entertained by the whole body of residents along the line of route of the proposed Tramway, within the Parish of Hampstead, considerably outweigh the supposed advantages thereof, and in consequence your Memorialists have resolved to oppose the same, and to withhold their consent thereto.

That another Bill, intituled "A Bill to authorise the London Street Tramways Company to construct additional Tramways, and for other purposes," has also been introduced into and is now pending in Parliament, one of such Tramways, No. 3A, being partly in the Parish of Saint Pancras, and partly in the Parish of Saint John, Hampstead, passing along Chalk-farm-road, Haverstock-hill, and Adelaide-road, and terminating in the last-named road; and the other of such Tramways, No. 3B, being wholly in the Adelaide-road aforesaid, in the Parish of Saint John, Hampstead.

That the houses in the Adelaide-road, and in the immediate neighbourhood, are occupied almost entirely as private residences by persons of good private means, and they, without exception, as far as is known to your Memorialists, object most strongly to the formation of

the proposed or any Tramway in the Adelaide-road, and a Deputation has attended your Memorialists to urge their objections.

That your Memorialists have resolved to withhold their consent to the last-mentioned Tramways also, and to oppose the same.

Your Memorialists, for the reasons before appearing, hope your Honourable Board will also see fit to withhold their consents to the above-mentioned Tramways, and to actively oppose the same.

And your Memorialists will ever pray, &c.

The Common Seal of the Vestry of the Parish of St. John, Hampstead, was affixed hereto at a Meeting held on the First day of February, 1886, by Richard Hackworth, Esquire, Chairman, in the presence of

L. S.

(Signed) THOS. BRIDGER,
Vestry Clerk.

It was ~~moved~~ by Mr. Harben, seconded, and ~~resolved~~—That the Memorial be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject of the Bills to which it relates.

4. Mr. Bonthron handed in a Memorial, as follows—

To the Honourable the Metropolitan Board of Works.

The Memorial of the Vestry of the Parish of St. James, Westminster, in the County of Middlesex, under their Common Seal.

SHREWETH,

That your Memorialists are informed that your Honourable Board have under consideration the subject of assigning a name to the new street recently formed between Piccadilly and New Oxford-street.

That your Memorialists are much interested in the question, and, having carefully considered various names which have been mentioned in connection with the thoroughfare referred to, most respectfully suggest that "St. James's-avenue" would in every respect be most appropriate and suitable for the following, among other reasons—

Firstly.—It is distinctive. No other thoroughfare in the Metropolis bearing the same name.

Secondly.—It is appropriate, as leading into the very heart of the Parish of St. James, and would throughout its whole length form an excellent guide to strangers visiting the West-end of London from Holborn, Bloomsbury, and the Northern Railway Stations.

Thirdly.—It is euphonious.

Fourthly.—It is not unduly long.

Fifthly.—The thoroughfare may truly be described as an Avenue, as trees are already planted along both sides of a portion of its length; arrangements are in progress for planting trees in another portion, and the remainder will in all probability be dealt with in the same way.

Your Memorialists, therefore, pray that your Honourable Board will be pleased to order that the new street, leading from Piccadilly-circus to New Oxford-street, shall be named "St. James's-avenue."

And your Memorialists will ever pray, &c.

Sealed by Order.

(Signed) HARRY WILKINS,
Vestry Clerk,
28th January, 1886.

L.S.

It was ~~moved~~ by Mr. Bonthron, seconded, and ~~resolved~~—That the Memorial be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

5 February, 1886.

5. Mr. Middlemass handed in a Letter, as follows—

Vestry of St. Giles, Camberwell.

Vestry Clerk's Department,
Vestry-hall, Camberwell, S.E.,

February 4th, 1886.

DEAR SIR,—I beg to draw your attention to the following facts—

Complaint was made to the Vestry that W. W. Tanner had erected a certain structure at 81, Meeting-house-lane, without the License in writing first obtained of your Board. Notice was given to Mr. Tanner, by order of the Vestry, that he would be liable to a penalty, not exceeding £5, and to a further penalty of Forty shillings for every day during which such structure continued to be erected without such License having been obtained. This notice was served on the 23rd of December, giving Mr. Tanner 14 days to remove the said structure; it has not been removed, and I have now to ask whether your Board will take proceedings to compel the offender to comply with the Statute.

The notice was served under Section 13 of the Metropolis Management and Building Acts (Amendment) Act, 1882.

I am, &c.

(Signed) GEO. W. MARSDEN,
Vestry Clerk.J. E. Wakefield, Esq.,
Metropolitan Board of Works,
Spring-gardens, S.W.

It was moved by Mr. Middlemass, seconded, and resolved—That the Letter be referred to the Building Act Committee, for consideration and report, and that the Superintending Architect do report to the Committee thereon.

6. Mr. Meaden handed in a Letter, as follows—

The Board of Works for the Wandsworth District.

Battersea-rise, S.W.

DEAR SIR,

4th February, 1886.

Parliamentary Schemes.—Session, 1886.

SOUTH METROPOLITAN TRAMWAYS COMPANY.

Referring to your Letter of the 24th December last, and to mine of the 8th ultimo, I beg to inform you that this Board, at their Meeting held yesterday, resolved to consent to the construction of these Tramways, subject to the insertion in the Provisional Order of the enclosed Clauses, but the consent of the Board is not to be handed over until an Agreement satisfactory to the Board's Solicitor, to insert the Clauses in question has been entered into by the Promoters, nor until amended Plans in accordance with such Clauses have been submitted by the Promoters, and approved by the Board.

The Board are also of opinion that the Clause suggested by the Engineer to the Metropolitan Board of Works in his Report upon Railway and other Schemes for this Session, providing for the right of the authorities to break up the roads and streets for the purpose of constructing new, or repairing or altering existing Sewers, Subways, and drains, or other public works, and requiring the Promoters to divert, and, for the time being, if necessary, to stop the traffic of the Trams, without making any claim for compensation therefor, should be inserted in the Order.

SOUTHWARK AND VAUXHALL WATER BILL.

At the Meeting of this Board, held yesterday, it was resolved that this Bill be opposed in Parliament with the view of procuring certain amendments, of which I enclose a copy.

LAMBETH WATER BILL.

This Board have instructed me to write to the Local Government Board, requesting them to secure, if possible, the insertion in the Bill of provisions similar to those contained in the Southwark and Vauxhall Water Bill, with regard to the raising of the proposed additional capital; also of a similar clause to Section 24 of the Southwark and Vauxhall Water Company's Act of 1884, and to call the attention of the Local Government Board to the fact that the Bill does not specify the works for which the additional capital is required.

I am, &c.,

(Signed) HEN. GEO. HILLS,
Clerk.J. E. Wakefield, Esq.,
Spring-gardens, S.W.

The Clauses, &c., referred to were laid before the Board.

It was *moved* by Mr. Meaden, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, and the Parliamentary Committee, for consideration in connection with the references already made to them on the subject to which it relates.

7. Mr. Meaden handed in a Letter from Mr. H. G. Hills, Clerk to the Wandsworth District Board, dated 4th February, 1886, requesting to be supplied with six additional copies of the Report made by the Special Purposes and Sanitary Committee on the cleansing and ventilation of Sewers.

It was *moved* by Mr. Meaden, seconded, and *resolved*—That the request be complied with.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Clerk be authorised to supply to any Vestry or District Board, who may make application for the same, such number of copies of the said Report as they may require, not exceeding six.

8. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 1st February, 1886.

Your Committee have to report that, under the authority conferred upon them by the Board, they have drawn Cheques for the following amounts—

<i>Bridges (Maintenance) Account.</i>		£	s.	d.	£	s.	d.

Your Committee have to report they have considered the Letter, referred to them on the 15th ultimo (No. 29), from Mr. F. R. Conder, submitting his process for the treatment of Sewage. Mr. Conder states that by his process, which consists in the addition of eight grains of protosulphate of iron to each gallon of Sewage, instead of the usual precipitated sludge, a simple silt, without water is obtained, and that neither effluent nor precipitate contains any putrescible matter. Your Engineer and your Chemist have reported to your Committee that, from careful consideration of the statements submitted by Mr. Conder, and the results of numerous carefully-conducted experiments made by your Chemist, they are of opinion that the process is not one which they can recommend to the favourable notice of the Board. Your Committee concur in that view, and recommend—

That a reply be addressed to Mr. Conder accordingly.

Your Committee have further to report that they have considered the Letter, referred to them on the 8th ultimo (No. 37), from the Tottenham Local Board of Health, asking to be informed of this Board's views relative to the River Lee Purification Bill, and what course they intend to adopt respecting it. The Parliamentary Committee reported upon

the Bill on the 15th ultimo (No. 11), and the Board, upon their recommendation, decided to present a Petition against it. Your Committee recommend—

That a Letter be addressed to the Tottenham Local Board, informing them to that effect.

Your Committee have also to report that they have considered the Letter, referred to them on the 8th ultimo (No. 38), from Messrs. Goldring and Mitchell, transmitting on behalf of their clients, the Whitehall Court, Limited, a copy of the Horse Guards Avenue Bill, and of the deposited Plans and Book of Reference, and stating that their clients would be glad to consider any suggestions the Board might have to make with reference to the Bill, and to arrange an appointment between the Board's Architect and Mr. Driver to discuss the matter generally. On the 6th November last your Committee reported on a Letter which had been received from the promoters of the Bill, and the Board, upon the recommendation of your Committee, decided to inform them that they were not disposed to contribute towards the expense of the proposed approach, and that in the event of a Bill being introduced into Parliament for the purpose suggested, the Board would feel it to be their duty to oppose it. The Board have presented a Petition against the Bill, and your Committee now recommend—

That Messrs. Goldring and Mitchell be informed to the foregoing effect in reply to their Letter.

Your Committee have had before them an application by the Trustees of the Estate of the late David Mitchell, for permission to erect six cottages over the site of the Board's Sewer, passing under the Trustees' building land at Garratt-lane, Wandsworth. Your Engineer reports that the Sewer is sufficiently deep and strong not to be injuriously affected by the buildings, and under those circumstances your Committee recommend—

That the Board do grant the requisite permission, subject to all their rights in the Sewer being reserved under the usual form of Agreement to be prepared by the Solicitor.

Your Committee, on the 6th November last (No. 7), reported the course they had taken in authorising your Engineer to continue, for a further period of three months, the employment of seventeen temporary Assistants engaged under the authority of the Board's Resolutions of 19th November, 1880 (No. 9), and 11th March, 1881 (No. 18). Your Committee have now to state that upon the application of your Engineer, they have authorised him to retain those temporary Assistants for a further period of six months, and they ask the sanction of the Board to that course.

Your Committee have further to report that they have considered the Letter from the Vestry of Islington, referred to them on the 27th November last (No. 35), stating that the Vestry had completed the Improvement at the Parish Churchyard, and that, owing to the circumstances stated in the Letter, the actual outlay (exclusive of professional charges) had amounted to £1,758 16s. 8d., and asking the Board to increase the amount of their contribution agreed to on the 11th July, 1884, from £550 to one-half of the outlay. Your Committee have had before them a Report by your Superintending Architect describing the extra works in respect of which the application is made, and also a Report by your Accountant, and they are of opinion that the Board may be advised to contribute a further sum of £300 towards the cost of the Improvement. They recommend accordingly, and that a Cheque be now drawn for the total amount of the Board's contribution, namely, £850.

All which your Committee beg to submit.

(Signed)

J. MCGAREL-HOGG,
FRANCIS H. FOWLER,
W. J. WETENHALL,
GEORGE PHILLIPS,
W^m. SHEPHERD,
GEO. HILL,
W. R. SELWAY,
J. E. BRADFIELD,
F. M. WENBORN,
GEO. EDWARDS.

The Report having been read and received,

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Mr. Conder be informed in reply to his Letter, relative to his process for the treatment of Sewage, that the Board, after conference with their Engineer and Chemist, are unable to adopt the process.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Tottenham Local Board of Health be informed in reply to their Letter, enquiring as to the intentions of the Board with regard to the Lee River Purification Bill, that the Board have decided to oppose the Bill.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Messrs. Goldring and Mitchell, be informed, in reply to their Letter on the subject of the Horse Guards Avenue Bill, that the Board have decided to oppose the same.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the application of the Trustees of the Estate of the late Mr. D. Mitchell, for permission to erect six Cottages over the site of the Board's sewer passing under the Trustees' building land at Garratt-lane, Wandsworth, be granted, on condition that all the Board's rights in the sewer be reserved, and that the usual Agreement for that purpose be prepared by the Solicitor.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the course taken by the Committee in authorising the Engineer to retain, for a further period of Six months, the temporary Assistants in his Department, whose employment was reported to the Board on the 6th November last (No. 7), be approved.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Board do contribute an additional sum of £300 towards the cost of the Improvement carried out by the Vestry of Islington at the Churchyard of that Parish.

9. Mr. Hill, the Chairman of the Fire Brigade Committee, brought up a Report, as follows—

REPORT OF THE FIRE BRIGADE COMMITTEE.

Spring-gardens, 2nd February, 1886.

Your Committee have considered the Letter from the Lewisham District Board, referred to them on Friday last, asking that Fire-alarms may be provided in the Hamlet of Penge, and suggesting various points as suitable for the purpose. The Board on the 27th November last resolved that Fire-alarm circuits should be established in such neighbourhoods as had not already been provided with them, and among the localities were included the districts in which are situated the Lewisham and Sydenham Fire-Brigade Stations, which cover the Hamlet of Penge. The points at which Fire-alarms will be placed in Penge are not quite the same as those suggested in the Letter from the District Board, but they are those recommended by the Chief Officer as most suitable after a general survey of the District. The order for these Fire-alarms has been given to the Post Office, and they will be proceeded with in due course. Your Committee recommend—

That the District Board be informed of what has been done.

Your Committee have considered the Letter from the St. Giles's District Board, referred on Friday last, suggesting the desirability of an official inquiry being held into the causes of all fires in the Metropolis which the Fire Brigade is called upon to deal with. In January, 1883, the Board communicated to the Home Secretary, in reply to a request from him, its opinion that a public inquiry into the origin of fires should be held in such cases as the Home Secretary or the Board might consider necessary, and that such inquiry should be conducted by some officer, other than the Coroner, to be appointed by the Secretary of State. The Board subsequently, in reply to a further Letter from the Home Department, expressing its willingness to defray the expenditure of such inquiry as the Board might think necessary in cases where no death had occurred. The Secretary of State having been placed in possession of the Board's views and the

question being one for his consideration, it does not appear to your Committee that any further action can be taken by the Board. They recommend—

That the St. Giles's District Board be informed of the course taken by this Board in the year 1883.

The Chief Officer has reported that ten manual fire-engines, which were made for the Board in the years 1866, 1867, 1868, 1869 and 1874, and upon which a considerable sum of money has since been spent in repairs, are now in such a state as to require either that a further large sum should be spent upon them, or that new Engines should be obtained in their stead. The Chief Officer thinks it better that new Engines should be obtained, and he advises that, instead of ten new manual Engines, the Board should order three new Steam Engines, and that the makers should be required to take the old Manual Engines in part payment. Your Committee agree with the Chief Officer, and they accordingly recommend—

That they be authorised to obtain three new Steam Fire-engines.

Your Committee have received a Report from the Chief Officer, and a Certificate from the Medical Officer of the "B" District to the effect that William R. Devine, a First-class Fireman, is incapacitated for further service by reason of the loss of two of the fingers of his left hand. He was engaged in working the Engines of the fire-float "Buffalo" at the fire in Mill-street, Dockhead, on the 19th November last, when he slipped, and the first and second fingers of his left hand coming in contact with the machinery were cut off at the knuckle joint. Devine was born in June, 1841, and joined the Brigade in September, 1865. He is therefore 44 years of age, and has completed 20 years' service. He has a wife and five children depending on him. The Pension to which 20 years' service entitles a First-class Fireman is 13s. 8d. a week, but this amount is hardly sufficient when it is considered that the injury by which Devine is incapacitated was received while he was discharging his duty. It occurs to your Committee however that, as the injury is a local one, and as Devine's general health and strength are not injured, he is capable of other employment in which the use of his fingers would not be so necessary as it is in the Fire Brigade. He would probably be fit for the place of Keeper or Assistant-Keeper on one of the Open Spaces under the Board's control, and if he be fit, the Board will probably consider that he has a good claim for such employment. Your Committee therefore make the following recommendation—

That W. R. Devine, be discharged with a Pension of 13s. 8d. a week, the amount to which he is entitled under the Board's Regulations; that it be referred to the Parks, Commons and Open Spaces Committee to consider and report whether Devine is a fit person to fill the next vacancy among the Common Keepers; and that until that Committee shall have reported, Devine be allowed a further sum of 6s. 4d. a week, so as to make his total allowance from the Board £1 a week.

Your Committee have to report, for the information of the Board, that Second-class Fireman Henry E. Matthews, Third-class Firemen Alfred Iddenden, William Cudmore, and Frederick J. Bamberger, and Fourth-class Firemen James Samworth, William H. Hodskins, and Walter W. Potter have withdrawn from the service, and that their names have accordingly been removed from the list of Firemen.

Your Committee have to submit the following recommendations—

That Third-class Fireman Walter Cobden be promoted to the Second Class, and Fourth-class Firemen Jerome Moon, Joseph Allen, John Williams and Charles T. Stubbings to the Third Class.

That Alfred May, Gilbert C. Girault, William S. Harding and Frederick Dennison be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

Your Committee reported in May, 1880, that there was an accumulated surplus amounting then to about £400, arising mainly from the increase of the value of the Metropolitan Consolidated Stock, in which the Firemen's Savings Fund was invested, and they explained that, as the surplus had been produced partly by the savings of men who had left the force and received back their money with interest thereon, it

could not be said to belong to the individual subscribers to the Fund who were then in the Brigade. Your Committee stated, however, that the money seemed rightly to belong to the Brigade as a body, and, as they had ascertained that there was a Widows and Orphans' Fund established and maintained by the men, they expressed the opinion that nothing better could be done than to pay the interest on the accumulated surplus to that Fund. A question was, however, raised by the Board as to the propriety of this course, and upon further consideration, your Committee decided not to do anything further in the matter at that time, and they so reported to the Board. The surplus has continued to increase, and now amounts to about £600. It appears to your Committee that something should be done with this money, and whilst they are not, at present, prepared to recommend a way of disposing of the surplus itself, they are of opinion that it would be well to pay over annually the interest upon it to the Firemen's Widows and Orphans' Fund, and they recommend—

That that be done.

All which your Committee beg to submit.

(Signed) GEORGE HILL,
W. J. WETENHALL,
ANDREW MIDDLEMASS,
W. R. SELWAY,
ROBT. JONES,
GEO. EDWARDS.

The Report having been read and received,

It was *moved* by Mr. Hill, and seconded—That the Lewisham District Board be informed that the Board have requested the Post Office to establish Fire-alarm circuits in connection with the Lewisham and Sydenham Stations, and that some of the call-points will be in the Parish of Penge.

An amendment thereon was *moved* by Mr. Shepherd, and seconded by Mr. Harben—That the subject be referred back to the Committee, for further consideration and report.

The amendment having been put to the vote, there were for it, 7; against it, 19; and it was lost.

The original motion was then put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Hill, and seconded—That the Saint Giles's District Board be informed that this Board in January, 1883, expressed to the Home Secretary its opinion that a public inquiry should be held, by some Officer, other than the Coroner, into the origin of Fires, in such cases as the Home Secretary or the Board might consider necessary.

An amendment thereon was *moved* by Mr. Hewitt, and seconded by Mr. Richardson—That the subject be referred to the Works and General Purposes Committee, for consideration and report.

The amendment having been put to the vote, there were for it, 14; against it, 18; and it was lost.

The original motion was then put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

It was *moved* by Mr. Hill, and seconded—That the Committee be authorised to obtain three new Steam Fire-engines in the place of ten old Manual Engines, upon which it is not deemed expedient to spend more money in repairs.

An amendment thereon was *moved* by Mr. Runtz, and seconded by Mr. Richardson—That the question be referred back to the Committee, for further consideration and report.

The amendment having been put to the vote, there were for it, 28; against it, 10; and

it was declared by the Chairman to be carried, and having been put as an original motion, it was also carried; and it was resolved accordingly.

It was moved by Mr. Hill, seconded, and resolved—That W. R. Devine, a First-class Fireman, who is incapacitated for service by the loss of two fingers, through an accident while on duty, be discharged with a pension of 13s. 8d. a week, the amount to which he is entitled under the Board's Regulations; that it be referred to the Parks, Commons and Open Spaces Committee to consider and report whether Devine is a fit person to fill the next vacancy among the Common Keepers; and that until that Committee shall have reported, Devine be allowed a further sum of 6s. 4d. a week, so as to make his total allowance from the Board £1 a week.

It was moved by Mr. Hill, seconded, and resolved—That the following promotions be made—viz., Third-class Fireman Walter Cobden to the Second Class; and Fourth-class Firemen Jerome Moon, Joseph Allen, John Williams, and Charles T. Stubbings to the Third Class.

It was moved by Mr. Hill, seconded, and resolved—That Alfred May, Gilbert C. Girault, William S. Harding, and Frederick Dennison be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

It was moved by Mr. Hill, seconded, and resolved—That the interest on the accumulated surplus of the Firemen's Savings Fund be transferred annually to the Firemen's Widows and Orphans' Fund.

10. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 2nd February, 1886.

Your Committee have had before them a Report by your Solicitor with reference to the proceedings which the Board on the 22nd ultimo (No. 8), ordered to be taken against the person or persons who are keeping open the Portland Hall, formerly the Portland Bazaar in Langham-place, St. Marylebone, as a place of public entertainment without the Certificate of the Board, and having regard to the views expressed in such Report your Committee recommend—

That the Solicitor be authorised to retain Mr. Besley as Counsel on behalf of the Board.

Your Committee have to report that the Board, on the 20th March last (No. 9), directed a Notice under the 45th Section of their Various Powers Act, 1882, to be prepared and served upon the person keeping open the Royalty Theatre, in Dean-street, Soho, as a place of public entertainment. The Notice had reference to the fastenings of the exit doors, the placing of inscriptions in the corridors to show the way out, and the provision of oil lamps in certain parts of the Theatre to be kept burning during the whole time of the performance. The original Notice was served on the 8th April last, but in consequence of the Theatre changing hands it was found necessary to renew the Notice. This was done on the 11th November last, and your Committee have now to report for the information of the Board that the Notice has been complied with.

Your Committee have also to report their proceedings under the Resolution of the Board of the 30th October last (No. 12), authorising them to confer with the Owner of the Beaumont Literary and Philosophical Institution, in Beaumont-square, Mile-end, upon the subject of the structural defects of the building. The Board's draft Notice was transmitted to the Owner on the 12th November last, and shortly afterwards his Solicitors, Messrs. Burton, Yeates, Hart and Burton, asked that the Notice might be abandoned, upon their client undertaking not to renew the existing License, which would expire at Michaelmas, 1886. Your Committee deemed it right to point out to Messrs. Burton that the Board, having regard to the duty placed upon them by the Act of Parliament, could not acquiesce in that suggestion, and that, as the building was licensed as a place of public entertainment, their Requisitions must be complied with.

Messrs. Burton thereupon made an application to the Court of Quarter Sessions for Middlesex, for the formal cancelment of the License, and the Court, on the 21st ultimo, resolved that the License should be revoked, pursuant to Section 3 of the Act 25 Geo. II. cap. 36, and an endorsement to that effect has been made upon the License by the Clerk of the Peace. This forfeiture of the License withdraws the building from the jurisdiction of the Board, under the Act of 1878, and your Committee therefore recommend—

That the reference with regard to remedying the structural defects of the building be discharged.

The Board on the 26th June last (No. 11) instructed their Solicitor to serve, with the consent of the Home Secretary, a sealed Notice under the Act of 1878 upon the Owner of the Eagle Tavern Music-hall, in the City-road, containing Eleven Requisitions for remedying the structural defects of the building. The Notice was served on the 25th July, 1885, and the usual period of Six months was allowed for the completion of the works. It appears from a recent survey that the site of the entrance vestibule has been added to the bar of the Tavern, and that the direct approach to the Music-hall is through that bar. The only work referred to in the Board's Notice which has been commenced is the construction of the floor of the refreshment saloon on the gallery level, and that remains in an unfinished condition. The Hall is at present closed, but as the License still remains in force, it is desirable, in the interest of the public safety, to insist upon the execution of the necessary structural alterations. Your Committee therefore recommend—

That the Solicitor be instructed to take the necessary legal proceedings against the owner of the Eagle Tavern Music-hall, in the City-road, to enforce compliance with the Board's Requisitions for remedying the structural defects of the building.

Your Committee have also considered the application of Mr. J. Edmeston, on behalf of the National Agricultural Hall Company, Limited, for approval by the Board of a proposed alteration in the position of the staircases of the large Hall of the National Agricultural Hall adjoining the Kensington (Addison-road) Railway Station, Hammersmith, referred by the Board on the 22nd ultimo (No. 72). The object of the slight alteration proposed in the position of the four staircases to the gallery of the Hall is to avoid interference with the principals of the roof. The staircases as altered, instead of being entirely within the building, will project 9 feet beyond the external face of its enclosing walls. The alteration appears to your Committee to be an improvement, as the new arrangement will afford greater facilities for the exit of the public. They therefore recommend—

That the application be granted.

Your Committee have to report that they have proceeded upon the Resolution of the Board of the 27th November last (No. 8), authorising them to confer with the Owner of Neumeyer Hall, in Hart-street, Bloomsbury, upon the question of the structural defects of the building. The representatives of the Owner, who have accordingly attended your Committee, raised, in the first instance, a general objection to the Board's Notice on the ground that the building, being used only for private meetings, was not a place of public resort within the terms of the Act. Your Committee, however, dissented from that view, and pointed out that the building, being licensed by the Justices of Middlesex, might at any time be used for public purposes, and that it was therefore the duty of the Board to deal with it in accordance with the provisions of the Act. The only Requisitions to which serious objection has been taken are the Fourth and Sixth, requiring two new staircases constructed in conformity with the Board's Regulations, to be built in lieu of those now existing respectively on the South side of the Hall, and at the North-West angle of the Hall premises. The Owner is desirous of meeting the Board's Requisitions by re-arranging the present staircases in accordance with the Drawings submitted by his Architect, Mr. J. D. Mathews, and as these are satisfactory your Committee are of opinion that the proposal may be accepted, and the Fourth and Sixth Requisitions modified accordingly. The only other Requisition which your Committee consider it

expedient to alter in any way is the Eighth, in which they think it unnecessary to retain the provision for covering the vertical sashes of the lantern light in the roof with iron guards. Your Committee are therefore of opinion that a revised Notice, containing the following Requisitions, should be served upon the Owner of the Hall—

1.—That so much of the floors of the rooms on the first floor of Bloomsbury Mansion as extend over the entrance to the Hall leading out of Hart-street, be constructed of fire-resisting materials to the satisfaction of the District Surveyor.

2.—That the floor of the Hall, together with the floors of the two retiring rooms and the lobby, and of the two ante-rooms at the North-West angle of the premises, be constructed of fire-resisting materials to the satisfaction of the District Surveyor.

3.—That the spiral staircase leading from the show-room on the ground-floor to the retiring-room on the West side of the Hall, be removed, and the flooring of the retiring-room made good with fire-resisting materials.

4.—That the public staircase on the South side of the Hall be pulled down, and that a new staircase be constructed in its place, in accordance with the drawings submitted by Mr. J. D. Mathews, and signed by the Chairman of the Committee; that such new staircase do have spandril steps of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet wide in the clear, with the necessary intermediate landing; that the steps be supported at both ends; that the intermediate landing of such staircase be formed of similar materials to the steps, and be 4 feet wide, and 6 inches thick, in one stone, supported upon all sides by brick walls not less than 9 inches thick; that the landing at the head of such staircase be formed of fire-resisting materials to be approved by the District Surveyor; and that the lower flight of the stairs do have two iron standards bolted to the floor and the ceiling, and an additional iron handrail secured to the same, at a height of 5 feet from the level of the upper surface of the steps.

5.—That the window on the South side of the staircase-hall be stopped up with brickwork 14 inches thick.

6.—That the staircase at the North-West angle of the Hall premises, leading into Pied Bull-yard, be pulled down, and that a new staircase be constructed in its place, in accordance with the drawings submitted by Mr. J. D. Mathews, and signed by the Chairman of the Committee; that the lower flight of such new staircase do have solid square steps, and that the upper flights do have spandril steps, of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings; that the steps be supported on the outer edge, partly by a brick wall 9 inches thick, and partly by iron bearers; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet wide, and 6 inches thick, in one stone, supported upon all sides by brick walls not less than 9 inches thick; that the landing at the head of such staircase be formed of fire-resisting materials to be approved by the District Surveyor; that the lower flight of the stairs do have four iron standards bolted to the steps and the ceiling, and an additional iron handrail secured to the same at a height of 5 feet from the level of the upper surface of the steps; and that a bulk-head be formed over such staircase, enclosed at the sides with half-brick work in cement, and with a roof formed of concrete on iron bearers.

7.—That the door-way at the North-West angle of the Hall be increased in width to 4 feet 6 inches, or as far as practicable.

8.—That the skylights over the show-rooms on the ground-floor be protected by galvanised iron wire guards.

9.—That stout handrails be fixed on both sides of the two staircases.

10.—That all doors used by the public be hung in two folds, and be made to open outwards.

And they recommend—

That a Notice, embodying the above requirements, and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same; and that, upon the receipt of such consent, the Notice be sealed, and be served by the Solicitor upon the Owner of the Hall.

Your Committee have had under consideration the application of Mr. J. W. Brooker, on behalf of Mr. G. W. Moore, Jun., for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed Music-hall to be erected at the rear of the “Royal Standard” Public-house, in York-road, Battersea, as shown upon the Drawings accompanying the application, referred by the Board on the 8th ultimo (No. 63). The Hall will be 69 feet long by 54 feet wide, having a gallery around three of its sides, and will accommodate an audience of more than 600 persons. It will be approached by two corridors leading out of York-road, through the Public-house, and enclosed on all sides by fire-resisting materials. Your Committee, after carefully examining the drawings originally submitted, pointed out to the applicant certain particulars in which it appeared desirable that they should be amended, with a view to bringing them into conformity with the Board’s Regulations, and securing the greater safety of the public. These suggestions had reference to the improvement of the two staircases leading to the gallery, one of which it was deemed desirable should be made to communicate directly with the street, the reduction of the area of the gallery, the removal of the dressing-rooms under the stage, the protection of certain windows and skylights, the substitution of iron for wooden ventilators in the roof, and the provision of the requisite open space at the rear of two proposed shops next York-road. These suggestions have been embodied by the applicant in the amended Drawings submitted by him on the 23rd ultimo, which your Committee are of opinion may, with one further modification, receive the approval of the Board. They therefore recommend—

That the application of Mr. J. W. Brooker, on behalf of Mr. G. W. Moore, Jun., for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed Music-hall to be erected at the rear of the “Royal Standard” Public-house, in York-road, Battersea, as shown upon the amended Drawings submitted by the applicant on the 23rd January, 1886, be granted, on condition that the opening between the entrance to the gallery and the Eastern corridor be bricked up; that the said drawings be approved; and that the Certificate be issued upon the completion of the building, in accordance with such drawings and the above condition, to the satisfaction of the Board.

Your Committee have carefully considered the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Britannia (late Bijou) Music-hall, No. 58, Blackfriars-road, Southwark (Christchurch), and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878. The Music-hall, which is situated at the rear of a small Beer-shop, is about 45 feet long by an average width of 18 feet, and will accommodate about 150 persons seated. It has a raised platform at the Western end, with dressing-rooms under, and a small balcony at the Eastern end, approached by a wooden staircase, 2 feet 6 inches wide, which also serves for access to the rooms over the Public-house. The entrance to the Hall is through the Public-house-bar, and there are no other means of exit. The floor of the Hall is of wood, with cellars extending under its whole area. Your Committee, after considering the Report and Drawings prepared by your Superintending Architect, are of opinion that the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That an entrance passage-way, 4 feet 6 inches wide, be formed to the

Hall through the bar of the Public-house ; that such passage be enclosed upon all sides by brickwork or other fire-resisting materials, to be approved by the Board, and that no openings be formed between such passage and the bar of the Public-house.

2.—That a brick wall, 14 inches thick, be built at the Eastern end of the Hall, on the ground floor, in a line with the back wall of the Public-house, to separate the Hall from the Public-house ; that such wall be carried down to the level of the footings of the basement storey, and that not more than one opening, not exceeding 4 feet 6 inches wide, be formed in such wall for access to the Music-hall.

3.—That the floor of the Music-hall be formed of fire-resisting materials to be approved by the Board.

4.—That the dressing-rooms under the stage be removed, or be properly lighted and ventilated to the satisfaction of the Board.

5.—That the staircase to the balcony be removed, and that a new staircase be provided to the same ; that such new staircase do have solid “square” (as distinguished from “spandril”) steps of York or other approved stone, with 11-inch treads and 6 inch risers, 3 feet 6 inches wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings ; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick ; that the landings of such staircase be formed of similar materials to the steps, and be 3 feet 6 inches wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick ; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings ; and that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or be constructed of other fire-resisting materials to be approved by the Board.

6.—That the window of the kitchen of the Public-house on the first floor, overlooking the balcony of the Hall, be stopped up with brickwork 9 inches thick.

7.—That the floor of the scullery of the Public-house, which extends over a portion of the Hall at the South-East angle, be constructed of fire-resisting materials to be approved by the Board.

8.—That the skylights in the roof be protected by galvanised iron wire guards fixed on the outside of such skylights.

9.—That handrails be fixed on both sides of the balcony staircase.

10.—That all door-ways used by the public be made not less than 4 feet 6 inches wide, and that the doors be hung in two folds, and be made to open outwards.

Your Committee recommend—

That a Draft Notice, embodying the above requirements, be prepared by the Solicitor ; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon ; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and to report further to the Board on the subject.

Your Committee have also carefully considered the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Eyre Arms Assembly Rooms, Nos. 1 and 3, Finchley-road, St. Marylebone, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878. The premises, otherwise known as St. John's-wood Assembly-rooms, are situated at the rear of the “Eyre Arms” Tavern, at the corner of Grove-end-road. The large

Assembly Room is on the level of the first floor, and is approached by two staircases, which should be reconstructed in accordance with the Board's regulations. The large Assembly-room is 79 feet long by a width varying from 36 to 40 feet, having a superficial area of about 3,080 feet, and accommodating from 500 to 600 persons. There is a small platform at the Eastern end, and a refreshment bar on the South side, with openings at each end of the bar communicating with the two staircases. At the Eastern end of the Hall is a large supper-room, adjoining which are a cloak-room and two bed-rooms, and a staircase leading to the rooms on the second floor of the Public-house. The ground floor under the large Assembly Room is occupied by a smoking room communicating with the Public-house, a billiard-room and cloak rooms. Your Committee, having considered the Report of your Superintending Architect on the subject, and inspected the Drawings prepared under his direction, are of opinion that the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That the staircase to the Assembly rooms at the South-West angle of the premises be pulled down, and that a new staircase be constructed in its place; that such new staircase do have solid “square” (as distinguished from “spandril”) steps, of York or other approved stone, with 11-inch treads, and 6-inch risers, 4 feet 6 inches wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet 6 inches wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board.

2.—That the floor of the lobby at the foot of such staircase be constructed of iron joists and concrete, or of other fire-resisting materials to be approved by the Board.

3.—That the staircase at the South-East angle of the premises be pulled down, together with the lavatories adjoining, and that a new staircase be constructed on the site of such staircase and lavatories adjoining; that such new staircase do have solid “square” (as distinguished from “spandril”) steps, of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet 6 inches wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet 6 inches wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board.

4.—That the floor of the lobby at the foot of the staircase last described be constructed of iron and concrete, or other fire-resisting materials to be approved by the Board.

5.—That the two openings in the North wall of the staircase at the South-East angle of the premises be stopped up with brickwork 9 inches thick.

6.—That the floor of the Assembly room, and of the refreshment bar adjoining, be constructed of fire-resisting materials to be approved by the Board.

7.—That the floors of the rooms on the first floor of the “Eyre Arms” Public-house, be constructed of fire-resisting materials to be approved by the Board.

8.—That the lower part of the windows on the North and West sides of the Assembly room be protected by wrought-iron guard-bars to a height of 6 feet from the floor.

9.—That stout handrails be fixed on both sides of the staircases at the South-East and South-West angles of the Assembly room.

10.—That the skylights over the Assembly room refreshment bar be protected by a galvanized-iron wire guard fixed on the outside.

11.—That all doors used by the public be hung in two folds, and be made to open outwards.

Your Committee recommend—

That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly, or through their Sub-Committee, with the Owner upon the Board's requisitions, and to report further to the Board on the subject.

Your Committee have also carefully considered the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Griffin Music-hall, No. 99, Shoreditch High-street, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878. This is a small Music-hall on the level of the ground floor at the rear of a Public-house on the East side of High-street, flanking upon a narrow foot-way, known as Jane Shore-court. The Hall is of an irregular shape, being 39 feet long in the longest part, by 33 feet in width, and accommodating 250 persons. The entrance to the Hall is through the bar of the “Griffin” Public-house, and the door-ways through which the public pass vary in width from 2 feet 5 inches to 3 feet 10 inches, and all open inwards. There is an exit door-way, about 3 feet wide, into Jane Shore-court, with one step 18 inches deep, from the Hall floor to the pavement of the court. A wooden staircase to the rooms over the Public-house opens into the Hall. After considering the Drawings and Report submitted by your Superintending Architect, your Committee are of opinion that the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That an entrance passage, not less than 4 feet 6 inches wide, be formed to the Hall through the bar of the “Griffin” Public-house; that such passage be separated from the Public-house by a brick wall, 9 inches thick, without openings, and that such wall be carried down to the level of the footings of the basement storey of the Public-house; that the floor of such passage be formed of brick arches 9 inches thick, or of concrete on wrought-iron joists; and that such passage do have a ceiling of concrete 6 inches thick on wrought-iron joists.

2.—That a brick wall, 9 inches thick, be built at the Western end of the Hall, to separate the Hall from the Public-house adjoining; that such wall be carried down to the basement of the Public-house, and be carried up to a height of 3 feet above the flat roof of the Music-hall; and that not more than one opening, not exceeding 4 feet 6 inches wide, be formed in such wall, on the ground floor level, for access to the Music-hall.

3.—That the staircase leading from the Hall to the rooms on the first floor of the Public-house be removed.

4.—That the door-way in the North wall of the Music-hall, leading into Jane Shore-court, be increased in width to 4 feet 6 inches, and that an additional step be formed to such door-way as enlarged.

5.—That the doors to the Hall be hung in two folds, and be made to open outwards.

In accordance with those views your Committee recommend—

That a Draft Notice, embodying the above requirements, be prepared by the Solicitor that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and to report further to the Board on the subject.

Your Committee have further to report that they have carefully considered the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Kensington Hall, in Kensington-park-road, Notting-hill, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878. This is a small and inconvenient Hall at the rear of a shop and dwelling-house, No. 188, Kensington-park-road, near Archer-street. It is about 50 feet long by 15 feet 6 inches wide, having a gallery approached by an iron staircase around three of its sides, and will accommodate about 150 persons. The approach to the Hall is by a long passage-way, a portion of which passes under the upper floors of the house No. 188, Kensington-park-road, and there are no other means of exit. Your Committee, having had before them the Report of your Superintending Architect upon the subject, are of opinion that the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That a brick wall, 9 inches thick, be built under the wall on the West side of the passage-way leading to the Hall, and be carried down to the level of the footings of the basement storey of the house, No. 188, Kensington-park-road.

2.—That the door-way leading into the shop on the ground floor of No. 188, Kensington-park-road be stopped up with brickwork 9 inches thick.

3.—That so much of the first floor of the house, No. 188, Kensington-park-road, as extends over the entrance to the Hall, together with the roof over such entrance, be constructed of fire resisting materials to be approved by the Board.

4.—That the dressing rooms under the stage be removed, or be properly lighted and ventilated to the satisfaction of the Board.

5.—That the skylights in the roof be protected by galvanised-iron wire guards, fixed upon the outside of such skylights.

6.—That handrails be fixed on both sides of the staircase to the gallery.

7.—That all doors used by the public be made to open outwards.

Your Committee recommend—

That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and to report further to the Board on the subject.

Your Committee have further to report that they have considered the application of Mr. B. Fletcher, M.P., on behalf of Mr. C. Zierenberg, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, in respect of the construction of the St. James's Temperance-hall, in Royal-road, Kennington-park, as shown on the amended Drawings accompanying the application, referred by the Board on the 4th December last (No. 71). The Hall, which is in course of erection, is 76 feet long by 41 feet wide, will accommodate 900 persons, namely, 600 on the area level and 300 in the gallery. The floor of the Hall is 5 feet above the street, and underneath is a basement containing Committee and other rooms. The dressing-rooms under the platform will be enclosed with fire-resisting materials, and cisterns for fire-extinguishing purposes will be provided in the roof. Your Committee, upon examining the Drawings suggested to the applicant the desirability of carrying down to the basement certain of the columns supporting the gallery, and of constructing the external staircase on the Southern

side of the Hall, in accordance with the Board's Regulations. The applicant accordingly submitted, on the 29th ultimo, further Drawings embodying those suggestions; and, provided that suitable handrails be placed on the staircase, your Committee are of opinion that the erection of the Hall may receive the sanction of the Board. They therefore recommend—

That the application of Mr. B. Fletcher, M.P., on behalf of Mr. C. Zierenberg, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, in respect of the construction of the St. James's Temperance-hall, in Royal-road, Kennington-park, as shown on the amended Drawings accompanying the application, be granted, on condition that certain of the columns supporting the front of the gallery be carried down to the basement, and that the external staircase at the Southern side of the Hall be constructed of stone, as shown on the three further drawings accompanying Mr. Fletcher's Letter of the 29th January, 1886, and also on condition that the handrails of such external staircase be carried up to a height of 4 feet 6 inches from the level of the upper surface of the steps; and that the Certificate be issued upon the completion of the Hall, in accordance with the deposited drawings and the above conditions, to the satisfaction of the Board.

Your Committee beg to submit herewith three Reports which they have received from your Superintending Architect, specifying certain works which it is necessary should be carried out under Magistrates' Orders at the premises therein mentioned, the same being Dangerous Structures, and they recommend—

That the Contractors, Messrs. Brass and Son, be instructed to execute the works ordered by the Magistrates to be done at the following premises, the same being Dangerous Structures, viz.—

No. 34, South-street, St. Marylebone.

„ 66, Wardour-street, St. Anne, Soho.

„ 168, Whitecross-street, St. Luke, Old-street.

Your Committee have to report that they have had under consideration the Letter from Mr. T. Williams, District Surveyor, relative to an iron pent roof recently erected in front of No. 234, Southwark-park-road, Bermondsey, without the consent of the Board, referred by the Board on the 30th October last (No. 47). The Board, on the 27th November last, instructed the Solicitor to take proceedings against the builder of the pent, and your Committee are informed that the iron roof, girders, and columns have been removed, and that a temporary blind has been erected in place thereof, upon old wooden posts. Your Committee agree with your Solicitor in thinking further proceedings unnecessary, and they recommend—

That no further action be taken in the matter, and that Mr. Williams be so informed.

Your Committee have also considered the Letter from Mr. T. Dakers, relative to the alleged defective construction of flues against the South party-wall of No. 5, Gordon-villas, Ravenshaw-road, Hampstead, referred by the Board on the 15th ultimo (No. 62). It appears that flues have been erected against a party structure, without a proper withe, at least 4 inches in thickness, as required by the Building Act. Your Solicitor is of opinion that proceedings should be taken by the District Surveyor before a Magistrate, and your Committee recommend—

That the substance of the Solicitor's Report on the subject be communicated to the District Surveyor, and that Mr. Dakers be informed of the course adopted.

The attention of your Committee has been directed by your Solicitor to the necessity for modifying the form of License at present in use with respect to temporary buildings, so as to include a reference to, and an identification of, the Plan which has been approved by the Board. Your Committee submit herewith a revised form of License, which contains an additional Clause framed with that object; and they recommend—

That it be approved and adopted by the Board.

Your Committee have proceeded upon the Resolution of the Board of Friday last (No. 72), referring to them the subject of the expiration of the several Licenses granted by the Board, for the erection and use of the following wood and iron buildings, viz.—a

School-room at the rear of No. 93 (late No. 60), Coningham-road, Shepherd's-bush ; Mission-room at the rear of premises in Evelyn-street, Deptford ; a Chapel in Verney-road, Rotherhithe, and a Studio in Berkeley-grove, Regent's-park. The Licenses expired about two months since, and your Superintending Architect reports that the buildings are still in use. Under these circumstances, your Committee recommend—

That the Solicitor be instructed to serve Notices under Section 12 of the Act of 1882, and to summon the Owners, if necessary.

Your Committee have had under consideration the Letter from Mr. A. Moseley, District Surveyor for Fulham, relative to the commencement, by Mr. J. Rowe, Jun., of the erection of houses in a street 20 feet wide, with one entrance leading out of Margravine-road, without the approval of the Board, referred by the Board on the 16th October last (No. 52). Your Solicitor took out a Summons against the builder, for forming a way without the sanction of the Board, and also for not giving two entrances, and the case was heard at the Hammersmith Police-court on the 26th ultimo. The Magistrate dismissed the Summons on the ground that the road had not been laid out as a way, inasmuch as there was no road of defined width in front of the houses. The case was a difficult one, inasmuch as the houses are built upon a piece of Common land. Your Committee report the facts for the information of the Board, and recommend—

That a Cheque for £3 3s. be drawn for the costs allowed by the Magistrate at the hearing.

Your Committee have had under consideration the Letter from the Vestry of Kensington, relative to the erection of buildings on the East side of Canning-passage, Victoria-road, within the statutory distance from the centre of such passage, referred by the Board on the 10th July last (No. 61). The Board, on the 24th July last, instructed the Solicitor to serve a Penal Notice, and to apply for a Summons, if necessary, against the builder. Your Committee have received a further Letter from the Vestry, stating that they have sanctioned an amended line for the railing on the East side of Canning-passage, on certain conditions, to which the builder has assented. The Vestry think it unnecessary that any further action should be taken, and your Committee, concurring in that view, recommend—

That the reference be discharged.

Your Committee have also to report that they have considered the application of Mr. E. V. Grose, on behalf of Mr. H. Ward, for the consent of the Board to the erection of a Factory at the corner of Miller-street, Arlington-road, St. Pancras, to the line shown upon the amended Plan accompanying the application, referred by the Board on Friday last (No. 61). On the 23rd December last the Board declined to sanction the erection of the Factory to the line then proposed. The present Plan shows that a narrow strip of ground is to be given up, so as to widen Miller-street from 18 to 21 feet. The Vestry of St. Pancras object to the application, and your Committee, having heard the parties interested, recommend—

That it be not granted.

Your Committee have considered the application of Mr. G. S. Harrison, on behalf of Mr. T. Slowman, for the permission of the Board to retain a two-storey bay-window, recently erected in front of No. 5, Jardin-street, Camberwell, to the line shown upon the Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 44). In connection with the application, your Committee have also considered the Letter on the subject from Mr. A. R. Stenning, District Surveyor, referred by the Board on the 8th ultimo (No. 48). Jardin-street appears to be of the full width, and there is a forecourt 8 feet deep in front of the house. The bay projects 2 feet 6 inches beyond the main wall of the house, and is similar in every respect to the neighbouring bay-windows, which were approved by the Board in October last. Your Committee recommend—

That the application be granted, upon condition that the erection be in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any

time, in any manner, altered or raised without the consent of the Board, and that Mr. Stenning the District Surveyor, be so informed.

Your Committee have also considered the application of Mr. H. E. Milner, on behalf of Dr. D. H. Watney, for approval by the Board of an amended Plan for the formation and names of new roads on the Down Estate, High-street, Wandsworth, referred by the Board on the 15th ultimo (No. 54). The Board on the 27th November last declined to sanction the formation of new roads on the Estate. The amended Plans show the roads and bridges made 45 feet in width, and the latter strengthened to the satisfaction of your Engineer. As a precaution against floods, the roads have been planned to a minimum height of 20 feet above Ordnance datum. Your Committee recommend—

That the application be granted, upon condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the roads, and that the names “Broomhill-road, S.W.,” “Buckhold-road, S.W.,” “Lambden-road, S.W.,” and “Mapleton-road, S.W.,” be approved for the same.

Your Committee have had before them the application of Messrs. Masters and Sons, on behalf of Mr. H. Phillips, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 24, Collier-street, Pentonville, to the line shown upon the Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 46). It is proposed to re-construct the premises, and to extend the shop to the line of the forecourts, the part beyond the main wall of the houses being one-storey in height. Several adjoining houses have been erected to the proposed line. Your Committee recommend—

That the application be granted upon condition that the erection of the shop therein referred to be commenced within Six months, and be completed within Eighteen months from the 5th instant, and that the erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. G. Sherrin, on behalf of Mr. J. B. Carrington, for the consent of the Board to the erection of a conservatory at premises at the corner of Nutley-terrace, and Netherhall-terrace, Fitzjohn’s-avenue, Hampstead, to the line shown upon the Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 47). The conservatory will project 15 feet beyond the flank wall of the house and the ground line of houses in Netherhall-terrace. The road-way is 40 feet in width, and the Vestry of Hampstead do not object to the proposal. Your Committee recommend—

That the application be granted, upon condition that the erection therein referred to be commenced within Six months, and be completed within Eighteen months, from the 5th instant, and that the erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Messrs. Gardiner, Son and Theobald, on behalf of Messrs. Meux and Company, Limited, for the consent of the Board to the re-erection of the “Thatched House” Public-house, in Essex-road, Islington, to the line shown upon the amended Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 50). The Board on the 11th December last declined to give their consent to the erection of the building to the line then proposed. The applicants state that they have endeavoured to comply with the views of the Vestry, and they now propose to give up more land in Astey’s-row to pave the forecourt level with the path in Essex-road. The Vestry of Islington do not object to the present application. Your Committee recommend—

That the application be granted, upon condition that the re-erection of the building therein referred to be commenced within Six months, and be completed within Eighteen months from the 5th instant; that the land coloured Blue on the Plan be given up to form part of the public way, and that in other respects the erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. F. Edwards, on behalf of the Lion Brewery Company, Limited, for the consent of the Board to the re-erection of the "Fishmongers' Arms" Public-house, in St. George's-road, Southwark, to the line shown upon the further amended Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 53). The land, colored Pink, containing an area of 66 feet 9 inches is proposed to be taken from the public way, and the land colored Blue, containing an area of 40 feet 6 inches, will be given up to the public. Your Committee do not consider this an advantageous arrangement, as the line of frontage between Newington-butts and Temple-street will be broken, and the frontage of the Public-house will be irregular, and they recommend—

That the application be not granted.

Your Committee have also considered the application of Mr. H. Lafone, for the consent of the Board to the erection of a warehouse on the North-West side of Thomas-street, Horselydown, Southwark, to the line shown upon the Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 56). The present width of Thomas-street, between the fronts of the houses opposite the applicant's premises is 33 feet 9 inches, and if the warehouse be erected as proposed, the average width will be reduced to 31 feet. Your Committee consider the proposal objectionable, and recommend—

That the application be not granted.

Your Committee have considered the application of Mr. E. Yates, for approval by the Board of the erection of houses on the West side of Gaywood-street, Southwark, with open spaces at the rear thereof, as shown upon the Plan accompanying the application, referred by the Board on the 22nd ultimo (No. 65). The applicant proposes to pull down some of the houses in the street, and to widen it by giving up to the public way the part coloured Blue on the Plan submitted. He states, however, that there will be a difficulty in obtaining the necessary area at the rear of four of the new houses, possession of the ground coloured Yellow on the Plan submitted not falling in until 1888. Your Committee do not consider it desirable that the present Plan should be sanctioned, and they recommend—

That the application be not granted.

Your Committee have considered the Letter from Mr. P. Hunter, District Surveyor for Lower Norwood, asking the Board, under the circumstances mentioned in his Letter, that his District might be re-named "West Norwood," referred by the Board on the 22nd ultimo (No. 68). Mr. Hunter states that an arrangement has been made by owners of property and tradesmen at Lower Norwood with the Post Office authorities and the London, Brighton, and South Coast Railway Company to call the locality "West Norwood." Your Committee, however, deem it inexpedient to alter the name of the District, and they recommend—

That Mr. Hunter be informed, in reply to his Letter, that the Board are unable to comply with his request.

The Board, on Friday last (No. 55), referred to your Committee the application of Mr. H. Vulliamy, on behalf of Mr. Willoughby, for the consent of the Board to the erection of ten one-storey shops on the forecourts of houses in Bushey-hill-terrace, Peckham-road, to the line shown upon the Plan accompanying the application. It is intended to erect to a line about 25 feet in advance of the main wall of the Terrace one-storey shops which will be considerably in advance of the private houses adjoining, both to the East and West, the strip of land intervening between the proposed shops and the existing pavement being given up to the public. The Vestry of Camberwell and the adjoining owners object. Your Committee recommend—

That the application be not granted.

In pursuance of the reference by the Board of Friday last (No. 56) your Committee have considered the application of Mr. M. Davis, for the consent of the Board to the re-

erection of Nos. 1 and 2, North-street, Pentonville, to the line shown upon the Plan accompanying the application. It is proposed to extend the premises by re-erecting them up to the line of forecourts. There are no projections to the extent shown by the applicant within some distance of his premises. Your Committee, having regard to the narrowness of the pathway at this point, consider the proposal objectionable, and they recommend—

That the application be not granted.

Your Committee have considered the application of Mr. C. J. C. Pawley, for the consent of the Board to the erection of four one-storey shops upon land adjacent to the South-Eastern Railway Station in the Greenwich-road, to the line shown upon the Plan accompanying the application, referred by the Board on Friday last (No. 58). The shops front partly on the Station-yard, and partly on the Greenwich-road, and will be kept back to a line 5 feet from the pavement. The Greenwich District Board consider the proposal most objectionable, and your Committee agreeing with that opinion recommend—

That the application be not granted.

The Board, on Friday last (No. 66), referred to your Committee the application of Mr. J. J. Downes, for approval by the Board of an amended Plan for the erection of buildings on the West side of Combe-farm-lane, Blackheath, in the position and to the line shown thereon. The Plan now submitted agrees with one which the Board, in June, 1882, approved conditionally, on the surrender of certain land to the public way, so far as regards the frontage of the eight shops erected at the Southern end of the land. The applicant, however, proposes to take the frontage line straight from the eighth shop to the corner of the first road leading out of Combe-farm-lane, instead of the broken line of frontage which was previously approved. The Greenwich District Board object to the proposal. Your Committee recommend—

That the application be not granted.

Your Committee have considered the application of Mr. J. J. Stevenson, for approval by the Board of a Plan for the erection of two stables, with living rooms over the same, in Clabon-mews, Cadogan-square, Chelsea, with open spaces at the rear thereof, as shown upon the Plan accompanying the application, referred by the Board on Friday last (No. 68). The frontage of the buildings measures 24 feet in each case, and the Amendment Act requires an area of 300 superficial feet to be left at the rear above the ground floor. The space at the rear, as shown on the Plan, is much less, and does not extend across the entire width of the building, as required by the Act. Your Committee recommend—

That the application be not granted.

The Board, on Friday last (No. 73), referred to your Committee the application of Messrs. Leoni and Co., for the permission of the Board to retain, for a further period, the temporary wood and iron building erected at the rear of No. 54, St. Paul-street, New North-road, Islington. The Board first approved the building in July, 1879, and have extended the License from time to time, the last occasion being for a period of two years from December, 1883. The District Surveyor states that he considers the building to be in a fit state for use for a further period of Two years. Your Committee recommend—

That the application be granted, for a period of Two years from the 5th instant, upon condition that the Owners do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

All which your Committee beg to submit.

(Signed) A. EWIN,
W. R. SELWAY,
FRANCIS H. FOWLER,
W^m. SHEPHERD.

The revised form of License, with respect to temporary buildings, submitted with the Report, was laid before the Board.

The Report having been read and received,

It was ~~moved~~ by Mr. Ewin, seconded by Mr. Selway, and ~~resolved~~—That the Solicitor be authorised to retain Mr. Besley as Counsel, on behalf of the Board, in the proceedings which the Board on the 22nd ultimo, (No. 8), directed should be taken against the person or persons who are keeping open the Portland Hall, formerly the Portland Bazaar, Langham-place, St. Marylebone, as a place of public entertainment, without the Certificate of the Board.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That, inasmuch as the License granted by the Court of Quarter Sessions of Middlesex, for the Beaumont Literary and Philosophical Institution, in Beaumont-square, Mile-end, has been revoked, pursuant to Section 3 of the Act 25th Geo. II., cap. 36, and an entry to that effect has been made on the License by the Clerk of the Peace, the reference to the Committee with regard to remedying the structural defects of the building be discharged.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the Solicitor be instructed to take the necessary legal proceedings against the owner of the Eagle Tavern, Music-hall, in the City-road, to enforce compliance with the Board's requisitions for remedying the structural defects of the building.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the application of Mr. J. Edmeston, on behalf of the National Agricultural Hall Company, Limited, for approval by the Board of a proposed alteration in the position of the staircases of the large Hall of the National Agricultural Hall, adjoining the Kensington (Addison-road) Railway Station, Hammersmith, be granted.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That so much of the Report as relates to Neumeyer-hall in Hart-street, Bloomsbury, be approved, and that, with a view to remedying the structural defects of the building, a revised Notice, containing the following Requisitions, be served upon the Owner thereof—

1.—That so much of the floors of the rooms on the first floor of Bloomsbury Mansion as extend over the entrance to the Hall, leading out of Hart-street, be constructed of fire-resisting materials to the satisfaction of the District Surveyor.

2.—That the floor of the Hall, together with the floors of the two retiring rooms and the lobby, and of the two ante-rooms at the North-West angle of the premises, be constructed of fire-resisting materials to the satisfaction of the District Surveyor.

3.—That the spiral staircase leading from the show-room on the ground-floor to the retiring-room on the West side of the Hall, be removed, and the flooring of the retiring-room made good with fire-resisting materials.

4.—That the public staircase on the South side of the Hall be pulled down, and that a new staircase be constructed in its place, in accordance with the drawings submitted by Mr. J. D. Mathews, and signed by the Chairman of the Committee; that such new staircase do have spandril steps of York, or other approved stone, with 11-inch treads and 6-inch risers, 4 feet wide in the clear, with the necessary intermediate landing; that the steps be supported at both ends; that the intermediate landing of such staircase be formed of similar materials to the steps, and be 4 feet wide, and 6 inches thick, in one stone, supported upon all sides by brick walls, not less than 9 inches thick; that the landing at the head of such staircase be formed of fire-resisting materials to be approved by the District Surveyor; and that the lower flight of the stairs do have two iron standards bolted to the floor and the ceiling, and an additional iron handrail secured to the same, at a height of 5 feet from the level of the upper surface of the steps.

5.—That the window on the South side of the staircase-hall be stopped up with brickwork 14 inches thick.

6.—That the staircase at the North-West angle of the Hall premises, leading into Pied Bull-yard, be pulled down, and that a new staircase be constructed in its place, in accordance with the drawings submitted by Mr. J. D. Mathews, and signed by the Chairman of the Committee; that the lower flight of such new staircase do have solid square steps, and that the upper flights do have spandril steps, of York or other approved stone, with 11-inch treads and 6 inch risers, 4 feet wide in the clear, in flights of not more than twelve steps, with the necessary intermediate landings; that the steps be supported on the outer edge partly by a brick wall 9 inches thick, and partly by iron bearers; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet wide and 6 inches thick, in one stone, supported upon all sides by brick walls not less than 9 inches thick; that the landing at the head of such staircase be formed of fire-resisting materials to be approved by the District Surveyor; that the lower flight of the stairs do have four iron standards bolted to the steps and the ceiling, and an additional iron handrail secured to the same at a height of 5 feet from the level of the upper surface of the steps; and that a bulk-head be formed over such staircase, enclosed at the sides with half brickwork in cement, and with a roof formed of concrete on iron bearers.

7.—That the doorway at the North-West angle of the Hall be increased in width to 4 feet 6 inches, or as far as practicable.

8.—That the skylights over the show-rooms on the ground-floor, be protected by galvanized iron wire guards.

9.—That stout handrails be fixed on both sides of the two staircases.

10.—That all doors used by the public be hung in two folds, and be made to open outwards.

It was moved by Mr. Ewin, seconded, and ~~resolved~~—That a Notice, embodying the above requirements, and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same; and that, upon the receipt of such consent, the Notice be sealed, and be served by the Solicitor upon the Owner of the Hall.

It was moved by Mr. Ewin, seconded, and ~~resolved~~—That the application of Mr. J. W. Brooker, on behalf of Mr. G. W. Moore, Jun., for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed Music-hall to be erected at the rear of the "Royal Standard" Public-house, in York-road, Battersea, as shown upon the amended Drawings submitted by the applicant on the 23rd January, 1886, be granted, on condition that the opening between the entrance to the gallery and the Eastern corridor be bricked up; that the said Drawings be approved; and that the Certificate be issued upon the completion of the building, in accordance with such Drawings and the above condition, to the satisfaction of the Board.

It was moved by Mr. Ewin, seconded, and ~~resolved~~—That so much of the Report as relates to the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Britannia (late Bijou) Music-hall, No. 58, Blackfriars-road, Southwark (Christchurch), and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878, be approved, and that in the opinion of the Board the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That an entrance passage-way, 4 feet 6 inches wide, be formed to the Hall through the bar of the Public-house; that such passage be enclosed upon

all sides by brickwork or other fire-resisting materials, to be approved by the Board, and that no openings be formed between such passage and the bar of the Public-house.

2.—That a brick wall, 14 inches thick, be built at the Eastern end of the Hall, on the ground floor, in a line with the back wall of the Public-house, to separate the Hall from the Public-house; that such wall be carried down to the level of the footings of the basement storey, and that not more than one opening, not exceeding 4 feet 6 inches wide, be formed in such wall for access to the Music-hall.

3.—That the floor of the Music-hall be formed of fire-resisting materials to be approved by the Board.

4.—That the dressing-rooms under the stage be removed, or be properly lighted and ventilated to the satisfaction of the Board.

5.—That the staircase to the balcony be removed, and that a new staircase be provided to the same; that such new staircase do have solid "square" (as distinguished from "spandril") steps of York or other approved stone, with 11-inch treads and 6-inch risers, 3 feet 6 inches wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be 3 feet 6 inches wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or be constructed of other fire-resisting materials to be approved by the Board.

6.—That the window of the kitchen of the Public-house on the first floor, overlooking the balcony of the Hall, be stopped up with brickwork 9 inches thick.

7.—That the floor of the scullery of the Public-house, which extends over a portion of the Hall at the South-East angle, be constructed of fire-resisting materials to be approved by the Board.

8.—That the skylights in the roof be protected by galvanised iron wire guards fixed on the outside of such skylights.

9.—That handrails be fixed on both sides of the balcony staircase.

10.—That all door-ways used by the public be made not less than 4 feet 6 inches wide, and that the doors be hung in two folds, and be made to open outwards.

It was moved by Mr. Ewin, seconded, and resolved—That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and that the Committee do report further to the Board on the subject.

It was moved by Mr. Ewin, seconded, and resolved—That so much of the Report as relates to the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Eyre Arms Assembly Rooms, Nos. 1 and 3, Finchley-road, St. Marylebone, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878, be approved; and that, in the opinion

of the Board, the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That the staircase to the Assembly Rooms at the South-West angle of the premises be pulled down, and that a new staircase be constructed in its place; that such new staircase do have solid “square” (as distinguished from “spandril”) steps, of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet 6 inches wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet 6 inches wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board.

2.—That the floor of the lobby at the foot of such staircase be constructed of iron joists and concrete, or of other fire-resisting materials to be approved by the Board.

3.—That the staircase at the South-East angle of the premises be pulled down, together with the lavatories adjoining, and that a new staircase be constructed on the site of such staircase and lavatories adjoining; that such new staircase do have solid “square” (as distinguished from “spandril”) steps, of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet 6 inches wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet 6 inches wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, turned under them, in the middle of such landings; and that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board.

4.—That the floor of the lobby at the foot of the staircase last described be constructed of iron and concrete, or other fire-resisting materials to be approved by the Board.

5.—That the two openings in the North wall of the staircase at the South-East angle of the premises be stopped up with brickwork 9 inches thick.

6.—That the floor of the Assembly room, and of the refreshment bar adjoining, be constructed of fire-resisting materials to be approved by the Board.

7.—That the floors of the rooms on the first floor of the “Eyre Arms” Public-house, be constructed of fire-resisting materials to be approved by the Board.

8.—That the lower part of the windows on the North and West sides of the Assembly room be protected by wrought-iron guard-bars to a height of 6 feet from the floor.

9.—That stout handrails be fixed on both sides of the staircases at the South-East and South-West angles of the Assembly room.

10.—That the skylights over the Assembly room refreshment bar be protected by a galvanized-iron wire guard fixed on the outside.

11.—That all doors used by the public be hung in two folds, and be made to open outwards.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly, or through their Sub-Committee, with the Owner upon the Board's Requisitions, and that the Committee do report further to the Board on the subject.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Griffin Music-hall, No. 99, Shoreditch High-street, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878, be approved, and that, in the opinion of the Board, the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That an entrance passage, not less than 4 feet 6 inches wide, be formed to the Hall through the bar of the Griffin Public-house; that such passage be separated from the Public-house by a brick wall, 9 inches thick, without openings, and that such wall be carried down to the level of the footings of the basement storey of the Public-house; that the floor of such passage be formed of brick arches 9 inches thick, or of concrete on wrought-iron joists; and that such passage do have a ceiling of concrete 6 inches thick on wrought-iron joists.

2.—That a brick wall, 9 inches thick, be built at the Western end of the Hall, to separate the Hall from the Public-house adjoining; that such wall be carried down to the basement of the Public-house, and be carried up to a height of 3 feet above the flat roof of the Music-hall; and that not more than one opening, not exceeding 4 feet 6 inches wide, be formed in such wall, on the ground floor level, for access to the Music-hall.

3.—That the staircase leading from the Hall to the rooms on the first floor of the Public-house be removed.

4.—That the doorway in the North wall of the Music-hall, leading into Jane-Shore-court, be increased in width to 4 feet 6 inches, and that an additional step be formed to such door-way as enlarged.

5.—That the doors to the Hall be hung in two folds, and be made to open outwards.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and that the Committee do report further to the Board on the subject.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the question of the present arrangements for the egress of the public from, and the prevention of fire in, the Kensington Hall, in Kensington-park-road, Notting-hill, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878, be approved, and that, in the opinion of the Board, the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That a brick wall, 9 inches thick, be built under the wall on the West side of the passageway leading to the Hall, and be carried down to the level of the footings of the basement storey of the house, No. 188, Kensington-park-road.

2.—That the doorway leading into the shop on the ground floor of No. 188, Kensington-park-road, be stopped up with brickwork 9 inches thick.

3.—That so much of the first floor of the house, No. 188, Kensington-park-road, as extends over the entrance to the Hall, together with the roof over such entrance, be constructed of fire-resisting materials to be approved by the Board.

4.—That the dressing rooms under the stage be removed, or be properly lighted and ventilated to the satisfaction of the Board.

5.—That the skylights in the roof be protected by galvanized-iron wire guards, fixed upon the outside of such skylights.

6.—That handrails be fixed on both sides of the staircase to the gallery.

7.—That all doors used by the public be made to open outwards.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and that the Committee do report further to the Board on the subject.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. B. Fletcher, M.P., on behalf of Mr. C. Zierenberg, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, in respect of the construction of the St. James's Temperance-hall, in Royal-road, Kennington-park, as shown on the amended Drawings accompanying the application, be granted, on condition that certain of the columns supporting the front of the gallery be carried down to the basement, and that the external staircase at the Southern side of the Hall be constructed of stone, as shown on the three further Drawings accompanying Mr. Fletcher's Letter of the 29th January, 1886, and also on condition that the handrails of such external staircase be carried up to a height of 4 feet 6 inches from the level of the upper surface of the steps; and that the Certificate be issued upon the completion of the Hall, in accordance with the deposited Drawings and the above conditions, to the satisfaction of the Board.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owner and the Occupier of the Structure, No. 34, South-street, St. Marylebone, had failed to comply with the Orders made by James Smith Mansfield, Esquire, and Alfred De Rutzen, Esquire, two of the Magistrates of the Police-courts of the Metropolis, sitting at the Marylebone Police-court, on the 22nd day of October last, and the 4th day of November last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolve, and it is hereby *resolved* and *ordered*, on the *motion* of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed, and they are hereby authorised to take down the back front and the back chimney stack of the structure, No. 34, South-street, Marylebone, as low as they are cracked or not upright.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owner of the Structure, No. 66, Wardour-street, St. Anne, Soho, had failed to comply with the Order made by Robert Milnes Newton, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Marlborough-street Police-court, on the 19th day of October last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolved, and it is hereby **resolved** and **ordered**, on the **motion** Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed, and they are hereby authorised to take down the bulged and defective parapets of the back addition to the house, No. 66, Wardour-street, St. Anne, Soho, and the defective and cracked brickwork at the junction of the North party-wall with the front wall of the same.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owner and Occupier of the Structure, No. 168, Whitecross-street, St. Luke, Old-street, had failed to comply with the Order made by John Hosack, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Clerkenwell Police-court, on the 30th day of June last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolved, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed, and they are hereby authorised to take down the front and flank walls of the house, No. 168, Whitecross-street, St. Luke, Old-street, where the same are fractured, bulged, defective, or out of the perpendicular.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That no further action be taken with reference to the Letter from Mr. T. Williams, District Surveyor, relative to an iron pent roof recently erected in front of No. 234, Southwark-park-road, Bermondsey, without the consent of the Board, and that Mr. Williams be so informed.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That so much of the Report as relates to the Letter from Mr. T. Dakers, relative to the alleged defective construction of flues against the South party-wall of No. 5, Gordon-villas, Ravenshaw-road, Hampstead, be approved; that the substance of the Solicitor's Report on the subject be communicated to the District Surveyor, and that Mr. Dakers be informed of the course adopted.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the revised form of License now submitted, with respect to temporary buildings, be approved and adopted.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the Solicitor be instructed to serve Notices under Section 12 of the Act of 1882, and, if necessary, summon the Owners of the following wood and iron buildings, the Licenses for which have expired :—Schoolroom at the rear of No. 93 (late No. 60), Coningham-road, Shepherd's-bush; Mission-room at the rear of premises in Evelyn-street, Deptford; Chapel in Verney-road, Rotherhithe; and a Studio in Berkeley-grove, Regent's-park.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That so much of the Report as relates to the proceedings taken on the Letter from Mr. A. Moseley, District Surveyor, relative to the commencement by Mr. J. Rowe, Jun., of the erection of houses in a street 20 feet wide, leading out of Margravine-road, without the approval of the Board, be received; and that a Cheque for £3 3s. be drawn for the costs allowed by the Magistrate at the hearing of the Summons.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That, inasmuch as the Vestry of Kensington are not now desirous that any action should be taken, relative to the erection of buildings on the East side of Canning-passage, Victoria-road, the reference be discharged.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application of Mr. E. V. Grose, on behalf of Mr. H. Ward, for the consent of the Board to the erection of a Factory at the corner of Miller-street, Arlington-road, St. Pancras, to the line shown upon the amended Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. G. S. Harrison, on behalf of Mr. T. Slowman, for the permission of the Board to retain a two-storey bay-window, recently erected in front of No. 5, Jardin-street, Camberwell, to the line shown upon the Plan accompanying the application, be granted, upon condition that the erection be in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of the Board, and that Mr. Stenning, the District Surveyor, be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. H. E. Milner, on behalf of Dr. D. H. Watney, for approval by the Board of an amended Plan for the formation and names of new roads on the Down Estate, High-street, Wandsworth, be granted, upon condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the said roads, and that the names “Broomhill-road, S.W.,” “Buckhold-road, S.W.,” “Lambden-road, S.W.,” and “Mapleton-road, S.W.,” be approved for the same.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Masters and Sons, on behalf of Mr. H. Phillips, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 24, Collier-street, Pentonville, to the line shown upon the Plan accompanying the application, be granted, upon condition that the erection of the shop therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. G. Sherrin, on behalf of Mr. J. B. Carrington, for the consent of the Board to the erection of a conservatory at premises at the corner of Nutley-terrace and Netherhall-terrace, Fitzjohn’s-avenue, Hampstead, to the line shown upon the Plan accompanying the application, be granted, upon condition that the erection therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs Gardiner, Son and Theobald, on behalf of Messrs. Meux and Company, Limited, for the consent of the Board to the re-erection of the “Thatched House” Public-house, in Essex-road, Islington, to the line shown upon the amended Plan accompanying the application, be granted, upon condition that the re-erection of the building therein referred to be commenced within Six months, and be completed within Eighteen months from this date; that the land coloured Blue on the Plan be given up to form part of the public way, and that in other respects the re-erection be made in entire conformity with the letter of application, and as shown upon the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. F. Edwards, on behalf of the Lion Brewery Company, Limited, for the consent of the Board to the re-erection of the “Fishmongers’ Arms” Public-house in St. George’s-road, Southwark, to the line shown upon the further amended Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. H. Lafone, for the consent of the Board to the erection of a warehouse on the North-West side of Thomas-street, Horselydown, Southwark, to the line shown upon the Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. E. Yates, for approval by the Board of the erection of houses on the West side of Gaywood-street, Southwark, with open spaces at the rear thereof, as shown upon the Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That Mr. P. Hunter, District Surveyor for Lower Norwood, be informed in reply to his Letter asking that his District might be re-named “West Norwood,” that the Board are unable to comply with his request.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. H. Vulliamy, on behalf of Mr. Willoughby, for the consent of the Board to the erection of ten one-storey shops on the forecourts of houses in Bushey-hill-terrace, Peckham-road, to the line shown upon the Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. M. Davis, for the consent of the Board to the re-erection of Nos. 1 and 2, North-street, Pentonville, to the line shown upon the Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. C. J. C. Pawley, for the consent of the Board to the erection of four one-storey shops upon land adjacent to the South-Eastern Railway Station in Greenwich-road, Greenwich, to the line shown upon the Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. J. Downes, for approval by the Board of an amended Plan for the erection of buildings on the West side of Combe Farm-lane, Blackheath, in the position and to the line shown thereon, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. J. Stevenson, for approval by the Board of a Plan for the erection of two stables, with living rooms over the same, in Clabon-mews, Cadogan-square, Chelsea, with spaces at the rear of less area than is required by the Act, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Leoni and Co., for the permission of the Board to retain, for a further period, the temporary wood and iron building erected at the rear of No. 54, St. Paul-street, New North-road, Islington, be granted, for a period of Two years from this date, upon condition that the Owners do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

11. Read a Report by the Engineer, dated 5th February, 1886, on the undermentioned Sewerage works proposed to be executed by the following District Boards—

LOCALITY OF WORK.	WORK APPLIED FOR.			REMARKS.

1st Feb.	Abbey - road, between Springfield and Boundary Roads.	Paving crossing	1 week	1 week	Belgrave, &c., Roads.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the sanction of the Board be given, and the same is hereby given, to the closing of the thoroughfares in question by the said District Board and Vestry, for the purpose of executing works therein, for the periods recommended by the Engineer, such sanction to date from the commencement of the works respectively.

13. The Engineer presented a Report, as follows—

Engineer's Department,
Spring-gardens,
1st February, 1886.

MONTHLY REPORT ON THE PROGRESS OF THE SEVERAL SPECIAL CONTRACT WORKS.

Holloway and Northern High Level Sewers Relief Lines.—Mr. W. Rigby, Contractor.—A length of about 11,000 feet of brick sewers, varying in diameter from 7 feet to 5 feet 6 inches, has been constructed, at an estimated cost, with other works in connection therewith, of £39,000, of which about £4,900 represent the progress made in the past month. The Clerks of Works employed are Messrs. T. Panter, G. Larkin, T. Wighton, J. Driffield, J. Boyden, W. Grimwood, and W. Jennings, at a weekly cost of £22 1s.

Queen's-road, Dalston, &c., Sewer.—Messrs. Nowell and Robson, Contractors.—A length of about 5,760 feet of brick Sewer, varying in size from 5 feet by 4 feet to 4 feet by 2 feet 8 inches egg shape, is complete, at an estimated cost, with other works in connection therewith, of £12,700, of which about £1,000 are due to the progress made in the past month. The Clerks of Works employed are Messrs. J. Carter, J. Lake, and J. Pope, at a weekly cost of £9 9s.

Clapham to Putney Relief Sewers.—Mr. John Waddell, Contractor.—The main line of sewer from the "Bedford Arms" Public-house, Clapham, to Roehampton-lane, Putney, and five out of the six branch sewers have been completed, with the exception of the shafts, connections, and minor works, and the aqueduct crossing the Wandle valley, which, with the branch sewer at Putney boundary, are in progress. The approximate value of the work done is about £131,000. The Clerks of Works employed are Messrs. C. Bedloe, R. Lynn, and J. Judd, at a weekly cost of £9 9s.

Putney (new) Bridge.—Mr. John Waddell, Contractor.—The four piers and the two abutments have been constructed up to the formation level of the road-way. The five granite arches have been constructed, the spandrel ashlar and brickwork have been built up to the formation level of the Bridge road-way, and the cornices and parapets are being fixed. The construction of the road-way approaches at the Fulham and Putney extremities of the Bridge, together with the parapet and retaining walls thereto, is well advanced. The total approximate value of permanent work executed is about £208,500 (which amount includes the value of materials delivered and accepted), of which about £1,500 are due to the progress made in the past month. The Clerks of Works employed are Messrs. A. Boag and J. Gooding, at a weekly cost of £6 6s.

Hammersmith Bridge.—Messrs. Dixon, Appleby, and Thorne, Contractors.—The temporary Bridge has been completed and opened for traffic since April last. The whole of the road metalling, the planking of the carriage and footways, the cross girders, and the suspension rods of the old Bridge have been removed. The temporary chains for the erection of the permanent link chains have been raised to the required positions. The masonry of the Northern and Southern pier towers has been demolished to the levels of the key-stones of the tower arches. The coffer dam for the underpinning of the Surrey pier has been completed. The

excavations for the Northern and Southern abutments of the new structure have also been completed, and the concrete is being filled into them. The anchor abutment castings, steel anchor forgings, and abutment saddles have been fixed. Some portions of the wrought-iron towers, the new cross girders, the steel pins and nuts for the new chains, and the cut-water pier castings have been manufactured. The total approximate value of permanent work (which includes ironwork delivered) is about £34,500, of which about £500 are due to the progress made in the past month. The Clerk of Works employed is Mr. T. M. Carey, at a weekly cost of £3 3s.

Battersea Bridge.—Messrs. John Mowlem and Co., the Contractors for the execution of the works comprised in the construction of the temporary foot-bridge, and the removal of the old structure, have completed the temporary Bridge. The old Bridge is undergoing demolition, the large timber trusses which spanned the navigable openings, have been removed, and the piling is being drawn. The total approximate value of work executed is about £7,000. The Clerk of Works employed is Mr. P. Sharpe, at a weekly cost of £3 3s.

(Signed) J. W. BAZALGETTE,
Engineer.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be received, and that it be printed and circulated among the Members of the Board, and be referred to the Works and General Purposes Committee, for consideration.

14. Read a Report by the Engineer, dated 5th February, 1886, on a Letter from Mr. H. Eaton, Superintending Engineer, Post Office Telegraphs, applying for permission to suspend an additional cable in the Board's Subways, from Queen Victoria-street (opposite Lambeth-hill) to Westminster Bridge; stating that it was proposed to carry the additional telegraph cable on the existing supports in the Subways, and recommending that the application should be granted, upon conditions similar to those under which the Board had permitted the present cables to be placed in the Subways, viz., that the work should be carried out, and any damage that might be done in its execution, made good under the direction, and to the satisfaction of the proper Officers of the Board, and at the sole cost of the Post Office authorities, and that the cable should be removed within three months of the receipt of a notice from the Board to that effect.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the application be granted, on the conditions recommended.

15. Read a Report by the Engineer, dated 5th February, 1886, stating that Mr. W. E. W. Crane, a Constructive Draughtsman in his Department, had recently died.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be received.

16. Read a Report by the Engineer, dated 5th February, 1886, stating that the following quantities of Coal were required for use at the undermentioned Pumping Stations—

<i>Deptford Station.</i>					ESTIMATE.
300 Tons of Welsh Coal	...	...	...	...	£271 5 0
300 „ Tanfield Moor Coal	...	...	...	...	196 5 0
<i>Western Station.</i>					
80 Tons of Welsh Coal	...	...	...	...	72 6 8
80 „ Tanfield Moor Coal	...	...	...	...	56 6 8
Total	...	...	...	...	£596 3 4

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the Coal be obtained accordingly, the cost thereof being charged to the General Working Account of the Board.

17. Read a Report by the Engineer, dated 5th February, 1886, recommending the execution of the following works under the General Contracts—

						ESTIMATE.
Filling up a portion of the old disused Main Sewer, and connecting drains with the new Sewer near the "Swiss Cottage," in Finchley-road ...	...	...	...	...	...	£75 0 0
Repairing the side-entrance and Sewer opposite the new College in Finchley-road ...	...	...	...	...	...	35 0 0
Repairs to the Board's private road from Plumstead to the Crossness Pumping Station ...	...	...	...	...	...	75 0 0
Total	...	...	...	...	...	<u>£185 0 0</u>

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the works be executed accordingly, the cost thereof being charged to the General Working Account of the Board.

18. Read a Report by the Engineer, dated 5th February, 1886, stating that during the past quarter certain urgent works of repair to the brickwork of the boiler furnaces at the Abbey-mills Pumping Station had been executed by the Board's General Contractors, at a cost of £43 3s., and asking the sanction of the Board thereto.

It was moved by Mr. Fowler, seconded, and resolved—That the execution of the works referred to be sanctioned, the cost thereof being charged to the General Working Account of the Board.

19. Read a Report by the Engineer, dated 5th February, 1886, on a Letter from the Rev. C. E. T. Roberts, asking the Board to compensate Mr. Dawdry, No. 352, Hackney-road, for the alleged loss of business sustained by him during the execution of the Board's Sewerage works in front of his shop; stating that the new Sewer had been constructed in the road past Mr. Dawdry's and other premises; that, for the purpose of properly fencing off the works, and protecting the public, a hoarding had been erected at the side of the road-way, but that ample space had been left along the foot-way for the public traffic, and that everything had been done by the Contractors to lessen, as much as possible, the temporary inconvenience to the residents and others; that the Board had invariably declined to admit their liability for claims of that description, and recommending that the present application should be similarly dealt with.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the Board deny any liability in respect of the claim.

20. Read a Report by the Engineer, dated 5th February, 1886, stating that the Board, in April last, had granted a pension to George Fernley, Flap-keeper, in consequence of his having become incapacitated for further service; that the Flaps to which he had attended were placed in the temporary charge of Robert Hooper, who had previously been in the employ of the Board as a grating-cleaner, and that Hooper had given every satisfaction in the performance of his duties; and recommending that he should be appointed, during the pleasure of the Board, as a Flap-keeper at the same salary as was paid to Fernley, viz., £80 per annum.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that Robert Hooper be appointed as a Flap-keeper, during the pleasure of the Board, at a salary of £80 per annum.

21. The Solicitor reported that the Board's (Various Powers) Bill, 1886, had been introduced into the House of Commons by the Chairman of the Board and Sir Robert Fowler on the 1st instant.

22. The Solicitor reported that the second reading of the Board's (Fire Brigade Expenses) Bill had been appointed for the 17th instant; that the second reading of the Board's

(Water Supply, &c.) Bill had been appointed for the 24th instant; that the second reading of the Board's (Theatres, &c.) Bill had been appointed for the 17th March next; and that the second reading of the Board's (Keeping of Firewood) Bill had been appointed for the 9th June next, and that Mr. Bartley, M.P., had given notice to move that the Bill be read a second time on that day six months.

23. The Solicitor reported that the Hyde-park-corner (New Streets) Bill, to provide for the maintenance of the new streets at Hyde-park-corner, had not yet been introduced into the House of Commons.
24. The Solicitor reported that the second reading of the Theatres, &c. (Metropolis) Bill, (Mr. Dixon Hartland), had been appointed for this evening, but that as the House had been adjourned it could not be taken.
25. The Solicitor reported that the second reading of the Sanitation of Houses Bill had been appointed for the 19th May next; that the second reading of the Employers' Liability Act (1880) Amendment (No. 1) Bill, had been appointed for the 17th instant; that the second reading of the Employers' Liability Act (1880) Amendment (No. 2) Bill, had been appointed for the 10th March next; and that the second reading of the Land Purchase Facilities Bill had been appointed for the 7th July next.
26. The Solicitor reported that it might become necessary, before the next Meeting of the Board, to affix the Seal to Petitions on their behalf, against Bills to be promoted in Parliament during the present Session.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Chairman of the Board be requested and authorised to affix the Common Seal of the Board to any Petitions which it may become necessary to present to Parliament on behalf of the Board before their next Meeting.

27. The Solicitor reported that several Bills in which the Board were interested had been introduced and read a first time in the House of Commons.
28. The Solicitor presented for sealing Five Leases to Messrs. Sage and Oxley, of Plots Nos. 14 to 18, Gray's-inn-road, in the line of the Gray's-inn-road Improvement.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said Leases; and the Seal was affixed accordingly.

29. The Solicitor presented a copy Writ which had been issued against the Board at the suit of Mr. Paul D'Humy, in connexion with the works for the new street from Charing-cross to Tottenham-court-road, and stated that he would appear to the Writ in due course; and he suggested that the action should be referred to the Works and General Purposes Committee, with power to act.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the subject be referred to the Works and General Purposes Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

30. The Solicitor reported that, in accordance with the instruction given to him by the Building Act Committee, he had attended at the inquest relative to the falling of houses in course of demolition in Holloway-road, on Saturday last, and that the Jury had, in a rider to their verdict, recommended that the Board should procure powers so that District Surveyors should have control over the pulling down of old houses as well as the erection of new ones.

It was *moved* by Mr. Fowler, seconded by Mr. Selway, and *resolved*—That the subject be referred to the Building Act Committee, for consideration and report.

31. The Solicitor reported that it was necessary that the Board should draw a Cheque for £500 in favour of the Woolwich Local Board, for the purchase of their gravel-digging rights in Plumstead-common, to enable him to complete the purchase under Section 54 of this Board's Various Powers Act, 1885.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That a Cheque for £500 be now drawn in favour of the Woolwich Local Board of Health; and a Cheque was drawn on the General Capital Account accordingly.

32. The Clerk laid before the Board copies of the Orders of the Board of the 29th ultimo (No. 12), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

Woodland-hill, &c. ...	...	...	Lambeth
George-street, St. Paul, Deptford	...	...	Greenwich
Nile-street, &c. Do.	...	...	Do.
Seymour-street, &c. Do.	...	...	Do.
Collingwood-street, Christchurch	...	...	St. Saviour's, Southwark
Wellington-street ...	...	...	Hackney

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

33. The Clerk presented a Letter, as follows—

Homerton, E.,
28th January, 1886.

GENTLEMEN,—I am directed by the Guardians of the Hackney Union to acknowledge the receipt of the Letter of the Accountant of your Board under date the 16th instant, and to apply for a Loan of £13,300 at 3½ per cent. interest, payable quarterly.

The amount is required to redeem certain Loans due from the Guardians to the Public Works Loan Commissioners.

I am, &c.,
(Signed) JNO. GODWIN,
Clerk.

To the Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

34. The Clerk presented a Letter, as follows—

Homerton, E.,
28th January, 1886.

GENTLEMEN—I am directed by the Guardians of the Hackney Union, to acknowledge the receipt of the Letter of the Accountant of your Board, under date the 16th instant, and to apply for a Loan of £4,300, to be repaid within a period of Thirty years, with interest at the rate of 3½ per cent., payable quarterly upon the balance remaining unpaid.

The money is required to pay the Guardians of the Parish of St. Leonard, Shoreditch, the share of their interest in the Brentwood Schools as directed by an Order of the Local Government Board.

I am, &c.,
(Signed) JNO. GODWIN,
Clerk.

To the Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

35. The Clerk presented a Letter from Mr. G. C. Harding, Clerk to the Vestry of Kensington, dated 29th January, 1886, stating that the Vestry had decided to petition Parliament against the South Kensington, Knightsbridge and Marble Arch Subways Scheme, and asking the Board to refuse their sanction to the same.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Vestry be informed that the Board have decided to petition against the Bill.

36. The Clerk presented a Letter from Mr. J. E. Salway, Clerk to the Vestry of Chelsea, dated 29th January, 1886, stating that the Vestry had, in reply to the request of the Home Secretary, to be furnished with the Vestry's observations with regard to Clause 4 of the Hampstead-heath Enlargement Bill, 1886, passed a Resolution to the effect that they did not concur in the terms of the Clause, and that the Board should be requested to make a contribution on behalf of the united Parishes of London.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

37. The Clerk presented a Letter from Mr. H. Wilkins, Clerk to the Vestry of St. James, Westminster, dated 30th January, 1886, with regard to the Board's Bill for regulating the keeping of Firewood, expressing the opinion of the Vestry that the Board should have some controlling power with regard to the stacking of Firewood.

It was *moved* by Mr. Fowler, seconded by Mr. Bonthron, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

38. The Clerk laid before the Board a Letter from Mr. J. J. Stokes, Clerk to the Vestry of Rotherhithe, dated 30th January 1886, transmitting a copy of a Resolution of the Vestry disapproving of the Board's Bill, relative to the stacking of Firewood.

It was *moved* by Mr. Tolhurst, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

39. The Clerk presented a Letter from Mr. C. W. Allen, dated 30th January, 1886, again calling attention to the injury done to Tooting-common by horse-riding thereon, and asking that early steps might be taken to place the Common upon the same footing as Clapham-common with regard to horse-riding.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which it relates.

40. The Clerk presented Letters and a Memorial, as follows—

Letter from Messrs. Hicklin, Washington and Pasmore, dated 2nd February, 1886, transmitting a Petition signed by owners and occupiers of houses in opposition to the Tramways proposed by the North London Tramways Bill.

Letter from Messrs. Hicklin, Washington and Pasmore, dated 2nd February, 1886, transmitting a Petition signed by owners and occupiers of houses in High-street and Chalk-farm-road in opposition to the London Street Tramways Extension Bill.

Memorial from owners or occupiers of houses in Adelaide-road in opposition to a Tramway along Adelaide-road.

Letters from Mr. W. L. Howard, dated 2nd February, 1886, and Mr. O. Bonnor, dated 2nd February, 1886, forwarding Petitions signed by owners and occupiers of houses in Harrow-road and Chippenham-road, in opposition to a Tramway being laid in that road, as proposed by the Cricklewood, Kilburn, and Harrow-road Tramway Bill.

Letter from Mr. T. W. Cook, dated 2nd February, 1886, forwarding a Petition from frontagers in opposition to the Bill of the North Metropolitan Tramways Company for a Tramway in Commercial-street and Leman-street.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letters and Memorial be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which they relate.

41. The Clerk presented a Letter from Messrs. Hewes, Hewes and Geary, dated 2nd February, 1886, calling attention to Hewes's patent for utilising all waste, refuse, and sewage, from which they could produce an effective precipitant, entirely doing away with the use of lime, the process being simply carbonisation, and asking to be allowed to put up apparatus at the Board's works free of charge, the Board providing room, labour and firing, and the Board agreeing to take up the system in the event of its proving successful, and offering to attend or furnish further information.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

42. The Clerk presented a Letter from Mr. F. E. Duckham, Engineer of the Millwall Docks Company, dated 1st February, 1886, referring to his offer to provide Steamers and convey Sewage Sludge from the Main Drainage Outfalls to sea, and forwarding papers illustrating the process.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

43. The Clerk presented a Letter from Mr. T. E. Jones, Clerk to the Fulham District Board, dated 1st February, 1886, acknowledging the receipt of a copy of the Report of the Special Purposes and Sanitary Committee of this Board as to the cleansing and ventilation of Sewers, and asking to be supplied with 50 additional copies thereof.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That six copies of the Report be sent to the District Board.

44. The Clerk presented a Letter from Mr. C. M. Elborough, Town Clerk of Croydon, dated 3rd February, 1886, asking to be furnished with a copy of the Report on the cleansing and ventilation of Sewers, and enquiring whether the Board had any objection to its being reprinted and circulated amongst the Members of the Town Council.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That a copy of the Report be sent to the Croydon Town Council, and that the Council be informed that the Board have no objection to the reprinting and circulation of the Report on the understanding that it is for the use of the Council only.

45. The Clerk presented a Letter from Mr. G. Whale, Clerk to the Plumstead District Board, dated 29th January, 1886, transmitting a copy of a Letter addressed to the Home Secretary and the Commissioner of Police, on the subject of the supervision and control of Costermongers trading in the public streets, and requesting this Board to use their influence to induce those authorities to take such measures as might be necessary to prevent obstruction of the public streets of the Metropolis.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to send a reply thereto.

46. The Clerk presented a Letter from Messrs. H. Gover and Son, dated 3rd February, 1886, appealing against the decision of the Board with respect to the structural defects of the Lecture-hall at Royal-hill, Greenwich.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

47. The Clerk presented a Letter from Mr. H. F. Kite, on behalf of his client, Mr. J. R. Roberts, dated 3rd February, 1886, transmitting a copy of correspondence respecting a house which had been erected, or was in course of erection in Collingham-road, at the corner of Harrington-gardens, Kensington, and enquiring what steps could be taken to enforce the carrying into effect the Superintending Architect's decision as regards the general line of frontage.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred

to the Building Act Committee, for consideration and report, and that the Superintending Architect do report to the Committee thereon.

48. The Clerk presented a Letter from Mr. E. Bayley, Clerk to the St. Olave District Board, dated 3rd February, 1886, with a copy of a Resolution of that Board, asking this Board to strenuously oppose the Clauses of the South-Eastern Railway Company (Various Powers) Bill, for a further extension of time for the acquisition of property and the execution of works already authorised.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Parliamentary Committee.

49. The Clerk presented a Letter, as follows—

St. Luke's Vestry.

Vestry-hall, City-road, E.C.,

3rd February, 1886.

SIR,—The St. Luke's Vestry are about to carry out the works of sewerage in Old-street, indicated on the drawings and in the manner mentioned in the Letter, dated 2nd February instant, addressed to me by Mr. Alfred Allen, Jun., the Surveyor to the Vestry, enclosed herewith, and at an estimated cost of £1,700.

The Vestry have instructed me to enquire whether the Metropolitan Board of Works will advance to them the sum required on loan, re-payable within a period of Thirty years.

I am, &c.,

(Signed) G. W. PRESTON,

Vestry Clerk.

The Clerk,

Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Engineer, the Solicitor and the Accountant do report to the Committee thereon.

50. The Clerk presented a Letter from Mr. A. B. C. Bellamy, Clerk to the Vestry of Streatham, dated 3rd February, 1886, referring to the Board's Letter of the 28th February, 1884, with reference to the Petition of the inhabitants of Streatham for increased protection of life and property from fire, and asking the Board to provide a Fire-escape to be stationed in the neighbourhood of St. Leonard's Church, pending the further provision of an Engine and Station.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Fire Brigade Committee, for consideration and report.

51. The Clerk presented a Letter from Mr. C. Armstrong, dated 4th February, 1886, stating that he had overlooked the Advertisement inviting designs for the Sludge steamer; and asking to be allowed to submit his plan of a "combined tank and cargo" steamer for inspection.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Mr. Armstrong be informed that as the time fixed for sending in Designs has expired the Board are unable to receive those prepared by him.

52. The Clerk presented a Letter, as follows—

Guardians of the Poor of the Parish of St. Marylebone.

Guardians' Offices, Northumberland-street, W.,

4th February, 1886.

SIR,—On the 25th August, 1876, the Guardians of this Parish borrowed the sum of £15,000, to defray the cost of the completion of the Northumberland-street frontage of the Workhouse, this Loan was repayable by equal half-yearly instalments, reckoning principal and interest together, in thirty years. In consequence, however, of some portion of the work not being carried out, and from other causes, the whole of the Loan has not been expended, and there remains at the present time a balance of £2,478 17s. 10d. in hand. The Local Government Board were asked to sanction this amount being expended in the erection of accommodation

for the reception of aged married couples, inmates of the Workhouse, but the Local Government Board state that they "have no power" to "authorise the appropriation of unexpended "balances of Loans to any objects other than those for which the Loans were originally raised," and they suggest that the balance should be appropriated "to making an extra payment or "payments on account of the principal of the Loan, so that the annual re-payments may be "proportionately reduced."

I am, therefore, directed to ask if the Metropolitan Board of Works will receive back the unexpended balance of £2,478 17s. 10s. of the Loan above referred to, and if so, on what terms and conditions.

J. E. Wakefield, Esq.,

Clerk, Metropolitan Board of Works,

Spring-gardens, S.W.

I am, &c.,

(Signed) J. BEDFORD,

Clerk.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

53. The Chemist laid before the Board his Return of the Testings made at the Gas-testing Stations during the week ended on the 2nd instant, as follows—

Company.	District.	Illuminating Power. (In Standard Specimen Candles.)			Sulphur. (Grains in 100 cubic feet of Gas.)			Ammonia. (Grains in 100 cubic feet of Gas.)			Sulphureted Hydrogen.

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested at Albion-street, Lewisham, on January 28th, 1886, at 8 p.m., was 2.2 inches.

The pressure of the Gas supplied by the Commercial Gas Company, as tested at Nightingale-lane, E., on January 27th, 1886, at 8 p.m., was 1.9 inches.

54. BERMONDSEY.—Read a Report by the Superintending Architect, dated 1st February, 1886, on a Letter from Messrs. Stock, Page and Stock, on behalf of Mr. J. O. Parker, asking, under the circumstances mentioned in their Letter, for a modification of the condition imposed by the Resolution of the Board of the 22nd ultimo (No.8), with reference to the period within which the re-erection of buildings from the "Eagle" Public-house, to the "Prince Teck" (both inclusive) on the North side of Abbey-street, shall be commenced and completed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

55. HACKNEY.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Messrs. Edmondson and Son, for the consent of the Board to the erection of one-storey shops on the forecourt of Pond House, in High-road, Clapton, and to the erection of buildings upon the land adjoining in the High-road, also for the erection of four shops on the Eastern side of Clarence-road, Clapton, to the lines shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

56. LAMBETH.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. J. F. Bentley, on behalf of the Rev. H. J. Van Doorne, for the consent of the Board to the erection of a Church and buildings on the West side of Brixton-rise, between Horsford and Trent Roads, to the lines shown upon the amended Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

57. LEWISHAM.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. T. J. Bailey, on behalf of the School Board for London, for the consent of this Board to the erection of four open play-sheds at the Schools in Haseltine-road, Bell-green, Lower Sydenham, as shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

58. NEWINGTON.—Read a Report by the Superintending Architect, dated 1st February, 1886, on the application of Mr. W. H. Gledhill, on behalf of Mr. J. Gledhill, for the consent of the Board to the re-erection of Nos. 183 to 197 (odd numbers only), East-street, Walworth, with projecting bays, also to the re-erection of the “Apollo” Beer-house, No. 197, East-street, with a one-storey addition in front, and the re-erection of houses in Flint-street, Walworth, to the lines shown upon the amended Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, subject to the condition that the erection of the buildings therein referred to, be commenced within Six months, and be completed within Eighteen months from this date; that previously to the commencement of building operations, the space coloured Blue upon the Plan be given up and added to the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

59. POPLAR.—Read a Report by the Superintending Architect, dated 1st February, 1886, on the application of Mr. J. Linsell, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 243, 245, 247 and 249, Roman-road, Old Ford, to the line shown upon the further amended Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

60. ROTHERHITHE.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on a Letter from Mr. G. Legg, Surveyor to the Vestry of Rotherhithe, relative to the re-building of premises at the corner of Princes-street and Rotherhithe-street, and asking the Board to take steps to cause the building to be set back to the general line.

It was moved by Mr. Ewin, seconded, and resolved—That the said Letter be referred to the Building Act Committee, for consideration and report.

61. WANDSWORTH.—Read a Report by the Superintending Architect, dated 1st February, 1886, on the application of Mr. H. Branch, for the consent of the Board to the erection of houses and shops on the South-East side of St. John’s-hill, to the line shown upon the amended Plan accompanying the application.

It was moved by Mr. Ewin, and seconded—That the application be not granted.

An amendment thereon was moved by Mr. Meaden, and seconded—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee, when the subject shall be considered.

The motion having been, by leave of the Board, withdrawn, the amendment was put as an original motion, and it was declared to be carried: and it was resolved accordingly.

62. WESTMINSTER.—Read a Report by the Superintending Architect, dated 1st February, 1886, on the application of Mr. J. D. Hobson, on behalf of Dr. Rigg, for the consent of the Board to the erection of a shop front to No. 138, Horseferry-road, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report.

63. WOOLWICH.—Read a Report by the Superintending Architect, dated 1st February, 1886, on the application of Mr. H. H. Church, on behalf of Mr. J. C. Bonnett, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 97, 98, and 99, Wellington-street, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, subject to the condition that the erection of the shops therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

64. HOLBORN.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. A. O. Collard, on behalf of Mr. J. Mansell, for approval by the Board of an amended Plan for the construction of two foot-bridges connecting Nos. 35 and 36, Red Lion-square.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

65. LEWISHAM.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. J. Carline, on behalf of the Lewisham District Board, for approval by this Board of a Plan for the construction of a Sewer ventilating shaft upon land adjoining Ivy-lane.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

66. ST. PANCRAS.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. F. Eggar, on behalf of the Vestry of St. Pancras, for approval by the Board of a Plan for the construction of a chimney-shaft at the Mortuary premises in Cambridge-street.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

67. WHITECHAPEL.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. J. F. Goodey, for approval by the Board of a Plan for the construction of a temporary wood and iron shed at the rear of No. 116, Leman-street.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

68. FULHAM.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. C. Wall, for approval by the Board of an amended Plan for the formation of roads to lead out of Cumberland-avenue, Hammersmith.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

69. WANDSWORTH.—Read a Report by the Superintending Architect, dated 20th January 1886, on the application of Mr. R. Livett, for approval by the Board of a Plan for the formation of a paved foot-way, to lead out of the High-road, Balham.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

70. WANDSWORTH.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Messrs. Drake and Co., for approval by the Board of a Plan for the construction of a workshop upon land at the rear of houses in Battersea-park-road, with walls of Portland cement concrete.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, and that a License, with such conditions as to the quality and composition of the concrete, and other matters, as are contained in the form of License approved by the Board on the 28th November, 1879 (No. 6), be granted to the applicant.

71. ISLINGTON.—Read a communication from Mr. John Goldicutt Turner, Deputy District Surveyor under the Metropolitan Building Act, 1855, for the District of East Islington, dated 25th January, 1886, notifying that certain alterations and additions to the premises of Messrs. Crisp and Co., in Seven Sisters'-road, were about to be carried out under his professional superintendence, and requesting the Board to appoint some other Surveyor as the District Surveyor to superintend such works. Whereupon it was *moved* by Mr. Ewin, seconded, and *resolved*, and *ordered*, as follows—
Whereas, Mr. John Goldicutt Turner, Deputy District Surveyor for the District of East Islington, did on the 25th day of January, 1886, give notice to this Board that he, the said John Goldicutt Turner, was engaged to act professionally in respect of certain alterations and additions to the premises of Messrs. Crisp and Co., in Seven Sisters'-road, and the said John Goldicutt Turner has been since the said date, and now is, engaged to act professionally as aforesaid. Now, therefore, it is *ordered* by this Board—That Mr. Frederic Hammond, District Surveyor for the District of North-West Islington, be appointed by this Board, and the said Frederic Hammond is hereby appointed to survey the said premises, for the purposes of the Metropolitan Building Act, 1855, and to act as District Surveyor in respect thereof.

72. BERMONDSEY.—Read a Report by the Superintending Architect, dated 3rd February, 1886, on a Letter from Mr. T. Williams, District Surveyor, relative to the non-payment of his fees in respect of alterations to a building in Richardson-street, Long-lane.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

73. BERMONDSEY.—Read a Report by the Superintending Architect, dated 2nd February, 1886, stating that Mr. T. Williams, District Surveyor for the District of Bermondsey and St. John, St. Olave and St. Thomas, Southwark, proposed to remove his District Office to the new block of buildings at the corner of Railway Approach, London Bridge, and Denman-street.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the change in the said District Office be approved.

74. METROPOLIS.—Read a Report by the Superintending Architect, dated 4th February, 1886, submitting, for the Seal of the Board, Licenses in respect of a temporary Coffee-room erected in Great Western-road, Paddington, an iron Church  corner of Rectory-road and Evering-road, Stoke Newington, and a Mission  St. Michael's Church, at Greenbank, Wapping.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said Licenses, and the Seal was affixed accordingly.

75. ST. GEORGE, HANOVER-SQUARE.—Read a Report by the Superintending Architect, dated 3rd February, 1886, on the application of Messrs. Ernest George, and Peto, on

behalf of Messrs. Warner and Andrews, for approval by the Board of a Plan for the separation and construction of premises in Mount-street, Berkeley-square.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

76. ST. PANCRAS.—Read a Report by the Superintending Architect, dated 3rd February, 1886, on a Letter from Mr. A. Bovill, District Surveyor, asking the Board to afford him legal assistance in proceedings taken by him with reference to the erection of a house and shop at the North-West corner of Bisham-gardens and Highgate-hill with an insufficient space at the rear thereof.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto, and that the Solicitor do advise the Committee thereon.

77. WANDSWORTH.—Read a Report by the Superintending Architect, dated 2nd February, 1886, on the application of Mr. S. E. Burrows, for approval by the Board of a Plan for the construction of barge-boards to four houses on the North side of Greyhound-lane, Streatham.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

78. Read a Report by the Superintending Architect, dated 5th February, 1886, stating that Mr. E. H. Wilkinson, a Second-class Clerk in the Dangerous Structures Branch, of the Department, was unable to attend to his duties in consequence of illness.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That one month's leave of absence be granted to Mr. Wilkinson, and that the Superintending Architect do report again at the expiration of that period.

79. CITY OF LONDON (WESTERN DIVISION).—Read a Report by the Superintending Architect, dated 3rd February, 1886, stating that Mr. H. McLachlan, District Surveyor for the District of the Western Division of the City of London, proposed that his District Office should be at No. 17, Farringdon-street, City.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the situation of the said District Office be approved.

Adjourned until Friday next, the 12th instant,
at this Office, at Twelve o'clock at noon.

No. 6.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday, the 12th day of February, 1886**, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M'GAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

THOMAS GEORGE FARDELL, Esq.	SIR ROBERT NICHOLAS FOWLER, BART., ALDERMAN, M.P.	WILLIAM SHEPHERD, Esq.
HENRY HARBEN, Esq.		HON. ALAN DE TATTON EGER- TON, M.P.

JOHN ABBOTT, Esq.		GEORGE BROWN, Esq.
CHARLES MOSSOP, Esq.	WILLIAM URQUHART, Esq.	THEOPHILUS WILLIAM WIL- LIAMS, Esq.
ROBERT FURNISS, Esq.	WILLIAM ANDREWS, Esq.	
PETER WILLIAM FUNNELL, Esq.	JOHN EDWIN BRADFIELD, Esq.	GEORGE HILL, Esq.
WILLIAM BURNHAM GARRETT, Esq.	GEORGE EDWARDS, Esq.	WILLIAM ROBSON, Esq.
	GEORGE PHILLIPS, Esq.	ROBERT JONES, Esq.
WILLIAM ROBBINS SELWAY, Esq.	WILLIAM DEBENHAM, Esq.	THOMAS MORRISON FAIR- CLOUGH, Esq.
	FREDERICK COX, Esq.	JAMES EBENEZER SAUNDERS, Esq., DEPUTY.
ANDREW CAMERON, Esq.	JOHN REDDISH, Esq.	
JOHN ROBERT JOLLY, Esq.	JOHN BONTHRON, Esq.	WILLIAM ALEXANDER LIND- SAY, Esq.
JOHN RUNTZ, Esq.	WILLIAM BOUTCHER, Esq.	
ANDREW MIDDLEMASS, Esq.	JOHN JONES, Esq.	WILLIAM JAMES WETEN- HALL, Esq.
BENJAMIN WEIR, Esq.	ALFRED EWIN, Esq.	
EDWARD RIDER COOK, Esq., M.P.	GUILDFORD BARKER RICH- ARDSON, Esq.	LIEUT.-COL. HUGHES, M.P.
JOHN TOLHURST, Esq.	THOMAS JOHN WHITE, Esq.	ROBERT GRANT WEBSTER, Esq.

1. The Minutes of the Meeting of the Board, held on the 5th instant, were approved, and were signed by the Chairman, and by two other Members of the Board, present at such Meeting.
2. A Deputation from inhabitants of the Eastern part of the Metropolis, introduced by Mr. Cook, M.P., and consisting of the following gentlemen, viz.—Mr. F. W. Buxton, Mr. E. N. Buxton, M.P., Mr. A. A. Hollingsworth, Mr. C. Gearey, Dr. Moir, Mr. H. Bradley, Mr. S. Chandler, Mr. C. H. Yell, Mr. H. Pontin, Mr. J. Westlake, M.P., Mr. A. Coote, Mr. A. Simmons, and Sir H. E. Knight, Alderman, accompanied by the Right Hon. the Earl Cowper, K.G., attended the Board, and presented a Memorial which was read, as follows—

To the Chairman and Members of the Metropolitan Board of Works.

The Humble Petition of the ratepayers, inhabitants, and persons employed at the East-end of London.

SHEWETH—

That the Main Drainage embankment Northern Outfall, ranging from Victoria Bank to Beckton, passing through poor and crowded neighbourhoods, if utilised for the purpose of a

footpath and promenade would be a greater boon to the inhabitants of these localities through which it passes, enabling working-men and others to proceed direct to their respective works, saving both time and fatigue.

Further, that at but comparatively slight expense to your Honourable Board, this embankment could be converted into a grand, and at the same time unique, boulevard, blending alike the facilities for business and pleasure, conferring an inestimable amount of pleasure, enjoyment, and health, upon thousands of children who have no playground but the streets.

Further, calling attention to a public meeting held in the Drill Hall, Stratford, on the 18th June last, attended by some 2,000 persons, when it was duly resolved that a Deputation wait upon your Honourable Board to urge the desirability of their utilising this embankment.

Further, that on the 26th June last a Deputation waited upon your Honourable Board, when the Scheme was ably and lucidly placed before you by the Right Honourable the Lord Brabazon.

Further, to direct attention that, upon 11th July last, a Petition, signed by 2,500 inhabitants of the neighbourhood, was duly presented by Mr. E. Rider Cook, praying that immediate steps be taken to confer this boon upon these poor and crowded localities.

They therefore pray your Honourable Board will take early measures to carry into effect a scheme by which the public can use the embankment for the purposes of a footpath and promenade, in the interests of convenience and business. Should it not be considered advisable to grant the greater boon in taking advantage of the natural facilities presented for conversion at but small expense into a magnificent boulevard.

And your Petitioners will ever pray, &c.,

(Signed)

COWPER,

And 1,458 others.

The Deputation having addressed the Board in support of the Memorial,

It was moved by Mr. Cook, M.P., and seconded by Mr. Jolly—That the Memorial now presented be referred to the Engineer, with instructions to report to the Board as soon as possible what works would be necessary to be carried out before the prayer of the Memorialists could be properly granted, and what would be their cost.

An amendment thereon was moved by Mr. Fowler, and seconded by Mr. Richardson—That the Memorial be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates, and that the Engineer do report to the Committee what works would be necessary to be carried out before the prayer of the Memorialists could be properly granted, and what would be the cost of such works.

The amendment having been put to the vote, it was declared by the Chairman to be carried, and having been put as an original motion, it was also carried; and it was resolved accordingly.

3. A Deputation from inhabitants of Theobald's-road, introduced by Mr. Phillips, and consisting of the following gentlemen, viz.—Mr. K. Maclean, Mr. J. E. Wood, Mr. S. Jacobs, Mr. J. Hayes, Mr. G. Nuthall, Mr. G. Myatte, Mr. G. E. Cross, Mr. M. Barratt, Mr. H. M. Clark, Mr. J. Pettitt, Mr. R. G. Bubb, Mr. P. J. Bennett, Mr. S. Moore, and Mr. W. Easy, attended the Board, and presented a Memorial, which was read, as follows—

In Parliament—Session 1886.

NORTH METROPOLITAN TRAMWAYS.

To the Metropolitan Board of Works.

The Humble Petition of the undersigned, comprising a majority of the Members of the Holborn District Board of Works.

SHEWETH—

That your Petitioners are much impressed with the importance and necessity of extending the Tramways in this District, from the Holborn Town-hall, along Theobald's-road to Devonshire-street, or thereabouts, and along Gray's-inn-road to Holborn, and earnestly hope that the schemes for that purpose, now under consideration, will receive the sanction and cordial support of your Honourable Board.

Your Petitioners desire also to call your attention to the fact that a large majority of the ratepayers and inhabitants generally are extremely anxious that the proposed extensions shall be completed as soon as possible, and that it was only upon the urgent request of an influential Deputation from the inhabitants, supported by a Deputation from the District Board of Works, that the Tramway Company were induced to renew their application to Parliament.

And your Petitioners will ever pray.

(Signed) KENNETH MACLEAN,
83, Lamb's Conduit-street,
And 28 others.

The Deputation having addressed the Board in support of the Memorial,

It was ~~moved~~ by Mr. Phillips, seconded, and ~~resolved~~—That the consideration of the Memorial be deferred until the Report of the Works and General Purposes Committee, with respect to the Tramways to which it relates, shall be brought up.

4. Mr. Wetenhall stated that a Deputation from the Vestry of St. Pancras was in attendance, and desired to address the Board in support of the proposed Tramway Schemes in that Parish, although no notice thereof appeared in the Paper of Business, and he ~~moved~~—That the Standing Order with respect to the reception of Deputations be, on the present occasion, suspended, and that the Deputation be now received.

The ~~motion~~ having been seconded by Mr. Furniss, it was put to the vote, and declared by the Chairman to be carried; and it was ~~resolved~~ accordingly.

The Deputation was then introduced by Mr. Wetenhall, and consisted of the following gentlemen, viz.—Mr. T. B. Westacott, Mr. H. Davis, Mr. W. H. Bryant, Mr. G. A. Lucas, Mr. T. W. Beaves, Mr. R. Bennetts, Mr. D. J. Wood, Mr. J. Ingar, Mr. T. Cooper, Mr. A. D. Brown, Mr. W. Baker, Mr. H. Dart, Mr. F. Andrew, Mr. C. H. Reed, Mr. J. J. D. Deverell, Mr. T. Purchase, Mr. J. A. Hall, Mr. F. Bremner, Mr. A. Boden, Mr. W. Ives, and Mr. J. W. Dixon.

The Deputation handed in a Memorial, which was read, as follows—

Vestry of Saint Pancras.

To the Metropolitan Board of Works.

The Memorial of the Vestry of the Parish of St. Pancras, in the County of Middlesex.
SHEWETH,—

That your Memorialists have had under consideration the Bill of this Session of Parliament promoted by the London Street Tramways Company, for an extension of Tramways in and from this Parish.

That your Memorialists are of opinion that the Parish of St. Pancras has greatly benefited by the introduction of Tramways, and that the extension of Tramways towards the outlying districts, and towards the central parts of London as proposed, would greatly add to the usefulness of existing lines, and render them of even greater convenience to the inhabitants of the Parish.

That your Memorialists beg especially to point out that, in the event of the proposed lines extending the existing system, towards Holborn, along Gray's-inn-road, and towards Hampstead-heath by South-end-green, being constructed, a pleasant and easy communication between the Holborn District and Hampstead-heath would be afforded.

That the proposed extension along Archway-road, Highgate-road, Chalk-farm-road, and Adelaide-road, will be of the greatest service to the residents in the outer districts of the Parish travelling to the City, as well as enabling the poorer classes in Holborn and Clerkenwell to reach such outer districts.

That your Memorialists therefore pray that your Honourable Board will be pleased to give their sanction to all the extensions of Tramways in this Parish, as proposed by the London Street Tramways Extension Bill, Session 1886.

And your Memorialists will ever pray, &c.

The Common Seal of the Vestry of the Parish of St. Pancras, Middlesex,
affixed hereto by Order of the said Vestry.

(Signed) THOS. ECCLESTON GIBB,
Vestry Clerk,
St. Pancras, Middlesex.

L. S.

The Deputation addressed the Board in support of the Memorial.

Mr. Wetenhall handed in a Memorial from Frontagers in the line of Tramway proposed by the London Street Tramways Extensions Bill, from King's-cross to Clerkenwell-road, in favour of the proposed Tramway; and also a Memorial from Frontagers in the line of the proposed Tramway in Chalk-farm-road, in favour of that Tramway.

It was *moved* by Mr. Wetenhall, seconded by Mr. Furniss, and *resolved*—That the consideration of the Memorials be deferred until the Report of the Works and General Purposes Committee with respect to the Tramways to which they relate shall be brought up.

5. Mr. Cook, M.P., on behalf of Mr. Abbott, handed in a Letter, as follows—

Board of Works for the Limehouse District.

Office, White-horse-street,

Commercial-road East, E.

10th February, 1886.

Artizans and Labourers' Dwellings Acts, 1875 to 1882.

BROOK-STREET AREA.

GENTLEMEN,—As directed by the Board of Works for the Limehouse District, I beg to forward you on the other side copy Resolution passed at their Meeting held this day in reference to the above area.

I am, &c.,

(Signed) THOS. W. RATCLIFF,

Clerk of the Board.

To the

Metropolitan Board of Works.

Copy Resolution.

“That, considering that the site known as the Brook-street area has been acquired by
“the Metropolitan Board of Works for more than 12 months, and having regard
“to the need for Labourers' Dwellings in the District to prevent overcrowding,
“and to the distress so prevalent from want of employment, this Board earnestly
“requests the Metropolitan Board of Works to clear the site and let the land for
“building purposes without further delay.”

It was *moved* by Mr. Cook, M.P., seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee.

6. Mr. Fardell handed in a copy of Resolutions passed by the Vestry of Paddington on the 9th instant, with reference to amendments in the Bill for the Cricklewood, Kilburn, and Harrow-road Tramways.

It was *moved* by Mr. Fardell, seconded by Mr. Urquhart, and *resolved*—That the said Resolutions be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which they relate.

7. Mr. Debenham handed in a Letter, as follows—

Court House, St. Marylebone, W.,

February 11th, 1886.

DEAR SIR,—The Vestry have decided to execute wood-paving works in the Parish during the current year, 1886, to the extent of £14,000, and the Board are desirous of raising that sum by Loan on the credit of the General Rate, the same to be re-paid by instalments, and I have been instructed to apply to the Metropolitan Board of Works for their sanction to the Loan, to be effected pursuant to the 183rd Section of the Metropolitan Local Management Act.

I am further directed to make respectful application to the Metropolitan Board of Works to advance the amount required by the Vestry, under the “Metropolitan Board of Works Loans Act (1871),” the same to be re-paid in the manner above set forth.

I am, &c.,

(Signed) W. E. GREENWELL,

Vestry Clerk,

per W. H. G.

J. E. Wakefield, Esq.,

Metropolitan Board of Works.

It was **moved** by Mr. Debenham, seconded, and **resolved**—That the Letter be referred to the Finance Committee, for consideration and report, and that the Engineer, the Solicitor and the Accountant do report to the Committee thereon.

8. Read a Letter, as follows—

The Board of Works for the Wandsworth District.

Battersea-rise, S.W.,

11th February, 1886.

DEAR SIR,—I am instructed by this Board to inform you, with the view of such steps being taken in the matter as the Metropolitan Board of Works may deem expedient, that it has been reported to them that some posts have been recently erected in Harraway-road, and two hoardings in Buckton-street, Battersea, as shown in Red colour on the enclosed Plan. The posts shown in Black colour on the Plan in Harraway-road and Holman-road have been there for many years. The Plans of the roads were approved by the Metropolitan Board of Works in April, 1868, and January, 1869 (Case No. $\frac{3008}{11203}$, and Case No. $\frac{287}{1133}$).

Yours, &c.,

(Signed) HEN. GEO. HILLS,
Clerk.

J. E. Wakefield, Esq.

Spring-gardens, S.W.

The Plan referred to was laid before the Board.

It was **moved** by Mr. Cameron, seconded, and **resolved**—That the Letter be referred to the Building Act Committee, for consideration and report, and that the Superintending Architect do report to the Committee thereon.

9. Mr. Williams handed in a Letter, as follows—

The Board of Works for the Lewisham District.

Catford, S.E.,

11th February, 1886.

STACKING OF FIREWOOD.

DEAR SIR,—I am directed to forward you the following copy of a Resolution passed at the last Meeting of this Board, and to request that the same may be laid before the Metropolitan Board at their next meeting.

I am, &c.,

(Signed) H. S. WINNETT,
Clerk to the Board.

The Clerk,

Metropolitan Board of Works.

Copy Resolutions.

RESOLVED—"That this Board desire to express their disapproval of the Bill promoted
"by the Metropolitan Board of Works in relation to the keeping of Firewood
"within the Metropolis, and their concurrence in the opinion expressed in the
"Resolution passed upon the subject by the Vestry of Rotherhithe, as commu-
"nicated by their Letter of the 5th February, 1886."

RESOLVED—"That the foregoing Resolution be communicated to the Metropolitan
"Board of Works, and also to the Member representing the Borough in
"Parliament, and that he be requested to oppose the Bill when brought forward
"in the House."

It was **moved** by Mr. Williams, seconded, and **resolved**—That the Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

10. Mr. Richardson handed in a Letter, as follows—

Board of Works for the Greenwich District.

141, Greenwich-road, Greenwich, S.E.,

12th February, 1886.

SIR,—I am instructed by this Board to apply to the Metropolitan Board of Works for a Loan of £15,000, re-payable by instalments, extending over a period of not less than twenty years, such Loan to be applied, as to £12,000, in paving with granite cubes, and as to £3,000

12 February, 1886.

in paving with wooden blocks, the unpaved portions of the several roads in the Parish of Greenwich, from Wellington-grove, Greenwich-road, to Marsh-lane, along which Tramways are laid. I shall be obliged by your laying this application before your Board.

I am, &c.,
(Signed) J. SPENCER,
Clerk of the Board.

The Clerk,
Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Richardson, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Engineer, the Solicitor, and the Accountant do report to the Committee thereon.

11. Mr. Robson handed in a Letter, as follows—

Vestry of the Parish of St. James and St. John, Clerkenwell.

Vestry-hall, Clerkenwell,
58, Rosoman-street, E.C.,
12th February, 1886.

NORTH METROPOLITAN TRAMWAYS (No. 1) SCHEME.

DEAR SIR,—I beg to inform you that this Vestry have had under consideration this Scheme, by which it is proposed to connect the Clerkenwell-road line with the London Street Tramways authorised extensions in Farringdon-road, and that the Vestry have given their assent thereto.

I am, &c.,
(Signed) ROBERT PAGET,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk,
Metropolitan Board of Works.

It was *moved* by Mr. Robson, seconded, and *resolved*—That the consideration of the Letter be deferred until the Report of the Works and General Purposes Committee with respect to the Tramways to which it relates shall have been brought up.

12. Mr. Robson handed in a Letter, as follows—

Vestry of the Parish of St. James and St. John, Clerkenwell.

Vestry-hall, Clerkenwell,
58, Rosoman-street, E.C.,
February 12th, 1886.

NORTH LONDON TRAMWAYS SCHEME.

DEAR SIR,—I beg to inform you that this Vestry have had under consideration this Scheme, which, as far as Clerkenwell is concerned, proposes to run along Penton-street, across Pentonville-road, along the West side of Claremont-square, and down Amwell-street, terminating at River-street, and that the Vestry have given their assent thereto.

I am, &c.,
(Signed) ROBERT PAGET,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk, Metropolitan Board of Works.

It was *moved* by Mr. Robson, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

13. Mr. Fardell, the Chairman of the Finance Committee, brought up a Report, as follows—

REPORT OF THE FINANCE COMMITTEE.

Spring-gardens, 9th February, 1886.

Your Committee have to report that they have examined the Pass Books of the Treasurer and Banker of the Board, together with the Statements prepared by your Accountant, and have ascertained the Cash Account to be as follows—

CONSOLIDATED CASH ACCOUNT—

Balance on 23rd January, 1886...	...	...	...	£309,596	9	1

Your Committee have also to report that they have examined the Certificates of the various principal Officers for the payment of the sums mentioned in the accompanying Statement, and have found the same correct; and they recommend—

That the sums specified therein, amounting in the whole to £21,303 11s. 1d., be paid.

Your Committee have had before them Statements of certain sums payable to District Surveyors in respect of services in connection with Dangerous Structures, and for expenses of Shoring and Hoarding; and they recommend—

That the necessary Orders be made with respect to the same.

Pursuant to the Order of the Board of the 6th July, 1883 (No. 8), your Committee have had before them a Statement of the Salaries which will become payable to the Board's Officers on the 25th instant, amounting to the sum of £2,948 16s. 8d., which Statement has been approved by your Committee; and they beg to submit the same, and to recommend—

That the Board do pass an Order authorising the Treasurer to pay the several amounts on or after the 25th instant.

The Board on the 3rd June, 1881 (No. 6), agreed to contribute a sum of £1,500, and on the 15th January, 1886 (No. 5), the further sum of £628 12s. 6d., towards the cost of the construction, by the Hackney District Board, of the new Bridge over the River Lee, at Temple-mills. Your Engineer reported to the Works and General Purposes Committee on the 11th ultimo that the Bridge, and the strengthening works required by the Board, had been duly carried out by the District Board, at a cost, as certified by your Accountant, of £4,257 5s. 2d., and your Committee therefore recommend—

That a Cheque be drawn for the sum of £2,128 in favour of the Hackney District Board, being the amount of this Board's promised contributions towards the construction of the new Bridge over the River Lee, at Temple-mills.

Your Committee have considered the application of the Vestry of St. James, Westminster, for permission to borrow, and also for the advance of a sum of £3,000, referred by the Board on the 18th December last (No. 4). On the 27th March, 1885 (No. 6), the Vestry applied for a Loan of a sum of £10,000 to defray the cost of certain

asphalte, wood paving, and other works, and on the 5th May (No. 4), the Board agreed to advance to the Vestry £7,700, towards the cost of the works. It has been reported to your Committee that works have been executed as follows—Asphalte £6,046 10s. 9d., wood £1,872 5s., and metallic paving £287 16s., and the construction of 600 feet of brick Sewer (3 feet 9 inches by 2 feet 6 inches) in Little Pulteney-street and Great Crown-court £920. In addition to the foregoing the Vestry propose to improve the foot and carriage ways of Little Pulteney-street and Rupert-street, at an estimated cost of £1,827 7s. 4d., making a total of £10,953 19s. 1d., leaving a sum of £3,253 19s. 1d. to provide for, after crediting the £7,700 already borrowed. Your Engineer has examined the rates of charge in the several Contracts for the works above referred to, and also the detailed estimate for the proposed works in Little Pulteney-street and Rupert-street, and reports the same to be fair and reasonable, and having regard thereto, and to the necessity for the works, your Committee recommend—

That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor of the Board, the application of the Vestry of St. James, Westminster, for permission to borrow, and also for the advance of a sum of £3,000 to defray the cost of asphalte and wood paving, and sewerage works, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum. per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October, in each year, and the principal being re-paid by equal annual instalments on each 1st January within 5 years; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

Your Committee have considered the Letter from the Guardians of the Poor of the Strand Union, requesting an advance of a sum of £1,150, referred by the Board on the 15th ultimo (No. 31). The Guardians have purchased (at auction) about three-fourths of an acre of Freehold land adjoining their school at Edmonton, having a frontage of 274 feet to Silver-street, for £850, and propose to erect a dwarf wall and iron railings along such frontage, at a probable cost of £300. Your Superintending Architect has reported to your Committee that he considers the price paid for the land, and the cost of the wall and railings, to be reasonable, and your Committee therefore recommend—

That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Guardians of the Poor of the Strand Union, for a Loan of a sum of £1,150, to defray the cost of purchasing a piece of land at Edmonton, adjoining their schools, and erecting a boundary fence thereto, be granted to the extent of £1,100, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January within 10 years; that the sum of £5 5s. be charged for Surveyor's Fee; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

Your Committee have considered the application of the School Board for London, for a further advance of a sum of £100,000, referred by the Board on the 22nd ultimo (No. 42). The money is required to provide or enlarge school-houses, and the necessary consent of the Educational Department has been obtained to the raising of the Loan. Your Committee therefore recommend—

That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the School Board for London, for a further Loan of a sum of £100,000, for providing or enlarging school-houses, be complied with, on condition that the Loan be taken up by the 26th instant, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January within 50 years; that it be referred to the Solicitor to complete the Loan and that the amount be advanced out of the Consolidated Loans Fund.

On the 23rd October last (No. 15), the Board, on the recommendation of your Committee, agreed to advance the sum of £3,500 to the Vestry of Hampstead to defray the cost of the erection of additional buildings and the execution of other works at

their Vestry Hall, and they also sanctioned the borrowing of £16,000 by the Vestry of Chelsea, to defray the cost of the erection of a Vestry Hall and additional Offices, and agreed to advance the sum of £6,000, and referred the matter to the Solicitor to complete the Loans. During the necessary investigation by that Officer it appeared that certain of the rooms and offices were not exclusively used for Vestry purposes, and entertaining some doubt whether under those circumstances the Board could properly sanction the proposed expenditure, he consulted Mr. Brickdale, one of the Conveyancing Counsel to the Court of Chancery, on the subject, whose opinion was adverse to the proposed Loans. The representatives of the several Vestries were dissatisfied with that decision, on the ground that all the material facts were not fully set out in the case submitted to Counsel. Accordingly your Committee decided that a further opinion should be taken, and that it should be referred to the Chairman of the Board, the Chairman of the Finance Committee, and the Solicitor, to ascertain from the representatives of the Vestries, and the Officers and legal advisers of those bodies, what additional facts they wished to be stated in the case. A conference took place, all the parties mentioned were present, and after the representatives of the Vestries had been heard, it was decided to take the opinion of the late Attorney-General (Sir R. Webster) and Mr. Meadows White, Q.C., when the views of the Vestries' professional advisers on the subject were submitted to them. The result has been that those eminent Counsel have given it as their opinion that the Board may, under the circumstances detailed in the case submitted to them, sanction the Loans, and also advance the money. Your Committee accordingly recommend—

That the Solicitor be instructed to complete the Loan of £3,500 agreed to be advanced to the Vestry of Hampstead to defray the cost of making certain alterations and additions to the Vestry Hall.

That the Solicitor be instructed to complete the Loan of £6,000 agreed to be advanced to the Vestry of Chelsea towards the cost of the erection of a Vestry Hall and additional Offices.

Your Committee have considered the Letter from the Guardians of the Poor of Mile-end Old-town, enquiring whether the Board can advance to them £5,000, to defray the cost of erecting new Casual Wards, re-payable in 20 years, and if so upon what terms, referred by the Board on the 29th ultimo (No. 47). The Board have ample funds for making the advance, and your Committee therefore recommend—

That the Guardians of Mile-end Old-town be informed, in reply to their enquiry, that the Board have funds out of which they could advance them £5,000, provided the Reports of their Officers are satisfactory, and that the rate of interest now being charged on Loans is £3 10s. per cent.

It will be in the recollection of the Board that the borrowing power sanctioned by Parliament, for the year 1886, is £17,000 in connection with the Streets Improvement Act, 1877, and the Board may also expend such further sum as the Treasury may approve, provided that the total expenditure does not exceed £4,193,507. There is a necessity for procuring the assent of the Treasury to expenditure in excess of the sum sanctioned by Parliament. Your Committee therefore recommend—

That the question of the probable further amount to be expended by the Board, during the year 1886, under the Street Improvements Act of 1877, and of the Board's borrowing power in relation thereto, be referred to the Works, &c., Committee, with authority to procure the assent of the Treasury for such expenditure, and that the Engineer, the Superintending Architect and the Solicitor be directed to report to that Committee on the subject.

Your Committee have to report that notwithstanding the communication directed by the Board on the 15th ultimo to be sent to the Vestries, &c., who had made default in paying their Precepts, the second moiety payable by the Vestry of St. George, Hanover-square, and the Greenwich District Board is still unpaid, and your Committee recommend—

That the usual Orders be sealed for procuring copies of the Poor Rate with a view to levying Rates in default, and that fourteen days' notice be given of the course intended to be taken prior to the service of such Orders.

Your Committee recommend—

That the two Cheques, Nos. 541 and 542, dated 4th August, 1885, drawn on the Streets (Act of 1883) Account in favour of Mrs. M. Jerman and Mr. J. K. Thomson, be cancelled, in consequence of having been drawn longer than Three months.

All which your Committee beg to submit.

(Signed)

T. G. FARDELL,
P. W. FUNNELL,
CHAS^S. HARRIS,
CHARLES MOSSOP.

Examined,
(signed) T. G. FARDELL,
CHARLES MOSSOP,
JN^o. LENANTON,
P. W. FUNNELL,
JN^o. ABBOTT,
WILLIAM URQUHART,
CHAS. HARRIS.

Certified,
(signed) A. GUNN,
Accountant.

The Statement of the Officers' Salaries, submitted with the Report, was laid before the Board.

The Report having been read and received,

It was moved by Mr. Fardell, seconded, and resolved—That the sums specified in the Statement submitted by the Committee, amounting in the whole to £21,303 11s. 1d., be paid.

Cheques were thereupon signed by two Members of the Board present at the Meeting.

It was moved by Mr. Fardell, seconded, and resolved—That the Fees specified in the Three summaries of Accounts now presented to the Board, marked A to C inclusive, and signed by their Clerk, be paid to the respective District Surveyors mentioned in the following Abstract, for services performed by them in connection with Dangerous Structures in the Metropolis, not being within the City of London, such services being the surveying, by direction of the Board, under the second part of the Metropolitan Building Act, 1855, and pursuant to the Metropolitan Building Act, 1869, of Structures reported to be in a dangerous state, and certifying opinions thereon; and also for special services performed by them in cases in which special services have been required.

It was moved by Mr. Fardell, seconded, and resolved—That the Statement now submitted, showing the Salaries payable to the Officers of the Board on the 25th instant, amounting to the sum of £2,948 16s. 8d., be approved, and that the Treasurer of the Board, the London and Westminster Bank (Limited), be authorised to pay the several sums specified in such Statement, to the persons entitled to receive the same.

It was moved by Mr. Fardell, seconded, and resolved—That a Cheque be now drawn for the sum of £2,128 in favour of the Hackney District Board, being the amount of the Board's promised contributions towards the construction of the new Bridge over the River Lee, at Temple-mills.

A Cheque was thereupon drawn on the General Capital Account accordingly.

It was moved by Mr. Fardell, seconded, and resolved—That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Vestry of St. James, Westminster, for permission to borrow, and also for the advance of a sum of £3,000, to defray the cost of asphalte and wood-paving, and sewerage works, be granted on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January, within a period of Five years; that it be referred to the Solicitor to take the necessary measures for completing the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Guardians of the Poor of the Strand Union for a Loan of a sum of £1,150 to defray the cost of purchasing a piece of land at Edmonton, adjoining their schools, and erecting a boundary fence thereto, be granted to the extent of £1,100, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October, in each year, and the principal being re-paid by equal annual instalments on each 1st January, within a period of Ten years; that the sum of £5 5s. be charged for Surveyor's Fee; that it be referred to the Solicitor to take the necessary measures for completing the Loan; and that the amount be advanced out of the Consolidated Loans Fund.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the School Board for London for a further Loan of a sum of £100,000, for providing or enlarging School-houses, be complied with, on condition that the Loan be taken up by the 26th instant, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 1st January, the 1st April, the 1st July, and the 1st October in each year, and the principal being re-paid by equal annual instalments on each 1st January, within a period of Fifty years; that it be referred to the Solicitor to take the necessary measures for completing the Loan, and that the amount be advanced out of the Consolidated Loans Fund.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the Solicitor be instructed to complete the Loan of £3,500, agreed by the Board on 23rd October last (No. 15), to be advanced to the Vestry of Hampstead to defray the cost of making certain alterations and additions to the Vestry Hall.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the Solicitor be instructed to complete the Loan of £6,000, agreed by the Board on 23rd October last (No. 15), to be advanced to the Vestry of Chelsea towards the cost of the erection of a Vestry Hall and additional Offices.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the Guardians of the Poor of the Hamlet of Mile-end Old-town be informed, in reply to their enquiry, that the Board have funds out of which they could advance £5,000 to the Guardians provided the Reports of the Board's Officers are satisfactory, and that the rate of interest now being charged on Loans is £3 10s. per centum per annum.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the question of the probable further amount to be expended by the Board during the year 1886, under the Street Improvements Act of 1877, and also of the Board's borrowing power in relation thereto, be referred to the Works and General Purposes Committee, for consideration, with authority to procure the assent of the Treasury to such expenditure, and that the Engineer, the Superintending Architect and the Solicitor do report to the Committee on the subject.

The Clerk reported that he had received no reply from the Vestry of St. George, Hanover-square, to the communication addressed to them pursuant to the Resolution of the Board of the 15th January last.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the necessary steps be taken for levying a Rate on default on the Parish of St. George, Hanover-square, for payment of the second moiety of the Precept of this Board for the Consolidated Rate for the year 1885.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the person in custody of the Poor Rate of the Parish of St. George, Hanover-square, be required to furnish a copy of the same to this Board within fourteen days from the service of an Order upon him to that effect.

Ordered—That Thomas Coggin be authorised, and he is hereby authorised, to demand and receive from Joseph Henry Smith, he being the person having control of the Rate for the relief of the Poor in the Parish of St. George, Hanover-square, in the County of Middlesex, a true copy of such Rate.

A form of Order was laid before the Board, requiring Joseph Henry Smith, he being the person having the control of the Rate for the relief of the Poor in the Parish of St. George, Hanover-square, in the County of Middlesex, to furnish within fourteen days from the service thereof, to Thomas Coggin, he being the person duly authorised to demand and receive the same, a true copy of such Rate, on payment, or tender for such copy at the rate of sixpence for every twenty-four names, inclusive of all the particulars in the several columns of the said Rate, so far as such particulars have reference to such names respectively; such copy to be verified by the declaration referred to in the Metropolis Management Amendment Act, 1862.

Ordered—That the said form of Order be approved and adopted; that the Common Seal of the Board be affixed thereto; and that such Order be served on the said Joseph Henry Smith, after the expiration of fourteen days from the date of a written notice to be given by the said Thomas Coggin to the Vestry of St. George, Hanover-square.

The Seal of the Board was affixed to the said Order accordingly.

The Clerk reported that he had received no reply from the Board of Works for the Greenwich District, to the communication addressed to them pursuant to the Resolution of this Board of the 15th January last.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the necessary steps be taken for levying a Rate on default on the several Parishes in the Greenwich District, for payment of the second moiety of the Precept of this Board for the Consolidated Rate for the year 1885.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the person in custody of the Poor Rate of the Parish of St. Paul, Deptford, be required to furnish a copy of the same to this Board within fourteen days from the service of an Order upon him to that effect.

Ordered—That Thomas Coggin be authorised, and he is hereby authorised, to demand and receive from T. W. Marchant, he being the person having control of the Rate for the relief of the Poor in the Parish of St. Paul, Deptford, in the Counties of Surrey and Kent, a true copy of such Rate.

A form of Order was laid before the Board requiring T. W. Marchant, he being the person having the control of the Rate for the relief of the Poor in the Parish of St. Paul, Deptford, in the Counties of Surrey and Kent, to furnish within fourteen days from the service thereof, to Thomas Coggin, he being the person duly authorised to demand and receive the same, a true copy of such Rate, on payment, or tender for such copy at the rate of sixpence for every twenty-four names, inclusive of all the particulars in the several columns in the said Rate, so far as such particulars have reference to such names respectively; such copy to be verified by the declaration referred to in the Metropolis Management Amendment Act, 1862.

Ordered—That the said form of Order be approved and adopted; that the Common Seal of the Board be affixed thereto; and that such Order be served on the said T. W. Marchant, after the expiration of fourteen days from the date of a written notice to be given by the said Thomas Coggin to the Vestry of St. Paul, Deptford.

The Seal of the Board was affixed to the said Order accordingly.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the person in custody of the Poor Rate of the Parish of St. Nicholas, Deptford, be required to furnish a copy of the same to this Board within fourteen days from the service of an Order upon him to that effect.

Ordered—That Thomas Coggin be authorised, and he is hereby authorised, to demand and receive from W. R. Kersey, he being the person having control of the Rate for the relief of the Poor in the Parish of St. Nicholas, Deptford, in the County of Kent, a true copy of such Rate.

A form of Order was laid before the Board requiring W. R. Kersey, he being the person having the control of the Rate for the Relief of the Poor in the Parish of St. Nicholas, Deptford, in the County of Kent, to furnish within fourteen days from the service thereof, to Thomas Coggin, he being the person duly authorised to demand and receive the same, a true copy of such Rate, on payment or tender for such copy at the rate of sixpence for every twenty-four names, inclusive of all the particulars in the several columns of the said Rate, so far as such particulars have reference to such names respectively; such copy to be verified by the declaration referred to in the Metropolis Management Amendment Act, 1862.

Ordered—That the said form of Order be approved and adopted; that the Common Seal of the Board be affixed thereto; and that such Order be served on the said W. R. Kersey after the expiration of fourteen days from the date of a written notice to be given by the said Thomas Coggin to the Vestry of St. Nicholas, Deptford.

The Seal of the Board was affixed to the said Order accordingly.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the person in custody of the Poor Rate of the Parish of Greenwich be required to furnish a copy of the same to this Board within fourteen days from the service of an Order upon him to that effect.

Ordered—That Thomas Coggin be authorised, and he is hereby authorised, to demand and receive from W. Bristow, he being the person having control of the rate for the Relief of the Poor in the Parish of Greenwich, in the County of Kent, a true copy of such rate.

A form of Order was laid before the Board requiring W. Bristow, he being the person having the control of the rate for the relief of the poor in the Parish of Greenwich, in the County of Kent, to furnish within fourteen days from the service thereof, to Thomas Coggin, he being the person duly authorised to demand and receive the same, a true copy of such rate, on payment or tender for such copy at the rate of sixpence for every twenty-four names, inclusive of all the particulars in the several columns of the said Rate, so far as such particulars have reference to such names respectively; such copy to be verified by the declaration referred to in the Metropolis Management Amendment Act, 1862.

Ordered—That the said form of Order be approved and adopted; that the Common Seal of the Board be affixed thereto; and that such Order be served on the said W. Bristow after the expiration of fourteen days from the date of a written notice to be given by the said Thomas Coggin to the Vestry of Greenwich.

The Seal of the Board was affixed to the said Order accordingly.

It was **moved** by Mr. Fardell, seconded, and **resolved**—That the two Cheques, Nos. 541 and 542, dated 4th August, 1885, and drawn on the Streets (Act of 1883) Account in favour of Mrs. M. Jerman and Mr. J. K. Thomson, be now cancelled, in consequence of having been drawn longer than Three months.

The said Cheques were thereupon cancelled accordingly.

14. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 8th February, 1886.

Your Committee have further to report that they have considered the various schemes for new Tramways, with respect to which Bills have been deposited for introduction into Parliament, or applications made to the Board of Trade for Provisional Orders. They have also considered the applications made on behalf of the Promoters for the Board's consent to the schemes, and the numerous Memorials and representations which have been made to the Board both for and against the proposed Tramways. Your Committee are not at present prepared to report upon the whole of the schemes, but with regard to those on which they have concluded their deliberations, they beg to submit the following recommendations—

That the consent of the Board be not given to the London, Highgate and Finchley Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order.

That upon the Promoters of the London Street Tramways Extensions Bill giving an undertaking to omit from the Bill the power to form Tramways Nos. 3A, 3B (part of Chalk-farm-road and Adelaide-road) and Nos. 8 and 8A (Gray's-inn-road); to insert a Clause providing that Tramway No. 1 shall not be made until Highgate-archway shall have been widened to the satisfaction of the Board and the Vestry of Islington; that Tramway No. 3 shall not be made until the road shall have been widened to the satisfaction of the Board and the Vestry of St. Pancras; and that Tramways Nos. 5B, 5C, 5D and 5E in Junction-road shall not be made until Junction-road shall have been widened to the satisfaction of the Board and the Vestry of Islington; and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

That on the Promoters of the North Metropolitan Tramways (No. 1) Bill, giving an undertaking to omit from the Bill the power to form Tramways No. 1 (Theobald's-road), No. 2 (Gray's-inn-road), and No. 5 (Leman-street), and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

That the consent of the Board be not given to the South Metropolitan Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order.

Your Committee have considered the Letter from Mr. J. Davis, referred on 20th November last (No. 36), calling attention to the inconvenience of having a Tramway terminus opposite one of the entrances of Finsbury-park. Your Committee find that the terminus referred to was authorised by the North London Tramways Act, 1882, so that the Board have no power to interfere with respect to it. It is, moreover, outside the Metropolitan boundary. Your Committee recommend—

That Mr. Davis be so informed.

In pursuance of the Resolution of the Board of the 22nd ultimo (No. 5), your Committee have again given consideration to the question of the name to be applied to the new street from Piccadilly-circus to New Oxford-street, and as the result of their further deliberations they beg to recommend—

That the new thoroughfare be named "Shaftesbury-avenue."

Your Committee have proceeded upon the Resolution of the Board of the 29th ultimo (No. 10), referring to them the question whether the Board's General Order of 18th December, 1885 (No. 6), referring to the Finance Committee "the whole management of the property which has been leased by the Board," was intended to include the reference to them of applications for structural alterations to buildings leased by the Board. Your Committee have to state that it was not their intention that those

applications should be included in the reference to the Finance Committee, and they recommend—

That such applications do remain, as hitherto, to be dealt with by the Works and General Purposes Committee.

Your Committee have considered the Letter, referred to them on the 29th ultimo (No. 31), from the Vestry of St. James, Westminster, relative to the proposal in the Board's Various Powers Bill to form an approach from the Victoria Embankment to Charing-cross Foot-bridge, and expressing a hope that the Board would extend the improvement to the formation of an approach to the Foot-bridge on a level with the Strand. Your Committee are informed by your Solicitor that such a provision as that asked for could not be introduced into the Bill without the suspension of the Standing Orders of Parliament, and they recommend—

That the Vestry be informed that the Board are not prepared to comply with the request.

Your Committee have further to report that they have considered the Letter from the Secretary of State, referred by the Board on the 22nd ultimo (No. 37), transmitting a printed copy of the Hampstead-heath Enlargement Bill, 1866, and requesting to be favoured with the Board's observations thereon, and to be informed whether the views of the various bodies alluded to in Section 4 of the Bill had been ascertained. Your Committee recommend—

That the Secretary of State be informed that, whilst the Board are not prepared to express approval of the same, they have decided not to petition against it; and that, in reply to the enquiry whether the views of the various bodies alluded to in Section 4 have been ascertained, the Secretary of State be informed that the Board have not promoted the Bill, and believe that the Promoters have not ascertained the views of the various bodies concerned.

Your Committee have had under consideration the Letter from the Wandsworth District Board, referred on the 18th December last (No. 37), referring to this Board's Letter as to the proposed widening and heightening of the West London Extension Railway Company's Bridge over Latchmere-road, Battersea; transmitting a copy of a draft Agreement with the Company for the carrying out of the Improvement, and applying for the consent of this Board to the terms thereof. Your Solicitor has, by direction of your Committee, been in communication with the District Board, with a view of obtaining some modifications suggested by the Engineer of this Board in the Plan of the proposed work. Those modifications have been agreed to with one exception, the Railway Company having declined to reduce the space between the soffit of the Bridge and the rail level. Your Committee, after due consideration, are not prepared to advise the Board to press that condition, and they therefore submit the draft Agreement, as settled, and recommend—

That the same be approved.

All which your Committee beg to submit.

(Signed) J. MCGAREL-HOGG,
FRANCIS H. FOWLER,
W. R. SELWAY,
J. E. BRADFIELD,
P. W. FUNNELL,

AND. MIDDLEMASS,
GEORGE PHILLIPS.

The Draft Agreement between the Wandsworth District Board and the London and South-Western Railway Company, submitted with the Report, was laid before the Board.

The Report having been read and received,

It was moved by Mr. Fowler, seconded, and resolved—That the consent of the Board

be not given to the London, Highgate and Finchley Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order.

The Clerk laid before the Board the Memorials and Letter, presented this day, relative to the London Street Tramways Extensions and North Metropolitan Tramways Bills.

It was *moved* by Mr. Fowler, and seconded—That, upon the Promoters of the London Street Tramways Extensions Bill giving an undertaking to omit from the Bill the power to form Tramways Nos. 3A, 3B (part of Chalk-farm-road and Adelaide-road), and Nos. 8 and 8A (Gray's-inn-road); to insert a Clause providing that Tramway No. 1 shall not be made until Highgate-archway shall have been widened to the satisfaction of the Board and the Vestry of Islington; that Tramway No. 3 shall not be made until the road shall have been widened to the satisfaction of the Board and the Vestry of St. Pancras; and that Tramways Nos. 5B, 5C, 5D and 5E in Junction-road shall not be made until Junction-road shall have been widened to the satisfaction of the Board and the Vestry of Islington; and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

An *amendment* thereon was *moved* by Mr. Wetenhall, and seconded by Mr. Phillips, "That the *motion* be amended by the omission of the words "and Nos. 8 and 8a (Gray's-inn-road.)"

After discussion the *amendment* was put to the vote, when there were for it 22, against it 16.

A Division having been demanded and granted, the names of the Members voting were taken down when there were—

For the Amendment—25.

Teller—Mr. Fowler.

And it was declared by the Chairman to be carried.

The *amendment* was then put as an *original motion*.

Whereupon an *amendment* was *moved* by Lieut.-Col. Hughes, M.P., and seconded by Mr. Selway—That, upon the Promoters of the London Street Tramways Extensions Bill giving an undertaking to omit from the Bill the power to form Tramways Nos. 3A, 3B (part of Chalk-farm-road and Adelaide-road); to insert a Clause providing that Tramway No. 1 shall not be made until Highgate-archway shall have been widened to the satisfaction of the Board and the Vestry of Islington; that Tramway No. 3, and Tramways Nos. 8 and 8A (Gray's-inn-road), shall not be made until the roads shall have been widened to the satisfaction of the Board and the Vestry of St. Pancras; and

that Tramways Nos. 5B, 5C, 5D and 5E in Junction-road, shall not be made until Junction-road shall have been widened to the satisfaction of the Board and the Vestry of Islington; and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

The amendment was by leave of the Board withdrawn.

The original motion was then put to the vote and declared by the Chairman to be carried, and it was resolved—That, upon the Promoters of the London Street Tramways Extensions Bill giving an undertaking to omit from the Bill the power to form Tramways Nos 3A, 3B (part of Chalk-farm-road and Adelaide-road); to insert a Clause providing that Tramway No. 1 shall not be made until Highgate-archway shall have been widened to the satisfaction of the Board and the Vestry of Islington; that Tramway No. 3 shall not be made until the road shall have been widened to the satisfaction of the Board and the Vestry of St. Pancras; and that Tramways Nos. 5B, 5C, 5D and 5E in Junction-road shall not be made until Junction-road shall have been widened to the satisfaction of the Board and the Vestry of Islington; and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

It was moved by Mr. Fowler, and seconded,—That, upon the Promoters of the North Metropolitan Tramways (No. 1) Bill, giving an undertaking to omit from the Bill the power to form Tramways No. 1 (Theobald's-road), No. 2 (Gray's-inn-road), and No. 5 (Leman-street), and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

An amendment thereon was moved by Mr. Phillips, pursuant to notice, and seconded by Mr. Robson—That, upon the Promoters of the North Metropolitan Tramways (No. 1) Bill giving an undertaking to omit from the Bill the power to form the Tramways Nos. 2 and 5, and to provide that Tramway No. 1 along Theobald's-road shall not be carried further West than Devonshire-street, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

After discussion the amendment was put to the vote, when there were for it 20, against it 17.

A Division having been demanded and granted, the names of the Members voting were taken down, when there were—

For the Amendment—20.

Andrews, W., Esq.	Jolly, J. R., Esq.
Bonthron, J., Esq.	Middlemass, A.,
Bradfield, J. E.,	Esq.
Esq.	Richardson, G. B.,

Funnell, P. W., Esq.	Webster, R. G.,
Harben, H., Esq.	Esq.
Ingoldby, F., Esq.	Weir, B., Esq.
Jones, R., Esq.	White, T. J., Esq.

Teller—Mr. Fowler.

And it was declared by the Chairman to be carried.

The amendment was then put as an **original motion**, and it was also carried ; and it was thereupon **resolved**—That, upon the Promoters of the North Metropolitan Tramways (No. 1) Bill giving an undertaking to omit from the Bill the power to form the Tramways Nos. 2 and 5, and to provide that Tramway No. 1 along Theobald's-road, shall not be carried further West than Devonshire-street, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

It was **moved** by Mr. Fowler, and seconded—That the consent of the Board be not given to the South Metropolitan Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order.

An amendment thereon was **moved** by Mr. Cameron, and seconded by Mr. Cook, M.P.—That the further consideration of the subject be adjourned until this day fortnight.

The amendment having been put to the vote, it was declared by the Chairman to be carried, and having been put as an **original motion**, it was also carried ; and it was **resolved** accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That Mr. J. Davis be informed that inasmuch as the Tramway terminus opposite one of the entrances to Finsbury-park was authorised by the North London Tramways Act, 1882, and it is outside the Metropolitan boundary, the Board have no power to interfere with respect to it.

It was **moved** by Mr. Fowler, and seconded—That the new line of thoroughfare between Piccadilly-circus and New Oxford-street be named "Shaftesbury-avenue."

An amendment thereon was **moved** by Mr. Lindsay, and seconded by Mr. Richardson—That the thoroughfare be named "Ashley-street."

The amendment having been put to the vote, there were for it, 2 ; against it, 23 ; and it was lost.

A further amendment was then **moved** by Mr. Selway, and seconded by Mr. Wetenhall—That the thoroughfare be named "Dudley-street."

The amendment having been put to the vote, there were for it, 13 ; against it, 21 ; and it was lost.

A further amendment was then **moved** by Lieut.-Col. Hughes, M.P., and seconded by Mr. Webster—That the thoroughfare be named "Shaftesbury-street."

The amendment having been put to the vote, there were for it 12, against it 18 ; and it was lost.

A further amendment was then **moved** by Mr. Boutcher, and seconded by Mr. Selway—That the thoroughfare be named "St. Giles'-street."

The amendment having been put to the vote, there were for it 7, against it 23 ; and it was lost.

A further amendment was then **moved** by Mr. Fardell, and seconded by Mr. Selway—That the subject be referred back to the Committee, for further consideration and report.

The amendment having been put to the vote, there were for it 8, against it 22 ; and it was lost.

The **original motion** was then put to the vote, when there were for it 23 ; against it 8.

A Division having been demanded and granted, the names of the Members voting were taken down when there were—

For the Motion—24.

Abbott, J., Esq.	Jolly, J. R., Esq.
Andrews, W., Esq.	Jones, J., Esq.
Bonthron, J., Esq.	Middlemass, A., Esq.
Bradfield, J. E., Esq.	Phillips, G., Esq.
Brown, G., Esq.	Reddish, J., Esq.
Cameron, A., Esq.	Richardson, G. B., Esq.
Cook, E. R., Esq.,	
M.P.	Robson, W., Esq.
Edwards, G., Esq.	Urquhart, W., Esq.

Harris, C., Esq.	
Hughes, Lieut.-Col.,	White, T. J., Esq.
M.P.	Williams, T. W., Esq.
Ingoldby, F., Esq.	

Teller—Mr. Fowler.

Against the Motion—9.

Boucher, W., Esq.	Tolhurst, J., Esq.
Ewin, A., Esq.	Wetenhall, W. J., Esq.
Fardell, T. G., Esq.	
Lindsay, W. A., Esq.	Wenborn, Captain.
Shepherd, W., Esq.	

Teller—Mr. Selway.

And it was declared by the Chairman to be carried, and it was thereupon *resolved*—That the new line of thoroughfare between Piccadilly-circus and New Oxford-street be named “Shaftesbury-avenue.”

It was *moved* by Mr. Fowler, seconded, and *resolved*—That so much of the Report as relates to the General Order passed by the Board on the 18th December last (No. 6), referring to the Finance Committee “the whole management of the property which “has been leased by the Board,” be approved, and that applications for structural alterations to buildings leased by the Board be dealt with as hitherto by the Works and General Purposes Committee.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Vestry of St. James, Westminster, be informed, in reply to their Letter, asking the Board to extend the proposed approach from the Charing-cross Foot-bridge to the Victoria Embankment, to the formation of an approach to the Footbridge, on a level with the Strand, that as the provision could not be introduced into the Board’s Bill, unless the Standing Orders of Parliament were suspended, the Board are not prepared to comply with the request of the Vestry.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Home Secretary be informed, in reply to his Letter asking for the observations of the Board upon the Hampstead-heath Enlargement Bill, that, whilst the Board are not prepared to express approval of the same, they have decided not to petition against it; and that, in reply to his enquiry whether the views of the various bodies alluded to in Section 4 of the Bill have been ascertained, the Home Secretary be informed that the Board have not promoted the Bill, and that they believe that the Promoters thereof have not ascertained the views of the various bodies concerned.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That so much of the Report as relates to the Letter from the Wandsworth District Board as to the proposed widening and heightening of the West London Extension Railway Company’s Bridge over Latchmere-road, Battersea, and the draft Agreement between the District Board and the Company, be approved, and that the Solicitor do communicate to the District Board the sanction of this Board to the Draft Agreement now submitted.

15. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 2nd February, 1886.

Your Committee have to report that they have proceeded upon the Resolution of the Board of the 6th November last (No. 8), referring back for further consideration and

report, the application of Mr. G. Mannors, that Elizabeth-street, Hans-place, might be re-named "Hans-crescent," as there was another Elizabeth-street in the same postal district. The Vestry of Chelsea, when consulted upon the original application, suggested that Elizabeth-street should be named "Hans-road," and the Vestry of Kensington subsequently concurred in that alteration. At a later date the Vestry of Chelsea forwarded to the Board a Letter from the Solicitors to the widow of General Sir Herbert Stewart, requesting that the street might be re-named "Herbert-place," and the Vestry expressed a hope that the suggestion might be adopted. Your Committee, however, are unable to concur in that view, and they recommend—

That Elizabeth-street, Hans-place, and Queen-street, Brompton-road, be incorporated under the name "Hans-road, S.W.," and the houses re-numbered.

Your Committee have also to report that they have, pursuant to the Resolution of the Board of the 22nd November, 1878 (No. 48), considered the following applications for the re-naming and re-numbering of various streets and places in the Metropolis, viz.—

DATE.	APPLICATION.
30th April, 1884.	Vestry of Islington, for the incorporation of Hayes-place, Paradise-place and Victoria-place, with Dibden-street, Essex-road.
27th January, 1885, and 26th February, 1885.	Vestry of St. Pancras, for re-numbering the houses in certain streets in their Parish.
3rd May, 1881.	Greenwich District Board, for re-numbering the houses in certain streets in their District.
7th October, 1885.	Mr. T. W. Vine, complaining of inconvenience arising from the existence of two Grange-roads in the N. postal district, and suggesting that Grange-road, Stoke Newington, should be re-named.
8th April, 1885.	Vestry of Camberwell, for re-numbering the houses in Amott-road, East Dulwich.
12th June, 1885.	Fulham District Board, for re-numbering the houses in Dieppe-street, Fulham
10th November, 1885.	Mr. H. Nunnerley, for re-naming Trinity-road, Christ-church-road, Lambeth, "Hillside-road, S.W."
16th December, 1885.	Owners and Occupiers of houses in Victoria-road, Lewisham-hill, requesting that the road may be re-named "Blackheath-rise, S.E."
9th January, 1886.	Plumstead District Board, requesting that Pope-street and part of Cross-lane, Eltham, may be re-named "Southwood-road."

Your Committee have received Reports from your Superintending Architect on the above-mentioned applications; they have also inspected Plans, prepared under his direction, showing the alterations which it is desirable to make in the naming and numbering of the several thoroughfares, and they recommend—

That Hayes-place, Dibden-street (late Paradise-place), and Victoria-place, Islington, be incorporated under the name "Dibden-street, N.," and the houses re-numbered.

That Ascham-street and Dunollie-road, St. Pancras, be incorporated under the name "Dunollie-road, N.W.," and the houses re-numbered.

That Carrol-road and Chetwynd-road, St. Pancras, be incorporated under the name "Chetwynd-road, N.W.," and the houses re-numbered.

That certain irregularly-numbered houses and premises on the Southern side of Pentonville-road, be re-numbered.

That Fifteen-foot-lane and St. Chad's-place, Gray's-inn-road, be incorporated under the name "St. Chad's-place, W.C.," and the houses re-numbered.

That Seymour-row and Euston-mews East, be incorporated under the name "Seymour-row, N.W.," and the houses re-numbered.

That the houses in Swinton-street, Gray's-inn-road, be re-numbered.

That Paradise-street, Gray's-inn-road, be re-named "Wicklow-street, W.C.," in continuation of the existing street of that name.

That the houses in Hyde-street, High-street, Deptford, be re-numbered.

That Hyde-street, Clifton-hill, Deptford, be re-named "Achilles-street, S.E."

That Seymour-place and Crambrooke (otherwise Cranbrook)-street, Deptford, be incorporated under the name "Cranbrook-street, S.E.," and the houses re-numbered.

That Seymour-street, High-street, Deptford, be re-named "Ffinch-street S.E." and the houses re-numbered.

That Grange-road, Stoke Newington, be re-named "Burma-road, N."

That the houses in Amott-road, East Dulwich, be re-numbered.

That the subsidiary name in Dieppe-street, Fulham, be abolished, and the houses re-numbered where necessary.

That Trinity-road, Christchurch-road, Lambeth, be re-named "Hillside-road, S.W."

That Victoria-road, Lewisham-hill, be re-named "Blackheath-rise, S.E.," the subsidiary name abolished, and the houses re-numbered.

That Pope-street and Cross-lane, Eltham (*i.e.*, the road branching from Green-lane and continuing to Footscray-road, and thence in a North-Easterly direction to the four cross roads in the main Bexley-road), be re-named "Southwood-road."

All which your Committee beg to submit.

(Signed) A. EWIN,
WM. SHEPHERD,
W. R. SELWAY.

The Report of the Building Act Committee of the 2nd day of February, 1886 appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Queen-street and Elizabeth-street, in the respective Parishes of St. Mary Abbott's, Kensington and Chelsea, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,630, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 59, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 48, to those on the Southern side; that such numbers do commence at the Western end; that the names Queen-street and Elizabeth-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Hans-road, S.W.," and that notice of this Order be given to the Vestries of Kensington and Chelsea, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Hayes-place, Dibden-street (formerly Paradise-place) and Victoria-place, in the Parish of St. Mary, Islington, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 21, as shown by red figures on the Plan now produced, marked 3,631, in lieu of the existing numbers, as shown on the said Plan; that such numbers do commence at the Western end; that the names Hayes-place, Paradise-place and Victoria-place, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Dibden-street, N.," and that notice of this Order be given to the Vestry of Islington, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Ascham-street and Dunollie-road, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,632, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 45, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 40, to those on the Southern side; that such numbers do commence at the Western end; that the name Ascham-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Dunollie-road, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Carrol-road and Chetwynd-road, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,633, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 121, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 112, to those on the Southern side; that such numbers do commence at the Western end; that the names Carrol-road, Ridgeway-terrace, and any other name or names now in use in Carrol-road and Chetwynd-road, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Chetwynd-road, N.W.,” and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, certain houses and premises on the Southern side of Pentonville-road, in the respective Parishes of Clerkenwell and St. Pancras, in the County of Middlesex, be numbered with odd numbers commencing with 247 and ending with 297, as shown by red figures on the Plan now produced, marked 3,634, in lieu of the existing numbers, as shown on the said Plan, and that notice of this Order be given to the Vestries of Clerkenwell and St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and

premises in St. Chad's-place and Fifteen Foot-lane, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,635, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 11, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 16, to those on the Southern side; that such numbers do commence at the Western end; that the name Fifteen Foot-lane, and the existing numbers, be abolished; that the whole be called "St. Chad's-place, W.C.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in Seymour-row and Euston-mews, East, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,636, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 21, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 22, to those on the Northern side; that such numbers do commence at the Eastern end; that the name Euston-mews, East, and the existing numbers, be abolished; that the whole be called "Seymour-row, N.W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Swinton-street, in the Parish of St. Pancras, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,637, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 71, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 78, to those on the Northern side; that such numbers do commence at the Eastern end; that the existing numbers be abolished; that the whole line of thoroughfare be called "Swinton-street, W.C.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That Paradise-street, Gray's-inn-road, in the Parish of St. Pancras, in the County of Middlesex, be re-named "Wicklow-street, W.C." in continuation of the existing street of that name, and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant

to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Hyde-street, High-street, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,638, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 71, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 82, to those on the Northern side; that such numbers do commence at the Eastern end; that the existing numbers be abolished; that the whole line of thoroughfare be called “Hyde-street, S.E.” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, Hyde-street, Clifton-hill, in the Parish of St. Paul, Deptford, in the County of Kent, be re-named “Achilles-street, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Seymour-place and Crambrooke otherwise Cranbrook-street, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,639, in lieu of the existing numbers, as shown on the said Plan; the odd numbers commencing with 1 and ending with 19, being assigned to the houses on the North-Eastern side, and the even numbers, commencing with 2 and ending with 42, to those on the South-Western side; that such numbers do commence at the end nearest Friendly-street; that the names Seymour-place, Crambrooke-street, Sisters-cottages, and any other name or names now in use in Seymour-place and Cranbrook-street, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Cranbrook-street, S.E.,” and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in Seymour-street, High-street, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,640, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 21, being assigned to the houses on the Southern side, and the even numbers, commencing

with 2 and ending with 34, to those on the Northern side; that such numbers do commence at the Eastern end; that the names Seymour-street, Barrow-cottages, Thomas-place, and any other name or names now in use in Seymour-street, and the existing numbers, be abolished; that the whole be called "Ffinch-street, S.E.," and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That Grange-road, in the Parish of St. Mary, Stoke Newington, in the County of Middlesex, be re-named "Burma-road, N.," and that notice of this Order be given to the Board of Works for the Hackney District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Amott-road, in the Parish of Camberwell, in the County of Surrey, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,641, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 45, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 72, to those on the Northern side; that such numbers do commence at the Eastern end; that the existing numbers be abolished; that the whole line of thoroughfare be called "Amott-road, S.E.;" and that notice of this Order be given to the Vestry of Camberwell, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in Beaumont-place, in the Parish of Fulham, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,642, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 63 and ending with 73, being assigned to the houses on the Western side, and the even numbers, commencing with 50 and ending with 56, to those on the Eastern side; that the name Beaumont-place, and the existing numbers, be abolished; that the whole line of thoroughfare from North-end-road to Beaumont-road be called "Dieppe-street, S.W.," and that notice of this Order be given to the Board of Works for the Fulham District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin, seconded

by Mr. Ingoldby—That Trinity-road, Christchurch-road, in the Parish of Lambeth, in the County of Surrey, be re-named “Hillside-road, S.W.,” and that notice of this Order be given to the Vestry of Lambeth, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby ~~resolved~~ and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Victoria-road, Lewisham-hill, in the Parish of Lewisham, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,643, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 15, being assigned to the houses on the Northern side, and the even numbers, commencing with 2 and ending with 6, to those on the Southern side; that such numbers do commence at the Western end; that the names Victoria-road, Ide-villas, and any other name or names now in use in Victoria-road, and the existing numbers, be abolished; that the whole line of thoroughfare be called “Blackheath-rise, S.E.,” and that notice of this Order be given to the Board of Works for the Lewisham District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 2nd day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby ~~resolved~~ and **ordered**, on the motion of Mr. Ewin, seconded by Mr. Ingoldby—That Pope-street and Cross-lane (*i.e.*, the road branching from Green-lane and continuing to Footscray-road, and thence in a North-Easterly direction to the four cross roads in the main Bexley-road), in the Parish of Eltham, in the County of Kent, be re-named “Southwood-road,” and that notice of this Order be given to the Board of Works for the Plumstead District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

16. Mr. Phillips, in the absence of Mr. Pocock, the Chairman of the Special Purposes and Sanitary Committee, brought up a Report, as follows—

REPORT OF THE SPECIAL PURPOSES AND SANITARY COMMITTEE.

Spring-gardens, 9th February, 1886.

Your Committee submit a list of 48 applications for Licenses to keep Petroleum in small quantities, and they recommend—

That in 41 cases Licenses be granted to keep a quantity not exceeding 10 gallons of Petroleum in each case at the places named, and in accordance with the conditions of License No. 91; that in 2 cases Licenses be granted to keep Petroleum at the places named in a store situated and constructed in accordance with License No. 90, and that in 5 cases special Licenses be granted to keep Petroleum at the places named in the manner described in such Licenses.

All which your Committee beg to submit.

(Signed)

F. M. WENBORN,
GEORGE PHILLIPS,
BENJ^N. WEIR.

The list of applications for Licenses to store Petroleum, submitted by the Committee, was laid before the Board.

The Report having been read and received.

It was moved by Mr. Phillips, seconded, and resolved—That Licenses be granted to the Forty-eight persons mentioned in the list now submitted, to keep Petroleum in the places and in the quantities stated in such Licenses, for a period of Twelve months from this date, subject to the conditions mentioned in the several Licenses.

The Licenses referred to in the foregoing Resolution were laid before the Board.

It was moved by Mr. Phillips, seconded, and resolved—That the Common Seal of the Board be affixed to the said Licenses; and the Seal was affixed accordingly.

17. Mr. Bradfield, the Chairman of the Parks, Commons, and Open Spaces Committee, brought up a Report, as follows—

REPORT OF THE PARKS, COMMONS, AND OPEN SPACES COMMITTEE.

Spring-gardens, 10th February, 1886.

The attention of your Committee has been called to the state of the carriage road in Finsbury-park, leading from the Blackstock-road entrance, shown on the Plan submitted herewith, and also to the condition of the granite pitching at the same entrance. Your Committee are informed that this road and pitching are at present in a condition liable to cause accidents to vehicles, and they therefore recommend—

That they be authorised to have the necessary works of repair executed at an estimated cost of £200.

Your Committee have had their attention called to the necessity for executing certain works of drainage and levelling on Highbury-fields, and, as the present seems a desirable time for doing such works, your Committee recommend—

That they be authorised to receive and accept Tenders for any works of the kind which they may deem necessary.

In pursuance of the Resolution of the Board of the 2nd October, 1885 (No. 38), your Committee have considered the desirability of forming a lake in one of the gravel pits on Blackheath near Greenwich-park, as suggested by the Greenwich District Board; but, inasmuch as the outlay is estimated at £9,000, and there are already four ponds on the Heath, your Committee are not prepared to recommend the Board to form the lake referred to.

The attention of your Committee has been called to the flooding of a portion of Eelbrook-common, near its Western boundary, from water passing from roads in the immediate vicinity which are not made up or taken charge of by the District Board. Your Committee consider that the best means to adopt in order to prevent the flooding, is to call upon the Fulham District Board to make up the roads from which the water passes on to the Common, and they therefore recommend—

That the Solicitor do, on behalf of the Board, make the necessary application to the District Board in the matter.

Your Committee have to recommend—

That the Licenses held by the following persons for the letting of animals, &c., on hire on Blackheath, be renewed, on the usual conditions, for one year from the 4th February, 1886—

44. William Harris, No. 2, Laurel-gardens, South-street, Greenwich.
45. John Gibbs, No. 40, Stanhope-street, Deptford.
68. Alfred Murphy, No. 13, Watson-street, New-cross-road.
70. Mary Brown, Myrtle-cottage, No. 1, King-street, Blackheath-hill, Lewisham.
71. John Self, No. 31, Ropeyard-rails, Woolwich.

Your Committee have had their attention drawn to the quantity of clothing which is supplied annually by the Board for the use of certain of their regular employes in the Parks and Gardens, and also for the Common Keepers on Open Spaces. Your Committee consider that the quantity of clothing should be definitely settled by the Board, and, as the staff at the places mentioned is now fixed, they have had the

following list, prepared which they beg to submit for approval and adoption by the Board—

Park Superintendents.

One hat	}	every year
Two pairs of boots		
One overcoat	}	every two years.
One pair of leggings		

Park and Garden Foremen.

One hat	}	every year.
Two pairs of boots		
One overcoat	}	every two years.
One pair of leggings		
One cape every three years.		

Park and Gymnasium Keepers.

One hat	}	every year.
Two pairs of boots		
One overcoat	}	every two years.
One pair of leggings		
One coat		
One vest		
Two pairs of trousers	}	
One cape every three years.		

Labourers in Parks and Gardens.

Two hats every year.

Common Keepers.

One tunic	}	every year.
One helmet (Seniors a cap)		
One pair of leggings		
Two pairs of boots		
Two pairs of trousers		
Three pairs of gloves		
One overcoat every two years.		
One cape every three years.		
One belt every five years.		

In pursuance of the Resolution of the Board of the 5th instant, your Committee have considered whether R. Devine, late a First-class Fireman in the Metropolitan Fire Brigade, who was injured at a fire in November last, is suitable for the post of Common Keeper. Having regard to the fact that Devine has practically lost the entire use of one hand, and that Common Keepers have frequently to deal with very rough characters, your Committee do not consider that he would be suitable for employment in that capacity.

Your Committee are authorised by a Resolution of the Board of the 27th June, 1879, to employ men, when necessary, to mow the grass in the Board's Parks, and they are further authorised by a Resolution of the 9th January, 1880, to employ labourers in connection with the trees or the maintenance of the Open Spaces. The arrangements which your Committee have from time to time thought it necessary to make, are perhaps somewhat more extensive than those Resolutions may be thought to cover, and, as your Committee have recently been considering the arrangements, and have made some general Regulations on the subject, they think it desirable to report their proceedings for the information of the Board. The Regulations made by your Committee are as follows—

1.—That in future the daily labouring staff which may be employed by the Superintendents of Finsbury-park or of Southwark-park respectively, under the

supervision and subject to the Certificate of the Superintending Architect, in connection with the following Parks, Gardens, and Open Spaces, do not exceed the following—

<i>For Finsbury-park.</i>					s.	d.	
1 leading propagator	...	...	...	at	6	6	per day.
1 leading park keeper	...	...	...	,,	5	0	,,
1 foreman of garden labourers	...	...	...	,,	5	0	,,
19 labourers at wages not exceeding	...	...	...	,,	4	0	,,
5 boy labourers at wages not exceeding	...	...	...	,,	2	0	,,
1 carpenter	...	...	...	,,	5	6	,,
1 woman (cloak room attendant)	...	...	...	,,	4	0	per week.

<i>For Southwark-park.</i>					s.	d.	
1 foreman of garden labourers	...	...	...	at	5	0	per day.
1 propagator	...	...	...	,,	4	6	,,
14 garden labourers	...	...	...	,,	4	0	,,
1 boy labourer	...	...	...	,,	1	8	,,

For the Victoria Embankment and Leicester-square Gardens.

					s.	d.	
1 foreman of garden labourers	...	...	...	at	5	0	,,
9 garden labourers	...	...	...	,,	4	0	,,

For the Chelsea Embankment-gardens.

					s.	d.	
1 leading garden labourer	...	...	...	at	4	6	per day.
2 garden labourers...	...	...	...	,,	4	0	,,

On Hampstead-heath.

					s.	d.	
1 leading labourer	...	...	...	at	4	6	per day.
1 labourer	...	...	...	,,	4	0	,,

On the Western Commons, i.e., Wormwood-scrubs, Shepherd's-bush-common, Brook-green, Eel-brook-common, and Parson's-green.

					s.	d.	
1 leading labourer	...	...	...	at	4	6	per day.
1 labourer	...	...	...	,,	4	0	,,

On the Hackney and Highbury Commons, i.e., Hackney-downs, Well-street-common, North-mill-field, South-mill-field, London-fields, Stoke Newington-common, Clapton-common, and Highbury-fields.

					s.	d.	
1 leading labourer	...	...	...	at	4	6	per day.
1 labourer	...	...	...	,,	4	0	,,

On Bostall-heath and Plumstead-common.

					s.	d.	
1 labourer	...	...	...	at	4	0	per day.

On Blackheath.

					s.	d.	
1 leading labourer	...	...	...	at	4	6	per day.
1 labourer	...	...	...	,,	4	0	,,

On Peckham-rye.

					s.	d.	
1 labourer	...	...	...	at	4	0	per day.
1 boy labourer	...	...	...	,,	2	0	,,

On the Streatham Commons.

					s.	d.	
1 labourer	...	...	...	at	4	0	per day.

On the Tooting Commons.

					s.	d.	
1 leading labourer...	...	...	...	at	4	6	per day.
1 labourer	...	...	...	,,	4	0	,,

<i>On Clapham-common.</i>					s.	d.	
1 leading labourer...	...	...	...	at	4	6	per day.
1 labourer	...	...	...	,,	4	0	,,

That, during the mowing season the Superintendent of Finsbury-park and the Superintendent of Southwark-park be each authorised to employ, under the supervision and subject to the Certificate of the Superintending Architect, additional labourers, not to exceed six, for mowing the Commons in their respective districts.

That all pay-sheets for labourers' wages in connection with Parks, Commons, and Open Spaces be signed by the Superintending Architect, on his being satisfied of their correctness, previous to the wages being paid by the Accountant; and that every labourer be paid personally by an Officer of the Accountant's Department.

That there be placed on the Agenda for each meeting of the Parks, Commons, and Open Spaces Committee a statement of the amount paid for overtime at each of the Parks and Gardens since the previous meeting; and that no overtime be allowed to any of the labourers employed on the Open Spaces without a special order of the Committee.

That whenever horse hire is required in connection with any of the Parks, Gardens, or Open Spaces, notice of the requirement be inserted in the Agenda before the Parks, Commons, and Open Spaces Committee are asked to sanction it.

Under the authority conferred on them by the Board on the 13th June, 1873 (No. 13), your Committee have authorised the purchase of timber and seeds, &c., for use in Finsbury-park and the Victoria and Chelsea Embankment Gardens; some birch brooms for Southwark-park, and poles for the Southern Open Spaces. Your Committee have also authorised the supply of coal and coke for the greenhouse furnace in Southwark-park, and some gravel and shell for laying on the margins of the Lake at that place, and also that some slight repairs be executed to the Lodge at Blackheath and to the watch boxes on Streatham-common.

All which your Committee beg to submit.

(Signed) J. E. BRADFIELD,
JOHN RUNTZ,
W^M SHEPHERD,
GEORGE HILL,
GEO. EDWARDS.

The Plan and the list of clothing submitted with the Report were laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the carriage-road in Finsbury-park, leading from the Blackstock-road entrance to the Fountain, as shown by Red colour on the Plan now submitted, be re-metalled, and that the granite pitching at the Blackstock-road entrance gates be taken up and re-laid at a total estimated cost of £200.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Committee be authorised to accept Tenders for the carrying out of any drainage and levelling works on Highbury-fields, which they may consider necessary.

It was *moved* by Mr. Bradfield, and seconded—That, in the opinion of the Board, it is not desirable to incur the expenditure which would be necessary for forming a lake in the gravel-pit on Blackheath, near Greenwich-park, as suggested by the Greenwich District Board.

An amendment thereon was moved by Mr. Richardson, and seconded by Mr. Andrews—That the subject be referred back to the Committee, for further consideration and report.

The amendment having been put to the vote, there were for it 6, against it 14; and it was lost.

The original motion was then put to the vote, and declared by the Chairman to be carried; and it was resolved accordingly.

It was moved by Mr. Bradfield, and seconded—That the Solicitor be instructed, on behalf of this Board, to make the necessary application to the Fulham District Board to take steps for having the roads near the Western boundary of Eel-brook-common put into such a condition that the Common will not be flooded therefrom.

The motion having been put to the vote, it was declared by the Chairman to be carried; and it was resolved accordingly.

It was moved by Mr. Bradfield, seconded, and resolved—That Licenses for One year from the 4th instant, but revocable at any time during the pleasure of the Board, be granted to the persons mentioned in the list submitted by the Committee, to let animals and vehicles on hire, on week days only, on Blackheath.

The Clerk laid before the Board the several Licenses prepared in accordance with the foregoing Resolution.

It was moved by Mr. Bradfield, seconded, and resolved—That the Common Seal of the Board be affixed to the several Licenses; and the Seal was affixed accordingly.

It was moved by Mr. Bradfield, seconded, and resolved—That the revised list, now submitted, of the clothing to be supplied to such of the men at the Board's Parks and Open Spaces as receive an allowance of uniform from the Board, be approved and adopted.

It was moved by Mr. Bradfield, seconded, and resolved—That the Board concur in the opinion of the Committee, that R. Devine, late a First-class Fireman in the Fire Brigade, is not physically suited for the post of Common Keeper.

It was moved by Mr. Bradfield, and seconded—That so much of the Report as relates to the Regulations made by the Committee with respect to the employment of labour in the Board's Parks and Gardens, and at their Open Spaces, be approved.

An amendment thereon was moved by Mr. Selway, and seconded by Mr. Ewin—That the subject be referred to the Works and General Purposes Committee, for consideration and report.

The amendment having been put to the vote, it was declared by the Chairman to be carried, and having been put as an original motion, it was also carried; and it was resolved accordingly.

It was moved by Mr. Bradfield, seconded, and resolved—That the several other proceedings of the Committee, as mentioned in the Report, be approved.

18. Mr. Shepherd, the Chairman of the Bridges Committee, brought up a Report, as follows—

REPORT OF THE BRIDGES COMMITTEE.

Spring-gardens, 10th February, 1886.

Your Committee have to report that they have considered the Letter from the Wandsworth District Board, referred on the 11th December last (No. 2), as to the bad condition of the approaches from Battersea-bridge-road to the temporary Foot-bridge over the Thames at Battersea, and asking this Board to cause the approaches to be maintained in good order. Upon an examination of the approaches to the temporary Bridge, your Engineer found that the state of Wellington-road, one of the roads leading to the temporary Bridge, and which has not yet been taken charge of by the District Board, was very unsatisfactory, and that the condition of that road was

to some extent the cause of the temporary Bridge and its approaches being in a dirty condition. The attention of the District Board was called to the matter with a view to the road being put in a proper state ; and at the same time the Board's Contractors, Messrs. Mowlem and Co., were requested to maintain and keep the Bridge and its approaches in better condition. The District Board, however, have found some difficulty in the matter, the road being a private one, and have asked that this Board would themselves undertake the cleansing of the road. This, however, your Committee are not prepared to advise the Board to do ; and they recommend—

That the Wandsworth District Board be informed that, in the opinion of the Board, it is the duty of the District Board to cleanse and maintain Wellington-road.

All which your Committee beg to submit.

(Signed) W^M. SHEPHERD,
FRANCIS H. FOWLER,
JOHN RUNTZ,
W. R. SELWAY,
ROBT. JONES,
GEO. EDWARDS.

The Report having been read and received,

It was *moved* by Mr. Shepherd, seconded, and *resolved*—That the Wandsworth District Board be informed in reply to their application with respect to the cleansing and maintenance of the approaches from Battersea-bridge-road to the temporary Foot-bridge at Battersea, that this Board, are of opinion that it is the duty of the District Board to cleanse and maintain Wellington-road.

19. Mr. Selway, the Chairman of the Parliamentary Committee, brought up a Report, as follows—

REPORT OF THE PARLIAMENTARY COMMITTEE.

Spring-gardens, 10th February, 1886.

Your Committee find that two of the Bills deposited for introduction into Parliament this Session have not yet been reported on by them. These are the London and South-Western Railway Bill and the West London Electric Lighting Bill. Having now considered those Bills, it appears to your Committee that they contain nothing upon which it is necessary for the Board to take action. They accordingly recommend—

That Petitions be not presented against the Bills.

All which your Committee beg to submit.

(Signed) W. R. SELWAY,
FRANCIS H. FOWLER,
JOHN RUNTZ,
ROBT. JONES.

The Report having been read and received,

It was *moved* by Mr. Selway, and seconded—That Petitions be not presented against the London and South-Western Railway Bill and the West London Electric Lighting Bill.

An amendment thereon was *moved* by Mr. J. Jones, and seconded by Mr. Bonthron—That a Petition be presented against the West London Electric Lighting Bill.

After discussion, the amendment was by leave of the Board withdrawn.

The original motion was then put to the vote, and declared by the Chairman to be carried ; and it was *resolved* accordingly.

20. Read a Report by the Engineer, dated 12th February, 1886, on the undermentioned Sewerage work proposed to be executed by the Vestry of Saint Luke, Middlesex.

LOCALITY OF WORK.	WORK APPLIED FOR.			REMARK.
	Length in feet.	Size.	Material.	
Old-street	3,050	18-inch	Pipe.	Recommended, subject to the old outlet Sewer shown at "A" on the Plan being diverted into the Middle Level Sewer.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the Vestry of St. Luke, Middlesex, be permitted to construct and execute the said work in the manner therein recommended.

21. Read a Report, as follows—

Engineer's Department,
Spring-gardens,
10th February, 1886.

ISLE OF DOGS PUMPING STATION.

On the 23rd of October last, the Board ordered the Superintending Architect to negotiate for the purchase of the piece of land required for this Pumping Station for a sum not exceeding £1,500, and that failing a settlement, application be made to the Home Secretary for the compulsory purchase of the land, and that upon the land being obtained, the Engineer do adopt such temporary measures for preventing flooding as may serve for a guide hereafter.

The Architect's negotiations failed, and the consent of the Secretary of State for the compulsory purchase of the land has been obtained.

The Solicitor is endeavouring to obtain immediate possession of the land by agreement, and to pay interest at the rate of 5 per cent. upon the amount of compensation ultimately determined to be payable, and in the event of this proposal being declined, is prepared to take proceedings under the 85th Section of the Lands Clauses Consolidation Act, 1845, to obtain compulsory possession.

In order to utilise the time which would have been lost by the unavoidable delay, I addressed a Letter (a copy of which is appended) to 16 of the best Pumping-engine Manufacturers named in the list (also appended) inviting designs and tenders for duplicate Engines, Pumps and Boilers, each capable of raising 10,000 gallons of storm waters per minute from a depth of 20 feet, but adapted to raise smaller quantities 30 feet.

Twelve of the firms written to have sent in designs and tenders, five of these were for centrifugal pumps, and although these are the cheapest, I do not recommend them, for they give a low duty at lifts exceeding 10 feet, and a bad duty at high lifts ; they have to be worked at great speed, and heat very much in their bearings.

Upon the whole it appears to me that the design of Messrs. Watt and Co., for a high-pressure condensing engine, and single-acting lift pump with Cornish boiler, which they undertake to deliver in 3 months, and erect and set to work for the sum of £4,950, is the best and cheapest for the purpose. I recommend that the Solicitor be instructed to draw up a proper Contract for this.

It is necessary that the Board should now select the Engines, to enable me to get out the drawings for the Engine-houses, with a view to the commencing the erection of them as soon as the land is obtained.

(Signed) J. W. BAZALGETTE,
Engineer.

It was moved by Mr. Fowler, seconded by Mr. Shepherd, and resolved—That the Report be referred to the Works and General Purposes Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

22. Read a Report by the Engineer, dated 12th February, 1886, recommending the execution of the following works under the General Contract—

<i>Western Pumping Station.</i>			ESTIMATE.
Renewing the timber staging in the pump well	...	...	£100 0 0
<i>Barking Reservoir.</i>			
Shoring up and repairing the arches and walls	...	...	200 0 0
Total	...	...	£300 0 0

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the works be executed accordingly, the cost thereof being charged to the General Working Account of the Board.

23. Read a Report by the Engineer, dated 11th February, 1886, stating that in April, 1883, the Board entered into a Contract with Messrs. M'Crea and M'Farland for the construction of works in connection with the Ranelagh and King's Scholars' Pond Sewers Storm Relief Sewer; that the Contract contained a provision of £10,000 for the lowering of weirs and the construction of certain other works to the existing sewers which were necessary to complete the immediate relief from floods; that one of those works was the construction of a new weir and its connecting sewer to relieve the Ranelagh and Middle Level Sewers at their junction in the Bayswater-road, the cost of which would be about £2,000; that Messrs. M'Crea and M'Farland had however objected to execute the work unless the prices attached to their schedule for tunnel work were applied for the open excavation; that as the proposed work was at some little distance from the works recently executed by those Contractors, the question might arise whether the Board could enforce its execution as an extra on their Contract; that the Schedule of prices attached to the Contract of Messrs. Williams, Son and Wallington, the General Contractors for works in the District, was as low, and in some cases even lower, than that of Messrs. M'Crea and M'Farland, and that he (the Engineer) had ascertained that Messrs. Williams and Co. would be willing to carry out the work in question under their Schedule; that the prices were probably lower than would be obtained if fresh Tenders were invited, and that the saving of time would also be an advantage, and recommending that, upon their signing a proper Agreement, to be prepared by the Solicitor, Messrs. Williams, Son and Wallington should execute the work.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved and acted upon; that the work be executed by Messrs. Williams, Son and Wallington accordingly, the cost thereof being charged to the Main Drainage and Main Sewers Account, and that the Solicitor do prepare the necessary Agreement.

24. The Solicitor reported that the Board's (Various Powers) Bill, 1886, had been appointed for second reading in the House of Commons for Thursday next, the 18th instant.
25. The Solicitor reported that the second reading of the Board's (Fire Brigade Expenses) Bill had been appointed for the 18th instant; that the second reading of the Board's (Water Supply, &c.) Bill had been appointed for the 24th instant; that the second reading of the Board's (Theatres, &c.) Bill had been appointed for the 17th March next; and that the second reading of the Board's (Keeping of Firewood) Bill had been appointed for the 9th June next.
26. The Solicitor reported that the second reading of the Theatres, &c. (Metropolis) Bill, (Mr. Dixon-Hartland), had been appointed for the 18th instant.
27. The Solicitor reported that the second reading of the Sanitation of Houses Bill had been appointed for the 19th May next; that the second reading of the Employers' Liability Act (1880) Amendment (No. 1) Bill, had been appointed for the 18th instant; that the second reading of the Employers' Liability Act (1880) Amendment (No. 2)

Bill, had been appointed for the 10th March next; and that the second reading of the Land Purchase Facilities Bill had been appointed for the 7th July next.

28. The Solicitor reported that it might become necessary, before the next Meeting of the Board, to affix the Seal to Petitions on their behalf, against Bills to be promoted in Parliament during the present Session.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Chairman of the Board be requested and authorised to affix the Common Seal of the Board to any Petitions which it may become necessary to present to Parliament on behalf of the Board before their next Meeting.

29. The Solicitor presented, for sealing, the Leases to Mr. E. Villiers of the London Pavillion and the Piccadilly Restaurant in Tichborne-street, in the line of the Piccadilly to Bloomsbury Improvement, and stated that it was necessary that the Board should draw Cheques for £79 15s. and £10 15s., for the Stamp-duty on the Leases and Counterparts.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said Leases, and that Cheques for £79 15s. and £10 15s. be now drawn in favour of the Receiver-General of Inland Revenue; and the Seal was affixed, and Cheques were drawn on the General Working Account accordingly.

30. The Solicitor presented the following documents for sealing—

Conveyance to Mr. S. C. Austen, of land in Pemell's-place, Queen's-road, Peckham (Camberwell and Peckham Improvement).

Conveyance by Mrs. C. M. Tomkins, and her Mortgagees, of No. 20, Litchfield-street, Soho, and a Memorial for the registration of the same (Charing-cross to Tottenham-court-road Improvement).

Agreement, in duplicate, between the House Property and Investment Company, Limited, Mr. G. Woolliams, and the Board, for apportionment of rent in respect of a piece of garden ground adjoining No. 182, South Lambeth-road (South Lambeth Improvement).

Appointment of Mr. Vulliamy as Valuer in the matter of a claim by the Rev. J. M. Nisbet, in respect of the premises, Nos. 33 and 35, Crown-street, and Nos. 7 to 12, Denmark-place, St. Giles (Charing-cross to Tottenham-court-road Improvement).

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said documents respectively; and the Seal was affixed accordingly.

31. The Accountant presented a Report, dated 12th February, 1886, stating that Mr. G. R. Woolley, the Senior Examiner of Trade Claims in his Department, had been absent from his duties, since the 5th instant, in consequence of illness, and submitting a Medical Certificate as to his state of health.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Report be received.

32. The Clerk laid before the Board copies of the Orders of the Board of the 29th ultimo (No. 12), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

College-lane, &c.	...	...	...	...	...	St. Pancras.
Fortess-mews	...	...	...	...	...	Do.
Leeke-street ...	...	...	...	...	...	Do.
Little King-street South, &c.	...	...	...	...	...	Do.
Middlesex-street	...	...	...	...	...	Do.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

33. The Clerk presented a printed Report and Statement of the Accounts of the Gas Light and Coke Company, for the half-year ended 31st December, 1885.

34. The Clerk presented a Letter from Mr. W. Schröder, Coroner's Clerk, dated 5th February, 1886, with a copy of the verdict of the Jury in the case of the persons who were recently killed by the falling of a wall in the Holloway-road, and containing a recommendation that the Board should obtain powers so that the District Surveyors might have control over the pulling down of old houses, as well as the erection of new ones.

It was moved by Mr. Fowler, seconded, and resolved—That the communication be referred to the Building Act Committee, for consideration in connection with the reference already made to them on the subject to which it relates.

35. The Clerk presented a Letter from Mr. F. J. Clarke, dated 5th February, 1886, complaining of the erection of shops by Mr. Ward at Lime-villas, Upper Richmond-road, Putney, beyond the present line of frontage, and of the formation of a mews at the rear of the shops, and of the roadway entrances thereto, and asking the Board not to allow Mr. Ward to carry out his mews and roadway schemes.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Building Act Committee, for consideration and report, and that the Superintending Architect do report to the Committee thereon.

36. The Clerk presented a Letter from Messrs. Harris and Gregory, dated 5th February, 1886, stating that they had perfected an invention for the ventilation of Sewers, and asking that they might be allowed to bring the working model before the notice of the Board.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Special Purposes and Sanitary Committee, for consideration, with authority to inspect the model.

37. The Clerk presented three Letters from the Vestry of St. Martin-in-the-Fields, dated 6th February, 1886, expressing their approval of the Water Supply (Various Powers), the Charing-cross Foot-bridge, and the Fire Brigade Expenses Bills, promoted by the Board.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letters be received.

38. The Clerk presented a Letter from Mr. W. F. Dewey, Clerk to the Vestry of Islington, dated 9th February, 1886, stating that the Vestry had consented to the London Street Tramways Extension Bill, upon certain conditions; that the Vestry had resolved not to consent to the North Metropolitan Tramways (No. 2) Bill, and that they had decided to consent to the North London Tramways Bill, upon certain conditions specified in the statement transmitted with the Letter.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subjects to which it relates.

39. The Clerk presented a Letter from Messrs. Sutton and Ommanney, dated 9th February, 1886, stating that the Islington Vestry had consented to such of the Tramways proposed by the North London Tramways Bill as were in the Parish of Islington, and further stating that, if the Board would give their consent to the proposed Tramways, the Company would be prepared, at the expiration of one month after the Bill should have received the Royal assent, and on certain conditions, not to work over so much of the authorised Tramway in Seven Sisters'-road as was opposite the entrance gates of Finsbury-park.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

40. The Clerk presented a Letter from Mr. T. E. Gibb, M.P., Clerk to the Vestry of St. Pancras, dated 10th February, 1886, stating that the Vestry had given their sanction to the extension of Tramways in the Parish, as proposed by the London Street Tramways Extension Bill, but had declined to consent to the extensions proposed by the North London Tramway Company.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

41. The Clerk presented a Letter from Mr. E. L. Pemberton, Home Office, dated 6th February, 1886, transmitting a Letter from the Coroner for Central Middlesex, with the Verdict arrived at by the Jury in the case of the Inquest held on the remains of the persons killed by the fall of a wall in the Holloway-road, and requesting to be furnished with the Board's observations thereon.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

42. The Clerk presented a Letter, as follows—

Saint Mary, Islington,
Vestry Offices, Upper-street, N.
8th February, 1886.

DEAR SIR,—I beg to acquaint you that your Letter of the 3rd inst., requesting that this Vestry will pay the Metropolitan Board of Works the sum of £30,000, being their contribution towards the cost of purchasing Highbury-fields was laid before the Vestry at their meeting on Friday last.

I am now directed by the Vestry to formally apply to the Metropolitan Board of Works for their sanction to a Loan being obtained by the Vestry for the amount named above—viz., £30,000—and I am further to request that the Board will be good enough to advance such sum to the Vestry upon the conditions as to re-payment, and at the rate per cent. of interest alluded to in your communication.

I am, &c.,
(Signed) WM. F. DEWEY,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk to the Metropolitan Board of Works.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Solicitor and the Accountant do report to the Committee thereon.

43. The Clerk presented a Letter from Mr. G. Lushington, Home Office, dated 4th February, 1886, requesting that copies of the additional Bye-laws made by the Board under the Metropolis Management and Building Acts Amendment Act, 1878, might be sent to the Office of Works, to the Local Government Board, and to the Sun Fire Office, in case the Home Secretary should wish to consult those Departments on the subject.

The Clerk reported that copies of the Bye-laws had been sent as requested.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Mr. Lushington be informed accordingly.

44. The Clerk presented a Letter from Mr. J. J. Stokes, Clerk to the Vestry of Rotherhithe, dated 10th February, 1886, with copy of a Resolution of the Vestry, calling attention to the building in course of erection for Messrs. Gilman and Spencer, at the corner of Princes-street and Rotherhithe-street, and requesting the Board to take action with reference thereto.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report, and that the Superintending Architect do report to the Committee thereon.

45. The Clerk presented a Letter from Mr. H. R. Williams, Hon. Secretary of the Executive Committee of the Shaftesbury Memorial, dated 11th February, 1886, stating that the Committee, whilst thanking the Board for the offer of a site for a statue of Lord Shaftesbury in the Circus formed by the intersection of the new streets between Oxford-street, Charing-cross, and Piccadilly, were of opinion that a site at the Piccadilly end of the new street would be preferable, and that they therefore asked the Board to take the suggestion into consideration.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

46. The Clerk presented a Letter from Dr. George Buchanan, dated 11th February, 1886, suggesting that the new street from Piccadilly-circus to Oxford-street should be named "St. Giles-street," "St. Giles-road," or "Monmouth-street," and stating his reasons for the suggestion.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Dr. Buchanan be informed of the Board's decision this day on the subject.

47. The Clerk presented Letters and Memorials, as follows—

Letter from Mr. G. H. Parkins, dated 11th February, 1886, with a Memorial from Leaseholders and Owners of property abutting upon Palmer-place, Holloway, objecting to the proposal in the North London Tramways Bill to lay a line of Tramway in that place, and asking the Board to refuse their assent thereto.

Memorial from ratepayers and residents in the neighbourhood of Barnsbury, praying the Board to assent to the Tramway extensions through Barnsbury and West Drayton-park, proposed by the North London Tramways Bill.

Letter from Mr. W. Hardwick, dated 11th February, 1886, with a Memorial from ratepayers, &c., at Islington, to a like effect.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letters and Memorials be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subjects to which they relate.

48. The Clerk presented a Letter from Mr. G. H. Croad, Clerk to the School Board for London, dated 11th February, 1886, referring to the application of that Board in March last for a Loan of £20,259 14s. for the purpose of providing and enlarging certain Industrial Schools, but which application was afterwards withdrawn, owing to a legal difficulty which precluded this Board from advancing money for the purpose; and asking the Board to make such an alteration in their Money Bill, so far as it affected the School Board, as would enable this Board to advance money, when sanction had been given to the Loan by authorities other than the Education Department.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Parliamentary Committee, for consideration and report.

49. The Clerk presented a Letter from Mr. J. Harrison, Clerk to the Vestry of Bermondsey, dated 11th February, 1886, requesting that the Board's printers might be permitted to supply 50 copies of the Report on the Ventilation of Sewers, for the use of the Vestry, the Vestry defraying the cost thereof.

It was *moved* by Mr. Shepherd, seconded, and *resolved*—That the request be acceded to, and that the Clerk be authorised to instruct the Board's printers, in the event of a similar application being made by any other Vestry or District Board.

50. The Chemist laid before the Board his Return of the Testings made at the Gas testing Stations during the week ended on the 9th instant, as follows—

Company.	District.	Illuminating Power. (In Standard Sperm Candles.)			Sulphur. (Grains in 100 cubic feet of Gas.)			Ammonia. (Grains in 100 cubic feet of Gas.)			Sulphureted Hydrogen.

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested in Portobello-road, Notting-hill, on February 8th, 1886, at 8.30 p.m., was 2.0 inches.

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested in Pavilion-road, Chelsea, on February 6th, 1886, at 7 p.m., was 2.1 inches.

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested in St. John's-wood-road, on February 4th, at 7.30 p.m., was 2.3 inches.

51. FULHAM.—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. J. Owen, on behalf of Messrs. Parry and Jones, for the consent of the Board to the erection of a projecting brick porch and barge boards at the Welsh Chapel, in Southerton-road, Hammersmith, as shown upon the amended Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, subject to the condition that the erection of the porch and barge-boards therein referred to, be commenced within Six months, and be completed within Eighteen months from this date and that the erections be made in entire conformity with the letter of application and as shown on the Plan accompanying it, and be not at any time, in any manner enclosed, altered or raised without the consent of the Board.

52. GREENWICH.—Read a Report by the Superintending Architect, dated 1st February, 1886, on the application of Mr. G. Lee, for the consent of the Board to the erection of a one storey shop on the North side of Old Dover-road, Blackheath, next the College Hospital, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

53. ISLINGTON.—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. J. G. Turner, on behalf of Messrs. Crisp and Co., for the consent of the Board to the erection of one storey shops on the forecourts of Nos. 134 and 135, Devonshire-road, Seven Sisters'-road, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, subject to the condition that the erection of the shops therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and

as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 54. KENSINGTON.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. A. Wright, on behalf of Mr. C. Liney, for the consent of the Board to the erection of a bay-window in front of No. 34, Victoria-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the bay-window therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner altered or raised without the consent of this Board.

- 55. ST. LUKE, OLD-STREET.**—Read a Report by the Superintending Architect, dated 25th January, 1886, on the application of Mr. P. H. Patten, on behalf of Mr. A. Job, for the consent of the Board to the re-erection of the “Queen’s Head” Public-house, No. 159, City-road, the upper portion being extended to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the Public-house therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 56. BETHNAL-GREEN.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of the Rev. J. B. Barraclough, for the permission of the Board to retain, for a further period, the temporary wood and iron building erected in connection with the Jewish Episcopal Church, in Parmiter-street (late Gloucester-street).

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 57. FULHAM.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on the amended application of Mr. A. C. Bean, on behalf of Mr. G. W. Thornton, for approval by the Board of a Plan for the formation and names of new roads, and the widening of two roads to lead out of Dawes-lane.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 58. GREENWICH.**—Read a Report by the Superintending Architect, dated 19th January, 1886, on the application of Mr. H. Burslem, for approval by the Board of a Plan for the erection of houses in Mill-lane and Friendly-street, Deptford, in the position and to the line shown thereon.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, upon condition that, previously to the commencement of building operations, the land coloured Blue upon the deposited Plan, and extending up to the boundary of the public foot-way in Friendly-street, be given up and added to the public way; that the erection of the buildings therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 59. POPLAR.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. C. Dickinson, for approval by the Board of a Plan for the formation and name of a new street between High-street and East India-road, Poplar.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 60. ST. PANCRAS.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on a Letter from Mr. A. Bovill, District Surveyor, relative to the erection of buildings in Railey-mews, Levertton-street, Kentish-town, such street being of less width than 40 feet.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report, and that the Solicitor do advise the Committee thereon.

- 61. ST. MARYLEBONE.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. F. T. Pilkington, on behalf of the Artizans, Labourers, and General Dwellings Company, for approval by the Board of a Plan for the erection of a block of Artizans' Dwellings on the South side of Broadley-street, Lisson-grove, exceeding the height prescribed by the 85th Section of the Metropolis Management Amendment Act, 1862.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 62. BETHNAL-GREEN.**—Read a Report by the Superintending Architect, dated 9th February, 1886, on the application of Mr. S. C. Aubrey, on behalf of Mr. S. Edwards, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, in respect of the proposed construction of a new Concert-room on the West side of the "Hare" Public-house, No. 505, Cambridge-road, Cambridge-heath, fronting on Hare-place, as shown upon the drawings accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 63. FULHAM.**—Read a Report by the Superintending Architect, dated 9th February, 1886, on the application of Mr. G. Saunders, for a dispensation by the Board with so much of their Bye-Law as relates to the foundations and sites of buildings, in the case of a proposed Class-room at St. Paul's National Schools, proposed to be erected over a part of the disused Churchyard of St. Paul's Parish Church, at Hammersmith.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report, and also to the Works and General Purposes Committee.

- 64. WESTMINSTER.**—Read a Report by the Superintending Architect, dated 10th February, 1886, on the application of Mr. E. D. Drury, District Surveyor, for the appointment by the Board of a Fee for a special service performed by him in certifying that a chimney-breast in the East party-wall of No. 1, St. Anne's-court, might be cut away.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the District Surveyor be authorised to demand and receive a Fee of Ten shillings in respect of the special service referred to.

- 65. CAMBERWELL.**—Read a Report by the Superintending Architect, dated 11th February, 1886, on a Letter from the Vestry of Camberwell, relative to the erection of a movable or temporary Theatre on land near the "White Horse" Public-house, at Peckham-rye, without the consent of the Board, and asking them to take action in the matter, with a view to enforcing the penalties provided by the Act.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto, that the Solicitor do advise the Committee thereon, and that the parties interested be invited to attend the Committee when the matter shall be considered.

66. LEWISHAM.—Read a communication from Mr. James Tolley, District Surveyor, under the Metropolitan Building Act, 1855, for the District of Sydenham, dated 9th February, 1886, notifying that a detached house on Sabin's Estate, Vancouver-road, Forest-hill, was about to be erected under the professional superintendence of the firm of which he was a Member, and requesting the Board to appoint some other Surveyor as the District Surveyor to superintend such works. Whereupon it was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~, and ~~ordered~~, as follows—~~Whereas~~, Mr. James Tolley, District Surveyor for the District of Sydenham, did on the 9th day of February, 1886, give notice to this Board that the firm of which he, the said James Tolley, is a member, were engaged to act professionally in respect of the erection of a detached house on Sabin's Estate, Vancouver-road, Forest-hill, and the said firm have been since the said date, and now are, engaged to act professionally as aforesaid. Now, therefore, it is ~~ordered~~ by this Board—That Mr. Charles James Badger, District Surveyor for the District of Lewisham, be appointed by this Board, and the said Charles James Badger is hereby appointed to survey the said premises, for the purposes of the Metropolitan Building Act, 1855, and to act as District Surveyor in respect thereof.

67. ST. PANCRAS.—Read a Report by the Superintending Architect, dated 10th February, 1886, on the application of Mr. F. Wallen, District Surveyor, for the appointment by the Board of a Fee for a special service performed by him in certifying that a chimney breast in the West party-wall of No. 96, Drummond-street might be cut away.

It was ~~moved~~ by Mr. Ewin, seconded, and ~~resolved~~—That the District Surveyor be authorised to demand and receive a Fee of Ten shillings in respect of the special service referred to.

68. The following Notices of Motion were given for the Meeting on Friday next, viz.—

By Lieut.-Col. Hughes, M.P. (No. 1,490)—That the safe keeping of Fire-wood Bill be not further proceeded with.

By Lieut.-Col. Hughes, M.P. (No. 1,491)—For withdrawing the provision in the Board's Fire Brigade Expenses Bill relating to an increase in the contributions of the Fire Insurance Companies, and for altering certain Resolutions of the Board on the subject.

Adjourned until Friday next, the 19th instant,
at this Office, at Twelve o'clock at noon.

No. 7.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday**, the **19th** day of **February**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^cGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

CHARLES HARRIS, Esq.	WILLIAM ANDREWS, Esq.	WILLIAM ROBBINS SELWAY, Esq.
THOMAS GEORGE FARDELL, Esq.	JOHN EDWIN BRADFIELD, Esq.	JOHN REDDISH, Esq.
GUILDFORD BARKER RICHARDSON, Esq.	JOHN LENANTON, Esq.	WILLIAM SHEPHERD, Esq.
WILLIAM BURNHAM GARRETT, Esq.	FREDERICK INGOLDBY, Esq., F.R.C.S., Eng.	LIEUT.-COL. HUGHES, M.P.
PETER WILLIAM FUNNELL, Esq.	FREDERICK COX, Esq.	ROBERT GRANT WEBSTER, Esq.
ANDREW CAMERON, Esq.	JOHN ABBOTT, Esq.	JAMES EBENEZER SAUNDERS, Esq., DEPUTY.
JOHN RUNTZ, Esq.	GEORGE HILL, Esq.	WILLIAM JAMES WETENHALL, Esq.
EDWARD DRESSER ROGERS, Esq.	ROBERT JONES, Esq.	WILLIAM ALEXANDER LINDSAY, Esq.
WILLIAM URQUHART, Esq.	WILLIAM ROBSON, Esq.	SAMUEL PRICE, Esq.
JOHN TOLHURST, Esq.	JOHN JONES, Esq.	ALFRED EWIN, Esq.
HENRY HARBEN, Esq.	WILLIAM BOUTCHER, Esq.	THOMAS MORRISON FAIRCLOUGH, Esq.
BENJAMIN WEIR, Esq.	EDWARD RIDER COOK, Esq., M.P.	WILLIAM HENRY HEWITT, Esq.
CHARLES MOSSOP, Esq.	WILLIAM DEBENHAM, Esq.	
JOHN ROBERT JOLLY, Esq.	THOMAS JOHN WHITE, Esq.	
GEORGE EDWARDS, Esq.	THEOPHILUS WILLIAM WILLIAMS, Esq.	
	GEORGE BROWN, Esq.	

1. The Minutes of the Meeting of the Board, held on the 12th instant, were approved, and were signed by the Chairman, and by two other Members of the Board, present at such Meeting.
2. A Deputation from the Committee of the Stoke Newington Ratepayers' Association, introduced by Mr. Runtz, and consisting of the following gentlemen, viz.—Mr. H. F. Bevan, Mr. J. Scrase, Mr. H. Grunsdell, Mr. J. Edney, Mr. W. Brooks, Mr. J. Nicols, Mr. F. A. Burton, Mr. H. Frith, Mr. G. Burnham, Mr. J. C. Collins, Mr. F. G. Smith, Mr. W. C. Beckett, Mr. C. W. Smith, and Mr. G. Hedger, attended the Board, and presented a Memorial, which was read, as follows—

To the Honourable the Members of the Metropolitan Board of Works.

The Petition of the undersigned, being duly qualified Ratepayers of the Parish of St. Mary, Stoke Newington, in the County of Middlesex, sheweth: that the ratable value of the aforesaid Parish, as assessed by the Overseers, is £176,000, and is rapidly increasing, that it contains 4,300 rated householders, and that the Vestry as at present constituted consists of twenty-four elected Vestrymen with three *ex officio* Vestrymen, making a total of twenty-seven.

19 February, 1886.

Your Petitioners, therefore, request that your Honourable Board will take the necessary steps (as by Act of Parliament provided) to divide the aforesaid Parish into Wards for the purpose of the election of Vestrymen in accordance with Sec. 41, of the Metropolis Local Management Act, 25 and 26 Vic. cap. 102, and also apportion to each Ward the number of Vestrymen to which the Parish is entitled in proportion to the number of ratable houses it contains, in accordance with Sec. 11 of the Metropolis Local Management Act, 18 and 19 Vic. cap. 120.

And your Petitioners will ever pray.

(Signed) WILLIAM H. PHILLIPS,

34, Dynevor-road,

And 527 others.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Runtz, seconded by Mr. Cox, and *resolved*—That the Memorial be referred to the Works and General Purposes Committee, for consideration and report.

3. Mr. Richardson stated that a Deputation from the Greenwich District Board was in attendance, and desired to address the Board in opposition to the keeping of Firewood Bill, and also in support of the proposal for the formation of a Lake on Blackheath, although no notice thereof appeared in the Paper of Business, and he *moved*—That the Standing Order with respect to the reception of Deputations be, on the present occasion, suspended, and that the Deputation be now received.

The *motion* having been seconded by Mr. Andrews, it was put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

The Deputation was then introduced by Mr. Richardson and Mr. Andrews, and consisted of the following gentlemen, viz.—Mr. E. Smith, Mr. G. Simmonds, Mr. A. Golding, Mr. J. Anderson, Mr. H. Wells, Mr. B. Roberts, Mr. J. W. Beadle, Mr. W. G. Watts, Mr. T. H. Richards, Mr. S. Winn, Mr. A. T. Chard, Mr. G. Burney, and Mr. W. J. Newell, accompanied by Mr. J. Spencer, the Clerk to the District Board.

The Deputation handed in a Memorial, which was read, as follows—

To the Metropolitan Board of Works.

The Memorial of the Board of Works for the Greenwich District.

SHEWETH—

That your Memorialists are impressed with the great desirability of at once proceeding with the construction of a Lake on Blackheath, with the view of providing work for the unemployed.

Your Memorialists desire, in case your Honourable Board is not prepared to proceed with this work in the manner above suggested, that you will lend your Memorialists the Plans and Specification prepared by your Engineer, so that part of the work might be proceeded with, if it were thought desirable, by the South-Eastern Central Committee, in connection with the Mansion House Relief Fund, and that your Honourable Board will, if the work be undertaken by such Committee, supply the necessary supervision.

Signed on behalf of the Board of Works for the Greenwich District.

(Signed) J. SPENCER,
Clerk.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Richardson, and seconded by Mr. Andrews—That the Memorial be referred to the Works and General Purposes Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto, and that the Committee do report their proceedings to the Board.

An amendment thereon was *moved* by Mr. Fowler, and seconded by Mr. Bradfield—That the Memorial be referred to the Works and General Purposes Committee, for consideration and report.

The *amendment* having been put to the vote, there were for it 25, against it 14; and it was declared by the Chairman to be carried.

The amendment was then put as an original motion, when there were for it 26, against it 10.

A Division having been demanded and granted, the names of the Members voting were taken down, when there were—

For the Motion—33.

Abbott, J., Esq.	Mossop, C., Esq.
Boutcher, W., Esq.	Reddish, J., Esq.
Bradfield, J. E., Esq.	Richardson, G. B., Esq.
Brown, G., Esq.	Robson, W., Esq.
Cook, E. R., Esq., M.P.	Rogers, E. Dresser., Esq.
Cox, F., Esq.	Runtz, J., Esq.
Debenham, W., Esq.	Saunders, J. E., Esq., Deputy.
Edwards, G., Esq.	Selway, W. R., Esq.
Ewin, A., Esq.	Shepherd, W., Esq.
Funnell, P. W., Esq.	Tolhurst, J., Esq.
Garrett, W. B., Esq.	Webster, R. G., Esq.
Harben, H., Esq.	Wetenhall, W. J., Esq.
Hill, G., Esq.	White, T. J., Esq.
Hughes, Lieut.-Col., M.P.	Williams, T. W., Esq.
Ingoldby, F., Esq.	
Jolly, J. R., Esq.	
Jones, R., Esq.	
Lenanton, J., Esq.	

Against the Motion—8.

Andrews, W., Esq.	Jones, J., Esq.
Cameron, A., Esq.	Urquhart, W., Esq.
Harris, C., Esq.	Weir, B., Esq.
Hewitt, W. H., Esq.	

Teller—Mr. Fowler.

Teller—Mr. Fardell.

And it was declared by the Chairman to be carried; and it was resolved accordingly.]

The Deputation handed in a further Memorial, which was read, as follows—

To the Metropolitan Board of Works.

The Memorial of the Board of Works for the Greenwich District.

SHEWETH,—

That your Memorialists have considered a Bill which has been brought in to the House of Commons entitled the "Metropolis Safe Keeping of Firewood Act, 1886."

Your Memorialists have very carefully considered the Clauses of the Bill, and are convinced that so far as the District of your Memorialists is concerned the restrictions which it is proposed to place upon the firewood trade would most injuriously affect it, and be productive of loss to a large number of persons who now get a livelihood by wood chopping.

Your Memorialists are of opinion that if firewood merchants were compelled to confine their business to places approved by your Board the rent of such premises would be increased with the result that either the wages of the persons employed would be reduced, or the price of chopped firewood be increased.

The proposal to control the quantity of stock kept by a firewood merchant would prevent the merchants from legitimately extending their businesses by making the most profitable use of their premises, and prevent them from buying when the prices were low if at such a time their premises happened to contain the quantity of stock prescribed by the proposed Bye-laws.

The proposal to prevent firewood from being stacked within a prescribed distance of a dwelling-house has not been proved to be necessary, and inasmuch as firewood stacks require to be placed for the profitable conduct of business in situations where carriage is most easily and cheaply obtained, such a proposal, if carried into effect, would hamper the trade without any commensurate advantage or protection to the public.

There are very extensive firewood yards in your Memorialists district, and your Memorialists are not aware that any injury or inconvenience to the public or any private individuals has ever been caused by firewood stacks, on the other hand a large number of persons have found employment in them who would probably have found it difficult to find any other employment for which they were fitted.

19 February, 1886.

Your Memorialists are more strongly convinced of the undesirability of proceeding with the Bill at a time when trade is greatly depressed, numbers of men and women are unable to obtain employment, and when any interference with the firewood trade would have a tendency to increase the prevailing distress.

For these reasons your Memorialists humbly pray that your Honourable Board will take no further steps to procure that the said Bill may become law.

Sealed at and in pursuance of a Resolution of the Board of Works for the Greenwich District, passed at a Meeting of the said Board, held on the 17th day of February, 1886.

L.S.

(Signed) J. SPENCER,
Clerk of the Board.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Richardson, seconded by Mr. Andrews, and *resolved*—That the consideration of the Memorial be deferred until the Report of the Works and General Purposes Committee, with respect to the Bill to which it relates, shall be brought up.

4. Mr. Cook, M.P., stated that a Deputation from ratepayers and residents in the Districts of Poplar and Greenwich was in attendance, and desired to address the Board in support of the proposal to provide additional means of communication across the Thames from Poplar to Greenwich, although no notice thereof appeared in the Paper of Business, and he *moved*—That the Standing Order with respect to the reception of Deputations be, on the present occasion, suspended, and that the Deputation be now received.

The *motion* having been seconded by Mr. Williams, it was put to the vote, and declared by the Chairman to be carried; and it was *resolved* accordingly.

The Deputation was then introduced by Mr. Lenanton, and consisted of the following gentlemen, viz.—Mr. H. Green, M.P., Mr. S. Montague, M.P., Mr. J. Ford, Mr. G. Henwood, Mr. G. Dickie, Mr. B. Jones, Mr. G. Palmer, Mr. J. Yarham, Mr. W. Hutchens, Mr. H. Grigg, Mr. H. Pontin, Mr. J. C. Durant, M.P., Mr. W. Roberts, Mr. J. Bussey, Mr. J. Lash, Mr. C. H. Webb, Mr. Webber, Mr. Bower, Mr. Lincoln, Mr. Trickett, Mr. A. Sheffield, Mr. W. Ward, Mr. J. Green, Mr. H. Bray, Mr. R. Green, Mr. T. Longmore, Mr. T. Tucker, Mr. A. Carroway, Mr. T. Comley, Mr. J. Roberts, Mr. T. Sullivan, Mr. J. Kavanagh, Mr. E. Parsons, Mr. J. Steel, Mr. T. Griffiths, Mr. T. Bentley, Mr. J. Massey and Mr. J. Hawkes.

The Deputation handed in a Memorial, which was read, as follows—

To the Metropolitan Board of Works.

The Memorial of the undersigned ratepayers and residents in the Districts of Poplar and Greenwich,

HUMBLY SHEWETH—

That there are a large number of the unemployed workmen of the District who are anxiously seeking for employment; and that at a Public Meeting held on the 5th day of February, at the Town-hall, Poplar, it was resolved to apply to the Metropolitan Board of Works to put in hand at the earliest possible date the works which would be necessary to carry out the much needed, and often asked for, improved means of free vehicular as well as passenger communication from one side of the River to the other, from Poplar to Greenwich.

(Signed) HENRY GREEN,
And 8 others.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Lenanton, seconded by Mr. Cook, M.P., and *resolved*—That the Memorial be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

5. Mr. Bradfield handed in Memorials from residents in Finsbury-park-road, Gillespie-road, Blackstock-road, and Drayton-park, Islington, praying the Board to give

their consent to the proposed construction, by the North Metropolitan Tramways Company, of the Tramways in those roads.

It was ~~moved~~ by Mr. Bradfield, seconded, and ~~resolved~~—That the consideration of the Memorials be deferred until the Report of the Works and General Purposes Committee with respect to the Tramways to which they relate shall be brought up.

6. Mr. Cameron handed in a Letter, as follows—

The Board of Works for the Wandsworth District.

Battersea-rise, S.W.,
18th February, 1886.

DEAR SIR,—I am instructed by this Board to inform you that they have had under consideration the Metropolitan Board of Works (Keeping of Firewood) Bill, and that they concur in the Resolution passed by the Vestry of Rotherhithe on the subject disapproving of the Bill, believing that it will have the effect of curtailing the business of firewood merchants, and of driving the store-yards out of the Metropolis, thus depriving an exceedingly numerous and very poor, but deserving, class of people of their only means of livelihood, and causing them to become chargeable to the Parish.

Yours, &c.,
(Signed) HEN. GEO. HILLS,
Clerk.

J. E. Wakefield, Esq.,
Spring-gardens, S.W.

7. Mr. Hill handed in a Letter, as follows—

The Vestry of the Parish of Lambeth.

Vestry-hall, Kennington-green, S.E.,
18th February, 1886.

SIR,—At the Meeting of the Vestry to-night, the Vestry resolved to approve of a Resolution passed by the Vestry of Rotherhithe, opposing the Bill introduced by your Board on the subject of the keeping of Firewood within the limits of the Metropolis.

Yours, &c.,
(Signed) HENRY J. SMITH,
Clerk to the Vestry.

J. E. Wakefield, Esq.,
Spring-gardens.

8. Mr. Dresser Rogers handed in a Letter, as follows—

Vestry, St. Giles', Camberwell.
Vestry Clerk's Department,
Vestry-hall, Camberwell, S.E.
February 18th, 1886.

DEAR SIR,—I am directed by the Vestry to acquaint you that they have had under their consideration a Bill which has been introduced into the House of Commons by your Board "For the safe keeping of Firewood within the limits of the Metropolis."—A Deputation also attended the Vestry last night on the subject.

I send you on the other side a copy of the Resolution unanimously passed, urging your Board to withdraw the Bill.

I am, &c.,
(Signed) GEO. W. MARSDEN,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk to the Metropolitan Board of Works,
Spring-gardens.

RESOLVED—"That this Vestry are of opinion that the Bill relating to Firewood "stacks in the Metropolis introduced into Parliament by the Metropolitan Board "of Works, being inimical to the interests of the Working population of this "Parish, should be withdrawn."

19 *February*, 1886.

9. Mr. Wetenhall handed in a Letter, as follows—

Vestry of Saint Pancras.

General Business Department,
 Vestry-hall, Pancras-road,
 18th February, 1886.

STACKING OF FIREWOOD IN THE METROPOLIS.

SIR,—Referring to your Letter of the 15th ult., relative to the Bill proposed to be introduced into Parliament by your Board, regulating the stacking of firewood in the Metropolis, I am directed by the Vestry to forward you the accompanying copy of a Report made by their Chief Surveyor in reference to the proposed Bill, and also the enclosed copy of a Report upon the same subject by the Highways, Sewers and Public Works Committee.

The Report of the Chief Surveyor was approved by the Vestry at its Meeting yesterday, and the Report of the Committee adopted.

I am, &c.,
 (Signed) THOS. ECCLESTON GIBB,
 Vestry Clerk.
 The Clerk,
 Metropolitan Board of Works,
 Spring-gardens, S.W.

(Copy.)

To the Vestry of St. Pancras, Middlesex.

The Highways, Sewers and Public Works Committee met on Monday, the 8th of February, 1886, and

REPORT, —

1.—That in pursuance of reference by the Vestry of the 20th ultimo, your Committee have considered the Letter from the Metropolitan Board of Works, requesting that the Surveyor may be instructed to furnish information in reference to the existing stacks of Firewood in this Parish, with a view to the promotion of a Bill in Parliament to regulate the issue of Licenses for carrying on such business. Your Committee requested the Chief Surveyor to report on the matter, and to report on the provisions of the Bill. Your Committee present herewith the information desired, in order that the Vestry may, if they see fit, furnish the same to the Metropolitan Board of Works, but your Committee recommend that the Bill be opposed in Parliament, as no sufficient evidence of its necessity has been adduced, and also because your Committee are of opinion that its restrictive conditions would seriously hamper a trade which provides employment in this country for many thousands of the poorer classes, and the proposed legislation would probably result in inflicting a permanent injury to that industry.

* * * * *
 All which, &c.

(Signed) T. W. BEAVES,
 Chairman.

10. Mr. White handed in a Letter, as follows—

The Board of Works for the Westminster District.

Town Hall, Westminster, S.W.,
 18th February, 1886.

METROPOLITAN BOARD OF WORKS (STORAGE OF FIREWOOD) BILL.

DEAR SIR,—This Board have under consideration the above-named Bill, together with representations made in opposition thereto. They have caused the whole question to be considered by their Parliamentary Committee, and have upon their recommendation resolved to petition in favour of the Bill. They have directed me, in transmitting the enclosed copy of their Petition, to suggest to the Metropolitan Board of Works the desirability of making such provision in the Bill as will protect, as far as possible consistent with the public safety, the interests of the firewood industry in the Metropolis.

I am, &c.,
 (Signed) J. E. SMITH,
 Clerk to the Board.
 The Clerk of
 The Metropolitan Board of Works,
 Spring-gardens, S.W.

11. Mr. Harben handed in a Letter, as follows—

Vestry of the Parish of St. John, Hampstead.

Vestry-hall, Hampstead, N.W.,

18th February, 1886.

DEAR SIR,—Adverting to your Letter of the 30th ultimo, on the subject of the planting of trees on Hampstead-heath at the side of West-heath-road, I am desired by the Tree Committee of the Vestry to state that they would be glad of an early interview with the Parks and Open Spaces Committee, inasmuch as the planting season will soon be at an end.

The Lord of the Manor has agreed to plant one side of the road, and the Tree Committee hope to obtain a grant of the funds at the disposal of the Metropolitan Public Gardens Association to defray the cost of labour, having regard to their recent offer to assist the unemployed in this manner.

Yours, &c.,
(Signed) THOS. BRIDGER,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk of the Metropolitan Board of Works.

It was *moved* by Mr. Harben, seconded, and *resolved*—That the Letter be referred to the Parks, Commons and Open Spaces Committee, for consideration, with authority to receive the proposed Deputation.

12. Mr. Cameron handed in a Letter, as follows—

The Board of Works for the Wandsworth District.

Battersea-rise, S.W.,

18th February, 1886.

DEAR SIR,—Referring to your Letter of the 19th ult., relative to the approaches to the new Putney Bridge, I am instructed by this Board to inform you that they much regret that the Metropolitan Board of Works cannot at present adopt the suggestion to widen the Western approach to the full width of 50 feet opposite the mouth of the draw dock, and to call the special attention of the Metropolitan Board to the fact that congestion of traffic must ensue if the road be not widened at this point, and to point out that additional danger will be caused by the footpath being on one side only. The Board trust that the Metropolitan Board of Works will be good enough to take an early opportunity of re-considering the matter.

Yours, &c.
(Signed) HEN. GEO. HILLS,
Clerk.

J. E. Wakefield, Esq.,
Spring-gardens, S.W.

It was *moved* by Mr. Cameron, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration and report.

13. Mr. Richardson handed in a Letter, as follows—

Board of Works for the Greenwich District.

141, Greenwich-road, Greenwich, S.E.,

18th February, 1886.

SOUTHWARK AND DEPTFORD TRAMWAYS.

SIR,—This Board, understanding that the Works and General Purposes Committee of the Metropolitan Board of Works will have this Bill under their consideration on Monday next, direct me to request that the Committee will receive a Deputation from this Board in favour of the Bill.

Yours, &c.,
(Signed) J. SPENCER,
Clerk of the Board.

The Clerk of the
Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Richardson, seconded, and *resolved*—That the request be acceded to, and that the Works and General Purposes Committee be authorised to receive the proposed Deputation on Monday next.

19 February, 1886.

tt handed in a Letter, as follows—

Board of Works for the Limehouse District.

Office, White Horse-street, Commercial-road, E,
18th February, 1886.

GENTLEMEN,—Referring to the circular sent to the Board of Works for the Limehouse District, asking for information with regard to the larger stacks of Firewood in this District and the nearness of such stacks to adjacent dwelling houses or other buildings, I am directed to inform you that the District Board have received a Report from their Surveyor upon the subject, which has been fully considered, and I am to forward to the Metropolitan Board of Works the following information, viz. —

Two places in this District are used for the stacking of Firewood and making it up into bundles and other articles. One, belonging to Dr. Barnardo, is situate on the South side of the Commercial-road, Limehouse, adjoining the Blackwall Railway and the Limehouse Curve Railway. The premises comprise a large yard, on part of which are two large stacks of Firewood, and on the other part workshops for the boys working at the trade. The stacks are built solid, and are reduced from the top. The other Firewood manufactory is situate in the rear of Nos. 6 and 8, Dakin-street, Limehouse, near White Horse-street. This is a small stack, but contains within it, on the level of the ground, workshops formed in the stack, which are used by the people engaged in the work. The stack is very close to the adjoining buildings, which are dwelling houses, being only some 5 feet or 6 feet from the same.

The District Board have carefully considered the Bill promoted by the Metropolitan Board of Works to regulate the keeping of firewood within the Metropolis, and from information they have received, they are of opinion that the Metropolitan Board will have great difficulty in proving the preamble of the Bill. They, however, venture to suggest to the Metropolitan Board that the objects of the Bill should be confined to requiring the stacks of firewood in all cases to be built and kept solid without cavities therein, as there seem to have been scarcely any accidents by fire for many years, except where offices, workshops, stables, and other cavities have been formed in the stacks, which render them very dangerous in case of fire.

I am, &c.,
(Signed) THOs. W. RATCLIFF,
Clerk of the Board.

To the Metropolitan Board of Works,
Spring-gardens, S.W.

It was moved by Mr. Abbott, seconded, and resolved—That the Letter be received.

15. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 15th February, 1886.

Your Committee have to report that, under the authority conferred upon them by the Board, they have drawn Cheques for the following amounts—

Gross proceeds of sale	396	9	-
Commission, £7 10s. per cent.	29	14	9
Amount received by Board—			
16th October, 1885, and 27th January and 1st February, 1886	366	14	3

Your Committee have further to report that they have drawn Cheques as follows—

Messrs. Clutton—*Re* Ecclesiastical Commissioners—

Surveyors' Fees in respect of Enfranchisement of Copyholds—

Streets (Act of 1872), Harrow-road	£36	5	0
Streets (Act of 1877), Kentish-town-road	103	19	0

In pursuance of the several references made to them by the Board during the past and present months, your Committee have had under consideration the Memorials and Letters addressed to the Board on the subject of the Bill promoted by them in the present Session of Parliament for the safe keeping of Firewood in the Metropolis. Under the authority given to them, your Committee have received representatives from some of the Deputations which presented those Memorials to the Board, and have heard their statements in opposition to the provisions of the Bill. Your Committee have had the subject under discussion on three occasions, and have devoted considerable time and attention to it, and, as the result of their deliberations, they have arrived at the conclusion that, under all circumstances, it is unadvisable for the Board to proceed further with the present Bill. They beg, therefore, to recommend—

That the Bill be withdrawn.

Your Committee, on the 12th instant, reported on some of the Schemes for new Tramways, with respect to which Bills have been deposited for introduction into Parliament, or applications made to the Board of Trade for Provisional Orders. In continuation of that Report, your Committee have now to submit the following further recommendations—

That upon the Promoters of the Cricklewood, Kilburn, and Harrow-road Tramways Bill giving an undertaking to omit from the Bill the power to form such of the proposed Tramways as are not within the Parishes of Kensington, Chelsea, and Paddington, to agree to the insertion of Clauses providing that the Tramway in Harrow-road shall not be carried further South than the Lock Bridge, and that none of the rails of the Tramways shall be at a less distance than 9 feet 6 inches from the kerb of the foot-way, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

That the consent of the Board be not given to the introduction into Parliament of the North London Tramways Bill.

That on the Promoters of the North Metropolitan Tramways (No. 2) Bill giving an undertaking to omit from the Bill the power to form the Tramways Nos. 7 and 7A (at Holloway), and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

Your Committee have considered the Letter, referred to them on the 5th instant (No. 41), from Messrs. Hewes, Hewes and Geary, calling attention to Hewes' patent for utilising all waste, refuse, and sewage. The writers state that they are able to produce an effective precipitant, entirely doing away with the use of lime, the process being simply carbonisation, and they ask to be allowed to put up apparatus at the Board's works free of charge, the Board providing room, labour and firing, and agreeing to take up the system in the event of its proving successful. Messrs. Hewes and Co. also offer to attend, or furnish further information. Your Committee having given due consideration to the Letter, and having conferred with your Chemist, they do not think that the process is a suitable one, and they, therefore, recommend—

That a Letter be addressed to Messrs. Hewes and Co., thanking them for their communication.

Your Committee desire to draw the attention of the Board to proceedings which have recently been taken against the Board by the St. Giles' District Board, in respect of the condition of the premises, No. 13, Denmark-street, Soho, possession of which was acquired by the Board on the 28th January last for the purposes of the new street from Charing-cross to Tottenham-court-road. It appears, from the facts reported to your Committee, that, on the 6th instant, a Notice under the Nuisances Removal Act was served by the District Board, requiring this Board, as Owner of the house to execute certain works, or to close the premises. On the 12th instant, without further enquiry on the part of the District Board, a Summons was issued, returnable on the following day at 12 o'clock. Your Solicitor accordingly gave instructions to one of his Assistants to attend at the Police-court, with an

Assistant from your Superintending Architect's Department. It was explained to the Magistrate that the house was about to be demolished for the purpose of the Street Improvement, and that the reason why it had not been cleared was that the only occupiers remaining were a man and his wife who were said to be quite destitute, and that the Board did not like to turn them out immediately, but that arrangements had been made for their removal on the 15th instant, when the house would be closed. The lower part of the premises had been already closed. Your Solicitor states that the Clerk to the District Board pressed the Summons with a good deal of feeling, and urged the Magistrate not only to make an Order but to grant costs, which the Magistrate stated he must, under the circumstances, allow, and awarded 14s. 6d. It should be mentioned that an allegation was made that the Board had cut off the water supply, but your Committee are informed that such was not the fact, as the water had been cut off before the Board entered into possession. It appears to your Committee that, under such circumstances as are above detailed, the District Board might reasonably have exercised some forbearance, as although this Board take every care to get the tenants removed, in order that the property may be demolished, it sometimes happens that, without any neglect on the part of the Board, that cannot be accomplished without some delay. Taking all the circumstances into consideration, your Committee feel it their duty to report the matter for the information of the Board.

All which your Committee beg to submit.

(Signed)

J. M^CGAREL-HOGG,
FRANCIS H. FOWLER,
W. R. SELWAY,
JOHN RUNTZ,
A. EWIN,
P. W. FUNNELL,
GEO. EDWARDS,
GEORGE HILL,
WM. SHEPHERD.

The marked Catalogue and Account of sale of building materials in Southwark-bridge-road, Peter-street, King-street, Mint-street, &c., Southwark-bridge-road, submitted with the Report, and the Memorials with reference to the keeping of Firewood Bill and the North London Tramways Bill, presented this day, were laid before the Board.

The Report having been read and received,

It was moved by Mr. Fowler, seconded, and resolved—That Cheques, as follows, be now drawn by the Board on the General Working Account, and that future costs on old Improvements be also charged on that Account—

	£	s.	d.	£	s.	d.
<i>e</i> Stainton (Covent-garden Approach)—(507)—						
Walker, E. L.—						
6177 Cost of approval for payment of Dividends on						
investment in the Funds	12	10	0			
<i>Re</i> Bridewell Hospital (Queen Victoria-street)—(508)—						
Still and Son—						
6178 Costs of application for investment in Land ...	267	8	8			
					279	18 8

And Cheques were drawn accordingly.

It was moved by Mr. Tolhurst, and seconded by Mr. Harben—That so much of the Report as relates to the Memorials and Letters on the subject of the Bill promoted by the Board for the keeping of Firewood in the Metropolis be approved, and that the Bill be withdrawn.

After discussion, the motion was put to the vote, when there were for it 32, against it 6, and it was declared by the Chairman to be carried.

A Division having been demanded and granted, the names of the Members voting were taken down, when there were—

For the Motion—33.

Abbott, J., Esq.	Hill, G., Esq.
Andrews, W., Esq.	Hughes, Lieut.-
Boutcher, W., Esq.	Col., M.P.
Bradfield, J. E.,	Ingoldby, F., Esq.
Esq.	Jolly, J. R., Esq.
Cameron, A., Esq.	Lenanton, J., Esq.
Cook, E. R., Esq.,	Mossop, C., Esq.
M.P.	Reddish, J., Esq.
Cox, F., Esq.	Rogers, E. Dresser,
Debenham, W.,	Esq.

SAY, Esq.	Esq.	JOHN EDWIN BRADFIELD,
		Esq.

1. The Clerk laid before the Board the Requisition convening the Meeting, as follows—

TO THE CLERK OF THE METROPOLITAN BOARD OF WORKS.

Spring-gardens, 12th February, 1886.

We hereby require you to convene a Special Meeting of the Metropolitan Board of Works, to be holden at the Office of the Board, Spring-gardens, on Friday next, the 19th day of February, 1886, at a quarter before One o'clock p.m., for the transaction of the following business, viz.—

TO CONSIDER NOTICE GIVEN BY COLONEL HUGHES, M.P., ON THE 12TH INSTANT—(No. 1,491)—

That he will move—

That the provision of the Fire Brigade Expenses Bill for an increase of the Fire Insurance Companies' contributions be withdrawn from the Bill when the proper time arrives for such withdrawal, and that the Resolutions of the Board of 17th July, 30th October, and 11th December, 1885, be altered accordingly.

(Signed) EDWIN HUGHES,
FRED^K. INGOLDBY,
GEORGE PHILLIPS,
JOHN REDDISH,
AND. MIDDLEMASS.

2. It was *moved* by Lieut.-Col. Hughes, M.P., seconded, and *resolved*—That the consideration of the subject be deferred until Friday next, at a quarter before One o'clock p.m.

Adjourned accordingly.

At a Meeting of the Metropolitan Board of Works, held by adjournment, at the Office of the Board, Spring-gardens, on **Friday**, the **19th** day of **February**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. MCGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, ESQ., the Deputy-Chairman of the Board.

JOHN JONES, ESQ.	WILLIAM DEBENHAM, ESQ.	WILLIAM SHEPHERD, ESQ.
JAMES EBENEZER SAUNDERS, ESQ., DEPUTY.	CHARLES MOSSOP, ESQ.	WILLIAM ROBSON, ESQ.
LIEUT.-COL. HUGHES, M.P.	EDWARD DRESSER ROGERS, ESQ.	JOHN REDDISH, ESQ.
CHARLES HARRIS, ESQ.	JOHN ROBERT JOLLY, ESQ.	ROBERT GRANT WEBSTER, ESQ.
FREDERICK INGOLDBY, ESQ., F.R.C.S., Eng.	GEORGE EDWARDS, ESQ.	GEORGE HILL, ESQ.
ALFRED EWIN, ESQ.	EDWARD RIDER COOK, ESQ., M.P.	PETER WILLIAM FUNNELL, ESQ.
THOMAS GEORGE FARDELL,	THEOPHILUS WILLIAM WIL- LIAMS, ESQ.	GEORGE BROWN, ESQ.
WILLIAM URQUHART, ESQ.	WILLIAM HENRY HEWITT ESQ.	WILLIAM ROBBINS SELWAY, ESQ.
WILLIAM BOUTCHER, ESQ.	FREDERICK COX, ESQ.	JOHN TOLHURST, ESQ.
WILLIAM ALEXANDER LIND- SAY, ESQ.		JOHN EDWIN BRADFIELD, ESQ.
WILLIAM JAMES WETEN- HALL, ESQ.		SAMUEL PRICE, ESQ.

1. The Board resumed the consideration of the Report of the Works and General Purposes Committee presented this day.

It was **moved** by Mr. Fowler, and seconded—That, upon the Promoters of the Cricklewood, Kilburn, and Harrow-road Tramways Bill giving an undertaking to omit from the Bill the power to form such of the proposed Tramways as are not within the Parishes of Kensington, Chelsea, and Paddington, to agree to the insertion of Clauses providing that the Tramway in Harrow-road shall not be carried further South than the Lock Bridge, and that none of the rails of the Tramways shall be at a less distance than 9 feet 6 inches from the kerb of the foot-way, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

An **amendment** thereon was **moved** by Mr. Fardell, and seconded by Mr. Urquhart—

That, upon the Promoters of the Cricklewood, Kilburn, and Harrow-road Tramways Bill, giving an undertaking to omit from the Bill the power to form a Tramway from Cricklewood to the boundary of the Parish of Paddington at Cambridge-road, and to agree to the insertion of Clauses providing that the Tramway in Harrow-road shall not be carried further South than the Lock Bridge, and that none of the rails of the Tramways shall be at a less distance than 9 feet 6 inches from the kerb of the foot-way, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

After discussion the **amendment** was, by leave of the Board, withdrawn.

A further **amendment** was then **moved** by Mr. Lindsay, and seconded by Mr. Edwards—That the subject be referred back to the Committee for further consideration and report.

The amendment having been put to the vote, it was declared by the Chairman to be carried, and having been put as an **original motion**, it was also carried; and it was **resolved** accordingly.

Mr. Robson handed in a Memorial from Mr. M. Bosher, and other residents in Amwell-street, Clerkenwell, against the proposal of the North London Tramways Company to construct a Tramway in that street.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the consent of the Board be not given to the introduction into Parliament of the North London Tramways Bill.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That, on the Promoters of the North Metropolitan Tramways (No. 2) Bill giving an undertaking to omit from the Bill the power to form the Tramways Nos. 7 and 7A (at Holloway), and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That a Letter be addressed to Messrs. Hewes, Hewes and Geary, thanking them for their communication relative to Hewes' Patent for utilising Sewage, &c.

2. Mr. Hill, the Chairman of the Fire Brigade Committee, brought up a Report, as follows—

REPORT OF THE FIRE BRIGADE COMMITTEE.

Spring-gardens, 16th February, 1886.

Your Committee have considered the Letter from the Vestry of Streatham, referred on the 5th instant (No. 50), asking the Board to place a Fire-escape near the Parish Church for the protection of the inhabitants in case of fire. Your Committee are unable to say that there is no need for additional protection in case of fire in the Parish of Streatham, but, so long as the Board's expenditure on the Fire Brigade is in excess of the income allotted by Parliament for the purpose, they are unable to recommend the Board to establish any more Fire Engine or Fire Escape Stations. It appears to them that the answer to the application of the Vestry of Streatham must be in similar terms to those addressed to the local authorities and inhabitants of other parts of London who have made applications of the same kind. They accordingly recommend—

That the Vestry of Streatham be informed that the Board has a Bill now before Parliament to provide for increased funds for the Fire Brigade, and that until the funds for that purpose have been increased, the Board cannot add to the number of Fire Escape Stations.

Your Committee have again considered the question of the desirability of obtaining three new Fire Engines in the place of ten old manual Engines which are no longer fit for use by the Brigade. When your Committee submitted a recommendation to that effect on the 5th instant, a discussion took place at the Board, and several questions were raised which your Committee will now answer. One question was whether three Steam Engines would be an adequate substitution for ten hand-power Engines, and upon this point your Committee may state that, according to the Chief Officer, the pumping power of three Steamers would be somewhat above that of ten hand-worked Engines, and that, in present circumstances, the Brigade would be stronger with three new steamers. It is the practice to have at least one Manual Engine at every Fire Brigade Station, and the present proposal would not interfere with that arrangement. Another question raised was whether the old Engines to be given up had lasted as long as the period for which the Board borrows money for new Engines, namely 15 years. The Engines were made in the years 1866, 1867, 1868, 1869, and 1874, therefore, with one exception, they have lasted considerably longer than 15 years, and it is a perfectly correct financial measure to do what the Standing Order of the Board directs, namely, charge the cost of them to the Capital Account of the Fire Brigade. An opinion was also expressed that the Board should know what the cost of the new Engines would be, and this, your Committee are now able to state, inasmuch as they have obtained

Tenders from the only two Steam Fire Engine makers. Messrs. Shand, Mason and Company offer to make three new Steam Engines for £1,110 and to allow £200 for the ten old Manual Engines, leaving a balance of £910 to be paid by the Board. Messrs. Merryweather and Sons state that their price for the three new Steamers is £1,107, and that they will allow £198 for the old Manuals, leaving a balance of £909. It will thus be seen that the net cost to the Board, if Messrs. Merryweather and Sons' offer were accepted, would be £1 less than that of their competitors. Your Committee have, however, ascertained from the Chief Officer that, in his opinion Messrs. Shand, Mason and Company's Engines are rather more suitable for the Fire Brigade work than those of Messrs. Merryweather, and in view of this opinion, and of the very trifling difference between the offers of the two makers, your Committee recommend—

That the offer of Messrs. Shand, Mason and Co. be accepted.

Your Committee have had under consideration the necessity for providing larger and more substantial buildings for the Brigade at the Woolwich Station. The present building, which stands on the Board's freehold ground in Sun-street, was erected in 1868 at a cost of £715. The building is only large enough to house the Officer in charge of the Station, the four other men having to be lodged outside. It was originally the practice of the Board to make the buildings at the outlying Stations only large enough for the residence of one married man, but for many years past this original arrangement has been superseded, and the buildings have been large enough to accommodate all the men attached to the Station. As the building at Woolwich is in a very weak condition, your Committee have thought it expedient that a new building of sufficient size should be now erected, and they submit the Drawings which they have had prepared, and recommend—

That the Drawings be approved, and that the Committee be authorised to take all necessary steps for the erection of the new building.

On the 5th instant W. R. Devine, a First-class Fireman, was discharged from the service in consequence of his having become incapacitated by the loss of two fingers of his left hand, owing to their having come in contact with the machinery on board one of the Floating Engines while working at a fire. The Board ordered that Devine should receive the Pension of 13s. 8d. a week to which his 20 years' service entitled him, and that he should receive a further allowance of 6s. 4d. a week, so as to bring up his total allowance to £1 a week, until the Parks Committee should have reported whether he could be properly employed as a Common-keeper. The Parks Committee reported at the last meeting of the Board that he was not physically fit for such employment, and your Committee now think that Devine's allowance of £1 a week should continue during the pleasure of the Board. They recommend accordingly.

Your Committee have to report that Fourth-class Fireman Henry J. Thurston has withdrawn from the service, and that his name has accordingly been removed from the list of Firemen.

Your Committee have further to submit the following recommendations—

That Second-class Fireman George B. Gardner be promoted to the First Class; Third-class Fireman Samuel J. Pipe to the Second Class; and Fourth Class Fireman William H. Ryan to the Third Class.

That Alfred H. West, John Davis, John Baldwin, Harry Hakins, Thomas J. Smart, James W. Eynon, and Arthur W. J. Lusty be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

All which your Committee beg to submit.

(Signed) GEORGE HILL,
GEO. EDWARDS,
W. R. SELWAY,
W. J. WETENHALL,
ROBT. JONES.

The Drawings submitted with the Report were laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Hill, seconded, and *resolved*—That the Vestry of Streatham be informed that the Board have a Bill now before Parliament to provide for increased funds for the Fire Brigade, and that until the funds for that purpose shall have been increased, the Board cannot add to the number of Fire Escape Stations.

It was *moved* by Mr. Hill, seconded, and *resolved*—That the offer of Messrs. Shand, Mason, and Co. to supply three new Steam Fire-engines for the sum of £1,110, and to allow £200 for ten old Manual Engines which are no longer fit for use by the Fire Brigade, be accepted.

It was *moved* by Mr. Hill, seconded, and *resolved*—That the Drawings now submitted of the new building for the Fire Brigade at Woolwich be approved, and that the Committee be authorised to obtain Tenders and to make all other necessary arrangements for the erection of the building.

It was *moved* by Mr. Hill, seconded, and *resolved*—That the allowance of £1 a week to W. R. Devine, a First-class Fireman, who received his discharge on the 5th instant in consequence of an injury to his hand, do continue during the pleasure of the Board.

It was *moved* by Mr. Hill, seconded, and *resolved*—That the following promotions be made, viz.—Second-class Fireman George B. Gardner to the First Class; Third-class Fireman Samuel J. Pipe to the Second Class; and Fourth-class Fireman William H. Ryan to the Third Class.

It was *moved* by Mr. Hill, seconded, and *resolved*—That Alfred H. West, John Davis, John Baldwin, Harry Hakens, Thomas J. Smart, James W. Eynon, and Arthur W. J. Lusty, be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

3. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 16th February, 1886.

Your Committee have to report that they have had under consideration the question of the further steps it is desirable to take with respect to the Grand Theatre, in High-street, Islington. The Board granted a Certificate under the Act of 1878 for the Theatre upon the completion of its re-construction in August, 1883, but having regard to certain alterations which have since been made in its internal arrangements, it appears desirable that the Board should frame Regulations of the usual nature for improving the facilities of exit for the public. Your Committee therefore recommend—

That a Notice, under the 45th Section of the Board's Various Powers Act, 1882, containing the following requirements, be prepared by the Solicitor, and that it be sealed in duplicate, and be served upon the person by whom the Grand Theatre, in High-street, Islington, is kept open for public entertainment—

- 1.—That the present bolts and fastenings be removed from the exit doors, and that each of such exit doors be fastened by a single bolt shot by a handle fixed at a height of 3 feet from the floor, such bolt to be fixed on the side of the door next the auditorium, and to be of a pattern to be approved by the Board.
- 2.—That an inscription be painted in white letters, not less than 2 inches high, upon a black ground, upon each of the exit doors on the side next the auditorium, stating that such door may be opened in case of emergency by turning the handle, and also indicating where the exit leads and the direction to be taken to reach the street.
- 3.—That notices be painted upon the walls of the corridors in white letters, not less than 2 inches high, upon a black ground, with index hands to show the way out.

4.—That the projecting box office in the stall corridor be removed half an hour before the commencement of every performance.

5.—That a sufficient number of oil lamps, protected by iron wire guards, be provided in the corridors and on the landings of the staircases to light the same in the event of the gas becoming extinguished, and that such lamps be kept burning during the whole time of every performance.

And your Committee further recommend—

That the Superintending Architect be instructed to report, from time to time, whether the requirements of the Notice are duly complied with.

Your Committee, in connection with the foregoing subject, consider it advisable to report for the information of the Board the nature of the alterations which have been made at the Grand Theatre, in pursuance of the Notice served by the Board upon the Owner, under the provisions of the Act of 1878. The Notice, which was dated 7th February, 1885, required that the opening between the crush-room at the foot of the principal staircase and the manager's room on the North side of the Theatre should be stopped up, and that the projecting portion of the pay box in the passage leading to the stalls should be removed. It appears from a recent survey made by your Superintending Architect that the opening has been fitted with an iron door, and that the projecting pay-box has been arranged so as to fold back against the wall of the passage when the public are admitted in the evening. The pay-box is used as a booking office during the day, and your Committee see no objection to its retention for that purpose, provided the projecting portion of the structure be entirely cleared away on the occasion of each performance, before the admission of the audience. The carrying out of that arrangement will be secured by the 4th requirement of the Notice which it is proposed that the Board should serve under the provisions of their Various Powers Act of 1882. Your Committee are of opinion that the works which have been executed will secure the reasonable safety of the public, and they therefore recommend—

That those works be accepted as a compliance with the Board's Notice under the Act of 1878.

Your Committee have also to report that they have proceeded upon the Resolution of the Board of the 11th December last (No. 6), authorising them to confer through their Sub-Committee with the Owner of the Loyal United Friends' Hall, No. 72, Banner-street, St. Luke's, upon the question of the structural defects of the building. The Board's draft Notice, containing Six Requisitions for remedying such defects, was transmitted to the Owner on the 23rd December, 1885, and on the 12th ultimo the Secretary of the Loyal United Friends' Society attended your Committee as the representative of the Trustees of the building, and submitted for consideration certain observations upon the Board's requirements. Three of the Requisitions, namely the First, Fifth and Sixth, were objected to, as being either impracticable or unnecessary, and the remaining three related to works which your Committee inferred had already been executed, or would shortly receive attention. It appears, however, from a recent survey made by your Superintending Architect that no alterations have been effected at the building for the purpose of complying with the Board's Requisitions, which deal with those defects, and that still require attention in the interest of the public safety. Your Committee are therefore of opinion that a sealed Notice, containing the following Requisitions, being the same as those contained in the draft Notice, should be served upon the Owners—

1.—That the entrance Hall, next Banner-street, be enlarged by setting back the partition between such Hall and the Secretary's room to the line of the partition enclosing the ladies'-room at the rear.

2.—That the first floor of the warehouse fronting upon Roscoe-street, which extends over a portion of the Hall, be formed of fire-resisting materials to be approved by the District Surveyor.

3.—That the iron stove and the iron pipe flue to the same be removed, and that the stove be refixed, and a space of 18 inches formed around the same of,

materials of an incombustible and non-conducting nature, as required by the Metropolitan Building Act, 1855, Section 21, Sub-Sec. 2, and that a proper brick flue be provided to such stove.

4.—That the skylight and sashes of the lantern light, and the skylight to the ladies' room, be protected by galvanised iron wire guards fixed on the outside.

5.—That the windows out of the North side of the warehouse next Roscoe-street, overlooking the Hall, be protected by wrought-iron hoppers, placed at an angle of 60 degrees with the horizon, and extending over the whole surface of such windows.

6.—That the entrance door-way, next Banner-street, be increased in width to 6 feet; that the door-way on the East side of the Hall opening into the cart-way out of Roscoe-street, be increased in width to 4 feet 6 inches; and that all doors used by the public, and the gates to the cart-way out of Roscoe-street, be made to open outwards.

Your Committee recommend—

That a Notice, embodying the above requirements, and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same; and that, upon the receipt of such consent, the Notice be sealed, and be served by the Solicitor upon the Owners of the Hall.

Your Committee have had under consideration the application of Mr. A. Brandreth, on behalf of Mr. G. Ginnett, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of the proposed North London Colosseum and National Hippodrome, on a site between Mayfield-street and Roseberry-place, Dalston-lane, as shown upon the amended Drawings accompanying the application, referred by the Board on the 11th December last (No. 57). The previous set of Drawings submitted by the applicant for the Circus, which will accommodate more than 1,000 persons, did not comply in several points with the Board's regulations, and consequently did not receive their approval. The amended Drawings which were submitted on the 3rd December last, although an improvement upon those originally sent in, appeared to your Committee to require amendment in several particulars which were pointed out to the applicant. The suggestions had reference to the construction of the staircases, the provision of proper handrails, the protection of the skylights, and the rendering of the doors available for the speedy exit of the public. Two further Drawings have since been received, showing the manner in which the applicant proposes to meet the views of your Committee. The staircases will be constructed in accordance with the Board's Regulations, the skylights will be protected by wire netting, and all the doors will be hung in two folds, and be made to open outwards. The reasonable safety of the public will, in the opinion of your Committee, be secured by those further alterations of the original design, and they therefore recommend—

That the application be granted; that the Drawings submitted by the applicant on the 3rd December, 1885, and the 19th January, 1886, be approved; and that the Certificate be issued upon the completion of the building in accordance with the approved Drawings to the satisfaction of the Board.

Your Committee have considered the application of Mr. W. Emden, on behalf of Messrs. Webb and Wilmot, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed new Theatre on the site of the "Occidental" Tavern, in Savoy-buildings (formerly Fountain-court), Strand, and the site of No. 106, Strand, as shown upon the amended Drawings accompanying the application, referred by the Board on the 15th ultimo (No. 58). The amended Drawings are six in number, and with the exception of

the position of the dressing-rooms (which it is now intended to place at the rear of the stage, with the floor of the lowest room about 20 feet below the level of the pavement in Savoy-buildings), do not materially differ from those which the Board on the 23rd December last (No. 7) declined to approve. Your Committee are of opinion that the amended Drawings are not such as should receive the approval of the Board, and they therefore recommend—

That the application be not granted.

Your Committee have also carefully considered the question of the present arrangements for the egress of the public from, and the prevention of fire in, the “Horse Shoe” Music-hall, No. 26, Clerkenwell-close, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878. This is a small Music-hall, 37 feet long by about 26 feet wide, situated on the first floor of a Public-house. At the Southern end of the Hall, and separated from it by a movable partition, is a Club-room about 26 feet long and 14 feet 6 inches wide. The superficial area of the Hall is 999 feet, and that of the Club-room 377 feet, and the total number of persons that can be accommodated is about one hundred and fifty. The Hall is approached by a stone staircase 3 feet wide, which is reached by passing through a portion of the Public-house bar. The Club-room is approached by a steep iron staircase, 2 feet 6 inches wide, starting from one of the compartments of the Public-house bar. The bedrooms on the second floor of the Public-house extend over the Hall, but not over the Club-room. Having considered the Report and Drawings prepared by your Superintending Architect, your Committee are of opinion that the following alterations, of a structural character, are necessary to remedy the existing defects in the building—

1.—That a new entrance lobby, 11 feet long, and 9 feet 6 inches wide, be formed to the Music-hall, on the site of a portion of the yard and the dust-bin and urinal at the rear of the premises, and that such entrance lobby be separated from the Public-house by brick walls, not less than 14 inches thick, without openings.

2.—That the present staircase to the Hall be pulled down, and that a new staircase be constructed in its place; that such new staircase do have solid “square” (as distinguished from “spandril”) steps of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet wide in the clear, in flights of not more than twelve steps, with the necessary intermediate landings; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings; that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board; and that no opening be formed in the walls enclosing such staircase and the Public-house.

3.—That the floors of the Music-hall, and of the Club-room adjoining, be rendered fire-resisting in a manner to be approved by the Board.

4.—That the floors of the rooms on the second floor of the Public-house be rendered fire-resisting in a manner to be approved by the Board.

5.—That the iron staircase to the Club-room be removed, and the flooring of the Music-hall made good with fire-resisting materials.

6.—That the central gangway between the ends of the seats on the South side of the Music-hall be increased in width to 3 feet.

7.—That the windows of the Club-room and Music-hall be protected by wrought-iron bars, $\frac{3}{4}$ of an inch in diameter, to a height of 6 feet from the floor.

8.—That stout handrails be fixed on both sides of the staircase to the Music-hall.

9.—That all door-ways used by the public be increased in width to 4 feet 6 inches ; and that the doors be hung in two folds, and be made to open outwards.

Your Committee recommend—

That a Draft Notice, embodying the above requirements, be prepared by the Solicitor ; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon ; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and to report further to the Board on the subject.

Your Committee have further to report that they have considered the joint application of Mr. T. Verity and Mr. S. Chadwick, on behalf of Mr. J. C. Humphreys, for approval by the Board of certain modifications in the Drawings for the re-construction of Humphreys' Hall, at Albert-gate, Knightsbridge, and the adaptation of portions of the Sun Music-hall adjoining, in connection therewith, as shown upon the Drawings accompanying the application, referred by the Board on the 22nd ultimo (No. 74). The modifications proposed by the applicants were of a trifling character, and had reference to the completion of the exit at the North-West angle of the Hall, the removal of the wall between Phoenix-place and Caroline-place, the completion of the exit from the Sun Music-hall into Knightsbridge High-road, and the formation of two additional door-ways between Humphreys' hall and the lobbies to the restaurant in the basement of Humphreys Mansion. The absence of any adequate means of exit from this restaurant constituted one of the most objectionable features of the internal arrangements of the building, and it was in consequence of the Board's proceedings at the Police-court, that Messrs. Spiers and Pond closed the room. After making a careful inspection of the premises, the Theatres and Music-halls Sub-Committee came to the conclusion that the only means of effectually securing the reasonable safety of the public would be to provide an independent exit from the restaurant leading directly into the street. Your Committee have carefully considered the various Drawings submitted by the applicants for the purpose of giving effect to that view, and they are of opinion that the one accompanying Mr. Verity's Letter of the 16th February, 1886, and which has been identified by the signature of their Chairman, may receive the sanction of the Board. It shows a new stone staircase, 4 feet 6 inches wide, constructed in accordance with the Board's Regulations, starting nearly in the middle of the restaurant, and terminating on the East side of the entrance to Humphreys Mansion. The Board in August last agreed to grant their Certificate upon certain conditions framed in the interest of the public safety, and your Committee are of opinion that upon the completion of the additional exit now proposed, the Certificate may be issued to the Licensee of the Hall. Your Committee therefore recommend—

That the consent of the Board be given to the construction of a new stone staircase, 4 feet 6 inches wide, leading directly from the restaurant in the basement of Humphreys Mansion into High-road, Knightsbridge, as shown upon the Drawing signed by the Chairman of the Committee ; that the Certificate of the Board be not issued until the completion of the staircase to their satisfaction ; and that the Certificate, when issued, be subject to the due observance of the conditions specified by the Board in their Resolution of the 7th August last (No. 14).

Your Committee beg to submit herewith two Reports which they have received from your Superintending Architect, specifying certain works which it is necessary should be carried out under Magistrates' Orders at the premises therein mentioned, the same being Dangerous Structures, and they recommend—

That the Contractors, Messrs. Brass and Son, be instructed to execute the works ordered by the Magistrates to be done at the following premises, the same being Dangerous Structures, viz.—

No. 102, Bunhill-row, St. Luke's.

„ 46, Great College-street, St. Pancras.

Your Committee have received a Report from your Superintending Architect, from which it appears that the premises, No. 30, Wolverley-street, Bethnal-green, were certified to be in a dangerous condition on the 3rd December last. A Summons was taken out on the 31st December, and an Order was made on the 13th January by the Magistrate at the Worship-street Police-court, which has not yet been complied with. The matter being urgent, your Superintending Architect instructed the Contractors to take down certain portions of the building, and your Committee report the facts for the information of the Board, and recommend—

That the course taken be approved.

Your Committee have had under consideration a Letter from Mr. A. Bovill, District Surveyor, relative to the erection of buildings in Railey-mews, Levertton-street, Kentish-town, the mews being of less width than 40 feet; referred by the Board on Friday last (No. 60). Railey-mews is an old paved way 20 feet wide, and was partly laid out and built upon some years since. The new buildings will be erected to the line of the old structures, leaving the same width of way as before. Your Committee concur with your Solicitor in thinking it unnecessary to take proceedings in the case, and they recommend—

That no action be taken in the matter, and that Mr. Bovill be so informed.

The attention of your Committee has been directed to the subject of the sums which have from time to time been deposited with the Board by applicants in respect of temporary buildings. Your Committee reported upon the matter on the 20th February, 1880, when the Board, having experienced some difficulty in the removal, at the proper time, of temporary buildings, deemed it necessary to require a deposit of £50 as a guarantee for the future removal of such buildings. The practice was continued by the Board until the passing of the Amendment Act of 1882, which gave the Board power to require the removal of temporary buildings within a certain period, and to exact penalties in cases of non-compliance. Your Committee have ascertained that there are still, in the hands of the Accountant, sums amounting in the aggregate to £510, which were deposited by applicants in the years 1880-1882; and as the retention of those sums is no longer necessary, your Committee are of opinion that they should be returned to the several depositors, upon their accepting the form of License at present in use. Your Committee recommend—

That the proper Officers of the Board be instructed accordingly.

Your Committee have considered the application of Messrs. Jones Brothers, for approval by the Board of a Plan for the formation of a road to lead out of Upper Richmond-road, Putney, and for the widening of Howard's-lane, referred by the Board on the 2nd October last (No. 64). It is proposed to lay out the new road of the full width of 40 feet to lead out of the South side of Upper Richmond-road, and afford direct communication with Howard's-lane, which will be increased in width to 20 feet from the centre of the old lane upon the frontage of the applicant's land. The house next Upper Richmond-road has been pulled down. Your Committee recommend—

That the application be granted, upon condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the road, and that the name "Carmalt-gardens, S.W." be approved for the same.

Your Committee have considered the application of Mr. B. Gilbert, on behalf of Messrs. Crooke, Ellison and Bates, for approval by the Board of a Plan for the formation and names of roads to lead out of Greyhound-lane, Streatham, referred by the Board on the 7th August last (No. 96). It does not clearly appear from the application and Plan submitted, whether the land to be added to the public way on both sides of Greyhound-lane is under the control of the applicant, or whether the Bridge crossing the London, Brighton, and South Coast Railway, near the Croydon-road, exists at the present time. The Plans also do not seem to provide for bridging over the stream or water-course where the proposed new roads cross it. The applicant

was, on the 1st October last, requested to furnish the necessary information on those points, but no reply has been received. Your Committee recommend—

That the application be not granted.

Your Committee have considered the application of the Rev. R. S. Hassard, for the permission of the Board to retain, for a further period, the temporary wood and iron room, erected on land adjoining Holy Trinity Church, in Mayfield-road, Dalston, referred by the Board on the 22nd ultimo, (No. 73). The erection of the building was first approved by the Board in 1879, and they have renewed the License from time to time, the last occasion being in December, 1883, for a period of Two years. The District Surveyor is of opinion that the License may be extended for a further period. Your Committee recommend—

That the application be granted for a period of One year from the 19th instant, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

Your Committee have considered the application of Mr. G. Baines, on behalf of Messrs. J. W. Hobbs and Co., for approval by the Board of an amended Plan for the erection of residential flats on the West side of Carlisle-street, Westminster, in the position and to the line shown thereon, also for approval of the open spaces at the rear of such buildings, as shown upon the said Plan, referred by the Board on the 29th ultimo (No. 62). The Board on the 30th October and 11th December last declined to approve of the erection of the building to the lines then proposed. The applicant now intends to keep the main wall of the building within a line drawn from Cardinal Manning's house to the Convent at the other end (the bulk of the main wall being set back about 2 feet 3 inches from that line), and to project the bay-windows and porches only into the area in front. There are somewhat similar projections at Cardinal Manning's house and the Convent. It is also proposed to provide areas at the rear unbuilt upon, in excess of the space required by the Amendment Act, 1882. The Westminster District Board offer no objection. Your Committee recommend—

That the application be granted, upon condition that the erection of the buildings therein referred to, be commenced within Six months, and be completed within Eighteen months from the 19th instant, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have considered the application of Mr. T. S. Archer, on behalf of Dr. T. Watney, for approval by the Board of a Plan for the formation and name of a street at "Waterside," leading out of Jews'-row, York-road, Wandsworth, and abutting upon the River Thames, referred by the Board on the 29th ultimo (No. 67). The old pathway known as "Waterside" abuts immediately upon the foreshore of the Thames. It is proposed to reclaim part of the foreshore, and to lay out a road forty feet in width in place of the existing narrow pathway. The Thames Conservators have agreed to consider an application for embanking the land. The new road, which it is proposed to keep 5 feet 6 inches above Trinity High Water-mark, will form a direct communication between Jews'-row and Dale-place, but the entrances at both ends are very narrow, a thoroughfare for vehicles being practicable only at the Dale-place end. Your Committee are of opinion that the application should be referred to the Bridges Committee, who have had the question of embanking this piece of the foreshore before them in connection with the Thames Floods Prevention Act, and they accordingly recommend—

That the subject be referred to the Bridges Committee, for consideration and report.

Your Committee have considered the Letter from Mr. H. F. Kite, on behalf of his client, Mr. J. R. Roberts, transmitting a copy of correspondence respecting a house which had been erected, or was in course of erection, in Collingham-road, at the corner of Harrington-gardens, Kensington, and enquiring what steps could be taken to enforce the carrying into effect of the Superintending Architect's decision as regards the general

line of frontage, referred by the Board on the 5th instant (No. 47). It appears from your Superintending Architect's Report, that on the 10th December last he gave, at the request of the Vestry of Kensington, a decision as to the general line of buildings on the Southern side of Harrington-gardens, an extension of which line clearly showed that a house in course of erection at the corner of Collingham-road would project considerably in advance of the general line of buildings in Harrington-gardens. Your Committee agree in the opinion expressed by your Superintending Architect that it is a matter in which the Vestry of Kensington should commence any proceedings that may be necessary, and they recommend—

That Mr. Kite be informed that any proceedings in the matter should be taken by the Vestry of Kensington.

The Board on the 5th instant (No. 54), referred to your Committee the Letter from Messrs. Stock, Page and Stock, on behalf of Mr. J. O. Parker, asking, under the circumstances mentioned in their Letter, for a modification of the condition imposed by the Resolution of the Board of the 22nd ultimo (No. 8), with reference to the period within which the re-erection of buildings from the "Eagle" Public-house, to the "Prince Teck" (both inclusive) on the North side of Abbey-street, Bermondsey, shall be commenced and completed. The applicants state that they would be unable to complete the re-building of the whole of the property within Eighteen months from the 22nd ultimo, as the lease of part of the property will not fall in until Lady-day, 1890. Your Committee under those circumstances recommend—

That the application be granted, and that the period allowed by the Board be extended to Lady-day, 1890.

Your Committee have considered the application of Mr. J. F. Bentley, on behalf of the Rev. H. J. Van Doorne, for the consent of the Board to the erection of a Church and buildings on the West side of Brixton-rise, between Horseford and Trent Roads, to the lines shown upon the amended Plan accompanying the application, referred by the Board on the 5th instant (No. 56). The Board, on the 13th November last, declined to approve of the erection of the Church to the line then proposed. The amended Plan shows the buildings in Horseford-road set back at one end to the line of buildings in that road, and the Vestry of Lambeth approve of the proposal. Your Committee recommend—

That the application be granted, upon condition that the erection of the Church and buildings therein referred to be commenced within Six months, and be completed within Eighteen months from the 19th instant, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

Your Committee have also considered the application of Mr. T. J. Bailey, on behalf of the School Board for London, for the consent of this Board to the erection of four open play-sheds at the Schools in Haseltine-road, Bell-green, Lower Sydenham, as shown upon the Plan accompanying the application, referred by the Board on the 5th instant (No. 57). The four sheds, which are to be used as covered playgrounds, are each 6 feet 6 inches in height to the eaves, and the mode of construction is similar to that of other sheds which have been approved by the Board. Three of the sheds are to be erected against the boundary walls adjoining the public way, and are beyond the general line of buildings, but they will be below the top of the wall, and your Committee think that they may receive the sanction of the Board. Your Committee recommend—

That the application be granted, upon condition that the erections therein referred to be commenced within Six months, and be completed within Eighteen months from the 19th instant, and that the whole of the work be executed to the satisfaction of the District Surveyor.

Your Committee have considered the application of Mr. J. Linsell, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 243, 245, 247 and 249, Roman-road, Old Ford, Poplar, to the line shown upon the further amended Plan accompanying the application, referred by the Board on the 5th instant (No. 59).

Plans for extending the premises were submitted to the Board in June and July, 1878, but were not sanctioned. The present Plan shows a greater projection, and less land to be given up to the public way. This part of the road is less than 40 feet in width, and your Committee recommend—

That the application be not granted.

Your Committee have had under consideration the Letter from Mr. G. Legg, Surveyor to the Vestry of Rotherhithe, relative to the re-building of premises at the corner of Princes-street and Rotherhithe-street, and asking the Board to take steps to cause the building to be set back to the general line, referred by the Board on the 5th instant (No. 60). In connection with the subject, your Committee have also considered the Letter from the Vestry of Rotherhithe, requesting the Board to take action in the matter under the Metropolis Management Amendment Act, referred by the Board on Friday last (No. 44). Princes-street, at its junction with Rotherhithe-street, is only 15 feet wide, and in no part is it more than about 25 feet in width. The original premises were condemned by the Board as a Dangerous Structure in October last, and the District Surveyor reports that no building notice was given to the Vestry until some days after the re-building had been commenced. Care has been taken, in re-instating the premises, to disturb as little as possible the old building, and the work is now nearly completed. Your Committee recommend—

That Mr. Legg and the Vestry of Rotherhithe be informed that the case appears to be one in which the Vestry should exercise any powers they may possess for dealing with cases of such a nature.

Your Committee have had before them the application of Mr. J. D. Hobson, on behalf of Dr. Rigg, for the consent of the Board to the erection of a shop front at No. 138, Horseferry-road, Westminster, to the line shown upon the Plan accompanying the application, referred by the Board on the 5th instant (No. 62). It is proposed to convert the ground floor of the house into a shop, the front projecting about 18 inches, in a line with the adjoining shop. Horseferry-road is at this point less than 40 feet in width, and the Wesleyan College, adjoining to the Southward, has been erected in a line with the wall of No. 138, thus increasing the width in that part of the road to 40 feet. Your Committee recommend—

That the application be not granted.

Your Committee have also to report that they have had under consideration the Letter from Mr. T. Williams, District Surveyor relative to the non-payment of his fees in respect of alterations to a building in Richardson-street, Long-lane, Bermondsey, referred by the Board on the 5th instant (No. 72). The payment of the District Surveyor's Fees is resisted on the ground that the external and party walls of the building have not been altered, but that the walls have merely been repaired by the substitution of new bricks for old. The District Surveyor points out that the work done involved the re-construction of portions of the walls, and he suggests that the Board should bear the expense of legal proceedings. It has been the practice of the Board to decline requests of this nature, and your Committee recommend—

That Mr. Williams be informed, in reply to his Letter, that the Board see no reason to interfere in the matter.

Your Committee have had before them the application of Messrs. Ernest George and Peto, on behalf of Messrs. Warner and Andrews, for approval by the Board of a Plan for the separation and construction of premises in Mount-street, Berkeley-square, referred by the Board on the 5th instant (No. 75). The applicants wish to construct the new premises so as to let off part of the ground floor and basement as shops, with separate entrances. It is therefore proposed to separate the shops from the rest of the building vertically by brick walls and horizontally by arches of hollow terra-cotta blocks, supported on rolled iron joists. Your Committee recommend—

That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

Your Committee have considered the Letter from Mr. F. J. Clarke, complaining of the erection of shops by Mr. Ward at Lime-villas, Upper Richmond-road, Putney, beyond the present line of frontage, and of the formation of a mews at the rear of the shops, and of the road-way entrances thereto, and asking the Board not to allow Mr. Ward to carry out his mews and road-way schemes, referred by the Board on Friday last (No. 35). Mr. Clarke states that the erection of the shops and mews will be injurious to the character of the neighbourhood, and will depreciate the value of the neighbouring property. The subject has been fully considered on several occasions, and on the 8th ultimo the Board, on the recommendation of your Committee, resolved that the buildings should be sanctioned. Your Committee recommend—

That Mr. Clarke be informed, in reply to his Letter, that the Board deem it inexpedient to take any action in the matter.

The Board on Friday last (No. 56), referred to your Committee the application of the Rev. J. B. Barraclough, for the permission of the Board to retain, for a further period, the temporary wood and iron building erected in connection with the Jewish Episcopal Church in Parmiter-street (late Gloucester-street), Bethnal-green. The Board, on the 8th February, 1884, granted their sanction to the erection of the building, and sanctioned it for a period of two years. The District Surveyor states that the building is in a perfectly good condition. Your Committee recommend—

That the application be granted, for a period of Two years from the 19th instant, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

Your Committee have considered the application of Mr. G. Saunders, for a dispensation by the Board with so much of their Bye-Law as relates to the foundations and sites of buildings, in the case of a proposed Class-room at St. Paul's National Schools, proposed to be erected over a part of the disused Churchyard of St. Paul's Parish Church, at Hammersmith, referred by the Board on Friday last (No. 63). The schools have been erected with an upper floor extending over part of the old Burial-ground. It is now proposed to use the space beneath by building an additional class-room on the ground floor level. This part of the Churchyard measures 21 feet by 17 feet, and has been used for interments up to about the year 1851. Your Committee consider the proposal very objectionable, and they recommend—

That the application be not granted.

The Board on Friday last (No. 61), referred to your Committee the application of Mr. F. J. Pilkington, on behalf of the Artizans,' Labourers,' and General Dwellings Company, for approval by the Board of a Plan for the erection of a block of Artizans' Dwellings on the South side of Broadley-street, Lisson-grove, St. Marylebone, exceeding the height prescribed by the 85th Section of the Metropolis Management Amendment Act, 1862. Broadley-street is 40 feet in width, and the applicant proposes to erect buildings, consisting of shops on the ground floor and dwellings above, abutting immediately upon the pavement line, to the height of 60 feet, measured from the pavement level to the flat roof of the building, or 20 feet in excess of the height allowed by the Act for buildings in a new street. Your Committee recommend—

That the application be not granted.

All which your Committee beg to submit.

(Signed)

A. EWIN,
FRANCIS H. FOWLER,
WM. SHEPHERD,
W. R. SELWAY.

The Report having been read and received,

It was moved by Mr. Ewin, seconded, and resolved—That the Board, in exercise of the authority conferred upon them by the 45th Section of the Metropolitan Board

of Works (Various Powers) Act, 1882, do, with a view to the safety of the public, make the following Rules, with respect to the Grand Theatre in High-street, Islington—

1.—That the present bolts and fastenings be removed from the exit doors, and that each of such exit doors be fastened by a single bolt shot by a handle fixed at a height of 3 feet from the floor, such bolt to be fixed on the side of the door next the auditorium, and to be of a pattern to be approved by the Board.

2.—That an inscription be painted in white letters, not less than 2 inches high, upon a black ground, upon each of the exit doors on the side next the auditorium, stating that such door may be opened in case of emergency by turning the handle, and also indicating where the exit leads and the direction to be taken to reach the street.

3.—That notices be painted upon the walls of the corridors in white letters, not less than 2 inches high, upon a black ground, with index hands to show the way out.

4.—That the projecting box office in the stall corridor be removed half an hour before the commencement of every performance.

5.—That a sufficient number of oil lamps, protected by iron wire guards, be provided in the corridors and on the landings of the staircases to light the same in the event of the gas becoming extinguished, and that such lamps be kept burning during the whole time of every performance.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Notice to the foregoing effect be prepared by the Solicitor; that it be sealed in duplicate, and be served upon the person by whom the Theatre is kept open for public entertainment, and that the Superintending Architect be instructed to survey the Theatre from time to time, and to report whether the Rules made by the Board have been observed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the works executed by the Owner of the Grand Theatre, in High-street, Islington, be accepted as a compliance with the Board's Notice under the Act of 1878.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the Loyal United Friends' Hall, No. 72, Banner-street, St. Luke's, be approved, and that a Notice, containing the following Requisitions, be served upon the Owner thereof—

1.—That the entrance hall, next Banner-street, be enlarged by setting back the partition between such hall and the Secretary's room, to the line of the partition enclosing the ladies'-room at the rear.

2.—That the first-floor of the warehouse fronting upon Roscoe-street, which extends over a portion of the Hall, be formed of fire-resisting materials to be approved by the District Surveyor.

3.—That the iron stove and the iron pipe flue to the same be removed, and that the stove be refixed, and a space of eighteen inches formed around the same of materials of an incombustible and non-conducting nature, as required by the Metropolitan Building Act, 1855, Section 21, Sub-Sec. 2, and that a proper brick flue be provided to such stove.

4.—That the skylight and sashes of the lantern light, and the skylight to the ladies'-room, be protected by galvanised iron wire guards fixed on the outside.

5.—That the windows out of the North side of the warehouse next Roscoe-street, overlooking the Hall, be protected by wrought-iron hoppers, placed at an angle of 60 degrees with the horizon, and extending over the whole surface of such windows.

6.—That the entrance door-way, next Banner-street, be increased in width to 6 feet; that the door-way on the East side of the Hall, opening into the cart-way

out of Roscoe-street, be increased in width to 4 feet 6 inches ; and that all doors used by the public, and the gates to the cart-way out of Roscoe-street, be made to open outwards.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Notice, embodying the above requirements, and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor ; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same ; and that, upon the receipt of such consent the Notice be sealed, and be served by the Solicitor upon the Owner of the Hall.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. A. Brandreth, on behalf of Mr. G. Ginnett, for a Certificate by the Board, under the Metropolis Management and Building Acts (Amendment) Act, 1878, with respect to the construction of the proposed North London Colosseum and National Hippodrome, on a site between Mayfield-street and Roseberry-place, Dalston-lane, be granted ; that the Drawings submitted by the applicant on the 3rd December, 1885, and the 19th January, 1886, be approved ; and that the Certificate be issued upon the completion of the building in accordance with the approved Drawings to the satisfaction of the Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. W. Emden, on behalf of Messrs. Webb and Wilmot, for a Certificate by the Board, under the Metropolis Management and Building Acts Amendment Act, 1878, with respect to the construction of a proposed new Theatre on the site of the “ Occidental ” Tavern, in Savoy-buildings (formerly Fountain-court), Strand, and the site of No. 106, Strand, as shown upon the amended Drawings accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the question of the present arrangements for the egress of the public from, and the prevention of fire in, the “ Horse Shoe ” Music-hall, No. 26, Clerkenwell-close, and the improvements which it is desirable to effect in the same, under the provisions of the Act of 1878 be approved ; and that in the opinion of the Board the following alterations, of a structural character, are necessary to remedy existing defects in the building—

1.—That a new entrance lobby, 11 feet long, and 9 feet 6 inches wide, be formed to the Music-hall, on the site of a portion of the yard, and the dust-bin and urinal at the rear of the premises. and that such entrance lobby be separated from the Public-house by brick walls not less than 14 inches thick without openings.

2.—That the present staircase to the Hall be pulled down, and that a new staircase be constructed in its place ; that such new staircase do have solid “ square ” (as distinguished from “ spandril ”) steps of York or other approved stone, with 11-inch treads and 6-inch risers, 4 feet wide in the clear, in flights of not more than 12 steps, with the necessary intermediate landings ; that the steps be supported at both ends, and that the several flights be enclosed upon all sides by brick walls not less than 9 inches thick ; that the landings of such staircase be formed of similar materials to the steps, and be 4 feet wide, and 6 inches thick, in one stone, supported and enclosed upon all sides by brick walls not less than 9 inches thick ; that such landings be square upon plan, and do have brick arches, 9 inches deep, in two rims, turned under them, in the middle of such landings ; that such staircase do have a roof formed of brick arches, 9 inches thick, in two half-brick rims, or constructed of other fire-resisting materials to be approved by the Board ; and that no opening be formed in the walls enclosing such staircase and the Public-house.

3.—That the floors of the Music-hall and of the Club-room adjoining be rendered fire-resisting in a manner to be approved by the Board.

4.—That the floors of the rooms on the second floor of the Public-house be rendered fire-resisting in a manner to be approved by the Board.

5.—That the iron staircase to the Club-room be removed, and the flooring of the Music-hall made good with fire-resisting materials.

6.—That the central gangway between the ends of the seats on the South side of the Music-hall be increased in width to 3 feet.

7.—That the windows of the Club-room and Music-hall be protected by wrought-iron bars, $\frac{3}{4}$ of an inch in diameter, to a height of 6 feet from the floor.

8.—That stout handrails be fixed on both sides of the staircase to the Music-hall.

9.—That all door-ways used by the public be increased in width to 4 feet 6 inches; and that the doors be hung in two folds, and be made to open outwards.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That a Draft Notice, embodying the above requirements, be prepared by the Solicitor; that the Clerk be instructed to transmit a copy of such Notice to the Owner, with an intimation that he may submit to the Board any observations thereon; and that the Building Act Committee be authorised to confer, either directly or through their Sub-Committee, with the Owner upon the Board's Requisitions, and that the Committee do report further to the Board on the subject.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the joint application of Mr. T. Verity and Mr. S. Chadwick, on behalf of Mr. J. C. Humphreys, for approval by the Board of certain modifications in the Drawings for the re-construction of Humphreys' Hall, at Albert Gate, Knightsbridge, be approved, and that the consent of the Board be given to the construction of a new stone staircase, 4 feet 6 inches wide, leading directly from the restaurant in the basement of Humphreys' Mansion into High-road, Knightsbridge, as shown upon the Drawing signed by the Chairman of the Committee; that the Certificate of the Board be not issued until the completion of the staircase to their satisfaction; and that the Certificate, when issued, be subject to the due observance of the conditions specified by the Board in their Resolution of the 7th August last (No. 14).

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owner of the Structure, No. 102, Bunhill-row, St. Luke's, had failed to comply with the Order made by John Hosack, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Clerkenwell Police-court, on the 10th day of November last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolve, and it is hereby *resolved* and *ordered*, on the motion of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed, and they are hereby authorised to take down the remaining parts of the Structure, No. 102, Bunhill-row, St. Luke's, condemned by the District Surveyor.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, and it being made to appear to the Board that the Owner of the Structure, No. 46, Great College-street, Camden-town, St. Pancras, had failed to comply with the Order made by John Hosack, Esquire, one of the Magistrates of the Police-courts of the Metropolis, sitting at the Clerkenwell Police-court, on the 5th day of January last, for the removal of the dangerous portions of such Structure, this Board do, pursuant to the provisions of the Metropolitan Building Act, 1855, and the Metropolitan Building Act, 1869,

Resolve, and it is hereby *resolved* and *ordered*, on the motion of Mr. Ewin—That the Contractors, Messrs. Brass and Son, of No. 47, Old-street, St. Luke's, be instructed,

and they are hereby authorised to take down such parts of the brickwork of the chimney-stack and wall of the Structure, No. 46, Great College-street, Camden-town, St. Pancras, next No. 40, as are bulged and out of the perpendicular; and also the decayed brickwork of the back addition, and the roof over the gateway, and the decayed cement work of the front.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the course taken by the Superintending Architect with respect to the Dangerous Structure, No. 30, Wolverley-street, Bethnal-green, be approved.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That no action be taken with reference to the Letter from Mr. A. Bovill, District Surveyor, calling attention to the erection of buildings in Railey-mews, Levertton-street, St. Pancras, and that he be so informed.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the return of the sums deposited with the Board in respect of temporary structures sanctioned under the Building Act be approved and acted upon, and that the proper Officers of the Board be instructed to take the necessary steps accordingly.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Jones Brothers, for approval by the Board of a Plan for the formation and name of a road to lead out of the Upper Richmond-road, Putney, and for the widening of Howard's-lane, be granted, upon condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the road, and that the name, "Carmalt-gardens, S.W." be approved for the same.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. B. Gilbert, on behalf of Messrs. Crooke, Ellison and Bates, for approval by the Board of a Plan for the formation and names of roads to lead out of Greyhound-lane, Streatham, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of the Rev. R. S. Hassard, for the permission of the Board to retain, for a further period, the temporary wood and iron room, erected on land adjoining Holy Trinity Church, in Mayfield-road, Dalston, be granted for a period of One year from this date, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. G. Baines, on behalf of Messrs. J. W. Hobbs and Co., for approval by the Board of an amended Plan for the erection of residential flats on the West side of Carlisle-street, Westminster, in the position and to the line shown thereon, and for approval of the open spaces at the rear of such buildings, as shown upon the said Plan, be granted upon condition that the erection of the buildings therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. T. S. Archer, on behalf of Dr. T. Watney, for approval by the Board of a Plan for the formation and name of a street at "Waterside," leading out of Jews'-row, York-road, Wandsworth, and abutting upon the River Thames, be referred to the Bridges Committee, for consideration and report.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the Letter from Mr. H. F. Kite, on behalf of Mr. J. R. Roberts, relative to a house erected, or in course of erection in Collingham-road, at the corner of Harrington-gardens, Kensington, be approved, and that Mr. Kite be informed that any proceedings in the matter should be taken by the Vestry of Kensington.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Stock, Page and Stock, on behalf of Mr. J. O. Parker, for a modification of the condition imposed by the Resolution of the Board of the 22nd ultimo (No. 8), with reference to the period within which the re-erection of buildings from the “Eagle” Public-house, to the “Prince Teck” Public-house (both inclusive) on the North side of Abbey-street, Bermondsey, shall be commenced and completed, be granted, and that the re-erection of such buildings be allowed by the Board to be commenced within Six months, and to be completed within Eighteen months from Lady-day, 1890.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. F. Bentley, on behalf of the Rev. H. J. Van Doorne, for the consent of the Board to the erection of a Church and buildings on the West side of Brixton-rise, between Horsford and Trent Roads, to the lines shown upon the amended Plan accompanying the application, be granted, upon condition that the erection of the Church and buildings therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. T. J. Bailey, on behalf of the School Board for London, for the consent of this Board to the erection and construction of four open play-sheds at the Schools in Haseltine-road, Bell-green, Lower Sydenham, as shown upon the Plan accompanying the application, be granted upon condition that the erections therein referred to be commenced within Six months, and be completed within Eighteen months from this date, and that the whole of the work be executed to the satisfaction of the District Surveyor.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. Linsell, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 243, 245, 247 and 249, Roman-road, Old Ford, Poplar, to the line shown upon the further amended Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That so much of the Report as relates to the Letters from Mr. G. Legg, and the Vestry of Rotherhithe, relative to the re-building of premises at the corner of Princes-street and Rotherhithe-street, and asking the Board to take steps to cause the building to be set back to the general line, be approved; and that Mr. Legg and the Vestry be informed that the case appears to be one in which the Vestry should exercise any powers they may possess for dealing with cases of such a nature.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. J. D. Hobson, on behalf of the Rev. Dr. Rigg, for the consent of the Board to the erection of a shop front at No. 138, Horseferry-road, Westminster, to the line shown upon the Plan accompanying the application, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That Mr. T. Williams, District Surveyor, be informed in reply to his Letter, relative to the non-payment of his Fees in respect of alterations to a building in Richardson-street, Long-lane, Bermondsey, that the Board see no reason to interfere in the matter.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Messrs. Ernest George and Peto, on behalf of Messrs. Warner and Andrews, for approval by the Board of a Plan for the separation and construction of premises in Mount-street, Berkeley-square, be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That Mr. F. J. Clarke be informed in reply to his Letter complaining of the erection of shops by Mr. Ward at Limevillas, Upper Richmond-road, Putney, beyond the present line of frontage, and also complaining of the formation of a mews at the rear of the shops, and the road-way entrances

thereto, and asking the Board not to allow Mr. Ward to carry out his mews and road-way schemes, that the Board deem it inexpedient to take any action in the matter.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of the Rev. J. B. Barraclough, for the permission of the Board to retain, for a further period, the temporary wood and iron building erected in connection with the Jewish Episcopal Church, in Parmiter-street (late Gloucester-street), Bethnal-green, be granted for a period of Two years from this date, upon condition that the Owner do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. G. Saunders, for a dispensation by the Board with so much of their Bye-law as relates to the foundations and sites of buildings in the case of a proposed Class-room at St. Paul's National Schools, in St. Paul's Parish Churchyard, Hammersmith, be not granted.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application of Mr. F. J. Pilkington, on behalf of the Artizans', Labourers', and General Dwellings Company, for approval by the Board of a Plan for the erection of a block of Artizans' Dwellings on the South side of Broadley-street, Lisson-grove, St. Marylebone, exceeding the height prescribed by the 85th Section of the Metropolis Management Amendment Act, 1862, be not granted.

4. Mr. Selway, the Chairman of the Parliamentary Committee, brought up a Report, as follows—

REPORT OF THE PARLIAMENTARY COMMITTEE.

Spring-gardens, 16th February, 1886.

The Board's Various Powers Bill, now before Parliament, contains a provision that the Board may from time to time divert and alter any existing footpath, and right-of-way over the land formerly belonging to Dulwich College, which by an Act of last Session was vested in the Board for the purpose of a public Park, and may stop up and close any such paths and rights-of-way, or means of access to the land. There is a proviso, however, that the Board shall not stop up or divert any existing footpath over the land, until it shall have provided a substitute for the same. There are several houses and premises adjacent to the proposed Park, the owners and occupiers of which claim rights of access to the land, and there is also a public footpath across the South-Eastern portion of the ground. Your Committee have, through the Board's Officers, been in communication with Mr. C. Barry, the Surveyor to the Governors of Dulwich College, with a view to coming to some arrangement with reference to these rights-of-way and rights of access, before the passing of the Bill, and they have now to submit to the Board the terms of an arrangement which it is proposed to make. Upon a Plan which will be laid upon the table of the Board are shown the means of access which it is proposed to substitute for the back entrances on to the ground from various premises, and with respect to the premises marked with the Letter "G" on the Plan, it is proposed that the rights of access shall in that case be got rid of by the Board purchasing the leasehold interest. As regards the footpath across the South-Eastern portion of the ground to be laid out as a Park, Mr. Barry proposes that the Governors shall undertake to make a road 40 feet wide, leading from Dulwich College-road to Lordship-lane, in substitution for the footpath, and that the Board shall re-convey to the Governors the part of the said ground, about $1\frac{3}{4}$ acres in extent, which the proposed road will cut off from the remainder of the ground. As regards the boundary wall or fence to be erected around the proposed Park, Mr. Barry is willing, in case of any difference between the Board and Governors as to the kind of fence, to leave the question to be decided by Sir Henry A. Hunt, or some other Arbitrator to be mutually agreed upon. The only point in the proposed arrangement about which your Committee have felt any hesitation is the surrender to the Governors of the small piece of ground which the new road will cut off from the remainder of the Park, but, having regard to the small extent of the ground, and to the fact that its

separation from the remainder would render it of little value to the public, your Committee are of opinion that the Board may properly be advised to consent to it. The ground being vested in the Board by the Act of last Session, it cannot be re-conveyed to the Governors without the sanction of Parliament, but an additional provision could be inserted in the Board's Various Powers Bill of this Session, to authorise the surrender of the ground. Your Committee recommend—

That the proposed arrangement be approved, and that the Solicitor be instructed to conclude an Agreement with the College in accordance therewith, and to apply for leave to insert an additional provision in the Board's Various Powers Bill, to give statutory force to the arrangement.

Your Committee have ascertained from your Solicitor that the South-Eastern Railway Company is willing to abandon that portion of its Bill now before Parliament asking for an extension of time for the purchase of property and the completion of the works in Southwark, authorised by one of the Company's Acts of the year 1882. It is to this part of the Bill that, as the Board is aware, there has been and is so much well-founded opposition on the part of the local authorities and the inhabitants of the locality concerned, and in support of whose objections the Board has resolved to petition Parliament against the Bill. There are one or two other points in the Bill with respect to which allegations are made in the Board's Petition, and which it will be necessary to arrange with the Company. As to this there will probably not be much difficulty, and your Committee recommend—

That, on the South-Eastern Railway Company giving an undertaking to abandon that portion of its Bill now before Parliament, asking for an extension of time for the purchase of property and the completion of its works in Southwark, and to make such further amendments in the Bill as the Board may require, the Board's Petition against the Bill be withdrawn.

All which your Committee beg to submit.

(Signed) W. R. SELWAY,
GEO. EDWARDS,
FRANCIS H. FOWLER,
ROBERT JONES.

The Plan referred to in the Report was laid before the Board.

The Report having been read and received,

It was *moved* by Mr. Selway, and seconded—That so much of the Report as relates to the arrangement proposed to be made with the Governors of Dulwich College with reference to the rights of access to and across the ground vested in the Board for the purpose of a Park at Dulwich, be approved, and that the Solicitor be instructed to conclude an Agreement with the Governors in accordance therewith, and to apply for leave to insert an additional provision in the Board's Various Powers Bill, to give statutory force to the arrangement.

An amendment thereon was *moved* by Mr. Dresser Rogers, and seconded by Mr. J. Jones—That the subject be referred to the Works and General Purposes Committee, for consideration and report.

After discussion, Mr. Selway suggested that the Letter on the subject, received from Mr. C. Barry, the Architect to the Governors of the College, should be read.

The Clerk, by direction of the Board, then read the Letter from Mr. Barry, dated 12th February, 1886, stating that he had been instructed to say that the Governors of the College, appreciating the desire of the Board to meet their views, and not wishing to embarrass them in Parliament with respect to their Various Powers Bill, would not present a Petition to the House of Commons against the Bill, relying upon the arrangements conditionally made between the Superintending Architect and him (Mr. Barry) being forthwith embodied in an Agreement, and proper Clauses being inserted in the Bill to give effect to the same; that the Governors reserved their right, however, should they think it necessary, to petition in the House of Lords, and that they attached much importance to their suggestion as to the boundary of the Park between

Dulwich-common-road and Grove-hill, and considered that they might fairly ask the Board to agree to carry it out.

The amendment having been put to the vote, there were for it 7, against it 15 ; and it was declared by the Chairman to be lost.

A Division having been demanded and granted, the names of the Members voting were taken down when there were—

For the Amendment—7.			Against the Amendment—14.		
Brown, G., Esq.	Saunders, J. E.,		Boucher, W., Esq.	Funnell, P. W., Esq.	
Harris, C., Esq.	Esq., Deputy.		Bradfield, J. E.,	Lindsay, W. A., Esq.	
Jolly, J. R., Esq.	Wetenhall, W. J.,		Esq.	Price, S., Esq.	
Jones, J., Esq,	Esq.		Edwards, G., Esq.	Reddish, J., Esq.	
			Ewin, A., Esq.	Robson, W., Esq.	
			Fardell, T. G., Esq.	Shepherd, W., Esq.	
			Fowler, F. H., Esq.	Urquhart, W., Esq.	
Teller—Mr. Dresser Rogers.			Teller—Mr. Selway.		

The original motion was then put to the vote, and declared by the Chairman to be carried ; and it was resolved accordingly.

It was moved by Mr. Selway, seconded, and resolved—That, upon the South-Eastern Railway Company giving an undertaking to abandon that portion of their Bill, now before Parliament, asking for an extension of time for the purchase of property and the completion of their works in Southwark, and to make such further amendments in the Bill as the Board may require, the Board's Petition against the Bill be withdrawn.

5. Read a Report by the Engineer, dated 19th February, 1886, on the undermentioned Sewerage work proposed to be executed by the St Giles' District Board—

LOCALITY OF WORK.	WORK APPLIED FOR.			REMARK.
	Length in feet.	Size.	Material.	
Colonnade, Bernard-street	398	4'0" x 2' 6"	1 brick	Recommended as applied for.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved, and that the St. Giles' District Board be permitted to construct and execute the said work in the manner therein recommended.

6. Read a Report by the Engineer, dated 19th February, 1886, on applications from the following Vestries and District Boards, for permission to stop up certain thoroughfares for the periods and purposes therein mentioned, viz.—

Dates of Applications	Names of Streets to be stopped up.	Object.	Time applied for.	Time recommended.	Streets through which traffic will be diverted.	
CHELSEA.						
1886. 11th Feb.	Limerston-street, in four sections	Re-paving road-way	6 days each section	6 days each section	These are unimportant streets as regards the general carriage traffic through them.	
ST. JAMES, WESTMINSTER.						
12th Feb.	Little Paltency-street	Re paving	7 weeks	7 weeks		
	Brewer-street	do.	4 ..	4 ..		
	Glasshouse-street, from Brewer-street to Regent-street	do.	2 ..	2 ..		
SAINT GILES.						
12th Feb.	Colonnade	Sewerage	4 weeks	4 weeks		
HACKNEY.						
18th Feb.	Well-street, from Cassland-road to Elsdale-street	Sewerage	2 weeks	2 weeks	Cassland and Terrace Roads.	

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the sanction of the Board be given, and the same is hereby given, to the closing of the thoroughfares in question by the said Vestries and District Boards, for the purpose of executing works therein, for the periods recommended by the Engineer, such sanction to date from the commencement of the works respectively.

7. Read a Report by the Engineer, dated 19th February, 1886, stating that Mr. B. Knight's Contract with the Board for the removal of ashes and refuse from the Abbey Mills Pumping Station would expire on the 25th March next, and that it had been undertaken for a period of three years, at £199 per annum; submitting a Letter from Mr. Knight, offering to renew the Contract, upon the same terms, for another three years, also stating that Mr. Knight had executed the work in a satisfactory manner, and recommending that his offer should be accepted, and that it should be referred to the Solicitor to prepare the necessary Contract.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved and acted upon, and that the Solicitor do prepare a Contract accordingly.

8. Read a Report by the Engineer, dated 19th February, 1886, recommending the execution of the following works under the General Contract—

<i>Crossness Pumping Station.</i>						ESTIMATE.
Re-constructing Nos. 2 and 3 Benches of Retorts	...	...	...	...	...	£80 0 0
Constructing a short length of the Tramway behind the River-wall	...	...	...	...	...	100 0 0
Total						£180 0 0

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the works be executed accordingly, the cost thereof being charged to the General Working Account of the Board.

9. Read a Report by the Engineer, dated 19th February, 1886, stating that a three ton locomotive steam crane, with a gib of 20 feet radius complete, was required for use at the Crossness Pumping Station, for the purpose of loading vessels with the Sewage cake, and recommending that the crane should be supplied and erected by Messrs. Alexander Chaplin and Co., of Glasgow, at a cost of £360.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved and that the crane be supplied by Messrs. Chaplin and Co. accordingly, the cost being charged to the General Working Account of the Board.

10. Read a Report by the Engineer, dated 19th February, 1886, stating that a banksman, in the employ of the Contractor for the Holloway, &c., Relief Sewerage works, whilst working on the stage over the shaft at Highbury-hill yesterday, had accidentally fallen from the stage to the bottom of the shaft, and had been killed on the spot.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be received.

11. The Solicitor read a Report, as follows—

Solicitor's Department,
19th February, 1886.

METROPOLITAN BOARD OF WORKS (VARIOUS POWERS) BILL, 1886.

I have to report that the time has expired for lodging Petitions against this Bill, and the following is a list of those presented—

Metropolitan District Railway Company.
Southwark and Vauxhall Water Company.
Great Western and London and North-Western Railway Companies.
South-Eastern Railway Company.
New River Company.

I present a print of each Petition.

The Bill was read a second time in the House of Commons yesterday.

I would remind the Board that any objection to the *locus standi* of the Petitioners must be delivered before the next Meeting of the Parliamentary Committee. After conferring with the Parliamentary Agents it seems to us that probably the Great Western Railway Company and the London and North-Western Railway Company have not a *locus standi* upon their joint Petition. I would ask the Board to authorise me to have objections delivered, and they can be dealt with hereafter as may be deemed expedient.

As to the other Petitioners I have no doubt the parties have a *locus standi* to appear before the Committee, although probably their opposition may be removed by proper Clauses.

(Signed) REGINALD WARD,
Solicitor.

It was moved by Mr. Fowler, seconded, and resolved—That the Report be approved and acted upon, and that the Solicitor be authorised accordingly.

12. The Solicitor reported that the second reading of the Board's (Fire Brigade Expenses) Bill has been appointed for this evening; that a Petition had been presented against it by the Fire Insurances Offices in the Metropolis, and that Mr. Dixon-Hartland had given notice to postpone the second reading of the Bill for six months.
13. The Solicitor reported that the second reading of the Theatres, &c. (Metropolis) Bill (Mr. Dixon-Hartland), had been appointed for this evening.
14. The Solicitor reported that the second reading of the Sanitation of Houses Bill had been appointed for the 19th May next.
15. The Solicitor reported that the second reading of the Employers' Liability Act (1880) Amendment (No. 1) Bill, had been appointed for this evening, and that Mr. Tomlinson had given notice to defer the second reading for six months.
16. The Solicitor reported that the second reading of the Employers' Liability Act (1880) Amendment (No. 2) Bill, had been appointed for the 10th March next, and he presented a copy of the Bill.
17. The Solicitor reported that the second reading of the Land Purchase Facilities Bill had been appointed for the 7th July next.
18. The Solicitor reported that it might become necessary, before the next Meeting of the Board, to affix the Seal to Petitions on their behalf, against Bills to be promoted in Parliament during the present Session.

It was moved by Mr. Fowler, seconded, and resolved—That the Chairman of the Board be requested and authorised to affix the Common Seal of the Board to any Petitions which it may become necessary to present to Parliament on behalf of the Board before their next Meeting.

19. The Solicitor presented a copy of the Copyhold Enfranchisement Bill, and stated that the Bill provided for the amendment of the Copyhold Acts, and for the Enfranchisement of Copyhold and Customary Lands, and that the second reading in the House of Commons had been appointed for the 24th instant.
20. The Solicitor reported that the following Notices had been placed on the Paper of the House of Commons—

Mr. Baumann—On second reading of Metropolitan Board of Works (Keeping of Firewood) Bill—That it be read a second time upon this day six months. (Thursday, 18th February.)

Mr. Cremer—To ask the Secretary of State for the Home Department if the Government intend, at an early date, to introduce a Bill dealing with the Government of London. (Monday, 22nd February.)

Mr. James Stuart—To ask the Secretary of State for the Home Department what are the intentions of Her Majesty's Government with respect to the reform of the Municipal Government of London.

Mr. James—Commons and Inclosure Acts Amendment—Bill to amend the Commons and Inclosure Acts.

Mr. Hastings—Rivers Purification—Bill for the Purification of Rivers.
(Monday, 22nd February.)

21. The Solicitor reported that a Petition had been presented against the Metropolitan Board of Works (Water Supply, &c.) Bill, by the Kent Waterworks Company, which Petition had been ordered to lie upon the table.
22. The Solicitor reported that a question had arisen between the Board and the East London Water Company, as to the action of that Company with reference to Fire plugs, and that a somewhat similar question as to the Lambeth Water Company was now before the Works and General Purposes Committee, and he suggested that the Board should refer the question as to the East London Water Company to that Committee, that it might be reported upon at the same time.

It was *moved* by Mr. Fowler, seconded by Mr. Selway, and *resolved*—That the suggestion of the Solicitor be acted upon, and that the subject be referred to the Works and General Purposes Committee accordingly.

23. The Solicitor reported that the Chairman had since the last Meeting of the Board affixed the Seal to Petitions to the House of Commons against the undermentioned Bills—

East London Water Company,
Lambeth Water Company,
Southwark and Vauxhall Water Company,
Greenwich and Millwall Subway,
Horse Guards-avenue,
Lee River Purification,
South-Eastern Railway,

And he presented a copy of each of the Petitions.

24. The Solicitor reported that he had not yet received the Treasury sanction to the period for re-payment of the Loan of £100,000 to the School Board for London, and he suggested that the Board should now draw a Cheque for the amount of the Loan, and also a Cheque for £125 for the Stamp-duty, to enable him to complete the arrangement so soon as the sanction of the Treasury should be received.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the suggestion of the Solicitor be approved and acted upon, and that Cheques for £100,000 and £125 be now drawn; and Cheques were drawn on the Consolidated Loans Fund and the General Working Account accordingly.

25. The Solicitor presented the following documents for sealing—

Notice, in duplicate, as to structural defects in the Helvetia Music-hall (late the Hibernian Stores), Nos. 6 and 7, Old Compton-street, Soho, prepared pursuant to the Resolution of the Board of the 22nd January last (No. 8.)

Conveyance to Mr. T. Yeo of land in Wentworth-street and George-yard, Whitechapel, which formed Lot No. 17 at the sale by Auction on 26th January last (Goulston-street, &c., Scheme).

Conveyance by Mr. S. Stone, of Nos. 51, 52 and 53, High-street, and land adjoining, at Hampstead, and a Memorial for the registration of the same (Hampstead Improvements).

Conveyance by Mr. H. Siebert, of premises in Trench-street, Church-gardens, and Lower Gun Alley, St. George-in-the-East, and a Memorial for the registration of the same (Trench-street Scheme).

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said documents respectively; and the Seal was affixed accordingly.

26. The Solicitor presented a notice of action against the Board, at the suit of Mr. Watson, in respect of injury alleged to have been sustained by him by the fall of

a hoarding erected around buildings, which were in course of demolition, in the line of the Southwark-bridge-road Improvement.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the proceedings in the action be referred to the Works and General Purposes Committee, for consideration, with authority to act upon any Resolution at which they arrive with regard thereto.

27. The Solicitor read a Report, as follows—

Solicitor's Department.

February 19th, 1886.

The Board is aware that Portland Hall, Langham-place, has, since the 23rd December, 1885, been opened as an exhibition of Indian manners, accompanied by a band of music. It was pointed out to the owners of the Hall, that this having been done without a Certificate, was an infringement of the 12th Section of the Metropolis Management and Building Acts Amendment Act, 1878.

In the judgment of the Board the building was not properly constructed, so as to avoid danger from fire, but the Defendant persisted in continuing the performance, and, in accordance with the instructions of the Board, I took out a Summons upon the 29th January, 1886, to recover the sum of £200, being a penalty of £50 a day for four of the days upon which the Hall was open to the public in contravention of the statute.

The Summons was heard before Mr. Mansfield, at the Marlborough-street Police-court yesterday, when Counsel appeared, as representing the Board and the Defendant, who held the usual Justices' License.

The facts were fully gone into before the Magistrate, who said he had no doubt that the Defendant had altogether disregarded the jurisdiction of the Board, and he therefore fined the Defendant £40 penalty, and awarded to the Board £10 costs.

The Magistrate said he apprehended the Defendant must now close the building, upon which he had expended a large sum of money, otherwise he would have inflicted a larger penalty.

(Signed) R. WARD,
Solicitor.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be received.

28. The Clerk laid before the Board copies of the Orders of the Board of the 12th instant (No. 15), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

Queen-street, &c.	...	...	...	Kensington and Chelsea.
Hyde-street, High-street, St. Paul, Deptford	...	...	...	Greenwich.
Hyde-street, Clifton-hill	...	Do.	...	Do.
Seymour-place, &c.	...	Do.	...	Do.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

29. The Clerk presented a Letter from Mrs. C. Desgratoulet, dated 12th February, 1886, asking the Board, for the reasons stated therein, to re-consider her claim for compensation for alleged loss consequent on the occasional flooding of the basement of her houses, Nos. 162, 164, 166, 168 and 170, Tachbrook-street, Pimlico; and expressing regret that a manhole should have been made opposite No. 170 in that street.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report, and that the Engineer do report to the Committee thereon.

30. The Clerk presented a Letter from Mr. W. Pope, dated 12th February, 1886, suggesting that the street lamp-posts might be utilised for ventilating the Sewers of the Metropolis.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Special Purposes and Sanitary Committee.

31. The Clerk presented a Letter from Mr. D. Morris, Clerk to the Vestry of Tooting, dated 16th February, 1886, forwarding a copy Resolution of the Vestry, approving of the proposed Tramway from Clapham to Merton, and expressing a hope that the Board would sanction the scheme.

It was moved by Mr. Fowler, seconded and resolved—That the consideration of the said Letter be deferred until Friday next, when the Report of the Works and General Purposes Committee with respect to the South Metropolitan Tramways Scheme is further considered.

32. The Clerk presented a Letter from Mr. W. T. Penfold, dated 17th February, 1886, asking the Board to receive a Deputation of ratepayers to present a Memorial in favour of the South Metropolitan Tramway Scheme.

It was moved by Mr. Fowler, seconded, and resolved—That Mr. Penfold be informed that if he will send in a written statement in support of the scheme, it shall be carefully considered, but that the Board do not think it necessary that the Deputation should attend.

33. The Clerk presented a Letter from Mr. F. Parish, Clerk to the Erith Local Board, dated 16th February, 1886, referring to the Letter from the Local Board of the 28th October last, and requesting certain information as to the Sewage experiments which the Board had been conducting at Crossness, and as to their future proceedings with regard thereto.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Works and General Purposes Committee, for consideration with authority to send a reply thereto.

34. The Clerk presented a Letter from Mr. F. R. Hordley, dated 16th February, 1886, transmitting an extract from a Newspaper giving an account of Sewage experiments conducted by him before the Mayor and Corporation of Stoke.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Works and General Purposes Committee.

35. The Clerk presented a Letter, as follows—

7, Westminster Chambers, Victoria-street,
Westminster, S.W.,
16th February, 1886.

METROPOLITAN ASYLUM DISTRICT—SURPLUSES ON LOANS.

DEAR SIR,—We are instructed by the Managers of the Metropolitan Asylum District to communicate with your Board, and to request them to accept re-payment of the balances of certain Loans at once, and the circumstances under which we make this application are as follow—

- 1.—By a Deed of further charge on the Common Fund of the District, dated the 4th March, 1871, a Loan of £7,550 was secured to be re-paid to your Board, and included in this was an item of £6,204, which was authorised to be borrowed under an Order of the Poor Law Board, dated the 9th July, 1870, for works at the Stockwell and Homerton Hospitals.

The Committees for these Hospitals could not, however, agree as to the division of the sum referred to, and in future applications for Loans the fact that the above-mentioned sum of £6,204 was in hand was altogether ignored. Up to the present time an amount of £1,918 has been re-paid on the Loan of £7,550, proportionately therefore an amount of £1,575 11s. has been re-paid on account of the item of £6,204, leaving a balance of £4,628 9s., which the Managers are now desirous of re-paying forthwith.

- 2.—By a Deed of further charge on the Common Fund of the District, dated 24th August, 1880, a Loan of £18,200 was secured to be re-paid to your Board, and included in this was an item of £5,250, for alterations and additions at the Fulham Hospital, which was authorised to be borrowed under an Order of the Local Government Board, dated the 28th July, 1879. This sum, however, was never

applied for the purpose, and at this date the Managers have this amount in hand. Up to the present time £1,860 has been re-paid of the Loan of £18,200, proportionately therefore, the sum of £536 10s. has been re-paid on the Loan of £5,250, leaving a balance of £4,713 10s., which sum the Managers are also desirous of re-paying at once.

We shall feel obliged by you informing us whether your Board are prepared to accept immediate re-payment of these two sums of £4,628 9s. and £4,713 10s.

We are, &c.,

(Signed)

CHAS. ROGERS, SONS, AND RUSSELL.

J. E. Wakefield, Esq.,
Clerk, Metropolitan Board of Works,
Spring-gardens, S.W.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Solicitor and the Accountant do report to the Committee thereon.

36. The Clerk presented a Letter from Mr. H. Richmond, Hon. Secretary of the Bermondsey and Rotherhithe Workmen's Political Vigilance Association, dated 16th February, 1886, transmitting a copy of Resolutions passed by the Association, and asking the Board to receive a Deputation of the Association on the subject of the erection of Artizans' dwellings on the vacant sites of the Metropolis, in order to give work to the unemployed.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Deputation be received by the Board on Friday next, at Twelve o'clock at noon.

37. The Clerk presented a Letter from Mr. T. Bridger, Clerk to the Hampstead Vestry, dated 16th February, 1886, referring to the previous Letter from the Vestry relative to a suggested extension of the cricket-ground on Hampstead-heath, and transmitting a copy of a communication from the Metropolitan Public Gardens, &c., Association, offering to defray the whole cost of the labour which would be involved in making such extension.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

38. The Clerk presented a Letter from Mr. G. B. Hall, Secretary of the West Middlesex Waterworks Company, dated 17th February, 1886, transmitting a Notice of the intention of the Company to extend the system of constant supply of Water to a further portion of the district supplied by them in the Parish of St. Pancras.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Notice be referred to the Works and General Purposes Committee, for consideration and report.

39. The Clerk presented a Letter from Mr. J. E. Smith, Clerk to the Westminster District Board, dated 17th February, 1886, expressing the opinion of the District Board that as it was proposed in the Fire Brigade Expenses Bill to double the amount raised from the ratepayers for the purposes of the Brigade, the contributions of the Fire Insurance Companies should be increased in like proportion.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be received

40. The Clerk presented a Letter from Mr. J. E. Smith, Clerk to the Westminster District Board, dated 17th February, 1886, stating that the District Board had resolved to petition against the Board's Water Supply Bill.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be received.

41. The Clerk presented a Letter from Mr. J. E. Smith, Clerk to the Westminster District Board, dated 17th February, 1886, stating, with reference to the Metropolitan Street Improvements Act, 1877 (Amendment) Bill, that the District Board considered it desirable to favour a system of Subways under efficient local supervision, and with power to the local authority in each District to enforce the use of the Subways by the Gas, Water, Telephone and other Companies.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be referred to the Parliamentary Committee, for consideration in connection with the references already made to them on the subject to which it relates.

42. The Clerk presented a Letter from Mr. G. Potter, dated 18th February, 1886, with copy of a Resolution to the effect that the London Working Men's Association concurred in the object of the proposed Deputation to the Board for the purpose of requesting the Board to give immediate effect to the execution of the work of constructing a Tunnel between Greenwich and Millwall, in order to afford employment to a number of labourers now out of work.

It was moved by Mr. Fowler, seconded, and resolved—That the said Letter be received.

43. The Clerk presented a Letter, as follows—

Vestry, St. Mary Newington.

Vestry-hall, Walworth, S.E.,
19th February, 1886.

SIR,—I am directed by the Vestry to forward you the following copy of a Resolution passed upon the consideration of a Letter received from the Home Office, relating to the Hampstead-heath Enlargement Bill, 1886, now before Parliament, viz.—

That the Home Office be informed, in reply to their communication upon the operation of Clause 4 of the "Hampstead-heath Enlargement Bill, 1886," that this Vestry is not prepared to make any contribution towards the object in question, upon the following grounds (1) That, in the opinion of this Vestry, Hampstead-heath is already large enough for the requirements of the District. (2) That the cost of acquiring the Parliament-hill Estates could be better applied in providing new Open Spaces in other crowded parts of the Metropolis, and (3) That the duty of providing Open Spaces for the people within the Metropolitan area devolves upon the Metropolitan Board of Works, and should be provided for out of the funds derivable by the Board for that purpose.

And to request that you will be pleased to lay the same before the Board at their Meeting to-day.

Yours, &c.,
(Signed) L. J. DUNHAM,
Vestry Clerk.

The Clerk,
Metropolitan Board of Works,
Spring-gardens, S.W.

It was moved by Mr. Selway, seconded, and resolved—That the said Letter be received.

44. The Chemist laid before the Board his Return of the Testings made at the Gas testing Stations during the week ended on the 16th instant, as follows—

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested in Southwark-street, S.E., on the 11th February, 1886, at 7 p.m., was 1.6 inches.

45. CAMBERWELL.—Read a Report by the Superintending Architect, dated 15th February, 1886, on the application of Mr. F. S. W. Sloman, for the consent of the Board to the erection of a house and shops, on the East side of Calmington-road, Albany-road, to the lines shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

46. ISLINGTON.—Read a Report by the Superintending Architect, dated 16th February, 1886, on the application of Messrs. Woodthorpe and Hammond, on behalf of Mr. G. Wood, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 42 to 48, 52 to 62, 66 to 70 and 80 to 84, (even numbers only), Junction-road, Holloway, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be not granted.

47. KENSINGTON.—Read a Report by the Superintending Architect, dated 15th February, 1886, on a Letter from Mr. A. Williams, District Surveyor, relative to the alleged irregular erection of a workshop building at the rear of No. 7, Bath-place, High-street.

It was moved by Mr. Ewin, seconded, and resolved—That the said Letter be referred to the Building Act Committee, for consideration and report.

48. LAMBETH.—Read a Report by the Superintending Architect, dated 15th February, 1886, on the application of Mr. E. Taylor, for the consent of the Board to the erection of shops on the North side of Acre-lane, Brixton, at the corner of Ashmere-grove, to the line shown upon the further amended Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, subject to the condition that the erection of the shops therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that, previously to the commencement of building operations, the space coloured Blue upon the Plan be given up to form part of the public way, and that in other respects the erections be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of the Board.

49. ST. GILES-IN-THE-FIELDS.—Read a Report by the Superintending Architect, dated 16th February, 1886, on the application of Messrs. Williams and Gritten, on behalf of Sir G. E. Hodgkinson, for the consent of the Board to the erection of the Girls' Home, at the corner of Chenies-street and Huntley-street, Tottenham-court-road, with projecting bay-windows, and a porch and angle turret, to the lines shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee, when the subject shall be considered.

50. ST. MARYLEBONE.—Read a Report by the Superintending Architect, dated 16th February, 1886, on the application of Mr. A. M. Ridge, for the consent of the Board to the erection of an open stone portico in front of No. 6, Hyde-park-place, to the line shown upon the Plan accompanying the application.

It was moved by Mr. Ewin, seconded, and resolved—That the application be granted, subject to the condition that the erection of the portico therein referred to be commenced within Six months, and be completed within Eighteen months from this date,

and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, enclosed, altered or raised without the consent of the Board.

51. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 16th February, 1886, on a Letter from Messrs. Baker and Sons, relative to the ownership of certain land required for access to roads, proposed to be formed by them, out of Fortune-green-lane, and conditionally approved by the Board on the 22nd January last (No. 8).

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report, and that the Solicitor do advise the Committee thereon.

52. KENSINGTON.—Read a Report by the Superintending Architect, dated 17th February, 1886, on the application of Mr. H. Godwin, on behalf of Colonel Gunter, for approval by the Board of a Plan for the formation of roads to lead out Earl's-court-road, and of the name "Barkston-gardens, S.W." for the same.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the said roads.

53. WANDSWORTH.—Read a Report by the Superintending Architect, dated 17th February, 1886, on a Notice from Mr. G. Cokayne, of his intention to form a road, as shown upon the Plan accompanying such Notice, to lead out of High-street, Putney, and to apply the name "Norroy-road, S.W.", to the same.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Notice and Plan be referred to the Building Act Committee, for consideration and report.

54. ST. JAMES, WESTMINSTER.—Read a Report by the Superintending Architect, dated 17th February, 1886, on the application of Messrs. Hatfield and Son, for approval by the Board of a Plan for the construction of a timber stage over the roof of No. 10, Little Marlborough-street, King-street, with openings in excess of the limit prescribed by the 13th Section of the Building Act, 1855.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

55. ST. GILES-IN-THE-FIELDS.—Read a Report by the Superintending Architect, dated 17th February, 1886, on a Letter from Mr. W. Simmons, requesting that the amount of the Office fees paid by him in respect of two Licenses granted for the use of concrete in the construction of the walls of No. 63, Lincoln's-inn-fields, and of Offices at the rear thereof, might be returned to him.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

56. NEWINGTON.—Read a communication from Mr. Banister Fletcher M.P., District Surveyor under the Metropolitan Building Act, 1855, for the District of West Newington, and part of Lambeth, dated 9th February, 1886, notifying that certain alterations and additions at No. 2, Heiron-street, Walworth, were about to be carried out under his professional superintendence, and requesting the Board to appoint some other Surveyor as the District Surveyor to superintend such works. Whereupon it was *moved* by Mr. Ewin, seconded, and *resolved*, and *ordered*, as follows—*Resolved*, Mr. Banister Fletcher, M.P., District Surveyor for the District of West Newington, and part of Lambeth, did on the 9th day of February, 1886, give notice to this Board that he, the said Banister Fletcher, was engaged to act professionally in respect of certain alterations and additions at No. 2, Heiron-street, Walworth, and the said Banister Fletcher has been since the said date, and now is, engaged to act professionally as

19 *February*, 1886.

aforesaid. Now, therefore, it is **ordered** by this Board—That Mr. George Lansdown, District Surveyor for the District of East Newington, and part of St. George-the-Martyr, Southwark, be appointed by this Board, and the said George Lansdown is hereby appointed to survey the said premises, for the purposes of the Metropolitan Building Act, 1855, and to act as District Surveyor in respect thereof.

Adjourned until Friday next, the 26th instant,
at this Office, at Twelve o'clock at noon.

No. 8.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday**, the **26th** day of **February**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. MCGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

EDWARD RIDER COOK, ESQ., M.P.	WILLIAM URQUHART, ESQ.	WILLIAM ANDREWS, ESQ.
THOMAS GEORGE FARDELL, ESQ.	JOHN ABBOTT, ESQ.	WILLIAM JAMES WETEN- HALL, ESQ.

CHARLES MOSSOP, ESQ.	JOHN RUNTZ, ESQ.	ALFRED POCOCK, ESQ.
PETER WILLIAM FUNNELL, ESQ.	ANDREW MIDDLEMASS, ESQ.	WILLIAM BOUTCHER, ESQ.
HON. ALANDE TATTON EGER- TON, M.P.	FREDERICK INGOLDBY, ESQ., F.R.C.S., Eng.	ROBERT GRANT WEBSTER, ESQ.
JOHN TOLHURST, ESQ.	GUILDFORD BARKER RICH- ARDSON, ESQ.	GEORGE HILL, ESQ.
HENRY HARBEN, ESQ.	ROBERT FURNISS, ESQ.	JOHN LENANTON, ESQ.
GEORGE EDWARDS, ESQ.	JOHN EDWIN BRADFIELD, ESQ.	EDWARD DRESSER ROGERS, ESQ.
CHARLES HARRIS, ESQ.	WILLIAM DEBENHAM, ESQ.	THEOPHILUS WILLIAM WIL- LIAMS, ESQ.
SAMUEL PRICE, ESQ.	FREDERICK COX, ESQ.	WILLIAM ROBSON, ESQ.
JOHN ROBERT JOLLY, ESQ.	JOHN REDDISH, ESQ.	WILLIAM ALEXANDER LIND- SAY, ESQ.
WILLIAM BURNHAM GAR- RETT, ESQ.	WILLIAM ROBBINS SELWAY, ESQ.	JAMES EBENEZER SAUNDERS, ESQ., DEPUTY.
GEORGE PITNEY MEADEN, ESQ.	SIR ROBERT NICHOLAS FOW- LER, BART., ALDERMAN, M.P.	

1. The Minutes of the Meetings of the Board, held on the 19th instant, were approved, and were signed by the Chairman, and by two other Members of the Board, present at such Meetings respectively.
2. Read a Letter, as follows—

50, Crondall-street, Hoxton,
February 20th, 1886.

SIR JAMES MCGAREL-HOGG,

It is my painful duty to inform you that Mr. Thomas Turner passed away to eternal rest this morning. His end was perfect peace.

I am, &c.,
(Signed) K. COLES.

It was **moved** by Mr. Fowler, seconded by Mr. Richardson, and **resolved**—That the Clerk do communicate to the family of the late Mr. Turner the Board's condolence with them in their bereavement.

It was *moved* by Mr. Fowler, seconded by Mr. Richardson, and *resolved*—That the decease of Mr. Turner be notified to the Vestry of Shoreditch.

3. A Deputation from the Bermondsey and Rotherhithe Workmen's Political Vigilance Association, introduced by Mr. Shepherd, and consisting of the following gentlemen, viz.—Mr. H. Richmond, Mr. R. Fairbairn, Mr. C. Hancock, Mr. W. Tingley, and Mr. W. H. Foreman, attended the Board, and presented a Memorial, which was read, as follows—

To the Metropolitan Board of Works.

The Humble Memorial of the Bermondsey and Rotherhithe Political Vigilance Association.

SEWETH—

That serious distress now exists amongst all the Working Class community, and many thousands of skilled and unskilled Labourers are unable to procure employment, the result of which their wives and families are reduced to a state of penury.

Your Petitioners, representing a Meeting of 3,000 workmen, held at Southwark-park on the 14th inst., were instructed to wait upon your Honourable Board to urge the absolute necessity of at once utilising the vacant sites in the Metropolis, by the erection of Artizan Dwellings.

Your Petitioners humbly request your Honourable Board to at once commence the local Improvements in the Parishes of Bermondsey and Rotherhithe, and to put in force the powers which have been acquired by your Honourable Board under the Metropolitan Improvements Acts.

Signed for the Bermondsey and Rotherhithe Workmen's Political Vigilance Association.

(Signed) H. RICHMOND,
Hon. Sec.

Feb. 26th, 1886.

The Deputation handed in a list of the Improvements referred to in the Memorial.

The Deputation having addressed the Board in support of the Memorial,

It was *moved* by Mr. Shepherd, seconded by Mr. Tolhurst, and *resolved*—That the Memorial be referred to the Works and General Purposes Committee, for consideration and report.

4. Mr. Runtz handed in a Letter, as follows—

Board of Works for the Hackney District.

Town-hall, Hackney, E.,
February 25, 1886.

LEE PURIFICATION BILL.

DEAR SIR,—This Bill having now reached the second reading, it has been suggested that a conference should be sought with the Parliamentary Committee of the Metropolitan Board of Works, who have the matter before them, and I am directed to ask whether your Board will authorise their Committee to receive a Deputation from my Board at an early date.

To J. E. Wakefield, Esq.,
Metropolitan Board of Works.

Yours, &c.
(Signed) RICHARD ELLIS.

It was *moved* by Mr. Runtz, seconded, and *resolved*—That the Letter be referred to the Parliamentary Committee, with authority to receive the proposed Deputation.

5. Mr. J. Jones, handed in a Letter, as follows—

The Board of Works for the Strand District.

5, Tavistock-street, Covent-garden, W.C.,
25th February, 1886.

DEAR SIR,—The Board having been informed that it is under the consideration of the Metropolitan Board of Works whether an increase in the Salaries of those in the employ of that Board shall be made, I am directed, by a Resolution of this Board, to state that, in the

opinion of the Board, and having regard to the general depression of trade in the country, it is very undesirable that at the present time, by an increase in such Salaries being made, the burden on the Ratepayers should be augmented.

J. E. Wakefield, Esq.,
Metropolitan Board of Works.

Yours, &c.,
(Signed) THOS. M. JENKINS,
Clerk to the Board.

It was *moved* by Mr. J. Jones, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee.

6. Mr. Runtz handed in a Letter, as follows—

Board of Works for the Hackney District.

Town-hall, Hackney, E.,
24th February, 1886.

DEAR SIR,—The Board of Works for the Hackney District have been in negotiation with the Owners of certain houses at High-street, Homerton, now in the course of re-erection, for the purpose of effecting an Improvement by widening this narrow main thoroughfare, and herewith I am directed to forward you Plan and duplicate, showing the proposed Improvement, the cost of which is estimated at £300, and to request the consideration of the Metropolitan Board of Works thereto with a view to their contributing a moiety of the cost.

J. E. Wakefield, Esq. Yours, &c.,
(Signed) RICHARD ELLIS.

It was *moved* by Mr. Runtz, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration and report.

7. Mr. Fardell, the Chairman of the Finance Committee, brought up a Report, as follows—

REPORT OF THE FINANCE COMMITTEE.

Spring-gardens, 23rd February, 1886.

Your Committee have to report that they have examined the Pass Books of the Treasurer and Banker of the Board, together with the Statements prepared by your Accountant, and have ascertained the Cash Account to be as follows—

Your Committee have also to report that they have examined the Certificates of the various principal Officers for the payment of the sums mentioned in the accompanying Statement, and have found the same correct ; and they recommend—

That the sums specified therein, amounting in the whole to £20,308 2s. 4d., be paid.

Your Committee have had before them Statements of certain sums payable to District Surveyors in respect of services in connection with Dangerous Structures, and for expenses of Shoring and Hoarding ; and they recommend—

That the necessary Orders be made with respect to the same.

Your Committee have considered the application of the Vestry of St. Pancras for payment of the Board's promised contribution towards the Improvement of Woodsome-road, Highgate-road, referred by the Board on the 30th October last (No. 7). The Board on the 21st January, 1881 (No. 7), agreed to contribute a sum not exceeding £500 towards the cost of the Improvement and opening up of Woodsome-road, estimated at £2,000, on the usual Certificates of their Officers ; and by a further Resolution passed on the 18th December, 1885 (No. 6), the Board on the recommendation of the Works Committee, who had had the accounts of the cost of effecting the Improvement before them, reduced their promised contribution from £500 to £395, being one-half of the net cost, excluding the charges for works. These facts having been brought to the notice of your Committee, and the necessary Certificate by your Superintending Architect of the completion of the work submitted to them, they recommend—

That a Cheque be drawn for £395 in favour of the Vestry of St. Pancras, being the amount to which the contribution was limited by the Board on the 18th December, 1885, in respect of the Improvement effected at Woodsome-road.

Your Committee have also considered the application of the Vestry of St. Pancras, for payment of the Board's promised contribution towards the Improvement of Princess-terrace, Gloucester-road, referred by the Board on the 29th January last (No. 34). The Board, on the 8th August, 1884 (No. 7), agreed to contribute one-half of the net cost, not exceeding £468, of the widening of this road on the usual Certificates of their Officers. Your Accountant, having certified that the sum of £937 has been paid for the land acquired, and your Superintending Architect that the necessary works have been satisfactorily completed, your Committee recommend—

That a Cheque be drawn for the sum of £468, in favour of the Vestry of St. Pancras, being the amount of the Board's promised contribution towards the Improvement at Princess-terrace.

On the 3rd July last (No. 7) an application was submitted to the Board from the Vestry of St. George, Hanover-square, for a Loan of a sum of £24,000 to purchase land and erect, fit up, and furnish a Vestry-hall and Offices, and on the 23rd October last (No. 15) the Board passed an Order sanctioning the borrowing by the Vestry of £5,000 to purchase land, and £16,000 to erect the Vestry-hall and Offices, leaving the question of fittings and furnishing open until their nature and cost had been decided upon by the Vestry, and it was referred to the Solicitor to complete the Loan. During the necessary investigation by that Officer, a doubt arose as to the power of the Vestry, who proposed to accommodate the Guardians by providing Offices for them in the same building, which necessitated the purchase of more land and the erection of a larger building than the Vestry would otherwise have required ; and as this extra expenditure, although probably legal and beneficial as affecting the interests of the Parish as represented by the Guardians, was outside the purposes for which the Vestry are empowered by the 183rd Section of the Metropolis Local Management Act, 1855, to borrow money, your Solicitor considered that the Board could not properly make the advance, and a case was accordingly prepared and submitted to Mr. Brickdale, an eminent conveyancing Counsel, whose opinion was that, as the Vestry and Guardians in this Parish had always occupied Offices in the same building, it was within the spirit of the Act, though

not the letter, that the Vestry might provide a new building to be occupied as the old, and that this Board were not bound to interpose their veto, though considering the doubt to which the point was open, he did not advise the Board to lend the money. The representatives of the Vestry were dissatisfied with this opinion, and accordingly your Committee decided that a further opinion should be taken, and that it should be referred to the Chairman of the Board, the Chairman of the Finance Committee and your Solicitor to ascertain, from the representative of the Vestry and the Officers and legal advisers of that body, whether they had any additional facts which they wished to be inserted in the case. A conference took place, all the parties mentioned were present, and after the representations of the Vestry had been heard, it was decided to take the opinion of the late Attorney-General (Sir R. Webster) and Mr. Meadows White, Q.C. The result has been that these eminent Counsel have advised that if the sum required for land and buildings, namely £21,000, was larger than necessary for so much as was required for the Vestry purposes, as distinguished from the purposes of the Guardians, it would be as well for the Board to re-consider the matter, and if necessary take steps to modify their decision. In deference, therefore, to this opinion, your Committee have re-considered the application of the Vestry. They have been attended by Mr. Webster, one of the representatives of the Vestry, and the Board's Officers have been attended by the Vestry Clerk and Architect, as to the amount which should be legitimately expended on the land and offices required for the Vestry purposes, and after a careful consideration of the matter and an examination of the Plan of the site and Drawings of the proposed Offices, your Committee have arrived at the conclusion, on the Report of your Superintending Architect, that the amount to be advanced for the purchase of the requisite land should be limited to £2,250, and for the buildings to £13,750, making a total of £16,000 instead of £21,000, and they therefore recommend—

That the Resolution of the Board of the 23rd October, 1885 (No. 15), sanctioning the raising by the Vestry of St. George, Hanover-square, of the sum of £5,000 for the purchase of land, and £16,000 for the erection of Vestry Offices, and for the advance of that amount to the Vestry, be not further acted upon.

That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the Vestry of St. George, Hanover-square, be informed in reply to their application for permission to borrow a sum of £21,000 to defray the cost of purchasing land for Vestry Offices and for buildings, that this Board are willing to sanction the Loan for Vestry purposes only, to the extent of £16,000, and to make the advance on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly, on the 31st January, the 30th April, the 31st July, and the 31st December in each year, and the principal being re-paid by equal annual instalments on each 31st January, as to £2,250 for the purchase of land in 50 years, and as to £13,750 for the erection of Offices for the use of the Vestry in 30 years; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the General Capital Account.

Your Committee have considered the application of the Vestry of St. Luke, for an advance of a sum of £1,700 for sewerage works, referred by the Board on the 5th instant (No. 49). The Vestry propose to have laid down in Old-street 3,050 feet of 18-inch pipe Sewers, encased in Portland cement concrete, and to construct 16 man-holes to give access thereto, at an estimated cost of £1,700, which your Engineer considers fair and reasonable. The Plans for the works having been approved by the Board on the 12th instant (No. 20), your Committee recommend—

That, subject to the Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the application of the Vestry of St. Luke for an advance of a sum of £1,700, to defray the cost of sewerage works in Old-street, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 31st January, the 30th April, the 31st July, and the 31st October in each year, and the principal being re-paid by equal annual instalments on

each 31st January within 30 years ; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the General Capital Account.

Your Committee have considered the Letter from the Vestry of Islington, requesting a Loan of a sum of £30,000, to pay their share of the cost of purchasing Highbury-fields, referred by the Board on the 12th instant (No. 42). Under the Board's Various Powers Act, 1885, the Board were empowered to purchase Highbury-fields, at the price of £60,000, and the Vestry of Islington were required, from time to time, to contribute towards the Board's expenses in relation to the purchase, acquisition, and extinction of the interest and rights therein, a sum not exceeding one-half of such expenses. The Board, on the 21st December, last paid the entire cost of acquiring the fields, viz., £60,300, and, on the 29th ultimo, directed an application to be made to the Vestry for payment of £30,000 on account of such expenditure, and the Vestry propose to take up a Loan to pay the amount, so as to ease the rates by spreading the re-payment over a long period of years. This is provided for by the Act, the period of re-payment being limited to 60 years, but as the fund out of which the advance will be made will be required to be recouped by 1941, it is necessary that the time should be limited to 55 years. Your Committee accordingly recommend—

That, subject to the Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the application of the Vestry of Islington for a Loan of a sum of £30,000, to pay their contribution towards the acquisition of Highbury-fields, be granted, on condition that the Loan be taken up without delay, interest being charged thereon from the 21st December last, at the rate of £3 10s. per centum per annum, payable quarterly on the 31st January, the 30th April, the 31st July, and the 31st October in each year, and the principal being re-paid by equal annual instalments on each 31st January within 55 years ; that it be referred to the Solicitor to complete the Loan ; and that the amount be advanced out of the General Capital Account.

Your Committee have considered the Letter from the Managers of the Central London School District, for an advance of a sum of £7,700, referred by the Board on the 8th ultimo (No. 43). The Loan is required, as to £5,500, to defray the cost of purchasing about 25a. Or. 37p. of freehold land in Cuckoo-lane, Hanwell, adjoining the District School, and the £2,200 for the erection of certain buildings and offices and for alterations at the School. The Plans have been examined by your Superintending Architect, who considers the proposed expenditure reasonable, and as the Managers have received the necessary consent of the Local Government Board to borrow the money, your Committee recommend—

That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Managers of the Central London School District, for the advance of a sum of £7,700, for defraying the cost of purchasing additional land, and making alterations to their School near Hanwell, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 31st January, the 30th April, the 31st July and the 31st October, in each year, and the principal being re-paid by equal annual instalments on each 31st January, as to £7,500 within 30 years, and as to £200 within 15 years ; that the sum of £8 8s. be charged for Surveyor's Fees ; that it be referred to the Solicitor to complete the Loan, and that the amount be advanced out of the General Capital Account.

Your Committee have to report that, in pursuance of the Bye-law of the Board, they have had before them the several Bonds and other Securities given by your Accountant, and by other Officers of the Board, for the faithful performance of their official duties, and your Committee have ascertained that in the case of the Officers for whose fidelity the security of Guarantee Societies is given, the premiums on the Policies have been regularly paid. Your Committee have also had submitted to them the Bond given by Mr. J. Smith for duly accounting for the amount to be raised for payment of the Board's Precepts on the Inner Temple and Lincoln's-inn, and also the Bond given by Mr. Russell, the Rent Collector, for duly accounting for the Rents received on behalf of Board. Your Committee have also had before them a Report by your Solicitor as to the responsibility of the sureties under the several Bonds, and they find that the result of the enquiries which have been made is satisfactory.

Your Committee recommend—

That the Cheque, No. 595, drawn on the 16th November, 1885, on the Streets (Act of 1883) Account, in favour of Mrs. Calvert, for £25, be cancelled, having been drawn longer than three months.

All which your Committee beg to submit.

(Signed) T. G. FARDELL,
JOHN TOLHURST,
CHAS. MOSSOP,
P. W. FUNNELL.

STATEMENT SUBMITTED WITH THE FOREGOING REPORT.

Accountant.

The Report having been read and received,

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the sums specified in the Statement submitted by the Committee, amounting in the whole to £20,308 2s. 4d., be paid.

Cheques were thereupon signed by two Members of the Board present at the Meeting.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the Fees specified in the Three summaries of Accounts now presented to the Board, marked A to C inclusive, and signed by their Clerk, be paid to the respective District Surveyors mentioned in the following Abstract, for services performed by them in connection with Dangerous Structures in the Metropolis, not being within the City of London, such services being the surveying, by direction of the Board, under the second part of the Metropolitan Building Act, 1855, and pursuant to the Metropolitan Building Act, 1869, of Structures reported to be in a dangerous state, and certifying opinions thereon; and also for special services performed by them in cases in which special services have been required.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That a Cheque be now drawn for the sum of £395 in favour of the Vestry of St. Pancras, being the amount to which the contribution was limited by the Board on the 18th December, 1885, in respect of the Improvement effected at Woodsome-road.

A Cheque for the sum of £395 was thereupon drawn on the General Capital Account.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That a Cheque be now drawn for the sum of £468, in favour of the Vestry of St. Pancras, being the amount of the Board's promised contribution towards the Improvement at Princess-terrace.

A Cheque for the sum of £468 was thereupon drawn on the General Capital Account.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the Resolution of the Board of the 23rd October, 1885 (No. 15), sanctioning the raising by the Vestry of St. George, Hanover-square, of the sum of £5,000 for the purchase of land, and £16,000 for the erection of Vestry Offices, and for the advance of that amount to the Vestry, be not further acted upon.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That, subject to this Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the Vestry of St. George, Hanover-square, be informed in reply to their application for permission to borrow a sum of £21,000 to defray the cost of purchasing land for Vestry Offices and for buildings, that this Board are willing to sanction the Loan for Vestry purposes only to the extent of £16,000, and to make the advance on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly, on the 31st January, the 30th April, the 31st July, and the 31st December, in each year, and the principal being re-paid by equal annual instalments on each 31st January, as to £2,250 for the purchase of land within a period of Fifty years, and as to £13,750 for the erection of Offices for the use of the Vestry within a period of Thirty years; that it be referred to the Solicitor to take the necessary measures for completing the Loan, and that the amount be advanced out of the General Capital Account.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That, subject to the Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the application of the Vestry of St. Luke for an advance of a sum of £1,700, to defray the cost of sewerage works in Old-street, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 31st January, the 30th April, the 31st July, and the 31st October in each year, and the principal being re-paid by equal annual instalments on each 31st January within a period of Thirty years; that it be referred to the Solicitor to take the necessary measures for completing the Loan, and that the amount be advanced out of the General Capital Account.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That, subject to the Board hereafter giving their written consent under their Seal to the borrowing, and subject to all proper consents, and evidence being furnished to the satisfaction of the Solicitor, the application of the Vestry of Islington for a Loan of a sum of £30,000, to pay their contribution towards the acquisition of Highbury-fields, be granted, on condition that the Loan be taken up without delay, interest being charged thereon from the 21st December last at the rate of £3 10s. per centum per annum, payable quarterly on the 31st January, the 30th April, the 31st July, and the 31st October in each year, and the principal being re-paid by equal annual instalments on each 31st January within a period of Fifty-five years; that it be referred to the Solicitor to take the necessary measures for completing the Loan; and that the amount be advanced out of the General Capital Account.

It was ~~moved~~ by Mr. Fardell, seconded, and ~~resolved~~—That, subject to all proper consents and evidence being furnished to the satisfaction of the Solicitor, the application of the Managers of the Central London School District, for the advance of a sum of £7,700, for defraying the cost of purchasing additional land, and making alterations to their School near Hanwell, be granted, on condition that the Loan be taken up without delay, interest being charged thereon at the rate of £3 10s. per centum per annum, payable quarterly on the 31st January, the 30th April, the 31st July and the 31st October, in each year, and the principal being re-paid by equal annual instalments on each 31st January, as to £7,500 within a period of Thirty years, and as to £200 within a period of Fifteen years; that the sum of £8 8s. be charged for Surveyor's Fees; that it be referred to the Solicitor to take the necessary measures for completing the Loan and that the amount be advanced out of the General Capital Account.

It was ~~moved~~ by Mr. Fardell, seconded, and ~~resolved~~—That so much of the Report as relates to the result of the examination of the Bonds and Securities given to the Board be approved.

It was ~~moved~~ by Mr. Fardell, seconded, and ~~resolved~~—That the Cheque No. 595, drawn on the 16th November, 1885, on the Streets (Act of 1883) Account, in favour of Mrs. Calvert, for £25, be now cancelled, having been drawn longer than Three months.

The said Cheque was thereupon cancelled accordingly.

8. The Board proceeded to further consider the Report of the Works and General Purposes Committee, recommending that the consent of the Board be not given to the South Metropolitan Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order, the consideration of which was adjourned on the 12th instant.

The Clerk laid before the Board the Letter from Mr. D. Morris, Clerk to the Vestry of Tooting, dated 16th February, 1886, forwarding a copy Resolution of the Vestry, approving of the proposed Tramway from Clapham to Merton, and expressing a hope that the Board would sanction the scheme, the consideration of which was deferred on Friday last (No. 31) until the Report of the Committee, with respect to the South Metropolitan Tramways Scheme, should be further considered.

The Clerk also laid before the Board a Letter from Mr. J. E. Lambert, transmitting a Petition from frontagers in support of the South Metropolitan Tramways Scheme, and also a Petition of inhabitants of the District through which the proposed line would pass, in support of the Scheme, and asking for the Board's sanction thereto.

It was ~~moved~~ by Mr. Fowler, and seconded—That the consent of the Board be not given to the South Metropolitan Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order.

Mr. Cameron, having by leave of the Board modified the amendment of which he had given notice, ~~moved~~—That the consent of the Board be given to the South Metropolitan Tramways Scheme, the Promoters of which have applied to the Board of Trade for a Provisional Order, on the conditions usually imposed by the Board.

The amendment having been seconded by Mr. Meaden, it was put to the vote, and declared by the Chairman to be carried.

The amendment was then put as an original motion,

Whereupon an amendment was ~~moved~~ by Mr. Selway, and seconded—That the Board do consent to a Provisional Order being made by the Board of Trade authorising the construction of the Tramways specified in the South Metropolitan Tramways Scheme, on condition that none of the proposed Tramways within the Metropolitan area shall be laid until the roads in which they are to be laid shall have been widened, at the expense of the Promoters, to not less than 47 feet, to the satisfaction of the Board and the Wandsworth District Board, and that such further amendments be made in the terms of the Order as will give effect to the usual requirements of the Board.

The amendment having been put to the vote, it was declared by the Chairman to be carried, and having been put as an original motion, it was also carried, and it was resolved accordingly.

9. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 22nd February, 1886.

Your Committee have to report that, under the authority conferred upon them by the Board, they have drawn Cheques for the following amounts—

------	---	-----	-----	-----	---------

In compliance with the reference by the Board of Friday last (No. 1), your Committee have considered further the Cricklewood, Kilburn, and Harrow-road Tramways Bill, and they have now to submit the following recommendation—

That upon the promoters of the Cricklewood, Kilburn, and Harrow-road Tramways Bill giving an undertaking to omit from the Bill the power to form a Tramway from Cricklewood to the boundary of the Parish of Paddington at Cambridge-road, and to agree to the insertion of Clauses providing that the Tramway in Harrow-road shall not be carried further South than the Lock Bridge, and that none of the rails of the Tramways shall be at a less distance than 9 feet 6 inches from the kerb of the foot-way, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

Your Committee, in pursuance of the reference by the Board of the 12th instant (No. 17), have considered the subject of the Regulations made by the Parks, Commons, and Open Spaces Committee, and reported on that day for the information of the Board, with respect to the number and payment of the persons who shall be employed on the labouring staff in and upon the Board's Parks and Gardens and Open Spaces. The Parks Committee, in submitting these Regulations, which are set out on the Minutes of the Board, refer to arrangements which they have from time to time made, under certain Resolutions of

the Board, for the mowing of the grass in the Parks and the employment of labourers in connection with the trees and the maintenance of the Open Spaces, and state that those arrangements are perhaps somewhat more extensive than the Resolutions referred to may be thought to cover. Your Committee, after carefully considering this subject, concur in the view of the Parks Committee as to the desirability of these Regulations, and they recommend—

That the same be approved by the Board.

Your Committee desire to state for the information of the Board, with reference to the Memorial of the Greenwich District Board, urging the desirability of at once proceeding with the construction of a lake on Blackheath, with a view to providing work for the unemployed, that the Memorialists not being prepared with the information in connection with the proposal which they desire to be placed before the Committee, the consideration of the Memorial has been adjourned at the request of the representatives of the District until Monday next

Your Solicitor has reported to your Committee, with reference to a claim by Mrs. Lane, amounting to £50, for damage done to a field by the construction of the Lee and Eltham Sewer, that the claimant has agreed to accept £28 3s. in settlement. Your Committee recommend—

That this amount be paid, and that a Cheque be drawn accordingly.

Your Committee have further to report that they have considered the Letter from the Vestry of St. Pancras, referred by the Board on the 29th ultimo (No. 33), referring to the reduction of the Board's promised contribution towards the Woodsome-road Improvement from £500 to £395, and asking how the figures £780 9s. 2d., stated by the Board's Officers to be the net cost, were arrived at; also asking that, in consideration of the circumstances mentioned in the Letter, the Board would make the full contribution of £500 originally promised. Your Committee, having given due consideration to this matter, are not prepared to advise the Board to increase the amount of contribution stated in their Resolution of the 18th December last—namely, £395—and they recommend—

That the Vestry be informed to that effect, and that a statement showing the net cost be sent to them in compliance with their request.

Your Committee have further to report that they have considered the Letter from the Wandsworth District Board of Works, referred on the 19th instant, expressing their regret that the Board are not prepared to widen the Western approach to new Putney Bridge to the full width of 50 feet, opposite the mouth of the draw-dock, pointing out that unless the road is widened at that point, the traffic will be congested, and an additional danger will be caused by the footpath being on one side only, and asking that the matter may be re-considered. Your Committee, having given due attention to this application, are not prepared to advise the Board to depart from their previous decision, and they recommend—

That a reply be addressed to the District Board accordingly.

All which your Committee beg to submit.

(Signed) J. MCGAREL-HOGG,
FRANCIS H. FOWLER,
JOHN TOLHURST,
P. W. FUNNELL,
GEO. EDWARDS,
JOHN RUNTZ,
J. E. BRADFIELD,
W^M. SHEPHERD.

The Report having been read and received,

It was *moved* by Mr. Fowler, seconded, and *resolved*—That a Cheque, as follows, be now drawn—

General Capital Account.

Re Powell and Marriott (Hackney Commons)—(574)—

Hare and Co.—

6180	Taxed costs of Attorney-General in action	...	...	<u>£31</u>	<u>6</u>	<u>5</u>
------	---	-----	-----	------------	----------	----------

A Cheque was thereupon drawn accordingly.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That upon the promoters of the Cricklewood, Kilburn, and Harrow-road Tramways Bill giving an undertaking to omit from the Bill the power to form a Tramway from Cricklewood to the boundary of the Parish of Paddington at Cambridge-road, and to agree to the insertion of Clauses providing that the Tramway in Harrow-road shall not be carried further South than the Lock Bridge, and that none of the rails of the Tramways shall be at a less distance than 9 feet 6 inches from the kerb of the foot-way, and further to amend the Bill in the manner required by the Board, the consent of the Board be given to the introduction of the Bill into Parliament.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the general Regulations reported to the Board by the Parks, Commons, and Open Spaces Committee on the 12th instant, with respect to the number and payment of the persons who shall be employed on the labouring staff in and upon the Board's Parks and Gardens and Open Spaces, be approved.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the sum of £28 3s. be paid by the Board in settlement of the claim of Mrs. Lane, for damage done to a field by the construction of the Lee and Eltham Sewer; and that a Cheque be now drawn for the amount.

A Cheque was thereupon drawn on the Main Drainage and Main Sewers Account.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Vestry of St. Pancras be informed, in reply to their further Letter on the subject of the Woodsome-road Improvement, that the Board are unable to depart from their decision limiting their contribution to £395, and that a statement showing the net cost be sent to the Vestry in compliance with their request.

It was *moved* by Mr. Fowler, and seconded—That the Wandsworth District Board be informed, in reply to their further Letter on the subject of the Western approach to new Putney Bridge, that the Board are unable to depart from their previous view that at present it is undesirable to make any alteration in the width of the approaches to the Bridge.

An amendment thereon was *moved* by Mr. Cameron, and seconded by Mr. Meaden—That the consideration of the subject be adjourned in order that a Deputation may be received from the District Board.

The amendment having been put to the vote, there were for it 6, against it 15, and it was declared by the Chairman to be lost.

The original motion was then put to the vote and declared by the Chairman to be carried, and it was *resolved* accordingly.

10. Mr. Ewin, the Chairman of the Building Act Committee, brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 16th February, 1886.

Your Committee have to report that they have, pursuant to the Resolution of the Board of the 22nd November, 1878 (No. 48), considered the following applications

for the re-naming and re-numbering of various streets and places in the Metropolis, viz.—

DATE.	APPLICATION.
22nd April, 1884.	Postmaster-General, for re-numbering the houses in various streets in the Metropolis.
26th February, 1885.	Vestry of St. Pancras, for re-naming Prospect-place and Cottages, Highgate-road, "Greenwood-place, N.W.," and re-numbering the houses therein.
13th August, 1885.	Vestry of Islington, for re-numbering the houses in Highgate-hill (from Junction-road to St. Joseph's-schools), St. John's-villas, Holloway-road, and Tavistock-terrace, Holloway-road.
4th December, 1885.	Inhabitants of the neighbourhood, that Heathfield-gardens, Cannon Hall-road and Cannon-place, Hampstead, may be incorporated as Cannon-place and the houses re-numbered.
18th December, 1885.	Mr. R. W. Monro, Hon. Sec. Central London Dwellings Improvement Company, that Cross-lane, St. Giles, may be re-named "Newton-street," in continuation of Newton-street, Holborn."

Your Committee have received Reports from your Superintending Architect on the above-mentioned applications; they have also inspected Plans, prepared under his direction, showing the alterations which it is desirable to make in the naming and numbering of the several thoroughfares, and they recommend—

That the houses in Alpha-road, New-cross, be re-numbered.

That the houses in England's-lane and Chalcot-gardens, Hampstead, be re-numbered.

That Pilgrim-street, Kennington, be re-named "Montford-place," in continuation of the existing street of that name, and the houses numbered accordingly.

That Park-walk and Stockwell-park-walk, Lambeth, be incorporated under the latter name, and the houses re-numbered.

That Prospect-place and Prospect-cottages, Highgate-road, be re-named "Greenwood-place, N.W.," and the houses re-numbered.

That the subsidiary names in Highgate-hill be abolished, and the houses re-numbered from Junction-road to St. Joseph's Schools.

That the houses in St. John's-villas, Holloway-road, be re-numbered.

That the houses in Tavistock-terrace, Holloway-road, be re-numbered where necessary.

That Heathfield-gardens, Cannon-hall-road, and Cannon place, Hampstead, be incorporated under the name "Cannon-place, N.W.," and the houses re-numbered.

That the houses in Cross-lane, St. Giles, be re-numbered in continuation of those in Newton-street, Holborn, and the name "Cross-lane" abolished.

All which your Committee beg to submit.

(Signed)

A. EWIN,
FRANCIS H. FOWLER,
W^M. SHEPHERD.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862.

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Alpha-road, in the Parish of St. Paul, Deptford, in the County of Kent, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,644 in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 23, being assigned to the houses on the Eastern side, and the even numbers commencing with 2 and ending with 18, to those on the Western side; that such numbers do commence at the Northern end; that the name Sussex-terrace, and any other name or names now in use in

Alpha-road, and the existing numbers, be abolished ; that the whole line of thoroughfare be called " Alpha-road, S.E.," and that notice of this Order be given to the Board of Works for the Greenwich District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of England's-lane, Chalcot-gardens, and Elizabeth-terrace, in the Parish of St. John, Hampstead, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,645, in lieu of the existing numbers, as shown on the said Plan ; the odd numbers, commencing with 1 and ending with 55, being assigned to the houses on the Southern side, and the even numbers, commencing with 2 and ending with 50, to those on the Northern side ; that such numbers do commence at the Eastern end ; that the names, Chalcot-gardens and Elizabeth-terrace, and the existing numbers, be abolished ; that the whole line of thoroughfare be called " England's-lane, N.W.," and that notice of this Order be given to the Vestry of Hampstead, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Pilgrim-street, in the Parish of Lambeth, in the County of Surrey, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,646, in lieu of the existing numbers, as shown on the said Plan ; the odd numbers, commencing with 29 and ending with 49, being assigned to the houses on the Western side, and the even numbers, commencing with 20 and ending with 56, to those on the Eastern side ; that the names Pilgrim-street and Elizabeth-terrace, and the existing numbers, be abolished ; that the whole line of thoroughfare be called " Montford-place, S.E.," in continuation of the existing street of that name ; and that notice of this Order be given to the Vestry of Lambeth pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolved, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Stockwell-park-walk, in the Parish of Lambeth, in the County of Surrey, be marked with consecutive numbers, commencing with 1 and ending with 15, as shown by red figures on the Plan now produced, marked 3,647, in lieu of the existing numbers, as shown on the said Plan ; that such numbers do commence at the Eastern end ; that the names York-villas and Park-walk, and the existing numbers, be abolished ; that the whole line of thoroughfare be called " Stockwell-park-walk, S.W.," and that notice of this Order be given to the Vestry of Lambeth, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuan

to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in Prospect-place, Highgate-road, in the Parish of St. Pancras, in the County of Middlesex, be marked with consecutive numbers, commencing with 1 and ending with 29, as shown by red figures on the Plan now produced, marked 3,648; in lieu of the existing numbers as shown on the said Plan: that the names Prospect-place and Prospect-cottages, and the existing numbers, be abolished; that the whole be called "Greenwood-place, N.W.," and that notice of this Order be given to the Vestry of St. Pancras, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises between Junction-road and St. Joseph's Schools, in the line of thoroughfare known by the name of Highgate-hill, in the Parish of St. Mary, Islington, in the County of Middlesex be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,649, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 99, being assigned to the houses on the South-Western side, and the even numbers, commencing with 2 and ending with 120, to those on the North-Eastern side; that such numbers do commence at the end nearest Junction-road; that the names Sutton-place, Whittington-place, Whittington-terrace, Upper Whittington-place, Archway-place, Bedford-cottages, Bedford-place, Blenheim-place, Clifton-villas, and any other name or names now in use in Highgate-hill, between the points indicated, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Highgate-hill, N.," and that notice of this Order be given to the Vestry of Islington, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of St. John's-villas, in the Parish of St. Mary, Islington, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,650, in lieu of the existing numbers, as shown on the said Plan; the odd numbers commencing with 1 and ending with 67, being assigned to the houses on the North-Western side, and the even numbers commencing with 2 and ending with 66, to those on the South-Eastern side; that such numbers do commence at the end nearest Holloway-road; that the name Lawn-terrace, and any other name or names now in use in St. John's-villas, and the existing numbers, be abolished; that the whole line of thoroughfare be called "St. John's-villas, N.," and that notice of this Order be given to the Vestry of Islington, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the **motion** of Mr. Ewin—That, for the purpose of distinguishing the same, certain houses and premises in the line of

thoroughfare known by the name of Tavistock-terrace, in the Parish of St. Mary, Islington, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,651, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 25 and ending with 59, being assigned to the houses on the North-Western side, and the even numbers commencing with 24 and ending with 50 to those on the South-Eastern side; that certain of the existing numbers be abolished; that the whole line of thoroughfare be called "Tavistock-terrace, N.," and that notice of this Order be given to the Vestry of Islington, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the names of Cannon Hall-road and Cannon-place, in the Parish of St. John, Hampstead, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,652, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 1 and ending with 25, being assigned to the houses on the Northern side, and the even numbers commencing with 2 and ending with 12, to those on the Southern side; that such numbers do commence at the Western end; that the names Cannon Hall-road and Heathfield-gardens, and the existing numbers, be abolished; that the whole line of thoroughfare be called "Cannon-place, N.W." and that notice of this Order be given to the Vestry of Hampstead, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

The Report of the Building Act Committee of the 16th day of February, 1886, appointed by this Board, having been read and considered, this Board doth, pursuant to the provisions of the Metropolis Management Act, 1855, and Metropolis Management Amendment Act, 1862,

Resolve, and it is hereby **resolved** and **ordered**, on the motion of Mr. Ewin—That, for the purpose of distinguishing the same, the several houses and premises in the line of thoroughfare known by the name of Cross-lane, in the Parish of St. Giles-in-the-Fields, in the County of Middlesex, be marked with the numbers, as shown by red figures on the Plan now produced, marked 3,653, in lieu of the existing numbers, as shown on the said Plan; the odd numbers, commencing with 21 and ending with 31, being assigned to the houses on the Eastern side, and the even numbers, commencing with 10 and ending with 12, to those on the Western side; that the name Cross-lane and the existing numbers be abolished; that the whole line of thoroughfare be called "Newton-street, W.C.," in continuation of the existing street of that name, and that notice of this Order be given to the Board of Works for the St. Giles District, pursuant to the 87th Section of the said Metropolis Management Amendment Act, 1862.

11. Mr. Ewin, the Chairman of the Building Act Committee brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 26th February, 1886.

Your Committee have to report that they have further considered the question of the steps it is desirable to take with respect to Humphreys' Hall, at Albert-gate, Knightsbridge. The Board on Friday last approved of a Drawing for the construction of a new stone staircase, 4 feet 6 inches wide, leading directly from the restaurant in the basement of Humphreys' Mansion into High-road, Knightsbridge, and resolved to issue their Certificate upon the satisfactory completion of such staircase in accordance with

the Drawing. Your Committee have now to report that the staircase has been completed in a satisfactory manner, and has a roof constructed of York stone landings on iron bearers. The wall in Phoenix-place near the South-Western exit of the Hall has been removed in accordance with the requirement of the Board, and the concrete floor of the additional exit into High-road, Knightsbridge, is nearly completed. Your Committee are of opinion that the Certificate of the Board under the Act of 1878 may now be issued to the Owner of the Hall, and having regard to the Resolutions of the Board and to the works which have been executed, your Committee are further of opinion that the following conditions should be attached to such Certificate—

1.—That the openings on the East side of the Eastern entrance corridor out of High-road, Knightsbridge, be stopped up with brickwork the full thickness of the wall in which such openings are situated, immediately upon the expiration of the present lease of the shop adjoining No. 21, High-road, Knightsbridge.

2.—That there shall be no bars for the sale of intoxicating liquors in that portion of the premises which was formerly the “Sun” Music-hall.

Your Committee therefore recommend—

That the Certificate prepared by the Solicitor be sealed, and be issued to the Owner.

All which your Committee beg to submit.

(Signed) A. EWIN,
A. DE TATTON EGERTON,
W^m. SHEPHERD,
G. P. MEADEN.

The Report having been read and received,

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Certificate, prepared by the Solicitor, with reference to Humphreys’ Hall, at Albert-gate, Knightsbridge, be sealed, and be issued to the Owner of the Hall.

The Clerk laid before the Board the Certificate in duplicate.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said Certificate in duplicate, and the Seal was affixed accordingly.

12. Mr. Pocock, the Chairman of the Special Purposes and Sanitary Committee, brought up a Report, as follows—

REPORT OF THE SPECIAL PURPOSES AND SANITARY COMMITTEE.

Spring-gardens, 23rd February, 1886.

Your Committee have to report that proceedings have been taken against James Murrell, St. George’s Market, for breach of the Board’s Slaughterhouse Bye-laws, and that he was fined 20s. and 2s. costs.

Your Committee have further to report that they have had under consideration an application from Mrs. M. Muncey, for renewal of registration under the Infant Life Protection Act. The conditions under which the Infants in the applicant’s care are kept continue satisfactory, and your Committee recommend—

That the application from Mrs. M. Muncey, for registration for the keeping of Infants at No. 31, Kilmaine-road, Salisbury Estate, Fuiham, be granted, and that the Board do make a Bye-law fixing 3 as the number of Infants allowed to be kept at such premises.

Your Committee have further to report that they have had under consideration an application from Mr. Joseph Kendall, for the renewal of his Petroleum License, and, as they find that the arrangements in connection with the storage are no longer satisfactory, they recommend—

That the application from Mr. Joseph Kendall, for renewal of License to keep 10 gallons of Petroleum at No. 87, Marchmont-street, St. Pancras, be not granted.

Your Committee have also had under consideration an application from Messrs. Lewis

Berger and Sons (Limited) for the renewal of their Petroleum License. As the conditions of storage continue satisfactory, your Committee recommend—

That a License be granted to Messrs. Lewis Berger and Sons (Limited), for a period of 12 months from the 26th inst., for the keeping of 10,000 gallons of Petroleum at their premises in Water-lane, Homerton, in accordance with the terms of the draft License submitted.

Your Committee also submit a list of 70 applications for Licenses to keep Petroleum in small quantities, and recommend—

That in 54 cases Licenses be granted to keep a quantity not exceeding 10 gallons of Petroleum in each case at the places named, and in accordance with the conditions of License No. 91; that in 6 cases Licenses be granted to keep Petroleum at the places named in a store situated and constructed in accordance with License No. 90, and that in 10 cases special Licenses be granted to keep Petroleum at the places named in the manner described in such Licenses.

Your Committee have further to report that proceedings have been taken against Messrs. Cannon and Co., of Davies-street, Berkeley-square, for an unlicensed storage of Petroleum, and that they were fined £10 and 2s. costs. The magistrate granted an application from the Defendants' Solicitor for the statement of a special case, on the point that the Defendants are not dealers in Petroleum within the meaning of the Act and do not therefore require a License.

All which your Committee beg to submit.

(Signed) ALFRED POCOCK,
FRED^K. INGOLDBY,
JOHN RUNTZ.

The list of applications for Licenses to store Petroleum, submitted by the Committee, was laid before the Board.

The Report having been read and received,

It was moved by Mr. Pocock, seconded, and resolved—That Mrs. M. Muncey be registered under the Infant Life Protection Act, for the keeping of Infants at No. 31, Kilmaine-road, Salisbury Estate, Fulham, and that the Board do hereby make a By-law fixing three as the number of Infants allowed to be kept at such premises.

It was moved by Mr. Pocock, seconded, and resolved—That the application of Mr. Joseph Kendall, for renewal of his License to keep 10 gallons of Petroleum at No. 87, Marchmont-street, St. Pancras, be not granted.

It was moved by Mr. Pocock, seconded, and resolved—That a License be granted to Messrs. Lewis, Berger and Sons (Limited), for a period of 12 months from this date, for the keeping of 10,000 gallons of Petroleum at their premises in Water-lane, Homerton, in accordance with the terms of the draft License now submitted.

It was moved by Mr. Pocock, seconded, and resolved—That Licenses be granted to the Seventy persons mentioned in the list now submitted, to keep Petroleum in the places and in the quantities stated in such Licenses, for a period of Twelve months from this date, subject to the conditions mentioned in the several Licenses.

The Licenses referred to in the foregoing Resolutions were laid before the Board.

It was moved by Mr. Pocock, seconded, and resolved—That the Common Seal of the Board be affixed to the said Licenses; and the Seal was affixed accordingly.

13. Mr. Pocock, the Chairman of the Contagious Diseases (Animals) Act, 1878, Executive Committee, brought up a Report, as follows—

REPORT OF THE CONTAGIOUS DISEASES (ANIMALS) ACT, 1878, EXECUTIVE COMMITTEE.

Spring-gardens, 23rd February, 1886.

Your Committee have to report that they have examined the Cattle Inspectors'

Accounts for the quarter ended 31st December, 1885, amounting to £272 10s. 11d., and that they have passed the same for payment.

All which your Committee beg to submit.

(Signed)

ALFRED POCOCK,
FRED^K. INGOLDBY,
JOHN RUNTZ.

The Report having been read,

It was ~~moved~~ by Mr. Pocock, seconded, and ~~resolved~~—That the Report be received.

14. Mr. Bradfield, the Chairman of the Parks, Commons, and Open Spaces Committee, brought up a Report, as follows—

REPORT OF THE PARKS, COMMONS, AND OPEN SPACES COMMITTEE.

Spring-gardens, 24th February, 1886.

Your Committee have to report that it is desirable that some provision should be made for the horse hire required in Southwark-park and on the Open Spaces South of the Thames. They find that at Finsbury-park a horse, cart, and man are supplied by contract at the rate of 9s. per day, and that, being required throughout the year, the Board thus always have the services of the same man and horse. Your Committee are of opinion that this would be the more economical plan to adopt with regard to Southwark-park, the account for horse hire in which during 1885 was £153, as against £140 which was paid for Finsbury-park. They have therefore to report the arrangement in force at the last-named place, and to recommend—

That a similar arrangement be adopted at Southwark-park.

For some considerable time past soil has been deposited on Hackney-downs, with a view of raising the surface thereof, the material being supplied to the Board gratuitously by various builders in the neighbourhood, who are glad to obtain a shoot for their soil, and the Board providing labourers to spread and regulate the same. Since the 1st January, 1886, the sum of £84 0s. 6d. has been expended for this purpose, and it is estimated that the labourers will be required until the end of April next. This will involve a further outlay of £80 6s. 6d., and your Committee recommend—

That the Board do charge to Capital Account the money spent for the above-named purpose since the 1st January last, and do also authorise a further expenditure on Capital Account of £80 6s. 6d. for the completion of the work.

Your Committee have to report that two cases of misconduct have been proved against George Lewis and Robert Page, Assistant Common Keepers in the service of the Board at Highbury-fields and Hampstead-heath respectively. Your Committee recommend—

That the men be dismissed, and that it be referred to the Committee to take all necessary steps for recommending to the Board suitable persons for appointment in their place.

Your Committee have had an application made to them by Mrs. Hester Cuthbert, of No. 7, Blackheath-vale, Blackheath, for the renewal of her License to dry clothes on Blackheath for another year from the 4th instant. Mrs. Cuthbert is one of the laundresses who used Blackheath as a drying-ground when the Board took charge of it in 1871, and your Committee therefore recommend—

That her request be complied with.

The attention of your Committee has been called to the desirability of forming a short length of path on Tooting-beck-common to connect the paths now leading from Thrale-road to Bedford-hill, and of substituting some white posts for the iron hurdles now on the Common near such path. The cost of this work is estimated at only £14, and your Committee consider that it might be carried out with advantage to the public, and they therefore recommend accordingly.

Under the authority conferred on them by the Board on the 13th June, 1873 (No. 13), your Committee have authorised the purchase of a seat casting, oil, pipes, shrubs, and other articles for use in Finsbury-park, wood for the Victoria Embankment-gardens, and turf and tar paving material for Southwark-park, together with trees for Tooting-common, and have ordered that some repairs be done to the watch-boxes on Brook-green and Wormwood-scrubs, and that field-glasses be obtained for the Keepers at Streatham Upper-common, Clapham-common, and Hackney-downs. Your Committee have also authorised the employment of a horse for chain harrowing and rolling the horse-rides at Streatham and Clapham-commons, and the surface of Peckham-rye, and also the employment of a Clerk of Works to superintend the works about to be carried out on Highbury-fields.

All which your Committee beg to submit.

(Signed) J. E. BRADFIELD,
GEO. EDWARDS,
JOHN RUNTZ,
W^M. SHEPHERD.

The Report having been read and received,

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Committee be empowered to engage a horse, cart, and man at the rate of 9s. per day throughout the year for use in Southwark-park and on Open Spaces South of the Thames.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Board do charge to Capital Account the amount expended since the 1st January, 1886, for the wages of the labourers engaged in the special work of raising the surface of Hackney-downs, and do authorise a further expenditure of £80 6s. 6d. for labour for completing the work.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That George Lewis and Robert Page, Assistant Common Keepers in the service of the Board, be discharged for misconduct; and that it be referred to the Committee to take all necessary steps for recommending to the Board suitable persons for appointment in the place of the two men named.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That a License for one year from the 4th instant be granted to Hester Cuthbert, of No. 7, Blackheath-vale, Blackheath, to dry clothes on Blackheath, subject to revocation of the License at any time, at the pleasure of the Board.

The Clerk laid before the Board the License prepared in accordance with the foregoing Resolution.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said License; and the Seal was affixed accordingly.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That a short length of path be formed on Tooting-beck-common to connect two existing paths, and that some white posts be substituted for hurdles now thereon at an estimated cost of £14.

It was *moved* by Mr. Bradfield, seconded, and *resolved*—That the several other proceedings of the Committee, as mentioned in their Report, be approved.

15. Read a Report, as follows—

Accountant's Department,
Spring-gardens, S.W.,
26th February, 1886.

On the 30th of October, 1885, the Board expressed its concurrence in the opinion of the Works and General Purposes Committee, that it was unnecessary to employ a second Collector of Weekly Rents. The single Collector, Mr. W. Russell, had been engaged until the end of 1885.

I beg leave to recommend that the present arrangement continue, as the rental is decreasing, and that Mr. Russell be the only Collector until the end of 1886.

I consulted the Finance Committee before writing this Report,

(Signed) A. GUNN,
Accountant.

It was ~~moved~~ by Mr. Fowler, seconded, and ~~resolved~~—That the present arrangement with regard to the collection of the Weekly Rents be continued, and that Mr. W. Russell be the Collector until the end of the present year.

16. The Solicitor reported that the Board's Various Powers Bill, 1886, was awaiting appointment to a Select Committee.
17. The Solicitor reported that the second reading of the Board's (Fire Brigade Expenses) Bill in the House of Commons had been adjourned until Monday next, the 1st March, and that Mr. M'Lagan had given Notice to move that the Bill be read a second time upon that day six months.
18. The Solicitor reported that the following Petitions had been presented against the Board's (Water Supply &c.) Bill—

Kent Waterworks Company.
West Middlesex Water Company.
East London Waterworks Company.
New River Company.
Grand Junction Waterworks Company.
Chelsea Waterworks Company.
Lambeth Waterworks Company.
Southwark and Vauxhall Water Company.

and that the further discussion of the motion for the second reading of the Bill had been adjourned until Friday, March 5th.

19. The Solicitor reported that the second reading of the Theatres, &c. (Metropolis) Bill, (Mr. Dixon Hartland) in the House of Commons had been adjourned until Wednesday, the 17th March, being the day appointed for the second reading of the Board's (Theatres, &c.) Bill.
20. The Solicitor reported that he had not yet received a print of the Sanitation of Houses Bill, and that the second reading of the Bill in the House of Commons stood for Monday, the 19th May.
21. The Solicitor reported that the Employers' Liability Act (1880) Amendment Bill (Mr. Arthur O'Connor) was read a second time in the House of Commons on Tuesday last, and referred to a Select Committee; and that the second reading of the Employers' Liability Act (1880) Amendment (No. 2) Bill (Mr. Burt) stood for Wednesday, March the 10th.
22. The Solicitor reported that the Copyhold Enfranchisement Bill was read a second time in the House of Commons last Wednesday, and had been appointed for consideration to a Committee of the whole House for Monday next, the 1st of March.
23. The Solicitor reported that the Rivers Purification Bill was introduced into the House of Commons on Monday last, and read a first time, and that the second reading had been appointed for Tuesday, the 16th March.

24. The Solicitor reported that the Hyde-park-corner (new streets) Bill was introduced and read a first time in the House of Commons on Tuesday last, that the second reading had been appointed for Monday next, the 1st March, and that notices had been given by Lord Algernon Percy and Mr. Tomlinson to move that it be read a second time upon that day six months; and he presented a copy of the Bill.

25. The Solicitor reported that it might become necessary, before the next meeting of the Board, to affix the Seal to Petitions on their behalf, against Bills to be promoted in Parliament during the present Session.

It was ~~moved~~ by Mr. Fowler, seconded, and ~~resolved~~—That the Chairman of the Board be requested and authorised to affix the Common Seal of the Board to any Petitions which it may become necessary to present to Parliament on behalf of the Board before their next Meeting.

26. The Solicitor reported that Mr. J. Stuart, M.P., had asked a question as to the intentions of the Government with respect to the reform of the Municipal Government of London, and that the Home Secretary had replied to the effect that it was impossible for him at the present moment to give a definite pledge of the intentions of the Government on so important a question.

27. The Solicitor reported that the Chairman of the Board had replied to a question by Mr. T. Rogers, M.P., whether there was any prospect of the new road from Southwark-bridge-road to St. George's Church being taken in hand and completed.

28. The Solicitor reported that a Select Committee had been appointed to report upon the condition of the River Lee.

29. The Solicitor reported that the Home Secretary had given replies to questions by Mr. Robson, M.P., as to the intention of the Government with regard to the acquisition of the property of the London Water Companies; and by Mr. T. Rogers, M.P., as to the pollution of the Thames by the Outfalls at Barking-creek and Crossness.

30. The Solicitor reported that Mr. T. Rogers, M.P., had given notice to move that the East London Water Bill, the Lambeth Water Bill, and the Southwark and Vauxhall Water Bill be referred to a Select Committee; that Mr. J. Stuart, M.P., had given notice to call attention to the late disturbances in the Metropolis, and to move a resolution with regard to the Metropolitan Police Force; that Mr. Lawson, M.P., had given notice to ask the Secretary to the Treasury a question with reference to the renewal of the Coal Duties; and that Mr. Spensley, M.P., had given notice to move an Address for correspondence between the Board and the Home Office on the question of the origin of fires during the last four years.

31. The Solicitor reported that the Board's (Keeping of Firewood) Bill had been withdrawn.

32. The Solicitor reported that the following Petitions had been presented against the Metropolitan Street Improvements Act (1877) Amendment Bill.

New River Company.

Southwark and Vauxhall Water Company.

33. The Solicitor reported that the Commons and Inclosure Acts Amendment Bill was introduced, and read a first time in the House of Commons on Friday last, and that the second reading had been appointed for Wednesday, the 26th of May.

34. The Solicitor presented a Report, as follows—

Solicitor's Department,
February 26th, 1886.

HACKNEY COMMONS.

I have received a communication from Mr. Clutton, stating that his Awards are now ready in the following cases—

The Commoner's claim.
Trustees of St. Thomas's Hospital.
Abbott's Trustees.
Kendall.

In the case of the Commoners of Hackney, Mr. Clutton, at the request of the Board, called in the assistance of Mr. Bosanquet, Q.C., to sit as an Assessor upon various difficult legal points which arose.

I present the usual request for Cheque for £713, the amount of Mr. Clutton's Fees, including those of the Assessor, which the Board will, perhaps, authorise to be drawn. I shall then be in a position to present the Awards to the Works Committee next Monday with a Report.

(Signed) R. WARD,
Solicitor.

It was *moved* by Mr. Runtz, and seconded—That the Report be received, and that a Cheque for the sum of £713 be now drawn for Mr. Clutton's Fees, including those of the Assessor, in order that the Awards may be taken up.

The *motion* having been put to the vote, there were for it 18, against it 15, and it was declared by the Chairman to be carried; and it was *resolved* accordingly.

A Cheque was thereupon drawn on the General Capital Account accordingly.

35. The Solicitor reported that the Treasury had approved of the period for the re-payment of the Loan of £6,700 to the Fulham District Board, and he suggested that the Board should pass an Order authorising the District Board to borrow the amount, and also draw a Cheque for the same.

It was thereupon *moved* by Mr. Fowler, seconded, and *resolved*, and *ordered*, as follows—

Whereas the Board of Works for the Fulham District, under and pursuant to the provisions of the Metropolis Management Act, 1855, and the Acts amending the same, or some or one of them, have applied to the Metropolitan Board of Works for their sanction in writing to the borrowing by the said District Board, on the security of all the moneys or rates authorised to be raised by the said District Board under the first-mentioned Act within the said District, of a sum of Six thousand seven hundred pounds, for the purpose of defraying the expense incurred or to be incurred by them in executing wood paving work in the Hammersmith-road, between Rowan-road and Brook-green, and between Brook-green and the centre of Addison-road Railway Bridge. *And whereas* the Metropolitan Board of Works have fully considered the matter of the said application, and it is made to appear to them fit and proper that the said sum of Six thousand seven hundred pounds should be borrowed by the said District Board for the purpose aforesaid. *Therefore* it is *ordered* that the sanction in writing of the Metropolitan Board of Works be given, and the same is hereby given, to the borrowing by the said District Board, under the Metropolis Management Act, 1855, of a sum of Six thousand seven hundred pounds for the purpose aforesaid, such Loan to bear interest at the rate of Three pounds ten shillings per centum per annum, and the principal to be re-paid by annual instalments of as nearly equal an amount as may be within a period of Six years.

The Solicitor laid before the Board Two copies of the foregoing Order.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said copies of Order; and the Seal was affixed accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That a Cheque for the sum of £6,700 be now drawn in favour of the Fulham District Board, and a Cheque was drawn on the Consolidated Loans Fund accordingly.

36. The Solicitor reported that the Treasury had approved of the period for the re-payment of the Loan of £1,800 to the Plumstead District Board, and he suggested that the Board should pass an Order authorising the District Board to borrow the amount, and also draw a Cheque for the same.

It was thereupon **moved** by Mr. Fowler, seconded, and **resolved**, and **ordered**, as follows—

Whereas, the Board of Works for the Plumstead District, under and pursuant to the provisions of the Metropolis Management Act, 1855, and the Acts amending the same, or some or one of them, have applied to the Metropolitan Board of Works for their sanction, in writing, to the borrowing, by the said District Board, on the security of all the moneys or rates authorised to be raised by the said District Board, under the first-mentioned Act and the Metropolis Management (Thames River Prevention of Floods) Amendment Act, 1879, or either of them, within the said District, of a sum of One thousand eight hundred pounds for the purpose of defraying part of the expense of executing certain Flood works on the bank of the River Thames at Charlton, upon premises vested in or subject to the control of the District Board, within the meaning of the Metropolis Management (Thames River Prevention of Floods) Amendment Act, 1879. **And whereas**, the Metropolitan Board of Works have fully considered the matter of the said application, and it is made to appear to them fit and proper that the said sum of One thousand eight hundred pounds should be borrowed by the District Board for the purpose aforesaid. **Therefore**, it is **ordered** that the sanction, in writing, of the Metropolitan Board of Works be given, and the same is hereby given, to the borrowing, by the said District Board, under the Metropolis Management Act, 1855, and the Metropolis Management (Thames River Prevention of Floods) Amendment Act, 1879, of a sum of One thousand eight hundred pounds for the purpose aforesaid, such Loan to bear interest at the rate of Three pounds ten shillings per centum per annum, and the principal to be re-paid by equal annual instalments within a period of Four years.

The Solicitor laid before the Board Two copies of the foregoing Order.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the Common Seal of the Board be affixed to the said copies of Order; and the Seal was affixed accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That a Cheque for the sum of £1,800 be now drawn in favour of the Plumstead District Board, and a Cheque was drawn on the Consolidated Loans Fund accordingly.

37. The Solicitor reported that the Treasury had approved of the period for the re-payment of the Loan of £3,000 to the St. James, Westminster, Vestry, and he suggested that the Board should pass an Order authorising the Vestry to borrow the amount, and also draw a Cheque for the same.

It was thereupon **moved** by Mr. Fowler, seconded, and **resolved**, and **ordered**, as follows—

Whereas the Vestry of the Parish of Saint James, Westminster, in the County of Middlesex, under and pursuant to the provisions of the Metropolis Management Act, 1855, and the Acts amending the same or some or one of them have applied to the Metropolitan Board of Works for their sanction in writing to the borrowing by the said Vestry, on the security of all the moneys or rates authorised to be raised by the said Vestry under the first mentioned Act within the said Parish, of a sum of Three thousand pounds, for the purpose of defraying part of the expense incurred or to be incurred by them in executing asphalte paving works in Berwick-street, Brewer-street, King-street (Regent-street), Peter-street, Portland-street, Sherwood-street, Upper and Lower James-street, Warwick-street (Regent-street), Black Lion-court, and Ham-yard, and wood paving works in part of Charles-street and in Jermyn-street, and eureka

paving works in Pall-mall and Haymarket, in Piccadilly and the Circus, from Air-street to the Quadrant, and Macadam paving works in Ryder-street, all which paving works are estimated to cost Eight thousand two hundred and six pounds, and in executing certain brick sewerage works in Little Pulteney-street and Great Crown-court, the Plan for which was approved by the Metropolitan Board of Works on the Thirtieth October, One thousand eight hundred and eighty-five, at a cost of Nine hundred and twenty pounds, and in improving and widening the carriage and footways of Little Pulteney-street and part of Rupert-street, at a cost of One thousand, eight hundred and twenty-seven pounds. **And whereas** the Metropolitan Board of Works have fully considered the matter of the said application, and it is made to appear to them fit and proper that the said sum of Three thousand pounds should be borrowed by the said Vestry for the purposes aforesaid. **Therefore** it is **ordered** that the sanction in writing of the Metropolitan Board of Works be given, and the same is hereby given to the borrowing by the said Vestry under the Metropolis Management Act, 1855, of a sum of Three thousand pounds for the purposes aforesaid, such Loan to bear interest at the rate of Three pounds ten shillings per centum per annum, and the principal to be re-paid by equal annual instalments within a period of Five years.

The Solicitor laid before the Board Two copies of the foregoing Order.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the Common Seal of the Board be affixed to the said copies of Order, and the Seal was affixed accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That a Cheque for the sum of £3,000 be now drawn in favour of the St. James, Westminster, Vestry, and a Cheque was drawn on the Consolidated Loans Fund accordingly.

- 38.** The Solicitor reported that the Treasury had approved of the period for the re-payment of the Loan of £1,100 to the Guardians of the Strand Union, and he suggested that the Board should draw a Cheque for the amount, to enable him to complete the matter.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That a Cheque for the sum of £1,100 be now drawn in favour of the Guardians of the Strand Union, and a Cheque was drawn on the Consolidated Loans Fund accordingly.

- 39.** The Solicitor reported that the Treasury had approved of the period for the re-payment of the Loan of £4,150 to the Charlton Burial Board, and that since the Board had agreed to make the advance another instalment of the Loan by the Public Works Loan Commissioners had become due, and that the amount to be advanced by this Board was therefore proportionately reduced, and he suggested that the Board should draw Cheques for the sums of £3,000 and £1,000, to enable him to complete the matter.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That Cheques for the sums of £3,000 and £1,000 be now drawn in favour of the Charlton Burial Board, and Cheques were drawn on the Consolidated Loans Fund accordingly.

- 40.** The Solicitor presented the following documents for sealing—

Lease to Mr. H. Mann, of part of Plot No. 18, Deptford-bridge.

Appointment of Mr. Vulliamy as Valuer in the matter of a claim by Mr. T. Noton and others in respect of copyhold premises, Nos. 157 and 158, Upper-street, Islington, and stabling and yard at the rear, and a right-of-way thereto (Upper-street, Islington, Improvement.)

License of the Board to Mr. P. C. Steinmann to open additional communications in the party-wall between Nos. 123 and 125, Queen Victoria-street, on the ground floor and basement.

Petition against the Bexley-heath Railway Bill.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said documents respectively, and the Seal was affixed accordingly.

41. It was *moved*, seconded, and *resolved*—That the Board do now adjourn, and do meet again at this place at the rising of the Special Board appointed to be held this day.

Adjourned accordingly.

At a Special Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday**, the **26th** day of **February**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. MCGAREL-HOGG, BART., K.C.B., M.P., Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, ESQ., the Deputy-Chairman of the Board.

JOHN JONES, ESQ.	WILLIAM URQUHART, ESQ.	JOHN RUNTZ, ESQ.

	THEOPHILUS WILLIAM WILIAMS, ESQ.	
	FREDERICK COX, ESQ.	

1. This Special Meeting of the Board was held, pursuant to adjournment from Friday last, for the purpose of considering a notice given by Lieut-Colonel Hughes, M.P., of his intention to move that the provision of the Fire Brigade Expenses Bill for an increase of the Fire Insurance Companies' contributions should be withdrawn from the Bill when the proper time arrived for such withdrawal, and that the Resolutions of the Board of 17th July, 30th October, and 11th December, 1885, should be altered accordingly, but Lieut-Colonel Hughes not being present, and no other Member of the Board having expressed his intention of moving in accordance with the notice, the same became a dropped motion, pursuant to the Bye-law.

Adjourned

At a Meeting of the Metropolitan Board of Works, held by adjournment, at the Office of the Board, Spring-gardens, on **Friday**, the **26th** day of **February**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^CGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

JOHN JONES, Esq.	CHARLES MOSSOP, Esq.	JOHN RUNTZ, Esq.
WILLIAM BURNHAM GARRETT, Esq.	WILLIAM URQUHART, Esq.	ANDREW CAMERON, Esq.
GEORGE PITNEY MEADEN, Esq.	JOHN BONTHRON, Esq.	HENRY HARBEN, Esq.

WILLIAM BOUTCHER, Esq.	WILLIAM ANDREWS, Esq.	SAMUEL PRICE, Esq.
WILLIAM ALEXANDER LINDSAY, Esq.	ROBERT GRANT WEBSTER, Esq.	HON. ALAN DE TATTON EGERTON, M.P.
WILLIAM JAMES WETENHALL, Esq.	JOHN ABBOTT, Esq.	THOMAS JOHN WHITE, Esq.
	WILLIAM ROBBINS SELWAY, Esq.	EDWARD RIDER COOK, Esq., M.P.
	THEOPHILUS WILLIAM WILIAMS, Esq.	
	FREDERICK COX, Esq.	

1. It was *moved* by Mr. Harben, seconded, and *resolved*—That the Motions, notice of which appears in the Paper of Business, be now considered.
2. It was thereupon *moved* by Mr. Reddish, pursuant to Notice, and seconded by Mr. Bradfield—That no Deputation be received by the Board, of which notice does not appear on the Agenda Paper, unless a majority of the Members present shall, by their votes, otherwise determine.

The *motion* having been put to the vote, there were for it 10, against it 23, and it was declared by the Chairman to be lost.

3. It was *moved* by Mr. Cook, M.P., seconded, and *resolved*—That the Letter from the Local Government Board on the subject of relieving the present distress in the Metropolis, be now read.

The Clerk read the Letter, as follows—

Local Government Board,
Whitehall,

February 19th, 1886.

DEAR SIR JAMES HOGG,

As the result of inquiry which I have been making as regards destitution in the Metropolis, I am satisfied that although the number of persons in receipt of relief from the Boards of Guardians shows no large increase, there is considerable distress amongst

work-people of a class above that of the persons who usually apply for Poor-law relief, and there is some fear that this distress may increase.

I would, under these circumstances, strongly urge the Metropolitan Board of Works, to expedite, as far as practicable, the commencement of any public works which they may be contemplating, and that any applications which may be received from the Vestries and District Boards with reference to borrowing powers for the execution of works by those authorities should receive very prompt attention.

I shall be much obliged to you for information, as early as possible, as to any works which it is contemplated that the Metropolitan Board of Works will be able to undertake, how soon the works are likely to be commenced, and to what extent they will probably afford employment.

I am, &c.,
(Signed) J. CHAMBERLAIN.

It was then *moved* by Mr. Cook, M.P., pursuant to notice, and seconded by Mr. Richardson—That it be referred to the Works and General Purposes Committee to confer with Her Majesty's Government, with a view to ascertain whether, in the event of the Board deciding to carry out one or more permanent communications across the Thames, they might rely upon the assistance of the Government to obtain exceptional powers from Parliament to enable the works to be commenced immediately, and also, as to the best means of providing the necessary funds.

After discussion, the *motion* was, at the suggestion of Mr. Urquhart, and by leave of the Board, modified as follows—That it be referred to the Works and General Purposes Committee to confer with Her Majesty's Government, with a view to ascertain whether in the event of the Board deciding to carry out one or more permanent communications across the Thames, or any other works requiring Parliamentary sanction, they might rely upon the assistance of the Government to obtain exceptional powers from Parliament to enable the works to be commenced immediately, and also, as to the best means of providing the necessary funds.

An *amendment* thereon was *moved* by Mr. Cameron, and seconded by Mr. Furniss—That it be referred to the Works and General Purposes Committee to confer with Her Majesty's Government, with a view to ascertain whether, in the event of the Board deciding to carry out one or more permanent communications across the Thames, or any other works requiring Parliamentary sanction, they might rely upon the assistance of the Government to obtain exceptional powers from Parliament to enable the works to be commenced without unnecessary delay, and also as to the best means of providing the requisite funds.

After discussion, the *amendment* was put to the vote, when there were for it 21, against 2; and it was declared to be carried; and having been put as an *original motion*, there were for it 22, against it 14; and it was also carried.

A Division having been demanded and granted, the names of the Members voting were taken down, when there were—

For the Motion—22.

Abbott, J., Esq.	Mossop, C., Esq.
Andrews, W., Esq.	Richardson, G. B.,
Bonthron, J., Esq.	Esq.
Cameron, A., Esq.	Saunders, J. E.,
Cox, F., Esq.	Esq., Deputy.
Debenham, W., Esq.	Tolhurst, J., Esq.
Ewin, A., Esq.	Urquhart, W., Esq.
Furniss, R., Esq.	Webster, R. G., Esq.
Harris, C., Esq.	Wetenhall, W. J.,
Jolly, J. R., Esq.	Esq.
Jones, J., Esq.	Williams, T. W.,
Lenanton, J., Esq.	Esq.
Middlemass, A., Esq.	

Teller—Mr. Cook.

Against the Motion—14.

Bradfield, J. E., Esq.	Price, S., Esq.
Edwards, G., Esq.	Reddish, J., Esq.
Fardell, T. G., Esq.	Runtz, J., Esq.
Funnell, P. W., Esq.	Selway, W. R., Esq.
Hill, G., Esq.	Shepherd, W., Esq.
Ingoldby, F., Esq.	White, T. J., Esq.
Lindsay, W. A., Esq.	

Teller—Mr. Fowler.

And it was *resolved*—That it be referred to the Works and General Purposes Committee to confer with Her Majesty's Government, with a view to ascertain whether in the event of the Board deciding to carry out one or more permanent communications across the Thames, or any other works requiring Parliamentary sanction, they might rely upon the assistance of the Government to obtain exceptional powers from Parliament to enable the works to be commenced without unnecessary delay, and also, as to the best means of providing the requisite funds.

At a subsequent part of the day's proceedings, it was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter from the President of the Local Government Board be referred to the Works and General Purposes Committee for consideration, with authority to send a reply thereto.

4. Read a Report by the Engineer, dated 26th February, 1886, on the undermentioned Sewerage works proposed to be executed by the following District Boards and Vestry—

LOCALITY OF WORK.	WORK APPLIED FOR.			REMARK.
	Length in feet.	Size.	Material.	
HACKNEY.				
Well-street, South Hackney ...	235	18-inch	pipe	Recommended as applied for.
WANDSWORTH.				
Harberson-road, Streatham ...	522	12-inch	pipe	Recommended as applied for.
CHELSEA.				
Henniker-mews, Callow-street...	330	12-inch	pipe	Recommended as applied for.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the said District Boards and Vestry be permitted to construct and execute the several works in the manner therein recommended.

5. Read a Report by the Engineer, dated 26th February, 1886, on an application from the Vestry of St. George, Hanover-square, for permission to stop up certain thoroughfares for the periods and purpose therein mentioned, viz.—

Date of Application.	Names of Streets to be stopped up.	Object.	Time applied for.	Time recommended.	Streets through which traffic will be diverted.
1886.					
17th Feb.	Conduit-street	Paving.	6 weeks.	6 weeks.	Maddox, &c., Streets.
	Queen-street, May-fair ...	do.	3 "	3 "	Chesterfield-street.
	Half-moon-street	do.	4 "	4 "	Clarges, &c., Streets.

It was *moved* by Mr. Fowler, seconded by Mr. Shepherd, and *resolved*—That the Report be approved, and that the sanction of the Board be given, and the same is hereby given, to the closing of the thoroughfares in question by the Vestry of St. George, Hanover-square, for the purpose of executing works therein, for the periods recommended by the Engineer, such sanction to date from the commencement of the works respectively.

6. Read a Report by the Engineer dated 26th February 1886, on an application from the Fulham District Board for permission to close the part of Hammersmith-road between Blythe-lane and Russell-road for a period of three weeks, for the purpose of paving the carriage-way with wood; stating that there was no convenient route through which the traffic in the road could be temporarily diverted, and that as the carriage-way was sufficiently wide to admit of the paving works being executed upon one-half of its width at a time, he considered that the Board should decline to sanction the

closing of the road, and should require the works to be so executed, and recommend accordingly.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved and acted upon.

7. Read a Report by the Engineer, dated 25th February, 1886, on a Letter from Mr. W. Jacomb, Engineer to the London and South-Western Railway Company, submitting for approval Plans for the proposed widening of the Bridge carrying their Railway over the Lambeth-road; stating that the existing Bridge over the road was an arched Bridge in two spans, having a headway of 19 feet 2 inches at the centre and 10 feet 10 inches at the springing, but that the South-Western Railway (Various Powers) Act, 1883, Section 11, Sub-Section 2, provided that all Bridges constructed under the Act should have a clear headway throughout of not less than 18 feet, and that it also provided for the Bridge in question being in two spans of 33 feet each; further stating that those conditions were complied with in the Plans submitted, and that in that respect he recommended that the Plans should be approved; but that the proposed elevation was not satisfactory for a thoroughfare of the importance of Lambeth-road, and that Mr. Jacomb should therefore be requested to send in an amended Design.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be received; that the headway and spans of the intended widening be approved, and that the Company's Engineer be requested to submit an amended Design for the elevation.

8. Read a Report by the Engineer, dated 26th February, 1886, stating that the following quantities of Coal were required for use at the Western Pumping Station.

					ESTIMATE.
80 Tons of Welsh Coal	...	...	...	...	£72 6 8
80 „ Tanfield Moor Coal	...	...	...	...	56 6 8
Total					£128 13 4

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the Coal be obtained accordingly, the cost thereof being charged to the General Working Account of the Board.

9. Read a Report by the Engineer, dated 26th February, 1886, recommending the execution of the following works under the General Contract.

<i>Barking-Reservoir.</i>				ESTIMATE.
Shoring up and repairing arches	...	...	...	£100 - -

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved, and that the works be executed accordingly, the cost thereof being charged to the General Working Account of the Board.

10. Read a Report by the Engineer, dated 26th February, 1886, on an application from the Vestry of Kensington for permission to close the part of Brompton-road between Harper's-court and New-street for a period of two weeks, for the purpose of paving the carriage-way with wood; stating that it would be impossible to divert the whole of the traffic through the route proposed, and recommending that the Board should decline to sanction the closing of the road, and should require the paving works to be carried out upon one-half of the width of the road at one time.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Report be approved and acted upon.

11. Read a Report by the Engineer, dated 26th February, 1886, on a Letter from Messrs. Ashby and Horner, applying for permission to take up a portion of the footway paving in Savoy-street, Victoria Embankment, for the purpose of fixing two iron gutters to the rain-water pipes at Lancaster House, recommending that the permission should

be granted, subject to the work being done and the paving being re-instated to the satisfaction of the proper Officers of the Board and at the cost of the applicants.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the application be granted on the conditions stated in the Report.

12. The Clerk laid before the Board copies of the Orders of the Board of the 12th instant (No. 15), for the re-naming, &c., of the following thoroughfares, together with copies of the Plans referred to in such Orders, viz.—

Hayes-place, &c.	...	...	...	Islington.
Ascham-street, &c.	...	...	...	St. Pancras.
Carrol-road, &c.	...	...	...	do.
Pentonville-road (part)	...	...	...	Clerkenwell and St. Pancras.
St. Chad's-place, &c.	...	...	...	St. Pancras.
Seymour-row, &c.	...	...	...	do.
Swinton-street	...	...	...	do.
Paradise-street	...	...	...	do.
Grange-road, Stoke Newington	...	...	...	Hackney.
Beaumont-place	...	...	...	Fulham.
Trinity-road	...	...	...	Lambeth.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Common Seal of the Board be affixed to the said copies of Orders and Plans respectively; and the Seal was affixed accordingly.

13. The Clerk presented a Letter from Mr. W. M. Acworth, on behalf of the Camberwell Committee of the Mansion House Fund, dated 20th February, 1886, urging the Board to put in hand at once their projected works in connection with the proposed Park at Dulwich, and the improvements on Peckham-rye-common.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with reference already made to them on the subject to which it relates.

14. The Clerk presented a Letter from Mr. J. J. Stokes, Clerk to the Vestry of Rotherhithe, dated 19th February, 1886, transmitting a copy of a Resolution passed by the Vestry, and a copy of a Petition of the General Committee of the Rotherhithe Ratepayers' Association, urging upon the Board the existing necessity, owing to the want of employment of working men, for carrying out the Jamaica-road Improvement, and to arrange, as a Metropolitan Improvement, the widening of the "Royal Oak Corner," and the rebuilding of the Black Horse Bridge; and also for applying to Parliament in the present Session for powers to construct a Bridge across the Thames South of the Corporation Tower Bridge.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

15. The Clerk presented a Letter from Mr. James Searle, Secretary of the New River Company, dated 19th February, 1886, again calling attention to the need for provision, by the Board, of an adequate number of Fire Hydrants in the districts supplied with Water on the constant system; and asking if the Board were satisfied that the Hydrants which they had already caused to be fixed in St. Pancras, Stoke Newington and Shoreditch were sufficient to meet the requirements of their Fire Brigade, and, if not, that they would, according to the Statute, fix an adequate number, as it was the intention of the Company to proceed with the removal of plugs fixed by them at their own cost.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which it relates.

16. The Clerk presented a Letter, as follows—

The Board of Works for the Fulham District,

Clerk's Department,

Broadway House, Hammersmith, W.,

20th day of February, 1886.

DEAR SIR,—I am directed by this Board to apply to the Metropolitan Board of Works for their promised contribution towards the Improvement effected in Fulham-road by the "Swan" Tavern, North-end-road, by West Kensington Station; also for their promised contribution towards the cost of constructing Gliddon-road Bridge.

Yours, &c.,

(Signed) THOMAS EDW. JONES,

Clerk to the Board.

The Clerk,

Metropolitan Board of Works,
Spring-gardens.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Engineer, the Superintending Architect and the Accountant do report to the Committee thereon.

17. The Clerk presented a Letter from Messrs Dubois, Reid and Williams, dated 19th February, 1886, asking to be informed of the Board's reasons for refusing to grant their clients a Certificate on the amended Plans for the Occidental Theatre, in the Strand.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration with authority to send a reply thereto.

18. The Clerk presented a Letter from Mr. G. W. Murnane, Clerk to the Vestry of St. Martin-in-the-Fields, dated 20th February, 1886, enclosing a copy of a Resolution passed by the Vestry, stating that they were of opinion that the fixing of overhead Telegraph and Telephone Wires was a source of considerable danger to life and property, and that, in all cases, such wires should be placed underground.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration.

19. The Clerk presented a copy of a Letter from Mr. W. Bristow, Clerk to the Vestry of Greenwich, dated 20th February, 1886, addressed to the Solicitor, stating that a Committee of the Vestry desired to see the Works and General Purposes Committee of this Board on the subject of the communication between Greenwich and Millwall, also expressing their opinion that if the Board would make either a Ferry or Subway they could get the Standing Orders of Parliament suspended, and that by so doing employment might be given to a large number of men.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

20. The Clerk presented a Letter from Mr. W. H. C. Brunless, dated 22nd February, 1886, enquiring, as a Member of the Camberwell Sub-Committee of the Mansion House Relief Fund, whether the Board could not at once commence the works for the laying out of the proposed new Park at Dulwich.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

21. The Clerk presented a Letter from Mr. F. R. Conder, dated 22nd February, 1886, acknowledging the receipt of the Board's Letter, as to his method for the treatment of Sewage, and submitting that in the case of a process so novel it could

hardly be expected that any satisfactory or useful results would be attained by experiments made without any communication with the inventor of the process.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be received.

22. The Clerk presented a Letter from Mr. G. Lushington, Home Office, dated 22nd February, 1886, transmitting, with reference to previous correspondence, a Letter from the Erith Local Board, calling attention to the slight progress which had been made in regard to settling a scheme for the treatment of the Sewage of the Metropolis, and asking that immediate steps might be taken in the matter; and requesting that the Secretary of State might be favoured with the Board's observations thereon.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the reference already made to them on the subject to which it relates.

23. The Clerk presented a copy Report of the Water Examiner, appointed by the Board of Trade, of the examination made by him of the Water supplied by the several Metropolitan Water Companies during the month of January last.

24. The Clerk presented a Letter from Mr. E. H. Cadot, dated 22nd February 1886, asking to be allowed to show the Board a working sample of his portable Safety Electric Lamp.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Mr. Cadot be informed that the Board have no use for which they would require such a lamp.

25. The Clerk presented a copy of the Accounts of the City of Edinburgh for the year 1885.

26. The Clerk presented a Letter from Mr. Courtenay Boyle, Local Government Board, dated 24th February 1886, transmitting a copy of a Letter from the Vestry of St. George-the-Martyr, Southwark, suggesting a scheme for the disposal of the dust and refuse of the Metropolis, and requesting to be furnished with the observations of the Board thereon.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to send a reply thereto.

27. The Clerk presented a Letter from Mr. W. F. Dewey, Clerk to the Vestry of Islington, dated 24th February, 1886, transmitting a Memorial from the Vestry, asking the Board to proceed with the widening of the Upper-street forthwith.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to send a reply thereto.

28. The Clerk presented a Letter from Mr. W. Woodward, dated 24th February, 1886, urging the Board to make the new street from Gray's-inn-road to St. John-street-road, 60 feet in width instead of 50 feet as proposed.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to send in a reply thereto.

29. The Clerk presented a Letter from Lord Charles Bruce, dated 21st February, 1886, transmitting a copy of Resolutions passed by the Committee of the Mansion House Relief Fund for the unemployed, suggesting, in order to afford as much relief as possible to the unemployed, that the following works might be at once commenced, viz., the conversion of the Northern Main Drainage Embankment into a Public Boulevard, the formation of a Recreation Ground on the site of the Isle of Dogs, recommended by Mr. Bryce, M.P., and the laying out of a Public Garden at Fulham on the site offered by the late Bishop of London, and stating that with a view to assist the Board should

they be able to undertake any of these or similar works without any additional rate being imposed, the Committee would be prepared to vote £5,000, provided such works were commenced within three weeks.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration in connection with the references already made to them on the subject to which it relates.

30. The Clerk presented a Letter from Mr. F. East, M.D., Hon. Secretary to the Association for the Preservation of the Lee, dated 24th February, 1886, transmitting a copy of a Resolution passed at a public meeting held under the auspices of the Association, urging the Board and the Tottenham Local Board to re-consider their decisions to oppose the Lee Purification Bill becoming law.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration and report.

31. The Clerk presented a Letter from Mr. W. F. Dewey, Clerk to the Vestry of Islington, dated 24th February, 1886, asking that, having regard to the Board's Resolution of the 12th instant (No. 14) with reference to the London Street Tramways Company's Scheme for the formation of Tramways in the Archway-road, the Board would obtain from their Engineer an opinion as to the best mode of widening the Highgate-archway so as to obtain a 44 feet road-way underneath, and of the probable cost of such widening.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Works and General Purposes Committee, for consideration, with authority to act upon any Resolution at which they may arrive with regard thereto.

32. The Clerk presented a Letter from Messrs. Baylis and Pearce, dated 24th February 1886, asking the Board to make an early appointment for a conference with the Trustees of the Joint Gift Estates of Cripplegate and St. Luke, upon the present condition of the buildings for Artizans' Dwellings in course of completion in Chatham-gardens, Nile-street, St. Luke's, in the hope that by an actual inspection the Board would be satisfied that it was a case in which they should give their sanction to the buildings, and refrain from the further prosecution of the special case.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration with authority to confer with the parties therein.

33. The Clerk presented a Letter, as follows—

Hamlet of Mile-end Old-town.

Guardians' Offices, Bancroft-road,
Mile-end, London, E.,
24th February, 1886.

SIR,—In reply to your Letter of the 17th instant, I am directed by the Guardians of the Poor of the Hamlet of Mile-end Old-town to make an application on their behalf to the Metropolitan Board of Works for a Loan of £5,000 to provide new Casual Wards at the Workhouse in Bancroft-road, the rate of interest being $3\frac{1}{2}$ per cent. per ann. and the period of repayment being 20 years.

If you will kindly lay this Letter before your Board at their next Meeting, I shall feel obliged.

J. E. Wakefield, Esq.,
The Clerk,

Metropolitan Board of Works,
Spring-gardens, S.W.

I am, &c.,
(Signed) W. THACKER,
Clerk to the Guardians.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Superintending Architect, the Solicitor, and the Accountant do report to the Committee thereon.

34. The Clerk presented a Letter, as follows—

Town-hall, Hackney, E.,
London, 23rd February, 1886.

LOAN OF £10,000.

SIR,—I am directed by the Finance Committee of the Board of Works for the Hackney District to forward you the accompanying amended statement of the proposed expenditure in respect of the Loan of £10,000, the alteration being chiefly in the amount to be expended in paving works.

I am, &c.,
(Signed) RICHARD ELLIS,
Clerk to the Board.

To the Clerk,
Metropolitan Board of Works,
Spring-gardens, S.W.

Board of Works for the Hackney District.

Surveyor's Department,
Town-hall, Hackney,
22nd February, 1886.

The pressure of the Gas supplied by the South Metropolitan Gas Company, as tested in Barry-road, Peckham, on the 20th inst., at 8 p.m., was 1.8 inches.

36. CAMBERWELL.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. R. H. Girdler, on behalf of Mr. Davis, for the consent of the Board to the erection of a one-storey shop on a portion of the forecourt of a portion of No. 12, Heaton-road, Peckham, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

37. FULHAM.—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. J. W. Chapman, on behalf of Mr. H. T. Webster, for the consent of the Board to the erection of a wooden pent in front of No. 64, Uxbridge-road, Hammersmith, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

38. HACKNEY.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. J. P. Heiestad, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 65 to 73 (odd numbers), Victoria-road, Hackney-wick, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

39. HAMPSTEAD.—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of the St. Pancras Iron Works Company, on behalf Mr. F. T. Edwards, for the consent of the Board to the erection and construction of a glass and iron covered way in front of No. 42, Hampstead-hill-gardens, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the covered way therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board, and that the whole of the work be executed to the satisfaction of the District Surveyor.

- 40. ISLINGTON.**—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. J. C. Walkley, for the consent of the Board to the erection of a one-storey shop on the forecourt of No. 194, Elthorne-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 41. ISLINGTON.**—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. J. G. Turner, on behalf of Messrs. Crisp and Co., for the consent of the Board to the erection of a one-storey warehouse at the rear of No. 81, Seven Sisters'-road, and abutting on Sussex-road to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the erection of the warehouse therein referred to, be commenced within Six months. and be completed within Eighteen months from this date, and that the erection be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 42. NEWINGTON.**—Read a Report by the Superintending Architect, dated 22nd February, 1886, on a Letter from Mr. B. Fletcher, M.P., District Surveyor, relative to the re-erection, without the consent of the Board, of No. 15, Newington-butts, with the upper floors projecting beyond the original line of the building.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

- 43. PLUMSTEAD.**—Read a Report by the Superintending Architect, dated 15th February, 1886, on the application of Mr. T. Ovenden, for the consent of the Board to the erection and construction of a wooden Coffee Cabin, at the corner of Novar-road and Footscray-road, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 44. PLUMSTEAD.**—Read a Report by the Superintending Architect, dated 15th February, 1886, on the application of Mr. E. Swansborough, on behalf of Mr. T. B. Roupell, for the consent of the Board to the erection of eight houses on the South-West side of Victoria-road, Charlton, to the line shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 45. ST. GEORGE, HANOVER-SQUARE.**—Read a Report by the Superintending Architect, dated 16th February, 1886, on the application of Messrs. Gregory and Co., on behalf of Mr. S. Brunton, for the consent of the Board to the enclosure of the sides of the portico at No. 84, Brook-street, Grosvenor-square, as shown upon the Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, subject to the condition that the enclosure of the sides of the portico, therein referred to, be commenced within Six months, and be completed within Eighteen months from this date, and that such enclosure be made in entire conformity with the letter of application, and as shown on the Plan accompanying it, and be not at any time, in any manner, altered or raised without the consent of this Board.

- 46. SHOREDITCH.**—Read a Report by the Superintending Architect, dated 8th February, 1886, on the application of Mr. H. W. Skelton, on behalf of Messrs. Soul and Smith, for the consent of the Board to the erection of one-storey shops on the forecourts of Nos. 14, 16, 18 and 20, New North-road, to the line shown upon the amended Plan accompanying the application.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

47. WANDSWORTH.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. W. N. Dunn, for approval by the Board of a Plan for the construction of barge-boards to four houses on the South side of Elms-road, Clapham-common.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

48. LAMBETH.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. J. Pattison, for the permission of the Board to retain for a further period, the temporary wood and iron shed erected in Pilgrim-street.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted for a further period of One year from this date, upon condition that the Owner do accept the License prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building.

49. POPLAR.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. C. Foulsham, on behalf of Messrs. D. and A. Hutchison, for approval by the Board of a Plan for the construction of a moulding-shop, with enclosures of corrugated iron, at the Foundry, in Hancock-road, Bromley, and for a dispensation by the Board with the observance of the Bye-law made under the provisions of the Metropolis Management and Building Acts Amendment Act, 1878, with reference to the covering of the site of such moulding shop with a layer of concrete.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

50. ST. GEORGE-THE-MARTYR, SOUTHWARK.—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Mr. W. H. Woodroffe, on behalf of Mr. J. Pascall, for approval by the Board of a Plan for the construction of an iron concrete and glass enclosed footbridge to connect No. 101, Blackfriars-road, with a warehouse at the rear thereof.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

51. WESTMINSTER.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. R. H. Hill, on behalf of the Directors of Brin's Oxygen Company, Limited, for approval by the Board of a Plan for the construction of a brick and iron building at the works, at the rear of No. 69, Horseferry-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

52. WESTMINSTER.—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. R. H. Hill, on behalf of the Directors of Brin's Oxygen Company, Limited, for approval by the Board of a Plan for the construction of a chimney-shaft at the works, at the rear of No. 69, Horseferry-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, upon condition that the foundation of the proposed shaft be made in accordance with the provisions of the Building Act, 1855, and to the satisfaction of the District Surveyor, according to law, and that the superstructure be also erected to his satisfaction.

- 53. WHITECHAPEL.**—Read a Report by the Superintending Architect, dated 22nd February, 1886, on the application of Mr. J. F. Goodey, on behalf of the Co-operative Wholesale Society, for approval by the Board of an amended Plan for the construction of a temporary iron shed at the rear of No. 116, Leman-street.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, for a period of One year from this date, upon condition that the Owners do accept the License, prepared under the provisions of the Amendment Act, 1882, to secure the due removal of the building, and that the whole of the work be executed to the satisfaction of the District Surveyor.

- 54. CHELSEA.**—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Mr. A. Thorn, for approval by the Board of an amended Plan for the formation of an extension of Elm-park-mews, Callow-street, Fulham-road, approved by the Board on the 30th July, 1875 (No. 9), and for permission to re-name the said Mews “Henniker-mews.”

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 55. HAMPSTEAD.**—Read a Report by the Superintending Architect, dated 24th February, 1886, on a Letter from Mr. T. Blashill, District Surveyor, relative to the erection of a two-storey workshop on land, abutting upon a narrow foot-way at the rear of No. 178, High-road, Kilburn.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

- 56. LEWISHAM.**—Read a Report by the Superintending Architect, dated 24th February, 1886, on a Letter from Mr. H. S. Winnett, Clerk to the Lewisham District Board, relative to the erection of the forecourt wall of All Saint’s Orphanage, Granville-park, within the prescribed distance from the centre of the road provided by the Amendment Act, 1878.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the said Letter be referred to the Building Act Committee, for consideration and report.

- 57. POPLAR.**—Read a Report by the Superintending Architect, dated 17th February, 1886, on the application of Mr. J. B. Newton, on behalf of the North London Railway Company, for approval by the Board of a Plan for the formation of an extension of Brickfield-road, Bromley.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted on condition that no barriers be at any time erected or other obstructions caused to the free use by the public of the said road, and that the name “Brickfield-road, E.” (in continuation) for the same, be approved.

- 58. WANDSWORTH.**—Read a Report by the Superintending Architect, dated 24th February, 1886, on a Letter from the Wandsworth District Board, relative to the formation of Amies-street, Latchmere-road, Battersea, of a less width than that approved by the Board on the 9th January, 1880 (No. 7).

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 59. BERMONDSEY.**—Read a Report by the Superintending Architect, dated 23rd February 1886, on the application of Mr. L. R. Ford, on behalf of Messrs. J. Taylor and Son, for approval by the Board of a Plan for the construction of an open van shed at the rear of No. 109, St. James-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

- 60. GREENWICH.**—Read a Report by the Superintending Architect, dated 23rd February,

1886, on the application of Messrs. Humphrys Tennant and Co., for approval by the Board of a Plan for the re-construction of an addition to a marine boiler shop at their works at Deptford-pier with openings in excess of the limit prescribed by the 13th Section of the Building Act, 1855.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

- 61. LEWISHAM**—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Mr. T. J. Bailey, on behalf of the School Board for London, for approval by this Board of a Plan for the construction of two open play-sheds at the Schools in Park-road.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

- 62. SHOREDITCH**.—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Messrs. Gordon and Lowther, on behalf of Mr. R. T. Fish, for approval by the Board of a Plan for the construction of a building at Blossom-street, with openings in the front wall in excess of the limit prescribed by the 13th Section of the Building Act, 1855.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be granted, on condition that the whole of the work be executed to the satisfaction of the District Surveyor.

- 63. WESTMINSTER**.—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Mr. C. James, for approval by the Board of a Plan for the construction of an addition to a wood and iron shed at the rear of No. 103, Regency-street, with openings in excess of the limit prescribed by the 13th Section of the Building Act, 1855.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be not granted.

- 64. ST. GEORGE, HANOVER-SQUARE**.—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Messrs. G. H. and A. Bywaters, for approval by the Board of a Plan for the construction of openings in the party wall between Nos. 42 and 43, Park-lane, Piccadilly.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the application be referred to the Building Act Committee, for consideration and report.

- 65. LEWISHAM**.—Read a Report by the Superintending Architect, dated 25th February, 1886, on the application of Mr. J. Tolley, District Surveyor, for the appointment by Board of a Fee, for a special service performed by him in supervising the setting of two steam boilers, at the Gas Works, Lower Sydenham.

It was *moved* by Mr. Ewin, seconded, and *resolved*—That the District Surveyor be authorised to demand and receive a Fee of Thirty shillings in respect of the special service referred to.

- 66. CAMBERWELL**.—Read a Report by the Superintending Architect, dated 23rd February, 1886, on the application of Mr. W. H. Wood, for the approval by the Board of a Plan for the construction of a studio of wood and covered externally with Willesden paper, at the rear of No. 8, Claude-villas, Grove-vale.

It was *moved* by Mr. Ewin, and seconded—That the application be not granted.

An amendment thereon was *moved* by Mr. Middlemass, and seconded—That the application be referred to the Building Act Committee, for consideration and report, and that the parties interested be invited to attend the Committee, when the subject shall be considered.

The **amendment** having been put to the vote, it was declared by the Chairman to be carried, and having been put as an **original motion**, it was also carried, and it was **resolved** accordingly.

- 67. ISLINGTON.**—Read a Report by the Superintending Architect, dated 24th February, 1886, on the application of the Rev. W. E. Haigh, for the permission of the Board to retain, as a permanent structure, a wood and iron Mission-room, erected at St. George's-hall, Richmond-road, Barnsbury.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

- 68. WANDSWORTH.**—Read a Report by the Superintending Architect, dated 24th February, 1886, on the application of Mr. C. S. de Pothonier, for the approval by the Board of a Plan for the construction of a wood, iron and tile tool or coach-house at the rear of West End Lodge, Streatham-common.

It was **moved** by Mr. Ewin, seconded, and **resolved**—That the application be referred to the Building Act Committee, for consideration and report.

- 69.** The following Notice of Motion was given for the Meeting on Friday next, viz.—

By Mr. Fardell (No. 1,495)—That an instruction be given to the Works and General Purposes Committee to report to the Board upon the subject of the treatment of the Sewage of the Metropolis, and the arrangements (if any) for preventing the discharge of Sewage into the River Thames.

Adjourned until Friday, the 5th March next,
at this Office, at Twelve o'clock at noon.

No. 9.

At a Meeting of the Metropolitan Board of Works, held at the Office of the Board, Spring-gardens, on **Friday**, the **5th** day of **March**, 1886, under and by virtue of the Act of the 19th year of the reign of Queen Victoria, for the better Local Management of the Metropolis,

Present—LIEUTENANT-COLONEL SIR JAMES M. M^cGAREL-HOGG, BART., K.C.B., M.P.,
Chairman of the Board, in the Chair.

FRANCIS HAYMAN FOWLER, Esq., the Deputy-Chairman of the Board.

	EDWARD RIDER COOK, Esq., M.P.	

1. The Minutes of the Meetings of the Board, held on the 26th February last, were approved, and were signed by the Chairman, and by two other Members of the Board, present at such Meetings respectively.
2. Deputations from the Vestry of Bermondsey and inhabitants and tradesmen of the Parish, introduced by Mr. Shepherd, and consisting of the following gentlemen, viz.—Mr. J. Porter, Mr. A. Bedding, Mr. R. Bonny, Mr. D. M^cCarthy, Mr. A. F. Gardiner, Mr. J. Watson, Mr. G. Merralls, Mr. G. E. Reynolds, Mr. H. Stone, and Mr. I. Reeson, attended the Board, and presented Memorials, as follows—

To the Metropolitan Board of Works.

The Memorial of the Vestry of Bermondsey, in the County of Surrey.

SHEWETH,

1.—That by the Streets Improvement Act, 1877, powers were granted to your Honourable Board to make certain Improvements in the Metropolis, including the widening of Jamaica-road, in the Parish of Bermondsey.

5 March, 1886.

2.—The terms of the description of such Improvement being as follows—

“Jamaica-road and Union-road Improvement.—The further widening of Jamaica-road
“on the South side, from Major-road to Jamaica-level, and on its North side,
“from Cherry-garden-street to a point about twenty yards to the West thereof.”

3.—That by Section 31 of the said Act it is enacted that the powers of the Board for the compulsory purchase or taking of the lands authorised to be taken by that Act for the purpose of the Improvement should not be exercised after the expiration of seven years, to be computed from the passing of that Act, and that if any part of the Improvements should not be completed within ten years from the passing of that Act, then that on the expiration of that period, the powers of the Board under that Act for the execution thereof should cease to be exercised.

4.—The time, therefore, for the compulsory powers of purchase would expire on the 14th August, 1884, and for execution of the works on the 14th August 1887.

5.—By the Metropolitan Board of Works (Various Powers) Act, 1884, the time limited, as above set forth, for compulsory purchase with regard to the West-end new Streets and Street Improvement, and the Southwark-bridge-road and Great Dover-street communication, was extended to the 14th day of August, 1887, but no authority was then taken by the Board for an extension of time as respects the Jamaica-road Improvement of the Act of 1877.

6.—Your Honourable Board has carried out a portion of the Improvement of Jamaica-road on the South side—that is to say, between Drummond-road and Jamaica-level; but has not carried out the Improvement between Major-road and Drummond-road.

7.—Your Memorialists have continually had before them complaints from Owners and Occupiers of property in Jamaica-road of injury sustained by them by reason of the very great delay in carrying out the contemplated Improvements.

8.—Your Memorialists know, from practical experience as to the wants of the neighbourhood, that the widening of Jamaica-road is a desideratum which would be welcome to all persons in that locality, where much time is daily lost by the congestion of the traffic in the road, which has for a long time past been far too narrow for the numerous vehicles continually plying therein, which said road is the main thoroughfare between Commercial Docks and London Bridge, and where are many and extensive wharves, warehouses, factories, and shops from and to which goods are at all times being transferred.

9.—Your Honourable Board is now seeking powers from Parliament by means of a Bill intituled “A Bill to confer further powers on the Metropolitan Board of Works as to Streets and Open Spaces, and for other purposes,” by Section 35 of which Bill it is proposed to extend the time for purchase of certain property set forth in the Schedule thereto, and forming part of the property affected by the Improvement authorised by the Act of 1877.

10.—Your Memorialists beg to submit that the present opportunity of extending the time limited for purchase of land and execution of works in the case of Jamaica-road, ought not to be lost, and urge your Honourable Board to include in the said Bill now pending in Parliament a Clause to extend such time so limited as aforesaid, or if necessary to re-enact the provisions of the Act of 1877, so far as the projected Improvement of Jamaica-road on the South side is concerned.

11.—Your Memorialists also beg to submit to your Honourable Board that the present time is a good opportunity for acquiring at a low price the necessary sites in Jamaica-road for the proposed widening, the inhabitants being most anxious for the Improvement.

Your Memorialists therefore pray your Honourable Board to take immediate steps to complete the Improvement in Jamaica-road, any further delay in the matter being most prejudicial to the tradesmen and other ratepayers, and for such purpose to obtain from Parliament an extension of the time for compulsory purchase limited by the Street Improvement Act of 1877, or in the alternative a re-enactment of that Statute so far as regards the Improvement of Jamaica-road on the South side.

And your Memorialists will ever pray, &c.

The Seal of the Vestry of the Parish of Bermondsey was hereto affixed
by Order of the said Vestry, on the day of March, 1886, in the
presence of

(Signed) J. HARRISON,
Clerk.

L.S.

Re JAMAICA-ROAD IMPROVEMENT.

Memorial to the Honourable the Chairman and the Members of the Metropolitan Board of Works.

The Humble Petition of your Memorialists

SHREWETH,

That your Memorialists desire to place before your Honourable Board the following statements with respect to the proposed widening of Jamaica-road, Bermondsey, from Drummond-road to Major-road, to carry out which your Honourable Board obtained Parliamentary powers in the year 1877, but which powers your Memorialists believe your Honourable Board have resolved not to put in force.

Your Memorialists fully appreciate the efforts of your Honourable Board which have resulted in the widening of Dockhead, in this Parish, and of the extreme Eastern portion of Jamaica-road, by which the congested traffic has been relieved to a considerable extent, but the full benefits of the latter Improvement cannot be fully appreciated unless the said widening is continued in a Westerly direction, at least as far as Keetons-road on the South side of the main thoroughfare.

Your Memorialists cannot but think that if your Honourable Board consents to a re-consideration, by which they express an opinion that this widening is unnecessary, they will not fail to perceive that the dangers to which the public are now exposed demand that further attention shall be given to this question. The traffic passing along Jamaica-road is of an exceptionally heavy character, comprising the carriage of timber in large quantities from the Surrey Commercial Docks to the Northern and Eastern parts of the Metropolis. The local traffic, too, is largely supplemented by the vehicles passing to and from Deptford Cattle Market, whilst in itself that traffic is increasing in volume. The erection of the new Tower Bridge is calculated to increase that traffic, therefore your Memorialists would urge your Honourable Board to consider the imperative necessity of effecting the important widening.

Your Memorialists would direct attention to the dangers attendant upon the pedestrian traffic, by the erection of posts upon the footpath marking the boundaries of the properties abutting upon the Jamaica-road and Drummond-road, which posts have long proved sources of danger, which would be obviated by the carrying out of the proposed Improvements.

Your Memorialists cannot think that that which was deemed by your Honourable Board a necessary undertaking as far back as the year 1877, will be regarded now by you as unnecessary, as during the ten years which have since elapsed, the adjacent districts have largely increased in population, thereby adding to the traffic, vehicular and pedestrian, which passes this point.

Your Memorialists submit that this Improvement is essentially Metropolitan in its character, as Jamaica-road is the great highway from London-bridge to Deptford, Greenwich, and the South-Eastern suburban districts. These various points your Memorialists submit to your Honourable Board, praying that further consideration may be given to them by you, and that the Improvement may be speedily carried out.

And your Memorialists will ever pray, &c.

(Signed) JAMES ABBOTT & CO.,
40, Jamaica-road, Dockhead,
And 113 others.

The Deputations having addressed the Board in support of the Memorials,

It was moved by Mr. Shepherd, seconded by Mr. Tolhurst, and resolved—That the Memorials be referred to the Works and General Purposes Committee, for consideration and report.

3. The Clerk presented a Letter, as follows—

Chamber of London, Guildhall, E.C.,
1st March, 1886.

DEAR SIR,—I beg to enclose herewith a statement of the receipt of the Coal Duties (8d. and 1d. per ton), and the Duty on Wine, from the 1st October, 1885, to the 31st December, 1885, showing the net proceeds of the same, viz., £97,006 3s. 1d., and to inform you that I have to-day paid that amount into the Bank of England to the credit of the account of the "Thames Embankment and Metropolis Improvement Fund."

I am, &c.,
(Signed) BENJAMIN SCOTT,
Chamberlain.
To J. E. Wakefield, Esq.,
Clerk to the Metropolitan Board of Works,
Spring-gardens.

5 March, 1886.

The Statement referred to was laid before the Board.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That a Cheque for the sum of £97,006 3s. 1d. be now drawn on the Thames Embankment and Metropolis Improvement Fund, for transferring that amount from the Bank of England to the Board's Account at the London and Westminster Bank.

A Cheque was thereupon drawn accordingly.

It was *moved* by Mr. Fardell, seconded, and *resolved*—That the said Letter and Statement be referred to the Finance Committee.

4. Mr. Webster handed in a Letter, as follows—

Parish of St. George, Hanover-square.

Temporary Offices—9, Commercial-road, Pimlico, S.W.
4th March, 1886.

HYDE-PARK-CORNER (NEW STREETS) BILL.

SIR,—The Vestry of this Parish, at their Meeting to-day, had the above-named Bill under consideration, and passed the following unanimous Resolution thereon, viz.—“That the Metropolitan Board of Works be asked to arrange for a conference with the Vestry of St. Martin-in-the-Fields and this Vestry, to see whether any equitable arrangement can be come to with regard to the future maintenance of the new roads. The conference, if called and no arrangement come to, to be without prejudice to any future action on the part of either of the three bodies interested.”

Will you kindly lay this Resolution before your Board?

I am, &c.,
(Signed) J. H. SMITH,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk, Metropolitan Board of Works.

It was *moved* by Mr. Webster, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, with authority to act upon any Resolution at which they may arrive with regard thereto.

5. Mr. Webster handed in a Letter, as follows—

Parish of St. George, Hanover-square.

Temporary Offices—9, Commercial-road, Pimlico, S.W.,
4th March, 1886.

SIR,—I am directed by the Vestry of this Parish to inform you that they propose spending the sum of Ten thousand pounds (£10,000) in extending the wood pavement in the following road-ways of this Parish, viz.—

Buckingham-palace-road (from Grosvenor Hotel to Ebury Bridge).
Conduit-street.
Half Moon-street.
Pimlico-road.
Queen-street (Mayfair).
Wilton-road.

And I am further to ask your Board to grant a Loan for the sum named, to enable the Vestry to meet the expenditure. The Loan to be re-paid by seven equal annual instalments.

The Vestry are desirous of commencing the work as soon as they possibly can, so as to assist in giving employment to men now out of work.

I am, &c.,
(Signed) J. H. SMITH,
Vestry Clerk.

J. E. Wakefield, Esq.,
Clerk to the Metropolitan Board of Works.

It was *moved* by Mr. Webster, seconded, and *resolved*—That the Letter be referred to the Finance Committee, for consideration and report, and that the Engineer, the Solicitor, and the Accountant do report to the Committee thereon.

6. Mr. Middlemass handed in a Letter, as follows—

Vestry St. Giles, Camberwell.

Vestry Clerk's Department,
 Vestry-hall, Camberwell, S.E.,
 March 4th, 1886.

DEAR SIR,—I am directed by the Vestry to forward for the consideration of your Board the following Resolution passed at a meeting of the Vestry last night—

“That this Vestry have learned with deep regret that the Metropolitan Board of Works contemplate re-conveying $1\frac{3}{4}$ acres of land to Dulwich College, being a part of the land devoted by the Governors, by Act of Parliament, to the use of the public for ever. The Vestry respectfully requests the Board to abandon such intention of re-conveying any part of land which has become public property.”

I am, &c.,
 (Signed) GEO. W. MARSDEN,
 Vestry Clerk.

J. E. Wakefield, Esq.,
 Clerk to the Metropolitan Board of Works,
 Spring gardens, Charing-cross.

It was *moved* by Mr. Middlemass, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, and the Parliamentary Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

7. Mr. Middlemass handed in a Letter, as follows—

Vestry St. Giles, Camberwell.

Vestry Clerk's Department,
 Vestry-hall, Camberwell, S.E.,
 March 4th, 1886.

DEAR SIR,—I am directed by the Vestry to draw the attention of your Board to the extension of a new shop, at the corner of Elsie-road, East Dulwich, to 3 feet 6 inches, instead of 2 feet 8 inches, as sanctioned by your Board, and to request that your Board may take such action as may be necessary.

I am, &c.,
 (Signed) GEO. W. MARSDEN,
 Vestry Clerk.

J. E. Wakefield, Esq.,
 Clerk to the Metropolitan Board of Works,
 Spring-gardens, Charing-cross.

It was *moved* by Mr. Middlemass, seconded, and *resolved*—That the Letter be referred to the Building Act Committee, for consideration and report, and that the Superintending Architect do report to the Committee thereon.

8. Mr. Richardson handed in a Letter, as follows—

Board of Works for the Greenwich District.

141, Greenwich-road, Greenwich, S.E.,
 4th March, 1886.

SIR,—I am instructed by this Board to suggest, on their behalf, to the Metropolitan Board of Works, that a Subway be constructed from the Upper Watergate, at the Northern end of Watergate-street, under the Thames, to the Ferry-road, Millwall, and that the Metropolitan Board of Works should take measures to carry out this work.

I am, &c.,
 (Signed) J. SPENCER,
 Clerk of the Board.

The Clerk,
 Metropolitan Board of Works,
 Spring-gardens, S.W.

It was *moved* by Mr. Richardson, seconded, and *resolved*—That the Letter be referred to the Works and General Purposes Committee, for consideration, in connection with the references already made to them on the subject to which it relates.

5 March, 1886.

9. Mr. Meaden handed in a Letter, as follows—

The Board of Works for the Wandsworth District.

Battersea-rise, S.W.,

4th March, 1886.

DEAR SIR,—I am instructed by this Board to apply for the consent of the Metropolitan Board of Works to their raising a Loan of Two thousand pounds, for the purpose of defraying the expense of paving with wood so much of Clapham-park-road as lies between Clapham-cross and Pleasant-place, and the margins of the carriage-way in High-street, Clapham.

I am also to ask the Metropolitan Board of Works to advance such Loan, the principal to be re-paid in seven years.

I annex a copy of the Surveyor's Estimate.

Yours, &c.,

(Signed)

HEN. GEO. HILLS,

Clerk.

J. E. Wakefield, Esq.,

Spring-gardens, S.W.

It was moved by Mr. Meaden, seconded, and resolved—That the Letter be referred to the Finance Committee, for consideration and report, and that the Engineer, the Solicitor, and the Accountant do report to the Committee thereon.

10. Mr. Tolhurst handed in a Letter, as follows—

Parish of St. John, Horselydown, S.E.,

3rd March, 1886.

DEAR SIR,—The Churchwardens of the Parishes of St. Olave and St. John, Southwark, by the desire of the Parishioners, propose to open a disused graveyard, in St. John's Parish, known as "The Old Burial-ground," as a place of resort for the inhabitants of the Parishes.

The ground was closed for burials in 1853. It is about half-an-acre in extent, with a frontage of 130 feet on Tooley-street. The enclosed section of the Ordnance Map will show how suitable the ground is for the purpose proposed.

The cost of converting the ground is estimated at £1,017. The Churchwardens trust to be able to raise half that sum by subscriptions, and they now desire me to ask your Board to contribute the other moiety of the cost.

I am, &c.,

(Signed)

EDRIC BAYLEY,

Vestry Clerk,

for self and Vestry Clerk of St. Olave's.

J. E. Wakefield, Esq.,

Clerk, Metropolitan Board of Works.

It was moved by Mr. Tolhurst, seconded, and resolved—That the Letter be referred to the Works and General Purposes Committee, for consideration and report.

11. Mr. Fowler, the Deputy-Chairman of the Works and General Purposes Committee, brought up a Report, as follows—

REPORT OF THE WORKS AND GENERAL PURPOSES COMMITTEE.

Spring-gardens, 1st March, 1886.

Your Committee submit, for the information of the Board, an Account of sales by Messrs. Horne, Son and Eversfield of building materials and fixtures in Dudley-street and Oxford-street on 7th and 13th January, 1886—

Gross proceeds of Sales	£58	-	-
Commission, £7 10s. per cent.	4	7	-
Amount received by the Board, 17th February, 1886 ...	£53	13	-

Your Committee, in pursuance of the General Order of the Board of the 16th May, 1879 (No. 72), directing the Finance Committee to prepare and submit to the Works and General Purposes Committee from time to time the Estimates of the amounts required to be raised under the provisions of the Board's Money Acts, have received from the Finance Committee the Estimates prepared by your Accountant of the new borrowing powers required in connection with the Board's Money Bill for 1886. Your

Committee have given very careful consideration to the matter, and they recommend—

That the following Estimates and provisions be approved and inserted in the Bill—

	For Board's own purposes. £	To lend to other Bodies. £
1. Supplemental up to 31st December, 1886—		
Fire Brigade (including £900 to repay the Working Account an advance in 1885) ...	*11,000	
Bridges under Act of 1877 ...	10,000	
Bridges under Acts of 1881 and 1884 ...	8,000	
Bridges under Act of 1883 ...	13,000	
Main Drainage (including Precipitation Works)	165,000	
Thames River, Prevention of Floods ...	*4,000	
Artizans' Dwellings ...	*23,000	
Streets under Act of 1883 ...	84,000	
Various Powers Act of 1884 ...	72,000	
Loans to Vestries ...		100,000
Loans to Guardians ...		100,000
2. From date of New Money Act up to 31st December, 1887 (should the undermentioned Bill of the present Session become law)—		
Various Powers, 1886 ...	53,000	
3. For 1887—		
Fire Brigade ...	*35,000	
Parks, Commons and Open Spaces ...	15,000	
Bridges under Act of 1877 ...	19,000	
Bridges under Acts of 1881 and 1884 ...	99,000	
Bridges under Act of 1883 (including freeing East and West Ferry Roads) ...	10,000	
Main Drainage (including Precipitation Works)	349,000	
Thames River, Prevention of Floods ...	*2,000	
Artizans' Dwellings ...	*28,000	
Streets under Act of 1877 ...	*40,000	
Streets under Act of 1883 (including freeing Footbridges over Canal) ...	61,000	
Minor Improvements and Contributions to Local Improvements (including Improvements sanctioned by Parliament, for which no provision is elsewhere made in this Act) ...	100,000	
Various Powers Act of 1884 ...	32,000	
Various Powers Act of 1885 ...	221,000	
Loans—Vestries and District Boards ...		200,000
„ Guardians ...		200,000
„ Managers of Metropolitan Asylum District ...		50,000
„ School Board for London ...		300,000
„ Other Public Bodies ...		100,000
TOTALS ...	1,454,000	1,050,000
DEDUCT—Borrowing power re-granted ...	842,871	315,518
	611,129	734,482
NEW BORROWING POWER ...	1,345,611	
4. For 1887—General power is required to raise Stock, if necessary, to pay Stamp-duty and other charges incidental to the creation of Stock (<i>vide</i> 38 and 39 Vic. c. 65, sec. 8).		

* Or such further sum as the Treasury may approve.

Your Committee have further to report that they have considered the Memorial, referred by the Board on the 12th ultimo (No. 2), from inhabitants of the Eastern portions of the Metropolis, praying the Board to take early measures to permit the embankment of the Northern Outfall Sewer to be used as a footpath and promenade.

Your Committee have also had before them the Letter from Lord Brabazon, Chairman of the Metropolitan Public Garden, &c., Association, and the several other Memorials and communications, which have been addressed to the Board on the same subject. The question, as the Board are aware, has been under consideration upon one or two previous occasions, more particularly with reference to an application on behalf of the workmen employed by the Gas Light and Coke Company at Beckton that they might be permitted to pass along the embankment in going to and from their work. This request the Board, after careful deliberation, did not feel justified in acceding to. Your Committee, in considering the present Memorial, have had before them a Plan and Sections, prepared by your Engineer, under their instructions, showing the whole length of the embankment and its immediate surroundings. From this Plan and the information which has been laid before your Committee, they find that the Northern Outfall Sewer between Wick-lane and the Barking Outfall is 5 miles in length; that from Wick-lane to the North Woolwich Branch of the Great Eastern Railway, a length of about $1\frac{1}{2}$ miles, it passes through a densely peopled neighbourhood, crosses several Railways, one being on the level, and also passes over the River Lee and its tributaries. It passes through the Board's Abbey-mills Pumping Station, and is surrounded, up to that point, by chemical, dye, tar, paraffin, and other noxious works. From the Great Eastern Railway to the Barking-road, the next mile, it passes over the Tilbury and Southend Railway, and through Plaistow near its crossing under the Barking-road. For the remaining $2\frac{1}{2}$ miles, from the Barking-road to the Barking Outfall, it passes through marshes at a considerable distance from any populous places, with the Barking-road on the North and the road from Canning-town to the Beckton Gas works on the South, running in nearly the same direction, each at an average distance of $\frac{1}{2}$ a mile from the Sewer. These two roads are very little built upon, and your Committee are informed by your Engineer that they afford, probably, a better and safer play-ground for children than the Outfall Sewer. The South side of the Sewer, from East Ham-lane to the Outlet, is occupied by the Beckton Gas and Chemical works. Your Engineer has stated to your Committee that in order to render the embankment a safe promenade and playground for children, it would be necessary to fence the top of it on both sides, to protect its slopes and the land of adjoining landowners, and that he estimates the cost of that and the requisite works for the formation of the road-way at upwards of £30,000, exclusive of the annual cost of lighting, maintenance, and police supervision. The top of the embankment is about 40 feet wide, and the space between the fencing would, your Engineer reports, be about 30 feet. In addition to the foregoing particulars, your Committee learn that there are 138 sewer ventilators along the centre of the road-way. Having regard to all the circumstances your Committee, whilst they feel assured that the Board have every desire to assist in adding as far as practicable to the number of the spaces which can be utilised for the health and recreation of the people, are convinced that the Sewer embankment, which is the subject of this Report, is quite unsuitable for such a purpose, and they recommend—

That a reply to that effect be addressed to the several Memorialists.

Your Committee have considered the Letter, referred by the Board on the 26th ultimo (No. 29), from Lord Charles Bruce, transmitting a copy of Resolutions passed by the Committee of the Mansion House Relief Fund for the unemployed, to the effect that the Committee would be prepared, provided that the works were commenced within three weeks, to vote £5,000 towards the conversion of the Northern Main Drainage embankment into a public boulevard, the formation of a recreation ground on the site of the Isle of Dogs, recommended by Mr. Bryce, M.P., and the laying out of a public garden at Fulham, on the site offered by the late Bishop of London. Your Committee recommend—

That Lord Charles Bruce be informed to the effect of the preceding recommendation, and that as regards the suggested recreation ground and public garden, the Board are not in

possession of any land in the Isle of Dogs or at Fulham which could be devoted to that purpose.

Your Committee have considered the Letter referred by the Board on the 26th ultimo (No. 13) from Mr. W. M. Acworth, on behalf of the Camberwell Committee of the Mansion House Fund, urging the Board to put in hand at once their projected works in connection with the proposed Park at Dulwich, and the improvements on Peckham-rye-common. Your Committee recommend—

That Mr. Acworth be informed, in reply, that the Board will expedite their operations in those places as much as possible.

Your Committee have further to recommend—

That a similar reply be sent to the Letter from Mr. W. H. C. Brunlees, enquiring, as a member of the Sub-Committee for Camberwell of the Mansion House Relief Fund, whether the Board cannot at once commence the works attending the laying out of the proposed new Park at Dulwich.

Your Committee have further to report that they have considered the Letter, referred to them on the 18th December last (No. 42), from the Vestry of Rotherhithe, expressing regret at the decision of the Board which regards the suggested Improvement by setting back the buildings at the junction of Union-road and Deptford Lower-road as one of a local character, and asking the Board to re-consider their determination, and accede to the request of the Vestry to treat the work as a Metropolitan Improvement. In compliance with the reference made to them your Committee have again given their best attention to the matter, and recommend—

That the Vestry be informed that the Board are unable to depart from their previous decision.

Your Committee have considered the Notice, referred by the Board on the 19th ultimo (No. 38), from the West Middlesex Waterworks Company, of their intention to extend the system of constant supply of Water to a further portion of the District supplied by them in the Parish of St. Pancras. The supply is proposed to be given on and after the 1st July next in the part of the Parish North of Edward-street and Cumberland-market, East of Albany-street, &c., and West of Hampstead-road, as described in the Notice. Upon the several previous similar Notices received from the West Middlesex and the other Water Companies, the Board have decided, upon the recommendation of your Committee, to offer no objection to the proposals, and your Committee see no reason to recommend the Board to adopt a different course with regard to the present Notice.

Your Committee have considered the references made to them by the Board on the 3rd August, 1883 (No. 6), the 9th November, 1883 (No. 10), and 13th November, 1885 (No. 9), as to the Improvement effected by the Vestry of St. Pancras at Mabledon-place, Euston-road, and the amount of the Board's contribution to the cost. The Board, on the 10th February, 1882 (No. 6), agreed to contribute one-half of the net cost, not exceeding £2,375, of widening the Northern entrance to Mabledon-place, and the road-way on the Eastern side of Burton-crescent. Your Finance Committee, on that day, reported that the works at Mabledon-place had been completed, but from a Letter received from the Vestry it appeared that, owing to difficulties which had arisen as to the widening of Burton-crescent, they had abandoned their intention of carrying out that part of the work. As by the Board's Resolution the contribution was only payable on the completion of the works in respect of both sections of the Improvement, it was necessary that the Board should decide what proportion of the amount should be paid in respect of the Mabledon-place Improvement; and your Committee were instructed to consider that. The matter has been before your Committee on several occasions, and they have ascertained that the amount paid for the acquisition of land for the Improvement has been £3,130 12s. 1d., and they are of opinion that the Board's contribution should be limited to one-half of that amount, viz., £1,565 6s. They beg to recommend in accordance with that view.

Your Committee have considered the Letter, referred to them on the 19th ultimo (No. 29), from Mrs. C. Desgratoulet, asking the Board, for the reasons stated therein, to re-consider her claim for compensation for alleged loss consequent on the occasional flooding of the basements of her houses, Nos. 162, 164, 166, 168 and 170, Tachbrook-street, Pimlico; and expressing regret that a manhole should have been made opposite No. 170 in that street. Having carefully considered the matter and conferred with your Engineer, your Committee are unable to advise the Board to depart from their previous decision, declining to admit liability in the matter, and they recommend—

That a reply be addressed to Mrs. Desgratoulet accordingly.

With respect to the manhole lately constructed opposite No. 170, Tachbrook-street, your Committee find that it has been provided, under the Resolution of the Board of the 18th December last (No. 17), for the purpose of affording additional safety to the men who have to work in the Sewer in which the waters at times rise very rapidly, and also to enable them to attend to the several drains and flaps connected with it. Its position was selected owing to the extreme difficulty of finding any other suitable one in consequence of the vaults being in the way, and your Engineer reports that it will not be very frequently used, and that care will be taken to prevent any nuisance arising from it.

Your Solicitor has laid before your Committee correspondence relating to a mortgage of the retention-money now in the hands of the Board in connection with Messrs. Kellett and Bentley's Contract for the Lee and Eltham Sewer. The effect of the correspondence is an application by the Mortgagee that the Board will either invest it in the Board's Three per cent. Stock, or place it upon deposit at interest with their Bankers. Your Committee have conferred with your Solicitor, and they beg to recommend—

That the retention-money, amounting to £3,200, be, at the election of the Mortgagee, deposited at the London and Westminster Bank, or invested in Metropolitan Consolidated Stock, in the name of the Chairman of the Board, subject to a proper memorandum being prepared by the Solicitor for the signature of the necessary parties.

Your Committee have considered the Letter, referred to them on the 29th January last (No. 15), from the Wandsworth District Board, applying under Section 72 of the Metropolis Local Management Act, 1862, for a contribution towards the cost of embanking the towing-path above Putney Bridge. The proposition of forming the embankment in question arose out of the provisions of the Thames Floods Prevention Act, and the facts of the case were, it may be remembered, very fully reported to the Board by the Bridges Committee on the above date. There is no doubt that the Improvement will be of a highly useful character, and your Committee, having received Reports from your Officers, recommend—

That the Board do contribute, on the usual conditions, one-half of the cost estimated at £2,700, such contribution not to exceed the sum of £1,350.

All which your Committee beg to submit.

W^m. SHEPHERD.

The Account of sales of building materials in Dudley-street and Oxford-street, submitted with the Report, was laid before the Board.

The Report having been read and received,

It was **moved** by Mr. Fowler, seconded, and **resolved**—That the following estimates and provisions be approved and be inserted in the Board's Money Bill, 1886—

	For Board's own purposes. £	To lend to other Bodies. £
1. Supplemental up to 31st December, 1886—		
Fire Brigade (including £900 to repay the Working Account an advance in 1885) ...	*11,000	
Bridges under Act of 1877 ...	10,000	
Bridges under Acts of 1881 and 1884 ...	8,000	
Bridges under Act of 1883 ...	13,000	
Main Drainage (including Precipitation Works) ...	165,000	
Thames River, Prevention of Floods ...	*4,000	
Artizans' Dwellings ...	*23,000

DEDUCT—Borrowing power re-granted ...	842,871	315,518
	611,129	734,482
New Borrowing Power ...	£1,345,611	

* Or such further sum as the Treasury may approve.

4. For 1887—General power is required to raise Stock, if necessary, to pay Stamp Duty and other charges incidental to the creation of Stock (*vide* 38 and 39 Vic., c. 65, sec. 8).

It was **moved** by Mr. Fowler, seconded, and **resolved**—That it be referred to the Parliamentary Committee to prepare the Board's Money Bill for 1886.

It was **moved** by Mr. Fowler, and seconded—That so much of the Report as relates to the Memorial recently presented to the Board from inhabitants of the Eastern portions of the Metropolis, requesting the Board to take early measures to permit the Northern Outfall Sewer embankment to be used as a footpath and promenade, and on the several previous Memorials and communications addressed to the Board on the same subject, be approved; and that the Memorialists be informed that, in the opinion of the Board, the embankment is unsuitable for the purposes suggested, and that the carrying out of the proposal would, moreover, involve a very considerable cost.

An amendment thereon was **moved** by Mr. Cook, pursuant to notice, and seconded by Mr. Lenanton—That, considering the great public benefit which the formation of a promenade on the top of the Main Drainage embankment would confer upon the inhabitants of the neighbourhood, the Board is willing to pay one-half of the cost of the works necessary to render it fit for the public use, upon condition that the local authorities through whose districts the embankment passes, are willing to contribute the remaining half, and, upon the embankment being thrown open to the public, to pay for the lighting, cleansing, and police which will be necessary.

After discussion, the **motion** was put to the vote, when there were for it 19, against it 23, and it was declared by the Chairman to be lost.

A Division having been demanded and granted, the names of the Members voting were taken down, when there were—

For the Amendment—22.

Brown, G., Esq.	Middlemass, A., Esq.
Cameron, A., Esq.	Phillips, G., Esq.
Cox, F., Esq.	Richardson, G. B., Esq.
Edwards, G., Esq.	
Ewin, A., Esq.	Rogers, E. Dresser,
Fairclough, T. M., Esq.	
	Runtz, J., Esq.
Fardell, T. G., Esq.	Saunders, J. E., Esq., Deputy.
Freeman, R., Esq.	
Harris, C., Esq.	Tolhurst, J., Esq.
Jolly, J. R., Esq.	Urquhart, W., Esq.
Jones, J., Esq.	Williams, T. W., Esq.
Lenanton, J., Esq.	

Teller—Mr. Cook, M.P.

Against the Amendment—22.

Bonthron, J., Esq.	Meaden, G. P., Esq.
Boucher, W., Esq.	Mossop, C., Esq.
Bradfield, J. E., Esq.	Munro, Lieut.-Colonel.
Egerton, Hon. A.	
de Tatton, M.P.	Reddish, J., Esq.
Fowler, Sir R. N., Bart., Ald., M.P.	Robson, W., Esq.
	Selway, W. R., Esq.
Funnell, P. W., Esq.	Shepherd, W., Esq.
Furniss, R., Esq.	Webster, R. G., Esq.
Garrett, W. B., Esq.	
Hewitt, W. H., Esq.	Weir, B., Esq.
Hill, G., Esq.	Wetenhall, W. J., Esq.
Jones, R., Esq.	

Teller—Mr. Fowler.

A further amendment was then **moved** by Mr. Runtz, and seconded by Mr. Freeman—That the subject be referred back to the Committee, for further consideration and report.

The amendment having been put to the vote, there were for it 24, against it 18, and it was declared by the Chairman to be carried, and having been put as an **original motion**, it was also carried; and it was **resolved** accordingly.

It was **moved** by Mr. Fowler, seconded, and **resolved**—That so much of the Report as relates to the Letter from Lord Charles Bruce, transmitting a copy of Resolutions passed by the Committee of the Mansion House Relief Fund for the unemployed, to the effect that the Committee would be prepared, provided the works were commenced within three weeks, to vote £5,000 towards the conversion of the Northern Main Drainage embankment into a public boulevard, the formation of a recreation-

ground on the site of the Isle of Dogs, recommended by Mr. Bryce, M.P., and the laying out of a public garden at Fulham, on the site offered by the late Bishop of London, be approved, and that Lord Charles Bruce be informed that, as regards the suggested recreation-ground and public garden, the Board are not in possession of any land in the Isle of Dogs or at Fulham which could be devoted to that purpose.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That Mr. W. M. Acworth be informed, in reply to his Letter, on behalf of the Camberwell Committee of the Mansion House Fund, urging the Board to put in hand at once their projected works in connection with the proposed Park at Dulwich, and the improvements on Peckham-rye-common, that the Board will expedite their operations in those places as much as possible ; and that a similar reply be sent to the Letter from Mr. W. H. C. Brunlees, enquiring, as a member of the same Committee, whether the Board cannot at once commence the works attending the laying out of the proposed Park at Dulwich.

It was *moved* by Mr. Fowler, and seconded—That the Vestry of Rotherhithe be informed, in reply to their Letter renewing their application that the Board would carry out as a Metropolitan Improvement the setting back of the buildings at the junction of Union-road and Deptford Lower-road, that the Board are unable to depart from their previous decision in the matter, declining to regard the work as a Metropolitan Improvement.

An amendment thereon was *moved* by Mr. Tolhurst, pursuant to notice, and seconded by Mr. Richardson—That, as the object of the Vestry of Rotherhithe in asking the Board to widen Union-road by setting back the “ Royal Oak ” Public-house, &c., is that the Improvement already made by the Board in that locality may be rendered more perfect, the question of effecting the further Improvement desired be referred back to the Committee, with a view to the requisite powers for the purpose being included in any Bill that may be promoted by the Board in the next Session of Parliament.

The amendment having been put to the vote, there were for it 13, against it 20 ; and it was declared by the Chairman to be lost.

The original motion was then put to the vote, and declared by the Chairman to be carried ; and it was *resolved* accordingly.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the Board do not dissent from the proposal of the West Middlesex Waterworks Company, to extend the system of constant supply of Water to a further portion of the District supplied by them in the Parish of St. Pancras.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That so much of the Report as relates to the Improvement effected by the Vestry of St. Pancras at Mabledon-place, Euston-road, be approved, and that the Board’s contribution be limited to one moiety of £3,130 12s. 1d., being the amount paid for the acquisition of the land, and that the Vestry be informed accordingly.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That so much of the Report as relates to the Letter from Mrs. C. Desgratoulet, renewing her application for compensation for alleged loss consequent on the occasional flooding of the basements of her houses, Nos. 162, 164, 166, 168, and 170, Tachbrook-street, Pimlico, be approved, and that a reply in accordance with the Report be sent to Mrs. Desgratoulet.

It was *moved* by Mr. Fowler, seconded, and *resolved*—That the retention money, amounting to £3,200, now in the hands of the Board in respect of Messrs. Kellett and Bentley’s Contract for the Lee and Eltham Sewer be, at the election of the Mortgagee, deposited at the London and Westminster Bank, or invested in Metropolitan Consolidated Stock, in the name of the Chairman of the Board, subject to a proper memorandum being prepared by the Solicitor for the signature of the necessary parties.

It was *moved* by Mr. Fowler, seconded by Mr. Meaden, and *resolved*—That the Board do contribute, on the usual conditions, one-half of the cost, estimated at £2,700, proposed

to be incurred by the Wandsworth District Board in embanking the towing-path above Putney Bridge, such contribution not to exceed the sum of £1,350.

12. Mr. Hill, the Chairman of the Fire Brigade Committee, brought up a Report, as follows—

REPORT OF THE FIRE BRIGADE COMMITTEE.

Spring-gardens, 2nd March, 1886.

Your Committee have to report that a Barge is required for the storage of Coal and Coke for the use of the floating Fire-engines on the River. Originally the Board placed at the disposal of the Fire Brigade for that purpose the Pontoon in a recess of the Embankment, adjacent to the Charing-cross Railway Bridge, but in the year 1874 the Pontoon was removed to make way for a floating Swimming-bath, the Board having granted the use of the site to the Floating Swimming-bath Company, on condition that the Company provided a Barge for the Fire Brigade in substitution for the Pontoon. The Pontoon, it may be mentioned is now at Woolwich, and is let to the River Thames Steamboat Company, which pays a rent of £40 a year for it. So long as the Swimming-bath remained on the site granted by the Board, the Company maintained the Barge for the use of the Brigade according to the Agreement. Last year, however, the Company failed, and its affairs went into liquidation, and as the South-Eastern Railway Company was then beginning the work of widening the Railway Bridge over the Thames, and the Swimming-bath structure was in the way, the Railway Company bought the structure and removed it. The Board's License to the Swimming-bath Company, and the condition above referred to on which the License was granted have, therefore, since the removal of the Barge last August, been at an end, and the Board has now to pay for the use of a Barge since that date at the rate of £8 6s. 8d. a month. This amounts to £100 a year, and, as it is probable that it will for a long time to come be necessary to have a Barge moored in the River for the storage of the Coal and Coke required for the Floating-engines, your Committee are of opinion that it will be better for the Board to have an iron Barge made for the purpose. Your Committee accordingly recommend—

That they be authorised to have one made, and that, as the Barge will be an addition to the plant of the Fire Brigade, the cost of it be charged to the Capital Account.

The Chief Officer has reported that one of the Steam Fire-engines, No. 66, which was made for the Board in 1874, by Messrs. Shand, Mason and Co. at a cost of £400, is now in need of extensive repairs. As the sum of £379 2s. 3d. has already been spent in repairing the Engine from time to time, and, as the large further expenditure which would now be necessary would, according to the Chief Officer, only result in making the Engine good for work for about another year, it appears to your Committee that a new Engine should at once be obtained, and the old one given up to the makers in part payment. They recommend—

That they be authorised to obtain a new Engine accordingly.

The Chief Officer has reported that Engineer T. K. Langhelt has expressed his wish to retire from the Brigade. As Langhelt is 55 years of age, and has completed 31 years' service, he is entitled under the Board's Regulations to retire with the maximum Pension of his rank, namely, £2 1s. 10d. a week. Your Committee accordingly recommend—

That he be allowed to retire with a Pension of that amount.

Henry Moore, a Fourth-class Fireman who joined the Brigade in January last, is reported by the Chief Officer to have been on the sick list since the 18th of that month, 11 days after he joined, with an ulcerated leg. For nearly three weeks past he has been in Guy's Hospital, and, as he is progressing but slowly towards recovery, there seems reason to think that he is in a bad state of health, and not strong enough for the work of the Brigade. Your Committee therefore recommend—

That he be discharged.

Your Committee have to report that Fourth-class Fireman, Joseph W. Reeves has

withdrawn from the service, and that his name has accordingly been removed from the list of Firemen.

Your Committee have further to submit the following recommendations—

That the following promotions be made—First-class Fireman James Knight to the rank of an Engineer ; Second-class Fireman Charles West to the First Class ; Third-class Fireman William Hampton to the Second Class ; and Fourth-class Fireman Frederick E. Matson to the Third Class.

That John T. Payne be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

Your Committee have further to report for the Board's information that some repairs and other works being necessary at the Portland-road Station, they have arranged for the work to be done by Mr. J. W. Dixon for the sum of £156.

All which your Committee beg to submit.

(Signed) GEO. HILL,
GEO. EDWARDS,
W. J. WETENHALL,
W. R. SELWAY,
ROBT. JONES.

The Report having been read and received,

It was *moved* by Mr. Hill, seconded, and *resolved*—That the Committee be authorised to obtain a suitable Barge, to be moored in the River as a place of storage of Coal and Coke for the use of the Floating-engines, and that, as the Barge will be an addition to the plant of the Fire Brigade, the cost be charged to Capital Account.

It was *moved* by Mr. Hill, seconded, and *resolved*—That the Committee be authorised to obtain a new Steam Fire-engine in place of an old one, on which it is not deemed desirable to spend more money in repairs.

It was *moved* by Mr. Hill, seconded, and *resolved*—That Engineer T. K. Langhelt be allowed to retire on the Pension to which he is entitled under the Board's Regulations, viz., £2 1s. 10d. a week.

It was *moved* by Mr. Hill, seconded, and *resolved*—That H. Moore, Fourth-class Fireman, be discharged.

It was *moved* by Mr. Hill, seconded, and *resolved*—That the following promotions be made, viz.—First-class Fireman James Knight to the rank of an Engineer ; Second-class Fireman Charles West to the First Class ; Third-class Fireman William Hampton to the Second Class ; and Fourth-class Fireman Frederick E. Matson to the Third Class.

It was *moved* by Mr. Hill, seconded, and *resolved*—That John T. Payne be appointed, during the pleasure of the Board, in the Fourth Class of Firemen.

13. Mr. Ewin, the Chairman of the Building Act Committee brought up a Report, as follows—

REPORT OF THE BUILDING ACT COMMITTEE.

Spring-gardens, 2nd March, 1886.

Your Committee have to report their proceedings under the Resolution of the Board of the 27th November last (No. 8), authorising them to confer through their Sub-Committee with the Owner of the Hope Music-hall, No. 63, Banner-street, St. Luke's, upon the Six Requisitions contained in the Board's draft Notice with respect to the structural defects of the building. The Owner has not submitted any written observations upon the Board's requirements ; but he has attended your Committee and produced a Drawing showing the premises as they are at present, and as proposed to be altered and enlarged, by adding an existing space between the Public-house and the Music-hall to the area of the latter. Your Committee see no objection to the proposal ; but it appears desirable that the means of communication between the

Music-hall and the Public-house should be limited to one door-way fitted with a self-closing iron door. It will be necessary to add to the Notice certain Requisitions for giving effect to those arrangements, and your Committee are [therefore of opinion that a revised Notice, containing the following Requisitions, should be served upon the Owner of the Hall—

1.—That a new brick wall 9 inches thick, without openings, be built to form an entrance lobby to the Hall, and that such wall be carried down to the footings of the basement; that such entrance lobby be 5 feet wide in the narrowest part, and that the floor and roof of such entrance lobby be constructed of fire-resisting materials to be approved by the Board, and to the satisfaction of the District Surveyor.

2.—That the Western door-way, between the Hall and the Public-house bar, be stopped up with brickwork 9 inches thick.

3.—That the door-way between the Music-hall and the bar parlour of the Public-house be closed by a wrought-iron door not less than one-fourth of an inch thick in the panel, in a wrought-iron frame, hung so as to close of itself.

4.—That the brick wall on the North side of the Hall be removed, and that the space between the site of such wall and the back wall of the Public-house be added to the Hall.

5.—That the fire-place be protected by an iron wire-guard fixed in front of such fire-place.

6.—That the windows in the West wall of the premises adjoining the Music-hall to the Eastward be protected by wrought-iron hoppers placed at an angle of 60° with the horizon, and extending in front of the whole area of such windows.

7.—That the skylight and vertical sashes of the lantern-light in the roof be protected by galvanised iron wire-guards fixed on the outside of such skylight and sashes.

8.—That the skylight over the lobbies and lavatories on the North side of the Hall be protected in a similar manner.

9.—That all door-ways used by the public be increased in width to 4 feet 6 inches, and that the doors be hung in two folds, and be made to open outwards towards the street.

And they recommend—

That a Notice, embodying the above requirements and specifying Two months as the time within which the works are to be commenced, and Six months as the time within which they are to be completed, be prepared by the Solicitor; that the Clerk be instructed to apply to the Home Secretary for his consent to the service of the same; and that, upon the receipt of such consent, the Notice be sealed, and be served by the Solicitor upon the Owner of the Hall.
